(g) *General procedures for bank holding company and merger applications.* In addition to procedures applicable under other provisions of this part, the following procedures are applicable in connection with the Board's consideration of applications under sections 3 and 4 of the Bank Holding Company Act of 1956 (12 U.S.C. 1842 and 1843), hereafter referred to as "section 3 applications" or "section 4 applications," and of applications under section 18(c) of the Federal Deposit Insurance Act (12 U.S.C. 1823), hereafter called "merger applications." Except as otherwise indicated, the following procedures apply to all such applications.

(1) The Board issues each week a list that identifies section 3 and section 4 and merger applications received and acted upon during the preceding week by the Board or the Reserve Banks pursuant to delegated authority. Notice of receipt of all section 3 applications and of section 4(c) (8) applications acted on by the Board is published in the FEDERAL REGISTER.

(2) If a hearing is required by law or if the Board determines that a formal hearing for the purpose of taking evidence is desirable, the Board issues an order for such a hearing, and notice thereof is published in the FEDERAL REGISTER. Any such formal hearing is conducted by an administrative law judge in accordance with the Board's rules of practice for formal hearings (Part 263 of this chapter) except that, unless otherwise ordered by the Board, such a hearing is public.

(3) In any case in which a formal hearing is not ordered by the Board, the Board may afford the applicant and other properly interested persons (including Governmental agencies) an opportunity to present views orally before the Board or its designated representative. Unless otherwise ordered by the Board, any such oral presentation is public and notice of such public proceeding is published in the FEDERAL REGISTER.

(4) Each action taken by the Board on an application is embodied in an order that indicates the votes of members of the Board. The order either contains reasons for the Board's action (i.e., an expanded order) or is accompanied by a statement of the reasons for the Board's action. Both the order and any accompanying statement are released to the press. Each such order is published in the FEDERAL REGISTER. Each order accompanied by a statement and any order

of general interest, together with a list of other orders, are published in the Federal Reserve Bulletin. Action by a Reserve Bank under delegated authority as provided for under Part 265 of this chapter is reflected in a letter of notification to the applicant.

(5) After action by the Board on an application, the Board will not grant any request for reconsideration of its action unless the request presents relevant facts that, for good cause shown, were not previously presented to the Board, or unless it otherwise appears to the Board that reconsideration would be appropriate.

(6) Unless the Board shall otherwise direct, each section 3 and section 4 and merger application is made available for inspection by the public except for portions thereof as to which the Board determines that nondisclosure is warranted under section 552(b) of Title 5 of the United States Code.

(h) *Special procedures for certain applications.* The following types of applications require procedures exclusive of, or in addition to, those described in (g) (1)-(6) above.

(1) Special rules pertaining to section 3 and merger applications follow:

(i) Each order of the Board and each letter of notification by a Reserve Bank acting pursuant to delegated authority approving a section 3 application includes, pursuant to the Act approved February 21, 1966 (12 U.S.C. 1828(c) (1) (6)), a requirement that the transaction approved shall not be consummated before the 30th calendar day following the date of such order. (ii) Each order of the Board approving a merger application includes, pursuant to the Act approved February 21, 1966 (12 U.S.C. 1828(c) (1) (6)), a requirement that the transaction approved shall not be consummated before the 30th calendar day following the date of such order, except as the Board may otherwise determine pursuant to emergency situations as to which the Act permits consummation at earlier dates. (iii) Each order or each letter of notification approving an application also includes, as a condition of approval, a requirement that the transaction approved shall be consummated within 3 months and, in the case of acquisition by a holding company of stock of a newly organized bank, a requirement that such bank shall be opened for business within 6 months, but such periods may be extended for good cause by the Board (or by the appropriate Federal Reserve Bank where authority to grant such extensions is delegated to the Reserve Bank).

(2) For special rules governing procedures for section 4(c) (8) applications, refer to § 225.4(a) (c) of this chapter.

(3) For special rules governing procedures for section 4(c) (9) applications, refer to § 225.4(g) of this chapter.

(4) For special rules governing procedures for section 4(c) (12) applications, refer to § 225.4(d) of this chapter.

(5) For special rules governing procedures for section 4(c) (13) applications, refer to § 225.4(f) of this chapter.

#### § 262.4 Adjudication with formal hearing.

In connection with adjudication with respect to which a formal hearing is required by law or is ordered by the Board, the procedure is set forth in Part 263 of this chapter, entitled "Rules of Practice for Formal Hearings."

#### § 262.5 Appearance and practice.

Appearance and practice before the Board in all matters are governed by § 263.3 of this chapter.

#### § 262.6 Forms.

Necessary forms to be used in connection with applications and other matters are available at the Federal Reserve Banks. A list of all such forms, which is reviewed and revised periodically, may be obtained from any Federal Reserve Bank.

(a) This action is taken pursuant to and in accordance with the provisions of section 552 of Title 5 of the United States Code.

(b) The provisions of section 553 of Title 5, United States Code, relating to notice and public participation and to deferred effective dates, are not followed in connection with the adoption of this action, because the rules involved are procedural in nature and accordingly do not constitute substantive rules subject to the requirements of such section.

By order of the Board of Governors of the Federal Reserve System, March 1, 1973.

[SEAL] MICHAEL A. GREENSPAN,  
Assistant Secretary of the Board.

#### Title 15—Commerce and Foreign Trade CHAPTER III—BUREAU OF EAST-WEST TRADE, DEPARTMENT OF COMMERCE SUBCHAPTER B—EXPORT REGULATIONS [13th Gen. Rev. of the Exports Regs., Amdt. 52]

#### PART 377—SHORT SUPPLY CONTROLS Elimination of Weekly Coal Export Reports

The Department of Commerce has been monitoring the exports of certain types of coal and coke by requiring exporters of these commodities to file weekly reports of their shipment on Form IA-1094, Report of Exports. This report is no longer necessary and is therefore eliminated.

Accordingly, Supplement No. 2 to Part 377 is revised to delete all Schedule B numbers listed therein and the related commodity descriptions. In lieu thereof, the following is substituted: "(At present, no commodities are subject to this weekly reporting requirement.)"

#### Title 17—Commodity and Securities Exchanges

#### CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 33-5365]

#### PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

#### Rule Concerning Use of a Japanese Prospectus in Japan

On June 23, 1970, the Commission published guidelines concerning the applicability of the Federal securities laws to the offer and sale outside the United States of shares of registered open-end investment companies. These guidelines stated, among other things, that investment company shares offered and sold to foreign nationals outside the United States should be registered under the Securities Act of 1933 and offered by a prospectus which does not differ materially from the prospectus used in the United States.

In recent months, the Minister of Finance of Japan has issued an ordinance (Ministerial Ordinance No. 78) to permit registered open-end investment companies to offer and sell in Japan shares there registered. Pursuant to this ordinance, the Ministry of Finance requires that such shares be registered under the Securities Act of 1933 but that any offer or sale in Japan be made exclusively pursuant to the Japanese prospectus. In this regard, questions have arisen as to whether the prospectus required by Japanese law is materially different from the 1933 Act prospectus, and thus whether the issuer is in compliance with section 10(a) of the 1933 Act.

To clarify this situation, in the light of the rather elaborate Japanese requirements, the Commission today announced, under its authority in section 10(b) of the 1933 Act, the adoption of Rule 434C (17 CFR 230.434C). The rule would be applicable to industrial issuers as well as investment companies.

Commission action: Pursuant to authority in the provisions of sections 10(b) and 19(a) of the Securities Act of 1933, as amended, the Commission hereby adopts § 230.434C of Chapter II of Title 17 of the Code of Federal Regulations to read as follows:

#### § 230.434C. Use of Japanese prospectus in Japan.

(a) A prospectus required by the laws of Japan to be used for the offer or sale in Japan of securities which are also registered under the Act shall be deemed to meet the requirements of section 10(a) of the Act when such offers or sales in Japan are to persons who are not nationals or residents of (including corporations, trusts, partnerships created or organized in) the United States provided that such Japanese prospectus contains substantially the information required in the prospectus filed as part of the registration statement under the Act notwithstanding that such Japanese

<sup>1</sup> Securities Act Release No. 5068 (35 FR 12103).

## RULES AND REGULATIONS

prospectus (1) contains certain additional information, and (2) differs in form from the U.S. prospectus.

(b) Three copies of an English translation of a Japanese prospectus described in paragraph (a) above shall be filed with the Commission within 20 days after its use. If such Japanese prospectus is amended, three copies of an English translation of such prospectus as last amended prior to the close of an issuer's fiscal year shall be filed with the Commission within 20 days after the close of such year.

The Commission finds that Rule 434C is a relaxation of the present regulation and should not impose burdens on issuers or others or sacrifice the protection of investors, and thus, further notice and rule making procedures pursuant to 5 U.S.C. 552 are unnecessary.

(Secs. 10(b), 19(a), 48 Stat. 81, 85, secs. 205, 209, 48 Stat. 906, 908, sec. 8, 68 Stat. 685, 15 U.S.C. 77j(b), 77s(a))

By the Commission.

[SEAL] RONALD F. HUNT,  
Secretary.

#### Title 18—Conservation of Power and Water Resources

#### CHAPTER I—FEDERAL POWER COMMISSION

[Docket No. R-308; Order 476]

#### PART 260—STATEMENTS AND REPORTS (SCHEDULES)

#### Annual Report of Gas Supply for Certain Natural Gas Pipelines

MARCH 6, 1973.

In the proceeding in Docket No. R-239, the Commission proposed to require the filing of certain reservoir reserve estimate, contractual, and deliverability data as a part of the then-proposed Form 15. These data were to be submitted on electric accounting punch cards, electric data magnetic tape, or paper tape. By order issued March 31, 1964 (Order No. 279, 31 FPC 750), the Commission prescribed Form No. 15 which did not include the aforementioned data to be filed in automatic data processing (ADP) media. The then-prescribed report was designated as the first phase and further considerations with respect to such data were deferred as the second phase.

By order issued herein on February 16, 1967 (Order No. 337, 37 FPC 326), the Commission further deferred requiring the submission of Form No. 15 in ADP media and made certain minor revisions in section 260.7, Statements and Reports. By further order issued herein on April 27, 1970 (Order No. 339, 43 FPC 563), the Commission amended § 260.7 by requiring the filing of revised Form No. 15 and continued the instant proceeding for consideration of further revisions of § 260.7 with respect to the filing of the aforementioned reservoir data.

Following the issuance of the aforementioned Orders Nos. 337 and 339, it has become increasingly clear that it is necessary to have the second phase reservoir

data to determine the appropriate criteria for checking data filed in other proceedings and through the use of ADP methods to obtain instant checks on the deliverability status of each interstate natural gas pipeline company.

Accordingly, by notice of proposed rule making issued herein on September 29, 1971 (36 FR 19515), it was proposed to amend Form No. 15 by addition of new Schedules Nos. 4 and 5 for the collection of reservoir data and flow test data for nonassociated gas completions, respectively. Further it was proposed to revise the instructions with respect to Form No. 15 to optionally permit the filing of all schedules in ADP media. As stated, a magnetic tape prepared for the electronic computer, accompanied by a verified, attested electronic computer printout, would be the preferred form for filing the report. It is recognized that all companies required to file the report may not presently utilize computers in their operations, and therefore the filing of the report in ADP media will be optional. However, it is the Commission's intention to eventually require all companies to report such data in ADP form. In addition to amending paragraph (a) of § 260.7 as set out in said notice of October 31, 1972, it was further proposed to revise the Form No. 15 by adding new Schedules 4 and 5 in addition to permitting the filing of all schedules in ADP media.

Comments on this former proposal were received from 27 interstate pipeline companies, the Independent Natural Gas Association of America and the Associated Gas Distributors which represented 52 distributing companies. As a result of such comments, it was further proposed to revise Form No. 15 by substituting three schedules to replace the previously proposed five schedules and adding a fourth special schedule for gas not directly related to wells, reservoirs, and fields, all as set forth in Appendix A hereto. It was further proposed that the newly proposed Schedule No. 4 replace Form No. 15-A. As a consequence companies which formerly filed Form 15-A under these regulations would thereafter file only Schedule No. 4 of the revised Form No. 15 and the table of contents and page No. 47, which is the Synopsis of Pipeline Company Gas Supply with Attestations, and such companies would not be required to file Schedules Nos. 1, 2, and 3 of the revised Form No. 15.

With respect to this latter notice, comments were received from the Independent Natural Gas Association of America, 19 interstate natural gas pipelines, the Associated Gas Distributors, and the Public Service Commission for the State of New York. Among the comments made were (a) the proposal to collect 1972 data in 1973 would impose a hardship stating that the preparation necessary and the conversion to the method proposed would require a delay in reporting and requested that 1973 data be collected in 1974; (b) that the collection of Phase

<sup>1</sup> Appendix A filed as part of the original document.

II data would be unduly burdensome; and (c) that further conferences be held.

Following appropriate notice, a further conference was held on January 10, 1973, which was attended by representatives of the pipeline industry, the distributor section of the industry, the general public and representatives from our staff and from the Office of Management and Budget. Following a work session off the record at which details of reporting were discussed, all parties were afforded the opportunity to enter further comments and suggestions on the record.

Following a full review of the record in this proceeding including the modified Form No. 15 as promulgated by the notices hereinbefore set forth, the written comments received and the oral record as made on January 10, 1973, it is clear that the data herein and hereby required to be filed and the form of reporting such data are such as to facilitate the Commission in carrying out its obligations under the Natural Gas Act. Further, although we are aware that the time factor may be somewhat burdensome to some persons who are required to complete the revised Form No. 15, the Commission's need for the data is so great at this time of energy shortage, we are hereinafter requiring the data for the calendar year 1972 be reported in 1973 as hereinafter provided.

The Commission finds:

In view of the foregoing and upon consideration of all the relevant matters presented in the comments received, it is necessary and appropriate in the administration of the Natural Gas Act that the use of Form No. 15, as modified herein, be prescribed for the reporting years 1972 and thereafter.

The Commission, acting under the authority of the Natural Gas Act, as amended, particularly sections 7, 10(a), 14(a), and 16 thereof (52 Stat. 825, 826, 828, 830; 56 Stat. 83; U.S.C. 717f, 717i(a), 717o), orders:

(A) Effective upon the issuance of this order, Part 260, Chapter I, Title 18 of the Code of Federal Regulations, is amended as follows:

1. In § 260.7, paragraph (a), (b), and (c) are revised to read as follows:

§ 260.7 Form 15, Annual report of gas supply for certain natural gas pipelines.

(a) A revised form of Annual Report of total Gas Supply, designated FPC Form No. 15, is prescribed for the reporting year 1972 and thereafter to be used by natural gas companies as provided by and in accordance with paragraphs (b) and (c) of this section.

(b) Each natural gas company, as defined by the Natural Gas Act, as amended (52 Stat. 821), subject to the requirements of § 260.7 (18 CFR 260.7) except (1) a company whose gas reserves, owned or controlled by producer contracts, at the end of any report year are less than 50 billion cubic feet of gas, or (2) a company purchasing its entire supply of natural gas from other companies subject to the provisions of this section and/or foreign suppliers, or (3)

a company which acts only as a transporter of gas for others, shall prepare and file with the Commission for the calendar year ending December 31, 1972, on or before December 31, 1973, and for years subsequent to 1972, on or before each April 1, thereafter, for each calendar year ending December 31, of the previous year all data as prescribed by Paragraph No. 1 of the General Instructions as set out on page 0001 of the Appendix A attached hereto. Such companies having the exceptions hereinbefore stated shall file the schedules required by Paragraph No. 2 of such General Instructions.

(c) Also, in addition to the requirements of paragraph (b)(1) of this section for the reporting year 1972 only, each reporting natural gas company shall file on or before July 1, 1973, either (1) an abbreviated reserves report consisting of the newly revised FPC Form 15 (Appendix A) "Synopsis of Pipeline Company Gas Supply" (page 0047) and lines 101 and 102 of Schedule No. 1 of Appendix A entitled "System Deliverability Summary," or (2) in lieu thereof, at the companies' option, shall file the 1972 data in the same Form 15 format as was used to report the 1971 data.

(B) FPC Form No. 15 as set out and provided for in the attachment hereto, is prescribed, effective for the reporting year 1972 and thereafter, for use in accordance with § 260.7 as revised by paragraph (A) hereof.

(C) In all other respects this proceeding is continued for such further action and orders with respect to Form No. 15 as may appear to be appropriate.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

(SEAL) KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4730 Filed 3-12-73; 8:45 am]

#### Title 21—Food and Drugs CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

##### SUBCHAPTER C—DRUGS PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

###### Bicyclohexylammonium Fumagillin

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (9-252V) filed by Amdal Co., Division of Abbott Laboratories, 14th Street and Sheridan Road, North Chicago, Ill. 60064, proposing revised labeling regarding the safe and effective use of bicyclohexylammonium fumagillin for the prevention of nosema in honey bees. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic

Appendix A filed as part of the original document.

Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135c is amended by adding a new section as follows:

##### § 135c.67 Bicyclohexylammonium fumagillin.

(a) *Specifications.* The drug is a soluble powder containing bicyclohexylammonium fumagillin and appropriate phosphate buffers.

(b) *Sponsor.* See code No. 003 in § 135.501(c) of this chapter.

(c) *Conditions of use.* (1) The drug is used for the prevention of nosema in honey bees.

(2) It is administered usually in a 2:1 sugar sirup containing a concentration of from 75 to 100 milligrams of fumagillin activity per gallon of sugar sirup.

(3) Colonies used for package production should be fed medicated sirup as a principal food supply for a month prior to stocking nuclei or shaking packages for market.

(4) The medicated sirup should not be fed immediately before or during the honey flow.

*Effective date.* This order shall be effective on March 13, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: March 7, 1973.

C. D. VAN HOUWELING,  
Director, Bureau of  
Veterinary Medicine.

[FR Doc. 73-4721 Filed 3-12-73; 8:45 am]

#### ROLITETRACYCLINE MONOGRAPHS Recodification and Technical Revisions

In a notice of proposed rule making published in the FEDERAL REGISTER of October 7, 1972 (37 FR 21344), and a correction of November 8, 1972 (37 FR 23730), the Commissioner of Food and Drugs proposed that the antibiotic drug regulations be amended by revising Parts 141, 141c, 146c, and 149q and by establishing a new Part 150d to provide for the recodification and technical revisions of the rolitetracycline monographs. Interested persons were invited to submit their comments in response to the notice of proposed rule making within 60 days. No comments were received. Accordingly, the Commissioner of Food and Drugs concludes that the antibiotic drug regulations should be amended as set forth below.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 141, 141c, 146c, and 149q are amended and a new Part 150d is added as follows:

##### PART 141—TESTS AND METHODS OF ASSAY OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

§ 141.111 [Amended]

1. In Part 141 in the table in § 141.111(a) by revising the entry in the

"Final concentrations—units or micrograms of antibiotic activity per milliliter" column for rolitetracycline to read "0.160, 0.200, 0.250, 0.312, 0.390 µg."

##### PART 141c—CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS: TESTS AND METHODS OF ASSAY

§§ 141c.248, 141c.249, and 141c.250 [Revoked]

2. In Part 141c by revoking §§ 141c.248, 141c.249, and 141c.250.

##### PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

§§ 146c.248, 146c.249, and 146c.250 [Revoked]

3. In Part 146c by revoking §§ 146c.248, 146c.249, and 146c.250.

##### PART 149q—ROLITETRACYCLINE

§§ 149q.1a, 149q.4, and 149q.5 [Revoked]

4. In Part 149q by revoking §§ 149q.1a, 149q.4, and 149q.5.

##### PART 150d—ROLITETRACYCLINE

5. By adding a new Part 150d consisting at this time of six sections, as follows:

Sec.  
150d.1 Sterile rolitetracycline.  
150d.2 Sterile rolitetracycline nitrate.  
150d.3-150d.10 [Reserved]  
150d.11 Rolitetracycline for intravenous use.

150d.12 Rolitetracycline for intramuscular use.

150d.13 Rolitetracycline nitrate for intravenous use.

150d.14 Rolitetracycline nitrate for intramuscular use.

AUTHORITY: Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357.

§ 150d.1 Sterile rolitetracycline.

(a) *Requirements for certification.*—(1) *Standards of identity, strength, quality, and purity.* Sterile rolitetracycline is N-(1-pyrrolidinylmethyl) tetracycline. It is so purified and dried that:

(i) Its potency is not less than 900 micrograms per milligram on the anhydrous basis.

(ii) It is sterile.

(iii) It is nonpyrogenic.

(iv) It passes the safety test.

(v) It contains no histamine nor histamine-like substances.

(vi) Its moisture content is not more than 3.0 percent.

(vii) Its pH in an aqueous solution containing 10 milligrams per milliliter is not less than 7 and not more than 9, and such solution is substantially clear.

(viii) It is crystalline.

(ix) When calculated on an anhydrous basis, its absorptivity at 380 nanometers is 100±4.4 percent of that of the rolitetracycline standard similarly treated.

(x) It passes the identity test.  
(2) *Labeling.* It shall be labeled in accordance with the requirements of § 148.3 of this subchapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 146.2 of this subchapter, each such request shall contain:

(i) Results of tests and assays on the batch for potency, sterility, pyrogens, safety, histamine, moisture, pH, crystallinity, absorptivity, and identity.

(ii) *Samples required:*  
(a) For all tests except sterility: 10 packages, each containing approximately 500 milligrams.

(b) For sterility testing: 20 packages, each containing approximately 300 milligrams.

(b) *Tests and methods of assay.*—(1) *Potency.* Proceed as directed in § 141.111 of this chapter, preparing the sample for assay as follows: Dissolve an accurately weighed portion of the sample in sufficient methyl alcohol to give a solution containing 1 milligram of rolitetracycline per milliliter (estimated). Further dilute an aliquot of this solution with 0.1M potassium phosphate buffer, pH 4.5 (solution 4), to the reference concentration of 0.25 microgram of rolitetracycline per milliliter (estimated).

(2) *Sterility.* Proceed as directed in § 141.2 of this subchapter, using the method described in paragraph (e)(1) of that section, except use diluting fluid D in lieu of diluting fluid A.

(3) *Pyrogens.* Proceed as directed in § 141.4(b) of this subchapter, using a so-

lution containing 5.0 milligrams of rolitetracycline per milliliter.

(4) *Safety.* Proceed as directed in § 141.5 of this subchapter.

(5) *Histamine.* Proceed as directed in § 141.7 of this subchapter.

(6) *Moisture.* Proceed as directed in § 141.502 of this subchapter.

(7) *pH.* Proceed as directed in § 141.503 of this subchapter, using an aqueous solution containing 10 milligrams per milliliter.

(8) *Crystallinity.* Proceed as directed in § 141.504(a) of this subchapter.

(9) *Absorptivity.* Determine the absorbance of the sample and standard solutions in the following manner: Dissolve an accurately weighed portion of approximately 40 milligrams each of the sample and standard in approximately 150 milliliters of distilled water and mix thoroughly. Dilute each to exactly 250 milliliters with distilled water and mix thoroughly. Transfer a 10.0-milliliter aliquot of each of these solutions to separate 100-milliliter volumetric flasks. Add approximately 75 milliliters of distilled water and 5.0 milliliters of 5N NaOH to each flask, and then dilute to volume with water and mix thoroughly. Exactly 6 minutes after the addition of the NaOH, determine the absorbance of each solution at 380 nanometers, using a suitable spectrophotometer and distilled water as the blank. Determine the percent absorptivity of the sample relative to the absorptivity of the standard using the following calculations:

$$\text{Percent relative absorptivity} = \frac{\text{Absorbance of sample} \times \text{weight of standard} \times \text{potency of standard in micrograms per milligram} \times 10}{\text{Absorbance of standard} \times \text{weight of sample in milligrams} \times 100}$$

where m = percent moisture in the sample.

(10) *Identity.* Place approximately 100 milligrams of the sample to be tested in a test tube, and 5 milliliters of 1N NaOH, and heat gently to boiling for about 15 seconds. (The musty, aminelike odor of pyrrolidine is detectable.) Allow to cool to room temperature. A deep burgundy-red color of the clear solution indicates the presence of rolitetracycline.

§ 150d.2 Sterile rolitetracycline nitrate.

(a) *Requirements for certification.*—(1) *Standards of identity, strength, quality, and purity.* Sterile rolitetracycline nitrate is the nitrate salt of N-(pyrrolidinomethyl) tetracycline. It is so purified and dried that:

(i) It contains not less than 765 micrograms of rolitetracycline per milligram on an "as is" basis.

(ii) It is sterile.

(iii) It is nonpyrogenic.

(iv) It passes the safety test.

(v) It contains no histamine nor histamine-like substances.

(vi) Its moisture content is not more than 5.0 percent.

(vii) Its pH in an aqueous solution containing 10 milligrams per milliliter is not less than 3.5 and not more than 5.5.

(viii) It is crystalline.

(ix) When calculated on an anhydrous basis, its absorptivity at 380 nanometers is 89.2±4.0 percent of that of the rolitetracycline standard similarly treated and corrected for potency.

(x) It gives a positive result to the identity tests for rolitetracycline nitrate.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 148.3 of this subchapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 146.2 of this subchapter, each such request shall contain:

(i) Results of tests and assays on the batch for potency, sterility, pyrogens, safety, histamine, moisture, pH, crystallinity, absorptivity, and identity.

(ii) *Samples required:*  
(a) For all tests except sterility: 10 packages, each containing approximately 500 milligrams.

(b) For sterility testing: 20 packages, each containing approximately 300 milligrams.

(b) *Tests and methods of assay.*—(1) *Potency.* Proceed as directed in § 141.111 of this chapter, preparing the sample for assay as follows: Dissolve an accurately weighed sample in sufficient methyl alcohol to give a solution containing 1 mil-

## RULES AND REGULATIONS

ligram of rolitetracycline per milliliter (estimated). Further dilute an aliquot of this solution with 0.1M potassium phosphate buffer, pH 4.5 (solution 4), to the reference concentration of 0.25 microgram of rolitetracycline per milliliter (estimated).

(2) *Sterility*. Proceed as directed in § 141.2 of this subchapter, using the method described in paragraph (e) (1) of that section, except use diluting fluid D in lieu of diluting fluid A.

(3) *Pyrogens*. Proceed as directed in § 141.4(b) of this subchapter, using a solution containing 5.0 milligrams of rolitetracycline per milliliter.

(4) *Safety*. Proceed as directed in § 141.5 of this subchapter.

(5) *Histamine*. Proceed as directed in § 141.7 of this subchapter.

(6) *Moisture*. Proceed as directed in § 141.502 of this subchapter.

(7) *pH*. Proceed as directed in § 141.503 of this subchapter, using an aqueous solution containing 10 milligrams per milliliter.

Percent relative absorptivity =	Absorbance of sample X	weight of standard in milligrams X	potency of standard in micrograms per milligram X 10,
	Absorbance of standard X	weight of sample in milligrams	X (100-m)

where: m = percent moisture in the sample.

(10) *Identity*—(i) *Rolitetracycline*. Place approximately 100 milligrams of the sample to be used in a test tube, add 5 milliliters of 1N NaOH, and heat gently to boiling for about 15 seconds. (The musty, aminelike odor of pyrrolidine is detectable.) Allow to cool to room temperature. A deep burgundy-red color of the clear solution indicates the presence of rolitetracycline.

(ii) *Nitrate identity*. Transfer approximately 1 gram of sample to a 250-milliliter beaker, add 100 milliliters of water, and acidify with 1 milliliter of acetic acid. Heat to boiling and, with constant stirring, add 10 milliliters of a 10-percent solution of nitron (1,4-diphenyl-3,5-endo-anilino-4,5-dihydro-1,2,4-triazole)  $C_{12}H_{10}N_4$  in 1N acetic acid. Allow to cool. A heavy precipitate indicates the presence of nitrate.

§§ 150d.3—150d.10 [Reserved]

§ 150d.11 Rolitetracycline for intravenous use.

(a) *Requirements for certification*—

(1) *Standard of identity, strength, quality, and purity*. Rolitetracycline for intravenous use is a dry mixture of rolitetracycline and one or more suitable buffer substances. Its potency is satisfactory if it is not less than 90 percent and not more than 115 percent of the number of milligrams of rolitetracycline that it is represented to contain. It is sterile. It is nonpyrogenic. It passes the safety test. It contains no histamine nor histaminelike substances. Its loss on drying is not more than 5 percent. When reconstituted as directed in the labeling,

<sup>1</sup> Nitron is available from J. T. Baker Laboratory Chemicals, North Phillipsburg, N.J. 09865.

(8) *Crystallinity*. Proceed as directed in § 141.504(a) of this subchapter.

(9) *Absorptivity*. Determine the absorbance of the sample and standard solutions in the following manner: Dissolve an accurately weighed portion of approximately 40 milligrams each of the sample and standard in approximately 150 milliliters of distilled water and mix thoroughly. Dilute each to exactly 250 milliliters with distilled water and mix thoroughly. Transfer a 10.0-milliliter aliquot of each of these solutions to representative 100-milliliter volumetric flasks. Add about 75 milliliters of distilled water and 5.0 milliliters of 5N NaOH to each and then dilute to volume with water and mix thoroughly. Exactly 6 minutes after the addition of the NaOH, determine the absorbance of each solution at 380 nanometers, using a suitable spectrophotometer and distilled water as the blank. Determine the percent absorptivity of the sample relative to the absorptivity of the standard using the following calculations:

weight of standard in milligrams	potency of standard in micrograms per milligram $\times 10$ ,
weight of sample in milligrams	$\times (100-m)$

its pH is not less than 3.0 and not more than 4.5. The rolitetracycline used conforms to the standards prescribed by § 150d.1(a) (1).

(2) *Labeling*. It shall be labeled in accordance with the requirements of § 148.3 of this subchapter.

(3) *Requests for certification; samples*. In addition to complying with the requirements of § 146.2 of this subchapter, each such request shall contain:

(i) Results of tests and assays on:

(a) The rolitetracycline used in making the batch for potency, moisture, pH, crystallinity, absorptivity, and identity.

(b) The batch for potency, sterility, pyrogens, safety, histamine, loss on drying, and pH.

(ii) Samples required:

(a) The rolitetracycline used in making the batch: 10 packages, each containing approximately 500 milligrams.

(b) The batch:

(1) For all tests except sterility: A minimum of 10 immediate containers.

(2) For sterility testing: 20 immediate containers, collected at regular intervals throughout each filling operation.

(b) *Tests and methods of assay*—(1) *Potency*. Proceed as directed in § 141.111 of this subchapter, preparing the sample for assay as follows: Reconstitute the sample as directed in the labeling. Using a suitable hypodermic needle and syringe, remove all of the withdrawable contents if it is represented as a single dose container; or if the labeling specifies the amount of potency in a given volume of the resultant preparation, remove an accurately measured representative portion from each container. Add sufficient methyl alcohol to give a solution containing 1 milligram of rolitetracycline per milliliter (estimated). Further dilute an aliquot of this solution

with 0.1M potassium phosphate buffer, pH 4.5 (solution 4), to the reference concentration of 0.25 microgram of rolitetracycline per milliliter (estimated).

(2) *Sterility*. Proceed as directed in § 141.2 of this subchapter, using the method described in paragraph (e) (1) of that section, except use diluting fluid D in lieu of diluting fluid A.

(3) *Pyrogens*. Proceed as directed in § 141.4(b) of this subchapter, using a solution containing 5.0 milligrams of rolitetracycline per milliliter.

(4) *Safety*. Proceed as directed in § 141.5 of this subchapter.

(5) *Histamine*. Proceed as directed in § 141.7 of this subchapter.

(6) *Moisture*. Proceed as directed in § 141.502 of this subchapter.

(7) *pH*. Proceed as directed in § 141.503 of this subchapter, using an aqueous solution containing 10 milligrams per milliliter.

FEDERAL REGISTER, VOL. 38, NO. 48—TUESDAY, MARCH 13, 1973

## RULES AND REGULATIONS

tion containing 1 milligram of rolitetracycline per milliliter (estimated). Further dilute an aliquot of this solution with 0.1M potassium phosphate buffer, pH 4.5 (solution 4), to the reference concentration of 0.25 microgram of rolitetracycline per milliliter (estimated).

(2) *Sterility*. Proceed as directed in § 141.2 of this subchapter, using the method described in paragraph (e) (1) of that section, except use diluting fluid D in lieu of diluting fluid A.

(3) *Pyrogens*. Proceed as directed in § 141.4(b) of this subchapter, using a solution containing 5.0 milligrams of rolitetracycline per milliliter.

(4) *Loss on drying*. Proceed as directed in § 141.501(b) of this subchapter.

(5) *pH*. Proceed as directed in § 141.503 of this subchapter, using a solution prepared as directed in the labeling.

§ 150d.13 Rolitetracycline nitrate for intravenous use.

(a) *Requirements for certification*—

(1) *Standard of identity, strength, quality, and purity*. Rolitetracycline nitrate for intravenous use is a dry mixture of rolitetracycline nitrate and one or more suitable buffer substances. Its potency is satisfactory if it contains not less than 90 percent and not more than 115 percent of the number of milligrams of rolitetracycline that it is represented to contain. It is sterile. It is nonpyrogenic. It passes the safety test. It contains no histamine nor histaminelike substances. Its loss on drying is not more than 5 percent. When reconstituted as directed in the labeling, its pH is not less than 2.5 nor more than 4.0. The rolitetracycline nitrate used conforms to the standards prescribed by § 150d.2(a) (1).

(2) *Labeling*. It shall be labeled in accordance with the requirements of § 148.3 of this subchapter.

(3) *Requests for certification; samples*. In addition to complying with requirements of § 146.2 of this subchapter, each such request shall contain:

(i) Results of tests and assays on:

(a) The rolitetracycline nitrate used in making the batch for potency, moisture, pH, crystallinity, absorptivity, and identity.

(b) The batch for potency, sterility, pyrogens, safety, histamine, loss on drying, and pH.

(ii) Samples required:

(a) The rolitetracycline nitrate used in making the batch: 10 packages, each containing approximately 500 milligrams.

(b) The batch:

(1) For all tests except sterility: A minimum of 10 immediate containers.

(2) For sterility testing: 20 immediate containers, collected at regular intervals throughout each filling operation.

(b) *Tests and methods of assay*—(1) *Potency*. Proceed as directed in § 141.111 of this subchapter, preparing the sample for assay as follows: Reconstitute the sample as directed in the labeling. Using a suitable hypodermic needle and syringe, remove all of the withdrawable contents if it is represented as a single dose container; or if the labeling specifies the amount of potency in a given volume of the resultant preparation, remove an accurately measured representative portion from each container. Add sufficient methyl alcohol to give a solu-

tion containing 1 milligram of rolitetracycline per milliliter (estimated). Further dilute an aliquot of this solution with 0.1M potassium phosphate buffer, pH 4.5 (solution 4), to the reference concentration of 0.25 microgram of rolitetracycline per milliliter (estimated).

(2) *Sterility*. Proceed as directed in § 141.2 of this subchapter, using the method described in paragraph (e) (1) of that section, except use diluting fluid D in lieu of diluting fluid A.

(3) *Pyrogens*. Proceed as directed in § 141.4(b) of this subchapter, using a solution containing 5.0 milligrams of rolitetracycline per milliliter.

(4) *Loss on drying*. Proceed as directed in § 141.501(b) of this subchapter.

(5) *pH*. Proceed as directed in § 141.503 of this subchapter, using a solution prepared as directed in the labeling.

§ 150d.14 Rolitetracycline nitrate for intramuscular use.

(a) *Requirements for certification*—

(1) *Standard of identity, strength, quality, and purity*. Rolitetracycline nitrate for intramuscular use is a dry mixture of rolitetracycline nitrate and one or more suitable buffer substances. Its potency is satisfactory if it contains not less than 90 percent and not more than 115 percent of the number of milligrams of rolitetracycline that it is represented to contain. It is sterile. It is nonpyrogenic. It passes the safety test. It contains no histamine nor histaminelike substances. Its loss on drying is not more than 5 percent. When reconstituted as directed in the labeling, its pH is not less than 2.5 nor more than 4.0. The rolitetracycline nitrate used conforms to the standards prescribed by § 150d.2(a) (1).

(2) *Labeling*. It shall be labeled in accordance with the requirements of § 148.3 of this subchapter.

(3) *Requests for certification; samples*. In addition to complying with requirements of § 146.2 of this subchapter, each such request shall contain:

(i) Results of tests and assays on:

(a) The rolitetracycline nitrate used in making the batch for potency, moisture, pH, crystallinity, absorptivity, and identity.

(b) The batch for potency, sterility, pyrogens, safety, histamine, loss on drying, and pH.

(ii) Samples required:

(a) The rolitetracycline nitrate used in making the batch: 10 packages, each containing approximately 500 milligrams.

(b) The batch:

(1) For all tests except sterility: A minimum of 10 immediate containers.

(2) For sterility testing: 20 immediate containers, collected at regular intervals throughout each filling operation.

(b) *Tests and methods of assay*—(1) *Potency*. Proceed as directed in § 141.111 of this subchapter, preparing the sample for assay as follows: Reconstitute the sample as directed in the labeling. Using a suitable hypodermic needle and syringe, remove all of the withdrawable contents if it is represented as a single dose container; or if the labeling specifies the amount of potency in a given volume of the resultant preparation, remove an accurately measured representative portion from each container. Add sufficient methyl alcohol to give a solu-

tion containing 1 milligram of rolitetracycline per milliliter (estimated). Further dilute an aliquot of this solution with 0.1M potassium phosphate buffer, pH 4.5 (solution 4), to the reference concentration of 0.25 microgram of rolitetracycline per milliliter (estimated).

(2) *Sterility*. Proceed as directed in § 141.2 of this subchapter, using the method described in paragraph (e) (1) of that section, except use diluting fluid D in lieu of diluting fluid A.

(3) *Pyrogens*. Proceed as directed in § 141.4(b) of this subchapter, using a solution containing 5.0 milligrams of rolitetracycline per milliliter.

(4) *Loss on drying*. Proceed as directed in § 141.501(b) of this subchapter.

(5) *pH*. Proceed as directed in § 141.503 of this subchapter, using a solution prepared as directed in the labeling.

Effective date. This order shall become effective on April 12, 1973.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: March 7, 1973.

MARY A. MCENIRY,  
Assistant to the Director for  
Regulatory Affairs, Bureau  
of Drugs.

PART 148f—GRAMICIDIN  
Change in Identity Test

In a notice published in the FEDERAL REGISTER of October 7, 1972 (37 FR 21347), the Commissioner of Food and Drugs proposed to amend the antibiotic drug regulations to require that the gramicidin identity test be calculated on the anhydrous basis. Interested persons were invited to submit their comments in response to the notice of proposed rule making within 60 days. No comments were received. Accordingly, the Commissioner of Food and Drugs concludes that the antibiotic drug regulations should be amended as set forth below.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), Part 148f is amended in § 148f.1 by revising paragraphs (a) (1)(vi) and (b) (6) to read as follows:

§ 148f.1 Gramicidin.

(a) *Requirements for certification*. . . .

(1) . . . .

(vi) When calculated on the anhydrous basis, the difference between the absorptivity value at the maximum occurring at 282 nanometers and the absorptivity

FEDERAL REGISTER, VOL. 38, NO. 48—TUESDAY, MARCH 13, 1973

## RULES AND REGULATIONS

value at the minimum occurring at 247 nanometers is 100±4 percent of the difference obtained with the gramicidin working standard.

(b) *Tests and methods of assay.*

(6) *Identity.* Accurately weigh about 20 milligrams of the sample and dilute in ethyl alcohol to give a concentration of 0.05 milligram (estimated) of gramicidin per milliliter. Prepare a solution of the gramicidin working standard to contain 0.05 milligram per milliliter in ethyl alcohol. Using a suitable recording spectrophotometer with 1-centimeter cells, record the ultraviolet absorbance spectrum of each solution from 220 nanometers to 320 nanometers. The ultraviolet absorbance spectrum of the sample solution should compare qualitatively to that of the working standard solution. Determine the absorptivities of each at the maximum occurring at 282 nanometers and at the minimum occurring at 247 nanometers (the exact position of the gramicidin working standard should be determined for the particular instrument used).

*Effective date.* This order shall be effective on April 12, 1973.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: March 7, 1973.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY  
SUBCHAPTER E—ALCOHOL, TOBACCO, AND OTHER EXCISE TAXES

[T.D. ATF-3]

PART 240—WINE

Materials Authorized for Treatment of Wine

This document amends 26 CFR Part 240, Wine, the primary purposes being to make it consistent with 21 CFR Part 121, GRAS and Food Additive Status, with respect to materials authorized for treatment of wine, and to provide for continuing consistency between these parts. The most significant changes consist of additions and deletions to the list of approved materials, changes in the authorized uses of certain materials, and the addition of provisions for removing from the list of approved materials those materials which are removed by the Commissioner of Food and Drugs from the GRAS listing.

On November 2, 1972, a notice of proposed rule making to amend 26 CFR Part 240, as described in the previous para-

graph, was published in the *FEDERAL REGISTER* (37 FR 23339). In accordance with the notice, interested persons were afforded an opportunity to submit written comments or suggestions pertaining thereto. After consideration of all relevant matter presented and further study of the proposed amendments, the amendments to 26 CFR Part 240 are hereby adopted as published in the notice of proposed rule making subject to the following changes:

The entry for "ammonium phosphate (monobasic and dibasic)", has been deleted since this material is included within the term "phosphates" which is already on the list of approved materials; however, the uses (and limitations on the uses) of ammonium phosphate (monobasic and dibasic) and diammonium phosphate have been added to the existing "phosphates" entry; polyvinylpyrrolidone has been added to the list of authorized materials as a wine clarifier; and the uses of "granular cork" have been broadened so that it may be used to treat wines stored in tanks constructed of materials other than redwood or concrete. The preamble is changed by modifying items (b) through (f) thereof to read: "(b) adding polyvinylpyrrolidone to the list of approved materials; (c) deleting diammonium phosphate; (d) deleting glycine (amino acetic acid); (e) deleting diethyl pyrocarbonate; (f) combining the entries for the materials ammonium phosphate (monobasic and dibasic) and phosphates into the single entry phosphates;" and adding item (g) which will read "and (g) broadening the authorized use of granular cork."

The list of materials authorized for use in wine is changed to combine the entries for the materials "Ammonium phosphate (monobasic and dibasic)" and "Phosphates" into the single entry "Phosphates"; to add the material "Polyvinylpyrrolidone" and to broaden the authorized uses of "Granular cork". To accom-

plish this the list of materials as published in the notice of proposed rule making is further changed to read as set forth below.

In order to make 26 CFR Part 240, Wine, consistent with 21 CFR Part 121, GRAS and Food Additive Status, with respect to materials authorized for treatment of wine, and to provide for continuing consistency between these parts, the regulations in 26 CFR Part 240 are amended as follows:

Section 240.1051 is amended by: (a) Adding a sentence to the introductory paragraph to provide for removal from the list of materials authorized for treatment of wine, those materials which are removed by the Commissioner of Food and Drugs from the GRAS listing; (b) adding polyvinylpyrrolidone to the list of approved materials; (c) deleting diammonium phosphate; (d) deleting glycine (amino acetic acid); (e) deleting diethyl pyrocarbonate; (f) combining the entries for the materials ammonium phosphate (monobasic and dibasic) and phosphates into the single entry phosphates; and (g) broadening the authorized use of granular cork.

§ 240.1051 Materials authorized for treatment of wine.

The materials listed below are approved, as being consistent with good commercial practice, for use by proprietors of bonded wine cellars in the production, cellar treatment, or finishing of wine (including distilling material), within the general limitations of § 240.524, or the specific limitations shown in the table, or given in the sections referred to: *Provided*, That when any approved material on this list is removed from the Food and Drug Administration list of products generally recognized as safe, the Director may cancel its approval for use in the production, cellar treatment, or finishing of wine (including distilling material).

Materials	Use	Reference or limitation
Defoaming agents (polyoxyethylene-40-monoesterate and silicon dioxide) (sorbic acid, carboxy methyl cellulose, dimethyl polysiloxane, polyoxyethylene (40) monoesterate, and sorbitan monoesterate). Eggs (Albumen or yolks).	Defoaming agent.	Defoaming agents which are 100 percent active may be used in amounts not exceeding 0.15 pound per 1,000 gallons of wine. Defoaming agents which are 30 percent active may be used in amounts not exceeding 0.5 pound per 1,000 gallons of wine. Silicon dioxide shall be completely removed by filtration. 21 CFR 121.1099, 121.101(d)(2), 121.101(d)(8).
Gelatin.	To clarify wine.	GRAS.
Granular cork.	For treatment of wine.	The amount used shall not exceed 10 pounds per 1,000 gallons of wine GRAS.
Phosphates.	Yeast food in distilling material and wine production, and to start secondary fermentation in manufacturing champagne and sparkling wines.	As a yeast food in distilling material, the amount shall not exceed 10 pounds per 1,000 gallons. In wine production, the amount shall not exceed 1.7 pounds per 1,000 gallons. In manufacturing champagne and sparkling wines a small quantity only shall be used. 21 CFR 121.101(d)(8).
Polyvinylpyrrolidone (PVP).	To clarify wine.	The residual level of PVP in the finished wine will not exceed 60 p.p.m.

(72 Stat. 13-3; 26 U.S.C. 6382)

## RULES AND REGULATIONS

This Treasury decision shall become effective on May 1, 1973.

(26 U.S.C. 7805 (68 Stat. 917))

[SEAL] REX D. DAVIS,  
Director, Bureau of Alcohol,  
Tobacco and Firearms.

Approved: March 2, 1973.

EDWARD L. MORGAN,  
Assistant Secretary  
of the Treasury.

SUBCHAPTER F—PROCEDURE AND ADMINISTRATION  
[T.D. 7266]

PART 301—PROCEDURE AND ADMINISTRATION

Inspection of Returns by U.S. Attorneys and Attorneys of Department of Justice and Use of Returns in Grand Jury Proceedings and in Litigation

To officers and employees of the Treasury Department and others concerned. In order to revise and strengthen the procedures governing the inspection of returns by U.S. attorneys and attorneys of the Department of Justice and the use of returns in grand jury proceedings and in litigation under section 6103 of the Internal Revenue Code of 1954, the Regulations on Procedure and Administration (26 CFR Part 301) under such section are amended as follows:

Section 301.6103(a)-1 is amended by revising paragraphs (g) and (h). The amended provisions read as follows:

§ 301.6103(a)-1 Inspection of returns by certain classes of persons and State and Federal Government establishments pursuant to Executive order.

(g) *Inspection of returns by U.S. attorneys and attorneys of Department of Justice.* A return in respect of any tax described in paragraph (a) (2) of this section shall be open to inspection by a U.S. attorney or by an attorney of the Department of Justice where necessary in the performance of his official duties. The application for inspection shall be in writing and shall show (1) the name and address of the person for whom the return was made, (2) the kind of tax reported on the return, (3) the taxable period covered by the return, and (4) the reason why inspection is desired. The application shall, where the inspection is to be made by a U.S. attorney, be signed by such attorney, and, where the inspection is to be made by an attorney of the Department of Justice, be signed by the Attorney General, Deputy Attorney General, or an Assistant Attorney General. The application shall be addressed to the Commissioner of Internal Revenue, Washington, D.C. 20224, with a copy addressed to the internal revenue officer (the district director or the director of the service center) with whom the return was filed.

(h) *Use of returns in grand jury proceedings and in litigation.* Returns made in respect of any tax described in paragraph (a) (2) of this section, or copies thereof, may be furnished by the Secretary or the Commissioner or the delegate of either to a U.S. attorney or an attorney of the Department of Justice for official use in proceedings before a U.S. grand jury, or in litigation in any court, if the United States is interested in the result, or for use in preparation for such proceedings or litigation. The original return will be furnished only in exceptional cases, and then only if it is made to appear that the ends of justice may otherwise be defeated. Returns or copies thereof will be furnished without written application therefor to U.S. attorneys and attorneys of the Department of Justice for official use in the prosecution of claims and demands by, and offenses against, the United States, or the defense of claims and demands against the United States or officers or employees thereof, in cases arising under the internal revenue laws or related statutes which were referred by the Department of the Treasury to the Department of Justice for such prosecution or defense. In all other cases, written application for a return or copies thereof shall be made to the Commissioner of Internal Revenue, Washington, D.C. 20224, with a copy addressed to the internal revenue officer (the district director or the director of the service center) with whom the return was filed. The application shall be in writing and shall show (1) the name and address of the person for whom the return was made, (2) the kind of tax reported on the return, (3) the taxable period covered by the return, and (4) the reason why the return or a copy thereof is desired. Such application shall be signed by the U.S. attorney if the return or copy is for his use, or by the Attorney General, the Deputy Attorney General, or an Assistant Attorney General if the return or copy is for the use of an attorney of the Department of Justice. For provisions relating to the certification of copies of returns, see § 301.6103 (a)-2. If a return, or copy thereof, is furnished pursuant to this paragraph, it shall be limited in use to the purpose for which it is furnished and is under no condition to be made public except to the extent that publicity necessarily results from such use. Neither the original nor a copy of a return desired for use in litigation in court will be furnished if the United States is not interested in the results, but this provision is not a limitation on the use of copies of returns by the persons entitled thereto. See paragraphs (e) and (f) of this section for use, in proceedings to which the United States is a party, of information obtained by executive departments and other Federal Government establishments from inspection of returns. If a U.S. attorney or an attorney of the Department of Justice has obtained a copy of a return under paragraph (g) of this section, an

application for the use of such return in a situation specified in this paragraph shall not be necessary. Returns shall not be made available to the Department of Justice for purposes of examining prospective jurors except that this shall not prohibit the answering of an inquiry, from the Department of Justice, as to whether a prospective juror has, or has not, been investigated by the Internal Revenue Service.

Because this Treasury decision constitutes a general statement of policy and establishes rules of Departmental practice and procedure, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

[SEAL] GEORGE P. SHULTZ,  
Secretary of the Treasury.

Approved: March 8, 1973.

RICHARD NIXON,  
The White House.

Title 41—Public Contracts and Property Management

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

Contract Clauses Related To Transportation

This change establishes a new Part 5A-19, Transportation, to revise and consolidate material related to transportation matters heretofore contained in various parts of Chapter 5A.

PART 5A-7—CONTRACT CLAUSES

The table of contents for Part 5A-7 is amended by revision of the following entry:

5A-7.101-78. Identification of production point.

Subpart 5A-7.1—Fixed Price Supply Contracts

Section 5A-7.101-78 is revised to read as follows:

§ 5A-7.101-78 Identification of production point.

When identification of production point is required as part of the solicitation, a clause substantially as follows shall be inserted (see § 1-2.201(b)(4)):

PRODUCTION POINT

Offeror shall insert, in the spaces below, the names of the manufacturers of the items offered and the address and telephone numbers of the production facility(ies).

Item No.	Name of manufacturer	Production point (name, address, including county and telephone)
-----	-----	-----
-----	-----	-----
-----	-----	-----

Chapter 5A is amended by adding new Part 5A-19 as follows:

# **PART 5A-19—TRANSPORTATION**

**Subpart 5A-19.1—General**  
Sec. 5A-19.102 Coordination between contracting and transportation officers.

**Subpart 5A-19.2—Transportation Factors in the Procurement of Personal Property**

5A-19.202 Transportation factors in invitations.  
5A-19.202-2 Packing and marking.  
5A-19.202-6 Bid requirements.  
5A-19.202-7 Use of appropriate delivery terms.  
5A-19.202-8 Options in shipment and delivery.

**Subpart 5A-19.3—Contract Delivery Terms**  
5A-19.301 Use of standard delivery terms.  
5A-19.370 Deliveries to GSA supply distribution facilities.  
5A-19.371 Delivery terms—Federal Supply Schedule contracts.

**AUTHORITY:** Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5-1(c).

## **Subpart 5A-19.1—General**

**§ 5A-19.102 Coordination between contracting and transportation officers.**

The contracting officer shall obtain traffic management advice and assistance, including appropriate transportation factors, required for (a) solicitations and awards and (b) the administration and modification of contracts from transportation officers, FSS.

**Subpart 5A-19.2—Transportation Factors in the Procurement of Personal Property**

**§ 5A-19.202 Transportation factors in invitations.**

**§ 5A-19.202-2 Packing and marking.**

See §§ 5A-7.101-75, 5A-7.101-76, and 5A-7.101-79 (clauses 31, 29, and 33, respectively, of GSA Form 1424).

**§ 5A-19.202-6 Bid requirements.**

(a) *General.* See § 1-19.202-6 for general requirements.

(b) *Notice of shipment.* See §§ 5A-7.101-70 (clause 37 of GSA Form 1424) and 5A-16.950-1056 for notice of shipment clause and form.

(c) *Shipping points.* When f.o.b. origin prices are solicited, offerors shall be required to specify their shipping point(s) by providing street address, city, county, and State applicable to each item on which an offer is submitted. Spaces shall be provided in the solicitation for the insertion of this information.

(d) *Guaranteed maximum shipping weights.* When guaranteed maximum shipping weights and/or dimensions are required for evaluation of freight costs, see § 5A-7.101-82 (clause 38 of GSA Form 1424).

**§ 5A-19.202-7 Use of appropriate delivery terms.**

See § 1-19.202-7 for guidance in the selection of appropriate delivery terms. If the contracting officer uses only one delivery term in the solicitation despite guidance in § 1-19.202-7 that alternative delivery terms should be included, the reasons for so doing shall be stated in the contract file.

## **RULES AND REGULATIONS**

**§ 5A-19.202-8 Options in shipment and delivery.**

The clause in § 5A-7.101-2 (clause 2 of GSA Form 1424) is an amplification of Article 2 (Changes) of the General Provisions, Standard Form 32, and is prescribed for use in all Federal Supply Service contracts except Federal Supply Schedule contracts.

**Subpart 5A-19.3—Contract Delivery Terms**

**§ 5A-19.301 Use of standard delivery terms.**

(a) "Standard" delivery terms are those listed and defined in § 1-19.302 through 1-19.315. These terms should be used except in particular types of contracts for which specially adapted delivery provisions are required. (See (c), below.) In this connection, it has been determined that the standard delivery term "f.o.b. destination" does not satisfy the Government's needs with respect to contracts for stock items and Federal Supply Schedule contracts. Accordingly, special clauses providing for destination delivery are prescribed in §§ 5A-19.370 and 5A-19.371 for use in such contracts.

(b) The use of a standard delivery term in a solicitation activates clause 36 of GSA Form 1424 entitled "Meaning of Delivery Terms" (see § 5A-7.101-73) which in turn causes the FPR definition of the term and related contractor responsibilities shown thereunder to be incorporated by reference in the solicitation.

(c) When other than standard delivery terms are used, the solicitation shall clearly define the point of delivery and shall set forth thereunder any appropriate related contractor responsibilities. These responsibilities shall include factors such as those outlined in "contractor responsibilities" under specific FPR delivery terms, unless such responsibilities are provided for elsewhere in the solicitation.

**§ 5A-19.370 Deliveries to GSA supply distribution facilities.**

(a) The following clause shall be used in contracts for stock items when separate delivered prices are solicited for individual GSA supply distribution facilities. The first sentence of the clause may be modified as appropriate when prices are requested to cover deliveries to specified destinations within certain areas (i.e., GSA regions or zones). When prices are solicited covering delivery to any point within specified regions or zones, the geographic areas of the regions or zones shall be defined in the solicitation.

**DELIVERY-DESTINATION PRICES**

Prices cover delivery to the GSA supply distribution facilities specified in the item listing. Supplies shall be delivered to the named destination consignee's warehouse, unloading platform, or receiving dock at the expense of the Contractor. The Government shall not be liable for any delivery, storage, demurrage, detention, accessorial, or other charges involved prior to the actual delivery (or "constructive placement" as defined in carrier tariffs) of the supplies to the destination, unless such charges are caused by an act or

order of the Government acting in its contractual capacity. If rail carrier is used, supplies will be delivered to the specified unloading platform of the consignee. If motor carrier (including "piggyback") is used, supplies will be delivered to truck tailgate at the unloading platform of the consignee. If the Contractor uses rail carrier or freight forwarder for less than carload shipments, he shall ensure that the carrier will furnish tailgate delivery if transfer to truck is required to complete delivery to consignee.

(b) Less-than-carload/less-than-truckload shipments to GSA supply distribution facilities.

(1) It is common industry practice for shippers to take advantage of lower freight rates by consolidating less-than-carload/less-than-truckload shipments into a carload or truckload with stopoff privileges en route for partial unloading. Where a supply contract provides for delivery to destination, any economies resulting from such consolidation accrue to the contractor; therefore, any costs associated with the use of the stopoff privilege should be borne by him. However, since the carrier's tariff rules provide with respect to such shipments that each intermediate consignee must restow, block, and brace the remaining shipments in the conveyance prior to releasing the conveyance back to the carrier, the Government bears the restoration costs unless it recovers them from the contractor. Accordingly, invitations for bids for stock items which provide for delivery on a destination basis shall contain the following clause (clause 34 of GSA Form 1424):

**LESS-THAN-CARLOAD/LESS-THAN-TRUCKLOAD SHIPMENTS WITH STOPOFF PRIVILEGES**

(a) When the contract provides for delivery to destination and the Contractor elects to deliver a less-than-carload/less-than-truckload quantity with stopoff privileges for partial unloading, the Government's shipment must be loaded by the Contractor in a manner which will not require the Government to restow, block, and brace any freight remaining in the conveyance.

(b) In the event the Contractor fails to comply with the above requirement, the Government shall have the right, without prejudice to any other available remedies under the contract, to (1) reject the shipment or (2) perform the required restowing, blocking, and bracing by use of Government personnel and charge the Contractor therefor at a rate of \$11 per man-hour, with a minimum of \$11, and deduct such charges from the Contractor's invoice for the material.

(2) Deductions from contractor's invoice pursuant to paragraph (b) of the clause above will be made by the appropriate accounting center making payment for the supplies and will be based on a statement furnished by the receiving supply facility indicating the amount to be deducted and the basis therefor.

**§ 5A-19.371 Delivery terms—Federal Supply Schedule contracts.**

(a) The following clause may be used in Federal Supply Schedule solicitations, as applicable, covering delivery to all destinations within specified zones, including Alaska, Hawaii, and Puerto Rico when contracts awarded include delivery prices for those zones:

## **DELIVERY PRICES**

Prices offered must cover delivery to destinations within the zone(s) to which such prices apply, as provided below:

(a) Delivery to the door of the specified Government activity by freight or express common carriers on articles for which store-door delivery is provided, free or subject to a charge, pursuant to regularly published tariffs duly filed with the Federal and/or State regulatory bodies governing such carrier; or, at the option of the Contractor, by parcel post on mailable articles, or by the Contractor's vehicle. Where store-door delivery is subject to a charge, the Contractor shall (1) place the notation "Delivery Service Requested" on bills of lading covering such shipments and (2) pay such charge and add the actual cost thereof as a separate item to his invoice.

(b) Delivery to siding at destination when specified by the ordering office, if delivery is not covered under paragraph (a), above.

(c) Delivery to the freight station nearest destination when delivery is not covered under paragraphs (a) or (b), above.

**ZONES:** For the purpose of this solicitation and any resulting contract, zones consist of the geographic areas specified below:

Zone	Geographic Area
(b) When delivered prices are desired to a specific area representing a large portion of potential requirements and it is also desired to make the items available outside such area, with appropriate adjustment in transportation costs, the following clause (modified to specify the applicable area) shall be used (Washington, D.C., is used as an example only):	

**DELIVERY PRICES**

Prices bid must cover delivery to destination in Washington, D.C., and contiguous area as provided below:

(a) Deliveries in the District of Columbia must be made, at the expense of the Contractor, within the doors of the storeroom ("storeroom" is understood to mean that room on the entrance floor of the building in which supplies can be deposited) designated in the order. Deliveries in Prince Georges and Montgomery Counties in Maryland, the cities of Alexandria and Falls Church, and Arlington and Fairfax Counties in Virginia shall be made at the expense of the Contractor as follows:

(1) Delivery to the door of the specified Government activity by freight or express common carriers on articles for which store-door delivery is provided, free or subject to a charge, pursuant to regularly published tariffs duly filed with the Federal and/or State regulatory bodies governing such carrier; or, at the option of the Contractor, by parcel post on mailable articles, or by the Contractor's vehicle. Where store-door delivery is subject to a charge the Contractor shall (1) place the notation "Delivery Service Requested" on bills of lading covering such shipments and (1) pay such charge and add the actual cost thereof as a separate item to his invoice.

(2) Delivery to siding at destination when specified by the ordering office, if delivery is not covered under subparagraph (a) (1), above.

(3) Delivery to the freight station nearest destination when delivery is not covered under subparagraph (a) (1) or (2), above.

(b) When deliveries are made to destinations outside Washington, D.C., and contiguous area, the following conditions will apply:

(1) On shipments weighing less than 100 pounds where transportation charges are not greater than to Washington, D.C., the Contractor shall pay transportation charges. No freight adjustments are required.

(2) On all shipments other than specified in subparagraph (b) (1), above, the Contractor shall deduct from his invoice the transportation charges from his shipping point to Washington, D.C., and add the actual cost of transportation to destinations designated by ordering offices. Transportation charges will in all cases be based upon the lowest regularly established rates on file with the Interstate Commerce Commission, the Federal Maritime Commission (if shipped by water), or any State regulatory body, or published by the U.S. Postal Service, and must be supported by paid freight or express receipt or by a statement of parcel post charges, including weight of the shipment, or when delivered in Contractor's vehicle, by an explanatory statement.

(3) Subparagraphs (b) (1) and (2), above, will not apply when Contractor stipulates that his Washington, D.C., delivered price is also the delivered price to any point within the continental limits of the United States.

(4) The Contractor's shipping point for the purpose of computing transportation charges will be the shipping point named in his bid. In the event two or more shipping points are named by the Contractor without qualification as to destination areas to be served by each, freight charges to Washington, D.C., to be deducted from invoices and freight charges to destinations designated by ordering offices to be added to invoices will be computed from the shipping points involving the lowest transportation charges to Washington, D.C., and to designated destinations, respectively.

(5) The right is reserved to the ordering office to specify the type of transportation to be employed.

## **RULES AND REGULATIONS**

tractor shall pay transportation charges. No freight adjustments are required.

(2) On all shipments other than specified in subparagraph (b) (1), above, the Contractor shall deduct from his invoice the transportation charges from his shipping point to Washington, D.C., and add the actual cost of transportation to destinations designated by ordering offices. Transportation charges will in all cases be based upon the lowest regularly established rates on file with the Interstate Commerce Commission, the Federal Maritime Commission (if shipped by water), or any State regulatory body, or published by the U.S. Postal Service, and must be supported by paid freight or express receipt or by a statement of parcel post charges, including weight of the shipment, or when delivered in Contractor's vehicle, by an explanatory statement.

(3) Subparagraphs (b) (1) and (2), above, will not apply when Contractor stipulates that his Washington, D.C., delivered price is also the delivered price to any point within the continental limits of the United States.

(4) The Contractor's shipping point for the purpose of computing transportation charges will be the shipping point named in his bid. In the event two or more shipping points are named by the Contractor without qualification as to destination areas to be served by each, freight charges to Washington, D.C., to be deducted from invoices and freight charges to destinations designated by ordering offices to be added to invoices will be computed from the shipping points involving the lowest transportation charges to Washington, D.C., and to designated destinations, respectively.

(5) The right is reserved to the ordering office to specify the type of transportation to be employed.

When more than one specified delivery point is used, either within a region or zone or within the continental United States, it will also be necessary to define specifically the limits of the surrounding area in which deliveries are authorized through application of the transportation cost adjustment clause. This is necessary to avoid having two Federal Supply Schedule contracts which could be used for delivery of the same item to the same point.

## **PART 5A-72—REGULAR PURCHASE PROGRAMS OTHER THAN FEDERAL SUPPLY SCHEDULES**

The table of contents for Part 5A-72 is amended to delete §§ 5A-72.105-7, 5A-72.105-8, and 5A-72.105-14 and to revise the following entry:

5A-72.105-6 Delivery terms.

**Subpart 5A-72.1—Procurement of Stock Items**

1. Section 5A-72.105-6 is revised to read as follows:

**§ 5A-72.105-6 Delivery terms.**

See Part 5A-19 for transportation factors and delivery terms.

**§§ 5A-72.105-7, 5A-72.105-8, 5A-72.105-14 [Deleted]**

2. Sections 5A-72.105-7, 5A-72.105-8, 5A-72.105-14 are deleted.

## **PART 5A-73—FEDERAL SUPPLY SCHEDULE PROGRAM**

The table of contents for Part 5A-73 is amended to delete §§ 5A-73.115-1

through 5A-73.115-7 and to revise the following entry:

5A-73.115 Delivery terms.

**Subpart 5A-73.1—Production and Maintenance**

1. Section 5A-73.115 is revised to read as follows:

**§ 5A-73.115 Delivery terms.**

See Part 5A-19 for transportation factors and delivery terms.

**§§ 5A-73.115-1—5A-73.115-7 [Deleted]**

2. Sections 5A-73.115-1 through 5A-73.115-7 are deleted.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5-1(c))

**Effective date.** These regulations are effective on February 27, 1973.

Dated: February 27, 1973.

M. S. MEEKER,  
Commissioner,  
Federal Supply Service.

## **Title 47—Telecommunication CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION**

[Docket No. 19642; FCC 73-232]

**PART 1—PRACTICE AND PROCEDURE  
Certification or Type Acceptance**

Report and order in the matter of amendment of Part 1 of the Commission's rules to require simultaneous payment of the filing and grant fee with an application for certification or type acceptance.

1. On November 22, 1972, the Commission adopted a notice of proposed rule making in the subject proceeding (see 37 FR 25729). The date for receiving comments closed on January 8, 1973, and for reply comments on January 18, 1973.

2. This notice proposed that, to simplify administration, the applicant for certification or type acceptance pay the required filing fee and grant fee simultaneously. The notice further proposed that such payment be made at the time the application for certification or for type acceptance is filed and that no action be taken on the application until such combined payment is made.

3. Comments were received from one manufacturer of aeronautical radio equipment—Narco Avionics, who agreed with the Commission that simultaneous payment of filing and grant fees would be desirable and would simplify book-keeping and administrative problems. However, Narco proposes that the procedure be further simplified by requiring the simultaneous payment after certification or type acceptance has been granted on the grounds that this would avoid the need for making a refund if no grant were issued.

4. The Commission cannot accept Narco's proposal. As pointed out in paragraph 4 of the notice, our experience has been that better than 95 percent of the applications are granted. Moreover, we

No. 48—9

(b) The applicable agreements in force between the United States and another country relating to the reciprocal granting of authorizations to permit licensed amateur radio operators of either country to operate their stations in the other country are as follows:

(c) With respect to its relations with several countries, the United States is bound by certain superseded treaties and agreements because some of the contracting countries other than the United States did not become a party to subsequent treaties and agreements. These include the following:

[FCC 73-235]

# PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS: GENERAL RULES AND REGULATIONS

## PART 81—STATIONS ON LAND IN THE MARITIME SERVICES AND ALASKA—PUBLIC FIXED STATIONS

In the matter of amendment of Parts 2 and 81 of the Commission's rules concerning the assignment of call signs to Class II coast stations.

1. At the present time call signs formed from the two blocks KAA through KZZ and WAA through WZZ are being assigned to stations on land in the maritime mobile service which provide service up to several thousand miles (Class I) and

to other coast stations which are intended to provide service of primarily a regional character (Class II). With the increase in the number of coast stations licensed by the Commission, the number of three-letter call signs available for assignment to Commission licensees as well as to stations operated by the U.S. Government has progressively diminished.

2. To provide sufficient available call signs for assignment to both of the above-mentioned classes of coast stations in the future, the call sign for each new Class II limited coast station will be formed from the block KAA200 through KZZ999 or from the block WAA200 through WZZ999. Call signs consisting of three

letters which were assigned prior to the effective date of this order will normally be retained upon license renewal. Consequently amendments of §§ 2.302 and 81.72 of the Commission's rules are set forth below.

3. Due to factors including the impending shortage of three-letter call signs taken together with the fact that call signs from the KAA200 through KZZ999 and WAA200 through WZZ999 blocks are now assignable to Class III coast stations, notice and public procedure within the meaning of the Administrative Procedure Act 5 U.S.C. 553 (b) (3) (B) are found to be unnecessary. The amendments set forth below are therefore effective forthwith.

4. Authority for the amendment is contained in sections 4(i) and 303 of the Communications Act of 1934, as amended. In view of the foregoing, it is ordered, That, effective March 15, 1973, §§ 2.302 and 81.72 of the Commission's rules are amended as set forth below.

(Secs. 4, 303, 48 Stat., as amended, 1906, 1082; 47 U.S.C. 154, 303.)

Adopted: March 2, 1973.

Released: March 7, 1973.

FEDERAL COMMUNICATIONS

COMMISSION,

[SEAL] BEN F. WAPLE,

Secretary.

NOTE: Rules changes herein will be covered by T.S.II(72)-I & T.S.IV(71)-3.

1. In § 2.302 table, "coast (Classes II and III) and maritime radiodetermination" is revised to read as follows:

Class of station	Composition of call sign	Call sign block
Coast (Classes II and III) and maritime radiodetermination.	3 letters, 3 digits.	KAA200 through KZZ999 WAA200 through WZZ999.

2. In § 81.72 paragraphs (b) and (c) are revised to read as follows:

§ 81.72 Assignment of call signs.

(b) Class I coast stations (public or limited) shall be assigned individual call signs each consisting of three letters, taken from either the group KAA through KZZ or the group WAA through WZZ.

(c) New Class II and Class III coast stations (public or limited) shall be assigned individual call signs each consisting of three letters followed by three digits, taken from either the group KAA200 through KZZ999 or the group WAA200 through WZZ999. Three-letter call signs which were assigned prior to March 15, 1973, will normally be retained upon renewal of the station license.

## RULES AND REGULATIONS

[Docket No. 19185; RM-1752; FCC 73-234]

# PART 15—RADIO FREQUENCY DEVICES Licensing of Auditory Training Devices for Partially Deaf

Memorandum opinion and order in the matter of amendment of the Commission's rules and regulations to provide for the licensing of auditory training devices for the partially deaf in the bands 72-73 and 75.4-76 MHz.

1. A report and order in this proceeding was adopted on July 6, 1972, and released on July 14, 1972 (35 FCC 2d 677-691; 37 FR 13984). This report promulgated regulations for the operation of wireless auditory training systems (used for the education of deaf and partially deaf children) without individual license under Part 15 of the FCC Rules. The regulations listed 28 channels, each 50 kHz wide, in the bands 72-73 MHz and 75.4-76 MHz, with provision to operate wide band equipment (200 kHz wide) on certain of these channels. The regulations also set out technical specifications for the receiver portion and the transmitter portion of the auditory training system.

2. Three petitions for reconsideration of the report and order have been received. One petition filed on August 10, 1972, by HC Electronics, Inc. (hereafter HC), deals largely with the question of frequency and asks the Commission to reverse its original decision and to permit the use of higher power in the FM broadcast band, 88-108 MHz for wireless microphones which are used in wireless auditory training systems. In addition, HC requests that the technical standards adopted on July 6, 1972 order be relaxed. On February 7, 1973, HC submitted a supplement to its petition for reconsideration withdrawing its request for relaxation of certain of these standards. This request is discussed in paragraphs 20 to 26 below.

3. Electronic Futures, Inc. (hereafter EFI) filed a petition for reconsideration on September 18, 1972. This petition addresses itself to two of the technical standards proposed: receiver image rejection and receiver selectivity and desensitization. EFI requests the Commission to reduce the requirement for each of these characteristics from 60 db to 40 db.

4. The Oticon Corp., a Danish company that manufactures hearing aids and associated equipment which it markets in the U.S.A. through a U.S. subsidiary, filed a petition on November 6, 1972, requesting the Commission to reduce the receiver image rejection and receiver selectivity and desensitization from 60 db to 40 db. The petition also asks for a special regulation for receivers using so low an IF that the image frequency falls within the band of frequencies made available for auditory training devices. For such a receiver, Oticon requests that the image frequency suppression requirement be deleted and the permitted level of oscillator radiation from such receiver be increased.

5. In its petition, HC discusses a number of aspects of the Commission's report and order, but addresses itself

basically to the relative merits of the 88-108 MHz band for auditory training systems. Primarily HC contends that inadequate consideration had been given to its argument in favor of higher power operation in the 88-108 MHz. Noting that the Commission had conceded the need for higher powered operation, HC reiterates its original argument that such higher power can be achieved in the FM broadcast band (88-108 MHz) without causing harmful interference to that service. HC bases this contention on the fact that no complaints of interference had been received, even with respect to those high power wireless microphones that had been authorized under waivers of § 15.212 granted during June-September 1971.<sup>1</sup>

## THE USE OF THE FM BROADCASTING BAND (88-108 MHz)

6. The FM broadcasting service in the band 88-108 MHz was established to provide a high quality aural broadcasting service. Wide channels (200 kHz) were provided to permit the transmission of high fidelity aural programs with negligible interference. In keeping with our policy of utilizing the radio spectrum in the most efficient manner, wireless microphones and telemetering devices were authorized to operate in the FM broadcast band but only under severe restrictions designed to insure that these devices could not cause interference to the FM broadcasting service. HC's request for higher power for its wireless microphone sought to ease these restrictions. The Commission did not find that HC's proposal was in the public interest, insofar as it sought higher power in the 88-108 MHz band.

7. We indicated in our report of July 6, 1972, that we were persuaded by the arguments presented in HC's petition that higher power was required for wireless microphones used as auditory training devices. But we were not at all persuaded that such devices must operate in the 88-108 MHz band. The device described by HC can be developed and used successfully on almost any frequency in the VHF spectrum and even higher. (One need merely look at the variety of low-power devices operating on the various land mobile frequencies, at the bio-medical telemetry devices operating on frequencies between 100 and 200 MHz,<sup>2</sup>

<sup>1</sup> Section 15.212 provides that wireless microphones in the band 88-108 MHz shall operate with a maximum radiated field strength of 50  $\mu$ V/m. at 50 feet. Between June and September 1971, some 80 schools were authorized to operate the noncomplying HC wireless microphone model 221-T with a radiation level of some 3,000-5,000  $\mu$ V/m. at 50 feet. See number 7 of the report and order in this proceeding. The schools given this authorization may continue to operate the noncomplying devices until January 1982, and may repair and replace units. (47 CFR 15.335(b).)

<sup>2</sup> In a rule making proceeding in Docket No. 19231, the Commission made available under Part 15, frequencies between 174 and 216 MHz for bio-medical telemetering devices operating with a field strength of 150 microvolts per meter at 100 feet.

at radio controls for door openers between 220 and 400 MHz). Thus, the problem confronting the Commission in seeking to satisfy the need for higher power for the transmitter part of the auditory training system was where in the spectrum to locate these devices. In our study of this problem, we set ourselves the following objectives:

A. To minimize the changes that a manufacturer would have to make in his existing designs.

B. To minimize cost increases that might arise from a requirement that these devices operate in the higher reaches of the spectrum.

C. To insure that devices furnished to schools could reasonably be expected to provide satisfactory service and have a minimum susceptibility to out of band (including adjacent channel) signals.

8. This study convinced us that to minimize redesign requirements the frequencies provided should be as close to 88-108 MHz as possible and should not be much above 300 MHz or much below 50 MHz. It was further decided not to increase the risk of interference to the FM broadcasting service by authorizing relatively high-power operation in that band. (See discussion in paragraphs 11 and 12 below). At the same time, by keeping wireless auditory training systems out of the FM band 88-108 MHz, we eliminate the possibility that these systems will be subject to destructive interference from on-channel (or adjacent channel) FM broadcasting stations. We concluded that the most reasonable available location in the spectrum for wireless auditory training systems was in the band 72-76 MHz. This band is currently used for a variety of low-power operations (see paragraphs 37-38 of report and order) with a very low interference potential to wireless auditory training systems in schools and vice versa.

9. To minimize susceptibility to adjacent channel and other undesired signals, we imposed a requirement on the desensitization and adjacent channel selectivity characteristics and for image rejection of the receiver. We also imposed frequency stability requirements on the transmitter and receiver used in the auditory training system.

## THE PROBLEM OF AVOIDING INTERFERENCE

10. HC bases its argument for higher power in the 88-108 MHz band on the fact that present operation of wireless microphones in this band, even with high power,<sup>3</sup> has not resulted in any complaints of interference. HC's position appears to be that the Commission should wait for interference to develop and then take corrective measures. The Commission has taken precisely the opposite position.

11. The Commission's responsibility is to anticipate interference and to promulgate rules to avoid its occurrence.<sup>4</sup> In line

<sup>3</sup> See note 1 supra.

<sup>4</sup> Congress appears to have the same preference for the preventive approach in this area of regulation. Public Law 90-379 (adopted July 5, 1968), which added § 302 to the Communications Act, was justified on the basis that it was more effective to prevent interference than to correct it.

with this responsibility, we are in the process of tightening observance of technical standards by establishing more elaborate and more rigorous equipment authorization procedures.<sup>1</sup> We have already adopted marketing regulations<sup>2</sup> designed to keep interference-capable equipment out of the hands of the public.

12. HC points out also that not a single FM broadcaster had objected to its proposal to use higher power in the 88-108 MHz band; HC implies that, in the absence of such objection, the Commission should authorize higher power operation. But there was no reason for FM broadcasters to object in this rule making. The notice proposed higher power operations only in the 72-76 MHz band—not in the FM band. The failure of FM licensees to object, then, does not indicate acquiescence in the HC proposal.

13. In looking at this situation, the Commission concluded that the growth in the use of auditory training systems in the 88-108 MHz band (which could be anticipated if high power auditory training systems were permitted in that band) together with the normal growth of the FM broadcasting service could be expected to produce an interference situation that would be difficult to correct. Accordingly, it was concluded that such high power operation by auditory training systems in the FM broadcasting band (88-108 MHz) was not in the public interest. In the absence of new information or more persuasive arguments, we reaffirm our original finding in this respect.

#### HC's ARGUMENT AGAINST THE USE OF THE 72-76 MHz BAND

14. HC also questions the usefulness of the 72-76 MHz band for auditory training systems, as compared to the band 88-108 MHz. This question is argued from two points of view—the availability of an adequate number of channels and the alleged interference to be expected from the operation of channel 4 and 5 television transmitters. HC takes the position that the spectrum space made available in this proceeding between 72-76 MHz does not provide a sufficient number of channels, and cites the NAE report<sup>3</sup> in this proceeding which calls for a minimum of 16 channels to be provided. HC contends that the frequencies made available between 72 and 76 MHz will provide only eight channels (each 200 kHz wide). This contention is based on HC's claim that each channel must be 200 kHz wide, based on its allegations that an audio bandwidth out to 15,000 cycles is required. This allegation is not supported, however, either by the NAE or

<sup>1</sup>Docket No. 19356: In the matter of amendment of Parts 0 and 2 of the rules relating to equipment authorization of R.F. devices. Notice of proposed rule making adopted November 24, 1971. (36 FR 23313).

<sup>2</sup>Part 2 Subpart I (47 CFR, 801 et seq.).

<sup>3</sup>Report filed September 2, 1971, by National Engineering Academy, Subcommittee on Sensory Aids as a comment in Docket No. 19185.

the HEW<sup>4</sup> reports. NAE in its report states that an audio bandwidth of 100-8000 Hz is required. HEW in its report, sets the required audio bandwidth at 100-7000 Hz.

15. We are persuaded to accept the judgment of the experts consulted by HEW and NAE. Accordingly, we reiterate our finding that a 50 kHz channel is adequate. Such a channel is easily capable of delivering a 8000 Hz audio signal with an adequate signal to noise ratio. The spectrum space we have provided, permitting 28 channels, each 50 kHz wide, thus more than meets the minimum requirement set out in the NAE report.

16. The second aspect—that of potential interference from channel 4 and channel 5 television transmitters—is discussed in some detail in paragraph 38 of the July 6, 1972 report and order. We recognized there that the potential for interference existed, but we concluded that satisfactory service could be obtained even under the worst interference conditions. We need not reiterate that discussion. We can add, however, that many of the existing operations in the band 72-76 MHz are low power mobile operations. The communications provided by these operations have been satisfactory despite the existence of high power TV transmitters on adjacent channels. On the basis of information now available to the Commission, we cannot accept HC's contention that channels 4 and 5 will produce destructive interference to auditory training systems in this band.

17. HC asserts further that the potential for interference to television reception from auditory training systems is substantial in the band. It calls attention to the Commission's pending notice of inquiry regarding interference to reception of TV channel 6 from non-commercial educational FM stations in the band 88-92 MHz. These situations are not analogous, however. In the case of FM/TV-6 interference, we are concerned with a blanketing effect produced by an FM station operating with 10 watts or more. In the present rule making, we are dealing with auditory training system transmitters operating with a power output of the order of 20-100 milliwatts whose blanketing area is negligible when compared with that of a 10 watt transmitter. HC also calls attention to the special restrictions imposed by § 91.8(g) against operational fixed stations operating in the band 72-76 MHz. These restrictions apply to operational fixed stations operating with hundreds of watts. The restrictions imposed against these stations are designed to avoid the creation of an area in which television reception is destroyed. At the same time, we can point to the many low power operations in the band 72-76 MHz which are not subject to the restrictions as to geographic location imposed by § 91.8(g).

<sup>4</sup>Report filed on December 20, 1971, by the Department of Health, Education, and Welfare, National Advisory Committee on Education of the Deaf as a comment in Docket No. 19185.

#### TECHNICAL STANDARDS FOR THE TRANSMITTER

18. Of the three parties who filed for reconsideration in this proceeding,<sup>5</sup> only HC questioned the frequency stability for the transmitter part of the auditory training system as set out in § 15.353.<sup>6</sup> HC states that such a requirement is unnecessary for low power equipment. It particularly objects to the requirement that frequency stability be demonstrated over the large temperature range specified. However, HC does not indicate how much this frequency tolerance should be relaxed, or what in its opinion would constitute a suitable requirement. HC merely refers, in this connection, to the requirements in § 91.555<sup>7</sup> apparently suggesting that similar requirements should be applied to the transmitter part of the auditory training system.

19. The purpose of this requirement in § 15.353 was to insure that each transmitter in the auditory training system would stay within its own channel and would not intrude into the adjacent channels. Such a requirement is essential if an adequate number of channels is to be available for auditory training systems. It is significant that no other manufacturer of such systems has questioned this requirement.<sup>8</sup> We remain convinced that the transmitter frequency stability requirement is a necessary element in the new auditory training systems rules. It is reaffirmed.

#### TECHNICAL STANDARDS FOR THE RECEIVER

20. All three petitioners for reconsideration challenge the technical standards for the receiver. EFI argues that the 60 db requirement for adjacent channel selectivity and desensitization<sup>9</sup> and the

<sup>5</sup>See paragraphs 2, 3, and 4 of this order.

<sup>6</sup>Sec. 15.353 provides that the transmitter part of the auditory training system shall maintain a frequency stability of  $\pm 0.005$  percent over a temperature range of 0° to 50° C, and a supply voltage range of 85 percent to 115 percent of the normal supply voltage.

<sup>7</sup>Sec. 91.555 provides that a transmitter operating in the business radio service with a power input that does not exceed 200 milliwatts is exempt from the general technical requirements applicable to that service provided the sum of the bandwidth occupied by the emitted signal plus the bandwidth required for frequency tolerance is confined within a band 80 kHz wide centered on the assigned frequency with emissions outside this 80 kHz band attenuated at least 30 db. Such transmitters must be type accepted (§ 91.109(b)). To receive type acceptance, data must be submitted showing that the transmitter meets the above requirement over a temperature range of -30° to +50° C, and a supply voltage variation of 85 percent to 115 percent of normal supply voltage.

<sup>8</sup>As a practical matter two transmitters for use in auditory training systems in the 72-76 MHz band have already been type approved under these standards. These are listed in FCC Bulletin OCE 32.

<sup>9</sup>Sec. 15.363 specifies that the receiver shall provide 60 db adjacent channel selectivity and desensitization.

60 db image rejection requirement<sup>10</sup> are excessively severe for receivers to be worn by children in auditory training systems. In support of its argument it presents extensive data showing the specifications claimed by manufacturers of a variety of receivers now on the market. In citizens band equipment, the best advertised specifications are respectively 45 db and 42 db. In pocket paging receivers, 60 db is achieved but only in equipment which is designed for one frequency operation and whose front end can therefore be carefully packaged. This, EFI states, is not true for auditory training receivers, which have to be designed for multiple-channel operation. EFI also presents data for conventional FM receivers which achieve 70 db alternate channel selectivity and 90 db image rejection, and points out that, despite the unlimited size permitted, no manufacturer offers receivers capable of adjacent channel operation.

21. EFI contends that requirements of 60 db are not necessary for auditory training receivers and asserts that a standard of 40 db is adequate to protect adjacent channel operation under the conditions that normally prevail in the classroom. This opinion is supported by statements from Mr. Chapin C. Cutler,<sup>11</sup> Bell Telephone Labs and Dr. Peter Kindlman,<sup>12</sup> Yale University.

22. The Oticon Corp. also contends that the 60 db specification is excessive and will increase excessively the cost of the auditory training receiver. Oticon agrees that a specification of 40 db for adjacent channel selectivity and image rejection is adequate.

23. Oticon proposes a different approach to the problem of image frequency. It suggests that the IF be sufficiently low so that the image frequency falls within the bands allocated. Oticon argues that this approach will obsolete the image frequency rejection requirement since no disturbance (interference) from other services will be possible. Moreover, Oticon points out that this approach will permit each receiver to be served by two transmitters, although it does not elaborate on this theme and explain how this arrangement would benefit the auditory training system. Oticon does point up one apparent defect in using a low IF which brings the local oscillator frequency close to the signal frequency. In such an arrangement, the front-end circuitry is no longer available to suppress oscillator energy from reaching the antenna and being radiated. Being close to the desired signal frequency, the front-end circuits will readily pass and not dis-

<sup>10</sup>Sec. 15.365 specifies that the receiver shall provide 60 db image frequency rejection.

<sup>11</sup>Exhibit D to EFI petition for reconsideration. Mr. Cutler is Director of Electronic and Computer Systems Research Laboratory at Bell Telephone Laboratories, Holmdel, N.J.

<sup>12</sup>Exhibit E to EFI petition for reconsideration. Dr. Kindlman is Director of the Engineering and Applied Sciences Electronic Laboratory of the Durham Laboratory at Yale University, New Haven, Conn.

criminate against the local oscillator energy. It would, therefore, be necessary to raise the permitted level of oscillator radiation for a receiver using such a low IF.

24. HC asserts that the requirement for frequency stability of the receiver<sup>13</sup> is unrealistic, is unnecessary, and that no similar requirement is found elsewhere in the Commission's rules.<sup>14</sup>

25. The Commission has reviewed the several arguments against our present technical standards for the auditory training receiver. We are persuaded that we can reduce our requirement for adjacent channel selectivity and desensitization and for image frequency rejection from 60 db to 40 db without seriously compromising the desired performance of these receivers. We are amending our rules accordingly. While we see some merit in Oticon's proposal to use a low IF, we do not see how these benefits overcome the undesirable side result of increased oscillator radiation. Accordingly, we cannot agree to Oticon's second request for an increase in oscillator radiation. This does not mean that we will object to the use of a low IF. On the contrary, Oticon is free to use any IF it finds desirable and convenient. Provided, That its receivers meet our 40 db requirement for image frequency rejection and our requirements for oscillator radiation.

26. We cannot agree with HC that our proposal for frequency stability is unrealistic. As to HC's argument that such receiver standards are not found elsewhere in the Commission's rules, we can point out that our frequency allocations and our channeling arrangements in all services have always taken into account the performance of the receiver to be used.<sup>15</sup> These standards were always discussed in the order making the change in the allocations or in the channeling arrangement, but it is true that they were never specifically stated in our regulations. In the past several years we have been importuned to set out these receiver specifications in the rules. Actually, this is the second proceeding in which re-

<sup>13</sup>Sec. 15.361 specifies that the receiver frequency stability shall be  $\pm 0.005$  percent over the temperature range 0°-50° C, and a supply voltage variation of 85 percent to 115 percent.

<sup>14</sup>In its petition for reconsideration filed Aug. 10, 1972, HC had, in addition, requested reconsideration of the requirement imposed by §§ 15.363 and 15.365, claiming that the 60 db requirement for image rejection and for adjacent channel selectivity and sensitivity, were also unrealistic. The request for reconsideration of the requirements in §§ 15.363 and 15.365 was withdrawn by HC's supplement filed Feb. 7, 1973, on the grounds that it had determined that these standards are attainable in circuitry manufactured on an assembly line. HC points out in this connection that its recently certificated receiver model 421-R which operates in the band 88-108 MHz and is not required to comply with §§ 15.363 and 15.365, does in fact meet the 60 db standard imposed by these regulations.

<sup>15</sup>An outstanding example is the frequency assignment plan for the UHF television channels which is based on a number of taboos to account for the performance of UHF television receivers.

ceiver specifications have been set out in our rules.<sup>16</sup> It is our intention to do so in all future proceedings which involve changes in channeling designed to take account of improved receiver characteristics. We reaffirm the receiver frequency stability requirements.

#### MEASUREMENT PROCEDURE

27. The question of measurement procedure to be used in measuring the radiated field from the transmitter part of an auditory training system was not raised in the petitions for reconsideration. Since we have experienced enforcement problems due to difference in measurement procedures,<sup>17</sup> we are taking this opportunity to clarify the procedures. The clarification requires the addition of a new § 15.377 to Subpart G of Part 15, but it does not change the substantive restrictions on field strength.

28. Measurement of the radiated field from the transmitter part of the auditory training system when worn on the body or held in the hand is not satisfactory since the results vary according to how the device is worn or carried. To yield more consistent results, a standard procedure has been developed in which the device is measured in a test setup—a wooden support in an open field.<sup>18</sup> Using such a test set-up presents a problem since our experience derived during measurements for type approval show that radiation in a test setup is not the same as when the device is worn on the body or carried in the hand. The difference in any one case is unpredictable. On the average, however, there is some reduction. The practical effect is that a device designed to meet the required field strength limit under standard test conditions, on the average, may operate below the allowable limit in normal use. Thus, on the average, the standard test procedure may impose a stricter limit on the device than the Commission has intended.

29. With a view toward retaining the standard test procedure and, at the same

<sup>16</sup>See § 83.715 of the rules adopted for bridge-to-bridge communications in the Maritime Mobile Service, Docket No. 19343, adopted May 24, 1972 (37 FR 1245).

<sup>17</sup>This question was raised in connection with two petitions filed on Sept. 22, 1972, by HC Electronics, Inc., asking the Commission to take remedial action against EFI for marketing wireless microphones that allegedly were in violation of the Commission's rules. The Commission's investigation of HC's allegations revealed that some of these devices were tested for type approval under a procedure different from the published statement of the measurement procedure. The Commission dismissed HC's petitions on Jan. 23, 1973, after obtaining commitments from EFI to bring its microphones into compliance. Memorandum opinion and order, 39 FCC 2d —. In a footnote to the dismissal order, the Commissioner said that it would address this question in connection with petitions for reconsideration of the auditory training systems rules.

<sup>18</sup>Bulletin OCE 10, published in January 1969, sets forth the test procedure that has been employed by the Commission's Laboratory Division. The Division also has taken measurements under conditions of normal use.

## RULES AND REGULATIONS

time, insuring that it does not impose a stricter limit than the regulations intended, the test procedure heretofore used is being revised to incorporate a factor to take into account the average difference between radiation under standard test conditions and that in normal use. The factor to be used is 4 db and reflects the experience of our laboratory in making these measurements. The revised bulletin incorporating this correction factor is expected to be issued in March 1973.

## CONCLUSION

30. As explained above, we do not find it in the public interest to permit the high power sought by petitioner in the band 88-108 MHz—the FM broadcasting band, and we reaffirm our earlier determination that such high-power operation shall be permitted in the band 72-76 MHz. We reaffirm also our earlier determination to divide the frequency space in the 72-76 MHz band into channels 50 kHz wide, with provision for using 200 kHz channels in special circumstances. We are persuaded by the arguments presented and have relaxed our technical specifications for receivers from 60 db to 40db for adjacent channel selectivity and desensitization and for image frequency rejection requirements. We deny the requests for relaxation of the other receiver specifications and of the transmitter specification. Finally, we clarify the measurement procedure for determining compliance with field strength limits.

31. Accordingly, it is ordered, Effective April 16, 1973, that Part 15 is amended as set forth below. Authority for these amendments is contained in §§ 4(i), 302, 303 (c), (g), and (r) of the Communications Act of 1934, as amended. It is further ordered, That this proceeding is terminated.

(Secs. 4, 302, 303, 48 Stat., as amended; 82 Stat. 290; 1066, 1082; 47 U.S.C. 154, 302, 303.)

Adopted: March 2, 1973.

Released: March 8, 1973.

FEDERAL COMMUNICATIONS  
COMMISSION,  
[SEAL] BEN F. WAPLE,  
Secretary.

Part 15 of the Commission's rules is amended as follows:

1. Section 15.363 is amended to read as follows:

§ 15.363 Receiver selectivity and desensitization (72-76 MHz).

A receiver operating as part of an auditory training system in the band 72-76 MHz shall provide a minimum of 40 db adjacent channel selectivity and desensitization when measured in accordance with the procedure specified in EIA Standard RS-204 dated January 1958, or equivalent procedure. (See IEEE Standard 184, April 1969.)

2. Section 15.365 and headnote are amended to read as follows:

§ 15.365 Receiver image frequency rejection (72-76 MHz).

A receiver operating as part of an auditory training system in the band 72-76 MHz shall provide a minimum of 40 db image frequency rejection when measured in accordance with the procedure specified in EIA Standard RS-204 dated January 1958, or equivalent procedure. (See IEEE Standard 184, April 1969.)

3. A new § 15.377 is added to read as follows:

§ 15.377 Measurement of field strength.

Measurement of radiated field strength of all emissions (fundamental, harmonics and other spurious) from the transmitter parts of auditory training systems, operating in the 72-76 MHz band or in the 88-108 MHz band, shall be made in accordance with the procedure set forth in FCC Bulletin OCE 19, published March 1973.

[Docket No. 19628; FCC 73-239]

PART 73—RADIO BROADCAST SERVICES  
FM Broadcast Stations; Union Springs and Tallahassee, Ala.

1. The Commission has before it the notice of proposed rule making released November 13, 1972 (37 FR 24369), proposing an amendment of § 73.202(b) of the rules, the FM table of assignments. The rule making was instituted on the basis of two petitions for assignment of the same FM channel to neighboring communities resulting in a channel conflict. The petition filed by Ne-Ler Co., licensee of Station WTLA, Tallahassee, Ala., proposed assignment of Channel 240A to Tallahassee, Ala. The petition filed by Union Springs Broadcasting Co. (Union Springs) proposed the assignment of Channel 240A to Union Springs, Ala. This report and order concerns only the petition for the assignment at Union Springs, FM-1902. At a later date a report and order will be issued on the remaining petition.

2. The notice observed that since the distance between Tallahassee and Union Springs is 28 miles, Channel 240A cannot be assigned to each of the two communities (required spacing is 65 miles). To resolve the conflict we proposed to assign Channel 240A to Tallahassee and Channel 265A to Union Springs, provided that the transmitter site of a Union Springs station is located at least 4 miles southwest of the community in order to meet the spacing requirement with respect to Station WCJM at West Point, Ga., operating on Channel 265A. A counterproposal timely filed in this proceeding by All Channel TV Service, Inc., proposes to assign Channel 240A to Tuskegee, Ala., rather than to Tallahassee.

3. On January 15, 1973, Union Springs Broadcasting Co., filed a motion to sever and request for immediate allocation of Channel 265A to Union Springs stating that the only remaining conflict in this proceeding is that between the proposals

to assign Channel 240A to Tallahassee or Tuskegee, and that Channel 265A can be assigned to Union Springs without regard to either Tallahassee or Tuskegee. The motion further states that although Channel 265A at Union Springs can meet spacing requirements with regard to Station WCJM, West Point, Ga., if located at either Tallahassee or Tuskegee, it cannot. In view of this, it states, it is appropriate for the Commission to sever the Union Springs proposal to make the assignment immediately. We believe it would be in the public interest to sever the proposal for Union Springs, Ala., and grant the assignment of Channel 265A to that community since Channel 265A cannot be used at either Tallahassee or Tuskegee.

4. A supporting comment was filed by Union Springs Broadcasting Co., stating its acceptance of the suggested proposed Channel 265A and reiterated its intent to apply for the channel, if assigned, and to construct a station promptly, if authorized. There were no opposing comments. As indicated in paragraph 2 above, this assignment can be made in conformance with the Commission's minimum mileage separation rule, providing the transmitter site is located at least 4 miles southwest of Union Springs. In the notice of proposed rule making we set out economic and other information pertaining to the need for a first FM assignment to Union Springs, Ala. That information is accepted as being substantially correct and will not be repeated here, except to say that there are no aural or television facilities authorized or operating in Union Springs or Bullock County (populations 4,323 and 11,824, respectively). The assignment of Channel 265A would thus provide for a first local broadcast facility there.

5. The authority for the action taken herein is contained in sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended.

6. Accordingly, it is ordered, That effective April 16, 1973, the table of FM assignments (§ 73.202(b) of the rules) is amended with respect to the community listed below to read as follows:

City	Channel No.
Union Springs, Ala.	265A

7. It is further ordered, That the motion to sever and request for immediate allocation of Channel 265A to Union Springs, Ala., filed January 15, 1973, by Union Springs Broadcasting Co., is granted.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307.)

Adopted: March 2, 1973.

Released: March 7, 1973.

FEDERAL COMMUNICATIONS  
COMMISSION,  
[SEAL] BEN F. WAPLE,  
Secretary.

[FR Doc 73-4793 Filed 3-12-73; 8:45 am]

[Docket No. 19582; FCC 73-238]

PART 74—EXPERIMENTAL, AUXILIARY,  
AND SPECIAL BROADCAST, AND OTHER  
PROGRAM DISTRIBUTIONAL SERVICES  
PART 78—CABLE TELEVISION RELAY  
SERVICES

Applications for Changes in Height or  
Direction of Antennas

Report and order in the matter of amendment of Parts 74 and 78 of the Commission's rules and regulations as concerns applications for changes in height or direction of an antenna, and other respects.

1. By notice of proposed rule making, adopted August 29, 1972 (37 FR 18569), the Commission proposed amendment to §§ 74.451, 74.551(a), 74.651(a), 74.751(b), 74.851(a), 74.951(a), and 78.109(a) of the Commission's rules and regulations, relating to remote pickup, aural STL and Intercity relay, television auxiliary, television translator, television booster, Instructional Television Fixed Service, and cable television relay services, and more particularly the requirements for filing applications for changes in facilities where possible airspace problems are presented.

2. The notice pointed out that one of the purposes of the rule making was that any application for change of antenna height for the various services covered by Part 74 and § 78.109 of the rules be coextensive with the requirements of Part 17 unless other requirements are deemed necessary. In the latter respect, we also proposed changes in provisions concerning the application-filing requirements where a horizontal change in antenna location is involved to bring the provisions of the rules into harmony with Part 17. Editorial changes were also proposed for internal consistency with other rules.

3. These proposals were made by the Commission sua sponte. No one has filed comments either in favor of or opposing the proposed change. We would suppose that the absence of comments more or less reflects agreement with the proposals. In the circumstances, an extended discussion is unnecessary, inasmuch as it is quite clear that the proposals are deemed meritorious. With the exception of § 74.451, these rules are being adopted as proposed, and that one is being adopted in a form consistent with the other rule changes.

4. Accordingly, under the authority of sections 4 (i) and (j) and section 303(r) of the Communications Act of 1934, as amended, Part 74 and § 78.109(a) is amended as set forth below. These amendments shall go into effect April 16, 1973.

5. It is further ordered, That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

Adopted: March 2, 1973.

Released: March 7, 1973.

FEDERAL COMMUNICATIONS  
COMMISSION,  
BEN F. WAPLE,  
Secretary.

No. 48—10

## RULES AND REGULATIONS

1. Section 74.451 is amended to read as follows:

§ 74.451 Equipment changes.

(a) Prior Commission approval is required for any change in the overall height of the antenna structure except where notice to the Federal Aviation Administration is specifically not required under § 17.14(b) of this chapter.

(b) The licensee of a remote pickup broadcast station may make any other changes in the equipment that are deemed desirable or necessary provided:

(1) That the operating frequency is not permitted to deviate more than the allowed tolerance;

(2) That the emissions are not permitted outside the authorized band;

(3) That the power output complies with the license and the regulations governing the same; and

(4) That the transmitter as a whole or output power rating of the transmitter is not changed.

(c) Other equipment changes not specifically referred to in this section may be made at the discretion of the licensee: *Provided*, That the engineer in charge of the radio district in which the station is located and the Commission in Washington, D.C., are promptly notified in writing upon the completion of such changes, and further that the changes are set forth in the next application for renewal of license.

2. In § 74.551(a), subparagraph 4 is amended to read as follows:

§ 74.551 Equipment changes.

(a) . . . . .  
(4) Any change in the overall height of the antenna structure, except where notice to the Federal Aviation Administration is specifically not required under § 17.14(b) of this chapter.

3. In § 74.651(a), subparagraph (4) is amended and subparagraph (5) is added to read as follows:

§ 74.651 Equipment changes.

(a) . . . . .  
(4) Any change in the overall height of the antenna structure, except where notice to the Federal Aviation Administration is specifically not required under § 17.14(b) of this chapter.

(5) Any change in the direction of the main radiation lobe of the transmitting antenna.

4. In § 74.751(b), subparagraphs (3) and (5) are amended to read as follows:

§ 74.751 Equipment changes.

(b) . . . . .

(3) Any change in the overall height of the antenna structure, except where notice to the Federal Aviation Administration is specifically not required under § 17.14(b) of this chapter.

(5) Any horizontal change in the location of the antenna structure which would (i) be in excess of 500 feet, or (ii) require notice to the Federal Aviation

Administration pursuant to § 17.7 of this chapter.

5. In § 74.851(a), subparagraphs (3), (5), (6), and (7) are amended and (8) is added to read as follows:

§ 74.851 Equipment changes.

(a) . . . . .

(3) Any change in the overall height of the antenna structure, except where notice to the Federal Aviation Administration is specifically not required under § 17.14(b) of this chapter.

(5) Any change in the location of the transmitter except a move within the same building or upon the same tower or pole.

(6) Any horizontal change in the location of the antenna structure which would (i) be in excess of 500 feet, or (ii) require notice to the Federal Aviation Administration pursuant to § 17.7 of this chapter.

(7) A change of frequency assignment.

(8) A change of authorized operating power.

6. In § 74.951(a), subparagraphs (3), (4), (5), (6), and (7) are amended and (8) is added to read as follows:

§ 74.951 Equipment changes.

(a) . . . . .  
(3) Any change in the overall height of the antenna structure, except where notice to the Federal Aviation Administration is specifically not required under § 17.14(b) of this chapter.

(4) Any horizontal change in the location of the antenna structure which would (i) be in excess of 500 feet, or (ii) require notice to the Federal Aviation Administration pursuant to § 17.7 of this chapter.

(5) Any change in the transmitter control system.

(6) Any change in the location of the transmitter except a move within the same building or upon the same tower or pole.

(7) A change of frequency assignment.

(8) A change of authorized operating power.

7. In § 78.109(a), subparagraphs (3), (4), (5), (6), and (7) are amended and subparagraph (8) is added to read as follows:

§ 78.109 Equipment changes.

(a) . . . . .  
(3) Any change in the overall height of the antenna system except where notice to the Federal Aviation Administration is specifically not required under § 17.14(b) of this chapter.

(4) Any horizontal change in the location of the antenna (other than a CAR pickup station transmitter).

(5) Any change in the transmitter control system.

(6) Any change in the location of a station transmitter (other than a CAR pickup station transmitter), except a move within the same building or upon

the tower or mast or a change in the area of operation of a CAR pickup station.

(7) Any change in frequency assignment.

(8) Any change in authorized operating power.

**Title 49—Transportation**  
**CHAPTER X—INTERSTATE COMMERCE COMMISSION**

**SUBCHAPTER A—GENERAL RULES AND REGULATIONS**

**PART 1003—LIST OF FORMS**  
**Motor Carrier and Broker Forms**

*Order.* At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 29th day of November 1972.

Pursuant to section 211 of the Interstate Commerce Act (39 U.S.C. 311), and good cause appearing therefor, the use of a new form for application to operate as a broker, of property or passengers, under part II of the Act, being under consideration:

*It is ordered.* That application Forms B.M.C. 4 and B.M.C. 5 be, and they are hereby, vacated and revoked.

*It is further ordered.* That application for Brokerage License, Form OP-OR 11 (49 CFR 1003.1), which is attached hereto and incorporated into this order, be, and it is hereby, prescribed and approved.

*It is further ordered.* That 49 CFR 1003.1 be, and it is hereby, amended by revoking all references to forms B.M.C. 4, and B.M.C. 5, and replacing said matters with the following:

§ 1003.1 Motor carrier and broker forms.

**OP-OR 11.**

Applications under section 211 of the Interstate Commerce Act for licenses to operate as brokers of motor-carrier transportation of passengers or property.

*And it is further ordered.* That this order shall become effective April 2, 1973, and notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission, Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc. 73-1791 Filed 3-12-73; 8:45 am]

[S.O. 1124]

**PART 1033—CAR SERVICE**  
**Demurrage and Free Time on Freight Cars**

At a session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 6th day of March 1973.

<sup>1</sup> Filed as part of the original document.

It appearing, that an acute shortage of boxcars, gondola cars, and covered hopper cars exists throughout the country; that certain carriers are unable to furnish adequate supplies of these types of freight cars to shippers located on their lines; that these shortages of freight cars are impeding the movement of many commodities; that many freight cars are held by shippers for excessive periods awaiting loading, unloading, or disposition instructions; that such practices immobilize large numbers of freight cars needed by shippers for the transportation of other freight; and that the existing demurrage and detention rules, regulations, and practices of the railroads are ineffective to control such use of freight cars. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than 30 days' notice.

*It is ordered.* That:

§ 1033.1124 Demurrage and free time on freight cars.

(a) Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) *Application.* (i) The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(ii) This order shall apply to all freight cars which are listed in the Official Railway Equipment Register, ICC R.E.R. 386, issued by W. J. Treise, or successive issues thereof, as having one of the mechanical designations shown on pages 1154 and 1155 under the headings:

Class "X"—Box Car Type—"XL", "XLI", "XLM", "XMT", only.  
Class "G"—Gondola Car Type—All Class "G" except "GW".  
Class "L"—Special Car Type—"LC", "LO", "LU", only.

(iii) Exception: This order shall not apply to cars held at, or outside of ocean, Great Lakes, or river ports, while subject to the provisions of Service Order No. 1121—Demurrage and Free Time at Ports—or revisions thereof.

(iv) Exception: This order shall not apply to freight cars of Mexican ownership while held by or for shippers at Mexican border crossings, viz:

Brownsville, Tex.	Douglas, Ariz.
Laredo, Tex.	Naco, Ariz.
Eagle Pass, Tex.	Nogales, Ariz.
Presidio, Tex.	Calexico, Calif.
El Paso, Tex.	

(v) Exception: This order shall not apply to cars subject to rule 8, section G—Interference Due to Strikes—of General Car Demurrage Tariff 4-I, ICC H-36, issued by B. B. Maurer, supplements thereto, or reissues thereof, or to similar strike rules in other tariffs.

(vi) The terms "loading," "unloading," "constructive placement," and "forwarding directions" as defined in General Car Demurrage Tariff 4-I, ICC H-36,

issued by B. B. Maurer, supplements thereto, or reissues thereof, shall apply to cars subject to this order.

(vii) The term "holidays" means holidays as listed in Item 25 of General Car Demurrage Tariff 4-I, ICC H-36, issued by B. B. Maurer, supplements thereto, or reissues thereof.

(2) *Free Time.* (i) Not more than a total of 24 hours' free time, computed in accordance with the provisions of the applicable tariffs naming demurrage or detention rules and charges, shall be allowed for loading, unloading, or furnishing of forwarding or disposition instructions on cars held for orders.

(ii) If the maximum free time authorized in applicable tariffs is less than the 24-hour period described in paragraph (a) (2) (i) of this section, the free-time periods provided in such tariffs shall apply.

(3) *Demurrage, detention, or storage charges.* (i) After the expiration of the free-time period described in paragraph (a) (2) of this section, demurrage charges shall be assessed at the following rates, until car is released:

\$10 per car per day, or fraction of a day, for each of the first 4 days.  
\$20 per car per day, or fraction of a day, for each of the next 2 days.  
\$30 per car per day, or fraction of a day, for each of the next 2 days.  
\$50 per car per day for subsequent days.

Average demurrage agreement rules shall not apply.

(ii) The applicable demurrage charges provided in paragraph (a) (3) (i) of this section will accrue on all Saturdays, Sundays, and holidays subsequent to the second chargeable day including a Saturday, Sunday, or holiday immediately following the day on which the second chargeable day begins; except as otherwise provided in rule 6, section B, of General Car Demurrage Tariff 4-I, ICC H-36, issued by B. B. Maurer, supplements thereto, or reissues thereof.

(iii) Existing tariff rules requiring the placement or release, as a unit, of all cars in a multiple-car shipment shall remain in effect.

(iv) The demurrage, detention, or storage rates provided in paragraph (a) (3) (i) of this section shall supersede all published storage charges expressed in cents per hundred-weight, per bushel, or other unit of measure, for all freight held in cars in excess of the free-time periods provided in paragraph (a) (2) of this section.

(v) Exception: If the demurrage, detention, or storage rates authorized in the applicable tariffs are greater than those described in paragraph (a) (3) (i) of this section, such higher rates shall apply.

(4) *Notices of arrival, constructive placement, etc.* (i) Existing tariff provisions defining constructive placement and establishing the requirements for the placement, adjustment of run-arounds, and the giving of arrival or constructive placement notice of freight destined for unloading or transshipment, shall apply.

(ii) If no such rules with respect to arrival, run-around, or constructive

placement are published in the applicable tariffs, the rules published in General Car Demurrage Tariff 4-I, ICC H-36, issued by B. B. Maurer, supplements thereto, or reissues thereof, shall apply.

(b) Rules and regulations suspended: The operation of all rules and regulations, including rates, rules, and free-time periods granted by authority of part 1, section 22 of the Interstate Commerce Act, insofar as they conflict with the provisions of this order, is hereby suspended.

(c) Notification of shipper required: (1) Carriers shall send or deliver a written notice to shippers or consignees of the requirements of this order at or prior to the time of actual or constructive placement of cars for loading or unloading or at the time notice of arrival or of constructive placement is given. On cars held for instructions from the shipper or qualified owner of the freight, such notices must accompany or precede the arrival notice.

(2) If a notice described in paragraph (c) (1) of this section has been given to a shipper or receiver at origin, destination, or hold point, no further notices of the requirements of this order need be given.

(3) Carriers are required to maintain a copy of all notices of the requirements of this order sent to shippers, receivers, or qualified owners of freight, at the station or point from which sent.

(4) Failure of a carrier to send and preserve copies of the notices required by paragraph (c) (1) of this section shall not be deemed as nullifying the requirements of paragraph (c) (2) or (3) of this section.

(d) Effective date: This section shall become effective at 7 a.m., March 16, 1973.

(e) Expiration date: This section shall expire at 6:59 a.m., July 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interpret or applies secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 64 Stat. 911, 49 U.S.C. 1(10-17), 15(4), and 17(2).)

*It is further ordered.* That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc. 73-4790 Filed 3-12-73; 8:45 am]

**Title 32A—National Defense, Appendix**  
**CHAPTER X—OFFICE OF OIL AND GAS, DEPARTMENT OF THE INTERIOR**

[Oil Import Reg. 1 (Rev. 5), Amdt. 54]

**O I REG. 1—OIL IMPORT REGULATION**  
**Miscellaneous Amendments—Oil Imports**

This Amendment 54 amends Sections 21 and 27 of Oil Import Regulation 1 (Revision 5).

Section 21 is amended to set aside for the use of the Oil Import Appeals Board in 1973, 50,000 b/d (18,250,000 barrels total) of imports into Districts I-IV and 10,000 b/d (3,650,000 barrels total) of imports into District V.

Section 27 is rescinded in its entirety. Because the Oil Import Appeals Board urgently needs the set aside to continue its function without interruption and because the other change is merely technical in nature, it is not considered necessary to give notice of proposed rule making respecting this amendment, and it shall become effective March 13, 1973.

Dated: March 9, 1973.

JOHN C. WHITAKER,  
Acting Secretary of the Interior.

Approved:

WILLIAM E. SIMON,  
Deputy Secretary,  
Treasury Department.

1. Paragraph (e) of section 21 of Oil Import Regulation 1 (Revision 5), as amended, is amended to read as follows:  
**Sec. 21 Appeals.**

(e) For the allocation period January 1, 1973 through December 31, 1973, 50,000 b/d of imports into Districts I-IV of crude oil and unfinished oils (including Canadian imports as defined in section 1A of Proclamation 3279, as amended) and finished products, and 10,000 b/d of imports into District V of crude oil, unfinished oils, and finished products are made available to the Oil Import Appeals Board.

2. Section 27 of Oil Import Regulation 1 (Revision 5), as amended, is hereby rescinded.

[FR Doc. 73-5007 Filed 3-12-73; 11:48 am]

**Title 14—Aeronautics and Space**  
**CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION**

[Airspace Docket No. 72-AL-10]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

**Alteration of Control Zone and Transition Area**

On December 13, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 26532) stating that the Federal Aviation Adminis-

tration proposed amendments to Part 71 of the Federal Aviation Regulations that would alter the King Salmon, Alaska, control zone and transition area.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. No comments were received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t., May 24, 1973, as hereinafter set forth.

1. In § 71.171 (38 FR 351), the King Salmon, Alaska, control zone is amended to read:

**KING SALMON, ALASKA**

Within a 5-mile radius of the King Salmon, Alaska, airport (latitude 58°40'43" N., longitude 156°38'50" W.), within 2.5 miles each side of the King Salmon VORTAC 312° and 132° radials, extending from the 5-mile-radius zone to 12.5 miles northwest of the VORTAC; and within 2 miles each side of the King Salmon VORTAC 132° radial, extending from the 5-mile-radius zone to 11.5 miles southeast of the VORTAC.

2. In § 71.181 (38 FR 435), the King Salmon, Alaska, transition area is amended to read:

**KING SALMON, ALASKA**

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of the King Salmon, Alaska, airport (latitude 58°40'43" N., longitude 156°38'50" W.); that airspace extending upward from 1,200 feet above the surface within a 4.5-mile radius of the King Salmon, Alaska, airport; and that airspace extending upward from 14,500 feet MSL within a 17.2-mile radius of the King Salmon VORTAC, excluding the portions within the United States, Federal Airways, Control 1217, Control 1234, Control 1400, and Control 1401.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Anchorage, Alaska, on March 2, 1973.

THOMAS J. CRESWELL,  
Director, Alaskan Region.

[FR Doc. 73-4765 Filed 3-12-73; 8:45 am]

[Airspace Docket No. 72-AL-28]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

**Alteration of Control Zone and Transition Area**

On December 13, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 26533) stating that the Federal Aviation Administration proposed amendments to Part 71 of the Federal Aviation Regulations that would alter the Bethel, Alaska, terminal airspace structure.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. No comments were received.

## RULES AND REGULATIONS

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t., May 24, 1973, as hereinafter set forth.

1. In § 71.171 (38 FR 351), the Bethel control zone is amended to read:

## BETHEL, ALASKA

Within a 5-mile radius of the Bethel Airport (latitude 60°46'54" N., longitude 161°50'05" W.); within 3 miles each side of the Bethel RBN (BEA) 023° bearing, extending from the 5-mile-radius zone to 8.5 miles northeast of the RBN; within 3 miles each side of the Bethel VORTAC 007° radial, extending from the 5-mile-radius zone to 8.5 miles north of the VORTAC; and within

3 miles each side of the Bethel VORTAC 214° radial, extending from the 5-mile-radius zone to 9 miles southwest of the VORTAC.

2. In § 71.181 (38 FR 435), the Bethel transition area is amended to read:

## BETHEL, ALASKA

That airspace extending upward from 700 feet above the surface within 3 miles each side of the Bethel VORTAC 007° radial, extending from the north control zone extension to 11.5 miles north of the VORTAC; from the southwest control zone extension to 11.5 miles southwest of the VORTAC; and that airspace extending upward from 1,200 feet above the surface within a 20-mile ra-

dus of the Bethel VORTAC; and within 9.5 miles northwest and 4.5 miles southeast of the 023° bearing from BET localizer (latitude 60°46'08" N., longitude 161°50'39" W.) extending from the 20-mile-radius area to 26 miles northeast of the BET localizer.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Anchorage, Alaska, on March 2, 1973.

THOMAS J. CRESWELL,  
Director, Alaskan Region.

## DEPARTMENT OF TRANSPORTATION

## Federal Aviation Administration

## [ 14 CFR Part 71 ]

[Airspace Docket No. 72-AL-17]

## ALTERATION OF CONTROL ZONE AND TRANSITION AREA

## Notice of Proposed Rule Making

The Federal Aviation Administration is considering amendments to Part 71 of the Federal Aviation Regulations which would alter the Dillingham, Alaska, terminal airspace structure.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Alaskan Region, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, AK 99501. All communications received on or before April 12, 1973, will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the office of the Regional Counsel, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, AK.

Application of the U.S. Standard for Terminal Instrument Procedures (TERP's) and revised criteria for establishment of terminal controlled airspace require amendments to the Dillingham, Alaska, control zone and transition area.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

1. In § 71.171 (38 FR 351), the Dillingham, Alaska, control zone is amended to read:

## DILLINGHAM, ALASKA

Within a 5-mile radius of the Dillingham Airport (latitude 59°02'30" N., longitude 158°30'28" W.); within 4 miles each side of the Dillingham VORTAC 025° radial extending from the 5-mile-radius zone to 13.5 miles northeast of the Dillingham VORTAC and within 3.5 miles each side of the Dillingham VORTAC 205° radial extending from the 5-mile-radius zone to 8.5 miles southwest of the VORTAC. This control zone is effective during the specific dates and times estab-

## Proposed Rule Making

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

lished in advance by notice to airmen. The effective date and time will thereafter be continuously published in the U.S. Government Flight Information Publication, Supplement Alaska.

2. In § 71.181 (38 FR 435), the Dillingham transition area is amended to read:

## DILLINGHAM, ALASKA

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of the Dillingham Airport (latitude 59°02'30" N., longitude 158°30'28" W.); and that airspace within 4 miles each side of the Dillingham VORTAC 025° radial extending from the 5-mile-radius zone to 15.5 miles northeast of the VORTAC and within 3.5 miles each side of the Dillingham VORTAC 205° radial extending from the 8.5-mile radius zone to 12 miles southwest of the VORTAC; and that airspace extending upward from 1,200 feet above the surface within 4.5 miles northwest and 9.5 miles southeast of the Dillingham VORTAC 025° and 205° radials extending from 23 miles northeast to 18.5 miles southwest of the VORTAC and within an 18-mile radius of the Dillingham VORTAC extending clockwise from the 056° radial to the 173° radial of the VORTAC.

The action proposed herein would alter the Dillingham, Alaska, control zone by canceling the northeast control zone extension and altering the north and south control zone extensions to comply with new criteria. The lateral limits of the 700-foot and 1,200-foot portion of the transition areas would be reconfigured to provide the necessary controlled airspace for holding aircraft, aircraft conducting the Dillingham VOR Runway 1 and VOR/DME Runway 19 instrument approach procedures, and DME approach orbits thereto.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Anchorage, Alaska, on March 2, 1973.

THOMAS J. CRESWELL,  
Director, Alaskan Region.

## National Highway Traffic Safety Administration

## [ 49 CFR Part 571 ]

[Docket No. 73-4; Notice 1]

## AIR BRAKE SYSTEMS

## Proposed Emergency Braking Requirements

This notice proposes to amend the emergency braking requirements of Motor Vehicle Safety Standard No. 121, Air Brake Systems, with respect to two-axle truck-trailers being driven without trailers. In place of the stopping distances now specified, the proposed

amendment would substitute a stopping distance formula based on the vehicle's weight distribution.

In substance, the proposed amendment constitutes a favorable response to a petition for rule making submitted by Ford Motor Co. on August 10, 1972. In its petition, Ford urges the adoption of longer emergency stopping distances for vehicles equipped with modulated emergency braking systems. In justification of its petition, the company points to the disparity between these vehicles and vehicles with automatic parking brake application, which are required to meet a static pull test but not a stopping distance test.

The Ford analysis indicates that in a 60 m.p.h. test in an unloaded condition, certain of its short wheelbase tilt-cab models do not have enough weight on the rear axles to permit a stop within the specified distance, regardless of the efficiency of the brakes. Ford states that these models cannot be redesigned to accommodate front emergency brake units without compromising the performance of the vehicle in other respects.

If Ford equips these tractors with automatic parking brakes, pursuant to S5.7.1 of the standard, they will meet the emergency braking requirements, but their stopping distance capability would be no better than with a modulated emergency system. Ford considers the modulated system to be superior to the automatic system in terms of safety, and therefore requests the amendment of Table II to specify stopping distances for modulated systems that would permit their continued use on short wheelbase tilt-cab truck-trailers.

Upon consideration of Ford's petition, it has been tentatively decided to grant the request in substance. However, the stopping distances requested by Ford were derived from the vehicles with the smallest proportion of weight on the rear axle. It does not appear appropriate to base all stopping distances on the worst cases.

The proposed amendment therefore employs a formula that obtains the required stopping distance by multiplying the service brake stopping distance in Table II by the proportion of weight on the rear axle, with a corrective factor to allow for brake application time. The formula will exempt from Table II only the limited category of two-axle truck-trailers, and will exempt this category only in the lightly loaded tests. The stopping distances specified in Table II for modulated emergency braking systems will continue to apply to other vehicles and to other weight conditions.

It is therefore proposed that S5.7.2.3 of Motor Vehicle Safety Standard No. 121

## PROPOSED RULE MAKING

(49 CFR 571.121) be amended by the addition of a sentence at the end of the present text. As amended, the section would read as follows:

§ 571.121 Standard No. 121: air brake systems (effective September 1, 1974).

S5.7.2.3 *Emergency braking stopping distance.* When stopped six times for each combination of weight and speed specified in S5.3.1.1 on a road surface with a skid number of 75, with a single failure in the service brake system of a part designed to contain compressed air or brake fluid (except failure of a common valve, manifold, brake fluid housing, or brake chamber housing) the vehicle shall stop at least once in not more than the distance specified in Table II, measured from the point at which movement of the brake control begins, without any part of the vehicle leaving the roadway. However, in place of the distances specified in Table II, a two-axle truck-tractor, when tested at its unloaded weight plus 500 pounds, shall stop at least once in not more than a distance  $S_s$  such that

$$S_s = \left( \frac{\text{Unloaded vehicle weight}}{\text{Unloaded rear axle weight}} \right) \left( S_s - \frac{V}{K} \right) + \frac{V}{K}$$

where  $V$  is the test velocity in miles per hour, as shown in Table II,  $S_s$  is the service brake stopping distance in feet specified in Table II for velocity  $V$ , and  $K$  has the value 2 miles per hour per foot.

Interested persons are invited to submit comments on the proposal. Com-

ments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street SW., Washington, DC 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on April 15, 1973, will be considered, and will be available for examination in the docket at the above address both before and after the closing date. To the extent possible, comments filed after the above date will also be considered by the Administration. However, the rule making action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rule making. The Administration will continue to file relevant material, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

This notice of proposed rule making is issued under the authority of sections 103 and 119 of the National Traffic and Motor Vehicle Safety Act, Public Law 89-563, 80 Stat. 718, 15 U.S.C. 1392, 1407, and the delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.

Issued on March 7, 1973.

ROBERT L. CARTER,  
Associate Administrator,  
Motor Vehicle Programs.

## DEPARTMENT OF STATE

[CM-10]

## NATIONAL COMMITTEE FOR THE INTERNATIONAL RADIO CONSULTATIVE COMMITTEE (CCIR)

## Notice of Meeting

The Department of State announces that Study Group 9 of the U.S. National Committee for the International Radio Consultative Committee (CCIR) will meet on March 21, 1973, at 9:30 a.m. in Room 1406, Department of State, 21st and C Streets NW., Washington, D.C. Study Group 9 deals with questions relating to line-of-sight and transhorizon radio relay systems operating via terrestrial stations at frequencies above about 30 MHz. The agenda for the meeting on March 21 will include the following matters:

- a. Review of the conclusions of the 1972 meeting of International Study Group 9;
- b. Work programs for the development of U.S. contributions to the 1974 meeting of International Study Group 9.

Members of the general public who desire to attend the meeting will be admitted up to the limits of the capacity of the meeting room. In that regard, entrance to the Department of State building is controlled and entry will be facilitated if arrangements are made in advance of the meeting. It is requested that prior to March 21, 1973, members of the general public who plan to attend the meeting inform their name and affiliation/address to Mr. Gordon L. Huffcutt, Office of Telecommunications, Department of State; the telephone number is area code 202-632-2631. All non-Government attendees at the meeting should use the C Street entrance to the building.

Dated: March 5, 1973.

GORDON L. HUFFCUTT,  
Chairman,  
CCIR National Committee.

## DEPUTY COMMISSIONER ET AL.

## Delegation of Authority Regarding Administrative Classification of Documents and Material

The authority vested in the Commissioner of Internal Revenue by Treasury Department Order No. 222 of August 3, 1972, for the administrative classification of information necessarily restricted for official purposes is hereby delegated as follows:

(1) The Deputy Commissioner is authorized to classify for Limited Official Use documents or materials dealing with important, delicate, or sensitive matters which must be so restricted as to be available only for the information of officials who have a need to know such information. This authority may not be redelegated.

(2) The Deputy Commissioner, Assistant Commissioners, Assistant to the Commissioner (Public Affairs), Director, Tax Administration Advisory Staff, Director of International Operations, National Office Division Directors, Chief, Disclosure Staff, Regional Commissioners, Assistant Regional Commissioners, District Directors, and Service Center Directors, are authorized to classify for Official Use Only documents or materials which require restriction to a lesser degree than those marked Limited Official Use, but which may be made available only to authorized officials. This authority may not be redelegated.

(3) The authority to declassify documents or material classified under this delegation order may be exercised by the official authorizing the original classification, a successor in that capacity, or a line supervisory official of either.

This order supersedes Delegation Order No. 89 (Rev. 1) issued May 10, 1972.

Date of issue and effective date: March 8, 1973.

[SEAL] JOHNNIE M. WALTERS,  
Commissioner.

**DEPARTMENT OF DEFENSE**  
Department of the Navy  
**BOLLING-ANACOSTIA DEVELOPMENT**  
**CONCEPT**

**Notice of Public Hearing and Availability**  
**of Draft Environmental Impact State-**  
**ment**

**Announcement.** A public hearing will be held for the purpose of soliciting comments from the community regarding the base development concept for the joint military use of the Bolling-Anacostia tract in southeast Washington in the District of Columbia. The hearing will be conducted by a senior naval officer, and will include a presentation of the Development Concept Plan.

**Date.** March 28, 1973.

**Time.** 7-11 p.m.

**Place.** Ballou High School, Fourth and Trenton Streets SE., Washington, D.C.  
**Title.** Environmental Impact Statement, Bolling-Anacostia Development Concept, Washington, D.C.

**Description.** The concept proposes continued development of the existing Tri-Service Support Facilities with enlisted-men dormitories, a mess hall, support facilities, substantial Air Force administrative space and DOD administrative space. There will also be an industrial/technical area, an Air Force Exchange service station and car-care center, and the existing Naval Photographic Center. Adjacent to this is a 30-acre reservation for the joint Armed Forces Reserve Complex. In addition, the U.S. Coast Guard will maintain a relatively small operation on less than 10 acres. The balance of the tract will be made up of housing for both officers (287 units) and enlisted men (1,100 units). Serving this housing and other military personnel will be a Community Center limited to military personnel, both active and retired, and their immediate families. One elementary school site, a junior high or senior high school site, and a linear park along the river's edge are proposed. An area of 190 acres in the northern area will be occupied by the Executive Flight Detachment which provides helicopter support for the President, and is planned so as not to preclude future alternative uses. Construction is planned over a 15-year period beginning with the south portion of the tract with housing, and progressing to the north portion.

**DEPARTMENT OF THE INTERIOR**  
**National Park Service**

**COMMITTEE FOR THE RECOVERY OF**  
**ARCHAEOLOGICAL REMAINS**

**Notice of Meeting**

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Committee for the Recovery of Archaeological Remains will be held at 9:30 a.m., e.s.t. on March 22 and 23, 1973, in the Department of the Interior building, Washington, D.C. On March 22, 1973, the committee will meet in Room 3446, and on March 23, 1973, in Room 8068A-North, Penthouse.

The purpose of the Committee for the Recovery of Archaeological Remains is to provide independent advice and assistance to Government agencies, through the Inter-Agency Archeological Salvage Program administered by the National Park Service, in order to provide an effective program for the salvage of archeological remains threatened with loss by reason of Federal programs and activities.

The members of the Committee are as follows:

Dr. J. O. Brew (Chairman), Cambridge, Mass.; Dr. James F. Deetz, Plymouth, Mass.; Dr. Emil W. Haury, Tucson, Ariz.; Dr. Charles R. Gimsey III, Fayetteville, Ark.; Dr. Douglas W. Schwartz, Santa Fe, N. Mex.;

Dr. Raymond H. Thompson, Tucson, Ariz.; and Dr. Fred Wendorf, Dallas, Tex.

The committee will meet in open session with members of the National Park Service on March 22, 1973. The matters to be discussed at this meeting include:

1. Review of the National Park Service's accomplishments and administration of the Inter-Agency Archeological Salvage Program for 1972.

2. National Park Service guidelines and responsibilities to other Federal agencies regarding environmental impact statements and implementation of Executive Order 11593, of May 13, 1971, in relation to archeological and other cultural remains.

3. Salvage contract costs and contract administration with State and local institutions.

4. Legislation pending before Congress for amending the Reservoir Salvage Act of 1960 (Public Law 86-523; 74 Stat. 220).

5. Federal responsibilities for archeological materials recovered as the result of the Inter-Agency Archeological Salvage Program.

6. Review of the National Park Service's archeological publications program.

This meeting session will be open to the public. However, facilities and space for accommodating members of the public are limited and it is expected that not more than 10 persons will be able to attend the meeting. Any member of the public may file with the committee a written statement concerning the matters to be discussed.

The committee will meet in general session with representatives from other Federal agencies on March 23, 1973. The matters to be discussed at this session include:

1. Activities of the agencies represented regarding the protection and preservation of archeological remains on lands under their control. Brief reports will be presented to the committee by agency representatives.

2. Significance and status of legislation pending before Congress for amending the Reservoir Salvage Act of 1960 (Public Law 86-523; 74 Stat. 220).

3. Federal agencies' responsibilities and National Park Service's role in implementing Executive Order 11593 of May 13, 1971.

This meeting session will be open to the public. However, facilities and space for accommodating members of the public are limited and it is expected that not more than 20 persons will be able to attend the meeting. Any member of the public may file with the committee a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact Dr. Robert H. Lister, Chief, Division of Archeology and Anthropology, National Park Service, Department of the Interior, Washington, D.C., at 202-343-6975. Minutes of the meeting will be available for public inspection 4 weeks after the meeting at the office of the Chief, Division of Archeology and Anthropology,

**NOTICES**

Room 1214, Department of the Interior, Washington, D.C.

**Dated:** March 5, 1973.

STANLEY W. HULETT,  
Associate Director,  
National Park Service.

[FR Doc. 73-4768 Filed 3-12-73; 8:45 am]

**Office of the Secretary**  
**GEORGE W. FUSACK**

**Statement of Changes in Financial**  
**Interests**

In accordance with the requirements of section 710(b) (6) of the Defense Production Act of 1950, as amended, and Executive Order 10647 of November 28, 1955, the following changes have taken place in my financial interests during the past 6 months:

- (1) None.
- (2) None.
- (3) None.
- (4) None.

This statement is made as of February 16, 1973.

**Dated:** February 22, 1973.

GEORGE W. FUSACK.

[FR Doc. 73-4779 Filed 3-12-73; 8:45 am]

**DEPARTMENT OF AGRICULTURE**  
**Commodity Credit Corporation**

**BYLAWS**

The bylaws of the Commodity Credit Corporation, amended February 21, 1973, are as follows:

**OFFICES**

1. The principal office of the Corporation shall be in the city of Washington, District of Columbia, and the Corporation shall also have offices at such other places as it may deem necessary or desirable in the conduct of its business.

**SEAL**

2. There is impressed below the official seal which is hereby adopted for the Corporation. Said seal may be used by causing it or a facsimile thereof to be impressed or affixed or reproduced.

**MEETINGS OF THE BOARD**

3. Regular meetings of the Board shall be held, whenever necessary, on Wednesdays at 9:30 a.m. in the Board meeting room in the U.S. Department of Agriculture in the city of Washington, D.C. Notice of such meetings shall be pro-

vided in the same manner as is specified for special meetings in paragraph 4.

4. Special meetings of the Board may be called at any time by the Chairman, the Vice Chairman, or by the President, or the Executive Vice President and shall be called by the Chairman, the Vice Chairman, the President, or the Executive Vice President at the written request of any four Directors. Notice of special meetings shall be given either personally or by mail (including the intradepartmental mail channels of the Department of Agriculture or interdepartmental mail channels of the Federal Government) or by telegram, and notice by telephone shall be personal notice. Any Director may waive in writing such notice as to himself, whether before or after the time of the meeting, and the presence of a Director at any meeting shall constitute a waiver of notice of such meeting. No notice of an adjourned meeting need be given. Any and all business may be transacted at any special meeting unless otherwise indicated in the notice thereof.

5. The Secretary of Agriculture shall serve as Chairman of the Board. The Under Secretary of Agriculture shall serve as Vice Chairman of the Board and, in the absence or unavailability of the Chairman, shall preside at meetings of the Board. In the absence or unavailability of the Chairman and the Vice Chairman, the President of the Corporation shall preside at meetings of the Board. In the absence or unavailability of the Chairman, the Vice Chairman, and the President, the Directors present at the meetings shall designate a Presiding Officer.

6. At any meeting of the Board a quorum shall consist of four Directors. The Act of a majority of the Directors present at any meeting at which there is a quorum shall be the act of the Board.

7. The General Counsel of the Department of Agriculture, whose office shall perform all legal work of the Corporation, and the Deputy General Counsel of the Department of Agriculture shall, as General Counsel and Deputy General Counsel of the Corporation, respectively, attend meetings of the Board.

8. The Executive Vice President, the Vice President who is the Associate Administrator of the Agricultural Stabilization and Conservation Service, and the Secretary shall attend meetings of the Board. Each of the other Vice Presidents and Deputy Vice Presidents, and the Controller shall attend meetings of the Board during such times as the meetings are devoted to consideration of matters as to which they have responsibility.

9. Other persons may attend meetings of the Board upon specific authorization by the Chairman, Vice Chairman, or President.

**COMPENSATION OF BOARD DIRECTORS**

10. The compensation of each Director shall be prescribed by the Secretary of Agriculture. Any director who holds another office or position under the Federal Government, the compensation for which exceeds that prescribed by the Secretary

of Agriculture for such Director, may elect to receive compensation at the rate provided for such other office or position in lieu of compensation as a Director.

**OFFICERS**

11. The officers of the Corporation shall be a President, Vice Presidents, and Deputy Vice Presidents as hereinafter provided for, a Secretary, a Controller, a Treasurer, a Chief Accountant, and such additional officers as the Secretary of Agriculture may appoint.

12. The Assistant Secretary of Agriculture for International Affairs and Commodity Programs shall be ex officio President of the Corporation.

13. The following officials of the Agriculture Stabilization and Conservation Service (referred to as ASCS), Export Marketing Service (referred to as EMS), Foreign Agricultural Service (referred to as FAS), Food and Nutrition Service (referred to as FNS), and Agricultural Marketing Service (referred to as AMS) shall be ex officio officers of the Corporation.

Administrator, ASCS; Executive Vice President.

General Sales Manager, EMS; Vice President.

Administrator, FAS; Vice President.

Administrator, AMS; Vice President.

Administrator, FNS; Vice President.

Associate Administrator, ASCS; Vice President.

Deputy Administrator, State and County Operations, ASCS; Deputy Vice President.

Deputy Administrator, Commodity Operations, ASCS; Deputy Vice President.

Deputy Administrator, Management, ASCS; Deputy Vice President.

Executive Assistant to the Administrator, ASCS; Secretary.

Director, Fiscal Division, ASCS; Controller.

Deputy Director, Fiscal Division, ASCS; Treasurer.

Chief, Accounting Systems Branch, Fiscal Division, ASCS; Chief Accountant.

The person occupying, in an acting capacity, the office of any person designated ex officio by this paragraph 13 as an officer of the Corporation shall, during his occupancy of such office, act as such officer.

14. Officers who do not hold office ex officio shall be appointed by the Secretary of Agriculture and shall hold office until their respective appointments shall have been terminated.

**THE PRESIDENT**

15. The President shall have general supervision and direction of the Corporation, its officers and employees.

**THE VICE PRESIDENTS**

16. (a) The Executive Vice President shall be the chief executive officer of the Corporation and shall be responsible for submission of all Corporation policies and programs to the Board. Except as provided in paragraphs (b), (c), (d), and (e) below, the Executive Vice President shall have general supervision and direction of the preparation of policies and

programs for submission to the Board, of the administration of the policies and programs approved by the Board, and of the day-to-day conduct of the business of the Corporation and of its officers and employees.

(b) The Vice President who is the Administrator, Foreign Agricultural Service, shall be responsible for preparation for submission by the Executive Vice President to the Board of those policies and programs of the Corporation which are for performance through the facilities and personnel of the Foreign Agricultural Service. He shall also have responsibility for the administration of those operations of the Corporation, under policies and programs approved by the Board, which are carried out through facilities and personnel of the Foreign Agricultural Service. He shall also perform such special duties and exercise such powers as may be prescribed, from time to time, by the Secretary of Agriculture, the Board, or the President of the Corporation.

(c) The Vice President who is Administrator, Agricultural Marketing Service, shall be responsible for the administration of those operations of the Corporation, under policies and programs approved by the Board, which are carried out through facilities and personnel of the Agricultural Marketing Service. He shall also perform such special duties and exercise such powers as may be prescribed, from time to time, by the Secretary of Agriculture, the Board, or the President of the Corporation.

(d) The Vice President who is the General Sales Manager of the Export Marketing Service shall be responsible for preparation for submission by the Executive Vice President to the Board of policies and programs of the Corporation which are for performance through the facilities and personnel of the Export Marketing Service. He shall also have responsibility for the administration of those operations of the Corporation, under policies and programs approved by the Board, which are carried out through facilities and personnel of the Export Marketing Service. He shall also perform such special duties and exercise such powers as may be prescribed, from time to time, by the Secretary of Agriculture, the Board, or the President of the Corporation.

(e) The Vice President who is the Administrator, Food and Nutrition Service, shall be responsible for the administration of those operations of the Corporation, under policies and programs approved by the Board, which are carried out through facilities and personnel of the Food and Nutrition Service. He shall also perform such special duties and exercise such powers as may be prescribed, from time to time, by the Secretary of Agriculture, the Board, or the President of the Corporation.

17. The Vice President who is the Associate Administrator, Agricultural Stabilization and Conservation Service, and the Deputy Vice Presidents shall assist the Executive Vice President in the performance of his duties and the exercise of his

powers to such extent as the President or the Executive Vice President shall prescribe, and shall perform such special duties and exercise such powers as may be prescribed from time to time by the Secretary of Agriculture, the Board, the President of the Corporation, or the Executive Vice President of the Corporation.

#### THE SECRETARY

18. The Secretary shall attend and keep the minutes of all meetings of the Board; shall attend to the giving and serving of all required notices of meetings of the Board; shall sign all papers and instruments to which his signature shall be necessary or appropriate; shall attest the authenticity of and affix the seal of the Corporation upon any instrument requiring such action and shall perform such other duties and exercise such other powers as are commonly incidental to the office of Secretary as well as such other duties as may be prescribed from time to time by the President or the Executive Vice President.

#### THE CONTROLLER

19. The Controller shall have charge of all fiscal and accounting affairs of the Corporation, including all borrowings and related financial arrangements, claims activities, and formulation of prices in accordance with established policies; and shall perform such other duties as may be prescribed from time to time by the President or the Executive Vice President.

#### THE TREASURER

20. The Treasurer, under the general supervision and direction of the Controller, shall have charge of the custody, safekeeping and disbursement of all funds of the Corporation; shall designate qualified persons to authorize disbursement of corporate funds; shall direct the disbursement of funds by disbursing officers of the Corporation or by the Treasurer of the United States, Federal Reserve Banks and other fiscal agents of the Corporation; and shall issue instructions incidental thereto; shall be responsible for documents relating to the general financing operations of the Corporation, including borrowings from the U.S. Treasury, commercial banks and others; shall arrange for the payment of interest on and the repayment of such borrowings; shall arrange for the payment of interest on the capital stock of the Corporation; shall coordinate and give general supervision to the claims activities of the Corporation and shall have authority to collect all moneys due the Corporation, to receipt therefor and to deposit same for the account of the Corporation; and shall perform such other duties relating to the fiscal and accounting affairs of the Corporation as may be prescribed from time to time by the Controller.

#### THE CHIEF ACCOUNTANT

21. The Chief Accountant, under the general supervision and direction of the Controller, shall have charge of the gen-

eral books and accounts of the Corporation and the preparation of financial statements and reports. He shall be responsible for the initiation, preparation and issuance of policies and practices related to accounting matters and procedures, including official inventories, records, accounting and related office procedures where standardized, and adequate subsidiary records of revenues, expenses, assets and liabilities; and shall perform such other duties relating to the fiscal and accounting affairs of the Corporation as may be prescribed from time to time by the Controller.

#### OTHER OFFICIALS

22. Except as otherwise authorized by the Secretary of Agriculture or the Board, the operations of the Corporation shall be carried out through the facilities and personnel of the Agricultural Stabilization and Conservation Service, the Foreign Agricultural Service, the Export Marketing Service, the Food and Nutrition Service and the Agricultural Marketing Service. In accordance with any assignment of functions and responsibilities made by the Secretary of Agriculture and, within his respective agency, by the Administrators of the Agricultural Stabilization and Conservation Service, Foreign Agricultural Service, Food and Nutrition Service, Agricultural Marketing Service, or the General Sales Manager of the Export Marketing Service.

23. The Directors of the divisions and commodity offices of the Agricultural Stabilization and Conservation Service shall be contracting officers and executives of the Corporation in general charge of the activities of the Corporation carried out through their respective divisions or offices. The responsibilities of such Directors in carrying out activities of the Corporation, which shall include the authority to settle and adjust claims by and against the Corporation arising out of activities under their jurisdiction, shall be discharged in conformity with these bylaws and applicable program, policies, and procedures.

#### CONTRACTS OF THE CORPORATION

24. Contracts of the Corporation relating to any of its activities may be executed in its name by the Secretary of Agriculture or the President, the Vice Presidents, the Deputy Vice Presidents, the Controller, the Treasurer, and the Directors of the divisions and commodity offices of the Agricultural Stabilization and Conservation Service may execute contracts relating to the activities of the Corporation for which they are respectively responsible.

25. The Executive Vice President who is the Administrator of ASCS and, subject to the written approval by such Executive Vice President of each appointment, the Vice Presidents, the Deputy Vice Presidents, the Controller, and the Directors of the divisions and commodity offices of the Agricultural Stabilization and Conservation Service may appoint, by written instrument or instruments, such Contracting Officers as they deem

necessary, who may, to the extent authorized by such instrument or instruments, execute contracts in the name of the Corporation. A copy of each such instrument shall be filed with the Secretary.

26. Appointments of Contracting Officers may be revoked by written instrument or instruments by the Executive Vice President or by the official who made the appointment. A copy of each such instrument shall be filed with the Secretary.

27. In executing a contract in the name of the Corporation, an official shall indicate his title.

#### ANNUAL REPORT

28. The Executive Vice President shall be responsible for the preparation of an annual report of the activities of the Corporation, which shall be filed with the Secretary of Agriculture and with the Board.

#### AMENDMENTS

29. These bylaws may be altered or amended or repealed by the Secretary of Agriculture, or subject to his approval by action of the Board at any regular meeting of the Board or at any special meeting of the Board, if notice of the proposed alteration, amendment, or repeal be contained in the notice of such special meeting.

#### APPROVAL OF BOARD ACTION

30. The actions of the Board shall be subject to the approval of the Secretary of Agriculture.

I, Seeley G. Lodwick, Secretary, Commodity Credit Corporation, do hereby certify that the above is a full, true, and correct copy of the bylaws of Commodity Credit Corporation, as amended February 21, 1973.

In witness whereof I have officially subscribed my name and have caused the corporate seal of the said Corporation to be affixed this sixth day of March 1973.

[SEAL] SEELEY G. LODWICK,  
Secretary,  
Commodity Credit Corporation.  
[FR Doc. 73-4709 Filed 3-12-73; 8:45 am]

#### CONTROLLER

##### Delegation of Authority Regarding Export Credit Sales Program

Pursuant to the authority vested in me by the Assistant Secretary for International Affairs and Commodity Programs and set forth in § 2.65 of Subpart H, Title 7, CFR, entitled Delegations of Authority by the Assistant Secretary for International Affairs and Commodity Programs, I hereby delegate to the Controller, Commodity Credit Corporation, who is Director, Fiscal Division, Agricultural Stabilization and Conservation Service, the following authority, which may be redelegated within the limitation of 7 CFR 2.7:

The authority, set forth in 7 CFR 2.65 (a) (13), to provide fiscal and accounting functions for the Export Marketing Serv-

ice with respect to program matters, and the processing and disposition for the Export Marketing Service of all claims arising under Department functions for which the Export Marketing Service has responsibility; and, in participation with other agencies of the U.S. Government, to develop and formulate amendments to credit agreements under Title I, Public Law 480, and the Export Credit Sales Program involving the rescheduling of amounts due from foreign countries under such agreements.

Effective date. This delegation of authority is effective on March 13, 1973.

Signed at Washington, D.C., on March 7, 1973.

KENNETH E. FRICK,  
Executive Vice President,  
Commodity Credit Corporation.  
[FR Doc. 73-4801 Filed 3-12-73; 8:45 am]

#### Forest Service

##### PROPOSED TIMBER MANAGEMENT PLAN, SANTA FE NATIONAL FOREST

##### Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for a Proposed Timber Management Plan for the Santa Fe National Forest, USDA-FS-DES (Adm.) 73-48.

The purpose of the statement is to consider probable environmental effects of the proposed timber management program.

This draft environmental statement was filed with CEQ on February 28, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3230, 14th Street and Independence Avenue SW., Washington, DC 20250.

USDA, Forest Service, Southwestern Region, 517 Gold Avenue SW., Albuquerque, NM 87101.

Santa Fe National Forest, U.S. Post Office and Federal Building, Santa Fe, N. Mex. 87501. Copies are available from the National

Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151; and Colorado Plateau Environmental Advisory Council, Post Office Box 1389, Flagstaff, AZ 86001. Please refer to the name and number of the environmental statement above when ordering.

A limited number of single copies are available upon request to William D. Hurst, Regional Forester, Southwestern Region, U.S. Forest Service, 517 Gold Avenue SW., Albuquerque, NM 87101.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Fed-

eral agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor, John M. Hall, Santa Fe National Forest, U.S. Post Office and Federal Building, Santa Fe, N. Mex. 87501. Comments must be received by April 5, 1973 in order to be considered in the preparation of the final environmental statement.

PHILIP L. THORNTON,  
Deputy Chief, Forest Service.

MARCH 6, 1973.

[FR Doc. 73-4760 Filed 3-12-73; 8:45 am]

#### DEPARTMENT OF COMMERCE

##### National Oceanic and Atmospheric Administration

##### SEA WORLD, INC.

##### Notice of Issuance of Letter of Exemption From Provisions of Marine Mammal Protection Act

On January 24, 1973, a notice was published in the FEDERAL REGISTER (38 FR 2340), stating that an application had been filed with the National Oceanic and Atmospheric Administration for an economic hardship exemption by Sea World, Inc., 1720 South Shores Road, Mission Bay, San Diego, CA 92109, to take or import the following marine mammals for public display at their facility, in Orlando, Fla., now under construction. The marine mammals are as follows: 14 Bottle-nosed dolphins (*Tursiops truncatus*); six White-sided dolphins *Lagenorhynchus obliquidens*; four Killer whales (*Orcinus orca*); eight Pilot whales (*Globicephala scammoni*); four Beluga whales (*Delphinapterus leucas*); 15 California sea lions (*Zalophus californianus*); four Stellar sea lions (*Eumetopias jubata*); five Northern elephant seals (*Mirounga angustirostris*); 16 Harbor seals (*Phoca vitulina*); six Bearded seals (*Erignathus barbatus*).

Therefore, notice is hereby given that, pursuant to the provisions of the Marine Mammal Protection Act of 1972 (Public Law 92-522), after having considered the application and all other pertinent information and facts with regard thereto, the National Marine Fisheries Service issued a letter of exemption to Sea World, Inc., San Diego, Calif., March 6, 1973, subject to the limitations and conditions set forth in the letter of exemption. Such letter, and supporting rationale, are available for review by interested persons, in the Office of the Director, National Marine Fisheries Service, Washington, D.C.

Dated: March 8, 1973.

ROBERT W. SCHONING,  
Acting Director,  
National Marine Fisheries Service.  
[FR Doc. 73-4806 Filed 3-12-73; 8:45 am]

**NATIONAL TECHNICAL  
INFORMATION SERVICE  
GOVERNMENT-OWNED INVENTIONS  
Notice of Availability for Licensing**

The inventions listed below are owned by the U.S. Government and are available for licensing in accordance with the GSA patent licensing regulations.

Copies of patent applications, either paper copy (PC) or microfiche (MF), can be purchased from the National Technical Information Service (NTIS), Springfield, Va. 22151, at the prices cited. Requests for copies of patent applications must include the PAT-APPL number and the title. Inquiries and requests for licensing information should be directed to the address cited on the first page of each copy of the patent application.

Paper copies of patents cannot be purchased from NTIS but are available from the Commissioner of Patents, Washington, D.C. 20231, at \$0.50 each. Inquiries and requests for licensing information should be directed to the "Assignee" as indicated on the copy of the patent.

DOUGLAS J. CAMPION,  
Patent Program Coordinator,  
National Technical Information Service.

Office of Import Programs  
MIAMI VALLEY HOSPITAL

**Notice of Decision on Application for Duty-Free Entry of Scientific Article**

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00175-33-43780. Applicant: Miami Valley Hospital, Radiation Therapy Department, 1 Wyoming Street,

**NOTICES**

Dayton, Ohio 45409. Article: 45 MeV medical-type betatron with accompanying magnetic lens. Manufacturer: Brown-Boveri, Switzerland. Intended use of article: The article is intended to be used in the following research projects:

- (1) Determination of the physical characteristics of the electron beam;
- (2) Investigation of the effects of inhomogeneities in the body such as, bone and air cavities, on the beam; and
- (3) Development of computer programs for use in radiation dosimetry of the electron beam.

The article will also be used for teaching the principles and clinical applications of high energy electron and X-ray beam therapy to radiology residents. In addition the article will be used for both high energy X-ray and electron beam therapy in the treatment of certain cancers. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated February 23, 1973, that the high energy of the beam provided by the foreign article is pertinent to the applicant's research and educational purposes. The foreign article provides beam energies to 45 million electron volts. HEW further advises that it knows of no domestic medical betatrons which provide beam energies exceeding 25 million electron volts.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,

Acting Director,  
Office of Import Programs.

**NORTH CAROLINA DEPARTMENT OF  
MENTAL HEALTH ET AL.**

**Notice of Consolidated Decision on Applications for Duty-Free Entry of Ultramicrotomes**

The following is a consolidated decision on applications for duty-free entry of ultramicrotomes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.). (See especially section 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00183-33-46500. Applicant: North Carolina Department of

Mental Health, Research Division, Embryology Laboratory, Station B, Box 7532, Raleigh, NC 27611. Article: Ultramicrotome, Model "OmU2." Manufacturer: C. Reichert Optische Werke AG, Austria. Intended use of article: The article is intended to be used for thin-sectioning and ultrathin-sectioning of embryonal brain and spinal cord of chickens for electron microscopy in order to study fine structural changes due to the experimental manipulations. Application received by Commissioner of Customs: October 11, 1972. Advice submitted by Department of Health, Education, and Welfare on: February 23, 1973.

Docket No. 73-00191-33-46500. Applicant: University of Alabama in Birmingham, University Station, Birmingham, Ala. 35294. Article: Ultramicrotome, Model LKB 4800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in dental research for investigations involving samples of purified collagen, other proteins, mitochondria, lysosomes, cell membranes, and basement membranes in normal and pathologic tissues utilizing a variety of techniques including combined histochemical-cytochemical-microchemical-biochemical electron microscope methods. The article will also be used in the preparation of a book including practical histochemical techniques which will require laboratory testing and training students in an understanding of cellular pathology. Application received by Commissioner of Customs: October 6, 1972. Advice submitted by Department of Health, Education, and Welfare on: February 23, 1973.

Docket No. 73-00193-33-46500. Applicant: University of Illinois, Eye and Ear Infirmary, 1855 West Taylor Street, Chicago, IL 60612. Article: Ultramicrotome, Model LKB 8800A and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in the investigation of ocular adnexal tissues obtained from enucleated human eye and experimental animals. Specific projects include: (1) A study of argon laser photo-coagulation on the cornea, iris, anterior chamber angle, retina and choroid of the human eye; (2) a study of the vascular changes of Coats' disease, a pediatric ocular disease; (3) a study of the optic nerve changes associated with hereditary-primary tapetal-retinal degeneration of canines; and (4) studies related to retinal degeneration following experimental retinal detachment in monkeys. Application received by Commissioner of Customs: October 16, 1972. Advice submitted by Department of Health, Education, and Welfare on: February 23, 1973.

Docket No. 73-00194-33-46500. Applicant: University of Pittsburgh, School of Medicine, The Montefiore Hospital, 3459 Fifth Avenue, Pittsburgh, PA 15213. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of normal and altered mammalian tissues, mostly derived from animal experiments. The phenomena under investiga-

tion include the finding of enzymatic activity of certain renal cells as related to their phagocytic and/or pinocytotic function. These experiments may help to understand the handling of antigenic materials and the findings are relevant for the understanding of a variety of interstitial human renal diseases. Application received by Commissioner of Customs: October 16, 1972. Advice submitted by Department of Health, Education, and Welfare on: February 23, 1973.

Docket No. 73-00195-33-46500. Applicant: University of Miami, Post Office Box 8184, Coral Gables, FL 33124. Article: Ultramicrotome, Model LKB 8800A and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to prepare ultrathin sections of plastic-embedded tissues, principally muscle and nerve, from a wide variety of animal types from lower invertebrates to mammals. The experiments to be conducted include the embryogenesis of muscle and nerve, and the development of the characteristic subcellular components of these cells. A variety of experiments will involve the association of the myofibrils with the membranes concerned in synaptic excitation and the control of contraction and relaxation. Application received by Commissioner of Customs: October 16, 1972. Advice submitted by Department of Health, Education, and Welfare on: February 23, 1973.

Docket No. 73-00196-33-46500. Applicant: Ball State University, Muncie, Ind. 47306. Article: Ultramicrotome, Model LKB 4800A and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for examination of embryonic, larval, pupal, and adult tissues in insects to examine the interactions of somatic and germ tissues in development of functional adult gonads. The study will involve looking at sections of heterogenous tissues, for example, ovaries containing eggs undergoing shell formation and larval material. Other projects will involve examination of various plant materials including woody and germinating material. These materials present special problems in embedding and ultramicrotomy. The article will also be used to instruct selected undergraduate and graduate students in the preparation of specimens for electron microscopy. Application received by Commissioner of Customs: October 16, 1972. Advice submitted by Department of Health, Education, and Welfare on: February 23, 1973.

Docket No. 73-00197-33-46500. Applicant: Children's Hospital Medical Center, 300 Longwood Avenue, Boston, MA 02115. Article: Ultramicrotome, Model LKB 8800A and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in studies on biological materials which will include mammalian tissues obtained from experimental animals. The specific research purposes are to investigate the chemical and structural nature of the initial mineral deposits in enamel, bone, dentin, and cartilage; to characterize the phases and those changes occurring during maturation

**NOTICES**

tion of the deposits; and to relate to phases to cellular organelles and to structural elements in the organic matrices. Application received by Commissioner of Customs: October 16, 1972.

Docket No. 73-00201-33-46500. Applicant: Veterans' Administration Hospital, 500 Foothill Boulevard, Salt Lake City, UT 84113. Article: Ultramicrotome, Model LKB 8800A and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to prepare thin sections for electron micrography for ultrastructural studies of changes of the liver in hypercholesterol diets and changes of the liver in diabetic animals. The article will also be used to train an electron microscopy technician and to familiarize pathology residents with electron microscopy. Application received by Commissioner of Customs: October 19, 1972. Advice submitted by Department of Health, Education, and Welfare on: February 23, 1973.

Docket No. 73-00210-33-46500. Applicant: Chico State College, Department of Biological Sciences, Chico, Calif. 95926. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in the following studies:

(1) The role that microtubules play in the morphogenesis of parasitic protozoa, particularly flagellates;

(2) The ultrastructure and development of generative cells in geranium pollen grain and pollen tube; and

(3) The role of generative organelles (amyloplasts and mitochondria) in male transmission of cytoplasmic inherited characters in several plants, and ultrastructure of the walls of pollen grains. The article will also be used in the course, Biology Science 202, Cytology, to present an introduction to the structure and related functions of plant and animal cells and protoplasmic systems. In addition the article will be used in the course Biological Preparation for Electron Microscopy to present theory and provide actual experience in preparing biological specimens for electron microscopy. Application received by Commissioner of Customs: October 24, 1972. Advice submitted by Department of Health, Education, and Welfare on: February 23, 1973.

Comments: No comments have been received with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purposes as these articles are intended to be used, is being manufactured in the United States. Reasons: Each of the foreign articles provides a range of cutting speeds from equal to or less than 0.5 millimeter/second (mm./sec.) to equal to or greater than 10 mm./sec. The most closely comparable domestic instrument is the Model MT-2B ultramicrotome which is manufactured by Ivan Sorvall, Inc. (Sorvall). The Model MT-2B has a range of cutting speeds from 0.09 to 3.2 mm./sec. The conditions for obtaining high quality sections that are uniform in thickness depend to a large extent on the hardness,

consistency, toughness and other properties of the specimen materials, the properties of the embedding materials and the geometry of the block. In connection with a prior application (Docket No. 69-00118-33-46500) which relates to the duty-free entry of an article in the category of instruments to which the foregoing applications relate, the Department of Health, Education, and Welfare (HEW) advised that "Smooth cuts are obtained when the speed of cutting (among such [other] obvious factors as knife edge condition and angle), is adjusted to the characteristics of the material being sectioned." In connection with another prior case (Docket No. 69-00665-33-46500) relating to the duty-free entry of an article in the same category as those described above, HEW advised that "The range of cutting speeds and a capability for the higher cutting speeds is \* \* \* a pertinent characteristic of the ultramicrotome to be used for sectioning materials that experience has shown difficult to section." In connection with still another prior case (Docket No. 70-00077-33-46500) relating to the duty-free entry of an article similar to those described above, HEW advised that "ultrathin sectioning of a variety of tissues having a wide range in density, hardness, etc." requires a maximum range in cutting speed and, further, that "The production of ultrathin serial sections of specimens that have great variation in physical properties is very difficult." Accordingly, HEW advises in its respectively cited memoranda, that cutting speeds in excess of 4 mm./sec. are pertinent to the satisfactory sectioning of the specimen materials and the relevant embedding materials that will be used by the applicants in their respective experiments.

For these reasons, we find that the Sorvall Model MT-2B ultramicrotome is not of equivalent scientific value to the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,  
Acting Director,  
Office of Import Programs.

[FR Doc.73-4772 Filed 3-12-73; 8:45 am]

**UNIVERSITY OF CHICAGO**

**Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes**

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00211-00-46040. Applicant: University of Chicago, Department of Pathology, 950 East 59th Street, Chicago, IL 60637. Article: Universal Cassette for Elmiskop 101, Electron microscope. Manufacturer: Siemens AG, West Germany. Intended use of article: The article is an accessory to an existing electron microscope being used in studies of diagnostic material consisting of human renal biopsies. In addition, extended studies will be made of several experimental models produced in rats that have resemblance to human renal disease. Finally, a high resolution study of membrane formation in the renal medulla induced by electrolyte imbalance is to be continued with emphasis on the unique nature of the liposomes formed. The article will also be used in medical school courses CPP 307 and Pathology 324 for teaching of clinical pathologic correlations from renal disease. Application received by Commissioner of Customs: October 27, 1972.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The application relates to an accessory for an instrument that had been previously imported for the use of the applicant institution. The article is being furnished by the manufacturer which produced the instrument with which the article is intended to be used, and is pertinent to the applicant's purposes.

The Department of Commerce knows of no similar accessory being manufactured in the United States, which is interchangeable with or can be readily adapted to the instrument with which the foreign article is intended to be used.

B. BLANKENHEIMER,  
Acting Director,  
Office of Import Programs.

#### UNIVERSITY OF MARYLAND HOSPITAL Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office

of Import Programs, Department of Commerce, Washington, D.C.

Docket No.: 73-00176-99-72500. Applicant: University of Maryland Hospital, Redwood and Greene Streets, Baltimore, Md. 21201. Article: Engstrom Respirator system ER 300. Manufacturer: LKB Medical AB, Sweden. Intended use of article: The article is intended to be used in training anesthesiology and surgical residents, nurses, and inhalation therapists in the functional characteristics and clinical application of mechanical ventilators. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides a pressure waveform automatically adapted to changing compliance and airway resistance resulting in improved distribution of air and ventilation of patients under anesthesia. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated February 23, 1972, that the characteristics described above are pertinent to the purposes for which the article is intended to be used. HEW further advises that it knows of no domestic instrument which provides the pertinent characteristics of the article.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,  
Acting Director,  
Office of Import Programs.

#### TENNESSEE UNIVERSITY Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00184-33-03400. Applicant: The University of Tennessee, Department of Audiology and Speech Pathology, South Stadium Hall, Knoxville, Tenn. 37916. Article: Mini-suvag hearing aid. Manufacturer: Service European De Diffusion Des Inventories, S.A., France. Intended use of article: The article is intended to be used to examine the effect of utilizing this low-frequency hearing aid with preschool deaf children. In addition, the article will be used

in courses in diagnostics and aural rehabilitation of the deaf. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides extended low frequency response suitable for a bone vibrating transducer. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated February 23, 1972, that characteristics of the article described above are pertinent to the purposes for which the foreign article is intended to be used. HEW further advises that it knows of no comparable domestic instrument which provides pertinent characteristics of the foreign article.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,  
Acting Director,  
Office of Import Programs.

[FR Doc 73-4775 Filed 3-12-73; 8:45 am]

#### UNIVERSITY OF WISCONSIN- STEVENS POINT ET AL.

##### Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.). (See especially section 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00186-33-46040. Applicant: University of Wisconsin-Stevens Point, Department of Biology, Stevens Point, Wis. 54481. Article: Electron microscope, Model HS-8. Manufacturer: Hitachi-Perkin, Elmer, Japan. Intended use of article: The article is intended to be used to examine embryonic hearts of chicks and rats at appropriate stages of development to determine the mechanism of formation of the interventricular septum and the atrioventricular valves. In addition, studies of structural features of plant cells and tissues which characterize organisms with long life spans, and effects of conditions such as hormones and environment on reversal of the aging process will be carried out. The article is also intended to be used in teaching undergraduates (juniors and seniors) electron microscopic techniques

and the interpretation of fine structure. Application received by Commissioner of Customs: October 5, 1972. Advice submitted by Department of Health, Education, and Welfare on: February 23, 1973.

Docket No. 73-00204-33-46040. Applicant: Stein Research Center, Jefferson Medical College, Thomas Jefferson University, 920 Chancellor Street, Philadelphia, PA 19107. Article: Electron microscope, Model EM 9S-2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used to study transplacental activity, and yolk sac morphology, and to further elucidate the mechanism by which abnormal development proceeds. The article will also be used as an educational tool for predoctoral, postdoctoral, and medical students in electron microscopy techniques. Application received by Commissioner of Customs: October 25, 1972. Advice submitted by Department of Health, Education, and Welfare on: February 23, 1973.

Docket No. 73-00209-33-46040. Applicant: Chico State College, Department of Biological Sciences, Chico, Calif. 95926. Article: Electron microscope, Model HS-8F-2. Manufacturer: Hitachi-Perkin Elmer, Japan. Intended use of article: The article is intended to be used for electron microscopy studies which will include the following investigations:

- (1) The role that microtubules play in the morphogenesis of parasitic protozoa, particularly trypanosomes,
- (2) The ultrastructure and development of generative organelles (amyloplasts and mitochondria) in male transmission of cytoplasmic inherited characters in several plants, and
- (3) The ultrastructure of the walls of pollen grains.

The article will also be used for instruction and research of graduate students and faculty in the following courses: Bio Sci, 202 Cytology; Biological Preparations for Electron Microscopy; Electron Microscope Theory and Operations; Bio Sci 398, Independent Study; and Bio Sci 399, Master's Study.

Application received by Commissioner of Customs: October 24, 1972. Advice submitted by Department of Health, Education, and Welfare on: February 23, 1973.

Comments: No comments have been received with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purposes as these articles are intended to be used, is being manufactured in the United States. Reasons: Each applicant requires an electron microscope which is suitable for instruction in the basic principles of electron microscopy. Each of the foreign articles to which the foregoing applications relate is a relatively simple, medium resolution electron microscope designed for confident use by beginning students with a minimum of detailed programming. The most closely comparable domestic instrument is the Model EMU-4C electron microscope which is a

relatively complex instrument designed primarily for research, which requires a skilled electron microscopist for its operation. We are advised by the Department of Health, Education, and Welfare in its respectively cited memoranda, that the relative simplicity of design and ease of operation of the foreign articles described above are pertinent to the applicants' educational purposes. We, therefore, find that the Forgho Model EMU-4C electron microscope is not of equivalent scientific value to any of the foreign articles described above for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,  
Acting Director,  
Office of Import Programs.

[FR Doc 73-4776 Filed 3-12-73; 8:48 am]

#### WISTAR INSTITUTE

##### Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00202-00-37100. Applicant: The Wistar Institute, 36th Street at Spruce, Philadelphia, PA 19104. Article: Multiple membrane filter—consisting of stainless steel and perspex base, stainless steel filter disc carrier and perspex cover plate. Manufacturer: Yeda, Research & Development Co., Ltd., Israel. Intended use of article: The articles are accessories to a Yeda Press to be used for the rapid filtration of large numbers of small samples through filter discs. It will be used for amino acid transport and incorporation studies involving, for example, nucleic acids and proteins, radiological and radioimmunological assays. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The use is in processing large numbers of radioactive samples for radiological or radioimmunological assay. The foreign article provides a capability to process 10 samples in a carrier simultaneously as well as quick change of car-

rier for additional sampling. The Department of Health, Education, and Welfare (HEW) advised in its memorandum dated February 23, 1973, that the capability described above is pertinent to the purposes for which the article is intended to be used. HEW also advised that it knows of no domestic instrument or apparatus of equivalent scientific value to the article for the purposes for which the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,  
Acting Director,  
Office of Import Programs.

#### WISTAR INSTITUTE

##### Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00203-33-37100. Applicant: The Wistar Institute, 36th Street at Spruce, Philadelphia, PA 19104. Article: Yeda press. Manufacturer: Yeda, Research & Development Co., Ltd., Israel. Intended use of article: The article is intended to be used for homogenization of a number of biological tissues which include tumor cells and spleen cells. These tissues have to be homogenized for the purpose of isolating subcellular particulates with high biological activity. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The article permits isolation of biologically active substances without loss of biological activity. The Department of Health, Education, and Welfare (HEW) advised in its memorandum dated February 23, 1973, that the capability for maintenance of biological activity is pertinent to the purposes for which the article is intended to be used. HEW also advises that it knows of no domestic instrument or apparatus of equivalent scientific value to the article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article

is intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,  
Acting Director,  
Office of Import Programs.

#### Social and Economic Statistics Administration

#### SURVEY OF RETAIL SALES, PURCHASES, INVENTORIES, CAPITAL EXPENDITURES, FIXED ASSETS, RENTAL PAYMENTS, PAYROLL, AND SUPPLEMENTARY LABOR COSTS

##### Notice of Consideration

Notice is hereby given that the Bureau of the Census is considering a proposal to repeat in 1973 the Annual Retail Trade Survey which has been conducted each year under title 13, United States Code, sections 181, 224, and 225 to collect data covering year-end inventories, purchases, and annual sales. Additional items requesting capital expenditures, changes in fixed assets, rental payments, payroll, and supplementary labor costs are included as supplemental data for the 1972 Census of Business. This survey covering 1972 is the only continuing source available on a comparable classification and timely basis for use as the benchmark for developing monthly retail inventory estimates. It also assists in establishing a benchmark for the distribution of monthly sales by geographic area.

Information and recommendations received by the Bureau of the Census indicate that the data will have significant application to the needs of the public, the distribution trades, and governmental agencies, and are not publicly available from nongovernment or other governmental sources.

Such a survey, if conducted, shall begin not earlier than April 12, 1973.

Reports will be required only from a selected sample of retail establishments in the United States. The sample will provide, with measurable reliability, statistics on the subjects specified above. Reports will be requested from a sample of stores based on their sales size and location in Census sample areas. A group of the largest firms, in terms of number of retail stores, will be requested to report their sales and number of stores by county; but those firms which are participating monthly in the Bureau's geographic area survey will be asked to report at the national level only.

Copies of the proposed forms and a description of the collection methods are available upon request to the Director, Bureau of the Census, Washington, D.C. 20233.

Any suggestions or recommendations concerning the subject matter of the proposed survey, submitted in writing to the Director of the Bureau of the Census on or before April 12, 1973, will receive consideration.

Dated March 7, 1973.

JOSEPH R. WRIGHT, JR.,  
Acting Administrator, Social and Economic Statistics Administration.

#### DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

##### Office of Education

#### NATIONAL ADVISORY COUNCIL ON ADULT EDUCATION

##### Notice of Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), that the next meeting of the National Advisory Council on Adult Education will be held on March 22, 23, and 24, 1973, at the Statler Hilton Hotel, 16th and K Streets NW., Washington, DC. The Council meeting will commence at 9 a.m., on March 22, and terminate at 12:30 p.m. on March 24.

The National Advisory Council on Adult Education is established under section 310 of the Adult Education Act (80 Stat. 1216.20 U.S.C. 1201). The Council is directed to:

Advise the Commissioner in the preparation of general regulations and with respect to policy matters arising in the administration of this title, including policies and procedures governing the approval of State plans under section 306 and policies to eliminate duplication, and to effectuate the coordination of programs under this title and other programs offering adult education activities and services.

The Council shall review the administration and effectiveness of programs under this title, make recommendations with respect thereto, and make annual reports to the President of its findings and recommendations (including recommendations for changes in this title and other Federal laws relating to adult education activities and services). The President shall transmit each such report to the Congress together with his comments and recommendations.

The meeting of the Council shall be open to the public. The proposed agenda includes:

Reports of the Executive Committee, Legislative Committee, Publicity and Publications Committee, and Research Committee, Council Plans and Priorities for FY-74, 1973 Annual Report.

Records shall be kept of all Council proceedings (and shall be available for public inspection at the Office of the National Advisory Council on Adult Education located in Room 1144, Pennsylvania Building, 425 13th Street NW., Washington, DC 20004).

Signed at Washington, D.C., on March 7, 1973.

GARY A. EYRE,  
Executive Director, National Advisory Council on Adult Education.

#### DEPARTMENT OF TRANSPORTATION

##### Hazardous Materials Regulations Board

#### TRANSPORTATION OF HAZARDOUS MATERIALS

##### Special Permits Issued

Pursuant to Docket No. HM-1, rule making procedures of the Hazardous Materials Regulations Board, issued May 22, 1968 (33 FR 8277), 49 CFR 170, following is a list of new DOT Special Permits upon which Board action was completed during February 1973:

Special permit No.	Issued to—Subject	Mode or modes of transportation
6716	Shippers registered with this Board to ship flammable and large quantities of radioactive materials in packaging identified as the F 144-1 shipping container.	Highway, Rail, Cargo-only aircraft.
6717	Shippers registered with this Board to ship Type B quantities of radioactive materials, special form in an outer container which is a package identified as the Gamma Industries Type B container for radiography devices.	Highway, Rail, Passenger-carrying aircraft, Cargo-only aircraft, Cargo vessel.
6720	Shippers registered with this Board to ship certain flammable liquids in non-DOT specification portable tanks patterned after Specification MC 307.	Highway, Rail, Cargo vessel.
6724	Brunswick Corporation, Super Grove, Virginia, The U.S. Department of Defense and Philco-Ford Corporation to ship 25MM caseless ammunition, with solid projectile, as explosive, Class C.	Highway, Cargo-only aircraft.
6725	Shippers registered with this Board to ship a flammable liquid, n.o.s. in DOT-12P60 fiberboard box having inside a 5 gallon DOT-2C 15 mil high density polyethylene container.	Highway, Rail, Cargo vessel.
6726	Shippers registered with this Board to ship certain corrosive liquids in non-DOT specification reusable, polyethylene containers of 55 gallon capacity.	Highway, Rail.
6728	Olin Corporation, Stamford, Conn., to make one shipment of chlorine in a partially filled DOT 105A500W tank car.	Rail.
6729	Dow Chemical Company, Midland, Michigan to make escorted shipment of contaminated nitrophenol solution in defective DOT-17E drums overpacked in steel drums equivalent to Rule 40 drums.	Highway.
6730	I-K-1 Manufacturing Company, Inc., Edgerton, Wisconsin to ship Engine starting fluid in a limited number of non-releasable metal containers complying with DOT Specification 2P except for marking.	Highway.
6734	NASA Manned Spacecraft Center, Houston, Texas to ship helium in non-DOT specification stainless steel cylinders.	Passenger-carrying aircraft.

ALAN I. ROBERTS,  
Secretary, Hazardous Materials Regulations Board.

#### NOTICES

#### ATOMIC ENERGY COMMISSION

[Docket Nos. 50-324, 50-325]

#### CAROLINA POWER & LIGHT CO.

#### Notice of Hearing on a Facility Operating License

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, Licensing of Production and Utilization Facilities, and Part 2, Rules of Practice, notice is hereby given that a hearing will be held at a time and place to be set in the future by an Atomic Safety and Licensing Board, to begin in or in the vicinity of Brunswick County, N.C., to consider the application filed under section 104(b) of the Act by the Carolina Power & Light Co. (Applicant) for facility operating licenses which would authorize the operation of two boiling water nuclear reactors (the facilities), identified as the Brunswick Steam Electric Plant, Units 1 and 2, at steady state power levels not to exceed 2,436 megawatts thermal each, at the Applicant's site in Brunswick County, N.C. The hearing will be conducted by an Atomic Safety and Licensing Board (Board) designated by the Chairman of the Atomic Safety and Licensing Board Panel, consisting of Michael Glaser, Esq. (Chairman); Mr. Glenn O. Bright, and Dr. J. V. Leeds, Jr. Dr. Forrest J. Remick has been designated a technically qualified alternate, and James E. Yore, Esq., has been designated as an alternate qualified in the conduct of administrative proceedings.

Construction of the facilities was authorized by Construction Permit Nos. CFP-67 and CFP-68 issued by the Atomic Energy Commission (Commission) on February 7, 1970.

On November 3, 1972, a notice of consideration of issuance of facility operating license and opportunity for hearing; notice of hearing in the above matter appeared in the FEDERAL REGISTER (37 FR 23468). The notice advised that, within 30 days from the date of publication, "any person whose interest may be affected by this proceeding may file a petition for leave to intervene (1) with respect to the issuance of the facility operating licenses; or (2) with respect to whether, considering those matters covered by Appendix D to 10 CFR Part 50, the construction permits should be continued, modified, terminated, or appropriately conditioned to protect environmental values." A timely petition for leave to intervene with respect to both the environmental review of the construction permits and the issuance of the operating licenses was filed by Ronald L. Horton on behalf of Project Environment (petitioner), an unincorporated association. Answers to the petition were filed by the Applicant and the Commission's regulatory staff.

As set forth in a memorandum and order on this matter dated March 6, 1973, the Atomic Safety and Licensing Board designated to rule on this petition has determined that a hearing with respect to the issuance of the facility operating

licenses is warranted, that this hearing should be consolidated with the hearing on whether the construction permits should be continued, modified, terminated or appropriately conditioned to protect any environmental values, and that petitioner should be admitted to intervene as a party to the proceedings.

A prehearing conference or conferences will be held by the Licensing Board, at a date and place to be set by it, to consider pertinent matters, including specification of the issues to be considered at the consolidated hearing, in accordance with the Commission's rules of practice. The date and place of the consolidated hearing will be published in the FEDERAL REGISTER.

The instant facilities are subject to the provisions of section B of Appendix D to 10 CFR Part 50 which sets forth procedures for environmental review of certain licenses to construct or operate production or utilization facilities issued in the period January 1, 1970, to September 9, 1971. In addition to deciding the matters in controversy among the parties, the Board will, in accordance with section A.11 of said Appendix D: (a) Determine whether the requirements of section 102(2) (C) and (D) of NEPA and Appendix D to 10 CFR Part 50 of the Commission's regulations have been complied with in this proceeding; (b) Independently consider the final balance among conflicting factors contained in the record of the proceeding with a view toward determining the action to be taken; and (c) determine, after weighing the environmental, economic, technical and other benefits against environmental costs and considering available alternatives, whether the construction permits should be continued, modified, terminated or appropriately conditioned to protect environmental values.

Depending on the resolution of the issues specified by the Licensing Board, authorization for issuance of the operating licenses may be granted or denied, or the licenses may be authorized as appropriately conditioned. Operating licenses would be issued only after appropriate findings are made by the Director of Regulation on the matters set forth below which are not embraced by the Board's decision (and upon compliance with the applicable provisions of Appendix D to 10 CFR Part 50 dealt with above):

1. Whether construction of the facilities has been substantially completed in conformity with the construction permits and the application, as amended, the provisions of the Act, and the rules and regulations of the Commission.

2. Whether the facilities will operate in conformity with the application, as amended, the provisions of the Act, and the rules and regulations of the Commission.

3. Whether there is reasonable assurance (i) that the activities authorized by the operating licenses can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in com-

pliance with the regulations of the Commission.

4. Whether the applicant is technically and financially qualified to engage in the activities authorized by the operating licenses in accordance with the regulations of the Commission.

5. Whether the applicable provisions of 10 CFR Part 150, Financial Protection Requirements and Indemnity Agreements, of the Commission's regulations have been satisfied.

6. Whether the issuance of the licenses will be inimical to the common defense and security or to the health and safety of the public.

For further details pertinent to the matters under consideration, see the application for the facility operating license docketed May 30, 1972, as amended, and the Applicant's Environmental Report dated November 8, 1971, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, and at the Southport Brunswick County Library, 109 West Moore Street, Southport, NC 28461. As they become available, the following documents also will be available at the above locations: (1) The safety evaluation prepared by the Directorate of Licensing; (2) the Commission's draft detailed statement on environmental considerations pursuant to 10 CFR Part 50, Appendix D; (3) the Commission's final detailed statement on environmental considerations; (4) the report of the Advisory Committee on Reactor Safeguards on the application for facility operating licenses; (5) the proposed facility operating licenses, which will be attached to the proposed facility operating licenses. To the extent of supply, copies of items (1), (3), (4), and (5) will be furnished upon request to Deputy Director for Reactor Projects, Directorate of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Any person who wishes to make an oral or written statement in this proceeding but who has not filed a petition for leave to intervene as noted above, may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715 of the Commission's rules of practice. Limited appearances will be permitted at the time of the hearing in the discretion of the Licensing Board, within such limits and on such conditions as may be fixed by it. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, on or before April 12, 1973. A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing. A member of the public does not have the right to participate unless he has been granted the right to intervene as a party or the right of limited appearance.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705 of the

Commission's rules of practice, must be filed by the parties to this proceeding (other than the regulatory staff) on or before April 2, 1973.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, DC.

Pending further order of the Licensing Board named herein, parties are required to file pursuant to the provisions of 10 CFR 2.708 of the Commission's rules of practice, an original and 20 conformed copies of each such paper with the Commission.

*It is so ordered.*

Issued at Washington, D.C., this 6th day of March 1973.

THE ATOMIC SAFETY AND LICENSING BOARD,  
ELIZABETH S. BOWERS,  
Chairman.

[Docket No. 50-412]

#### DUQUESNE LIGHT CO., ET AL.

#### Notice of Special Prehearing Conference

On November 22, 1972, the Atomic Energy Commission (Commission) issued a notice of hearing in the above-entitled proceeding, which was published in the FEDERAL REGISTER on November 28, 1972 (37 FR 25188), which provided an opportunity for participation by the public in the consideration of the application filed by the Duquesne Light Co., Ohio Edison Co., Pennsylvania Power Co., The Cleveland Electric Illuminating Co., and The Toledo Edison Co. (applicants) for a license and construction permit for a nuclear power facility to be designated Beaver Valley Power Station, Unit No. 2, and to be located in Shippingport Borough, Beaver County, Pa.

In response to such notice, petitions to intervene have been filed by the following:

#### COMMONWEALTH OF PENNSYLVANIA

##### JOINT PETITIONERS

City of Pittsburgh,  
Mayor Pete Flaherty,  
Environmental Coalition on Nuclear Power,  
Friends of the Earth,  
Environment Pittsburgh,  
Beaver County Citizens Conservation Corps,  
Ernest J. Sternglass,  
David Marshall,  
Virginia Pell, Norman Michelson, and Robert P. Coval.

The rules of practice of the Commission provide for a special prehearing conference to consider with the said petitioners, as well as with the applicants and the regulatory staff of the Commission, the aforesaid petitions and procedures in reference thereto.

Wherefore, it is ordered, in accordance with the Atomic Energy Act, as amended, and the rules of practice of the Com-

mission, particularly § 2.751(a) thereof, a special prehearing conference to consider the petitions to intervene in this proceeding, and procedures in reference thereto, shall convene at 9 a.m., on Tuesday, April 3, 1973, in Courtroom No. 14, U.S. District Court, located on the fifth floor, U.S. Post Office and Courthouse, Seventh and Grand Streets, Pittsburgh, PA 15230.

Issued: March 5, 1973, Germantown, Md.

ATOMIC SAFETY AND LICENSING BOARD,  
SAMUEL W. JENSCH,  
Chairman.

#### COMMISSION ON CIVIL RIGHTS CONNECTICUT STATE ADVISORY COMMITTEE

##### Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the Connecticut State Advisory Committee will convene at 8 p.m. on March 14, 1973, at the Holiday Inn, 900 East Main Street, Meriden, CT 06450. This meeting shall be open to the public and the press.

The purposes of this meeting shall be to: (1) Hear reports on the Puerto Rican Project Hearing, and (2) receive reports and recommendations from the Higher Education and Prison Project Subcommittees of the Connecticut State Advisory Committee.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., March 7, 1973.

ISAIAH T. CRESWELL, Jr.,  
Advisory Committee  
Management Officer.

[FR Doc 73-4902 Filed 3-12-73; 8:45 am]

#### VIRGINIA STATE ADVISORY COMMITTEE Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the Virginia State Advisory Committee will convene at 6 p.m. on March 14, 1973, at the Capriccio Restaurant, Crystal City Marriott, 1999 Jefferson Davis Highway, Arlington, VA 22202. This meeting shall be open to the public and the press.

The purpose of this meeting shall be to hear a report of the Administration of Justice Subcommittee on its Judicial Selection Project.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., March 7, 1973.

ISAIAH T. CRESWELL, Jr.,  
Advisory Committee  
Management Officer.

#### ENVIRONMENTAL PROTECTION AGENCY

#### HAZARDOUS MATERIALS ADVISORY COMMITTEE

##### Committee Management; Notice of Determination

The U.S. Environmental Protection Agency utilizes the advice and recommendations of the Hazardous Materials Advisory Committee in carrying out its functions of grants administration.

The Federal Advisory Committee Act, Public Law 92-463, governs the formation, use, conduct, management, and accessibility to the public of advisory committees formed to advise and assist the Federal Government. Section 10 of that Act specifies that adequate provision shall be made for public attendance and participation, except to the extent a determination is made by the agency head that committee activities are matters which fall within policies analogous to those recognized in the Freedom of Information Act, section 552(b) of title 5 of the United States Code, and the public interest requires such activities to be withheld from disclosure. Consequently, the Agency will open to the public as many advisory committee meetings as possible.

While the Agency has a policy of this fullest possible disclosure of records pursuant to the Freedom of Information Act, obligations of confidentiality and administrative necessity require that the Agency invoke mandatory disclosure specified in the Act for certain of its records.

Records containing trade secrets, commercial or financial information, or personnel or medical files are illustrative of such exempt records. The functions and responsibilities with which the committee is charged require that certain of the exempt records be submitted for the use of the Committee during their deliberations. If the Committee was re-

quired to discuss these records in open meetings, the protection of the exemptions of the Freedom of Information Act would be lost and their purpose frustrated. Moreover, if the deliberations were reduced to writing, the records thus created likewise would be entitled to the same exemption from mandatory disclosure.

Pursuant to section 10(d) of the Federal Advisory Committee Act, it is hereby determined, therefore, that the grants review meeting of the Hazardous Materials Advisory Committee on March 19, 1973, shall be closed to the public on the following basis:

(1) That the meeting directly involves review, discussion, or consideration of records of the Agency which are exempt under items (4) and (6) of the Freedom of Information Act (5 U.S.C. 552(b) (4) and (6)); namely, records (a) containing commercial or financial information obtained from a person and privileged or confidential and (b) which are personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

(2) That the meeting pertains to internal memoranda or to the internal expression of views and judgments of the members, which if reduced to writing would be exempt as internal memoranda from mandatory disclosure under item (5) of the Freedom of Information Act (5 U.S.C. 552(b) (5)).

It is further determined that the public interest requires that meetings or portions of meetings devoted to activities described in the preceding two numbered paragraphs be closed to the public in the interest of maintaining the Agency's obligation of confidentiality and administrative necessity and so the Agency may continue to receive needed information and advice through the advisory committee process.

No persons other than members and consultants of the Committee or staff of this Agency shall be present at any meeting or portion of a meeting closed to the public pursuant to this determination.

WILLIAM D. RUCKELSHAUS,  
Administrator.

MARCH 9, 1973.

[FR Doc 73-4943 Filed 3-12-73; 8:45 am]

#### HAZARDOUS MATERIALS ADVISORY COMMITTEE

##### Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given that a meeting of the Hazardous Materials Advisory Committee will be held at 9:30 a.m., March 19, 1973, in Room 3307, Waterside Mall, 401 M Street SW., Washington, DC.

This is the regular monthly meeting of the Committee. The agenda includes the Staff Director's report, mutagenicity studies, a discussion of the SEAS program, progress on the nitrogen study, a report on MECCA—a model for estimation of consumption of contaminants from aquatic foods, progress on herbicide

study, member items of interest, reports and comments by program liaison representatives and adjourn.

The meeting is open to the public. Any member of the public wishing to attend or participate or to present a paper should contact Dr. Winfred F. Malone, Staff Science Adviser, Hazardous Materials Advisory Committee, 202-963-5117.

WILLIAM D. RUCKELSHAUS,  
Administrator.

MARCH 9, 1973.

#### HAZARDOUS MATERIALS ADVISORY COMMITTEE

##### Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given that a meeting of the Hazardous Materials Advisory Committee, in its special assigned function of grants review, will be held at 8:30 a.m., March 19, 1973, at Waterside Mall, 401 M Street SW., Washington, DC.

The meeting is held to review and discuss a specific research grant application. This meeting is closed to the public; however, members of the public who wish to do so are invited to submit material in writing appropriate to this session.

The regularly scheduled meeting of the Hazardous Materials Advisory Committee which is open to the public will also be held on March 19, 1973. Further notice will be published separately.

WILLIAM D. RUCKELSHAUS,  
Administrator.

MARCH 9, 1973.

#### FEDERAL COMMUNICATIONS COMMISSION

[Dockets Nos. 19503, 19506; FCC 73R-95]

#### ST. CROSS BROADCASTING, INC. AND PROGRESSIVE BROADCASTING CO.

##### Memorandum Opinion and Order Broadening Issue

In regard applications of: St. Cross Broadcasting, Inc., Santa Cruz, Calif., Docket No. 19503, File No. BP-18014; James B. Fenton, Grant R. Wrathall, Jr., Lawrence M. Wrathall, and Loretta Wrathall, doing business as Progressive Broadcasting Co., Aptos-Capitola, Calif., Docket No. 19506, File No. BP-18221; for construction permits.

1. This proceeding involves the mutually exclusive applications of St. Cross Broadcasting, Inc. (St. Cross) and Progressive Broadcasting Co. (Progressive) for a new standard broadcast station at Santa Cruz, Calif. and Aptos-Capitola, Calif., respectively. The Commission des-

<sup>1</sup> The applications of Milo Communications Corp. (Milo), Docket 19504, and Lloyd M. Marks (Marks), Docket 19505, also designated for hearing, were dismissed by the Administrative Law Judge pursuant to their petitions to dismiss. Marks' application was dismissed by Order FCC 72M-853, released June 30, 1972. Milo's application was dismissed by Order FCC 72M-1323, released October 25, 1972.

ignated the applications for hearing by Order, FCC 72-422 (37 FR 10611, published May 25, 1972), specifying, inter alia, Suburban Community and engineering issues against Progressive,<sup>4</sup> and areas and populations and 307(b) issues. Now before the Review Board for consideration is a motion to enlarge issues, filed June 9, 1972, by St. Cross, seeking the addition of a further Suburban Community issue and Suburban and cross ownership cross interest issues against Progressive.<sup>5</sup>

#### SUBURBAN COMMUNITY ISSUE

2. In support of its request for another Suburban Community issue against Progressive, St. Cross argues that Aptos (population 8,704)<sup>6</sup> and Capitola (population 5,080), are small communities which are completely dominated in their political, economic, and social life by the neighboring city of Santa Cruz (population 32,076). St. Cross also asserts that Progressive could adequately cover Aptos-Capitola with a power of 250 watts and that the 5 kw power proposed indicates that Progressive realistically intends to serve Santa Cruz. Finally, St. Cross urges that the ascertainment efforts conducted by Progressive support its allegations, in that contacts with community leaders were oriented to Santa Cruz City and the county as a whole rather than to Aptos-Capitola. According to St. Cross, the needs revealed by Progressive's survey are not peculiar to Aptos-Capitola, and, furthermore, those needs are presently being met and can be met by stations located in Santa Cruz City.

3. In its opposition, Progressive first

<sup>4</sup> The Commission specified a Suburban Community issue against Progressive because its proposed 5 mv./m. contour would penetrate Salinas, Calif., a city with a population of over 50,000, which is more than twice the size of Aptos-Capitola. The Commission found that the applicant did not effectively rebut the presumption that it realistically proposes to serve the larger city. See Policy Statement on "Section 307(b) Considerations for Standard Broadcast Facilities Involving Suburban Communities," FCC 2d 190, 6 RR 2d 1901 (1965).

<sup>5</sup> Also before the Board are: (a) Opposition, filed June 30, 1972, by Milo; (b) opposition, filed July 3, 1972, by Progressive; (c) Broadcast Bureau's comments, filed July 3, 1972; (d) reply to (a), filed July 14, 1972, by St. Cross; (e) reply to (c), filed July 14, 1972, by St. Cross; (f) reply to (b), filed July 17, 1972, by St. Cross; (g) further opposition, filed Aug. 7, 1972, by Progressive; (h) a letter received Aug. 22, 1972, from St. Cross; (i) a letter received Aug. 25, 1972, from Progressive. Insofar as the motion seeks to add issues against Milo and Marks, it is now moot and will be dismissed. See note 1, supra. Progressive's "further opposition" to St. Cross' motion, filed Aug. 7, 1972, is an unauthorized pleading and good cause for its acceptance has not been shown. Therefore, it will be dismissed. See the Board's Public Notice on the Filing of Supplemental Pleadings before the Review Board No. 90836, released Oct. 11, 1972. See also Southern Broadcasting Co. (WGHP-TV), FCC 73R-17, — FCC 2d — released Jan. 12, 1973.

<sup>6</sup> All population figures herein are derived from the 1970 U.S. Census.

argues that St. Cross has failed to make the threshold showing necessary for addition of the requested issue, claiming that no concrete facts have been presented to support the allegations concerning either Aptos-Capitola's dependence on Santa Cruz or Progressive's engineering proposal. Progressive further asserts that the allegations made by St. Cross are not in accord with the facts and that only a limited suburban-city relationship exists between Santa Cruz and Aptos-Capitola. Attached to Progressive's pleading are data in support of its allegations that Aptos and Capitola are economically and politically independent and that social, recreational and cultural facilities exist outside of Santa Cruz City. Its ascertainment efforts, Progressive claims, were directed to the Aptos-Capitola area and resulted in the identification of the area's distinct needs and interests. Finally, Progressive submits an exhibit which, it claims, shows that the power it proposes complies with Commission regulations for service to its specified community.

4. The Broadcast Bureau supports addition of the issue, nothing that Progressive proposes to place a 5 mv./m. signal over most, if not all, of Santa Cruz, a city with a substantially larger population than Aptos-Capitola. The Bureau submits that a less powerful proposal could serve Aptos-Capitola, rather than one which is directionalized to place a major lobe over Santa Cruz. The Bureau also agrees with St. Cross that the community needs listed by Progressive in its application are as applicable to Santa Cruz County as a whole, including Santa Cruz City, as they are to Aptos and Capitola.

5. In its reply to Progressive's opposition, St. Cross contests the facts alleged in Progressive's pleadings and the implications to be drawn therefrom, concluding that Progressive has not rebutted movant's showing that Santa Cruz City dominates the surrounding area and that the needs of Aptos-Capitola are essentially the same as those of the rest of the county, including Santa Cruz City. An evidentiary hearing, urges St. Cross, is therefore necessary to resolve the question.

6. The Review Board is of the view that the pleadings raise a substantial question as to whether Progressive's proposed facility will realistically provide service for the two communities it has specified in its application or for the nearby larger community of Santa Cruz. This question is raised in large part by Progressive's engineering proposal. The Board agrees with the Broadcast Bureau that 5 kw. of power does, on its face, seem to be greatly in excess of that needed to provide adequate coverage of the specified communities. The gravity of this question is compounded by the fact that Progressive plans a directionalized signal, with one major lobe of its pattern substantially, if not completely, covering Santa Cruz City with a 5 mv./m. signal. Furthermore, Progressive has failed to make an adequate showing that the proposed power and directional system indicate a clear

intention to direct its service to its specified community. The applicant has merely stated that its proposed power would be "adequate" and that a station with less power "would not be competitive signal wise" in neighboring communities with the signals of other area stations.<sup>7</sup> In our opinion, this is not an adequate explanation and raises serious questions concerning Progressive's intentions. Compare "Creek County Broadcasting," 31 FCC 2d 462, 22 RR 2d 891 (1971). "Cf. Babcom, Inc.," 12 FCC 2d 306, 12 RR 2d 998 (1968).

7. Furthermore, St. Cross' motion raises a substantial question as to whether the needs and interests of Aptos-Capitola are truly distinct from those of Santa Cruz City, a neighboring city with over two times the combined populations of the specified communities. Progressive has, in fact, shown that in some respects the smaller communities are definable areas apart from Santa Cruz City with some problems which are distinct from those of a larger urban community. However, the pleadings and Progressive's community survey showing indicate that the economic, cultural and recreational activities of those areas may be so integrated with or dependent upon Santa Cruz City that Aptos and Capitola should not be considered distinct and independent communities for 307(b) purposes. Progressive's "community profile", submitted as an amendment to its application, deals in general with Santa Cruz County as a whole and includes specific reference to Aptos, Capitola, and Santa Cruz City with no distinctions drawn to indicate that all three communities are other than similar elements of that integrated whole. Furthermore, a large number of the civic, political, and cultural organizations listed by Progressive in its pleadings as serving Aptos and Capitola appear to encompass the entire county<sup>8</sup> or the Santa Cruz-midcounty area,<sup>9</sup> while not more than 25 percent of all the organizations listed in Progressive's community survey, including those contained in its pleadings, appear to direct their activities exclusively to Aptos, Capitola, or at least the midcounty area as distinguished from Santa Cruz City. The majority of the ascertained needs listed by Progressive in its exhibit, including those given the greatest priority by Progressive, also are stated in terms of problems which encompass both Santa Cruz City and its neighbors.<sup>10</sup> Finally, while

<sup>8</sup> KSCO in Santa Cruz; KDON and KSBW in Salinas.

<sup>9</sup> For example, the Santa Cruz County Fair, Women's League of Voters of Santa Cruz County, Santa Cruz County Central Labor Council, Santa Cruz County Arts Commission.

<sup>10</sup> For example, the local Red Cross (City of Santa Cruz and Mid-County), United Fund—City of Santa Cruz and Mid-County.

<sup>11</sup> It is apparent from Progressive's list of needs that "county problems" are those of both Santa Cruz and the Aptos-Capitola area. We also note that several of the problems referred to as "county" problems in Progressive's exhibit are referred to as problems of "Aptos-Capitola" in the pleadings before us. An evidentiary hearing will also allow this ambiguity to be resolved.

Progressive has cited in its opposition several needs ascertained from its random survey that relate specifically to Aptos-Capitola, there are at least that many references to Santa Cruz City or countywide problems listed in that survey. In sum, we have found that Progressive's ascertainment efforts, on their face, indicate that the communities specified by Progressive in its application may be so dominated by or integrated with their larger neighbor that they are not to be considered distinct and independent communities within the meaning of section 307(b). This question can best be resolved within the framework of a full evidentiary hearing. Therefore, we will broaden the scope of the existing Suburban Community issue (see paragraph 1, supra) to encompass a determination with regard to the city of Santa Cruz.

#### SUBURBAN ISSUE

8. Next, St. Cross argues that certain aspects of Progressive's ascertainment efforts raise questions which warrant addition of a "suburban" issue. Movant alleges that the efforts show that Progressive has not adequately ascertained the needs of the specified communities, but only those of the entire Santa Cruz County area. The Board does not believe that such an issue is warranted. While Progressive's ascertainment efforts do raise a question whether the needs of Aptos-Capitola and Santa Cruz are distinct, St. Cross has not shown that the needs listed by Progressive are not those of Aptos-Capitola, that the process of ascertaining those needs was inadequate or improper, or that the programming proposed by Progressive was not responsive to the needs ascertained.

#### CROSS OWNERSHIP/CROSS INTEREST ISSUES

9. St. Cross alleges that standard broadcast station KSAY, San Francisco, Calif., is owned in part by three of the Progressive partners and, furthermore, that the controlling partner and chief engineer of KSAY is both the father of those partners and the consulting engineer for the Progressive application. St. Cross claims that since there will be an overlap of the 1 mv./m. contour of KSAY and the 1 mv./m. contour of Progressive's proposed station, cross ownership and cross interest issues are warranted.<sup>11</sup> Progressive and the Broadcast Bureau oppose the request. Progressive claims that the three Progressive partners together own only a 16-percent interest in KSAY as limited partners and that a trustee owns another 16 percent for their benefit. Progressive asserts that neither the limited partnership interests nor the

trust arrangement give Progressive's partners "any voice whatsoever" in the policies or management of KSAY. The Broadcast Bureau argues that St. Cross did not utilize acceptable engineering methodology and, therefore, that no adequate showing of overlap has been made. In reply, St. Cross asserts that it has established overlap and that the positions held by Grant R. Wrathall (father of the three Progressive partners) and his relationship with the Progressive partners require addition of the requested issues.

10. In our opinion, St. Cross has not raised a sufficient question of overlap to warrant addition of the requested issues. St. Cross utilizes measurement data contained in the Progressive application to reach its determination of the proposed Progressive 1 mv./m. contour. The data were taken on a test transmitter located near the proposed Progressive site from which the soil conductivities were determined for paths along 82° and 108°. Contending that measured ground conductivity is "normally" valid over a plus or minus 10° from the measured radial, St. Cross submits that the FCC Figure M-3 conductivity (which is higher) must therefore be used between 92° and 98° and has so calculated the extent of the contour at 95°. The resulting 1 mv./m. contour (based on calculations made along 82°, 95° and 108°) shows overlap with what St. Cross alleges to be KSAY's 1 mv./m. contour.<sup>12</sup> We are constrained to note that St. Cross' depiction of the Progressive contour along 92° "extend more than 10 miles further (thus showing overlap) than it would based on the 82° measured conductivity which St. Cross has accepted as accurate.

11. Accepting, arguendo, St. Cross' depiction of Progressive's proposed 1 mv./m. contour and ignoring the resultant discrepancy, we also find that St. Cross has not depicted the KSAY contour in accordance with the methods prescribed by the Commission's rules and policies. The engineering report submitted by St. Cross in support of its motion includes measurement data taken on a "stub" radial along a path 142° from KSAY.<sup>13</sup> These "stub" radial measurements are not acceptable. St. Cross has failed to comply with § 73.186, which requires that the inverse distance field be determined by taking measurements within a few

<sup>12</sup> St. Cross has submitted a map along with the motion which depicts the alleged overlap.

<sup>13</sup> The 92° azimuth crosses within the area of alleged overlap.

<sup>14</sup> The St. Cross data include the following seven measured points:

Point No.	Distance (miles)	Measured signal (mv./m.)
1.....	58.5	1.62
2.....	64.5	1.03
3.....	68.0	1.01
4.....	71.5	0.98
5.....	76.0	0.98
6.....	80.0	0.94
7.....	85.1	0.93

<sup>15</sup> The Commission's cross ownership rule (§ 73.35(a)) forbids ownership or control of two stations whose 1 mv./m. contours overlap. The derivative cross interest policy forbids meaningful interests in two stations whose 1 mv./m. contours overlap and which serve substantially the same area. See United Community Enterprises, Inc., 37 FCC 2d 953, 25 RR 2d 745 (1972).

miles of the transmitter." "Lake Valley Broadcasters, Inc.," 38 FCC 622, 4 RR 2d 913 (1965). Instead, St. Cross has stated that it "assumed" an inverse distance field for the measured radial. Finally, if the proposed Progressive 1 mv./m. contour is as depicted by St. Cross and if the "stub" data with regard to KSAY are accurate, we still do not find overlap. We find, instead, that St. Cross has incorrectly depicted the extent of the KSAY 1 mv./m. contour. As shown in note 12, supra, the KSAY signal beyond 71.5 miles was determined to be less than 1 mv./m. St. Cross has depicted the KSAY 1 mv./m. contour as extending greater than that distance from KSAY. However, using acceptable methodology<sup>14</sup> at 71.5 miles there would be no overlap with the Progressive 1 mv./m. contour, even as the Progressive contour is depicted by St. Cross. In view of the above, the Board will not add the requested issues.

12. Accordingly, it is ordered, That the further opposition to motion to enlarge issues, filed August 7, 1972, by Progressive Broadcasting Co., is dismissed; and

13. It is further ordered, That the motion to enlarge issues, filed June 9, 1972, by St. Cross Broadcasting, Inc., is granted to the extent indicated below, is dismissed as against Milo Communications Corp. (KMPG) and Lloyd M. Marks, and is denied in all other respects; and

14. It is further ordered, That the Suburban Community issue against Progressive Broadcasting Co., specified by the Commission in the designation Order (FCC 72-422) is broadened to include a determination with respect to the city of Santa Cruz, Calif.

Adopted: March 1, 1973.

Released: March 5, 1973.

FEDERAL COMMUNICATIONS COMMISSION,<sup>15</sup>

[SEAL] BEN F. WAPLE,  
Secretary.

#### FEDERAL POWER COMMISSION

[Docket No. DA-1110—Projects Nos. 1354; 507]

#### CALIFORNIA

Lands Withdrawn for Projects; Determination and Order Under Section 24 of the Federal Power Act

MARCH 7, 1973.

In order to effectuate a proposed land exchange under the Act of March 20, 1922 (42 Stat. 465), as amended, with

<sup>16</sup> The determination of the inverse distance field provides a necessary check as to whether the transmitter being measured is operating at its authorized power.

<sup>17</sup> The methodology for using this data, were it acceptable, is established in Denver Area Broadcasters, 38 FCC 583, 4 RR 2d 895 (1965) (paragraph 16).

<sup>18</sup> Board Member Kessler dissenting with statement, which is filed as part of the original document. Board Member Nelson expressing additional views with statement, which is also filed as part of the original document. See FR Doc. 73-3185 which appears at 38 FR 4690, Tuesday, Feb. 20, 1973.

the Pacific Gas & Electric Co. (Pacific), the Forest Service, U.S. Department of Agriculture, has requested a determination under section 24 of the Federal Power Act with respect to the following described land of the United States withdrawn for power purposes:

MOUNT DIABLO MERIDIAN, CALIF.

T. 7 S., R. 22 E.,  
Sec. 9. That part of the W $\frac{1}{2}$ SE $\frac{1}{4}$  lying within the boundary of Project No. 1354 as shown on map Exhibit K, sheet 7A (FPC No. 1354-63) filed in the office of the Federal Power Commission on June 21, 1937.  
Approximately 20.95 acres.

The land lies within the Sierra National Forest and is partially inundated by Crane Valley Reservoir (now known as Bass Lake) a unit of Pacific's licensed Project No. 1354. Bass Lake is located on North Fork Willow Creek, a tributary of the San Joaquin River. The land is withdrawn pursuant to the filing on December 9, 1935, by the San Joaquin Light & Power Corp. (Pacific's predecessor in interest) of an application for Project No. 1354.

The land is included in a proposed exchange which would consolidate Pacific's land ownership on the north and northeast shores of Bass Lake and consolidate U.S. land ownership on the west and southwest shores of the lake. Such consolidation would provide administrative benefits to Pacific and to the United States and would enable the Forest Service to expand its public recreation facilities at Bass Lake.

A small portion of the land is also withdrawn pursuant to the filing of an application for minor Project No. 507 the license for which expired on January 8, 1960. The withdrawal for Project No. 507 covers 0.25 of an acre, all in the SE $\frac{1}{4}$  of the subject section 9. This withdrawal serves no useful purpose as the project is no longer in operation.

The Commission determines:

That the power value of the subject 20.95 acres withdrawn for Project No. 1354 will not be injured or destroyed for the purposes of power development by selection by the Pacific Gas & Electric Co. for the purpose of effectuating a land exchange with the U.S. Forest Service subject to the provisions of section 24 of the Federal Power Act.

The Commission finds:

The withdrawal for Project No. 507 no longer serves a useful purpose and should be vacated in its entirety.

The Commission orders:

The withdrawal pursuant to the application for Project No. 507 is hereby vacated in its entirety.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

## BOSTON EDISON CO.

## Notice of Further Extension of Time and Postponement of Hearing

MARCH 7, 1973.

On March 1, 1973, the Light Department of Reading, Mass. and the towns of Concord, Norwood, and Wellesley, Mass., filed a motion for an extension of the procedural dates as set by order issued July 28, 1972, and amended by notices issued January 4, 1973, and February 12, 1973.

The motion states that counsel for the other parties have agreed to the extension.

Upon consideration, notice is hereby given that the procedural dates are further modified as follows:

Interveners service date, April 2, 1973.

Company rebuttal service date, April 16, 1973.

Prehearing conference, April 27, 1973, 10 a.m., e.s.t.

Hearing, May 8, 1973, 10 a.m., e.s.t.

KENNETH F. PLUMB,  
Secretary.

## EL PASO NATURAL GAS CO.

## Notice of Extension of Time

MARCH 6, 1973.

On February 23, 1973, Washington Natural Gas Co., filed a request as amended

by letter filed March 1, 1973, for a change in dates for service of evidence and a postponement of the hearing in the above-designated matter. The request states that California-Utilities Co., Cascade Natural Gas Corp., Intermountain Gas Co., Northwest Natural Gas Co., Washington Water Power Co., Colorado Interstate Gas Co., Mountain Fuel Supply Co., and the Commission Staff have no objection to the request.

Upon consideration, notice is hereby given that the date for the service of evidence in the above matter is extended to and including March 30, 1973. The hearing is postponed to April 23, 1973, e.s.t.

## ESCONDIDO MUTUAL WATER CO. ET AL

## Notice of Petition Requesting Order Setting Conditions for Future Operation of Licensed Project

MARCH 7, 1973.

Public notice is hereby given that the Secretary of the Interior (correspondence to: Mitchell Mellich, Solicitor, Department of the Interior, Washington, D.C. 20240), filed on February 9, 1973, a petition of the Secretary of the Interior for an order setting conditions for future operation under the license for FPC Project No. 176, in the above-docketed proceeding. The Secretary's petition would have the Commission impose certain conditions on the use of the project works by the Vista Irrigation District and by the licensee, Escondido Mutual Water Co., for the balance of the license period. The license expires in 1974.

The Secretary contends in his petition that these conditions are necessary for the adequate protection and utilization of the Indian reservations which are within the project boundaries, in order that operations under the license will not interfere, or be inconsistent with the purpose for which those reservations were created or acquired, as required by section 4(e) of the Federal Power Act. The Secretary requests the following conditions:

(a) That the Vista Irrigation District be required to obtain the approval of the Department of the Interior concerning the terms of any use by it of the Escondido Conduit or any other project facilities located on Indian reservations, or on the public lands of the United States.

(b) That the licensee shall be prevented from transporting any water for the use of Vista through the license facilities until Vista obtains the approval from the Department of Interior for the right to use such water.

(c) That no diversions of water from the underground basins surrounding

Lake Henshaw obtained by pumping, whether by Vista or by the licensee, shall be transported through the project facilities without prior approval of the Department of the Interior.

(d) That adequate compensation from the date of the Secretary of Interior's complaint must be computed and paid for the balance of the term of the license for the use by the licensee of the license rights-of-way over public lands, and on each of the three Indian reservations involved, provided that the amounts shall be determined at a hearing held at a later date.

(e) That the provisions of section 8 of Mission Relief Act of January 12, 1891 (26 Stat. 712), shall be complied with and the water needs of the La Jolla, Rincon, and San Pasqual Indian reservations are to be filed by diversions through the Escondido Conduit.

(f) That the licensee shall be required to take all necessary safety precautions to avoid physical harm or bodily injury to the Indian band members, or the general public which could occur by reason of the exposed condition of the Escondido Conduit where it traverses the lands of the United States or the Indian reservations.

The Secretary states that the imposition of the above conditions is necessary at this time. He prays that an order be issued by this Commission pursuant to the provisions of section 309 of the Federal Power Act which would amend the license for Project No. 176 imposing the above conditions as a part of the license for the balance of the license period, and further that by order of the Commission, the licensee and Vista be prevented from transporting any water for use by Vista through the project facilities until the use of the facilities by Vista becomes subject to the terms of the license including the above conditions which the Secretary deems necessary to implement, and that such use may continue only so long as such conditions are complied with.

Pursuant to the provisions of § 1.9 of the Commission's rules of practice and procedure (18 CFR 1.9), the parties to this proceeding may file answers to the petition with the Secretary of this Commission. Therefore, any answers by the parties shall be filed on or before April 5, 1973.

KENNETH F. PLUMB,  
Secretary.

## SOUTHERN UNION GATHERING CO.

## Notice of Further Extension of Time and Postponement of Hearing Date

MARCH 7, 1973.

On March 2, 1973, Southern Union Gathering Co., and Aztec Oil & Gas Co. (Aztec) filed a motion for further extension of time of the dates established by the order issued September 29, 1972, as amended by notice issued October 10, 1972, November 3, 1972, November 28, 1972, January 4, 1973, and January 30, 1973, in the above designated matter. The motion states that the Commission Staff and the New Mexico Commission have no objection to the motion in view of Aztec's agreement to defer the effective date of its rate increase to May 22, 1973.

Upon consideration, notice is hereby given that the time is further extended to and including April 2, 1973, within which prepared testimony and exhibits shall be filed. The hearing is postponed to April 9, 1973, at 10 a.m., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4739 Filed 3-12-73; 8:45 am]

[Dockets Nos. RP72-128, RP71-121]

## TRANSWESTERN PIPELINE CO., AND SOUTHWEST GAS CORP.

## Notice of Proposed Purchase Gas Adjustments to Rates

MARCH 6, 1973.

Take notice that the following filings for proposed purchase gas adjustments to rates were made:

(1) Transwestern Pipeline Co. (Transwestern), on February 14, 1973, tendered for filing, in Docket No. RP72-128, as part of its FPC Gas Tariff, First Revised Volume No. 1 the following sheets:

Second Revised Sheet PGA-1.  
Thirtieth Revised Sheet No. 4.  
Twenty-fifth Revised Sheet No. 6-A.  
Ninth Revised Sheet No. 6-D.  
Twentieth Revised Sheet No. 7.

These sheets are issued pursuant to Transwestern's Purchased Gas Cost Adjustment provision set forth in section 19 of the general terms and conditions of its FPC Gas Tariff, First Revised Volume No. 1. This provision was approved by order of the Federal Power Commission dated September 19, 1972 in Docket No. RP72-128. This change in Transwestern's rates according to the company's transmittal letter, reflects a cost of gas adjustment to track increased purchased gas costs and a surcharge adjustment to clear the balance of the Gas Cost Adjustment Account. The proposed effective date of the tariff sheets filed is April 1, 1973, and the company requests that the Commission waive compliance with its rules and regulations to the extent necessary to permit this effective date.

(2) Southwest Gas Corp. (Southwest), on February 20, 1973, tendered for filing, in Docket RP71-121, a Second Revised Sheet No. 3A, constituting original PGA-1, in its FPC Gas Tariff, Original Volume No. 1.

The company's transmittal letter indicates that El Paso Natural Gas Co., is its sole supplier and states that a \$0.181 per therm increase is needed to meet the net effect of several changes in the price of gas purchased from El Paso. The company also states that it used the unrecovered purchased gas cost account of its PGA clause to accumulate a \$0.127 per therm overcharge in December of 1972, and requests permission to refund concurrent with its March 1973, billing to its jurisdictional customers this overcharge. Southwest requests that the tendered tariff sheet become effective April 1, 1973.

Any person desiring to be heard or to protest the above applications should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 19, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make pro-

testants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of these filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Project 2299]

#### TURLOCK AND MODESTO IRRIGATION DISTRICTS

#### Notice of Application for Approval of a Recreational Use Plan and for Modification of License Requirements

MARCH 7, 1973.

Public notice is hereby given that on November 18, 1971, pursuant to Article 45 of the license (31 FPC 510, 528) application was filed under the Federal Power Act (16 U.S.C. 791a-825r) by Turlock and Modesto Irrigation Districts (Correspondence to: Mr. Charles D. Crawford, Project Coordinator, Turlock and Modesto Irrigation Districts, 1301 K Street, Post Office Box 4086, Modesto, CA 95352), for approval of a revised Recreational Use Plan which includes As-Built Exhibit R Drawings and modification of Article 46 relocating lands for public hunting facilities, for constructed Project No. 2299, known as the Don Pedro Project, located on Tuolumne River, and Woods and Moccasin Creek in Tuolumne County, Calif., in the vicinity of La Grange, Jacksonville, and Modesto, Calif., and affecting lands of the United States.

In the revised Recreational Use Plan (Exhibit R) three specific major development locations have been developed for recreation under the Davis-Grunsky Program. They are Fleming Meadows, Mexican Gulch, and Moccasin Point. This program involves an area of 558 acres (exclusive of the hunting area which is public land) having a design day load of 5,000 visitors.

The recreational facilities include 150 picnic units, 470 camping units, 1,026 parking spaces, two boat launching ramps (providing a total of nine lanes), a 2-acre swimming lagoon, water supply, and some 32 installations of sanitary facilities of various types. Except for those at the hunting area, the recreation facilities proposed in the revised recreational use plan, filed November 18, 1971, for Project No. 2299 have been completed and were placed in use on May 10, 1972. Upon Commission approval of the revised Recreational Use Plan the access road and sanitary facilities at the proposed hunting area will be completed.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 13, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to

#### NOTICES

make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Project No. 2246]

#### YUBA COUNTY WATER AGENCY Notice of Application

MARCH 6, 1973.

Public notice is hereby given that application was filed on February 26, 1965, and supplemented on September 28, 1970, and July 26, 1971, under the Federal Power Act (16 U.S.C. 791a-825r) by the Yuba County Water Agency (Correspondence to: Mr. Colin H. Handforth, Engineering Administrator, Yuba County Water Agency, Post Office Box 1569, Marysville, CA 95901) for approval of Exhibit R with "As Built" Exhibit R drawings for constructed Project No. 2246, known as the Yuba River Project, located on the Yuba River, and Oregon Creek, in Yuba, Nev., and Sierra Counties, Calif., in the vicinity of Marysville, Calif.

The recreational use plan was filed pursuant to Article 56 of the project license which was issued May 16, 1963.

Drawings and the recreational use plan depict the development of facilities planned in cooperation with the U.S. Forest Service and approved by the California Department of Water Resources (DWR).

The recreation facilities include campgrounds at the Burnt Bridge, Hornswoggle (Group), and Schoolhouse sites; boat access campgrounds at Garden Point, Frenchy Point, and Madrone sites, each with a floating comfort station; picnic and boat launching at Dark Day and Cottage Creek sites; a future marina site at Cottage Creek; and an administrative site with maintenance facilities and a vista point near the dam. On September 9, 1968, Licensee and the U.S. Forest Service entered into a contractual agreement whereby the Forest Service is to operate, maintain, renew, and replace the on-shore facilities. The U.S. Forest Service assumed these functions following conveyances by Licensee to the Forest Service of private lands and of facilities thereon, and of facilities on Forest Service lands, all within the project boundary.

Any person desiring to be heard or to make protest with reference to said application should on or before April 13, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission shall be considered by it in determining the appropriate action to be taken but will not serve to

ties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.73-4742 Filed 3-12-73; 8:45 am]

#### FEDERAL RESERVE SYSTEM

#### BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

##### Rules of Organization

The Board of Governors of the Federal Reserve System has revised its Rules of Organization in order to bring up to date descriptions of the functions of the various offices and divisions of the Board's staff and otherwise to bring the rules into conformity with current practice. Effective March 1, 1973, the Rules of Organization of the Board of Governors of the Federal Reserve System are amended to read as follows:

##### RULES OF ORGANIZATION

##### Sec.

1. Basis and scope.
2. Composition and location.
3. Central organization.
4. Field organization.
5. Delegations of authority.

SECTION 1. *Basis and scope.* These rules are issued by the Board of Governors of the Federal Reserve System (the "Board") pursuant to the requirement of section 552 of title 5 of the United States Code that each agency shall publish in the FEDERAL REGISTER a description of its central and field organization.

SEC. 2. *Composition and location.*—(a) *Governors, Chairman, Vice Chairman.* The Board consists of seven members appointed by the President, by and with the advice and consent of the Senate, for 14-year terms. The members of the Board are required by law to devote their entire time to the business of the Board. One of them is designated by the President as Chairman and one as Vice Chairman, to serve as such for terms of 4 years. At meetings, the Chairman presides or, in his absence, the Vice Chairman presides. In the absence of the Chairman and Vice Chairman, the member of the Board present with the longest service acts as Chairman. The Chairman of the Board, subject to its supervision, is its active executive officer. The Board meets regularly and frequently to consider matters relating to monetary and credit policies, regulatory and supervisory duties with which it has been charged by the Congress, and administrative and other questions arising in the conduct of the work of the Board.

(b) *Location and business hours.* The principal offices of the Board are in the Federal Reserve Building, 20th Street and Constitution Avenue NW., Washington, D.C. 20551. The Board's regular business hours are from 8:45 a.m. to 5:15 p.m. each weekdays except Saturday; but such business hours may be changed from time to time.

SEC. 3. *Central organization.* The Board's central organization consists of

the members of the Board and the following Offices, Divisions, and officials:

(a) "Office of the Executive Director" is headed by an Executive Director whose functions include the coordination and overall planning of the activities of the staff in carrying out the Board's programs, and the handling of administrative affairs under the direction of the Chairman of the Board and other Board members with delegated functions. The Executive Director is responsible to the Board for the direct supervision of the Office of the Secretary, Division of Personnel Administration, Office of the Controller, Division of Administrative Services, Division of Data Processing, and for certain special programs. The Director has administrative and coordination responsibilities for the Legal Division, Division of Federal Reserve Bank Operations, Division of Research and Statistics, Division of International Finance, Division of Supervision and Regulation, and for the Federal Reserve Labor Relations Panel. In addition, the Executive Director is concerned with coordination of the functions of the Board and its Divisions with the activities of the Federal Reserve Banks, operating through the appropriate Division of the Board's staff, and with the Conference of Chairmen of the Federal Reserve Banks, the Conference of Presidents of the Federal Reserve Banks, and other System organizations.

(b) "Office of the Secretary," headed by the Board's Secretary, coordinates items regarding Board actions, prepares agendas for Board meetings, and implements actions taken. This Office clears and conducts official correspondence of the Board, and is charged with responsibility for maintaining and providing reference service to the official records of the Board and of the Federal Open Market Committee.

(c) "Legal Division," headed by the Board's General Counsel, advises and assists the Board with respect to legal aspects of its daily operations, including applicable statutes, regulations, applications, interpretations, opinions, orders, hearings, litigation, and legislation.

(d) "Division of Research and Statistics," headed by a Director, provides the Board and the Federal Open Market Committee with the economic analysis and information needed for current operations, for the formulation of monetary and credit policies, and for the exercise of responsibilities with regard to bank regulation; prepares, publishes, and interprets a variety of statistical series in the financial and nonfinancial fields; conducts basic research relating to the effects of monetary policy on economic activity and prices, and to the effects of financial regulation on the structure and functioning of financial markets.

(e) "Division of International Finance," headed by a Director, advises and assists the Board on international financial, banking, and economic matters and conducts research in this field. It carries on staff work in connection with the supervision of foreign operations of the Federal Reserve System, the membership of the Chairman of the Board on

the National Advisory Council on International Monetary and Financial Policies, and the administration of the Voluntary Foreign Credit Restraint Program.

(f) "Division of Federal Reserve Bank Operations," headed by a Director, advises and assists the Board with respect to matters concerning the planning and programs for operation of the Federal Reserve Banks. The Division monitors the implementation and achievement of such programs and informs the Board of the status of each program. It is responsible for the examination of the Federal Reserve Banks and the System Open Market Account; reviews and appraises Reserve Bank audit activities; provides an appraisal of Reserve Bank building programs; provides analysis and recommendations for Board policy in the payments mechanism area; administers an accounting system for collection and analysis of budget and expense data; reviews the lending and credit activities of the Reserve Banks; and maintains liaison with the Treasury and other Government agencies on fiscal agency operations and with various interested parties on payments mechanism matters. The Division also coordinates the printing, issuance, and redemption of Federal Reserve notes and is jointly responsible with the Bureau of the Mint for the production and distribution of coin.

(g) "Division of Supervision and Regulation," headed by a Director, coordinates the bank supervisory functions of the System and evaluates the examination procedures of the Reserve Banks; exercises general supervision of the commercial and fiduciary activities of State member banks; administers the supervisory features of laws and regulations relating to affiliates and bank holding companies; supervises various foreign banking activities of member banks and foreign banking and financing corporations; administers the public disclosure provisions of the Securities Exchange Act of 1934, as amended, in their application to State member banks, and the provisions of the Act giving responsibility to the Board for regulating security credit transactions; drafts regulations pursuant to the Truth in Lending Act for financial institutions and other firms engaged in consumer lending and administers the regulations in their application to State member banks; administers the provisions of the Fair Credit Reporting Act, the Currency and Foreign Transactions Reporting Act, and the Civil Rights Act of 1968 in their application to State member banks; processes and presents to the Board applications filed pursuant to the Bank Holding Company Act of 1956, as amended, and the Bank Merger Act and various other applications submitted under the provisions of the Federal Reserve Act or related statutes; and advises the Board regarding developments in banking and bank supervisory policies and procedures.

(h) "Division of Personnel Administration," headed by a Director, is responsible for the development and implementation of Board personnel policies and

programs, serves as the Board's personnel security office, and advises and assists the Board on personnel matters pertaining to the Federal Reserve Banks.

(i) "Division of Administrative Services," headed by a Director, serves as the central procurement, duplicating, communications, and service unit of the Board and advises and assists the Board with respect to such matters. It also performs various administrative functions, including the distribution of Board publications and the operation of the Board's building and other facilities.

(j) "Office of the Controller," headed by the Board's Controller, is responsible for maintaining an effective internal financial management system, including budgeting, accounting, reporting, internal and contract auditing, and operational analyses; determining assessments on the Federal Reserve Banks for funds to cover expenses of the Board; receiving and disbursing the Board's funds; and handling reimbursement to the Treasury Department for the printing, issuance, and redemption of Federal Reserve notes.

(k) "Division of Data Processing," headed by a Director, supports the Board organization through the development, operation, and maintenance of information processing systems. Activities include systems and mathematical statistical analysis, computer programming, equipment operation, data and production control, advanced planning and implementation of computer systems and communication networks. The Division develops, collects, and processes statistical information on banking developments and on the condition of Federal Reserve Banks and member banks, and designs and produces graphics used in economic analysis and information presentation.

(l) "Other personnel." In addition to the Divisions mentioned above, the staff of the Board includes Advisers, Assistants, and Special Assistants to the Board. The Federal Reserve Bulletin is issued monthly under the direction of a Staff Editorial Committee. The Board does not employ administrative law judges or hearing officers as regular members of its staff; but, in accordance with applicable provisions of law and in individual cases as the need may arise, the Board obtains and utilizes administrative law judges and hearing officers, whose functions in such capacity are appropriately separated, as required by law, from investigative and prosecuting functions of the staff.

SEC. 4. *Field organization.*—(a) *Federal Reserve Banks.* The United States is divided into 12 Federal Reserve districts. In one city in each Federal Reserve district there is located a Federal Reserve Bank; in 10 of the districts there are one or more branches of the Federal Reserve Bank in other cities; and in some districts there are offices or facilities with specialized functions. Each Federal Reserve Bank is a separate legal entity, created pursuant to the Federal Reserve Act and operating under the general supervision of the Board. ## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

## Office of the Administrator

[Notice 73-20]

## ESTABLISHMENT OF ADVISORY COMMITTEES

## Notice of Determinations

Pursuant to section 9(a) (2) of the Federal Advisory Committee Act (Public Law 92-463), and after consultation with the Office of Management and Budget, I have determined that the establishment of the following advisory committees is in each case in the public interest in connection with the performance of duties imposed upon NASA by law:

1. Post Viking Mars Science Advisory Committee.

The functions of this committee will include the review of the objectives and strategy of NASA's Mars exploration program and the development of guidelines for post-Viking missions and their payloads. The reason for establishing this committee is to obtain advice in connection with current planning for continued Martian exploration following the flyby, orbiter, and lander sequence of missions.

2. Comets and Asteroids Science Advisory Committee.

The functions of this committee will include reevaluation of existing comet and asteroid mission objectives and proposed instrumentation, and the definition of those projects which would represent a scientifically optimum program. The reason for establishing this committee is to obtain advice in connection with developing the first balanced comet and asteroid program for NASA, in anticipation of favorable flight opportunities in the near future.

3. Outer Planets Science Advisory Committee.

The functions of this committee will include the formulation of Outer Planet mission designs and suggested science payloads, and the development of alternative mission strategies. The reason for establishing this committee is to obtain advice for NASA on outer planet exploration which will be initiated by the Mariner Jupiter Saturn mission, and also to obtain a review of the science objectives of this first flight.

Dated: March 7, 1973.

## MASSACHUSETTS MUTUAL LIFE INSURANCE CO. AND MASSMUTUAL CORPORATE INVESTORS, INC.

## Notice of Filing of Application

MARCH 6, 1973.

Notice is hereby given that Massachusetts Mutual Life Insurance Co. (the Insurance Company), and MassMutual Corporate Investors, Inc., 1295 State Street, Springfield, MA 01101 (the Fund), a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940 (Act) (hereinafter collectively referred to as Applicants), have filed an application pursuant to section 17(d) of the Act and Rule 17d-1 thereunder for an order of the Commission permitting Applicants to participate jointly in the purchase of a package of securities consisting of a new issue of 8 3/4 percent 16-year senior notes (the Senior Notes) and 7 1/4 percent 16-year convertible subordinated debentures (the Debentures) of Aberdeen Manufacturing Corp. (Aberdeen), or, in the event the Insurance Company purchases such securities before the issuance of such order, for an order pursuant to section 17(b) of the Act exempting from the provisions of section 17(a) of the Act the sale of one-half of such securities to the Fund. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Pursuant to an order of the Commission issued on August 19, 1971 (Investment Company Act Release No. 6690), the Insurance Company, which acts as investment adviser to the Fund, is permitted to invest concurrently for its general account in each issue of securities purchased by the Fund at direct placement, and to exercise warrants, conversion privileges, and other rights at the same time. This order is subject to several conditions. One condition generally requires that purchases at direct placement of securities, which would be consistent with the investment policies of the Fund, be shared equally by the Insurance Company and the Fund. Another condition limits the order to situations in which neither the Insurance Company nor the Fund have any prior interest in the issuer, in any affiliated person of the issuer, or in securities issued by such issuer or affiliated person, other than interests in all respects identical.

Applicants expect the total issue of Senior Notes to be \$2,215,000 and the total issue of Debentures to be \$1 million. The Debentures will be convertible into Aberdeen common stock at a price of \$13.50 per share. (The closing price on the American Stock Exchange for a share of Aberdeen common stock was \$11 1/2 on January 24, 1973.) The Insurance Com-

as Chairman of the Board of Directors of the Bank and as Federal Reserve Agent. He acts as the Board's official representative, and maintains a local office of the Board on the premises of the Federal Reserve Bank.

Sec. 5. *Delegations of authority.* The Board does not delegate any of its functions relating to rule making or pertaining principally to monetary or credit policies or involving any questions of general policy. However, the Board delegates certain of its supervisory and other functions prescribed by statute or regulations of the Board to its members or employees or to the Federal Reserve Banks as provided in its rules regarding delegation of authority (12 CFR Part 265). In addition, the Board delegates to the Federal Reserve Banks certain functions not provided for by statute or regulations of the Board, including authority to extend the time within which certain transactions may be consummated.

By order of the Board of Governors of the Federal Reserve System, March 1, 1973.

[SEAL] MICHAEL A. GREENSPAN,

Assistant Secretary of the Board.

## NOTICES

pany understands that Aberdeen is willing to sell a portion of the Senior Notes and Debentures to the Fund and, as the adviser for the Fund, the Insurance Company believes that the Senior Notes would be an attractive investment for the Fund. Applicants would like to invest concurrently in these securities, but such investment would not be consistent with the terms of the order of August 19, 1971, because the Insurance Company already holds the following debt securities of Aberdeen: 5% percent notes due 1980 in the aggregate unpaid principal amount of \$1,400,000; 6 1/2 percent promissory notes due 1982 in the aggregate unpaid principal amount of \$384,000; and 5% percent convertible subordinated notes due 1988 in the aggregate unpaid principal amount of \$400,000, which are convertible into Aberdeen common stock at \$16.59 per share. The Insurance Company and Aberdeen have agreed to a consolidation of the indebtedness represented by the notes due in 1980 and 1982 into a single note which will bear interest at an annual rate of 7% percent, and which will mature in 1989. Because the Fund owns no securities of Aberdeen, Applicants cannot comply with the condition that they have no prior interests in an issuer other than interests in all respects identical. Therefore, Applicants have applied for an order of the Commission pursuant to section 17(d) of the Act and Rule 17d-1 thereunder permitting the acquisition by each Applicant of \$1,107,500 principal amount of the Senior Notes and \$500,000 principal amount of the Debentures, subject to the conditions imposed on such joint transactions in the Commission's order of August 19, 1971.

Should such an order not be issued before the issuance of the Senior Notes and the Debentures, the Insurance Company proposes to acquire them for its general account, subject to an obligation to transfer one-half of the issue to the Fund at cost, plus accrued interest, should such order issue within 3 months of such acquisition. Applicants seek an exemptive order pursuant to section 17(b) of the Act in the event the requested order pursuant to section 17(d) of the Act is not granted before acquisition of the Senior Notes and Debentures by the Insurance Company.

Rule 17d-1 adopted by the Commission under section 17(d) of the Act provides that "no affiliated person of . . . any registered investment company . . . acting as principal, shall participate in, or effect any transaction in connection with, any joint enterprise or other joint arrangement or profit sharing plan in which any such registered company . . . is a participant, and which is entered into, adopted or modified subsequent to the effective date of this rule, unless an application regarding such joint enterprise, arrangement or profit sharing plan has been granted by an order entered . . . prior to such adoption or modification." It is also provided that in passing upon such application, the Com-

mission will consider whether the participation of such registered or controlled company in such joint enterprise, joint arrangement or profit sharing plan on the basis proposed is consistent with the provisions, policies, and purposes of the Act, and the extent to which such participation is on a basis different from, or less advantageous than, that of other participants. Section 17(a) of the Act, as here pertinent, prohibits the Insurance Company as an affiliated person of the Fund from selling the Fund any securities unless the Commission upon application pursuant to section 17(b) of the Act, grants an exemption from the provisions of section 17(a) of the Act upon finding that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, and that the proposed transaction is consistent with the policy of Fund and with the general purposes of the Act.

Applicants submit that the terms of such a transfer would be fair and reasonable and would not involve overreaching on the part of any person, and that the proposed transaction would be consistent with the policies of the Fund and the general purposes of the Act.

Notice is further given that any interested person may, not later than March 29, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,  
Secretary.

[FR Doc. 73-4751 Filed 3-12-73; 8:45 am]

[812-3406; Rel. No. 7709]

**PACIFIC AMERICAN INCOME SHARES, INC.**

**Notice of Filing of Application**

MARCH 5, 1973.

Notice is hereby given that Pacific American Income Shares, Inc., 108 West Sixth Street, Los Angeles, CA 90014, a diversified, closed-end management investment company (Applicant), in connection with a proposed public offering of shares of its common stock, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 (the "Act"), for an order of exemption from sections 15(a) and 16(a) of the Act to the extent necessary to permit Western Asset Management Co. to serve as investment adviser of the Applicant pursuant to a written investment advisory contract approved by the Applicant's Board of Directors even though such contract has not been approved by a vote of the stockholders of the Applicant, and to permit directors of Applicant to serve as directors without having been elected to such positions by the stockholders of the Applicant, such exemptions to be effective until the meeting of stockholders to be held within 180 days after the effective date of Applicant's Form S-4 Registration Statement filed under the Securities Act of 1933 (1933 Act).

Applicant, at present, has no stockholders but it proposes to issue up to 6,600,000 shares of its common stock when its 1933 Act Registration Statement becomes effective. Applicant also proposes to enter into an investment advisory agreement with Western Asset Management Co. which will constitute that company as adviser of the Applicant.

Section 15(a) of the Act provides, in part, that a person may not serve as an investment adviser of a registered investment company except pursuant to a written contract which has been approved by a vote of a majority of the outstanding voting securities of such registered investment company, and section 16(a) of the Act provides, with limited exceptions not here relevant, that no person shall serve as a director of a registered investment company unless elected to that office by the holders of the outstanding voting securities of such company. Inasmuch as the Applicant has no stockholders to date, the present Board of Directors of the Applicant has not been elected by the stockholders.

The application states that the proposed investment advisory contract will comply with the provisions of the Act in all respects except as to necessary advance stockholder approval provided in section 15(a) of the Act, and that the persons serving as directors of the Applicant will meet all of the requirements of the Act except the requirements of section 16(a) that they be elected to that office by holders of the outstanding voting securities of the Applicant and that at least two-thirds of the directors in office have been elected by stockholders of the Applicant.

The application also states that the entire Board of Directors will stand for election, and the investment advisory contract will be presented for approval, at a meeting of stockholders to be held within 180 days after the effective date of Applicant's 1933 Act Registration Statement, and that the prospectus to be used by the Applicant in connection with the sale of its shares will contain full appropriate information concerning the directors and the investment advisory contract.

Applicant submits that the requested exemptions from the provisions of sections 15(a) and 16(a) of the Act are necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Section 6(c) of the Act authorizes the Commission to exempt any person, security or transaction, or any class or classes of persons, securities, or transactions from the provisions of the Act and rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than March 20, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

The notice period above provided for is deemed reasonable in light of the nature of the application and the necessity for action prior to the date which has been planned for the sale of Applicant's shares.

MARCH 5, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, \$0.01 par value, and all other securities of Proof Lock International Corp., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from 10 a.m. (e.s.t.) on March 5, 1973, through March 14, 1973.

By the Commission.

[SEAL] RONALD F. HUNT,  
Secretary.

**TARIFF COMMISSION**

[22-31]

**CHEESES AND SUBSTITUTES FOR CHEESE**

**Notice of Investigation and Date of Hearing**

At the request of the President (reproduced herein), the U.S. Tariff Commission, on the 9th day of March 1973,

instituted an investigation under subsection (d) of section 22 of the Agricultural Adjustment Act, as amended (7 U.S.C. 624), with respect to cheeses and substitutes for cheese presently subject to section 22 quantitative limitations as described in items 950.07 through 950.10E of Part 3 of the Appendix of the Tariff Schedules of the United States, to determine whether each of the annual quota quantities for the above-described articles, and for each of the supplying countries wherever applicable, may be increased by 50 percent for the calendar year 1973, such additional quantities to be entered during a temporary period ending July 31, 1973, without rendering or tending to render ineffective, or materially interfering with, the price support program now conducted by the Department of Agriculture for milk, or reducing substantially the amount of products processed in the United States from domestic milk.

The text of the President's letter of March 8, 1973, to the Commission follows:

Pursuant to section 22(d) of the Agricultural Adjustment Act, as amended, I have reason to believe that additional quantities of cheese and substitutes for cheese may be imported for a temporary period without rendering or tending to render ineffective, or materially interfering with the price support program for milk now conducted by the Department of Agriculture, or reducing substantially the amount of products processed in the United States from domestic milk.

Specifically, reference is made to the articles presently subject to section 22 quantitative limitations as described in items 950.07 through 950.10E of part 3 of the Appendix to the Tariff Schedules of the United States.

The United States Tariff Commission is therefore directed to make an investigation under section 22 of the Agricultural Adjustment Act, as amended. The investigation shall be for the purpose of determining whether each of the annual quota quantities for the above-described articles, and for each of the supplying countries wherever applicable, may be increased by fifty percentum for the calendar year 1973, such additional quantities to be entered during a temporary period ending July 31, 1973, without rendering or tending to render ineffective, or materially interfering with, the price support program now conducted by the Department of Agriculture for milk, or reducing substantially the amount of products processed in the United States from domestic milk. The effect of this increase would be to allow the importation of additional quantities of such articles of not more than 63,894,799 pounds.

The Commission shall report its findings and recommendations at the earliest practicable date, but not later than thirty days from receipt of this letter.

Sincerely,

RICHARD NIXON

Hearing. A public hearing in connection with this investigation will be held in the Tariff Commission's Hearing Room, Tariff Commission Building, Eighth and E Streets NW., Washington, D.C., beginning at 9:30 a.m., e.s.t., on March 19, 1973. All parties will be given

opportunity to be present, to produce evidence, and to be heard at such hearing. Interested parties desiring to appear at the public hearing should notify the Secretary of the Tariff Commission, in writing, at its offices in Washington, D.C., at least by the close of business on March 15, 1973. The notification should indicate the name, address, telephone number, and organization of the person filing the request, and the name and organization of the witnesses who will testify.

Because of the limited time available, the Commission reserves the right to limit the time assigned to witnesses. Questioning of witnesses will be limited to members of the Commission and officials of the Department of Agriculture.

**Written submissions.** Interested parties may submit written statements of information and views, in lieu of their appearance at the public hearing, or they may supplement their oral testimony by written statements of any desired length. In order to be assured of consideration, all written statements should be submitted at the earliest practicable date, but not later than the close of business on March 23, 1973.

With respect to any of the aforementioned written submissions, interested parties should furnish a signed original and nineteen (19) true copies. Business data to be treated as business confidential shall be submitted on separate sheets, each clearly marked at the top "Business Confidential," as provided for in § 201.6 of the Commission's rules of practice and procedure.

Issued: March 9, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON,  
Secretary.

## DEPARTMENT OF LABOR

### Office of the Secretary

[Secretary of Labor's Order No. 37-72]

### ASSISTANT SECRETARY FOR ADMINISTRATION

#### Approval of Sole Source Procurements

1. **Purpose.** To establish policy and procedures for the approval of sole source contracts and grants for supplies and services in the Department of Labor.

2. **Background.** By law and regulation Federal agencies are required to award contracts on a competitive basis to the maximum practicable extent. There are provisions which permit contracts to be awarded on a sole source basis when the supplies or services are available from only one person or firm. These provisions are set forth in the Federal Procurement Regulations, FPR 1-3.210, 41 CFR 1-3.210, and require a written justification supporting the selection of a sole source. Based on the free enterprise system of this country, it can be assumed that the largest percentage of the products or

services on the market are available from more than a single source. Yet, recent studies indicate that many of the sole source contracts awarded by the Department are for supplies and services that appear to lend themselves to the competitive process.

3. **Policy.** In order to ensure that the Department utilizes the competitive procurement process to the maximum practicable extent, all proposed sole source contracts or grants of the types identified in paragraph 4 below, exclusive of contracts with other Federal agencies, shall be reviewed by the Assistant Secretary for Administration and Management. No requirement which is expected to amount to \$25,000 or more shall be broken down into several requirements which are less than \$25,000, merely for the purpose of circumventing this order.

4. **Applicability.** This order is applicable to all original contracts, grants or agreements, or amendments thereto, when the amount of each action is \$25,000 or more, and the procurement falls within one of the following categories:

(a) Procurements under contracting officer authority redelegated to the Associate Assistant Secretary for Systems Development and Administrative Services, OASA, and the Regional Directors.

(b) Procurements for technical assistance, research, and evaluation studies pursuant to the Economic Opportunity Act, the Manpower Development and Training Act, the Social Security Act, all as amended, and the Emergency Employment Act. (Experimental and demonstration projects are excluded.)

(c) Procurements for statistical and economic research.

(d) Procurement for operation of Job Corps Centers.

5. **Responsibility.** (a) All contracting officers proposing to enter into contracts, grants or agreements falling within the categories enumerated in paragraph 4 above, shall submit a written justification to the Assistant Secretary for Administration and Management. This justification shall include all pertinent information so as to permit a decision on this record.

(b) The Assistant Secretary for Administration and Management shall review the justification for a sole source procurement and shall either approve or disapprove the proposed action within five working days after receipt of the request.

6. **Directives affected.** This order affects contracting officer authority delegated under Secretary's Order 19-71 dated June 18, 1971, and Secretary's order 35-72 dated October 26, 1972.

7. **Effective date.** This order became effective on December 13, 1972.

TOM KOUZES,  
Deputy Assistant Secretary for  
Administration and Management.

## Wage and Hour Division

### FULL-TIME STUDENTS

#### Certificates Authorizing Employment at Special Minimum Wages in Retail or Service Establishments or in Agriculture

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulation on employment of full-time students (29 CFR Part 519), and Administrative Order No. 621 (36 FR 12819), the establishments listed in this notice have been issued special certificates authorizing the employment of full-time students working outside of school hours at hourly rates lower than the minimum wage rates otherwise applicable under section 6 of the act. While effective and expiration dates are shown for those certificates issued for less than a year, only the expiration dates are shown for certificates issued for a year. The minimum certificate rates are not less than 85 percent of the applicable statutory minimum.

The following certificates provide for an allowance not to exceed the proportion of the total hours worked by full-time students at rates below \$1 an hour to the total number of hours worked by all employees in the establishment during the base period in occupations of the same general classes in which the establishment employed full-time students at wages below \$1 an hour in the base year; or provide the same standards authorized in certificates previously issued to the establishment.

The following certificates issued to establishments permitted to rely on the base-year employment experience of others were either the first full-time student certificates issued to the establishment, or provide standards different from those previously authorized. The certificates permit the employment of full-time students at rates of not less than 85 percent of the applicable statutory minimum in the classes of occupations listed, and provide for the indicated monthly limitations on the percentage of full-time student hours of employment at rates below the applicable statutory minimum to total hours of employment of all employees.

Keltch Bros., Inc., drugstore; 6121 North Clinton Street, Fort Wayne, IN; checker, fountain clerk; 11 to 15 percent; 12-14-73.

S. S. Kresge Co., variety-department store; No. 3020, Baton Rouge, La.; salesclerk, stock clerk, maintenance, checker-cashier, office clerk; 2 to 15 percent; 12-14-73.

Lesh's 5-10-1.00 Store, variety-department store; 11-30-73.

## NOTICES

ment store; 7-9-11 North Seventh Street, Perkasie, PA; salesclerk, stock clerk; 15 to 25 percent; 12-14-73.

Magic Mart, Inc., variety-department stores, for the occupations of salesclerk, stock clerk, janitorial, 12-14-73; Indiantown Shopping Center, Hot Springs, AR; 2520 West 28th Street, Pine Bluff, AR.

McCrory-McLellan-Green Store, variety-department stores; No. 16, Port Richey, Fla., salesclerk, stock clerk, office clerk porter; 8 to 28 percent; 12-14-73; No. 3, Marrow, Ga., salesclerk, stock clerk, office clerk, 7 to 19 percent; 12-14-73.

G. C. Murphy Co., variety-department stores, for the occupations of salesclerk, stock clerk, office clerk, janitorial, 12-14-73; No. 806, Pittsburgh, Pa., 9 to 25 percent; No. 343, Nacogdoches, Tex., 10 to 28 percent.

Singley's Supermarket, foodstore; Columbia, Miss.; bagger, cleanup; 18 to 20 percent; 12-14-73.

Sublett's, Inc., apparel store; 415 Wesleyan Park Plaza, Owensboro, KY; teen board representative, salesclerk, wrapper; 10 to 30 percent; 12-14-73.

Each certificate has been issued upon the representations of the employer which, among other things, were that employment of full-time students at special minimum rates is necessary to prevent curtailment of opportunities for employment, and the hiring of full-time students at special minimum rates will not create a substantial probability of reducing the full-time employment opportunities of persons other than those employed under a certificate. The certificate may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof on or before April 12, 1973, pursuant to the provisions of 29 CFR 519.9.

Signed at Washington, D.C., this 6th day of March 1973.

ROBERT G. GRONEWALD,  
Authorized Representative  
of the Administrator.

# INTERSTATE COMMERCE COMMISSION

[Notice 196]

## ASSIGNMENT OF HEARINGS

MARCH 8, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 124211 Sub 218, Hill Truck Line, Inc., and MC 135874 Sub 1, LTL Perishables, Inc., now being assigned continued hearing June 4, 1973 (2 weeks), at the Hilton Hotel, 1616 Dodge Street, Omaha, NE.

MC 115841 Sub 437, Colonial Refrigerated Transportation, Inc., application dismissed. No. 35533, Petroleum Products, Williams Brothers Pipe Line Co., No. 35533 Sub 1, petroleum products to Illinois, Iowa, and Missouri, Williams Brothers Pipe Line Co., No. 35533 Sub 2, petroleum products, Williams Brothers Pipe Line Co., and No. 35540, petroleum products, Louisiana and Texas to Midwest, continued to April 17, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

[Rev. S.O. 994; ICC Order 85, Amdt. 1]  
**CHICAGO, ROCK ISLAND, & PACIFIC  
RAILROAD CO. ET AL.**

### Rerouting or Diversion of Traffic

Upon further consideration of ICC Order No. 85 (Chicago, Rock Island, & Pacific Railroad Co., the Kansas City Southern Railway Co., Louisiana & Arkansas Railway Co.) and good cause appearing therefor:

It is ordered, That:

ICC Order No. 85 be, and it is hereby, amended by substituting the following paragraph (1) for paragraph (1) thereof:

(1) *Expiration date.* This order shall expire at 11:59 p.m., March 6, 1973,

unless otherwise modified, changed, or suspended.

It is further ordered, That this amendment shall become effective at 11:59 p.m., March 3, 1973, and that this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., March 2, 1973.

[SEAL] INTERSTATE COMMERCE  
COMMISSION,  
R. D. PFAHLER,  
Agent.

## MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before April 2, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74149. By order entered on March 1, 1973, the Motor Carrier Board approved the transfer to B.T.L., Inc., Kansas City, Mo., of the operating rights set forth in Certificate No. MC-67315, issued March 22, 1968, to Triangle Truck Line, Inc., North Kansas City, Mo., authorizing the transportation of general commodities, with the usual exceptions, between Kansas City and North Kansas City, Mo., Kansas City, Kans., and points within 15 miles of the named points. Donald J. Quinn, Suite 900, 1012 Baltimore, Kansas City, MO 64105, attorney for applicants.

No. MC-FC-74221. By order entered February 20, 1973, the Motor Carrier Board approved the transfer to Robert J. Martin, Ellicott City, Md., of the operating rights set forth in Permit No. MC-88268, issued February 6, 1940, to O. A. Diamond, Ellicott City, Md., authorizing the transportation of such merchandise as is dealt in by wholesale, retail, and chain grocery and food busi-

ness houses, and in connection therewith, equipment, materials, and supplies used in the conduct of such business, between points and places in the territory bounded by a line beginning at Cape Charles, Va., and extending in a southerly direction along the Chesapeake Bay to the Atlantic Ocean, thence in a northerly direction along the Atlantic Coast to the Delaware Bay, thence along the west shore of the Delaware Bay and Delaware River to Delaware City, Del., thence in a northwesterly direction through Newark, Del., to the point of intersection of the Maryland-Delaware-Pennsylvania State lines, thence in a westerly direction along the Maryland-Pennsylvania State line to the Susquehanna River, thence in a northwesterly direction along the Susquehanna River to Columbia, Pa., thence in an easterly direction to Lancaster, Pa., thence in a northwesterly direction to Lebanon, Pa., thence in a westerly direction to Newport, Pa., thence in a southwesterly direction through McConnellsburg, Pa., to Hancock, Md., thence in a southerly direction to Winchester, Va., and thence in a southeasterly direction through Fredericksburg, Va., to Cape Charles, including points and places on the above-described boundary line. V. Baker Smith, 2107 The Fidelity Building, Philadelphia, Pa. 19109, attorney for applicants.

No. MC-FC-74222. By order of February 20, 1973, the Motor Carrier Board approved the transfer to David R. Free, doing business as National Cartage Co., Salt Lake City, Utah, of Certificate of Registration No. MC 120402 (Sub-No. 1) issued to R. Price Morsley, doing business as National Cartage Co., Salt Lake City, Utah, evidencing a right to engage in interstate or foreign commerce covering the transportation of: General commodities, within a specified area solely within the State of Utah. William S. Richards, Attorney, 900 Walker Bank Building, Salt Lake City, UT 84111.

No. MC-FC-74229. By order of February 20, 1973, the Motor Carrier Board approved the transfer to Atlas Transport, Inc., Cranston, R.I., of Certificate of Registration No. MC-85817 (Sub-No. 1) issued to Thomas F. McDevitt, doing business as Atlas Transport, Cranston, R.I., evidencing the right to engage in interstate or foreign commerce in the transportation of: General commodities, solely within the State of Rhode Island. Francis A. Kelleher, Attorney, 508 Hospital Trust Building, Providence, R.I. 02903.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice 29]

## MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MARCH 5, 1973.

The following are notices of filing of applications<sup>1</sup> for temporary authority

<sup>1</sup> Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

## NOTICES

under section 210(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of assigned original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

### MOTOR CARRIERS OF PROPERTY

No. MC 4687 (Sub-No. 12 TA), filed February 26, 1973. Applicant: BURGESS & COOK, INC., Post Office Box 458, 21 North Second Street, Fernandina Beach, FL 32304. Applicant's representative: Sol H. Proctor, 2501 Gulf Life Tower, Jacksonville, Fla. 32207. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Paper and paper products, from points in Sumter County, Fla., to points in Alabama, Florida, Georgia, and South Carolina, and (2) Materials and supplies used in the manufacturing of paper and paper products, from points in Alabama, Florida, Georgia, and South Carolina to points in Sumter County, Fla., for 180 days. Supporting shipper: Containers Corporation of America, Post Office Box 957, Atlanta, GA 30301. Send protests to: District Supervisor G. H. Fauss, Jr., Bureau of Operations, Interstate Commerce Commission, Box 35008, 400 West Bay Street, Jacksonville, FL 32202.

No. MC 51146 (Sub-No. 311 TA), filed February 26, 1973. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Post Office Box 2298 (Box Zip 54306), Green Bay, WI 54304. Applicant's representative: Nell DuJardin (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Plastic products, from Lewiston, Utah to points in the United States (except Alaska and Hawaii) and returned shipments and equipment, materials and supplies used in the manufacture and distribution of the above-named commodities, from points in the United States (except Alaska and Hawaii) to Lewiston, Utah, for 180 days. Supporting shipper: Presto Products, Inc., 1843 West Reeve Street, Appleton, WI (James K. Spanbauer, Distributing Manager). Send protests to: District Supervisor John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, WI 53203.

No. MC 65660 (Sub-No. 6 TA), filed February 26, 1973. Applicant: WARNER & SMITH MOTOR FREIGHT, INC., Third Avenue, Post Office Box 96, Masury, OH 44438. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, livestock, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), (1) between Titusville, Pa., and Farmers Valley, Pa., serving all intermediate points: From Titusville over Pennsylvania Highway 27 via Pleasantville, Pa., to junction U.S. Highway 6 to junction Pennsylvania Highway 59, thence over Pennsylvania Highway 59 to junction Pennsylvania Highway 770, thence over Pennsylvania Highway 770 to junction U.S. Highway 219, thence over U.S. Highway 219 to junction Pennsylvania Highway 46, thence over Pennsylvania Highway 46 to Farmers Valley, and return over the same route; (2) between Oil City, Pa., and Tidioute, Pa., serving all intermediate points: From Oil City over U.S. Highway 62 to the junction of Pennsylvania Highway 127, thence over Pennsylvania Highway 127 to Tidioute and return over the same route; (3) between Franklin, Pa., and Luthersburg, Pa., serving all intermediate points: From Franklin over U.S. Highway 322 to Luthersburg and return over the same route; (4) between Barkeyville (Venango County), Pa., and Frills Corners (Clarion County), Pa., serving all intermediate points: From Barkeyville over Pennsylvania Highway 208 to Frills Corners and return over the same route; (5) Between Brookville, Pa. and Tionesta, Pa. serving all intermediate points: From Brookville over Pennsylvania Highway 36 to Tionesta and return over the same route; (6) Between Brookville, Pa. and Luthersburg, Pa. serving all intermediate points: From Brookville over Pennsylvania Highway 28 to junction U.S. Highway 219, thence over U.S. Highway 219 to Luthersburg and return over the same route. Service in connection with routes (1) through (6) above is authorized at all intermediate points and at the off-route points of Callensburg, East Hickory, Falls Creek, Foxburg, Lucinda, Marienville, North East, Parker, Rimersburg, Sligo, and Townville, Pa., for 180 days. Note: Applicant intends to tack the authority here applied for with its authority in Docket No. MC-65660 at Oil City, Franklin, Barkeyville, and Titusville, Pa., and applicant also intends to interline with other carriers at feasible points in the application areas as well as at present service and interline points under its authority in Docket No. MC-65660 and subnumbers thereto. Supporting shippers: There are approximately 58

statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Franklin D. Ball, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 181 Federal Office Building, 1240 East Ninth Street, Cleveland, OH 44199.

No. MC 87103 (Sub-No. 7 TA), filed February 20, 1973. Applicant: MILLER TRANSFER AND RIGGING CO., Post Office Box 6077, Akron, OH 44312, and 3917 State Route 183, Edinburg, OH 58227. Applicant's representative: A. David Miller, 744 Broad Street, Newark, N.J. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (A) *Trusses, joists, and beams and supplies used in the installation thereof when moving in connection therewith, from the plantsite of Trus Joist Central, located at or near Delaware, Ohio, on the one hand, and, on the other, points in Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and Wisconsin* and (B) *Materials, equipment, and supplies used or useful in the production, manufacturing, assembly, or distribution of trusses, joists, and beams, and returned, rejected, or refused shipments of trusses, joists, and beams, from the above-specified destination States to the plantsite of Trus Joist Central, located at or near Delaware, Ohio, for 180 days.* Supporting shipper: Trus Joist Corp., Post Office Box 357, Delaware, OH 43015. Send protests to: Franklin D. Ball, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 181 Federal Office Building, 1240 East Ninth Street, Cleveland, OH 44199.

No. MC 106688 (Sub-No. 19 TA) (Correction), filed February 12, 1973, published in the FEDERAL REGISTER issue of February 28, 1973, and republished as corrected this issue. Applicant: EDWARD M. RUDE CARRIER CORP., RFD No. 1, Falling Waters, W. Va. 25419. Applicant's representative: Francis J. Ortmann, 1100 17th Street, NW., Suite 613, Washington, DC 20036. Note: The purpose of this republication is to indicate that the applicant's correct name is EDWARD M. RUDE CARRIER CORP. In lieu of EDWARD M. RUDER CARRIER CORP. which was inadvertently previously published in error.

No. MC 111170 (Sub-No. 199 TA), filed February 26, 1973. Applicant: WHEELING PIPE LINE, INC., 2811 North West Avenue, Post Office Box 1718, El Dorado, AR 71730. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dibromopropanol*, in bulk, from El Dorado, Ark. to Salem, Ohio, for 180

days. Supporting shipper: Great Lakes Chemical Corp., Post Office Box 1878, El Dorado, AR 71730. Send protests to: District Supervisor William H. Land, Jr., Bureau of Operations, Interstate Commerce Commission, 2519 Federal Office Building, 700 West Capitol, Little Rock, AR 72201.

No. MC 111214 (Sub-No. 10 TA), filed February 23, 1973. Applicant: CLARK V. GRAHAM, doing business as CONTRACT TRUCKING COMPANY, Linde Road, Box 8778, Jackson, MS 39204. Applicant's representative: Fred W. Johnson, Jr., Deposit Guaranty Bank Building, Jackson, Miss. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed and feed ingredients*, between Vicksburg, Miss., and points in Louisiana, Mississippi, and Alabama, for 180 days. Supporting shipper: Valley Mills, Division of The Merchants Co., Vicksburg, Miss. 39180. Send protests to: District Supervisor Tarrant, Interstate Commerce Commission, Bureau of Operations, Room 212, 145 East Amite Building, Jackson, Miss. 39201.

No. MC 117799 (Sub-No. 50 TA), filed February 22, 1973. Applicant: BEST WAY FROZEN EXPRESS, INC., Room 205, 3033 Excelsior Boulevard, Minneapolis, MN 55416. Applicant's representative: K. O. Petrick (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Top soil, potting soil and manufactured potting soil, manufactured mulches and commodities exempt from regulation under section 203(b) (6) of the Interstate Commerce Act*, from Chillicothe and Schooleys, Ohio, and Clark County, Ohio, to point in Arkansas, Connecticut, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, Pennsylvania, Tennessee, Rhode Island, Virginia, West Virginia, Wisconsin, Georgia, and the District of Columbia, for 150 days. Supporting shipper: The Mead Corp., 118 West First Street, Dayton, OH 45402. Send protests to: A. N. Spath, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 448 Federal Building and U.S. Courthouse, 110 South Fourth Street, Minneapolis, MN 55401.

No. MC 118989 (Sub-No. 91 TA), filed February 22, 1973. Applicant: CONTAINER TRANSIT, INC., 5223 South Ninth Street, Milwaukee, WI 53221. Applicant's representative: Albert A. Andrin, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plastic containers and parts related thereto, from the plantsite of Continental Can Co., Inc., at Burlington, Wis., to Rockford, Ill., for 180 days.* Supporting shipper: Continental Can Co., Inc., 150 South Wacker Drive, Chicago, IL 60606 (David Kelly, Regional Traffic Manager). Send protests to: District Supervisor John E.

Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, WI 53203.

No. MC 119789 (Sub-No. 149 TA), filed February 22, 1973. Applicant: CARAVAN REFRIGERATED CARGO, INC., 1612 Irving Boulevard, Post Office Box 6188, Dallas, TX 75222. Applicant's representative: Hugh T. Matthews, 630 Fidelity Union Tower, Dallas, TX 75201. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products (except in bulk)*, when moving in mechanically refrigerated equipment, from Howard County, Tex., to Phoenix, Ariz., and points in California, for 180 days. Note: Carrier does not intend to tack authority. Supporting shipper: American Petrofina Company of Texas, Mercantile Dallas Building, Dallas, Tex. 75201. Send protests to: District Supervisor E. K. Willis, Jr., Interstate Commerce Commission, Bureau of Operations, 1100 Commerce Street, Room 13C12, Dallas, TX 75202.

No. MC 124692 (Sub-No. 101 TA), filed February 26, 1973. Applicant: SAMMONS TRUCKING, Post Office Box 1447, Missoula, MT 59801. Applicant's representative: James B. Hovland, 425 Gate City Building, Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Bentonite clay*, in bags, from the plantsite of American Colloid near Belle Fourche, S. Dak., to points in Michigan, for 180 days. Supporting shipper: American Colloid Co., 5100 Suffolk Court, Skokie, IL 60076. Send protests to: Paul J. Labane, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 222, U.S. Post Office Building, Billings, Mont. 59101.

No. MC 124854 (Sub-No. 11 TA), filed February 20, 1973. Applicant: GRIM BROS. TRUCKING CO., 997 Loucks Mill Road, York, PA 17402. Applicant's representative: Chester A. Zyblut, 1522 K Street NW., Washington, DC 20005. #### MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MARCH 6, 1973.

The following are notices of filing of applications<sup>1</sup> for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131), published in the *FEDERAL REGISTER*, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field office named in the *FEDERAL REGISTER* publication, within 15 calendar days after the date of notice of the filing of the application is published in the *FEDERAL REGISTER*. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

#### MOTOR CARRIERS OF PROPERTY

No. MC 29392 (Sub-No. 20 TA) (Amendment), filed January 30, 1973, published in the *FEDERAL REGISTER* issue of February 22, 1973, as MC 138369 TA and republished as amended this issue. Applicant: LES JOHNSON CARTAGE CO., 611 South 28th Street, Milwaukee, WI 53246. Applicant's representative: Richard H. Prevette (same address as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Truck washout machines*, from Port Washington, Wis., to Los Angeles, Calif.; Miami, Orlando, and Tampa, Fla.; Baltimore, Md.; Detroit, Mich.; Jackson, Miss.; Portland, Ore.; Philadelphia, Pa.; Memphis, Tenn.; Dallas, Fort Worth, and Houston, Tex., for 180 days. Supporting

<sup>1</sup> Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

shipper: Jadair, Inc., Post Office Box 89, Port Washington, WI 53074 (Jack Schmutzler, president). Send protests to: District Supervisor John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, WI 53203. Note: The purpose of this republication is to show that applicant now seeks to operate as a common carrier, in lieu of contract carrier, shown in error in the previous publication.

No. MC 116282 (Sub-No. 25 TA), filed February 21, 1973. Applicant: NEIL'S BAKERY PRODUCTS TRANSPORTATION CO., 246 Broad Street, Auburn, ME 04210. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Bakery products*, from Auburn, Maine, to the international boundary line between the United States/Canada at or near Derby Line, Vt., under a continuing bilateral contract with F. R. Lepage Bakery Inc., doing business as Country Kitchen Bakers, Auburn, Maine, for 180 days. Supporting shipper: F. R. Lepage Bakery, Inc., doing business as Country Kitchen Bakers, 60 Second Street, Auburn, ME 04210. Send protests to: Donald G. Weller, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 307, 76 Pearl Street, Post Office Box 167, PSS, Portland, ME 04112.

No. MC 117153 (Sub-No. 8 TA), filed February 26, 1973. Applicant: H. G. SNYDER TRUCKING, INC., 1111 Pittfield Boulevard, St. Laurent 384, PQ, Canada. Applicant's representative: Julius Braun, Room 21, Albany Port Administration Building, Albany, N.Y. 12202. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Paper labels and dogfood ingredients*, from Connecticut, New Jersey, Ohio, and Pennsylvania to Champlain, N.Y., on traffic destined to Gentilly, Quebec, Canada, for 180 days. Supporting shipper: J. Demers, Inc., Gentilly, Quebec, Canada. Send protests to: District Supervisor Martin P. Monaghan, Jr., Interstate Commerce Commission, Bureau of Operations, 52 State Street, Room 5, Montpelier, VT 05602.

No. MC 127505 (Sub-No. 54 TA) (Amendment), filed February 5, 1973, published in the *FEDERAL REGISTER* issue of February 22, 1973, as MC 138379 TA and republished as amended this issue. Applicant: RALPH H. BOELK, doing business as R. H. BOELK TRUCK LINES, Route 2, Mendota, IL 61342. Applicant's representative: Walter Kobos, 1016 Kehoe Drive, St. Charles, IL 60174. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Aluminum sheet and plate*, from Amax Aluminum Mill Products Inc., near Channahon, Ill., to Loveland, Colo., for 180 days. Supporting shipper: Robert S. Michalak, Traffic Manager Eastern Division, Amax Aluminum Mill Products Inc., Post Office Box 143, Morris, IL 60450. Send protests to: William J. Gray, Jr., Area Supervisor,

Interstate Commerce Commission, Everett McKinley Dirksen Building, 219 South Dearborn Street, Room 1086, Chicago, IL 60604. Note: The purpose of this republication is to show that applicant now seeks to operate as a common carrier, in lieu of contract carrier, shown in error in the previous publication.

No. MC 127527 (Sub-No. 13 TA), filed February 21, 1973. Applicant: CARL W. REAGAN, doing business as SOUTH-EAST TRUCKING CO., 8418 C. H. 18, R.F.D. 6, Ravenna, OH 44266. Applicant's representative: Robert N. Krier, 88 East Broad Street, Columbus, OH 43215. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Conduit and other pipe (except iron and steel) and attachments parts and fittings therefor*, from the plant site of the Flintkote Co., Pipe Products Group, located at or near Ravenna, Ohio, in Rootstown Township, Portage County, Ohio, to points in Delaware, Michigan, Maryland, New Jersey, New York, Pennsylvania, West Virginia, District of Columbia, Virginia, Kentucky, Illinois, Wisconsin, and Indiana and return of damaged or rejected shipments, for 180 days. Supporting shipper: Flintkote Co., Pipe Products Group, Ravenna, Ohio 44266. Send protests to: Franklin D. Ball, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 181 Federal Office Building, 1240 East Ninth Street, Cleveland, OH 44199. Note: Applicant proposes to conduct operations under the applied-for authority under continuing contract with the Flintkote Co., Pipe Products Group.

No. MC 134890 (Sub-No. 1 TA) filed February 21, 1973. Applicant: MARION TRANSFER, INC., 2380 North 124th Street, Wauwatosa, WI 53226. Applicant's representative: William C. Dineen, 710 North Plankinton Avenue, Milwaukee, WI 53203. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Cheese, cheese products, and cheese by-products*, from the plant site of Grande Cheese Co., town of Le Roy, Dodge County, Wis., to points in New Jersey, New York, Ohio, Pennsylvania, Michigan, Massachusetts, Connecticut, Maine, Maryland, and Rhode Island, for the account of Grande Cheese Co., for 180 days. Supporting shipper: Grande Cheese Co., Post Office Box 455, Fond du Lac, WI 54935 (T. J. Brinkman). Send protests to: District Supervisor John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, WI 53203.

No. MC 136121 (Sub-No. 2 TA), filed February 26, 1973. Applicant: BRISCOE TRUCKING COMPANY, INC., Post Office Box 45388, 8740 East 46th Street, Tulsa, OK 74145. Applicant's representative: Joe T. Briscoe (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Bed-springs, bedstead rails, cots and cot frames, unupholstered daybeds, bed frames, springs and spring assemblies,*

*metal sleeper fixtures, and materials* used in the manufacture of the foregoing commodities, (1) from Springfield, Mo., and Hominy, Okla., to Los Angeles, Calif., and points in Colorado and Arizona and (2) from Cathage, Mo., to Winchester, Ky., for 180 days. Supporting shipper: Frank E. Ford, Jr., Vice President, Leggett & Platt, Inc., 600 West Mound Street, Carthage, MO 64836. Send protests to: C. L. Phillips, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 240, Old Post Office Building, 215 Northwest Third, Oklahoma City, OK 73102.

No. MC 138436 TA, filed February 20, 1973. Applicant: GLEN AND ANNA BOCH, doing business as MERCHANTISE PICKUP & DELIVERY, 2828 North 83d Terrace, Kansas City, KS 66109. Applicant's representative: Frank W. Taylor, 1221 Baltimore Avenue, Kansas City, MO 64105. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Auto parts and accessories*, from the NAPA Distribution Center at 250 Osage, Kansas City, KS, to points in Missouri, for 150 days. (Damaged, returned or rejected shipments on return movement.) Supporting shipper: General Automotive Parts Corp., 250 Osage Avenue, Kansas City, KS 66105. Send protests to: Vernon V. Coble, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 600 Federal Office Building, 911 Walnut Street, Kansas City, KS 64106.

No. MC 138437 TA, filed February 23, 1973. Applicant: J. T. R. TRUCKING COMPANY, INC., 489 Washington Street, New York, NY 10013. Applicant's representative: William D. Traub, 10 East 40th Street, New York, NY 10016. Authority sought to operate as a contract carrier, by motor vehicle, over

irregular routes, transporting: *Components and supplies used in the manufacture of costume jewelry*, between the New York, N.Y., commercial zone as defined by the Interstate Commerce Commission and shipper's warehouse facility in Providence, R.I., for 180 days. Supporting shipper: Kittay & Blitz, Inc., 104 West 29th Street, New York, NY, Attention: Mr. Richard L. Blitz, President, telephone: 212-594-7900. Send protests to: Paul W. Assenza, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 26 Federal Plaza, Room 1807, New York, NY 10007.

By The Commission.

[Notice 31]

#### MOTOR CARRIER TRANSFER PROCEEDINGS

MARCH 8, 1973.

Application filed for temporary authority under section 210a(b) in connection with transfer application under section 212(b) and transfer rules, 49 CFR Part 1132:

No. MC-FC-74337. By application filed March 6, 1973, TRANSTAR CORP., 79 Jacobus Avenue, South Kearny, NJ, seeks temporary authority to lease the operating rights of ROBERT W. MERRELL, doing business as MERRELL MOTOR LINE, 6 Darcy Street, Newark, NJ, under section 210a(b). The transfer to Transtar Corp., of the operating rights of Robert W. Merrell, doing business as Merrell Motor Line, is presently pending.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc. 73-4787 Filed 3-12-73; 8:45 am]

[Ex Parte 241; Rule 19, Exemption 36]

#### SOUTHERN RAILWAY CO.

#### Exemption From Mandatory Car Service Rules

It appearing that there is an emergency movement of military impedimenta from Bynum, Ala., to Mobile, Ala.; that the originating carrier has insufficient system cars of suitable dimensions immediately available for loading with this traffic; that sufficient cars of other ownerships having suitable dimensions are available on the lines of the originating carrier and on its connections; and that compliance with Car Service Rules 1 and 2 would prevent the timely assembly and use of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, the Car Service Division of the Association of American Railroads is authorized to direct the movement to the Southern Railway Co., the railroads designated by the Car Service Division are authorized to move to, and the Southern Railway Co., is authorized to accept, assemble, and load not to exceed 41 empty cars with military impedimenta from Bynum, Ala., to Mobile, Ala., regardless of the provisions of Car Service Rules 1(b), 2(c), 2(d), or 2(e).

Effective March 6, 1973.

Expires March 16, 1973.

Issued at Washington, D.C., March 6, 1973.

INTERSTATE COMMERCE  
COMMISSION,  
R. D. PFAHLER,  
Agent.

federal register

Area Code 202 Phone 962-4626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$2.50 per month or \$25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 30 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Railway Labor Act (Penn Central work stoppage) (Feb. 9, 1973; 87 Stat. 5)

## Presidential Documents

### Title 3—The President

#### PROCLAMATION 4194

### Earth Week, 1973

By the President of the United States of America

#### A Proclamation

The first Earth Week in 1971 marked an important milestone for the cause of environmental protection. It also provided an important opportunity for all Americans to pay tribute to the qualities which have made our country great—individual initiative, voluntary action, and a deep sense of responsibility for the gifts of nature and the welfare of the community.

Our environment is the source of life upon which we all depend; its preservation has brought out the best in the American character. In thousands of communities, citizens have joined to improve the quality of their lives and those of their neighbors.

Our environmental problems have not been resolved since that first Earth Week, but we have done much and we will do more. While our new awareness has taught us that our natural resources are exhaustible, we know that our most important resource, the American spirit, is not.

We can never rest in the effort to preserve and improve our good earth. Earth Week, 1973 gives us the chance to affirm our dedication to that high calling.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week beginning April 8, 1973, as Earth Week. I call upon Federal, State and local officials to foster the purposes of Earth Week and to arrange for its proper observance. I ask that special attention be given to personal voluntary activities and educational efforts directed toward protecting and enhancing our life-giving environment.

IN WITNESS WHEREOF, I have hereunto set my hand this 12th day of March, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-seventh.

*Richard Nixon*

[FR Doc.73-5022 Filed 3-12-73; 2:56 pm]

## PROCLAMATION 4195

## Small Business Week, 1973

*By the President of the United States of America*

## A Proclamation

In no facet of our national life is the American genius for independence, innovation and self-improvement better displayed than in the small business community.

The instinct to create, sustain and expand an independent enterprise is as old as America herself—an impulse that brought the earliest settlers to our shores and motivated generation after generation of our citizens in their onward, upward march. Nowhere is it more clearly evident today than among our Nation's 8 million small businesses.

In the past year alone, more than 70 thousand new companies were started. Nineteen out of every twenty firms are considered small business, and they provide approximately 35 million jobs, and contribute more than \$420 billion to the gross national product.

They also provide a ladder of opportunity to hard working, ambitious Americans of all races and creeds—the chance to harness individual initiative and ability to the mighty potentials of the free enterprise system. As long as America remains true to her heritage, the small businessman will continue as a mainstay of our economy and our society.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week beginning May 13, 1973, as Small Business Week. I ask all Americans to share with me during this week a deep pride in the many accomplishments of our Nation's small businessmen and women, and in the invaluable contribution they have made to our free way of life.

IN WITNESS WHEREOF, I have hereunto set my hand this 12th day of March, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-seventh.

## EXECUTIVE ORDER 11707

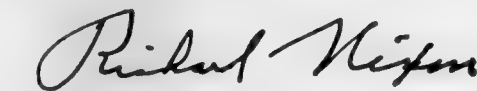

## Change in Boundaries of New England River Basins Commission

The Governors of the member States of the New England River Basins Commission and the Water Resources Council have requested that the jurisdiction of the Commission be extended to include those portions of the States of Vermont and Massachusetts which are not presently included within the area of the Commission's jurisdiction. I have determined that it would be in the public interest to comply with that request.

NOW, THEREFORE, by virtue of the authority vested in me by Section 201 of the Water Resources Planning Act (42 U.S.C. 1962b) and as President of the United States, subsections (3) and (4) of section 2 of Executive Order No. 11371 of September 6, 1967, as amended, are hereby amended to read as follows:

"(3) The State of Vermont,

"(4) The State of Massachusetts,".

THE WHITE HOUSE,  
March 12, 1973.

# Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 5—Administrative Personnel CHAPTER I—CIVIL SERVICE COMMISSION PART 213—EXCEPTED SERVICE

### PART 213—EXCEPTED SERVICE Department of Agriculture

Section 213.3313 is amended to show that one position of Confidential Assistant to the Assistant Secretary for Rural Development is excepted under Schedule C.

Effective on March 14, 1973, § 213.3313 (a) (20) is added as set out below.

#### § 213.3313 Department of Agriculture.

- (a) *Office of the Secretary.* . . .  
(20) One Confidential Assistant to the Assistant Secretary for Rural Development.

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954-58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,  
[SEAL] JAMES C. SPRY,  
*Executive Assistant to the Commissioners.*  
[FR Doc.73-4853 Filed 3-13-73; 8:45 am]

### PART 213—EXCEPTED SERVICE Department of Commerce

Section 213.3314 is amended to show that two additional positions of Confidential Assistant to the Assistant Secretary for Administration are excepted under Schedule C.

Effective on March 14, 1973, § 213.3314 (a) (8) is amended as set out below.

#### § 213.3314 Department of Commerce.

- (a) *Office of the Secretary.* . . .  
(8) Three Confidential Assistants to the Assistant Secretary for Administration.

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954-58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,  
[SEAL] JAMES C. SPRY,  
*Executive Assistant to the Commissioners.*  
[FR Doc.73-4852 Filed 3-13-73; 8:45 am]

### PART 213—EXCEPTED SERVICE U.S. Information Agency

Section 213.3328 is amended to show that one position of Congressional and Legal Liaison Officer, Office of the General Counsel, is excepted under Schedule C.

Effective on March 14, 1973, § 213.3328 (i) is added as set out below.

#### § 213.3328 U.S. Information Agency.

- (i) One Congressional and Legal Liaison Officer, Office of the General Counsel.

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954-58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,  
[SEAL] JAMES C. SPRY,  
*Executive Assistant to the Commissioners.*  
[FR Doc.73-4874 Filed 3-13-73; 8:45 am]

### PART 213—EXCEPTED SERVICE Department of Transportation

Section 213.3394 is amended to reflect the following title change: from two Special Assistants to the Assistant Secretary for Policy and International Affairs to two Special Assistants to the Assistant Secretary for Policy, Plans, and International Affairs.

Effective on March 14, 1973, § 213.3394 (a) (21) is amended as set out below.

#### § 213.3394 Department of Transportation.

- (a) *Office of the Secretary.* . . .  
(21) Two Special Assistants to the Assistant Secretary for Policy, Plans, and International Affairs.

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954-58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,  
[SEAL] JAMES C. SPRY,  
*Executive Assistant to the Commissioners.*  
[FR Doc.73-4850 Filed 3-13-73; 8:45 am]

### PART 213—EXCEPTED SERVICE Department of Transportation

Section 213.3394 is amended to show that the following positions are excepted under Schedule C: one Secretary to each of two Special Assistants to the Secretary and one Secretary to the Assistant Secretary for Policy, Plans, and International Affairs.

Effective on March 14, 1973, paragraphs (a) (33) and (a) (34) are added to § 213.3394 as set out below.

#### § 213.3394 Department of Transportation.

- (a) *Office of the Secretary.* . . .  
(33) One Secretary to each of two Special Assistants to the Secretary.  
(34) One Secretary to the Assistant Secretary for Policy, Plans, and International Affairs.

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954-58 Comp. p. 218)

**SUBCHAPTER Q—SPECIFICATIONS**  
[CGD 72-214R]

**PART 162—ENGINEERING EQUIPMENT**  
**Marine-Type Portable Fire Extinguishers**

These amendments provide for:

- (1) More rigorous salt spray testing requirements for marine-type portable fire extinguishers.
- (2) Mandatory testing of all such extinguishers submitted for approval.
- (3) Coast Guard review and approval both of test reports of a recognized laboratory and of quality control procedures of the manufacturers.
- (4) Termination of listing or labeling of an extinguisher when service experience or a report from a recognized laboratory or the Coast Guard indicates that a product is unsatisfactory.

These amendments appeared as a notice of proposed rule making in the March 9, 1972, issue of the FEDERAL

**RULES AND REGULATIONS**

REGISTER (37 FR 5060-5061). A public hearing was held on April 18, 1972, in Washington, D.C., concerning the amendments. Interested persons were given the opportunity to submit written comments and to make oral comments at the public hearing.

The only comment received suggested that the revised salt spray test proposed by the Coast Guard was essentially identical to the salt spray test performed by Underwriters' Laboratories, Inc., and that the amendment should therefore allow evidence of compliance with the Underwriters' Laboratories test to constitute evidence of compliance with the Coast Guard test. Though the two tests are similar, the proposed Coast Guard test, as well as the other existing requirements contained in 46 CFR 162.028-3, are intended to provide the standards to which recognized laboratories are required to adhere in devising testing procedures and requirements. Thus, many similarities in requirements may occur between Coast Guard requirements and requirements followed by a recognized laboratory.

Two minor revisions of the proposed rule have been made for purposes of clarity: The last sentence of 46 CFR 162.028-3(g) has been incorporated into § 162.028-3(c)(6)(iv) of the proposed rule; and § 162.028-7 of the proposed rule has been reworded with no substantive changes.

In consideration of the foregoing, Part 162 of Chapter I of Title 46 of the Code of Federal Regulations is amended as follows:

1. By revising § 162.028-3 (c) (5) and (6), (g), and 162.028-7 to read as follows:

**§ 162.028-3 Requirements.**

- (c) \* \* \*
- (5) *Suitability of materials.* All extinguishers submitted for approval shall undergo the salt spray test in accordance with subparagraph (6) of this paragraph.
- (6) *Salt spray tests.* Expose the complete fully charged specimen extinguisher to a 20 percent sodium chloride solution spray at a temperature of 95° F. (35° C.) for a period of 240 hours. The procedures and apparatus described in Method 811 of Federal Test Method Standard No. 151 are suitable. Alternate methods may be found satisfactory if the results are comparable. Following the test, allow the specimen extinguisher to air dry for a period of 48 hours. Following the air drying—

- (i) The extinguisher must be capable of being operated and recharged in a normal fashion;
- (ii) Any coating required in this section to be corrosion resistant must remain intact and must not be removable (when such removal exposes a material subject to corrosion) by such action as washing or rubbing with a thumb or fingernail;
- (iii) No galvanic corrosion may appear at the points of contact or close proximity of dissimilar metals;

- (iv) The extinguisher and its bracket, if any, must not show any corrosion, except corrosion that can be easily wiped off after rinsing with tap water, on surfaces having no protective coating or paint; and,
- (v) The gage on a stored pressure extinguisher must remain watertight throughout the test.

- (g) *Mounting bracket.* Every portable fire extinguisher shall be supplied with a suitable bracket which will hold the extinguisher securely in its stowage location on vessels or boats, and which is arranged to provide quick and positive release of the extinguisher for immediate use.

2. By revising § 162.028-7 to read as follows:

**§ 162.028-7 Procedure for listing and labeling.**

- (a) Manufacturers having a marine-type portable fire extinguisher which they consider has characteristics suitable for general use on merchant vessels and motorboats may make application for listing and labeling as a marine-type portable fire extinguisher by addressing a request directly to a recognized laboratory. The laboratory will inform the submitter as to the requirements for inspection, examinations, and testing necessary for such listing and labeling. The request shall include permission for the laboratory to furnish a complete test report together with a description of the quality control procedures to the Commandant.
- (b) The U.S. Coast Guard will review the test report and quality control procedures to determine if the requirements in § 162.028-3 have been met. If this is the case, the Commandant will notify the laboratory that the extinguisher is approved and that when the extinguisher is listed and labeled, it may be marked as being U.S. Coast Guard approved.

- (c) If disagreements concerning procedural, technical, or inspection questions arise over U.S. Coast Guard approval requirements between the manufacturer and the laboratory, the opinion of the Commandant shall be requested by the laboratory.
- (d) The manufacturer or the laboratory may at any time request clarification or advice from the Commandant on any question which may arise regarding manufacturing and approval of approved devices.

3. By adding a new paragraph (a) (5) to § 162.028-8 to read as follows:

**§ 162.028-8 Termination of listing or labeling.**

- (a) \* \* \*
- (5) When service experience or laboratory or U.S. Coast Guard reports indicate a product is unsatisfactory.

(46 U.S.C. 367, 390b, 391a, 404, 481, 526g, 526p, 1333, 49 U.S.C. 1655(b); 49 CFR 1.4(b), 1.46(b))

*Effective date.* These amendments shall become effective on June 18, 1973.

Dated: March 8, 1973.

C. R. BENDER,  
Admiral, U.S. Coast Guard,  
Commandant.  
[FR Doc. 73-4876 Filed 3-13-73; 8:45 am]

[CGD 72-215R]

**PART 164—MATERIALS**  
**Incombustible Materials for Merchant Vessels**

This amendment provides for ready identification of Coast Guard approved incombustible materials. Manufacturers often sell two different products under the same brand name, one for marine industry and the other for the building trade. As a result, a product not suitable for marine industry may be unintentionally delivered and accepted. This amendment will enable marine inspectors, users, and suppliers to identify Coast Guard approved incombustible materials.

The amendment appeared as a notice of proposed rule making in the March 9, 1972, issue of the FEDERAL REGISTER (37 FR 5061). A public hearing was held on April 18, 1972, in Washington, D.C., on the amendment. Interested persons were given the opportunity to submit written comments and to make oral comments concerning the proposed amendment at the public hearing. No comments were received to the proposed amendment.

In consideration of the foregoing, Part 164 of Chapter I of Title 46 of the Code of Federal Regulations is amended by adding a new § 164.009-5 to read as follows:

**§ 164.009-5 Marking.**

- (a) Approved incombustible materials shall be marked on the shipping container with the approval number and date of approval. Where practical, the product shall also be labeled with the approval number and date of approval. Determination of practicality shall be made by the Coast Guard at the time of application for approval.

(46 U.S.C. 367, 389, 390b, 391a, 404, 481, 1333; 49 U.S.C. 1655(b); 49 CFR 1.4(b), 1.46(b))

*Effective date.* These amendments shall become effective on June 18, 1973.

Dated: March 8, 1973.

C. R. BENDER,  
Admiral,  
U.S. Coast Guard, Commandant.

**Title 49—Transportation**  
**CHAPTER X—INTERSTATE COMMERCE COMMISSION**  
**SUBCHAPTER A—GENERAL RULES AND REGULATIONS**  
[Rev. S.O. 1119]

**PART 103—CAR SERVICE**  
**Demurrage on Freight Cars**

At a session of the Interstate Commerce Commission, Railroad Service

**RULES AND REGULATIONS**

Board, held in Washington, D.C., on the seventh day of March 1973.

It appearing, that an acute shortage of all types of railroad-owned freight cars exists throughout all sections of the country; that certain carriers are unable to furnish an adequate supply of freight cars to shippers located on their lines; that these shortages of freight cars are impeding the movement of many commodities; that many freight cars are ordered and held by shippers for loading which are later returned to the carrier without being used in transportation service; that such practices immobilize large numbers of freight cars needed by shippers for the transportation of other freight; and that the existing demurrage and detention rules, regulations, and practices of the railroads are ineffective to control such use of freight cars. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than 30 days' notice.

It is ordered, That:

**§ 103.1119 Service Order No. 1119.**

- (a) *Demurrage on freight cars.* Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its demurrage rules and charges.

- (b) *Description of cars subject to this section.* Except as otherwise provided in paragraph (c) of this section, this section shall apply to freight cars which are subject to demurrage rules applicable to detention of cars.

- (c) *Exceptions.* (1) The provisions of this section shall not apply to freight cars listed in the Official Railway Equipment Register, ICC R.E.R. 386 issued by W. J. Trezise, or reissues thereof, as having the following descriptions and mechanical designations:

*Mechanical designation.* RA, RAM, RCD, RS, RSB, RSM, RSTC, and RSTM.  
*Mechanical designation.* SA, SC, SD, SF, SH, SM, SP, and ST.

*Mechanical designation.* TA, TAI, TG, TGI, THI, TL, TLI, TM, TMI, TMU, TMUI, TP, TPI, TPA, TPAL, TR, TRI, TVI, TW, and TWI.  
*Mechanical designation.* XT.

- (2) The provisions of this section shall not apply to freight cars while subject to the provisions of Agent B. B. Maurer's Tariffs 8-0, ICC H-30; 551-L, ICC H-50; 552-P, ICC H-47; and 719-F, ICC H-53; nor to perishable protective charges published in Agent W. T. Jamison's National Perishable Protective Tariff No. 18, ICC; 73; supplements thereto, or reissues thereof.

- (d) *Cars subject to this section.* (1) When empty cars placed on orders are not used in transportation service, demurrage will be charged for all detention, including Saturdays, Sundays, and holidays (see list in Item 25, Freight Tariff 4-I, ICC H-36), from actual or construc-

tive placement until released, with no free time allowance.

- (2) Charges for cars detained as described in paragraph (1) of this section shall be assessed at the following rates, until car is released:

\$10 per car per day, or fraction of a day, for each of the first 4 days.  
\$20 per car per day, or fraction of a day, for each of the next 2 days.  
\$30 per car per day, or fraction of a day, for each of the next 2 days.  
\$50 per car per day for each subsequent day.

- (3) In the application of this section, a demurrage day consists of a 24-hour period, or fraction thereof, computed from the hour of actual or constructive placement of the car, except that on cars placed in advance of the date for which ordered for loading, time will be computed from 7 a.m. of the day for which so ordered.

- (4) When a car so ordered and placed on a public track or on an industrial interchange track is not used and no advice from the party who ordered the car has been received within 48 hours (2 days), exclusive of Saturdays, Sundays, and holidays (see list in Item 25, Freight Tariff 4-I, ICC H-36), from the first 7 a.m. after placement (see paragraph (d)(3) of this section), the car shall be removed and treated as released at the time of removal. Such cars shall be subjected to demurrage charges as provided herein.

- (5) (i) In the event a car is rejected account not suitable for loading, this section will not apply if the party ordering the car advises the carrier of rejection and condition that caused the car to be rejected, within 24 hours (1 day) exclusive of Saturdays, Sundays, and holidays (see list in Item 25, Freight Tariff 4-I, ICC H-36) after actual placement (see paragraph (d)(3) of this section).

- (ii) If rejection has not been made within time specified in paragraph (d) (5) (i) of this section, demurrage will be charged for all detention, computed under paragraphs (d) (1), (2), and (3) of this section.

- (e) If the application of demurrage rules published in any tariff lawfully in effect results in demurrage charges greater than those provided in this order, such greater charges shall apply.

- (f) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

- (g) *Regulations suspended—announcement required.* The operation of all rules and regulations, insofar as they conflict with the provisions of this order, is hereby suspended and each railroad subject to this order, or its agent, shall publish, file, and post a supplement to its tariff affected hereby in substantial accordance with the provisions of Rule 9(k) of the Commission's Tariff Circular No. 20, announcing such suspension.

- (h) *Effective date.* This order shall become effective at 7 a.m., March 16, 1973.

- (i) *Expiration date.* This order shall expire at 6:59 a.m., July 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10-17), 15(4),

17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), 17(2))

It is further ordered, That a copy of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc. 73-4933 Filed 3-13-73; 8:45 am]

[Rev. S.O. 1121]

#### PART 1033—CAR SERVICE

##### Demurrage and Free Time at Ports

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the seventh day of March 1973.

It appearing, that an acute shortage of covered hopper cars and plain boxcars exists throughout the country; that certain carriers are unable to furnish an adequate supply of these cars to shippers located on their lines; that these shortages of covered hopper cars and plain boxcars are impeding both the domestic and export movement of agricultural, mineral, forest, and manufactured products and other commodities; that certain existing tariff rules and regulations provide excessive free-time periods for loading or unloading at ports, and demurrage, detention, or storage rates at levels below those applicable to domestic freight; that such rules, regulations, and demurrage, detention, or storage rates are ineffective in securing prompt release of cars held at the ports. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than 30 days' notice.

It is ordered, That:

#### § 1033.1121 Service Order No. 1121.

(a) *Demurrage and free time at ports.* Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

#### RULES AND REGULATIONS

(1) *Application.* (i) The provisions of this section shall apply to intrastate, interstate, and foreign commerce.

(ii) This section shall apply to all freight cars which are listed in the Official Railway Equipment Register, ICC R.E.R. 386, issued by W. J. Trezise, or successive issues thereof, as having one of the mechanical designations shown on pages 1154 and 1155 under the headings:

Class "X"—boxcar type, "XL," "XLI," "XM," "XMI," only.  
Class "G"—gondola car type. All Class "G" except "GW."  
Class "L"—special car type, "LC," "LO," "LU," only.

(iii) Ocean, Great Lakes, or river ports are hereby defined as being any station at which shipments are transferred between rail carriers and water carriers, whether by direct car-vessel transfer or by intermediate handling through a port elevator, wharf, dock, or warehouse capable of both the loading and unloading of railcars and the loading and unloading of vessels.

(iv) Multiple-car shipments are hereby defined as shipments made under tariff provisions specifically requiring the loading of two or more cars in order to qualify for the rate.

(v) Constructive placement is hereby defined as the holding of a car by the carrier because of the inability of the consignee or shipper to receive it.

(vi) The terms "loading," "unloading," and "forwarding directions" as defined in Demurrage Rule 2, Item 905 of General Car Demurrage Tariff 4-I, ICC H-36, issued by B. B. Maurer, supplements thereto, or reissues thereof, shall apply to cars subject to this section.

(vii) The term "holidays" means holidays as listed in Item 25 of General Car Demurrage Tariff 4-I, ICC H-36, issued by B. B. Maurer, supplements thereto, or reissues thereof.

(viii) Exception. Exceptions to this order may be authorized to carriers by the Railroad Service Board. Request for exceptions must be submitted in writing to R. D. Pfahler, Chairman, Railroad Service Board, Interstate Commerce Commission, Washington, D.C. 20423. Each such request must specifically identify the type of cars for which an exemption is desired and must clearly state the reasons why such cars cannot be utilized in other services.

(ix) Exception. This order shall not apply to cars of Mexican ownerships held at Texas gulf ports.

(x) Exception. This order shall not apply to emergency relief supplies, other than bulk grain or soybeans, when billed to an agency of the U.S. Government.

(2) *Free time.* (i) Not more than a total of 72 hours' free time, excluding Saturdays, Sundays, and holidays, shall be allowed for loading or unloading freight cars described in paragraph (a) (1) (ii) of this section at ocean, Great

Lakes, or river ports with freight requiring transfer between rail and water carriers, either direct or through port elevators, wharves, docks, or warehouses.

(ii) When freight cars described in paragraph (a) (1) (ii) of this section are held by rail carriers at any point outside the port because of any condition attributable to the shipper or consignee, the combined total of the free time allowed at the port and at the point where cars are held shall not exceed 72 hours, excluding Saturdays, Sundays, and holidays.

(iii) If the maximum free time authorized in applicable tariffs is less than the 72-hour period described in paragraph (a) (2) (i) of this section, the free-time periods provided in such tariffs shall apply.

(3) *Demurrage, detention, or storage charges.* (i) After the expiration of the free-time period described in paragraph (a) (2) of this section, demurrage charges shall be assessed at the following rates, until car is released:

\$10 per car per day, or fraction of a day, for each of the first 4 days.  
\$20 per car per day, or fraction of a day, for each of the next 2 days.  
\$30 per car per day, or fraction of a day, for each of the next 2 days.  
\$50 per car per day for each subsequent day.

Average demurrage agreement rules shall not apply.

(ii) The applicable demurrage charges provided in paragraph (a) (3) (i) of this section will accrue on all Saturdays, Sundays, and holidays subsequent to the second chargeable day including a Saturday, Sunday, or holiday immediately following the day on which the second chargeable day begins; except as otherwise provided in Rule 6, Section B, of General Car Demurrage Tariff 4-I, ICC H-36, issued by B. B. Maurer, supplements thereto, or reissues thereof.

(iii) Exception. If the demurrage, detention, or storage rates authorized in the applicable tariffs are greater than those described in paragraph (a) (3) (i) of this section, such higher rates shall apply.

(iv) Existing tariff rules requiring the placement or release, as a unit, of all cars in a multiple-car shipment shall remain in effect.

(v) The demurrage, detention, or storage rates provided in paragraph (a) (3) (i) of this section shall supersede all published storage charges expressed in cents per hundredweight, per bushel, or other unit of measure, for all freight held at ports in cars in excess of the free-time periods provided in paragraph (a) (2) of this section.

(4) *Notices of arrival, constructive placement, etc.* (i) Existing tariff provisions defining constructive placement and establishing the requirements for the placement, adjustment of runarounds, the giving of arrival or constructive

#### RULES AND REGULATIONS

placement notice on freight destined for unloading or transshipment at the ports shall apply.

(ii) If no such rules with respect to arrival, runaround, or constructive placement are published in the applicable tariffs, the rules published in General Car Demurrage Tariff 4-I, ICC H-36, issued by B. B. Maurer, supplements thereto, or reissues thereof, shall apply.

(b) *Rules and regulations suspended.* The operation of all rules and regulations, including rates, rules, and free-time periods granted by authority of Part I, section 22 of the Interstate Commerce Act, insofar as they conflict with the provisions of this order, is hereby suspended.

(c) *Effective date.* This order shall become effective at 7 a.m., March 16, 1973.

(d) *Expiration date.* This order shall expire at 6:59 a.m., July 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, 17(2). Interprets or applies secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), 17(2))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[S.O. 1125]

#### PART 1033—CAR SERVICE

St. Louis-San Francisco Railway Co. Authorized to Operate Over Tracks of the Kansas City Southern Railway Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the eighth day of March 1973.

It appearing, that the St. Louis-San Francisco Railway Co. (SL-SF) is unable to operate over its spur track serving a paper mill at Ashdown, Ark., because of track conditions; that SL-SF service to this shipper can be accomplished by the use of certain tracks of The Kansas City Southern Railway Co.

(KCS); that the KCS has consented to such use of its tracks by the SL-SF; that operation by the SL-SF over the aforementioned tracks of the KCS at Ashdown, Ark., is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than 30 days' notice.

It is ordered, That:

#### § 1033.1125 Service Order No. 1125.

(a) St. Louis-San Francisco Railway Co. authorized to operate over tracks of the Kansas City Southern Railway Co. The St. Louis-San Francisco Railway Co. (SL-SF) be, and it is hereby, authorized to operate over tracks of the Kansas City Southern Railway Co. (KCS) between KCS milepost 470.47 and KCS milepost 467.66, a distance of approximately 2.81 miles, in the vicinity of Ashdown, Ark.

(b) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(c) *Rates applicable.* Inasmuch as this operation by the SL-SF over tracks of the KCS is deemed to be due to carrier's disability, the rates applicable to traffic moved by the SL-SF over these tracks of the KCS shall be the rates which were applicable on the shipments at the time of shipment as originally routed.

(d) *Effective date.* This order shall become effective at 11:59 p.m., March 12, 1973.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., July 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, 17(2). Interprets or applies secs. 1(10-17), 15(4), 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), 17(2))

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,  
Secretary.

#### Title 50—Wildlife and Fisheries

#### CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

##### PART 33—SPORT FISHING

##### Certain Wildlife Refuges in Nevada

The following special regulations are issued and are effective on March 14, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

##### NEVADA

*General conditions:* Fishing shall be in accordance with applicable State regulations. Portions of refuges which are open to fishing are designated by signs and/or delineated on maps. The maps are available at the respective refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 3737, Portland, OR 97208.

*Charles Sheldon Antelope Range—* Headquarters: Post Office Box 111, Lakeview, OR 97630.

*Special condition:* Dufurrena Ponds closed to fishing March 1 through May 31.

*Ruby Lake National Wildlife Refuge—* Ruby Valley, Nev. 89833.

*Stillwater National Wildlife Refuge—* Post Office Box 592, Fallon, NV 89406.

*Special condition:* Refuge closed to fishing during the migratory hunting season.

The provisions of these special regulations supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

JOHN D. FINDLAY,  
Regional Director, Bureau of  
Sport Fisheries and Wildlife.

MARCH 6, 1973.

#### Title 21—Food and Drugs

#### CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

##### SUBCHAPTER B—FOOD AND FOOD PRODUCTS

##### PART 19—CHEESES, PROCESSED CHEESES, CHEESE FOODS, CHEESE SPREADS, AND RELATED FOODS

*Certain Cheese Products; Order Listing Xanthan Gum as an Optional Ingredient and Changes in Labeling Requirements*

In the matter of amending the standards of identity for cream cheese, neuf-

chatel cheese, pasteurized process cheese spread, cream cheese with other foods, pasteurized neufchatel cheese spread with other foods, and cold-pack cheese food (21 CFR 19.515, 19.520, 19.775, 19.782, 19.783, and 19.787) to provide for xanthan gum as an optional ingredient by adding it to the list of stabilizing ingredients heretofore provided:

A notice of proposed rule making in the above-identified matter was published in the FEDERAL REGISTER of September 15, 1972 (37 FR 18742), based on a petition filed jointly by Kelco Co., 1010 Second Avenue, San Diego, CA 92191, and the National Cheese Institute, Inc., 110 North Franklin Street, Chicago, IL 60606. Published along with the proposal regarding xanthan gum was a further proposal, on the initiative of the Commissioner of Food and Drugs, that all optional ingredients in cream cheese and neufchatel cheese be listed on an appropriate information panel of the package label. An order requiring label declaration of all ingredients used in pasteurized process and cold-pack cheese products was published in the FEDERAL REGISTER of July 7, 1972 (37 FR 13339).

Five comments were received in response to the proposal, all of which supported the use of xanthan gum as an optional ingredient in certain cheese products. Four of those who commented took exception to the labeling provisions proposed on the initiative of the Commissioner. The issues raised by these comments are as follows:

1. An ingredient statement is not necessary on standardized natural cheeses such as cream cheese and neufchatel cheese, since it is common knowledge that all cheese is made from milk through addition of a culture (e.g., bacteria or mold) and/or a suitable milk clotting enzyme.

2. The option for label declaration of gum karaya, gum tragacanth, carob bean gum, guar gum, and oat gum, or mixtures of these by the collective term "vegetable gum," should not be terminated.

3. Provision should be made for label declaration of bacterial cultures used in cheesemaking as "culture."

4. The type size required for the ingredient statement on cream cheese and neufchatel cheese labels is too large and would crowd the labels, particularly in the case of any package the principal display panel of which has an area of 5 square inches or less.

5. Label declaration of cheese whey used to adjust the fat and moisture content of cream cheese should not be required, since whey is a normal component of all cheese products.

The order published in the January 19, 1973 FEDERAL REGISTER (38 FR 1237) affirmed the intention of the Food and Drug Administration to amend the definitions and standards of identity of food by setting into motion as rapidly as possible the provisions of section 401 of the Federal Food, Drug, and Cosmetic Act to require label declaration of all optional ingredients with the exception of optional spices, flavorings, and colorings

which may continue to be designated as such without specific ingredient declaration. It is the opinion of the Commissioner that there is significant consumer interest that the labels of cheese products, including cream cheese and neufchatel cheese, bear complete information of the ingredients contained, including the specific names of any vegetable gums used. Therefore, he concludes that the changes to the proposal suggested by items (1) and (2) above should not be made.

Regarding label declaration of bacterial and mold cultures used in cheesemaking, the Commissioner concludes that "cheese culture" would be a suitable designation, and the order set forth below provides for this term.

Concerning the type size required for the ingredients statement, a new § 1.8d, Food Labeling; Information Panel (21 CFR 1.8), was established by an order published in the January 19, 1973, FEDERAL REGISTER (38 FR 2124). This section required that certain required label information, including the ingredient statement, must appear on the label with the prominence and conspicuousness required by section 403(f) of the act and § 1.9 (21 CFR 1.9), but in no case may the letters be less than 1/16th inch in height. Also paragraph (e) of § 1.8d contains a provision for petitioning for the exemption of small-size packages of food from the type size requirements of that section. Accordingly, the proposed provisions regarding the prominence with which ingredient statements must appear on cream cheese and neufchatel cheese packages have been deleted from §§ 19.515 and 19.520 (21 CFR 19.515, 19.520) on the basis that these are now covered by Part I regulations and with the understanding that the Commissioner will consider appropriate petitions for exemptions pursuant to § 1.8d(e).

The Commissioner agrees that label declaration of cheese whey in liquid, concentrated, or dried form should not be required. Whey is used to standardize the fat and moisture contents of the finished foods prior to packaging, and is added back to the cheeses only in those cases where too much whey was drained away in the make process. Therefore, the declaration of added whey would seem to indicate a compositional difference in the finished product, when in fact no such difference exists.

When the cream cheese standard was amended to list liquid, concentrated, dried, and reconstituted cheese whey as optional dairy ingredients (34 FR 14070, September 5, 1969), no such amendment of the neufchatel cheese standard was petitioned for. However, the practice of adding back whey to standardize the fat and moisture content of the curd from which too much whey has been drained is as necessary with neufchatel cheese as it is with cream cheese. We have therefore amended the neufchatel cheese standard to make it consistent with the cream cheese standard.

The cream cheese standard in § 19.515 (b)(1) states that cream cheese curd is made from cream or a mixture of cream

with one or more of the other dairy ingredients listed in § 19.515(b)(3). The current practice is to make cream cheese curd from a mixture of dairy ingredients, such mixture having a fat content ranging from 10-14 percent. In the hot-pack method of cream cheese manufacture, the curd may be made from milk or a dairy ingredient mixture containing from 4-6 percent fat, and then blended with a high fat content cream to standardize the fat level of the finished product. Therefore, in order to fully inform consumers about ingredients used in the manufacture of cream cheese and to reflect current industry practice, the Commissioner concludes that § 19.515 (b) and (c) should be amended to make cream having a minimum of 18 percent milkfat and plastic cream optional ingredients of cream cheese curd, and that § 19.515 (c) should be amended to require that cream used in cream cheese manufacture be declared as an ingredient. Changes have been made in the neufchatel cheese standard so that it corresponds to the cream cheese standard as amended.

On the basis of the information given in the proposal, the comments received, and other relevant information, the Commissioner concludes that it will promote honesty and fair dealing in the interest of consumers to adopt the modified proposal, as set forth below. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sections 401, 701, 52 Stat. 1046, 1055-1056, as amended 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to the Commissioner (21 CFR 2.120): *It is ordered*, that Part 19 be amended as follows:

1. In § 19.515 by revising paragraphs (b) and (c), as follows:

§ 19.515 Cream cheese; identity; label statement of optional ingredients.

(b)(1) One or a mixture of two or more of the dairy ingredients specified in subparagraph (3) of this paragraph is pasteurized and may be homogenized. To such ingredient or mixture harmless lactic-acid-producing bacteria, with or without rennet, or other safe and suitable milk-clotting enzyme that produces equivalent curd formation, or both, are added and it is held until it becomes coagulated. The coagulated mass may be warmed; it may be stirred; it is then drained. The moisture content may be adjusted with cheese whey, concentrated cheese whey, dried cheese whey, or reconstituted cheese whey prepared by addition of water to concentrated cheese whey or dried cheese whey. The curd may be pressed, chilled, worked, seasoned with salt; it may be heated, with or without addition of one or more of the dairy ingredients specified in subparagraph (3) of this paragraph, until it becomes fluid, and it may then be homogenized or otherwise mixed.

(2)(i) In the preparation of cream cheese, one or any mixture of two or more of the optional ingredients gum karaya, gum tragacanth, carob bean gum, guar gum, carrageenan, gelatin,

algin (sodium alginate), propylene glycol alginate, or xanthan gum may be used; but the quantity of any such ingredient or mixture is such that the total weight of solids contained therein is not more than 0.5 percent by weight of the finished cream cheese.

(ii) (3) The dairy ingredients referred to in subparagraph (1) of this paragraph are cream, plastic cream, milk, skim milk, concentrated milk, concentrated skim milk, and nonfat dry milk. If concentrated milk, concentrated skim milk, or nonfat dry milk is used, water may be added in a quantity not in excess of that removed when the milk or skim milk was concentrated or dried.

(c) When used in the food, salt, bacterial culture, and enzymes as provided for in paragraph (b)(1) of this section and each of the ingredients listed in paragraph (b)(2) and (3) of this section shall be declared by common name on the label as required by the applicable sections of Part I of this chapter except that:

(1) Any cream as defined in Part 18 of this chapter and plastic cream may be declared as "cream".

(2) Concentrated milk and reconstituted milk prepared by addition of water to concentrated milk may be declared as "milk".

(3) Concentrated skim milk, nonfat dry milk, and reconstituted skim milk prepared by addition of water to concentrated skim milk or nonfat dry milk may be declared as "skim milk".

(4) Bacterial cultures may be declared as "cheese culture" or by the word "cultured" followed by the name of the substrate, e.g., "made from cultured cream".

(5) Milk clotting enzymes may be declared by the word "enzymes".

2. In § 19.520 by revising paragraphs (b) and (c) as follows:

§ 19.520 Neufchatel cheese; identity; label statement of optional ingredients.

(b)(1) One or a mixture of two or more of the dairy ingredients specified in subparagraph (3) of this paragraph is pasteurized and may be homogenized. To such ingredient or mixture harmless lactic-acid-producing bacteria, with or without rennet, or other safe and suitable milk-clotting enzyme that produces equivalent curd formation, or both, are added and it is held until it becomes coagulated. The coagulated mass may be warmed; it may be stirred; it is then drained. The moisture content may be adjusted with cheese whey, concentrated cheese whey, dried cheese whey, or reconstituted cheese whey prepared by addition of water to concentrated cheese whey or dried cheese whey. The curd may be pressed, chilled, worked, seasoned with salt; it may be heated, with or without addition of one or more of the dairy ingredients specified in subparagraph (3) of this paragraph, until it becomes fluid, and it may then be homogenized or otherwise mixed.

(2)(i) In the preparation of neufchatel cheese, one or any mixture of two or more of the optional ingredients gum karaya, gum tragacanth, carob bean gum, guar gum, carrageenan, gelatin,

algin (sodium alginate), propylene glycol alginate, or xanthan gum may be used; but the quantity of any such ingredient or mixture is such that the total weight of solids contained therein is not more than 0.5 percent by weight of the finished neufchatel cheese.

(ii) (3) The dairy ingredients referred to in subparagraph (1) of this paragraph are cream, plastic cream, milk, skim milk, concentrated milk, concentrated skim milk, and nonfat dry milk. If concentrated milk, concentrated skim milk, or nonfat dry milk is used, water may be added in a quantity not in excess of that removed when the milk or skim milk was concentrated or dried.

(c) When used in the food, salt, bacterial culture, and enzymes as provided for in paragraph (b)(1) of this section and each of the ingredients listed in paragraph (b)(2) and (3) of this section shall be declared by common name on the label as required by the applicable sections of Part I of this chapter except that:

(1) Any cream as defined in Part 18 of this chapter and plastic cream may be declared as "cream".

(2) Concentrated milk and reconstituted milk prepared by addition of water to concentrated milk may be declared as "milk".

(3) Concentrated skim milk, nonfat dry milk, and reconstituted skim milk prepared by addition of water to concentrated skim milk or nonfat dry milk may be declared as "skim milk".

(4) Bacterial cultures may be declared as "cheese culture" or by the word "cultured" followed by the name of the substrate, e.g., "made from cultured cream".

(5) Milk clotting enzymes may be declared by the word "enzymes".

3. In § 19.775 by revising paragraph (f)(1)(i), as follows:

§ 19.775 Pasteurized process cheese spread; identity; label statement of optional ingredients.

(f)(1)(i) One or any mixture of two or more of the following: Carob bean gum, gum karaya, gum tragacanth, guar gum, gelatin, sodium carboxymethylcellulose (cellulose gum), carrageenan, oat gum, algin (sodium alginate), propylene glycol alginate, or xanthan gum. The total weight of such substances is not more than 0.8 percent of the weight of the finished food.

4. In § 19.782 by revising paragraph (a)(1)(i), as follows:

§ 19.782 Cream cheese with other foods; identity; label statement of optional ingredients.

(a)(1)(i) One or any mixture of two or more of the following optional ingredients: Gum karaya, gum tragacanth, carob bean gum, gelatin, guar gum, so-

or more of the optional ingredients gum karaya, gum tragacanth, carob bean gum, guar gum, carrageenan, gelatin, algin (sodium alginate), propylene glycol alginate, or xanthan gum may be used; but the quantity of any such ingredient or mixture is such that the total weight of solids contained therein is not more than 0.5 percent by weight of the finished neufchatel cheese.

(ii) (3) The dairy ingredients referred to in subparagraph (1) of this paragraph are cream, plastic cream, milk, skim milk, concentrated milk, concentrated skim milk, and nonfat dry milk. If concentrated milk, concentrated skim milk, or nonfat dry milk is used, water may be added in a quantity not in excess of that removed when the milk or skim milk was concentrated or dried.

(c) When used in the food, salt, bacterial culture, and enzymes as provided for in paragraph (b)(1) of this section and each of the ingredients listed in paragraph (b)(2) and (3) of this section shall be declared by common name on the label as required by the applicable sections of Part I of this chapter except that:

(1) Any cream as defined in Part 18 of this chapter and plastic cream may be declared as "cream".

(2) Concentrated milk and reconstituted milk prepared by addition of water to concentrated milk may be declared as "milk".

(3) Concentrated skim milk, nonfat dry milk, and reconstituted skim milk prepared by addition of water to concentrated skim milk or nonfat dry milk may be declared as "skim milk".

(4) Bacterial cultures may be declared as "cheese culture" or by the word "cultured" followed by the name of the substrate, e.g., "made from cultured cream".

(5) Milk clotting enzymes may be declared by the word "enzymes".

3. In § 19.775 by revising paragraph (f)(1)(i), as follows:

§ 19.775 Pasteurized process cheese spread; identity; label statement of optional ingredients.

(f)(1)(i) One or any mixture of two or more of the following: Carob bean gum, gum karaya, gum tragacanth, guar gum, gelatin, sodium carboxymethylcellulose (cellulose gum), carrageenan, oat gum, algin (sodium alginate), propylene glycol alginate, or xanthan gum. The total weight of such substances is not more than 0.8 percent of the weight of the finished food.

4. In § 19.782 by revising paragraph (a)(1)(i), as follows:

§ 19.782 Cream cheese with other foods; identity; label statement of optional ingredients.

(a)(1)(i) One or any mixture of two or more of the following optional ingredients: Gum karaya, gum tragacanth, carob bean gum, gelatin, guar gum, so-

dium carboxymethylcellulose (cellulose gum), carrageenan, oat gum, algin (sodium alginate), propylene glycol alginate, or xanthan gum. The total quantity of any such substances, including that contained in the cream cheese, is not more than 0.8 percent by weight of the finished food.

5. § 19.783 by revising paragraph (b)(1)(i), as follows:

§ 19.783 Pasteurized neufchatel cheese spread with other foods; identity; label statement of optional ingredients.

(b)(1)(i) One or any mixture of two or more of the following: Gum karaya, gum tragacanth, carob bean gum, gelatin, algin (sodium alginate), propylene glycol alginate, guar gum, sodium carboxymethylcellulose (cellulose gum), carrageenan, oat gum, or xanthan gum. The total quantity of any such substances, including that contained in the neufchatel cheese, is not more than 0.8 percent by weight of the finished food.

6. In § 19.787 by revising paragraph (e)(8), as follows:

§ 19.787 Cold-pack cheese food; identity; label statement of optional ingredients.

(e)(8) In the preparation of cold-pack cheese food, guar gum, or xanthan gum, or both may be used, but the total quantity of such ingredient or combination is not to exceed 0.3 percent of the weight of the finished food. When one or both such optional ingredients is used, diethyl sodium sulfosuccinate complying with the requirements of § 121.1137 of this chapter may be used in a quantity not in excess of 0.5 percent by weight of such ingredient or ingredients.

Any person who will be adversely affected by the foregoing order may at anytime on or before April 13, 1973 file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

**Effective date.** Compliance with this order, which shall include any labeling changes required, may begin on May 14, 1973, and all labeling ordered after December 31, 1973, and all labeling used for products shipped in interstate commerce after December 31, 1974, shall comply with these regulations except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be published in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055-1056 as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371)

Dated: March 9, 1973.

SAM D. FINE,  
Associate Commissioner for  
Compliance.

[FR Doc. 73-4889 Filed 3-13-73; 8:45 am]

#### PART 19—CHEESES, PROCESSED CHEESES, CHEESE FOODS, CHEESE SPREADS, AND RELATED FOODS

##### Cottage Cheese Dry Curd, Cottage Cheese, and Lowfat Cottage Cheese; Standards of Identity; Direct Acidification by Vat Method With Appropriate Product Labeling

In the matter of amending the standards of identity for cottage cheese dry curd, cottage cheese, and lowfat cottage cheese (21 CFR 19.525, 19.530, and 19.531, respectively) to permit the manufacturing procedure of direct acidification by the vat method utilizing Glucono-delta-lactone with appropriate product labeling:

A notice of proposed rule making in the above-identified matter was published in the FEDERAL REGISTER of September 16, 1972 (37 FR 18924), based on a petition submitted by the Milk Industry Foundation, 910 17th Street NW., Washington, DC 20006. The petition proposed that direct acidification by the vat method, utilizing the acidulant Glucono-delta-lactone, be permitted as an alternate procedure for the production of cottage cheese dry curd, cottage cheese and lowfat cottage cheese, with appropriate product labeling. The purpose of the new procedure would be:

- (1) To eliminate bacterial starter culture failures;
- (2) To give greater product uniformity;
- (3) To increase efficiency in cheese production; and
- (4) To provide longer keeping quality to the finished product.

Eight letters of comment were received. Seven of the respondents, all of whom were producers or distributors of cottage cheese, were in favor of the proposal. The one unfavorable comment came from a consumer who considers cottage cheese dry curd to be a reasonably natural food and would not care to see anything added to it. For consumers who may share a similar opinion there is a provision in the standards that requires the label of such foods to bear appropriate designations. Therefore, the choice of accepting or rejecting such a product is made available to the consumer.

In the opinion of the Commissioner of Food and Drugs, consumers and manufacturers alike should share in the benefits anticipated from this technological development in that (1) efficiency of production should increase, (2) product uniformity should improve, and (3) shelf life should increase, all of which should help to hold down the cost of these products as a valuable food and increase its availability. This is in keeping with the legislative intent of the Food Additives Amendment of 1958 (Public Law 85-929), which indicated that the use of safe and suitable additives for the purpose of assisting the Nation to make use of advances in technology to increase and improve our food supplies was one of the primary purposes of the amendment. This matter was elaborated upon in an order amending the standard for creamed cottage cheese (21 CFR 19.530) published in the FEDERAL REGISTER on July 17, 1972 (37 FR 12065).

Having considered the information submitted by the petitioner, the comments received and other relevant material, the Commissioner concludes that it will promote honesty and fair dealing in the interest of consumers to adopt the proposal to amend the standards of identity for cottage cheese dry curd, cottage cheese, and lowfat cottage cheese as set forth below.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055-56 as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to the Commissioner (21 CFR 2.120): It is ordered, That § 19.525 be amended by adding a new subdivision (iii) to paragraph (b) (1) and revising paragraph (d); and that § 19.530(d) be revised to read as follows:

##### § 19.525 Cottage cheese dry curd; identity; identity label statement of optional ingredients.

- (b) . . . . .
- (1) . . . . .

(iii) Food grade acids as provided in subdivision (ii) of this subparagraph, D-Glucono-delta-lactone with or without rennet, and/or other safe and suitable milk clotting enzyme that produces equivalent curd formation, are added in such amounts as to reach a final pH value in the range of 4.5-4.8, and it is held until it becomes coagulated. The coagulated mass may be cut; it may be warmed; it may be stirred; it is then drained. The curd is then washed with water, and further drained. It may be pressed, chilled, worked, and seasoned with salt.

(d) When either of the optional processes described in paragraph (b) (1) (ii) or (iii) of this section is used to make cottage cheese dry curd, the label shall bear the statement "Directly set" or "Curd set by direct acidification." Wherever the name of the food appears on the label so conspicuously as to be seen under customary conditions of purchase, the statement specified in this

paragraph, showing the optional process used, shall immediately and conspicuously precede or follow such name without intervening written, printed, or graphic matter.

##### § 19.530 Cottage cheese; identity; label statement of optional ingredients.

(d) When the optional process described in § 19.525(b) (1) (ii) or (iii) is used to make the cottage cheese dry curd used in cottage cheese, the label shall bear the statement "Directly set" or "Curd set by direct acidification." Wherever the name of the food appears on the label so conspicuously as to be seen under customary conditions of purchase, the statement specified in this paragraph, showing the optional process used, shall immediately and conspicuously precede or follow such name without intervening written, printed, or graphic matter.

By cross-reference, the above amendments have the effect of providing for the optional use of Glucono-delta-lactone in the manufacture of lowfat cottage cheese (21 CFR 19.531).

Any person who will be adversely affected by the foregoing order may at any time on or before April 13, 1973 file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

**Effective date.** Compliance with this order, which shall include any labeling changes required, may begin on May 14, 1973, and all labeling ordered after December 31, 1973, and all labeling used for products shipped in interstate commerce after December 31, 1974, shall comply with these regulations except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be published in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055-1056 as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371)

Dated: March 9, 1973.

#### PART 19—CHEESES, PROCESSED CHEESES, CHEESE FOODS, CHEESE SPREADS, AND RELATED FOODS

##### Grated Cheeses; Identity Standard; Microcrystalline Cellulose as Optional Anticaking Agent

In the matter of amending the standard of identity for grated cheeses (21 CFR 19.791) to permit the optional use of microcrystalline cellulose as an anticaking agent in grated cheeses:

A notice of proposed rule making in the above-identified matter was published in the FEDERAL REGISTER of September 27, 1972 (37 FR 20183), based on a petition submitted by the National Cheese Institute, Inc., 110 North Franklin Street, Chicago, IL 60606. The petition proposed to add microcrystalline cellulose to the present list of anticaking agents used in grated cheeses. The total amount of anticaking agents that could be used would not be increased. Also the requirement that the names of anticaking agents must be declared on the label, would be retained.

Seven letters of comment were received concerning the proposal, all of which were from consumers. Two of the respondents stated they had no objections to the proposal. Two others said they thought it proper that all ingredients used in foods should be declared on the label. One respondent opposed the proposal because it was thought that the total amount of permissible anticaking agent was being increased.

Another opposed the proposal because they did not think there was a functional need for additives in foods and the final respondent opposed the proposal because they had no information as to its safety.

An analysis of these letters of comment showed that they contained no information which refutes the grounds presented by the petitioner in support of the petition or which casts doubt on the safety or functionality of the proposed anticaking agent.

In answer to the comments received, the standard already requires the names of the anticaking agents to be declared on the label when used and the total amount that can be used is limited to 2 percent. The use of microcrystalline cellulose in foods has long been established and the use of additives for functional purposes is in keeping with the legislative intent of the Food Additives Amendment of 1958 (Public Law 85-929). This matter was elaborated upon in an order amending the standard for creamed cottage cheese (21 CFR 19.530) published in the FEDERAL REGISTER on June 17, 1972 (37 FR 12065). The Commissioner has no information which would cause him to question the proposed safe use of the subject ingredient.

Having considered the information submitted by the petitioner, the comments received, and other relevant material, the Commissioner of Food and Drugs concludes that it will promote

honesty and fair dealing in the interest of consumers to adopt the proposal to amend the standard of identity for grated cheeses as set forth below.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055-1056 as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to the Commissioner (21 CFR 2.120): It is ordered, That § 19.791 be amended by revising paragraph (b) (2), as follows:

##### § 19.791 Grated cheeses; identity; label statement of optional ingredients.

- (b) . . . . .
- (2) An anticaking agent consisting of silicon dioxide (complying with the provisions of § 121.1058 of this chapter), calcium silicate (complying with the provisions of § 121.1135 of this chapter), sodium silicoaluminate, microcrystalline cellulose, or any combination of two or more of these in an amount not to exceed 2 percent by weight of the finished food.

Any person who will be adversely affected by the foregoing order may, at any time on or before April 13, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

**Effective date.** This order shall become effective May 14, 1973, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be given by publication in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055-1056 as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371)

Dated: March 8, 1973.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

[FR Doc. 73-4868 Filed 3-13-73; 8:45 am]

#### PART 121—FOOD ADDITIVES

##### Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

##### RESINOUS AND POLYMERIC COATINGS

The Commissioner of Food and Drugs, having evaluated the data in a petition (1B2648) filed by Union Carbide Corp., Chemicals and Plastics, River Road, Bound Brook, N.J. 08805, and other relevant material, concludes that the food additive regulations should be amended, as set forth below, to provide for the safe use of vinyl chloride-acetate-2,3-epoxypropyl methacrylate copolymers as a coating or as a component of coatings of articles intended for use in contact with fatty foods.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c) (1), 72 Stat. 1786; 21 U.S.C. 348(c) (1)), and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2514 is amended in subparagraph (3) (xv) of paragraph (b) by alphabetically inserting in the list of substances a new item, as follows:

##### § 121.2514 Resinous and polymeric coatings.

- (b) . . . . .
- (3) . . . . .
- (xv) Vinyl resinous substance, as the basic polymers:

Vinyl chloride - acetate - 2,3 - epoxypropyl methacrylate copolymers containing not more than 10 weight percent of total polymer units derived from 2,3-epoxypropyl methacrylate and not more than 0.1 weight percent of unreacted 2,3-epoxypropyl methacrylate monomer for use in coatings for containers intended to contact food only, of the types identified in paragraph (d) of this section, Table 1, under Categories IV-A, V, VII, and VIII.

Any person who will be adversely affected by the foregoing order may at any time on or before April 13, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

**Effective date.** This order shall become effective on March 14, 1973.  
(Sec. 406(c)(1), 72 Stat. 1786; 21 U.S.C. 348 (c)(1))

Dated: March 7, 1973.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

[FR Doc. 73-4867: Filed 3-13-73; 8:45 am]

#### SUBCHAPTER C—DRUGS

#### PART 135—NEW ANIMAL DRUGS Subpart C—Sponsors of Approved Applications

#### PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

#### PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

##### Phenylbutazone

The Commissioner of Food and Drugs has evaluated new animal drug applications (46-78V and 49-187V) filed by Anthony Veterinary Products Co., 11634 McBean Drive, El Monte, CA 91732, proposing the safe and effective use of phenylbutazone injection and phenylbutazone tablets for the treatment of horses. The applications are approved.

To facilitate referencing, the firm is being assigned a code number and placed in the list of firms in § 135.501 (21 CFR 135.501).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(1)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135, 135b, and 135c are amended as follows:

1. Section 135.501 is amended in paragraph (c) by adding a new code No. 092 as follows:

§ 135.501 Names, addresses, and code numbers of sponsors of approved applications.

(c) . . .

Code No.	Firm name and address
092	Anthony Veterinary Products Co., 11634 McBean Dr., El Monte, CA 91732.

2. Part 135b is amended in § 135b.47 by adding a new paragraph (g) as follows:

§ 135b.47 Phenylbutazone injection.

(g) (1) **Specifications.** Phenylbutazone injection contains 200 milligrams of phenylbutazone in each milliliter of sterile aqueous solution.

(2) **Sponsor.** See code No. 092 in § 135.501(c) of this chapter.

(3) **Conditions of use.** (i) The drug is indicated for the treatment of acute inflammatory conditions of horses. These include musculoskeletal conditions involving inflammation.

(ii) It is administered intravenously to horses at a dosage level of 1 to 2 grams per 1,000 pounds of animal weight per day. Administration should be limited to 5 consecutive days. An initial high dose

is recommended to obtain a prompt effect. As the symptoms regress, the dose should be reduced.

(iii) Not for use in horses intended for food.

(iv) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

3. Part 135c is amended in § 135c.57 by adding a new paragraph (g) as follows:

§ 135c.57 Phenylbutazone tablets and boluses.

(g) (1) **Specifications.** The drug is in tablet form with each tablet containing 1 gram of phenylbutazone.

(2) **Sponsor.** See code No. 092 in § 135.501(c) of this chapter.

(3) **Conditions of use.** (i) The drug is indicated for the treatment of acute inflammatory conditions of horses. These include musculoskeletal conditions involving inflammation.

(ii) It is administered orally to horses at a dosage level of 2 to 4 grams per 1,000 pounds of body weight per day. The total daily dose should be limited to 4 grams per day. Because of the relatively short half-life of the drug, administration every 8 hours is the most satisfactory schedule. If there is no significant clinical effect in 5 days, a reevaluation of the diagnosis and treatment should be made.

(iii) Not for use in horses intended for food.

(iv) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

**Effective date.** This order shall be effective March 14, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(1))

Dated: March 8, 1973.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

[FR Doc. 73-4890 Filed 3-13-73; 8:45 am]

#### PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

##### Thialbarbitone Sodium for Injection, Veterinary

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (8-932V) filed by Fort Dodge Laboratories, Fort Dodge, Iowa 50501, proposing revised labeling for the safe and effective use of thialbarbitone sodium for injection, veterinary for use as a general anesthetic in dogs, cats, horses, cattle, swine, and sheep. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(1)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135b is amended by adding a new section as follows:

§ 135b.79 Thialbarbitone sodium for injection, veterinary.

(a) **Specifications.** Thialbarbitone sodium for injection, veterinary when

reconstituted with sterile distilled water provides 94 milligrams of thialbarbitone sodium per milliliter of solution.

(b) **Sponsor.** See code No. 017 in § 135.501(c) of this chapter.

(c) **Conditions of use.** (1) The drug is administered as a general anesthetic in surgical procedures on dogs, cats, swine, sheep, cattle, and horses. The drug is used for procedures of relatively short duration. However, the period of anesthesia can be lengthened by slower initial injection and supplemental administration during surgery.

(2) It is administered intravenously. The drug is injected slowly to dogs, cats, cattle, sheep, and swine. For horses, it is recommended that a pre-anesthetic sedation be administered to the horse 30 minutes before the drug is administered. The drug is then injected rapidly and completely. The drug is used at the following dosage levels:

Species	Weight of animal in pounds	Dosage in milligrams per pound
Dog	Over 50	14.1
Do	30-50	18.8
Do	10-30	23.5
Do	Under 10	28.2
Cat		31.3
Horse		6.3-7.5
Cattle and swine		6.7-9.1
Calves and sheep		9.1-11.8

(3) Federal Law restricts this drug to use by or on the order of a licensed veterinarian.

**Effective date.** This order shall be effective on March 14, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(1))

Dated: March 7, 1973.

C. D. VAN HOUWELING,  
Director, Bureau of  
Veterinary Medicine.

[FR Doc. 73-4722 Filed 3-13-73; 8:45 am]

#### PART 135c—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

##### Coumaphos

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (15-965V) filed by Chemagro, Division of Baychem Corp., Post Office Box 4913, Kansas City, MO 64120, proposing revisions in use of coumaphos for beef and dairy cattle for control of gastrointestinal roundworms. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(1)) and under authority delegated to the Commissioner (21 CFR 2.120), section 135c.39 is amended in paragraph (f) by revising item 2 in the table to read as follows:

§ 135c.39 Coumaphos.

(f) **Conditions of use.** It is used as follows:

Amount	Limitations	Indications for use
0.0002 lb. (0.091 g) in 100 lb. of feed per day.	For beef and dairy cattle; feed 0.0002 lb. (0.091 g) in the normal grain ration to which the animals are accustomed but not in rations containing more than 0.1 percent coumaphos; do not feed to animals less than 100 lb. body weight; do not feed to pregnant animals under stress, such as those just shipped, deboned, estrated, or weaned within the last 3 weeks; do not feed in conjunction with oral drenches containing ivermectin; do not administer to animals in conditions warranting repeat treatment at 30-day intervals.	Control of gastrointestinal roundworms in horses (Haemon- othes spp., Ostertagia spp., Nematodirus spp., Trichostrongylus spp.).

**Effective date.** This order shall be effective on March 14, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(1))

Dated: March 7, 1973.

C. D. VAN HOUWELING,  
Director, Bureau of  
Veterinary Medicine.

[FR Doc. 73-4723 Filed 3-13-73; 8:45 am]

#### CARBENICILLIN INDANYL SODIUM

The Commissioner of Food and Drugs has evaluated data submitted in accordance with regulations promulgated under section 507 of the Federal Food, Drug, and Cosmetic Act, as amended, with respect to approval of the antibiotic drug carbenicillin indanyl sodium. The Commissioner concludes that data supplied by the manufacturer concerning the subject antibiotic drug is adequate to establish its safety and efficacy when used as directed in the labeling and

Antibiotic drug	Diluent (diluent number as indicated in § 141.3)	Concentration in milligrams per milliliter	Volume in milliliters administered to each mouse	Route of administration as described in paragraph (b) of this section
Carbenicillin indanyl sodium	3	100	0.5	Oral

b. By adding two new sections, as follows:

§ 141.522 Polarimetric assay of carbenicillin indanyl sodium.  
(a) **Equipment.** Polarimeter capable of measuring optical rotatory activity at 365 nanometers. Perkin-Elmer Model

just the pH to 6.0 with 6N hydrochloric acid. Dilute to 1,000 milliliters with distilled water.

(c) **Preparation of carbenicillin indanyl sodium sample and working standard solutions.** Accurately weigh approximately 135 milligrams of the carbenicillin indanyl sodium sample or working standard into a 25-milliliter volumetric flask. Dissolve and dilute to volume with distilled water. Transfer a 5-milliliter aliquot to a 50-milliliter glass-stoppered centrifuge tube. Add 15 milliliters of the phosphate-citrate buffer and 20 milliliters of 4-methyl-2-pentanone; stopper and shake the tube for 10 seconds. Centrifuge at 2,000 revolutions per minute for 10 minutes to separate the phases. Remove about 15 milliliters of the upper (4-methyl-2-pentanone solvent) phase and proceed as directed in paragraph (e) of this section.

(d) **Preparation of the blank.** Place a 5-milliliter aliquot of distilled water into

Micrograms of carbenicillin in each milliliter of sample solution =  $\frac{\text{Degrees of rotation of sample} \times \text{Weight of sample (mg)}}{\text{Degrees of rotation of working standard solution} \times \text{Weight of sample (mg)}}$

where: "m" = moisture content of the sample.

§ 141.555 Thin layer chromatography identity test for carbenicillin indanyl.

Using the sample solution prepared as described in the section for the antibiotic drug to be tested, proceed as described in paragraphs (a), (b), (c), and (d) of this section.

(a) **Equipment.** (1) Chromatography tank. A rectangular tank, approximately 9 x 9 x 3.5 inches lined with filter paper (3 millimeters in thickness).

(2) **Iodine vapor chamber.** A rectangular tank approximately 9 x 9 x 3.5 inches, with a suitable cover, containing iodine crystals.

(3) **Plates.** Use 20 x 20 centimeters thin layer chromatography plates coated with silica gel G or equivalent to a thickness of 250 microns.

(b) **Reagents.** (1) **Extraction solvent.** Mix ethyl acetate, acetone, pyridine, water, and acetic acid in volumetric proportions of 100:300:25:75:15 respectively.

(2) **Developing solvent.** Mix ethyl acetate, acetone, pyridine, water, and

acetic acid in volumetric proportions of 300:400:25:75:25 respectively.

(3) **Ferric chloride-potassium ferricyanide reagent.** Immediately before use, mix 100 milliliters of a 1 percent ferric chloride solution in 1 percent hydrochloric acid with 100 milliliters of a 1 percent potassium ferricyanide solution and 75 milliliters of methanol.

(c) **Preparation of working standard solution.** Weigh an amount of the carbenicillin indanyl working standard equivalent to approximately 10 milligrams of carbenicillin into a 50-milliliter Erlenmeyer flask. Dissolve the material in sufficient extraction solvent to make a solution containing 1 milligram carbenicillin per milliliter.

(d) **Procedure.** Four developing solvent into the bottom of the chromatography tank. Cover and seal the tank. Allow it to equilibrate for 1 hour. Prepare a plate as follows: On a line 2 centimeters from the base of the silica gel plate, and at intervals of 2 centimeters, spot 10 microliters of the standard solu-

## RULES AND REGULATIONS

tion and the sample solution. The plate should be air dried for 30 minutes. Place the plate into the chromatography tank. Allow the solvent front to travel about 15 centimeters from the starting line and then remove the plate from the tank. Heat the plate for 30 minutes at 80° C. in a circulating air oven and then allow the plate to cool to room temperature. Place the plate in the iodine vapor chamber for about 30 seconds, remove the plate and spray it with the ferric chloride-potassium ferricyanide reagent. Carbenicillin indanyl appears as a blue spot on a yellow-green background at an R<sub>f</sub> of about 0.5. The test is satisfactory if the sample compares qualitatively with the standard.

#### PART 145—ANTIBIOTIC DRUGS; DEFINITIONS AND INTERPRETATIVE REGULATIONS

2. Part 145 is amended:

a. In § 145.3 by adding a new subparagraph (49) to paragraph (a) and a new subparagraph (49) to paragraph (b), as follows:

#### § 145.3 Definitions of master and working standards.

(a) \* \* \*

(49) *Carbenicillin indanyl*. The term "carbenicillin indanyl master standard" means a specific lot of carbenicillin indanyl designated by the Commissioner as the standard of comparison in determining the potency of the carbenicillin indanyl working standard.

(b) \* \* \*

(49) *Carbenicillin indanyl*. The term "carbenicillin indanyl working standard" means a specific lot of a homogeneous preparation of carbenicillin indanyl.

b. In § 145.4(b) by adding a new subparagraph (52), as follows:

#### § 145.4 Definitions of the terms "unit" and "microgram" as applied to antibiotic substances.

(a) \* \* \*

(52) *Carbenicillin indanyl*. The term "microgram" applied to carbenicillin indanyl means the carbenicillin activity (potency) contained in 1.4204 micrograms of the carbenicillin indanyl master standard.

#### PART 149y—CARBENICILLIN

3. Part 149y is amended by adding the following new sections:

#### § 149y.2 Carbenicillin indanyl sodium.

(a) *Requirements for certification—*

(1) *Standards of identity, strength, quality, and purity.* Carbenicillin indanyl sodium is the monosodium salt of *N*-(2-carboxy-3,3-dimethyl-7-oxo-4-thia-1-azabicyclo [3.2.0] hept-6-yl)-2-phenyl-malonamic acid, 1-(5-indanyl) ester. It is so purified and dried that:

(i) Its potency is not less than 659 micrograms and not more than 769 micrograms of carbenicillin per milligram on an anhydrous basis at the time of certification, and not less than 630

micrograms of carbenicillin per milligram on an anhydrous basis at any time during the expiration period.

(ii) It passes the safety test.

(iii) Its moisture content is not more than 2.0 percent.

(iv) Its pH in an aqueous solution containing 100 milligrams per milliliter is not less than 5.0 nor more than 8.0.

(v) It gives a positive result to the identity test for carbenicillin indanyl sodium.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 148.3 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on the batch for potency, safety, moisture, pH, and identity.

(ii) *Samples required:* Five packages, each containing approximately 1.0 gram and one package containing approximately 2.5 grams.

(b) *Tests and methods of assay—*(1) *Potency.* Proceed as directed in § 141.522 of this chapter.

(2) *Safety.* Proceed as directed in § 141.502 of this chapter.

(3) *Moisture.* Proceed as directed in § 141.502 of this chapter.

(4) *pH.* Proceed as directed in § 141.503 of this chapter, using an aqueous solution containing 100 milligrams per milliliter.

(5) *Identity.* Proceed as directed in § 141.521 of this chapter, using the 0.5-percent potassium bromide disc prepared as described in paragraph (b) (1) of that section.

#### § 149y.11 Carbenicillin indanyl sodium tablets.

(a) *Requirements for certification—*

(1) *Standards of identity, strength, quality, and purity.* Carbenicillin indanyl sodium tablets are composed of carbenicillin indanyl sodium and one or more suitable and harmless diluents, binders, lubricants, colorings, and coating substances. Each tablet contains carbenicillin indanyl sodium equivalent to 382 milligrams of carbenicillin. Its potency is satisfactory if it contains not less than 90 percent and not more than 120 percent of the number of milligrams of car-

benicillin that it is represented to contain. Its moisture content is not more than 2.0 percent. It gives a positive identity test for carbenicillin indanyl sodium. The tablets shall disintegrate within 1 hour. The carbenicillin indanyl sodium used conforms to the standards prescribed by § 149y.2(a) (1).

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 146.2 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(a) The carbenicillin indanyl sodium used in making the batch for potency, safety, moisture, pH, and identity.

(b) The batch for potency, moisture, identity, and disintegration time.

(ii) *Samples required:*

(a) The carbenicillin indanyl sodium used in making the batch: Five packages, each containing approximately 1 gram and one package containing approximately 2.5 grams.

(b) The batch: A minimum of 36 tablets.

(b) *Tests and methods of assay—*(1) *Potency.* Proceed as directed in § 141.522 of this chapter, except:

(i) *Preparation of the sample.* Accurately weigh 20 tablets and determine the average tablet weight. Using a mortar and pestle, grind the tablets to a fine powder. Accurately weigh a portion of the powder approximately equivalent to the weight of one tablet and transfer it into a 100-milliliter volumetric flask.

Add approximately 70 milliliters of distilled water and shake the flask for 5 minutes. Dilute to volume and mix well. Transfer a 5-milliliter aliquot of the stock solution to a 50-milliliter glass-stoppered centrifuge tube. (The solution will be slightly turbid.) Add 15 milliliters of phosphate-citrate buffer and 20 milliliters of 4-methyl-2-pentanone to the tube. Stopper the tube and shake it for 10 seconds. Centrifuge at 2,000 revolutions per minute to separate the phases. Remove about 15 milliliters of the upper phase and proceed as directed in § 141.522(e) of this chapter.

(ii) *Calculations.* Calculate the carbenicillin content (potency) of the tablets as follows:

$$\frac{\text{Milligrams of carbenicillin per tablet} \times \text{Degrees rotation of sample solution} \times \text{weight of working standard} \times \text{average tablet weight} \times 100 \times \text{micrograms of carbenicillin in each milligram of the working standard}}{\text{Degrees rotation of working standard} \times \text{weight of sample} \times 25 \times 1,000}$$

where:  
100 and 25 = the volume of the sample and working standard solutions, respectively;  
1,000 = factor to correct micrograms to milligrams.

(2) *Moisture.* Proceed as directed in § 141.502 of this chapter.

(3) *Identity.* Proceed as directed in § 141.555 of this chapter, preparing the sample as follows: Using a mortar and pestle, grind a representative number of tablets into a fine powder. Dissolve a weighed amount of this powder in sufficient extraction solvent (described in § 141.555(b) (1) of this chapter) to give 10 milligrams of carbenicillin per milli-

liter. Shake the mixture for 5 minutes and promptly dilute an aliquot in extraction solvent to obtain a final concentration of 1 milligram carbenicillin per milliliter.

(4) *Disintegration time.* Proceed as directed in § 141.540 of this chapter, using the procedure described in paragraph (e) (2) of that section.

Since the conditions prerequisite to providing for certification of subject

antibiotic have been complied with and since the matter is noncontroversial in nature, notice and public procedures and delayed effective date are not prerequisites to this promulgation.

*Effective date.* This order shall be effective on March 14, 1973.

(Sec. 507, 59 Stat. 465, as amended; 21 U.S.C. 357)

Dated: March 7, 1973.

MARY A. MCENTREY,  
Assistant to the Director for  
Regulatory Affairs, Bureau of  
Drugs.

[FR Doc.73-4725: Filed 3-13-73; 8:45 am]

#### PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

##### Procaine Penicillin G in Oil

In the FEDERAL REGISTER of November 29, 1972 (37 FR 25240), the Commissioner of Food and Drugs proposed, on the basis of a petition from G. C. Handford Manufacturing Co., Post Office Box 1055, Syracuse, NY 13201, that the regulations for procaine penicillin G in oil be amended to delete the requirement that inactive ingredients be listed on the labeling for such products intended for udder instillation in cattle. The Commissioner, based on an evaluation of the petition and other available data, concluded that the exemption should be granted as requested since the inactive ingredients in such formulations are not of concern to the user and such exemption would not be contrary to the public interest. No comments were received on the proposal.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(n), (5), 82 Stat. 351; 21 U.S.C. 360b(n) (5)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 146a is amended in § 146a.45 (c) (2) (i) as follows:

1. Part 146a is amended as follows:

#### § 146a.45 Procaine penicillin G in oil.

(c) \* \* \*

(2) *It is packaged for dispensing and intended solely for veterinary use.* (i) If it does not contain adrenocorticotrophic hormone, it shall comply with subparagraph (1) of this paragraph, except in lieu of the statement "Caution: Federal law prohibits dispensing without prescription" each package shall include adequate directions and warnings for the veterinary use of the drug by the laity. If it is intended for udder instillation in cattle it shall be exempt from the requirements of § 1.106(b) (2) (v) of this chapter.

*Effective date.* This order shall become effective April 13, 1973.

No. 46—Pt. I—4

## RULES AND REGULATIONS

(Sec. 512(n), (5), 82 Stat. 351; 21 U.S.C. 360b(n) (5))

Dated: March 8, 1973.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

[FR Doc.73-4801 Filed 3-13-73; 8:45 am]

[DESI 6485]

#### PART 146e—BACITRACIN

##### Bacitracin With Phenacaine Hydrochloride Ophthalmic Ointment: Revocation of Certification

In the FEDERAL REGISTER of April 13, 1972 (37 FR 7355), the Commissioner of Food and Drugs announced (DESI 6485) the conclusions of the Food and Drug Administration following evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drug for ophthalmic use:

Bacitracin With Phenacaine Hydrochloride; The Upjohn Co., 7171 Portage Road, Kalamazoo, MI 49001 (NDA 60-734).

The notice stated that the drug was regarded as possibly effective for the labeled indications relating to use in superficial ocular infections. These indications have been reclassified as lacking substantial evidence of effectiveness in that no data have been submitted pursuant to the notice of April 13, 1972.

Accordingly, the Commissioner concludes that the antibiotic drug regulations should be amended to revoke provisions for certification or release of such antibiotic drugs for human use.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1050-1051, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under authority delegated to the Commissioner (21 CFR 2.120), Part 146e is amended in § 146e.402 by revising the second sentence in paragraph (a) to read as follows:

#### § 146e.402 Bacitracin ointment; zinc bacitracin ointment.

(a) *Standards of identity, strength, quality, and purity.* \* \* \* It may contain a suitable local anesthetic (if it is not intended for ophthalmic use), cortisone, or a suitable derivative of cortisone, one or more suitable sulfonamides, one or more suitable proteolytic enzymes, and if it is intended solely for veterinary use and is conspicuously so labeled, one or more suitable antifungal agents or rotenone. \* \* \*

Any person who will be adversely affected by the removal of any such drug from the market may file objections to this order and request a hearing, showing reasonable grounds therefor. The state-

ment of reasonable grounds and request for a hearing shall be submitted in writing on or before April 13, 1973, shall state the reasons why the antibiotic regulations should not be so amended, and shall include a well-organized and full-factual analysis of the clinical and other investigational data the objector is prepared to prove in support of his objections.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing. When it clearly appears from the data incorporated into or referred to by the objections and from the factual analysis in the request for a hearing that no genuine issue of fact precludes the action taken by this order the Commissioner will enter an order on these data, making findings and conclusions on such data.

If a hearing is requested and justified by the objections, the issues will be defined and a hearing examiner named. The provisions of Subpart F of 21 CFR Part 2 shall apply to such hearing, except as modified by 21 CFR 146.1(f), and to judicial review in accord with section 701 (f) and (g) (21 U.S.C. 371 (f) and (g)) of the Federal Food, Drug, and Cosmetic Act (35 FR 7250, May 8, 1970).

Objections and requests for a hearing should be filed (preferable in quintuplicate) with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852. Received objections and requests for a hearing may be seen in the above office during regular business hours, Monday through Friday.

*Effective date.* This order shall become effective April 23, 1973. If objections are filed, the effective date will be extended as necessary to rule thereon. In so ruling, the Commissioner will specify another effective date.

(Secs. 502, 507, 52 Stat. 1050-1051, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357)

Dated: March 9, 1973.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

[DESI 10106]

#### PART 148i—NEOMYCIN SULFATE

##### Certain Antibiotic-Containing Ophthalmic Combination Drugs: Revocation of Certification

In the FEDERAL REGISTER of October 15, 1970 (35 FR 16198), the Commissioner of Food and Drugs announced (DESI 10106) the conclusions of the Food and Drug Administration following evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study

Group, on the following combination drugs for topical ophthalmic use:

1. Statrol Ophthalmic Preparation containing neomycin sulfate, polymyxin B sulfate, and phenylephrine hydrochloride; Alcon Laboratories, Inc., 6201 South Freeway, Fort Worth, TX 76134 (NDA 11-515).

2. OP-Isophrin-AB Ophthalmic Solution containing neomycin sulfate, polymyxin B sulfate, and phenylephrine hydrochloride; Broemmel Pharmaceuticals, 1235 Sutter Street, San Francisco, CA 94109 (NDA 12-512).

3. Biomydrin Ophthalmic Solution containing neomycin sulfate, gramicidin, thonzylamine hydrochloride, boric acid, and phenylephrine hydrochloride; Warner-Chilcott Laboratories Division, Warner-Lambert Co., 201 Tabor Road, Morris Plains, NJ 07950 (NDA 10-106).

The notice stated that these drugs were regarded as possibly effective for their labeled indications. These indications have been reclassified as lacking substantial evidence of effectiveness in that such evidence has not been submitted pursuant to the notice of October 15, 1970.

Currently pending before the Administration is a new drug application submitted by Alcon Laboratories to provide for a reformulated Statrol Ophthalmic Preparation. Agency action on that new drug application will be taken upon completion of review of the data submitted.

Accordingly the Commissioner concludes that the antibiotic drug regulations should be amended to revoke provisions for certification or release of such antibiotic drugs for human use.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1050-1051, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under authority delegated to the Commissioner (21 CFR 1.120), Part 148i is amended as follows:

1. In § 148i.15 by deleting the words "solution or" in the first sentence of paragraph (a) (1), by deleting paragraphs (a) (1) (i) and (a) (1) (iii), and by redesignating paragraphs (a) (1) (ii) as (a) (1) (i) and (a) (1) (iv) as (a) (1) (ii). The section heading and subparagraph (1) of paragraph (a) are hereby revised to read as follows:

§ 148i.15 Neomycin sulfate-polymyxin B sulfate—ophthalmic suspension (the blank being filled in with the established name(s) of the other active ingredient(s) present in accordance with paragraph (a) (1) of this section).

(a) Requirements for certification—(1) Standards of identity, strength, quality, and purity. The drug is a suspension in a suitable and harmless aqueous vehicle containing, in each milliliter, neomycin sulfate, polymyxin B sulfate, and other active ingredients in the following amounts:

(i) 3.5 milligrams of neomycin, 16,250 units of polymyxin B, and either 5 milligrams or 15 milligrams of hydrocortisone acetate; or

(ii) 5 milligrams of neomycin, 15,000 units of polymyxin B, and 2.5 milligrams of hydrocortisone.

It may contain one or more suitable and harmless irrigants, dispersants, buffers, and preservatives. It is sterile. Its pH is not less than 5.0 and not more than 7.0. The neomycin sulfate used conforms to the standards prescribed by § 148i.1(a) (1) (i), (iv), (vi), and (vii). The polymyxin B sulfate used conforms to the standards prescribed by § 148p.1 (a) (1) (i), (iv), (vi), (vii), and (ix) of this chapter. Each other substance used, if its name is recognized in the U.S.P. or N.F., conforms to the standards prescribed therefor by such official compendium.

2. In § 148i.23 by deleting paragraph (a) (1) (i), by redesignating paragraphs (a) (1) (ii) as (a) (1) (i), and paragraph (a) (1) (iii) as (a) (1) (ii), and by revising subparagraph (2) of paragraph (b). Subparagraph (1) of paragraph (a), and subparagraph (2) of paragraph (b) are hereby revised to read as follows:

§ 148i.23 Neomycin sulfate-gramicidin-ophthalmic solution; neomycin sulfate-gramicidin-ophthalmic suspension (the blanks being filled in with the established name(s) of the other ingredient(s) present in accordance with paragraph (a) (1) of this section).

(a) Requirements for certification—(1) Standards of identity, strength, quality, and purity. The drug is a solution or suspension in a suitable and harmless aqueous vehicle containing, in each milliliter, the following:

(i) 2.5 milligrams of neomycin, 0.025 milligram of gramicidin, and 1 milligram of fluorocortisone acetate; or

(ii) 2.5 milligrams of neomycin, 0.025 milligram of gramicidin, and 1.14 milligrams of fluorocortisone hemisuccinate.

It may also contain suitable and harmless buffers, dispersants, irrigants, and preservatives. It is sterile. Its pH is not less than 5.0 nor more than 7.5. The neomycin sulfate used conforms to the standards prescribed by § 148i.1(a) (1) (i), (iv), (vi), and (vii). The gramicidin used conforms to the standards prescribed by § 148f.1(a) (1) (i), (ii), (iv), and (vi) of this chapter. Each other substance used, if its name is recognized in the U.S.P. or N.F., conforms to the standards prescribed therefor by such official compendium.

(b) Sterility. Proceed as directed in § 141.2 of this chapter, using the method described in paragraph (e) (2) of that section, except use 0.25 milliliter of sample in lieu of 1.0 milliliter.

Any person who will be adversely affected by the removal of any such drug from the market may file objections to this order and request a hearing, showing reasonable grounds therefor. The statement of reasonable grounds and request for a hearing shall be submitted in writing on or before April 13, 1973, shall state the reasons why the antibiotic regu-

lations should not be so amended, and shall include a well-organized and factual analysis of the clinical and other investigational data the objector is prepared to prove in support of his objections.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing. When it clearly appears from the data incorporated into or referred to by the objections and from the factual analysis in the request for a hearing that no genuine issue of fact precludes the action taken by this order the Commissioner will enter an order on these data, making findings and conclusions on such data.

If a hearing is requested and justified by the objections, the issues will be defined and a hearing examiner named. The provisions of Subpart F of 21 CFR Part 2 shall apply to such hearing, except as modified by 21 CFR 146.1(f), and to judicial review in accord with section 701 (f) and (g) (21 U.S.C. 371 (f) and (g)) of the Federal Food, Drug, and Cosmetic Act (35 FR 7250, May 8, 1970).

Objections and requests for a hearing should be filed (preferably in quintuplicate) with the Hearing Clerk, Department of Health, Education, and Welfare (CC-20), Room 6-88, 5600 Fishers Lane, Rockville, MD 20852. Received objections and requests for a hearing may be seen in the above office during regular business hours, Monday through Friday.

Effective date. This order shall become effective on April 23, 1973. If objections are filed, the effective date will be extended as necessary to rule thereon. In so ruling, the Commissioner will specify another effective date.

(Secs. 502, 507, 52 Stat. 1050-1051, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357)

Dated: March 9, 1973.

**Disallowance of Interest on Certain Indebtedness Incurred by Corporations To Acquire Stock or Assets of Another Corporation**

**Correction**

In FR Doc. 73-4097 appearing at page 5842 in the issue for Monday, March 5, 1973, in § 1.279-4(b) (1) in the ninth line from the end the following should be inserted between the words "indebtedness" and "for": "such obligation will continue to be deemed corporate acquisition indebtedness".

**Title 28—Judicial Administration**  
**CHAPTER I—DEPARTMENT OF JUSTICE**  
**[Order 504-73]**

**PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE**

**Establishing the Office of Legislative Affairs**

By virtue of the authority vested in me by 28 U.S.C. 509, 510 and 5 U.S.C. 301, there is hereby established in the Department of Justice the Office of Legislative Affairs, to be headed by an Assistant Attorney General. The functions of the Office include maintaining liaison between the Department and the Congress, reviewing and submitting departmental legislative reports, coordinating the preparation of proposed departmental legislation, and performing such other duties respecting legislative matters as may be assigned by the Attorney General or the Deputy Attorney General. Accordingly Part 0 of Chapter I of Title 28, Code of Federal Regulations, is amended as follows:

**§ 0.1 [Amended]**

1. Section 0.1 of Subpart A, which lists the organizational units of the Department, is amended by adding "Office of Legislative Affairs" immediately after "Office of Legal Counsel."

2. Section 0.15 of Subpart C, which sets forth the functions of the Deputy Attorney General, is amended by deleting paragraph (a) and revising paragraph (b) to read as follows:

**§ 0.15 Deputy Attorney General.**

(b) Generally supervise the submissions of proposed departmental legislation and reports and recommendations on pending legislation (except as provided in § 0.105(h) in response to requests of congressional committees or other agencies and on enrolled bills.

3. A new Subpart E-1 is added immediately after Subpart E, to read as follows:

**Subpart E-1—Office of Legislative Affairs**  
**§ 0.27 General functions.**

Subject to the general supervision and direction of the Attorney General, the following-described matters are assigned to, and shall be conducted, handled, or supervised by, the Assistant Attorney General in charge of the Office of Legislative Affairs:

(a) Maintaining liaison between the Department and the Congress.

(b) Reviewing, coordinating and submitting departmental legislative reports.

(c) Coordinating the preparation and submission of proposed departmental legislation.

(d) Performing such other duties respecting legislative matters as may be assigned by the Attorney General or the Deputy Attorney General.

This order is effective as of February 2, 1973.

Dated: March 5, 1973.

RICHARD G. KLEINDIENST,  
Attorney General.

**Title 33—Navigation and Navigable Waters**  
**CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION**  
**[CGD 72-230P]**

**PART 117—DRAWBRIDGE OPERATION REGULATIONS**  
**Biscayne Bay, Fla.**

This amendment changes the regulations for the Venetian Causeway drawbridges to reduce the periods that the draws may remain closed to the passage of vessels. This amendment was circulated as a public notice dated December 4, 1972, by the Commander, Seventh Coast Guard District, and was published in the Federal Register as a notice of proposed rule making (CGD 72-230P) on November 28, 1972 (37 FR 25174). Five comments were received and each endorsed the proposed change.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is

amended by revising § 117.447 to read as follows:

§ 117.447 Biscayne Bay, Fla., MacArthur Causeway, and east and west spans of the Venetian Causeway; bridges.

(a) MacArthur Causeway: The draws shall open promptly on signal, however, from November 1 through April 30 from 7 a.m. to 9 a.m. and 4:30 p.m. to 6:30 p.m. the draws need open only on the hour and half hour if any vessels are waiting to pass.

(b) West span Venetian Causeway: The draws shall open promptly on signal; however, from November 1 through April 30, from 7 a.m. to 9 a.m. and 4:30 p.m. to 6:30 p.m., Monday through Friday, the draws need open only on the hour and half hour if any vessels are waiting to pass. The draws shall open promptly on signal on Thanksgiving, Christmas, New Year's Day, and Washington's Birthday.

(c) East Span Venetian Causeway: The draws shall open promptly on signal; however, the draws need not open from November 1 through April 30, from 7:15 a.m. to 8:45 a.m. and 4:45 p.m. to 6:15 p.m., Monday through Friday, except that the draws shall open at 7:45 a.m., 8:15 a.m., 5:15 p.m., and 5:45 p.m., if any vessels are waiting to pass during this period. The draws shall open promptly on signal on Thanksgiving, Christmas, New Year's Day, and Washington's Birthday.

(d) The draws of these bridges shall open at any time for passage of public vessels of the United States, tugs with tows, regularly scheduled cruise boats and vessels in distress. The opening signal from these vessels shall be four blasts of a whistle, horn, other sound producing device, or by shouting.

(e) The owner of or agency controlling the bridges shall post notices containing the substance of these regulations, both upstream and downstream, on the bridges or elsewhere, in such a manner that they can easily be read at all times from an approaching vessel.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g) (2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1855(g) (2); 49 CFR 1.46(c) (5), 33 CFR 1.06-1(c) (4))

Effective date. This revision shall become effective on May 1, 1973.

Dated: March 8, 1973.

W. M. BENKERT,  
Rear Admiral, U.S. Coast Guard,  
Chief, Office of Marine Environment and Systems.

**Title 39—Postal Service**  
**CHAPTER I—U.S. POSTAL SERVICE**  
**PART 145—PERMIT IMPRINTS**

**Experimental Methods of Paying Postage**

The Postal Service has changed its regulations so as to provide for the establishment of experiments to evaluate new methods of payment of postage.

Accordingly, § 145.9 is added, effective on March 14, 1973, to read as follows:

§ 145.9 Experimental negotiated procedures.

Notwithstanding any other provision of the regulations of the Postal Service, the Mail Classification Division may authorize contracts with individual mailers to provide for experimental methods of paying postage whenever the adoption of such methods would be in the best interests of the Postal Service. Such contracts may provide for surcharges to cover damages suffered by the Postal Service from the incorrect payment of postage.

Title 45—Public Welfare  
CHAPTER X—OFFICE OF ECONOMIC OPPORTUNITY

PART 1067—FUNDING OF COMMUNITY ACTION PROGRAMS

Subpart 1067.3—Control Over Cash in the Hands of Grantees

Subpart 1067.4—Grant Processing Instructions During the OEO Phaseout Period

Subpart 1067.5—Additional Funding Instructions

Subpart 1067.6—Funding Periods for Grant Actions

Notice is hereby given that the regulations set forth below are promulgated as interim regulations by the Acting Director of the Office of Economic Opportunity. As a result of the prospective delegation of certain programs to other Federal departments, prospective funding changes, and changes in the management and administration of certain programs, the Office of Economic Opportunity has been required to institute emergency guidelines and instructions in advance of 30-day prior notice in the FEDERAL REGISTER. Accordingly, the regulations published below are effective on the dates indicated therein. Moreover, in view of the nature of the problems which these regulations are designed to remedy, having been advised by counsel, I find that to publish them in the FEDERAL REGISTER 30 days prior to their effective date would be impracticable and contrary to the public interest.

The regulations below will remain in effect unless and until superseded by permanent regulations published in the FEDERAL REGISTER. Interested persons wishing to comment before permanent regulations are promulgated may submit written data, views, and comments by mailing them to the Acting Director, Policy Regulation, Office of Program Review, Office of Economic Opportunity, 1200 19th Street NW., Washington, DC 20506, in time to arrive on or before April 15, 1973.

After careful consideration is given to all relevant material submitted, and to such other information as may be avail-

able, the Acting Director of OEO may modify these interim regulations as he deems appropriate and publish them as permanent regulations in the FEDERAL REGISTER.

Chapter X of Title 45 of the Code of Federal Regulations is amended by adding four new subparts, reading as follows:

Subpart 1067.3—Control Over Cash in the Hands of Grantees

Sec.  
1067.3-1 Applicability of this subpart.  
1067.3-2 Policy.  
1067.3-3 Effective date.

AUTHORITY: Sec. 602(n), 78 Stat. 530; 42 U.S.C. 2942.

Subpart 1067.3—Control Over Cash in the Hands of Grantees

§ 1067.3-1 Applicability of this subpart. This subpart applies to grantees receiving financial assistance under titles II, III-B and VII of the Economic Opportunity Act of 1964, as amended, when the assistance is administered by OEO.

§ 1067.3-2 Policy.

The provisions of OEO Instruction 6714-1 concerning Letter of Credit withdrawals will be strictly observed. In no case will a grantee exceed a 30-day cash requirement. Those grantees demonstrating excessive drawdowns will have their Letters of Credit revoked. There will be no further utilization of the Letter of Credit method for advancing Federal funds to grantees. Future funding will be accomplished on a monthly check issuance basis. All advances previously scheduled upon a quarterly check issuance basis are revised accordingly.

§ 1067.3-3 Effective date.

This subpart is effective on February 8, 1973.

Subpart 1067.4—Grant Processing Instruction During the OEO Phaseout Period

Sec.  
1067.4-1 Purpose.  
1067.4-2 Applicability.  
1067.4-3 Effective date.  
1067.4-4 Policy.  
1067.4-5 Procedures.

AUTHORITY: Sec. 602(n), 78 Stat. 530 42 U.S.C. 2942.

Subpart 1067.4—Grant Processing Instruction During the OEO Phaseout Period

§ 1067.4-1 Purpose.

The purpose of this subpart is to establish detailed procedures to be used in processing OEO grants during the phaseout period of the agency. These procedures serve to amplify the general guidelines previously provided.

§ 1067.4-2 Applicability.

This subpart applies to all OEO Headquarters and Regional Offices funding grants under the Economic Opportunity Act of 1964, as amended.

§ 1067.4-3 Effective date.

This subpart is effective on February 8, 1973.

§ 1067.4-4 Policy.

(a) In view of the recent decision to transfer functions, phase out this agency,

and terminate all funding by June 30, 1973, revised funding procedures are being issued to establish Headquarters control and assure an orderly transition and continuation of operations. As part of this effort, all grants must be submitted to the OEO Headquarters for review and approval by the Acting Director of OEO before funds may be obligated. For refunding the amount of funds requested must not exceed the current average monthly level of funding for the grantee for which funds are being requested. Grant packages that request funding in excess of this average funding level will not be accepted for review by the Acting Director of OEO, and will be returned to the originating office.

(b) Grant packages submitted to the Acting Director must contain all audit and evaluation reports dated within 18 months prior to the date of submission of the grant package to the Office of the Acting Director, together with a statement signed by both the OEO project manager and his supervisor indicating in detail what actions were (were not) taken with respect to each recommendation or problem area contained in such reports and the reasons for such action (inaction). No grant package will be accepted by the Acting Director without such a statement.

(c) If an audit or an evaluation has not been performed during the 18-month period referred to above, the grant package must contain a statement to this effect along with the reasons for such.

§ 1067.4-5 Procedures.

(a) Submission of grant packages to the Central Grants Control Branch, OEO Headquarters. (1) All Headquarters and Regionally processed grant packages will be processed in accordance with existing OEO procedures up to the point where they are ready for the final Assistant, Associate, or Regional Director's signoff.

(2) Grants ready for final signoff must be submitted prior to such signoff to the Acting Director of OEO for his approval and signature on the OEO Form 314. This should be done at least 60 days, but in no event less than 30 days prior to the end of the current funding period.

(i) The grants shall be submitted in two parts under one cover, together with an index of contents of each part. Grants submitted from Regional Offices shall be mailed to OEO (via pouch mail to minimize travel time) and shall be addressed to the Central Grants Control Branch, Office of Grants and Contracts Review, OEO, 1200 19th Street NW., Washington, DC 20506, and shall be labeled "Grant Package Expedite."

(3) The contents of Part I of each grant package must contain a highlight statement and the proposed OEO Form 314, Statement of OEO Grant. All grants expected to be the final awards to a particular grantee must contain a termination date in column 12 of OEO Form 314. Part I shall also contain the following, plus such other papers as may be appropriate:

(i) CAP Form 29, Special Conditions.  
(ii) OEO Form 301, Summary of Grant Application (for applications re-

ceived in accordance with OEO Instruction 7570-1, dated January 7, 1972).

(iii) CAP Form 10, Highlight Memorandum.

(iv) An analysis which relates the grantee's current monthly level of expenditures reported during the last 12 months to be projected average monthly funding levels contained in the grant package. In no event shall the recommended monthly funding level exceed the grantee's average monthly expenditure rate for the past 12 months. The analysis should be in the following format:

Total expenditures (prior 12 months)...	XXX
Average expenditures per month.....	XXX
Proposed funding per grant action.....	XXX
Projected average monthly funding level.....	XXX

(v) Copies of all audit, and evaluation reports together with a statement indicating what actions were (were not) taken with respect to each recommendation or problem area contained in such reports and the reasons for such action (inaction).

(vi) A certification as follows:

I hereby certify that funds are available for (identify the grant action as it will be recorded on Agency ledgers) (signed) \_\_\_\_\_ Regional Director.

(b) Receipt and review of grants by the Central Grants Control Branch. (1) All grants received will be logged in, indicating the date received and the submitting Headquarters or Regional Office.

(2) The Central Grants Control Branch will review the grant package to assure that it is complete. A determination will be made as to whether or not the package has been properly submitted in two parts, as specified above, and that it includes all required forms and statements. Incorrectly submitted Headquarters grant packages will be returned to the Headquarters funding office for correction.

(3) Regions will be notified by TWX of those grant packages not properly submitted and the reason for their rejection to enable prompt correction of the erroneous or incomplete information.

(4) A priority will be assigned to the individual grant package by the Central Grants Control Branch to identify whether or not the grant package is a late refunding, Priority A; an on-time refunding, Priority B; an advance refunding, Priority C; or a new grant, Priority X. The priority given to the grant package will be identified on the outside of the package so that it will be readily apparent to those processing the grant.

(5) Accepted grant packages will be handcarried to the Review Branch, Office of Grants and Contracts Review for their consideration and submission to the Acting Director of OEO for his approval.

(6) Grant packages that have been reviewed and approved by the Acting Director of OEO will be returned to the Central Grants Control Branch for return to the Headquarters or Regional Offices.

(7) Upon return of the grant package, the funding office will continue the processing of the grant package in accordance with existing procedures.

Subpart 1067.5—Additional Funding Instructions

Sec.  
1067.5-1 Applicability.  
1067.5-2 Effective date.  
1067.5-3 Purpose.  
1067.5-4 Policy.

AUTHORITY: Sec. 602(n), 78 Stat. 530; 42 U.S.C. 2942.

Subpart 1067.5—Additional Funding Instructions

§ 1067.5-1 Applicability.

This subpart applies to all OEO Headquarters and Regional Offices funding grants under the Economic Opportunity Act of 1964, as amended.

§ 1067.5-2 Effective date.

This subpart is effective on February 8, 1973.

§ 1067.5-3 Purpose.

This subpart is to clarify and supersede two existing memoranda entitled Funding Instructions—I and Funding Instructions—II, both dated January 31, 1973, and respond to questions raised by various Regional Offices concerning these new policies.

§ 1067.5-4 Policy.

(a) Existing grants already obligated prior to January 28, 1973, but for which funds have not yet been released will be honored, but on a 30-day check issue basis in accordance with OEO Notice 6710-5 (Subpart 1067.3 of this part). No Letters of Credit will be issued for these grants. A grant obligation occurs when a grant is mailed to a Governor and/or grantee.

(b) For those grants which have been signed prior to January 28, 1973, but not yet sent to the Governor and/or grantee, an OEO Form 314 will be prepared for a 1-month funding period for the signature of the Acting Director. These OEO Forms 314 will be processed in accordance with the instructions in OEO Staff Instruction 6710-1, Change 8 (Subpart 1067.4 of this part).

(c) For these grants, it will also be necessary to prepare an OEO Form 314 to delete them from the 2826 Report. These grants will subsequently be reinstated on the 2826 Report by the applicable Headquarters or Regional Director for a 1-month funding period after they are approved by the Acting Director.

(d) For those grantees whose funding period ends after January 28, 1973, and before February 28, 1973, an OEO Form 314 for a 1-month funding period will be prepared and processed in accordance with OEO Staff Instruction 6710-1, Change 8 (Subpart 1067.4 of this part) if the grantee does not have sufficient funds to operate through February 28, 1973.

(e) For those grants whose funding ends after February 28, 1973, all processing should be completed as required by OEO Staff Instruction 6710-1, Change

8 (Subpart 1067.4 of this part). Note that all documents and statements required by OEO Staff Instruction 6710-1, Change 8 (Subpart 1067.4 of this part) must be completed for these grants. These grants will be retained in the applicable Headquarters or Program Office until additional instructions are received from this headquarters.

Subpart 1067.6—Funding Periods for Grant Actions

Sec.  
1067.6-1 Applicability.  
1067.6-2 Purpose.  
1067.6-3 Reinstatement of grant obligating authority of Regional Directors.  
1067.6-4 General limitation on funding periods.

1067.6-5 Grant actions signed before February 28, 1973.

1067.6-6 Specification of funding periods for project continuation grant actions.

1067.6-7 Phaseout provisions of project continuation grant actions.

1067.6-8 Supersession of prior directives.

1067.6-9 Effective date.

AUTHORITY: Sec. 602(n), 78 Stat. 530; 42 U.S.C. 2942.

Subpart 1067.6—Funding Periods for Grant Actions

§ 1067.6-1 Applicability.

This subpart applies to all OEO funding offices.

§ 1067.6-2 Purpose.

As indicated shortly after the announcement of the fiscal year 1974 budget, certain interim procedures were instituted on a 30-day basis to conclude on February 28, 1973. Subsequent to that date, the following funding procedures will be applicable within the fiscal year 1974 budget guidelines.

§ 1067.6-3 Reinstatement of grant obligating authority of Regional Directors.

The applicability of OEO Staff Instruction 6710-1, Change 8 (Subpart 1067.4 of this part) (except the limitation of funding to the grantee's current average level) to grant actions within the pre-existing authority of the Regional Directors is hereby terminated and such authority is herewith reinstated by separate delegation of authority.

§ 1067.6-4 General limitation on funding periods.

Except as stated in § 1067.6-6 hereof, no grant action for any program account shall be made with a funding period ending more than 12 months after the end of the last funding period for that program account that ended before January 1, 1973.

§ 1067.6-5 Grant actions signed before February 28, 1973.

Subject to § 1067.6-4 hereof, obligation of funds shall proceed on all grant actions signed before February 28, 1973. If the funding period of any such grant action on which the funds have not heretofore been obligated does not conform to § 1067.6-4 hereof, the grant action shall be revised to conform to that section.

## RULES AND REGULATIONS

## § 1067.6-6 Specification of funding periods for project continuation grant actions.

(a) All project continuation grant actions renewing, extending or supplementing funds provided by grant action under section 221 (except a grant action administered through the Indian Programs Branch), 226 or 228 of the Economic Opportunity Act of 1964, as amended (the Act), shall be made with a funding period of 6 months, except that such funding shall not expire before August 31, 1973, or after December 31, 1973, unless reason appears to the funding office why the grant action should be made for a shorter period. No grant action shall be made under this paragraph renewing, extending or supplementing funding provided by a grant action made or extended after the date hereof or the funding period of which expires after June 30, 1973.

(b) All project continuation grant actions renewing, extending or supplementing, without change of program account, funding provided by grant actions made (1) under section 221 of the Act and administered through the Indian Programs Branch, or (2) under sections 222, 231, 232, 312, or 314 of the Act, shall be made with a funding period expiring 12 months after the end of the funding period of the last grant action under which funds were obligated, or by which funding was extended, before the date hereof, except that such funding period shall not expire before December 31, 1973, or after June 30, 1974, unless reason appears to the funding office why the grant action should be made for a shorter period.

(c) Grant actions made under title VII of the Act for continuation of economic development projects shall be made with a funding period expiring 12 months after the end of the funding period of the last grant action under which funds were obligated, or by which funding was extended, for the economic development project before the date hereof, unless reason appears to the funding office why the grant action should be made for a shorter or longer period. If for a longer funding period, the funding period shall expire not later than June 30, 1975, or 24 months after the end of the funding period of the last grant action under which funds were obligated, or by which funding was extended, before the date hereof, whichever is earlier. "Economic development project" means a project for which the last grant action under which funds were obligated before the date hereof was (1) made under title I-D or title VII of the Act or (2) made by a Headquarters funding office under section 232 of the Act for Program Account 84 and provided funds under budget category 2.5 specifically for investment of provided funds for the administration of a project for which funds had previously been so provided.

(d) Grant actions renewing, extending or supplementing funding provided by grant action under section 230 of the Act shall not be made without the specific written approval of the Acting Director.

(e) The specification of funding periods

in this § 1067.6-6 applies only to projects for which the funding office considers it appropriate to provide funding for project continuation. In the case of all other projects the funding period shall comprise only the period of time necessary to phase out the Federal interest and to secure the return of funds due to the Government and the proper disposition of property subject to Government disposition.

## § 1067.6-7 Phaseout provisions of project continuation grant actions.

Any grant action expected to be the final grant action for a program account must have a termination date in column 12 of the OEO Form 314 and must contain appropriate terms to secure an orderly phaseout and the return of funds due to the Government and proper disposition of property subject to Government disposition. It is expected that an OEO staff instruction will be issued soon identifying the grant actions, by sections of the Act or program accounts, that must be terminal grant actions and prescribing required provisions for them. At present all grant actions made under section 221 of the Act, except grant actions renewing, extending, or supplementing funding provided by grant actions administered through the Indian Programs Branch, are identified as required to be terminal grant actions.

## § 1067.6-8 Supersession of prior directives.

Except as noted in § 1067.6-3 hereof, Subparts 1067.4 and 1067.5 of this part are hereby superseded.

## § 1067.6-9 Effective date.

This subpart shall be effective on March 1, 1973.

HOWARD PHILLIPS,  
Acting Director.

[FR Doc. 73-4872 Filed 3-13-73; 8:45 am]

## PART 1069—COMMUNITY ACTION PROGRAM GRANTEE PERSONNEL MANAGEMENT

## Subpart 1069.5—Policy Guidance on Lobbying Activities (OEO Instruction 6907-01)

This subpart, except for § 1069.5-2(a) (5), was published essentially as it now appears on June 10, 1967, by the Office of Economic Opportunity as Community Action Memorandum No. 66, to become effective on June 20, 1967. When OEO's system of directives was reorganized, it became OEO Instruction 6907-01. It was not published in the Federal Register.

On February 9, 1973, OEO Instruction 6907-01 was amended by adding thereto § 1069.5-2(a) (5) of this subpart. However, the Office of Economic Opportunity was not able to publish this amendment to OEO Instruction 6907-01 in the Federal Register 30 days prior to its effective date. Accordingly, the amendment contained in § 1069.5-2(a) (5) is effective February 9, 1973. In view of the emergency nature of the problem which this amendment is designed to remedy, having been advised by counsel, I find that to publish it in the Federal Register 30 days prior to its effective date would be

impracticable and contrary to the public interest.

OEO Instruction 6907-01, as amended, is published herewith in its entirety. It forbids the use of OEO grant funds, as well as non-Federal share in support thereof, if any, to be used for certain specified lobbying activities. In particular, § 1069.5-2(a) (5) forbids such funds to be used to pay dues to or otherwise support any organization or group which devotes any of its resources to any activity whose purpose is to influence legislation or politicize.

Part 1069 of Chapter X of Title 45 of the Code of Federal Regulations is revised by adding a new Subpart 1069.5 as follows:

## Subpart 1069.5—Policy Guidance on Lobbying Activities (OEO Instruction 6907-01)

Sec.  
1069.5-1 Applicability of this subpart.  
1069.5-2 Purpose of this subpart.  
1069.5-3 Effective date.

AUTHORITY: Sec. 602(n), 78 Stat. 530; 42 U.S.C. 2942.

## Subpart 1069.5—Policy Guidance on Lobbying Activities (OEO Instruction 6907-01)

## § 1069.5-1 Applicability of this subpart.

This subpart applies to all grants made under the authority of titles II, III-B and VII of the Economic Opportunity Act of 1964, as amended, if the assistance is administered by OEO.

## § 1069.5-2 Purpose of this subpart.

Many of the problems which cause or aggravate poverty are bound up with harsh or outmoded laws. Others can be most effectively attacked by the passage of new legislation. Community action is thus inevitably concerned with the shape of the laws which affect the poor. On the other hand, there are necessarily very sharp limitations on the use of project funds by grantee and delegate agencies to influence the passage or defeat of legislation. Moreover, there are certain kinds of lobbying which interfere with the work of legislatures and thus impair the basic processes of democratic self-government. The primary purpose of this support is to identify essential restrictions on lobbying activities by grantees and delegate agencies that receive OEO funds under titles II, III-B, and VII of the Economic Opportunity Act. The subpart also serves as a reminder that under Federal (and many State) tax laws, private nonprofit agencies may endanger their capacity to receive tax-deductible contributions if they engage in substantial lobbying activities.

(a) *Restrictions on lobbying with project funds.* Project funds may not be used to support any of the following:

(1) Any activity which is planned and carried out in such a manner as to disrupt the orderly conduct of business by Congress or any other legislative body. This includes, but is not limited to, any disruptive action carried on in the chambers of Congress or any other legislative body or in any capitol or legislative office building.

(2) Any demonstration, rally, picketing, or other form of direct action aimed at the family or home of a member of

a legislative body for the purpose of influencing his actions as a member of that body.

(3) Any campaign of advertising carried on through commercial media for the purpose of influencing the passage or defeat of legislation.

(4) Any campaign of letter writing, of other mass communications, or of mass visits to individual members of Congress or State legislatures for the purpose of influencing the passage or defeat of legislation. This restriction does not prohibit purely informational and educational activities involving target areas and groups.

(5) Project funds may not be used to pay dues or to support any organization or group which devotes or contributes any of its resources from whatever source to any activity, the purpose of which is to influence legislation or to politicize. For purposes of the above, the amount of resources devoted to such activity is immaterial.

These restrictions on use of project funds apply to Federal and matching non-Federal shares of approved program budgets under titles II, III-B and VII of the Economic Opportunity Act and include the use of equipment, material,

## RULES AND REGULATIONS

and facilities and employee time and services which are either paid for with project funds or contributed to project funds. These restrictions are not intended to limit the rights of individuals to express their personal views on public issues so long as they do so in their capacity as private citizens rather than employees. Nor are they intended to limit the freedom of local agencies to express their views on legislation so long as project funds are not used in violation of the foregoing limitations.

(b) *Reminder concerning tax implications of lobbying.* Under Federal income, estate, and gift tax laws, gifts made to private nonprofit organizations which devote a substantial part of their activities to carrying on propaganda or other activities aimed at influencing legislation, are not considered tax deductible "charitable contributions." This applies not only to Federal and State legislation but also to the legislative actions of county and city councils and similar local bodies. Many State tax laws contain similar provisions.

(1) In view of these tax laws, private nonprofit grantee and delegate agencies should bear in mind that if they devote

any substantial part of their activities to lobbying efforts, they may be endangering their ability to receive tax-deductible contributions. Such contributions may represent an important means of providing the non-Federal share required in programs assisted under sections 221 and 222(a) of the Economic Opportunity Act. They also enable many local agencies to carry out other programs of assistance to the poor, apart from the Act.

(2) There are no published rules defining what is meant under the Federal tax laws by the term "substantial" lobbying activities. In cases of doubt local agencies should seek private tax counsel or contact the nearest field offices of the Internal Revenue Service and State tax authorities.

## § 1069.5-3 Effective date.

Section 1069.5-2(a) (5) of this subpart is effective on February 9, 1973. The other portions of this subpart took effect on June 20, 1967.

HOWARD PHILLIPS,  
Acting Director.

[FR Doc. 73-4871 Filed 3-13-73; 8:45 am]

## Proposed Rule Making

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

### DEPARTMENT OF AGRICULTURE Animal and Plant Health Inspection Service [9 CFR Part 319]

#### FRANKFURTERS AND CERTAIN OTHER COOKED SAUSAGE PRODUCTS Substitute Proposal for Standards

*Statement of considerations.* On December 23, 1972, there appeared in the FEDERAL REGISTER (37 FR 28430) a notice of proposed rule making under the Federal Meat Inspection Act (21 U.S.C. 601 et seq.) to amend the standard for frankfurters and certain other cooked sausage products to designate different ingredient and labeling requirements for the specified kinds of cooked sausages. A notice on the same subject, to correct typographical errors in the December 23 notice, was published in the December 28, 1972, FEDERAL REGISTER (37 FR 28636). This document contains a substitute proposal for such standards.

The proposal in the notice was to provide for implementation of the order of the U.S. District Court for the District of Columbia as modified by the U.S. Court of Appeals for the District of Columbia in the case of *Federation of Homemakers v. Earl L. Butz, et al.* (No. 71-1611). The order, as modified, enjoins the Department from permitting the term "All Meat" or "All (Species)" to be included on labels for sausages within the meaning of § 319.180 of the Federal meat inspection regulations, and requires the Secretary "to develop, prescribe and submit to the District Court revised labels that accurately and without deception distinguish the different types of frankfurters from each other and from competitive meats." Compliance with the principal provisions of the order was originally required by March 19, 1973, but this period was later extended by the District Court for 180 days, i.e. from March 6, 1973, through September 2, 1973. In order to comply with such order, it is necessary to consider what ingredients will be permitted in the various sausage products, so that a proper decision can be made with respect to their labeling. In that connection, the notice sought comments on the ingredients to be included in the various cooked sausages, including the merits of a standard that would ban byproducts from cooked sausages and require that they be made from skeletal muscle meat with, optionally, up to 15 percent poultry meat. Background information concerning the proposal was included in the notice.

A total in excess of 3,100 written submissions with views and opinions on the proposal were received during the 60-day comment period provided for in the no-

tices and which expired February 21, 1973. The comments were principally from consumers (including a significant number of consumer comments with multiple signatures) and meatpackers or their trade associations but some were also submitted by State government officials, organizations representing consumers in several localities, poultry processors and poultry trade organizations, and food scientists associated with a number of universities.

Considerable information on the nutritional values of various meats and meat byproducts, along with comparative costs of such items and consumer products in which they are ingredients, was presented with a number of the comments in support of the views and arguments expressed therein.

The proposal to discontinue the label usage of the term "All Meat" or "All (Species)," in accordance with the court orders, received but limited attention in the comments with nearly a total absence of opposition. The comments on the proposed ingredients to be included in the various cooked sausages were varied in nature but generally could be grouped as follows:

1. Agreement with the composition requirements contained in the proposal.

2. Opposition to any change in the current standard for the cooked sausages as related to permitted ingredients, and a recommendation that byproducts continue to be acceptable in cooked sausage formulas with explicit requirements included in the standard to provide prominent, distinctive, and informative labeling of the products, to assure that such ingredients are effectively identified.

The objections expressed in the comments to proposed changes in current cooked sausage ingredient requirements or in support of provisions to permit the continued use of byproducts in such products were generally based on the following suppositions:

1. The interest in changing such ingredient restrictions has been generated by a relatively few vocally effective individuals or groups whose efforts have distorted the perspective of the matter considerably, and the opinions of the majority of consumers are not represented.

2. Byproducts are nutritious and wholesome and have been traditional ingredients of frankfurters and similar cooked sausages. The present opposition to their usage is based on esthetics and has no relationship to the nature of such ingredients and their contributions of value to the nutrition, taste, and texture of the consumer products. The opinion was frequently stated that standards should not be used to control matters of

esthetics. Such judgments should, it was indicated, be made by individual consumers through informative labeling.

3. The use of byproducts provides cooked sausages with protein content that is significant and of benefit to the diets of many consumers of limited income. The elimination of the byproducts would adversely hinder such persons and families in preparing nutritionally adequate meals.

The views and opinions expressed in the comments indicate that the public generally considers byproducts to be nutritious and wholesome; that there is an awareness that various kinds of byproducts have been traditional ingredients of products such as frankfurters, wieners, bologna, and garlic bologna. It appears from the comments, also, that the public considers hearts and tongues to be byproducts when used as ingredients of cooked sausages. It further appears that the term "variety meats" has significant meaning through long-time usage as a class designation for byproducts in a number of geographical areas.

The comments which suggested that an additional identification be provided by regulation to allow for the use of byproducts in cooked sausages that would be distinctively labeled, were based mainly on the following contentions:

1. A ban on byproducts would increase the selling price of the sausages which would most profoundly affect low-income families and further reduce their access to nutritionally beneficial protein foods.

2. Analytical data show that sausages containing nonskeletal meat products are nutritionally equivalent and not infrequently superior to similar products that contain only skeletal meat.

3. A ban on byproducts would greatly stimulate competition for muscle meat and aggravate an already serious scarcity problem, both domestically and worldwide, resulting in increased prices for raw materials and subsequently consumer products.

4. The sausages with byproducts can be effectively identified with distinctive and specific labeling so that consumers can be quickly informed on the composition of competing products, so as to permit selections on the basis of ingredient preferences.

In consideration of the importance of cooked sausages to the protein food supply of this country and the obvious differences in opinions as to ingredients suitable for use in their formulas, it now appears that the interest in general of all persons concerned can best be served through standards that would cover the several types of products that have the different ingredients desired by various segments of the public, and which re-

quire distinctive and prominent labeling for the sausages that contain byproducts or binders so that consumers can be fully aware of their contents.

Accordingly, it is now proposed to amend the regulations to provide for the following identifications of cooked sausages:

1. A cooked sausage made primarily with raw skeletal muscle meat, but which could also include up to 15 percent raw or cooked poultry meat, combined with required functional agents such as water, salt, sweeteners, and curing substances would be required to be labeled by its generic name, e.g., frankfurter, wiener, bologna, vienna, garlic bologna, or knockwurst.

2. A cooked sausage made with at least 15 percent raw skeletal muscle meat combined with raw byproducts, or made with at least 15 percent raw skeletal muscle meat combined with raw byproducts and up to 15 percent raw or cooked poultry products, combined with required functional agents such as water, salt, sweeteners, and curing substances would be required to be labeled by its generic name, e.g., frankfurter, wiener, bologna, vienna, garlic bologna, or knockwurst, in conjunction with the phrase "with byproducts" or "with variety meats," and with all terms in such description being given equal prominence.

3. A cooked sausage made with the ingredients described in items 1 or 2 above but which contains one or more of the approved nonmeat binder materials that are functionally distinctive ingredients, such as "calcium reduced dried skim milk," would be required to be labeled with the generic name of the cooked sausage together with a name of the binder, e.g., "Frankfurter, Calcium Reduced Dried Skim Milk Added," and with a reference to byproducts if present, e.g., "Bologna, with Variety Meats, Soy Flour Added."

Although these provisions relate to matters within the scope of the notices of rule making, they differ substantially from the specific proposals set forth in the notices. In view of this fact and the widespread interest in this subject, it is deemed necessary to publish these provisions in another notice of rule making so as to afford the public opportunity to comment thereon. Accordingly, the following amendments of the regulations in 9 CFR Part 319 are proposed:

1. Subpart G would be amended to read: "Subpart G—Cooked Sausage" and Subpart H would be reserved.

2. Section 319.180 would be amended to read:

§ 319.180 Frankfurter, wiener, vienna, bologna, garlic bologna, knockwurst, and similar products.

(a) Frankfurter, wiener, bologna, vienna, garlic bologna, knockwurst, and similar cooked sausages are comminuted, semisolid sausages prepared from one or more kinds of raw skeletal muscle meat or raw skeletal muscle meat and poultry meat, and seasoned and cured, using one or more of the curing agents in accordance with § 318.7(c) of this chapter.

They may or may not be smoked. The finished products shall not contain more than 30 percent fat. Water and/or ice may be used to facilitate chopping or mixing or to dissolve the curing ingredients, but the sausage shall contain no more than 10 percent of added water.

These sausage products may contain uncooked, cured pork from primal parts, as defined in § 316.9(b) of this chapter, which do not contain any phosphates or contain only phosphates approved under Part 318 of this chapter. Such products may also contain raw or cooked poultry meat not in excess of 15 percent of the total ingredients, excluding water, in the sausage. Such poultry meat ingredients shall be designated in the ingredient statement on the label of such sausage in accordance with the provisions of § 381.118 of this chapter.

(b) Frankfurter, wiener, bologna, vienna, garlic bologna, knockwurst, and similar cooked sausages that are labeled with the phrase "with byproducts" or "with variety meats" in the product name are comminuted, semisolid sausages consisting of not less than 15 percent of one or more kinds of raw skeletal muscle meat with raw meat byproducts, or not less than 15 percent of one or more kinds of raw skeletal muscle meat with raw meat byproducts and raw or cooked poultry products; and seasoned and cured, using one or more of the curing ingredients in accordance with § 318.7(c) of this chapter. They may or may not be smoked. Partially defatted pork fatty tissue or partially defatted beef fatty tissue, or a combination of both, may be used in an amount not exceeding 15 percent of the meat and meat by products, or meat, meat byproducts and poultry products ingredients. The finished products shall not contain more than 30 percent fat. Water and/or ice may be used to facilitate chopping or mixing or to dissolve the curing and seasoning ingredients, but the sausage shall contain no more than 10 percent of added water. These sausage products may contain uncooked, cured pork which does not contain any phosphates or contains only phosphates approved under Part 318 of this chapter. These sausage products may contain poultry products, individually or in combination, not in excess of 15 percent of the total ingredients, excluding water, in the sausage. Such poultry products shall not contain kidneys or sex glands. The amount of poultry skin present in the sausage must not exceed the natural proportion of skin present on the whole carcass of the kind of poultry used in the sausage, as specified in § 381.117(d) of this chapter. The poultry products used in the sausage shall be designated in the ingredient statement on the label of such sausage in accordance with the provisions of § 381.118 of this chapter. Meat byproducts used in the sausage shall be designated individually in the ingredient statement on the label for such sausage in accordance with § 317.2 of this chapter.

(c) A cooked sausage as defined in paragraph (a) of this section shall be

labeled by its generic name, e.g., frankfurter, wiener, bologna, vienna, garlic bologna, or knockwurst.

(d) A cooked sausage, as defined in paragraph (b) of this section shall be labeled by its generic name, e.g., frankfurter, wiener, bologna, vienna, garlic bologna, or knockwurst, in combination with the phrase "with byproducts" or "with variety meats" shown with equal prominence as the generic name in the product name.

(e) With appropriate labeling as required by § 317.8(b)(16) of this chapter, e.g., "Frankfurter, Calcium Reduced Dried Skim Milk Added" or "Bologna with Byproducts (or 'Variety Meats'), Soy Flour Added," one or more of the following binders may be used in a cooked sausage otherwise complying with paragraph (a) or (b) of this section, provided such ingredients individually or collectively, do not exceed 3½ percent of the finished product, except that 2 percent of isolated soy protein shall be deemed to be the equivalent of 3½ percent of any one or more of the other binders: Dried milk, calcium reduced dried skim milk, nonfat dry milk, cereal, vegetable starch, starchy vegetable flour, soy flour, soy protein concentrate, and isolated soy protein.

(f) Cooked sausages shall not be labeled with terms such as "All Meat" or "All (Species)," or otherwise to indicate they do not contain nonmeat ingredients or are prepared only from meat.

(g) For the purposes of this section: Poultry meat means deboned chicken meat or turkey meat, or both, without skin or added fat; poultry products means chicken or turkey, or chicken meat or turkey meat, as defined in § 381.118 of this chapter, or poultry byproducts as defined in § 381.1 of this chapter; and meat byproducts means pork stomachs or snouts, beef, veal, lamb or goat tripe, and beef, veal, lamb, goat or pork hearts, tongues, fat, lips, weasands and spleens, and partially defatted pork fatty tissue, or partially defatted beef fatty tissue.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendments may do so by filing them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, before April 17, 1973.

Any person desiring opportunity for oral presentation of views on the proposal should address such requests to the Product Standards Staff, Scientific and Technical Services, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, so that arrangements may be made for such views to be presented prior to the date specified in the preceding paragraph. A record will be made of all views orally presented.

All written submissions and records of oral views made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business, unless the person makes the submission to the

staff identified in the preceding paragraph and requests that it be held confidential. A determination will be made whether a proper showing in support of the request has been made on grounds that its disclosure could adversely affect such person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on March 9, 1973.

CLAYTON YEUTTER,  
Assistant Secretary.

Proposed Mandatory Safety Standards; Objections Filed and Hearing Requested

Pursuant to the authority contained in section 101(a) of the Federal Coal Mine Health and Safety Act of 1969 (83 Stat. 745; 30 U.S.C. 811(a)), there was published, as proposed rulemaking, in the FEDERAL REGISTER for December 12, 1972 (37 FR 26422) §§ 75.524, 75.1001-1, 75.1003-2, 75.1101-23, 75.1600-1, 75.1600-2, and 75.1704-2 of Part 75, Subchapter O, Chapter I, Title 30, Code of Federal Regulations, setting forth mandatory standards which would: (1) Establish a requirement that electric current permitted to exist between frames of electric equipment be limited to not more than 1 ampere; (2) provide for frequent testing and calibration of devices for overcurrent protection; (3) specify requirements for movement of off-track mining equipment in areas where energized trolley wires or trolley feeder wires are present; (4) provide for instruction in the location and use of firefighting equipment, escapeways, exits, routes of travel and for fire drills; (5) improve two-way communication between working sections and the

## PROPOSED RULE MAKING

surface; and (6) require improved escapeways and periodic drills in their use. Interested persons were afforded a period of 45 days following publication within which to submit to the Director, Bureau of Mines, written comments, suggestions, or objections to these proposed mandatory safety standards, stating the grounds therefor, and to request a public hearing on such objections.

Section 101(f) of the Act directs the Secretary to publish in the FEDERAL REGISTER, as soon as practicable after the period for filing objections has expired, a notice specifying proposed mandatory safety standards to which objections have been filed and a hearing requested.

Notice is hereby given that written objections were timely filed with the Director, Bureau of Mines, stating the grounds for objections and requesting a hearing on proposed §§ 75.524, 75.1001-1, 75.1003-2, 75.1101-23, 75.1600-1, 75.1600-2, and 75.1704-2.

Pursuant to section 101(g) of the Act, the Secretary shall, promptly after publication of this notice in the FEDERAL REGISTER, issue notice of the time and place at which a public hearing will be held for the purpose of receiving evidence relevant to the objections received.

HOLLIS M. DOLE,

Assistant Secretary of the Interior.

MARCH 9, 1973.

## DEPARTMENT OF TRANSPORTATION

### Coast Guard

#### [33 CFR Parts 1, 177]

[CGD 73-40PH]

#### ESPECIALLY HAZARDOUS CONDITIONS

#### Notice of Proposed Rule Making

The Coast Guard is considering issuing the following regulations:

1. A regulation to amend Part 177 of Subchapter S, Chapter I of Title 33, Code of Federal Regulations to provide for the termination of use, under the authority of section 13 of the Federal Boat Safety Act of 1971, of recreational boats designated unsafe for a specific voyage on a specific body of water.

2. A regulation to amend Subchapter A, Chapter I of Title 33, Code of Federal Regulations by adding a paragraph to § 1.05-1 delegating from the Commandant to each district commander, the authority under section 13 of the Federal Boat Safety Act of 1971 to issue regulations designating specific recreational boats unsafe for certain voyages.

Section 13 of the Federal Boat Safety Act of 1971 provides that if a Coast Guard Boarding Officer observes a boat being used without sufficient lifesaving or firefighting devices or in an overloaded or other unsafe condition as defined in regulations of the Secretary, and in his judgment such use creates an especially hazardous condition, he may direct the operator to take whatever immediate and reasonable steps would be necessary for the safety of those aboard the vessel, in-

cluding directing the operator to return to mooring and to remain there until the situation creating the hazard is corrected or ended.

Marine Casualty and Search and Rescue Statistics indicate that vessels of unique design and construction, vessels in poor condition, and vessels improperly manned and equipped often depart on voyages, especially extended ocean voyages, for which they are manifestly unsuited. Operation of such craft on waters for which they are not suitable not only endanger the lives of the occupants but often result in enormous unnecessary expenditure of effort and expense for searches conducted by both military and commercial craft. The lives of the persons conducting the search efforts are also often endangered.

The termination of use of vessels in this category would be accomplished by a regulation issued by the district commander (under the redelegated authority proposed in 33 CFR 1.05-1(d)) applicable only to a specific unseaworthy vessel. The regulation would specifically identify the vessel and specify the reasons why the vessel is considered unsafe for the voyage and body of water on which the vessel is to be used. The regulation issued by the district commander to the user of the vessel would apply only to that vessel for the voyage and body of water indicated. The boarding officer could then take corrective action including termination of use of the vessel if in his judgment such use with this unsafe condition creates an especially hazardous condition, as authorized by section 13 of the Act.

The Boating Safety Advisory Council has been consulted and its opinions and advice have been considered concerning the need for these proposed regulations. The transcript of the proceedings of the meeting of the Boating Safety Advisory Council at which the need for these regulations were discussed is available for examination in Room 6240, U.S. Coast Guard Headquarters, Department of Transportation Headquarters Building, 400 Seventh Street SW., Washington, D.C. 20590. The minutes of the meeting are available from the Executive Director, Boating Safety Advisory Council at this address.

In consideration of the foregoing the Coast Guard proposes to amend Parts 1 and 177 of Title 33 of the Code of Federal Regulations as follows:

1. Section 1.05-1 is proposed to be amended by adding paragraph (d) as follows:

§ 1.05-1 General.

(d) The Commandant redelegates to each Coast Guard District Commander, with the reservation that this authority shall not be further redelegated, the authority, under section 13 of the Federal Boat Safety Act of 1971, to issue rules and regulations applicable to a specific recreational vessel within his jurisdiction designating that vessel unsafe for a specific voyage on a specific body of water when it is determined, under the

provisions of 33 CFR 177.07(f), that an unsafe condition exists.

2. Section 177.07 is proposed to be amended by adding paragraph (f) as follows:

§ 177.07 Other unsafe conditions.

(f) Designated unsafe for a specific voyage on a specific body of water due to:

- (1) Design or configuration, or
- (2) Construction or material condition, or
- (3) Operational or safety equipment, or
- (4) Operator competency and manning, and

set forth in a regulation issued by a district commander under the authority of 33 CFR 1.05-1(d).

Any interested person may submit written data, views, comments, suggestions, and arguments to the U.S. Coast Guard (GCMC/82), Room 8234, 400 Seventh Street SW., Washington, DC 20590. All communications received by May 14, 1973, will be considered before action is taken on the proposed regulations. Each person submitting comments should include their name and address, identify this notice (CGD 73-40PH), and give reasons and supporting data for their recommendations. All comments will be available for examination in Room 8234.

On May 8, 1973, at 10 a.m. a public hearing to receive the views of interested persons on the proposed regulations will be held in Room 2230, 400 Seventh Street SW., Washington, DC 20590. Each person who wishes to make an oral statement is requested to notify the U.S. Coast Guard (GCMC/82), Room 8234, 400 Seventh Street SW., Washington, DC 20590, before 1 May 1973, and indicate the amount of time required for initial statement. The hearing will be an informal hearing conducted by a designated representative of the U.S. Coast Guard. It will not be a judicial or evidentiary type hearing so there will be no cross-examination of persons presenting statements. After all initial statements have been completed those persons who wish to make rebuttal statements will be given an opportunity to do so in the same order in which they made their initial statements.

These regulations are proposed under the authority of the Federal Boat Safety Act of 1971 (P.L. 92-75). The authority and responsibilities vested in the Secretary of the Department of Transportation by this Act were delegated to the Commandant of the Coast Guard on 5 October 1971 (49 CFR 1.46(o)(1)).

Dated: March 9, 1973.

A. C. WAGNER,  
Rear Admiral, U.S. Coast Guard,  
Chief, Office of Boating Safety.

## PROPOSED RULE MAKING

### [33 CFR Part 117]

[CGD 73-51 P]

#### WHITCOMB BAYOU, FLA. Proposed Drawbridge Operation Regulations

At the request of the Pinellas County Board of County Commissioners the Coast Guard is considering amending the regulations for the North Spring Boulevard (Beckett) drawbridge across Whitcomb Bayou in Tarpon Springs to require that the draw open on signal from 9 a.m. to 6 p.m. on Saturdays and Sundays and at all other times if at least 4 hours' notice is given. The draw is presently opened on signal. This change is being considered because of limited requests for openings during the proposed restricted times. Data submitted shows that of 88 openings from November 1971 through October 1972, 72 were on Saturday or Sunday from 9 a.m. to 6 p.m. There were no openings in June, October, November, and December, other than Saturdays or Sundays.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Seventh Coast Guard District, Room 1018, Federal Building, 51 Southwest First Avenue, Miami, FL 33130.

Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Seventh Coast Guard District.

The Commander, Seventh Coast Guard District, will forward any comments received before April 17, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by adding a new subparagraph (5-a) immediately after subparagraph (5) of paragraph (f) of § 117.245 to read as follows:

§ 117.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.

(1) (5-a) Whitcomb Bayou, Fla. The draw shall open on signal from 9 a.m. to 6 p.m. on Saturdays and Sundays. At all other

times the draw shall open on signal if at least 4 hours notice is given.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Dated: March 9, 1973.

W. M. BENKERT,  
Rear Admiral, U.S. Coast Guard,  
Chief, Office of Marine Environment and Systems.

### [33 CFR Part 117]

[CGD 73-52 P]

#### HALIFAX RIVER, ALABAMA, FLORIDA Proposed Drawbridge Operation Regulations

At the request of the Volusia County Commissioners, the Coast Guard is considering revising the regulations for the Ormond Beach Bridge (State Road 40) and the Port Orange Bridge (U.S. AIA) across the Atlantic Intracoastal Waterway (Halifax River). This revision would allow closed periods from 7:30 a.m. to 8:30 a.m. and 4:30 p.m. to 5:30 p.m., Monday through Saturday, with the proviso that the draws shall open at 8 a.m. and 5 p.m. if any vessels are waiting to pass the closed draw. The draws are presently required to open on signal at any time. This revision is being considered because of a substantial increase in vehicular traffic during these periods.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Seventh Coast Guard District, Room 1018, Federal Building, 51 Southwest First Avenue, Miami, FL 33130. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Seventh Coast Guard District.

The Commander, Seventh Coast Guard District, will forward any comments received before April 17, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by adding a new § 117.433 immediately after § 117.432a to read as follows:

§ 117.433 Ormond Beach bridge (State Road 40) and Port Orange bridge (U.S. AIA), ALABAMA, Volusia County, Fla.

(a) The draws of these bridges shall open on signal except that from 7:30

a.m. to 8:30 a.m. and 4:30 p.m. to 5:30 p.m., Monday through Saturday, the draws may remain closed to the passage of vessels. The draws shall open at 8 a.m. and 5 p.m. during this period if any vessels are waiting to pass. The draws shall open on signal on Federal and Florida State holidays.

(b) Public vessels of the United States, tugs with tows, and vessels in distress shall be passed at any time. The opening signal from these vessels is 4 blasts of a whistle, horn, or other sound producing device or by shouting.

(c) During periods when storm signals are displayed in the Daytona Beach area, the draws shall open on signal. Storm signals are displayed upon notification by the National Weather Service that winds of up to 33 knots or more and/or sea conditions considered dangerous to small craft are expected. The opening signal is three blasts of a whistle, horn or other sound producing device or by shouting.

(d) The owners of or agents controlling these bridges shall keep conspicuously posted on both the upstream and downstream sides of the bridges, in such a manner that they can be easily read at any time from an approaching vessel, signs stating the regulations in this section.

(Sec. 5, 28 Stat. as amended, sec. 6(g) (2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g) (2); 49 CFR 1.46(c) (5), 33 CFR 1.05-1(c) (4))

Dated: March 9, 1973.

W. M. BENKERT,  
Rear Admiral, U.S. Coast Guard,  
Chief, Office of Marine Environment and Systems.

[FR Doc. 73-4883 Filed 3-13-73; 8:45 am]

### [33 CFR Part 177]

[CGD 73-41PH]

#### ESPECIALLY HAZARDOUS CONDITIONS Notice of Proposed Rule Making

The Coast Guard is considering issuing regulations to amend Part 177 of Subchapter S, Chapter I of Title 33, Code of Federal Regulations, to provide for the termination of use of recreational vessels during especially hazardous conditions on certain river bars and coastal inlets along the Pacific coastline of the States of Washington and Oregon.

Section 13 of the Federal Boat Safety Act of 1971 provides that if a Coast Guard boarding officer observes a boat being used without sufficient lifesaving or fire-fighting devices, or in an overloaded or other unsafe condition as defined in regulations of the Secretary, and in his judgment such use creates an especially hazardous condition, he may direct the operator to take whatever immediate and reasonable steps would be necessary for the safety of those aboard the vessel, including directing the operator to return to mooring and to remain there until the situation creating the hazard is corrected or ended.

For purposes of section 13 of the Federal Boat Safety Act, the proposed

§ 177.07(g) will define additional unsafe conditions for recreational boats being used in certain areas along the coastlines of Washington and Oregon. The addition of § 177.08, designating the Regulated Recreational Boating Areas in these States to which § 177.07(g) would apply is also proposed.

The bars and inlets along the coastlines of Oregon and Washington have certain characteristics which make them at times hazardous to navigation and each year a large number of fatalities of recreational boatmen occur in these areas. Oregon's State Boating Law Administrator and the Governors of the States of Oregon and Washington have expressed a great concern over these boating casualties and have petitioned the U.S. Coast Guard to issue more effective boating safety regulations for the hazardous areas.

The primary areas of potential hazard are just seaward of jetties which extend out through the surf zone over the longshore bars and also in and around channel entrances. When the ebbing tidal currents, occurring twice daily, of the rivers clash with the landward moving ocean waves in the shallow bar area, a very turbulent, heavy sea can be produced. This condition can happen very abruptly with no warning and even on seemingly calm, clear days. Other factors which can cause these bar areas to be hazardous are the high velocity tidal currents caused by a constriction of flow inside the jetties, wave refraction, and wave reflection off the jetties and the eddying effects caused by longshore ocean currents outside the jetties. All of these conditions can cause extremely difficult vessel handling problems in those areas.

Statistics compiled by the Office of Boating Safety, U.S. Coast Guard, indicate that vessel capsize accidents have consistently accounted for more of the lives lost in boating accidents in those areas of potential hazard along the coastlines of Washington and Oregon, each year than any other type of casualty. The ignoring of weather warnings, proceeding under unfavorable sea conditions, and operating in waters which exceed the limits of the craft or operator's training are major causes of these casualties.

Section 177.07 of Subchapter S, Chapter I of Title 33, Code of Federal Regulations, lists certain unsafe conditions for the purpose of termination of use of a vessel authorized by section 13 of the Federal Boat Safety Act of 1971. The proposed regulations would give the boarding officer another useful definition of an unsafe condition in the specifically designated areas. Since the ignoring of weather and sea conditions and proceeding under unfavorable conditions in these areas are major causes of boating fatalities the Coast Guard takes the position that there should be a way to prevent the use of boats under such conditions when this amounts to an especially hazardous condition.

Section 177.07(g) stipulates certain factors which would create for the purpose of this part, an unsafe condition in a "Regulated Recreational Boating Area." A wave height of 4 feet or greater in a "Regulated Recreational Boating Area" is designated as an unsafe condition for any size recreational vessel for the purpose of section 13 of the Federal Boat Safety Act of 1971. The decision as to whether this situation would create an especially hazardous condition is left to the judgment of the boarding officer in accordance with section 13 of the Act. A wave height of less than 4 feet in regulated recreational boating areas would create an especially hazardous condition for some types of recreational vessels, especially some of the smaller boats. A formula has been developed to define an unsafe condition for these smaller, less seaworthy boats when the wave height in a "Regulated Recreational Boating Area" is less than 4 feet. The formula takes into account the overall length of a boat and its minimum freeboard. A surface current of 4 knots or greater would also create an unsafe condition in these areas for any size recreational vessel. Reduced navigability and the threat of an underpowered or disabled vessel being swept into the turbulent surf zone were key factors in making that determination.

It should be emphasized that the mere existence of an unsafe condition does not preclude the use of these areas by a recreational boat. Section 13 of the Federal Boat Safety Act of 1971 requires that the unsafe condition must be deemed, in the judgment of the boarding officer, to create an especially hazardous condition before he may require action to correct the condition.

Section 177.08 lists the specific "Regulated Recreational Boating Areas" to which the provisions of § 177.07(g) will apply. These areas were taken from local Coast Guard Auxiliary Bar Guides and State Recreational Boating Guides.

The Boating Safety Advisory Council has been consulted concerning the need for these proposed regulations and its opinions and advice have been considered in their formulation. The transcript of the proceedings of the meeting of the Boating Safety Advisory Council at which these regulations were discussed is available for examination in Room 6240, U.S. Coast Guard Headquarters, Department of Transportation Headquarters Building, 400 Seventh Street SW., Washington, DC 20590. The minutes of the meeting are available from the Executive Director, Boating Safety Advisory Council, at this address.

In consideration of the foregoing, the Coast Guard proposes to amend Part 177 of Title 33 of the Code of Federal Regulations as follows:

1. Section 177.07 is proposed to be amended by adding paragraph (g) as follows:

#### § 177.07 Other unsafe conditions.

(g) Is operated in a Regulated Recreational Boating Area as described in 177.08 when—

(1) The wave height within the Regulated Recreational Boating Area is 4 feet or greater; or

(2) The wave height within the Regulated Recreational Boating Area is less than 4 feet but is equal to or greater than the wave height determined by the formula  $\frac{L}{10} + F = W$  where:

L=Overall length of a boat measured in feet in a straight horizontal line along and parallel with the centerline between the intersections of this line with the vertical planes of the stem and stern profiles excluding deckhouses and equipment.

F=The minimum freeboard when measured in feet from the lowest point along the upper strake edge to the surface of the water.

W=Maximum wave height in feet to the nearest highest whole number; or

(3) The surface current is greater than 4 knots within the Regulated Recreational Boating Area.

2. By adding § 177.08 as follows:

#### § 177.08 Regulated recreational boating areas.

For the purpose of this part the following are regulated recreational boating areas.

(a) *Quillayute River Entrance, Wash.* From the west end of James Island 47° 54'23" N., 124°39'05" W. southward to buoy No. 2 at 47°53'42" N., 124°38'42" W. eastward to the shoreline at 47°53'42" N., 124°37'51" W., thence northward along the shoreline to 47°54'29" N., 124°38'20" W. thence northward to 47°54'36" N., 124°38'22" W. thence westward to the beginning.

(b) *Grays Harbor Entrance, Wash.* From a point on the shoreline at 46° 59'00" N., 124°10'10" W. westward to 46°59'00" N., 124°15'30" W. thence southward to 46°51'00" N., 124°15'30" W. thence eastward to a point on the shoreline at 46°51'00" N., 124°06'40" W. thence northward along the shoreline to a point at the south jetty 46°54'20" N., 124°08'07" W. thence eastward to 46°54'10" N., 124°05'00" W. thence northward to 46°55'00" N., 124°03'30" W. thence northward to Damon Point at 46°56'50" N., 124°06'30" W. thence westward along the north shoreline of the harbor to the north jetty at 46°55'40" N., 124°10'27" W. thence northward along the shoreline to the beginning.

(c) *Willapa Bay, Wash.* From a point on the shoreline at 46°46'00" N., 124° 05'40" W. westward to 46°44'00" N., 124° 10'45" W. thence southward to 46°35'00" N., 124°10'45" W. thence eastward to a point on the shoreline at 46°35'00" N., 124°03'45" W. thence northward along the shoreline around the north end of Leadbetter Point thence southward along the east shoreline of Leadbetter Point to 46°36'00" N., 124°02'15" W. thence eastward to 46°36'00" N., 124°00'00" W. thence northward to Toke Point at 46° 42'15" N., 123°58'00" W. thence westward along the north shoreline of the harbor and northward along the seaward shoreline to the beginning.

(d) *Columbia River Bar, Wash.-Oreg.* From a point on the shoreline at 46°18'00" N., 124°04'39" W. thence westward to 46°18'00" N., 124°09'30" W. thence southward to 46°12'00" N., 124°09'30" W. thence eastward to a point on the shoreline at 46°12'00" N., 123°59'33" W. thence northeastward to Chinook Point at 46°15'08" N., 123°55'25" W. thence northward to the north end of Sand Island at 46°17'29" N., 124°01'25" W. thence southwestward to a point on the north shoreline of the harbor at 46°16'25" N., 124°02'28" W. thence eastward along the north shoreline of the harbor and northward along the seaward shoreline to the beginning.

(e) *Nehalem River Bar, Oreg.* From a point on the shoreline at 45°41'25" N., 123°56'16" W. thence westward to 45°41'25" N., 123°59'00" W. thence southward to 45°37'25" N., 123°59'00" W. thence eastward to a point on the shoreline at 45°37'25" N., 123°56'38" W. thence northward along the shoreline to the north end of the south jetty at 45°39'40" N., 123°55'45" W. thence westward to a point on the shoreline at 45°39'45" N., 123°56'19" W. thence northward along the shoreline to the beginning.

(f) *Tillamook Bay Bar, Oreg.* From a point on the shoreline at 45°35'15" N., 123°57'05" W. thence westward to 45°35'15" N., 124°00'00" W. thence southward to 45°30'00" N., 124°00'00" W. thence eastward to a point on the shoreline at 45°30'00" N., 123°57'40" W. thence northward along the shoreline to the north end of Kinchele Point at 45°33'30" N., 123°56'05" W. thence northward to a point on the north shoreline of the harbor at 45°33'40" N., 123°55'59" W. thence westward along the north shoreline of the harbor then northward along the seaward shoreline to the beginning.

(l) *Umpqua River Bar, Oreg.* From a point on the shoreline at 43°41'20" N., 124°11'58" W. thence westward to 43°41'20" N., 124°13'32" W. thence southward to 43°38'35" N., 124°14'25" W. thence eastward to a point on the shoreline at 43°38'35" N., 124°12'35" W. thence northward along the shoreline to the north end of the training jetty at 43°40'15" N., 124°11'45" W. thence northward to a point on the west bank of the entrance channel at 43°40'40" N., 124°11'41" W. thence southward along the west bank of the entrance channel thence northward along the seaward shoreline to the beginning.

(m) *Coos Bay Bar, Oreg.* From a point on the shoreline at 43°22'15" N., 124°19'34" W. thence westward to 43°22'20" N., 124°22'28" W. thence southward to 43°21'00" N., 124°23'35" W. thence southeastward to a point on the shoreline at 43°20'25" N., 124°22'28" W. thence northward along the shoreline and eastward along the south shore of the entrance channel to a point on the shoreline at 43°20'52" N., 124°19'12" W. thence eastward to a point on the east shoreline of the harbor at 43°21'00" N., 124°18'50" W. thence northward to a point on the west shoreline of the harbor at 43°21'45" N., 124°19'10" W. thence south and west along the west shoreline of the harbor thence northward along the seaward shoreline to the beginning.

(n) *Coquille River Bar, Oreg.*—From a point on the shoreline at 43°08'25" N., 124°25'04" W. thence southwestward to 43°07'50" N., 124°27'05" W. thence southwestward to 43°07'03" N., 124°28'25" W. thence eastward to a point on the shoreline at 43°06'00" N., 124°25'55" W. thence northward along the shoreline and eastward along the south shoreline of the channel entrance to 43°07'17" N., 124°25'00" W. thence northward to the

## PROPOSED RULE MAKING

east end of the north jetty at 43°07'24" N., 124°24'59" W. thence westward along the north shoreline of the entrance channel and northward along the seaward shoreline to the beginning.

(c) *Rogue River Bar, Ore.*—From a point on the shoreline at 42°26'25" N., 124°26'03" W. thence westward to 42°26'10" N., 124°27'05" W. thence southward to 42°24'15" N., 124°27'05" W. thence eastward to a point on the shoreline at 42°24'15" N., 124°25'30" W. thence northward along the shoreline and eastward along the south shoreline of the entrance channel to the highway bridge thence northward across the inner harbor jetty to a point on the north shoreline of the entrance channel at the highway bridge thence westward along the north shoreline of the entrance channel thence northward along the seaward shoreline to the beginning.

(p) *Chetco River Bar, Ore.*—From a point on the shoreline at 42°02'35" N., 124°17'20" W. thence southeastward to 42°01'45" N., 124°16'30" W. thence northward to a point on the shoreline at 42°02'10" N., 124°15'35" W. thence northward along the shoreline thence northward along the east shoreline of the channel entrance to 42°02'47" N., 124°16'03" W. thence northward along the west face of the inner jetty and east shoreline of the channel entrance to the highway bridge thence westward to the west shoreline of the channel at the highway bridge thence southward along the west shoreline of the channel thence westward along the seaward shoreline to the beginning.

Any interest person may submit written comments and suggestions to the U.S. Coast Guard (GCMC/82), Room 8234, 400 Seventh Street SW., Washington, DC 20590. All communications received before May 1, 1973, will be considered before action is taken on the proposed regulations. Each person submitting comments should include their name and address, identify this notice (CGD 73-41PH) and give reasons and supporting data for their recommendations. All comments will be available for examination in Room 8234.

Public hearings to receive the views of interested persons on the proposed regulations will be held on April 17, 1973, at 10 a.m. in the Orcas Room, Seattle Center, Seattle, Wash., and on April 19, 1973, at 10 a.m. in the Bonneville Power Administration Auditorium Lloyd Center, Portland, Ore. The hearings will be informal, conducted by a designated representative of the U.S. Coast Guard. They will not be judicial or evidentiary type hearings, so there will be no cross-examination of persons presenting statements. After all initial statements have been completed, those persons who wish to make rebuttal statements will be given an opportunity to do so in the same order in which they made their initial statement.

These regulations are proposed under the authority of the Federal Boat Safety Act of 1971 (Public Law 92-75). The authority and responsibilities vested in the Secretary of the Department of

Transportation by this Act were delegated to the Commandant of the Coast Guard on October 5, 1971 (49 CFR 1.46 (c) (1)).

Dated: March 9, 1973.

A. C. WAGNER,  
Rear Admiral, U.S. Coast Guard,  
Chief, Office of Boating Safety.

## ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 10]

## ADMINISTRATIVE CLAIMS UNDER FEDERAL TORT CLAIMS ACT

## Proposed Procedures

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553 that pursuant to the Federal Tort Claims Act, as amended (28 U.S.C. sections 2671-2680), the Environmental Protection Agency (EPA) is considering an amendment to 40 CFR by adding a new Part 10, Administrative Claims under Federal Tort Claims Act.

The proposed regulations would establish the means whereby persons who believe they have a valid tort claim against EPA can present that claim to EPA, and the procedures under which the Agency will process that claim, compromise the claim, compromise the claim after consulting the Department of Justice, or reject the claim and inform the claimant of his right to bring suit on the claim in Federal court. The proposed regulations specify the evidence that may have to be submitted in support of a claim, and the time limits that must be obeyed. The proposed regulations are very similar to those of several other agencies, and are designed to conform to and supplement both the requirements of the Federal Tort Claims Act and the regulations issued by the Department of Justice concerning it, which are set forth at 28 CFR Part 14.

Interested parties may submit, in triplicate, written comments concerning the proposed amendment, to the Claims Officer, Environmental Protection Agency, Room 3712-A, Waterside Mall, Washington, D.C. 20460. Communications received on or before April 30, 1973 will be considered prior to adoption of the final regulation. A copy of each communication received will be placed on file for public inspection in Room 3712-A, Waterside Mall, Washington, D.C. 20460.

Dated: March 5, 1973.

WILLIAM D. RUCKELSHAUS,  
Administrator.

## PART 10—ADMINISTRATIVE CLAIMS UNDER FEDERAL TORT CLAIMS ACT

## Subpart A—General

Sec.	
10.1	Scope of regulations.
10.2	Administrative claim; when presented; place of filing.
10.3	Administrative claim; who may file.
10.4	Administrative claim; evidence to be submitted.

Sec.	
10.5	Investigation, examination, and determination of claims.
10.6	Final denial of claim.
10.7	Payment of approved claims.
10.8	Release.
10.9	Penalties.
10.10	Limitations on Environmental Protection Agency's authority.
10.11	Relationship to other Agency regulations.

AUTHORITY: Sec. 1, 80 Stat. 306; 28 U.S.C. 2672; 28 CFR Part 14.

## Subpart A—General

## § 10.1 Scope of regulations.

The regulations in this part shall apply only to claims asserted under the Federal Tort Claims Act, as amended, 28 U.S.C. sections 2671-2680, accruing on or after January 18, 1967, for money damages against the United States for damage to or loss of property or personal injury or death, caused by the negligent or wrongful act or omission of any employee of the Environmental Protection Agency (EPA) while acting within the scope of his office of employment.

## Subpart B—Procedures

## § 10.2 Administrative claim; when presented; place of filing.

(a) For purpose of the regulations in this part, a claim shall be deemed to have been presented when the Environmental Protection Agency receives, at a place designated in paragraph (c) of this section, an executed Standard Form 95 or other written notification of an incident accompanied by a claim for money damages in a sum certain for damage to or loss of property, for personal injury, or for death, alleged to have occurred by reason of the incident. A claim which should have been presented to EPA, but which was mistakenly addressed to or filed with another Federal agency, shall be deemed to be presented to EPA as of the date that the claim is received by EPA. A claim mistakenly addressed to or filed with EPA shall forthwith be transferred to the appropriate Federal agency, if ascertainable or returned to the claimant.

(b) A claim presented in compliance with paragraph (a) of this section may be amended by the claimant at any time prior to final action by the Administrator, or his designee, or prior to the exercise of the claimant's option to bring suit under 28 U.S.C. 2675(a). Amendments shall be submitted in writing and signed by the claimant or his duly authorized agent or legal representative. Upon the timely filing of an amendment to a pending claim, EPA shall have 6 months in which to make a final disposition of the claim as amended and the claimant's option under 28 U.S.C. 2675(a) shall not accrue until 6 months after the filing of an amendment.

(c) Forms may be obtained and claims may be filed with the office, local, regional, or headquarters, of the constituent organization having jurisdiction over the employee involved in the accident or incident, or with the EPA Claims Officer, Room 3712-A, Waterside Mall Building,

401 M Street SW., Washington, D.C. 20460.

## § 10.3 Administrative claim; who may file.

(a) A claim for injury to or loss of property may be presented by the owner of the property interest which is the subject of the claim, his duly authorized agent, or his legal representative.

(b) A claim for personal injury may be presented by the injured person, his duly authorized agent, or his legal representative.

(c) A claim based on death may be presented by the executor or administrator of the decedent's estate or by any other person legally entitled to assert such a claim under applicable State law.

(d) A claim for loss wholly compensated by an insurer with the rights of a subrogee may be presented by the insurer. A claim for loss partially compensated by an insurer with the rights of a subrogee may be presented by the insurer or the insured individually as their respective interests appear, or jointly. Whenever an insurer presents a claim asserting the rights of a subrogee, he shall present with his claim appropriate evidence that he has the rights of a subrogee.

(e) A claim presented by an agent or legal representative shall be presented in the name of the claimant, be signed by the agent or legal representative, show the title or legal capacity of the person signing, and be accompanied by evidence of his authority to present a claim on behalf of the claimant as agent, executor, administrator, parent, guardian, or other representative.

## § 10.4 Administrative claim; evidence to be submitted.

(a) *Death.* In support of a claim based on death, the claimant may be required to submit the following evidence or information:

(1) An authenticated death certificate or other competent evidence showing cause of death, date of death, and age of the decedent.

(2) Decedent's employment or occupation at time of death, including his monthly or yearly salary or earnings (if any), and the duration of his last employment or occupation.

(3) Full names, addresses, birth dates, kinship, and marital status of the decedent's survivors, including identification of those survivors who were dependent for support upon the decedent at the time of his death.

(4) Degree of support afforded by the decedent to each survivor dependent upon him for support at the time of his death.

(5) Decedent's general physical and mental condition before death.

(6) Itemized bills for medical and burial expenses incurred by reason of the incident causing death, or itemized receipts of payments for such expenses.

(7) If damages for pain and suffering prior to death are claimed, a physician's detailed statement specifying the injuries suffered, duration of pain and suffering, any drugs administered for

pain, and the decedent's physical condition in the interval between injury and death.

(8) Any other evidence or information which may have a bearing on either the responsibility of the United States for the death or the damages claimed.

(b) *Personal injury.* In support of a claim for personal injury, including pain and suffering, the claimant may be required to submit the following evidence or information:

(1) A written report by his attending physician or dentist setting forth the nature and extent of the injury, nature and extent of treatment, any degree of temporary or permanent disability, the prognosis, period of hospitalization, and any diminished earning capacity. In addition, the claimant may be required to submit to a physical or mental examination by a physician employed or designated by EPA. A copy of the report of the examining physician shall be made available to the claimant upon the claimant's written request provided that the claimant has, upon request, furnished the report referred to in the first sentence of this subparagraph and has made or agrees in writing to make available to EPA any other physician's reports previously or thereafter made of the physical or mental condition which is the subject matter of his claim.

(2) Itemized bills for medical, dental, hospital and related expenses incurred, or itemized receipts of payment for such expenses.

(3) If the prognosis reveals the necessity for future treatment, a statement of expected duration of and expenses for such treatment.

(4) If a claim is made for loss of time from employment, a written statement from his employer showing actual time lost from employment, whether he is a full- or part-time employee, and wages or salary actually lost.

(5) If a claim is made for loss of income and the claimant is self-employed, documentary evidence showing the amount of earnings actually lost.

(6) Any other evidence or information which may have a bearing on the responsibility of the United States for either the personal injury or the damages claimed.

(c) *Property damage.* In support of a claim for damage to or loss of property, real or personal, the claimant may be required to submit the following evidence or information:

(1) Proof of ownership.

(2) A detailed statement of the amount claimed with respect to each item of property.

(3) An itemized receipt of payment for necessary repairs or itemized written estimates of the cost of such repairs.

(4) A statement listing date of purchase, purchase price, market value of the property as of date of damage, and salvage value, where repair is not economical.

(5) Any other evidence or information which may have a bearing on the responsibility of the United States either for the injury to or loss of property or for the damages claimed.

(d) *Time limit.* All evidence required to be submitted by this section shall be furnished by the claimant within a reasonable time. Failure of a claimant to furnish evidence necessary to a determination of his claim within 3 months after a request therefor has been mailed to his last known address may be deemed an abandonment of the claim. The claim may be thereupon disallowed.

## § 10.5 Investigation, examination, and determination of claims.

When a claim is received, the constituent unit out of whose activities the claim arose shall make such investigation as may be necessary or appropriate for a determination of the validity of the claim. A full account of this investigation, together with all pertinent documentary materials, the claim itself, and a recommendation based on the merits of the case, shall be forwarded through regular supervisory channels to the EPA Claims Officer, Washington, D.C. 20460, to whom authority has been delegated to adjust, determine, compromise, and settle tort claims under the direction of the Director, Data and Support Systems Division, and with the advice of the General Counsel or his designee.

## § 10.6 Final denial of claim.

(a) Final denial of an administrative claim shall be in writing and sent to the claimant, his attorney, or legal representative by certified or registered mail. The notification of final denial may include a statement of the reasons for the denial and shall include a statement that, if the claimant is dissatisfied with EPA's action, he may file suit in an appropriate U.S. District Court not later than 6 months after the date of mailing of the notification.

(b) Prior to the commencement of suit and prior to the expiration of the 6-month period after the date of mailing by certified or registered mail of notice of final denial of the claim as provided in 28 U.S.C. 2401(b), a claimant, his duly authorized agent, or legal representative, may file a written request with the EPA for reconsideration of a final denial of a claim under paragraph (a) of this section. Upon the timely filing of a request for reconsideration, EPA shall have 6 months from the date of filing in which to make a final disposition of the claim and the claimant's option under 28 U.S.C. 2675(a) to bring suit shall not accrue until 6 months after the filing of a request for reconsideration. Final action on a request for reconsideration shall be effected in accordance with the provisions of paragraph (a) of this section.

## § 10.7 Payment of approved claims.

(a) Upon allowance of his claim, claimant or his duly authorized agent shall sign the voucher for payment, Standard Form 1145, before payment is made.

(b) When the claimant is represented by an attorney, the voucher for payment (SF 1145) shall designate both the claimant and his attorney as "payees." The check shall be delivered to the at-

torney whose address shall appear on the voucher.

(c) No attorney shall charge fees in excess of 25 percent of a judgment or settlement after litigation, or in excess of 20 percent of administrative settlements (28 U.S.C. 2678).

#### § 10.8 Release.

Acceptance by the claimant, his agent, or legal representative of any award, compromise or settlement made hereunder, shall be final and conclusive on the claimant, his agent, or legal representative and any other person on whose behalf or for whose benefit the claim has been presented, and shall constitute a complete release of all claims against either the United States or any employee of the Government arising out of the same subject matter.

#### § 10.9 Penalties.

A person who files a false claim or makes a false or fraudulent statement in a claim against the United States may be liable to a fine of not more than \$10,000 or to imprisonment of not more than 5 years, or both (18 U.S.C. 287, 1001), and, in addition, to a forfeiture of \$2,000 and a penalty of double the loss or damage sustained by the United States (31 U.S.C. 231).

#### § 10.10 Limitations on Environmental Protection Agency's authority.

(a) An award, compromise or settlement of a claim hereunder in excess of \$25,000 shall be effected only with the prior written approval of the Attorney General or his designee. For the purposes of this paragraph, a principal claim and any derivative or subrogated claim shall be treated as a single claim.

(b) An administrative claim may be adjusted, determined, compromised, or settled hereunder only after consultation with the Department of Justice when, in the opinion of the Environmental Protection Agency:

- (1) A new precedent or a new point of law is involved; or
- (2) A question of policy is or may be involved; or
- (3) The United States is or may be entitled to indemnity or contribution from a third party and the Agency is unable to adjust the third party claim; or

(4) The compromise of a particular claim, as a practical matter, will or may control the disposition of a related claim in which the amount to be paid may exceed \$25,000.

(c) An administrative claim may be adjusted, determined, compromised, or settled by EPA hereunder only after consultation with the Department of Justice when EPA is informed or is otherwise aware that the United States or an employee, agent, or cost-plus contractor of the United States is involved in litigation based on a claim arising out of the same incident or transaction.

#### § 10.11 Relationship to other Agency regulations.

(a) The regulations in this part supplement the Attorney General's regu-

lations in Part 14 of Chapter 1 of Title 28, Code of Federal Regulations, as amended. Those regulations, including subsequent amendments thereto, and the regulations in this part apply to the consideration by the Environmental Protection Agency of administrative claims under the Federal Tort Claims Act.

(b) Each of the four preexisting agencies that contributed parts of its organization to the Environmental Protection Agency had published regulations to govern the administrative disposition of claims under the Federal Tort Claims Act at the time Reorganization Plan No. 3 of 1970 became effective: Namely, Department of the Interior (43 CFR Part 22); Department of Health, Education, and Welfare (45 CFR Part 35); Department of Agriculture (7 CFR Part 1, Subchapter D); and Atomic Energy Commission (10 CFR Part 14). These regulations that are currently applicable to the various constituent units of the Environmental Protection Agency are hereby repealed upon publication of the Agency's regulations with respect to claims asserted under the Federal Tort Claims Act involving employees of the Agency within scope of employment.

#### [40 CFR Part 85]

#### LIGHT DUTY TRUCKS

##### Air Pollution Control; Standards and Test Procedures

The U.S. Court of Appeals decision regarding the suspension of 1975 model year light duty vehicle emission standards, issued on February 10, 1973, ordered EPA to remove light duty trucks from the light duty vehicle category.

The decision states that when this had been done "these light weight trucks will be governed by the standards duly promulgated by EPA for 'trucks and buses and other commercial vehicles'."

The interior quote in this sentence is taken from a passage in the legislative history of the Clean Air Act which the Court relied on as showing that the fundamental distinction Congress had in mind in establishing legislative standards for "light duty vehicles" was the distinction between "passenger cars" on the one hand and "trucks and buses and other commercial vehicles" on the other. EPA believes that by making this distinction the Court did not mean to preclude the making by EPA of further distinctions, for regulatory purposes, among the often widely differing vehicles in the second category. Since light duty trucks currently on sale, and those now being certified for sale next year, already meet stricter emissions standards than will be required of other classes of trucks for several more years, to view the Court's opinion as precluding distinctions within the class of "trucks and buses and other commercial vehicles" would lead to the paradoxical and insupportable conclusion that the Court has mandated a relaxation in emission control levels that no one disputes have already been satisfactorily achieved by these vehicles.

Since I conclude that discretion exists under the Court's opinion to regulate light duty trucks as a separate category of vehicles for emission control purposes, it is my responsibility to examine these vehicles in the light of the standards specified in section 202(a) of the Clean Air Act, and the more general goals of that statute, to determine whether new standards for them should be established, and if so, what the level of those standards should be.

In conducting this examination, it is my further responsibility to review the relevant information available to me, including information which has only recently become available, testimony given at the suspension hearings for 1975 model year light duty vehicles and any comments received in response to this notice of proposed rule making.

For the purpose of this proposed rule making, a light duty truck is defined as "a motor vehicle, rated at 6,000 pounds gross vehicle weight or less, which is designed primarily for the transportation of property and is capable of being equipped to seat no more than three persons for safe and reasonably comfortable transport."

Studies conducted by the Federal Highway Administration (FHA) of the Department of Transportation indicate that 57 percent of all pickup trucks and panel trucks (including campers) carried no cargo at all when weighed at various weighing stations throughout the country. Of the 43 percent which carried at least some cargo, the average load was about 1,000 pounds. An unloaded pickup or panel truck weighs about 4,000 pounds. A loaded one, therefore, would weigh an average of 5,000 pounds. In either case, the weight of these vehicles is similar to the average weight of passenger-carrying light duty vehicles when operating on the highway. Therefore, though light duty trucks may be used to haul heavy loads, they are not commonly used in that capacity.

A study by the State of California in 1971 (Reference Supplement to "Commercial Vehicle Taxation in California" by Richard M. Zettel and Eric A. Mohr, report submitted to the State Department of Motor Vehicles) of commercial vehicles, i.e., station wagons or vans on a truck chassis, pickup trucks, and panel trucks, indicated that less than 6 percent of the 4,938 vehicles in the survey weighed in at over 6,000 pounds and 37 percent of the total vehicles in the survey carried no cargo at all. Since both the FHA and California studies included trucks weighing over 6,000 pounds as well as those under 6,000 pounds, it may be concluded that the actual operating weight of light duty trucks (i.e., those under 6,000 pounds) is actually even closer to that of passenger-carrying light duty vehicles than these data indicate.

Limited data is available on the extent of use of light-duty trucks in urban driving, in comparison to their use in nonurban areas. The California study cited above shows that 74 percent of all commercial vehicles surveyed through-

out the State were being used for personal use (driving to work, shopping, visiting friends) rather than work-related use (deliveries, sales, or service calls). Also, a 1967 Wilbur Smith and Associates report to the Automobile Manufacturers Association entitled "Motor Trucks in the Metropolis" states "... motor truck travel, like passenger car travel, tends to concentrate in urban places; and ... there is clear differentiation between the roles of light and heavy trucks. Light trucks are predominantly urban oriented in an urban area, while the smaller vehicles perform the convenience trip making ... the light truck class of vehicle acts and operates in traffic in a fashion similar to the average automobile."

Therefore, EPA concludes that even though light-duty trucks may be designed for different purposes than light-duty vehicles, and therefore may be considered as a separate class of vehicles, the standards applied to light-duty trucks should, in terms of actual use, be similar to those applied to light-duty vehicles.

Such a position is also supported by the estimated impact of light duty truck emissions on air quality. Over 11 percent of all vehicles sold nationally (and 15-20 percent of vehicles sold in California), which are presently considered in the light duty vehicle category, are light duty trucks. These trucks are currently meeting 1973/74 standards which are 3.4 grams per mile (g.p.m.) hydrocarbons, 39 g.p.m. carbon monoxide, and 3 g.p.m. oxides of nitrogen. The 1975 light duty vehicle standards, measured by a slightly different test procedure, are .41 g.p.m. hydrocarbons, 3.4 g.p.m. carbon monoxide, and 3.1 oxides of nitrogen. If light duty trucks continue to meet 1973-74 standards, the net effect would be to double the total emissions from under-6,000 pound 1975 model year vehicles (assuming that the current 1975 standards will be met by all other under-6,000 pound vehicles). The difference in magnitude is the result of one-tenth of all under-6,000 pound vehicles meeting a standard approximately 10 times less stringent than the standard being met by the other nine-tenths of under-6,000 vehicles. If light duty trucks were required to meet current heavy duty engine standards, which are substantially less stringent than current light duty vehicle standards, the effect on air quality would be even more adverse.

EPA considers that data available to it at this time indicate that emission control technology is as available for light duty trucks to meet 1975 light duty standards as it is for light duty vehicles. In fact, some specific data has very recently become available to show that a light duty truck can meet the 1975 light duty standards (Ford Motor Co. "Submission upon Remand" to EPA, March 5, 1973, figure 2-37).

I have also considered the general question of the economic impact of additional costs that may be associated with a requirement to control light duty trucks as stringently as light duty

passenger cars. To the extent that such light duty trucks are actually used for commercial purposes, it is held that their owners are better able to absorb any additional costs that may arise out of the more stringent emission control requirements; conversely, to the extent that light duty trucks are used primarily for the transportation of passengers, there is no equity in a situation which would allow their owners to avoid costs that are imposed on all other owners of passenger-carrying light duty vehicles.

EPA will consider testimony given at the suspension hearings for 1975 model year light duty vehicles, as well as comments submitted formally to the Administrator in response to this notice of proposed rule making, in making its final decision regarding the standards which are technologically feasible for light duty trucks. The range which will be considered in making this final determination will be, at minimum, the current 1974 model year light duty vehicle standards and, at maximum, the current 1975 model year light duty vehicle standards.

40 CFR Part 85 as amended by this amendment to Subpart A and by the addition of Subpart C would become effective 30 days after promulgation and would be applicable to 1975 and subsequent model year light duty trucks. The current regulations which appear at 40 CFR 85.073 would remain in effect for the purpose of their applicability to 1974 and earlier model year light duty trucks.

Interested persons may submit written data, views, or arguments (in quadruplicate) in regard to the proposed regulations to the Administrator, Environmental Protection Agency, Attention: Mobile Source Air Pollution Control Program, Office of Air and Water Programs, Washington, D.C. 20460. All relevant material received on or before April 13, 1973 will be considered. The Administrator will also consider all testimony submitted at the 1975 model year light duty vehicle standards suspension hearings beginning in Washington, D.C. on March 12, 1973.

Comments submitted in response to the proposed regulations will be available for public inspection during normal business hours at the Office of Public Affairs, Environmental Protection Agency, Fourth and M Streets SW., Washington, D.C. 20460.

This notice of proposed rule making is issued under the authority of section 202 of the Clean Air Act, as amended (42 U.S.C. 1857f-1).

Dated: March 9, 1973.

WILLIAM D. RUCKELSHAUS,  
Administrator.

1. Subpart A of Part 85, Title 40 of the Code of Federal Regulations as applicable to 1975 and later model year light duty vehicles is proposed to be amended as follows:

#### § 85.002 Definitions.

(5) "Light duty vehicle" means a motor vehicle which is designed pri-

marily for the transportation of persons and is capable of being equipped to seat 12 or fewer persons for safe and reasonably comfortable transport.

2. Subpart C of Part 85, Title 40 of the Code of Federal Regulations as applicable to 1975 and later model year light duty trucks is proposed to be added as follows:

#### Subpart C—Emission Regulations for New Light Duty Trucks

##### § 85.201 General applicability.

(a) The provisions of this subpart are applicable to 1975 and later model year light duty trucks. For purposes of this subpart, "light duty truck" means a motor vehicle, rated at 6,000 pounds gross vehicle weight or less, which is designed primarily for the purpose of transporting property and is capable of being equipped to seat no more than three persons for safe and reasonable comfortable transport.

(b) The provisions of Subpart A of this part applicable to 1975 model year new gasoline-fueled light duty vehicles, with the exception of § 85.075-1, are applicable to 1975 and later model year light duty trucks.

[FR Doc. 73-4913 Filed 3-13-73; 8:45 am]

#### [40 CFR Part 135]

#### PRIOR NOTICE OF CITIZEN SUITS Procedures for Giving Notice of Civil Actions

Section 505 of the Federal Water Pollution Control Act as amended by Public Law 92-500 (October 18, 1972) authorizes any citizen to commence a civil action against (1) any person alleged to be in violation of an effluent standard or limitation under the Act or in violation of an order with respect to such limitation issued by the Administrator of the Environmental Protection Agency or a State or, (2) the Administrator, where there is alleged a failure of the Administrator to perform any nondiscretionary act or duty under the Act. Except in certain cases, no action may be commenced against the Administrator pursuant to section 505 prior to 60 days after the plaintiff gives notice of such action to the Administrator. In the case of actions against persons other than the Administrator, section 505 requires that notice of the violation be given to the Administrator, to the State in which the violation is alleged to have occurred, and to the alleged violator, at least 60 days prior to commencement of the action. Section 505 directs the Administrator to prescribe by regulation the manner in which such notices shall be given.

Part 135, as proposed below, prescribes the manner in which such notice shall be given.

Interested persons may submit written comments on the proposed regulations, in triplicate, to the Administrator, Environmental Protection Agency, Waterside Mall Building, 401 M Street SW., Washington, DC 20460. All relevant comments received on or before April 13, 1973 will be considered.

## PROPOSED RULE MAKING

This notice of proposed rulemaking is issued under the authority of section 505 of the Federal Water Pollution Control Act Amendments of 1972 (Public Law 92-500, 86 Stat. 816).

WILLIAM D. RUCKELSHAUS,  
Administrator.

MARCH 9, 1973.

A new Part 135 would be added to Subchapter D, Chapter 1, Title 40 Code of Federal Regulations as follows:

**PART 135—PRIOR NOTICE OF CITIZEN SUITS**

Sec.  
135.1 Purpose.  
135.2 Service of notices.  
135.3 Contents of notice.

**AUTHORITY:** Sec. 505, Federal Water Pollution Control Act Amendments of 1972, Public Law 92-500, 86 Stat. 816.

**§ 135.1 Purpose.**

Section 505 of the Federal Water Pollution Control Act Amendments of 1972 (hereinafter "the Act") authorizes the actions by any citizen to enforce the Act or to enforce certain requirements promulgated pursuant to the Act. The purpose of this part is to prescribe procedures governing the giving of notice required by subsection 505(b) of the Act as a prerequisite to the commencement of such actions.

**§ 135.2 Service of notices.**

(a) Notice of intent to file suit pursuant to section 505(a)(1) of the Act shall be served upon an alleged violator of an effluent standard, or limitation under the Act, or an order issued by the Administrator or a State with respect to such a standard or limitation, in the following manner:

(1) If the alleged violator is an individual, service of notice shall be accomplished by certified mail addressed to, or by personal service upon, the owner or managing agent of the building, plant, installation, vessel, facility, or activity alleged to be in violation. If the alleged violator is a corporation, service of notice shall be accomplished by certified mail addressed to, or by personal service upon, the owner or managing agent of the building, plant, installation, vessel, facility or activity alleged to be in violation. A copy of such notice shall be mailed to the registered agent, if any, of such corporation in the State where such violation is alleged to have occurred. In such instance, a copy of the notice shall be mailed to the Administrator of the Environmental Protection Agency, the

Regional Administrator of the Environmental Protection Agency for the region in which such violation is alleged to have occurred, and the chief administrative officer of the water pollution control agency for the State where the violation is alleged to have occurred.

(2) If the alleged violator is a State or local agency, service of notice shall be accomplished by certified mail addressed to, or by personal service upon, the head of such agency. A copy of such notice shall be mailed to the chief administrative officer of the water pollution control agency for the State where the violation is alleged to have occurred, the Administrator of the Environmental Protection Agency, and the Regional Administrator of the Environmental Protection Agency for the region in which such violation is alleged to have occurred.

(3) If the alleged violator is a Federal agency, service of notice shall be accomplished by certified mail addressed to, or by personal service upon, the head of such agency. A copy of such notice shall be mailed to the Administrator of the Environmental Protection Agency, the Regional Administrator of the Environmental Protection Agency for the region in which such violation is alleged to have occurred, the Attorney General of the United States, and the chief administrative officer of the water pollution control agency for the State where the violation is alleged to have occurred.

(b) Service of notice of intent to file suit pursuant to section 505(a)(2) of the Act shall be accomplished by certified mail addressed to, or by personal service upon, the Administrator, Environmental Protection Agency, Washington, D.C. 20460. A copy of such notice shall be mailed to the Attorney General of the United States.

(c) Notice given in accordance with the provisions of this part shall be deemed to have been served on the postmark date if mailed, or on the date of receipt if served personally.

**§ 135.3 Contents of notice.**

(a) *Failure to act.* Notice regarding an alleged failure of the Administrator to perform any act or duty under the Act which is not discretionary with the Administrator shall identify the provision of the Act which requires such act or creates such duty, shall describe with reasonable specificity the action taken or not taken by the Administrator which is alleged to constitute a failure to perform such act or duty, and shall state the full name and address of the person giving the notice.

(b) *Violation of standard, limitation or order.* Notice regarding an alleged violation of an effluent standard or limitation or of an order with respect thereto, shall include sufficient information to permit the recipient to identify the specific standard, limitation, or order alleged to have been violated, the activity alleged to constitute a violation, the person or persons responsible for the alleged violation, the location of the alleged violation, the date or dates of such violation, and the full name and address of the person giving notice.

(c) *Identification of counsel.* The notice shall state the name, address, and telephone number of the legal counsel, if any, representing the person giving the notice.

**FEDERAL HOME LOAN BANK BOARD**

[ 12 CFR Parts 546, 563, 563b, 571 ]

[No. 73-395]

**CONVERSIONS OF MUTUAL ASSOCIATIONS TO STOCK FORM**

**Extension of Comment Period**

Notice was given by the Federal Home Loan Bank Board on January 11, 1973 (38 FR 1334) that the Board would receive until March 12, 1973 public comments regarding its proposed regulations relating to conversions to the stock form by mutual savings and loan associations, the accounts of which are insured by the Federal Savings and Loan Insurance Corporation. Notice was also given by the Board on February 7, 1973 (38 FR 3527) that the Board would hold public hearings on the proposed conversion regulations on March 12 and 13, 1973.

Notice is hereby given that the above-mentioned comment period on the proposed conversion regulations is extended until March 19, 1973. The Board intends to revise the proposed conversion regulations after considering comments received during the comment period and the views presented at the public hearings, and intends thereafter to issue revised conversion regulations with an additional comment period of not less than 30 days.

Washington, D.C., March 8, 1973.

By the Federal Home Loan Bank Board.

[SEAL] EUGENE M. HERRIN,  
Assistant Secretary.

**LIST OF INELIGIBLE SUPPLIERS**

The following list of ineligible suppliers under AID Regulation 8 is currently in effect. All persons who anticipate AID financing for a transaction involving any person whose name appears

on this list should take special notice of its contents.

**LIST OF INELIGIBLE SUPPLIERS**

**SECTION 1. Purpose of the list.** The list of ineligible suppliers implements the provisions of AID Regulation 8, Suppliers of Commodities and Commodity-Related Services Ineligible for AID Financing (22 CFR Part 208). Subject to the conditions described below AID will not make funds available to finance the cost of commodities or commodity-related services furnished by any supplier whose name appears on the list. A debarred supplier whose name appears in section 4 of a printed or published list has been placed thereon for the causes specified in § 208.5 of Regulation 8; a suspended supplier whose name appears in section 4 of a printed or published list has been placed thereon for the causes specified in § 208.7 of Regulation 8. AID has taken such action in accordance with the procedures described in Subpart D of Regulation 8.

With respect to the interest of any U.S. bank which holds an AID Letter of Commitment, special attention is called to the fact that the list as periodically modified by AID constitutes a special amendment to every Letter of Commitment to the effect that AID will not provide reimbursement to a bank for payment to any supplier whose name appears on the list, excepting only (a) a payment made to a supplier on or before the initial date of suspension indicated for that supplier under an AID Letter of Commitment issued prior to that date, and (b) a payment made to a supplier under an irrevocable Letter of Credit opened or confirmed on or before the initial date of suspension indicated for that supplier under an AID Letter of Commitment issued prior to that date. A bank which receives copies of the list and the periodic modifications thereto shall be held in its relationship with AID to the standard of care described in § 201.73(f) of Regulation 1 (22 CFR 201.73(f)) with respect to every transaction governed by an AID Letter of Commitment issued to that bank.

**Sec. 2. Contents of the list.** The list of ineligible suppliers consists of all suppliers and affiliates who have been debarred or suspended by AID. Additions to or deletions from the list are communicated directly to every U.S. bank holding an AID Letter of Commitment as they occur. AID endeavors to keep printed and published lists as current as possible by superseding or supplementary issuance. No prejudice whatsoever shall attach to a supplier whose name has been removed from this list.

**Sec. 3. Suppliers DEBARRED from AID financing.**

NAME, ADDRESS, INITIAL DATE OF SUSPENSION, AND PERIOD OF DEBARMENT

Liao, Mr. J. Y. (aka Liao, Chi Yo), President, Summid Corp., 7-2 Alley 13, Lane 1032, Chung Cheng Road, Taipei, Taiwan, April 7, 1970, 5/7/71-5/7/74.  
Mane Fils, Inc., 250 Park Avenue S., New York, NY, January 7, 1969, 2/6/70-2/6/73.  
Summid Corp., 7-2 Alley 13, Lane 1032, Chung Cheng Road, Taipei, Taiwan, April 7, 1970, 5/7/71-5/7/74.

**Sec. 4. Suppliers SUSPENDED from AID financing.** The following suppliers have been suspended from AID financing until further notice pending completion of an AID investigation of facts which may lead to the eventual debarment of such suppliers:

NAME, ADDRESS, AND INITIAL DATE OF SUSPENSION

Archifar Pharmaceutical Products, Inc., 20 Exchange Place, New York, NY 10005, November 9, 1966.  
Associated Chemo-Pharm Industries, Inc., 20 Exchange Place, New York, NY 10005, November 9, 1966.  
Bershad, Mrs. Carolyn, 8211 Streamwood Drive, Baltimore, MD 21208, September 26, 1967.  
Bershad, Mr. Irving, 8211 Streamwood Drive, Baltimore, MD 21208, September 26, 1967.  
Cathay Steel Export Corp., 160 Broadway, New York, NY 10038, September 26, 1967.

## STUDY GROUP 7 OF U.S. NATIONAL COMMITTEE FOR THE INTERNATIONAL RADIO CONSULTATIVE COMMITTEE

## Notice of Meeting

The Department of State announces that Study Group 7 of the U.S. National Committee for the International Radio Consultative Committee (CCIR) will meet on March 10, 1973, at 9:30 a.m. in Room N13 of Building 12, Goddard Space Flight Center, National Aeronautics and Space Administration (NASA), Greenbelt, Md. Study Group 7 deals with questions relating to the standard-frequency and time-signal services. The agenda for

the meeting will include the following matters:

- Discussion of issues related to the international meeting of Study Group 7 in 1974;
- Work programs for the development of U.S. contributions to the international meeting in 1974.

Members of the general public who desire to attend the meeting will be admitted up to the limits of the capacity of the meeting room. In that regard, entrance to the Goddard Space Flight Center is controlled and all non-NASA representatives will be required to register at which ever gate is used for entry to the area. Entry for members of the general public may be facilitated if arrangements are made in advance of the meeting. Therefore, it is suggested that prior to March 30, 1973, members of the general public who plan to attend the meeting should inform their name, affiliation, and address to Mr. Hugh Fosque, NASA Headquarters; the telephone number is area code 202-755-2434.

Dated: March 8, 1973.

GORDON L. HUFFCUTT,  
Chairman, U.S. CCIR  
National Committee.

## SECRETARY OF STATE'S ADVISORY COMMITTEE ON PRIVATE INTERNATIONAL LAW

## Notice of Meeting

A meeting of the Secretary of State's Advisory Committee on Private International Law will be held at 10 a.m. on Saturday, March 24, 1973, in room 5519 of the Department of State. The Committee meeting will be open to the public.

The principal topic of the meeting will be consideration of positions to be taken by the United States at the Sixth Session of the United Nations Commission on International Trade Law (UNCITRAL) to be held in Geneva April 1-13, 1973. In formulating these positions the Committee will be considering reports on recent meetings of UNCITRAL working groups on international sale of goods, maritime bills of lading and international negotiable instruments.

Members of the general public who desire to attend the meeting will be admitted up to the limits of the capacity of the meeting room. Entrance to the Department of State building is controlled and entry will be facilitated if arrangements are made in advance of the meeting. It is requested that prior to March 24, 1973, members of the general public who plan to attend the meeting inform their name and affiliation and address to Mr. Robert E. Dalton, Office of the Legal Adviser, Department of State; the telephone number is area code 202, 632-2107. All non-Government attendees at the meeting should use the C Street entrance to the building.

Dated: March 8, 1973.

ROBERT E. DALTON,  
Executive Director.

## Notice of Intention to Negotiate Concession Contract

Pursuant to the provisions of section 5, of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that on April 13, 1973, the Department of the Interior, through the Director of the National Park Service, proposes to negotiate a concession contract with Northwest Trading Post, Inc., authorizing it to provide concession facilities and services for the public near Milepost 260 on the Blue Ridge Parkway, N.C., for a period of five (5) years from January 1, 1973, through December 31, 1977.

The foregoing concessioner has performed its obligations under the expiring contract to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before April 13, 1973.

Interested parties should contact the Chief, Office of Concessions Management, National Park Service, Washington, D.C. 20240, for information as to the requirements of the proposed contract.

Dated: February 27, 1973.

## TANKER CONSTRUCTION PROGRAM

## Draft Environmental Impact Statement; Notice of Availability

Notice is hereby given that copies of the U.S. Department of Commerce draft environmental impact statement on the Maritime Administration Tanker Construction Program will be filed with the Council on Environmental Quality and available to the public on March 15, 1973. Copies of the statement will be available for public inspection at the following locations:

Maritime Administration, Office of Public Affairs, Room 4889, Department of Commerce, Washington, D.C. 20235.

Maritime Administration, Eastern Regional Office, 26 Federal Plaza, New York, N.Y. 10007.

Maritime Administration, Central Regional Office, 701 Loyola Avenue, New Orleans, La. 70152.

Maritime Administration, Western Regional Office, 450 Golden Gate Avenue, San Francisco, Calif. 94102.

Any questions concerning the statement should be directed to Dr. Sidney R. Galler, Deputy Assistant Secretary for Environmental Affairs, Department of Commerce, Washington, D.C. 20230, 202-967-4335. Persons desiring to file written comments should submit same to Dr. Galler prior to May 15, 1973.

The draft statement entitled, "Maritime Administration Tanker Construction Program," refers to proposed assistance to private industry to aid in the construction in the United States of a fleet of modern tankers and other oil carrying vessels during the decade of the 1970's. Vessel classes included range from approximately 35,000 d.w.t. to 400,000 d.w.t.

Copies of the statement may be purchased from the National Technical Information Service, Ordering Department, 5285 Port Royal Road, Springfield, VA 22151, or from the Environmental Law Institute, Document Service, 1346 Connecticut Avenue NW., Washington, DC 20036 (approximately 700 pages including appendixes) (NTIS Order No. EIS 73 0392-D) (ELR Order No. 00392).

Dated: March 12, 1973.

By Order of the Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, Jr.,  
Secretary.

## Food and Drug Administration

[Docket No. FDC-D-609; NADA No. 8-525V]

## CHEVRON CHEMICAL CO.

## Ortho Tack Wash; Notice of Withdrawal of Approval of New Animal Drug Application

In the FEDERAL REGISTER of September 5, 1970 (35 FR 14168, DESI 901V), the Commissioner of Food and Drugs

announced the conclusions of the Food and Drug Administration following evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on Ortho Tack Wash (Ortho Fungicide 45 and R-Cide 45), new animal drug application (NADA) No. 8-525V; marketed by Chevron Chemical Co., Ortho Division, 940 Hensley Street, Richmond, CA 94804.

Chevron Chemical Co. responded to said announcement by waiving the opportunity for a hearing and requesting that approval of NADA No. 8-525V be withdrawn.

Based on the grounds set forth in said announcement and the firm's response, the Commissioner concludes that approval of said new animal drug application should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of NADA No. 8-525V, including all amendments and supplements thereto is hereby withdrawn effective on March 14, 1973.

Dated: March 7, 1973.

## PITMAN-MOORE, INC.

## Phenazoid Liquid; Notice of Withdrawal of Approval of New Animal Drug Application

In the FEDERAL REGISTER of December 9, 1970 (35 FR 18688, DESI 2302V), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration following evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on Phenazoid Liquid, new animal drug application (NADA) No. 2-678V; marketed by Pitman-Moore, Inc., Washington Crossing, N.J. 08560.

Pitman-Moore, Inc., responded to the announcement by advising the Commissioner that said drug has been deleted from the market and requesting that approval of NADA No. 2-678V be withdrawn.

Based on the grounds set forth in said announcement and the firm's response, the Commissioner concludes that approval of said new animal drug application should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of NADA No. 2-678V, including all amendments and supplements thereto, is hereby withdrawn effective on March 14, 1973.

## Health Services and Mental Health Administration

NATIONAL ADVISORY BODIES  
Notice of Meetings

The Acting Administrator, Health Services and Mental Health Administration, announces the meeting dates and other required information for the following National Advisory bodies scheduled to assemble during the month of March 1973:

Committee name	Date, time, place	Type of meeting and/or contact person
National Advisory Mental Health Council.	Mar. 19-20, 9:30 a.m., Parklawn Bldg., Conference Room 14-105, 5600 Fishers Lane, Rockville, Md.	Mar. 19—Open, Mar. 20—Closed, Contact K. P. Okura, Room 17C-28, 5600 Fishers Lane, Rockville, Md. Code 301-443-4597 or Mrs. Barbara O'Konek, Room 9C-35, 5600 Fishers Lane, Rockville, Md. Code 301-443-4335.

**Purpose.** Reviews applications for grants-in-aid relating to research, training, and instructions in the field of psychiatric disorders. Advises on matters of program planning and evaluation relevant to mental health programs.

**Agenda.** March 19 will be devoted to a discussion of policy issues. Agenda items will include a report by the Director of NIMH on administrative and legislative developments, the Social Security Amendments, and new directions in mental health training programs. On March 20 the Council will conduct a final review of grant applications for Federal assistance and this session will not be open to the public, in accordance

with the determination by the Acting Administrator, Health Services and Mental Health Administration, pursuant to the provisions of Public Law 92-463, section 10(d).

Committee name	Date, time, place	Type of meeting and/or contact person
Board of Scientific Counselors, NIMH.	Mar. 30-31, 9:30 a.m., National Institutes of Health, Building 36, Room 1B-07, Bethesda, Md.	Open—9:30-10 a.m. on Mar. 30. Closed—remainder of meeting. Contact Dr. John C. Erlenhart, Room 1A-05, National Institutes of Health, Building 36, Bethesda, Md. Code 301-490-3501.

**Purpose.** The committee provides expert advice to the Director, National Institute of Mental Health, on the mental health intramural research program through periodic visits to the laboratories for assessment of the research in progress and evaluation of productivity and performance of staff scientists.

**Agenda.** The open portion of the meeting will consist of a report by the Director and Deputy Director for Intramural Research, National Institute of Mental Health, on recent administrative developments. The remainder of the 2-day session will be devoted to the review of intramural research projects and the evaluation of individual scientific programs, and will not be open to the public in accordance with the determination by the Acting Administrator, Health Services and Mental Health Administration, pursuant to the provisions of Public Law 92-463, section 10(d).

Agenda items are subject to change as priorities dictate.

A roster of members and other relevant information regarding open sessions may be obtained from the contact persons listed above.

Dated: March 7, 1973.

ANDREW J. CARDINAL,  
Acting Associate Administrator  
for Management Health Services and Mental Health Administration.

## TUSKEGEE SYPHILIS STUDY AD HOC ADVISORY PANEL

## Notice of Meeting

A meeting of a subcommittee of the Tuskegee Syphilis Study Ad Hoc Advisory Panel is to be held on March 20, 1973. This panel was established by the Assistant Secretary for Health to provide advice on the circumstances surrounding the Tuskegee, Ala., Study of Untreated Syphilis in the Male Negro initiated by the U.S. Public Health Service in 1932. The Assistant Secretary for Health requested the panel to advise him on spe-

## NOTICES

cific aspects of the Tuskegee syphilis study, including a determination whether existing policies to protect the rights of patients participating in health research conducted or supported by the Department of Health, Education, and Welfare are adequate and effective and to recommend improvements in these policies, if needed.

This subcommittee meeting is for the purpose of reviewing current policy and recommendations to assist the panel in preparing its response to this charge. Within the facilities available the meeting will be open to observers. Observers may not participate in the proceedings of the meeting. Observers may not take photographs or visual recordings of proceedings. Observers may not occupy seats at the conference table or place any object on the table during the meeting. Written statements or documentary contributions from observers will be received before or after the meeting by the Executive Secretary for inclusion in the panel's records.

The meeting will begin at 1:30 p.m., in Conference Room 3835C at 26 Federal Plaza, New York, N.Y. A summary of the meeting and a roster of panel members may be obtained from Mr. John Blamphin, 202-962-7906, room 5614, HEW North Building, 330 Independence Avenue SW., Washington, DC 20201.

Dated: March 5, 1973.

#### TUSKEGEE SYPHILIS STUDY AD HOC ADVISORY PANEL Notice of Meeting

A meeting of a subcommittee of the Tuskegee Syphilis Study Ad Hoc Advisory Panel is to be held on March 22, 1973. This panel was established by the Assistant Secretary for Health to provide advice on the circumstances surrounding the Tuskegee, Ala., Study of Untreated Syphilis in the Male Negro initiated by the U.S. Public Health Service in 1932. The Assistant Secretary for Health requested the panel to advise him on specific aspects of the Tuskegee syphilis study, including a determination whether the study was justified in 1932 and whether it should have been continued when penicillin became generally available.

This subcommittee meeting is for the purpose of obtaining information from persons who may be able to assist the panel in preparing its response to this charge. Within the facilities available the meeting will be open to observers. Observers may not participate in the proceedings of the meeting. Observers may not take photographs or visual recordings of proceedings. Observers may not occupy seats at the conference table or place any object on the table during the meeting. Written statements or docu-

mentary contributions from observers will be received before or after the meeting by the Executive Secretary for inclusion in the panel's records.

The meeting will begin at 10 a.m., in Conference Room 3835C, at 26 Federal Plaza, New York, N.Y. A summary of the meeting and a roster of panel members may be obtained from Mr. John Blamphin, 202-962-7906, room 5614, HEW North Building, 330 Independence Avenue SW., Washington, DC 20201.

Dated: March 5, 1973.

#### TUSKEGEE SYPHILIS STUDY AD HOC ADVISORY PANEL Notice of Meeting

A meeting of the Tuskegee Syphilis Study Ad Hoc Advisory Panel is to be held on March 28, 1973. This panel was established by the Assistant Secretary for Health to provide advice on the circumstances surrounding the Tuskegee, Ala., Study of Untreated Syphilis in the Male Negro initiated by the U.S. Public Health Service in 1932. The Assistant Secretary for Health requested the panel to advise him on certain specific aspects of the Tuskegee syphilis study including a determination whether the study should have been continued when penicillin became generally available; a recommendation whether the study should be continued at this point in time, and if not, how it should be terminated in a way consistent with the rights and health needs of its remaining participants; and a determination whether existing policies to protect the rights of patients participating in health research conducted or supported by the Department of Health, Education, and Welfare are adequate and effective and to recommend improvements in these policies, if needed.

The agenda for this meeting provides for panel discussion on these charges. Within the facilities available the meeting will be open to observers. Observers may not participate in the proceedings of the meeting. Observers may not take photographs or visual recordings of proceedings. Observers may not occupy seats at the conference table or place any object on the table during the meeting. Written statements or documentary contributions from observers will be received before or after the meeting by the Executive Secretary for inclusion in the panel's records.

This meeting will begin at 10 a.m., in Conference Room 3, Building 31, National Institutes of Health, Bethesda, Md. A summary of the meeting and a roster of panel members may be obtained from Mr. John Blamphin, 202-962-7906, room 5614, HEW North Building, 330 Independence Avenue SW., Washington, DC 20201.

Dated: March 5, 1973.

#### DEPARTMENT OF TRANSPORTATION Coast Guard

(CGD 72-248R)

#### FEDERAL BOAT SAFETY ACT OF 1971

##### Exemption to Supersede Existing Exemption

A notice was published in the January 3, 1973 issue of the FEDERAL REGISTER (38 FR 71) proposing to supersede the exemption of August 11, 1971 (36 FR 15764 Aug. 18, 1971) to section 10 of the Federal Boat Safety Act of 1971 by issuing a more limited exemption.

The August 11, 1971 exemption exempted each State of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the District of Columbia and political subdivisions thereof from the provisions of section 10 of the Federal Boat Safety Act of 1971. That exemption applied only to laws and regulations in effect on the effective date of the Federal Boat Safety Act of 1971 (Aug. 20, 1971) and was to remain in effect until expressly superseded, revoked, or otherwise terminated (36 FR 15764, Aug. 18, 1971).

This exemption which will supersede the exemption of August 11, 1971, will principally affect State statutes and regulations by preempting those concerning boat performance or safety standards

such as requirements for capacity plates, hull identification numbers, and flotation.

The exemption will continue to exempt State laws concerning performance or other safety standards for associated equipment and requirements for associated equipment.

During the written comment period no comments on the proposed exemption were received.

The Boating Safety Advisory Council has been consulted and its opinions and advice have been considered in the formulation of this exemption. The transcript of the proceedings of the meeting of the Boating Safety Advisory Council at which these regulations were discussed is available for examination in room 6240, U.S. Coast Guard Headquarters, Department of Transportation Headquarters Building, 400 Seventh Street SW., Washington, DC 20590. The minutes of the meeting are available from the Executive Director, Boating Safety Advisory Council at this address.

In consideration of the foregoing the exemption of August 11, 1971, to section 10 of the Federal Boat Safety Act of 1971 is superseded by a more limited exemption as follows:

Under the authority vested in me by sections 9 and 10 of the Federal Boat Safety Act of 1971 and 49 CFR 1.46 (a)(1), I hereby exempt each State of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the District of Columbia and political subdivisions thereof from those provisions of section 10 of the Federal Boat Safety Act of 1971 that prohibit any of those jurisdictions from continuing in effect or enforcing any provision of law or regulation which establishes any associated equipment performance or safety standard, or which imposes any requirement for associated equipment that is not identical to a Federal regulation. This exemption applies only to laws and regulations in effect on the effective date of the Federal Boat Safety Act of 1971 and remains in effect until expressly superseded, revoked, or otherwise terminated.

Dated: March 8, 1973.

C. R. BENDER,  
Admiral, U.S. Coast Guard,  
Commandant.

#### SAN FRANCISCO VESSEL TRAFFIC SYSTEM Operating Procedures

The Commander, Twelfth Coast Guard District, San Francisco, Calif., has issued Public Notice No. 12-55 on March 1, 1973, containing operating procedures to implement the San Francisco Vessel Traffic System, as authorized by the Ports and Waterways Safety Act of 1972, Public Law 92-340, 86 Stat. 424 (July 10, 1972).

The operating procedures describe a system of voluntary traffic separation on San Francisco Bay applicable to all commercial and public vessels. The system is effective on March 15, 1973.

## NOTICES

Copies of Public Notice No. 12-55 are available to the public at the Office of the Commander, Twelfth Coast Guard District, 630 Sansome Street, San Francisco, CA 94128.

Dated: March 9, 1973.

W. M. BENHART,  
Rear Admiral, U.S. Coast Guard,  
Chief, Office of Marine Envi-  
ronment and Systems.

#### ATOMIC ENERGY COMMISSION

[Docket No. 27-47]

#### CHEM-NUCLEAR SERVICES, INC.

##### Notice of Issuance of Amendment of By- product, Source, and Special Nuclear Material License

A notice of proposed amendment of Byproduct, Source, and Special Nuclear Material License which would amend License No. 46-13536-01, held by Chem-Nuclear Services, Inc., to authorize Chem-Nuclear Services, Inc., to possess up to 850 grams of uranium-235 and to dispose of the uranium-235 by land burial at its facility near Barnwell, S.C., was published in the FEDERAL REGISTER on October 14, 1972, 37 FR 21866.

No request for a hearing or petition for leave to intervene has been filed following publication of the notice of proposed amendment. The Commission has found that the application for amendment of License No. 46-13536-01 complies with the requirements of the Atomic Energy Act of 1954, as amended and of the Commission's regulations in Chapter I, Title 10, of the Code of Federal Regulations. Accordingly, the Atomic Energy Commission has this date issued Amendment No. 04 to License No. 46-13536-01 held by Chem-Nuclear Services, Inc.

For the Atomic Energy Commission.

Dated at Bethesda, Md., February 21, 1973.

RICHARD E. CUNNINGHAM,  
Acting Deputy Director for Fuels  
and Materials, Directorate of  
Licensing.

#### NORTHERN STATES POWER CO.

##### Assignment of Members of Atomic Safety and Licensing Appeal Board

Notice is hereby given that, in accordance with the authority in 10 CFR 2.787(a), the Chairman of the Atomic Safety and Licensing Appeal Panel has assigned the following panel members to serve as the Atomic Safety and Licensing Appeal Board for these proceedings:

Alan S. Rosenthal, Chairman,  
Dr. John H. Buck, Member,  
William C. Parler, Member.

Dated: March 7, 1973.

MARGARET E. DUFOLO,  
Secretary to the  
Appeal Board.

[FR Doc. 73-4862 Filed 3-13-73; 8:45 am]

## REGULATORY GUIDES

##### Notice of Issuance and Availability

The Atomic Energy Commission has issued a guide in its regulatory guide series. This series has been developed to describe and make available to the public methods acceptable to the AEC Regulatory staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

The guide is in Division 1, "Power Reactor Guides." Regulatory Guide 1.10, "Mechanical (Cadmium) Splices in Reinforcing Bars of Category I Concrete Structures," is a revision of Safety Guide 10 and is being reissued in the new series.

Comments and suggestions in connection with improvements in the guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545. Attention: Chief, Public Proceedings Staff. Copies of issued guides may be obtained by request to the U.S. Atomic Energy Commission, Washington, D.C. 20545. Attention: Director of Regulatory Standards.

Other Division 1 Regulatory Guides currently being developed include the following:

Operating Status Indication for Nuclear Powerplant Safety Systems.  
Availability of Electric Power Sources.  
Preoperational Testing of Redundant Onsite Electric Power Sources to Verify Proper Load Group Assignments.  
Qualification Tests of Continuous-Duty Motors Installed Inside the Containment of Nuclear Powerplants.  
Requirements for Instrumentation to Assess Nuclear Powerplant Conditions During and Following an Accident for Water-Cooled Reactors.  
Shared Emergency and Shutdown Power Systems at Multiunit Sites.  
Physical Independence of Safety Related Electric Systems.  
Isolating Low Pressure Systems Connected to the Reactor Coolant Pressure Boundary.  
Assumptions for Evaluating a Control Rod Ejection Accident for Pressurized Water Reactors.  
Assumptions for Evaluating a Control Rod Drop Accident for Boiling Water Reactors.  
Quality Assurance Requirements for Cleaning of Fluid Systems and Associated Components of Nuclear Powerplants.  
Quality Assurance Requirements for Packaging, Shipping, Receiving, Storage, and Handling of Items for Nuclear Powerplants.  
Housekeeping Requirements for Nuclear Powerplants.  
Requirements for Collection, Storage, and Maintenance of Quality Assurance Records for Nuclear Powerplants.  
Requirements for Assessing Ability of Material Underneath Nuclear Powerplant Foundations to Withstand Safe Shutdown Earthquake.  
Design Basis Floods for Nuclear Powerplants.  
Design Phase Quality Assurance Requirements for Nuclear Powerplants.  
Qualification Tests of Electric Valve Operations for Use in Nuclear Powerplants.  
Fire Protection Criteria for Nuclear Powerplants.  
Protective Coatings for Nuclear Reactor Containment Facilities.

## NOTICES

Quality Assurance for Protective Coatings Applied to Nuclear Powerplants.  
Application of the Single Failure Criteria to Nuclear Power Generating Station Protective Systems.  
Protection Against Pipe Whip Inside Containment.  
Additional Material Requirements for Bolt-  
ing.  
Inservice Surveillance of Ungrouted Prestressing Tendons.  
Inservice Surveillance of Grouted Prestressing Tendons.  
Stainless Steel Overlay Welding.  
Design Loading Combinations for Fluid System Components.  
Design Loading Combinations for Primary Metal Containment Systems.  
Reactor Coolant Pressure Boundary Leak Detection System.  
Requirements for Thermal Insulation Used with Stainless Steel.  
Concrete Placement in Category I Structures.  
Control of Sensitized Stainless Steel.  
Design Spectra for Seismic Design of Nuclear Power Stations.  
Seismic Inert Motion to Uncoupled Structural Model.  
Control of Preheat Temperature for Low Alloy Steel Welding.  
Rules for Inservice Inspection of Class 3 and Class C Nuclear Powerplant Components.  
Primary Reactor Containment (Concrete) Design and Analysis.  
Preservice Testing of In-Situ Components.  
Preheat Temperature Control During Low Alloy Steel Welding.  
Installation of Over-Pressure Devices.  
Nondestructive Examination of Tubular Products.  
Category I Structural Foundations.  
Maintenance of Water Purity in BWRs.  
(5 U.S.C. 552(a))

Dated at Bethesda, Md., this 5th day of March 1973.

For the Atomic Energy Commission.

LESTER ROGERS,

Director of Regulatory Standards.

## CIVIL AERONAUTICS BOARD

[Docket No. 23486; Order 73-3-14]

## INTERNATIONAL AIR TRANSPORT ASSOCIATION

## Order Regarding Delayed Inaugural Flights

Issued under delegated authority on March 7, 1973.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers embodied in the resolutions of Traffic Conference 1 of the International Air Transport Association (IATA). The agreement, which was adopted by mail vote, has been assigned CAB Agreement No. 23524.

The agreement would permit AVI-ANCA to allocate the maximum number of seats on its E-720b aircraft introduced on its service between Bogotá-São Paulo/Rio de Janeiro into a maximum of four inaugural flights of not less than 40 seats per flight. *Provided*, That such flights shall be operated not later than July 31, 1973.

Pursuant to authority duly delegated by the Board in the Board's regulations 14 CFR 385.14:

It is not found that Resolution 100 (Mall 920) 200h, which is incorporated in Agreement C.A.B. 23524, affects air transportation within the meaning of the Act.

Accordingly, it is ordered, That: Jurisdiction is disclaimed with respect to Agreement C.A.B. 23524.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within 10 days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,  
Secretary.

## COMMISSION ON CIVIL RIGHTS

## MICHIGAN STATE ADVISORY COMMITTEE

## Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a subcommittee meeting of the Michigan State Advisory Committee will convene at 10 a.m. on March 16, 1973, at the Kellogg Center of the Michigan State University, East Lansing, Mich. 48823. This subcommittee will meet with an ad hoc committee of Michigan State officials and Michigan University officials. This meeting shall be open to the public and the press.

The purpose of this meeting shall be to discuss the design of a proposed conference to be held in June 1973, which will deal with the impact of national priorities in the State of Michigan as they relate to the operation, role, and function of State, local, and private agencies.

This meeting will be conducted pursuant to rules and regulations of the Commission.

Dated at Washington, D.C., March 8, 1973.

ISAIAH T. CRESWELL, Jr.,  
Advisory Committee  
Management Officer.

[FR Doc.73-4904 Filed 3-13-73; 8:45 am]

## MICHIGAN STATE ADVISORY COMMITTEE

## Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the Michigan State Advisory Committee will convene at 6:15 p.m. on March 16, 1973, at the Kellogg Center, Michigan State University, East Lansing, Mich. 48823. This meeting shall be open to the public and the press.

Lansing, Mich. 48823. This meeting shall be open to the public and the press.

The purpose of this meeting shall be to receive a report from a Joint State Advisory Committee Conference Subcommittee and an ad hoc Committee of Michigan State and Michigan University officials. This report will concern a proposed conference of Michigan State Advisory Committee members, State and local human relations officials, and other civil rights workers in the State of Michigan.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., March 8, 1973.

ISAIAH T. CRESWELL, Jr.,  
Advisory Committee  
Management Officer.

[FR Doc.4905 Filed 3-13-73; 8:45 am]

## NEW HAMPSHIRE STATE ADVISORY COMMITTEE

## Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the New Hampshire State Advisory Committee will convene at 8 p.m. on March 27, 1973, at the New Hampshire Highway Motel, Concord, N.H. 03301. This meeting shall be open to the public and the press.

The purposes of this meeting shall be to (1) plan for the distribution of and followup to the Committee's report on the New Hampshire Employment Project, and (2) discuss a proposed Joint Meeting of the New Hampshire State Advisory Committee and the New Hampshire Commission for Human Rights.

This meeting will be conducted pursuant to rules and regulations of the Commission.

Dated at Washington, D.C., March 8, 1973.

ISAIAH T. CRESWELL, Jr.,  
Advisory Committee  
Management Officer.

## NEW JERSEY STATE ADVISORY COMMITTEE

## Notice of Open Meeting

Notice is hereby given, pursuant to the provision of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the New Jersey State Advisory Committee will convene at 7:30 p.m. on March 22, 1973, in room 730, Federal Building, 970 Broad Street, Newark, N.J. 07102. This meeting shall be open to the public and the press.

The purpose of this meeting shall be to review all field operations performed between March 12 and March 16, in connection with the New Jersey Committee's Prison Project.

This meeting will be conducted pursuant to rules and regulations of the Commission.

Dated at Washington, D.C., March 8, 1973.

ISAIAH T. CRESWELL, Jr.,  
Advisory Committee  
Management Officer.

[FR Doc.73-4906 Filed 3-13-73; 8:45 am]

## NEW YORK STATE ADVISORY COMMITTEE

## Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the New York State Advisory Committee will convene at 4 p.m. on March 27, 1973, in Room 1639, 26 Federal Plaza, New York, NY 10007. This meeting shall be open to the public and the press.

The purpose of this meeting shall be to define project plans for a proposed open meeting concerning the New York State University System.

This meeting will be conducted pursuant to rules and regulations of the Commission.

Dated at Washington, D.C., March 8, 1973.

ISAIAH T. CRESWELL, Jr.,  
Advisory Committee  
Management Officer.

[FR Doc.73-4908 Filed 3-13-73; 8:45 am]

## NEW YORK STATE ADVISORY COMMITTEE

## Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the New York State Advisory Committee will convene at 6 p.m. on March 27, 1973, in Room 1639, 26 Federal Plaza, New York, NY 10007. This meeting shall be open to the public and the press.

The purpose of this meeting shall be to further define the New York Advisory Committee's project proposals to be undertaken by the Sex Discrimination Subcommittee.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., March 8, 1973.

## ENVIRONMENTAL PROTECTION AGENCY

## BENZOYL CHLORIDE (2,4,6-TRICHLOROPHENYL)HYDRAZONE

## Reextension of Temporary Tolerance

The Upjohn Co., Kalamazoo, Mich. 49001, was granted a temporary tolerance (PP 0G0982) for residues of the insecticide benzoyl chloride (2,4,6-trichlorophenyl)hydrazide and its metabolite benzoic acid (2,4,6-trichlorophenyl)hydrazide in or on the raw agricultural

## NOTICES

commodity citrus fruit as 1 part per million on May 18, 1971 (notice was published in the FEDERAL REGISTER of June 23, 1971 (36 FR 11957)). The firm received a 1-year extension of the temporary tolerance on May 18, 1972 (notice was published in the FEDERAL REGISTER of May 19, 1972 (37 FR 10097)).

The firm has requested a 1-year re-extension of the temporary tolerance for residues of the insecticide in or on citrus fruit at 1 part per million to obtain additional experimental data.

It is concluded that such reextension will protect the public health. The tolerance is therefore reextended on condition that the insecticide be used in accordance with the temporary permit which is being issued concurrently and which provides for distribution under the Upjohn name.

This temporary tolerance expires May 18, 1974.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs.

Dated: March 9, 1973.

HENRY J. KORB,  
Deputy Assistant Administrator  
for Pesticide Programs.

[FR Doc.73-4923 Filed 3-13-73; 8:45 am]

## FEDERAL COMMUNICATIONS COMMISSION

[Dockets Nos. 19503, 19506; FCC 73R-99]

## ST. CROSS BROADCASTING CO. AND PROGRESSIVE BROADCASTING CO.

## Memorandum Opinion and Order Enlarging Issues

In regard applications of St. Cross Broadcasting, Inc., Santa Cruz, Calif., Docket No. 19503, File No. BP-18014; James B. Fenton, Grant R. Wrathall, Jr., Lawrence M. Wrathall, and Loretta Wrathall, doing business as Progressive Docket No. 19506, File No. BP-18221; for construction permits.

1. Before the Review Board is a motion, filed June 19, 1972, by Progressive Broadcasting Co. (Progressive), requesting waiver of § 1.229 of the rules and the addition of a Suburban issue against St. Cross Broadcasting, Inc. (St. Cross).<sup>1</sup> The petition was not filed within the time limit specified by § 1.229(b) of the rules, and the Board does not find that

<sup>1</sup> Also before the Board are: (a) Opposition filed July 5, 1972, by the Broadcast Bureau; (b) reply opposing motion [opposition], filed July 5, 1972, by St. Cross; (c) reply, filed July 13, 1972, by Progressive; (d) a letter, received July 14, 1972, from Progressive; (e) a letter, received July 14, 1972, from St. Cross; and (f) clarification of paragraph 6 of (c), filed July 14, 1972, by Progressive. A previous memorandum opinion and order in this matter was published at 38 FR 4690, Feb. 20, 1973.

Progressive has established good cause for the untimeliness.<sup>2</sup> However, the motion does raise serious public interest questions and the likelihood of proving the allegations contained therein is sufficient to meet the test set forth in The Edgefield-Saluda Radio Co. (WJES), 5 FCC 2d 148, 8 RR 2d 611 (1966). The Board will accordingly entertain Progressive's motion on its merits.

2. In its motion, Progressive alleges that the ascertainment efforts of St. Cross are defective, in that St. Cross principals did not conduct the surveys, the surveys were not of community leaders, certain community groups were excluded from the survey, the St. Cross demographic study was submitted after the surveys and the list of ascertainment needs submitted by St. Cross did not reflect its surveys. St. Cross opposes the motion and contests each allegation. The Broadcast Bureau acknowledges that there are deficiencies in St. Cross' Suburban showing, but opposes the motion on the ground that the deficiencies are not so great as to warrant specification of an issue.

3. The Board will add the requested issue. In general, the pleadings raise a substantial question as to the adequacy of St. Cross' ascertainment efforts pursuant to the "Primer on Ascertainment of Community Problems by Broadcast Applicants," 27 FCC 2d 650, 21 RR 2d 1507 (1971). First, it is not clear whether principals, management-level employees, or prospective management-level employees have consulted with leaders of significant groups in the community in order to ascertain community problems, needs, and interests.<sup>3</sup> With regard to the December 1967 and February 1969 surveys, it appears that they may have been directed solely to and resulted solely in ascertainment of programming interests and format preferences. See paragraph 17 of the "Report and Order" adopting the "Primer, supra. Cf. Estate of John C. Mullins," 36 FCC 2d 78, 25 RR 2d 73 (1972). With respect to the September 1969 survey, it is unclear whether it was conducted by a principal, management-level employee, or prospective management-level employee. See Q. & A. 11(b) of the "Primer, supra. Cf. Childress Broadcasting Corp. of West Jefferson (WKSJ)," 37 FCC 2d 766, 25 RR 2d 711 (1972). While the August 1970 survey apparently was conducted by a principal, it has not been established that it was of community leaders rather than of the general public. See Q. & A. 4 of the

<sup>2</sup> In support of its claim for good cause, Progressive states that it discovered evidence supporting its motion while preparing an opposition to a St. Cross motion to enlarge issues against Progressive and that the burden of preparing that opposition prevented earlier completion and filing of its own motion.

<sup>3</sup> Results of its surveys were filed by St. Cross with the Commission on Dec. 14, 1967; Feb. 25, 1969; Sept. 29, 1969; and Aug. 3, 1970. On Dec. 17, 1971, a description of the three counties contained within its proposed 0.5 mv./m. contour, a "recapping" of ascertained needs, and programming proposals were filed by St. Cross.

## NOTICES

"Primer, supra." Mere membership in a profession, involvement in education, business, or agriculture; or employment in Government or social service do not automatically make an individual a "community leader." An applicant must make at least a minimal showing that either the interviewee is a leader of that group or organization of which he is a member, or that he, by virtue of his position or otherwise, should be considered a leader of some other portion of the community or of the community as a whole.<sup>4</sup> Thus, it must be resolved at the hearing whether St. Cross has shown that a dialog has been established and will be maintained between the community and the decisionmaking personnel of the applicant. "WPIX, Inc. (WPIX)," 34 FCC 2d 419, 422, 24 RR 2d 59, 63 (1972), review denied FCC 72-616 (1972).<sup>5</sup>

4. Also, St. Cross does not appear to have contacted leaders of all significant groups in the community and this raises additional questions as to the adequacy of the survey. See paragraph 44 of the "Report and Order" and Q. & A. 16 of the "Primer, supra." St. Cross reveals in its demographic study (see note 3, supra) that 5 percent of the population within its proposed 0.5 mv./m. contour is Oriental; yet it appears to have made no effort at all to ascertain the needs of this group by consulting with its leaders.<sup>6</sup> Progressive raises this question, as well, with regard to the Mexican-American minority (8 percent-9 percent) within this area. Moreover, we find persuasive Progressive's contentions that St. Cross, in some instances, contacted only individuals who work with or have knowledge of certain groups (e.g., farm laborers) rather than leaders of those groups themselves. A question exists, too, whether St. Cross has consulted with the "rank and file" of certain groups, construing "representative," as used in the heading of paragraph 44 of the "Report and Order, supra," to mean "sample" rather than "leader" or "spokesman." Paragraph 38 of the "Report and Order" explains that such an interpretation and procedure is improper. Also see "Quinnipiac Valley Service, Inc.," FCC 73-174, ----- FCC 2d -----, released February 23, 1973.

5. Finally, the demographic study submitted by St. Cross (see note 3, supra), too, appears to be insufficient. The major

<sup>4</sup> We also note that St. Cross has not interviewed a single member of the government of Santa Cruz City, its prospective community of license.

<sup>5</sup> The public policy underlying the requirement that consultation with community leaders must be done by means of a person-to-person dialog between them and the decisionmaking personnel of the applicant has been articulated by the Commission in paragraph 33 of the Report and Order, supra. See also Fisher's Blend Station, Inc., 30 FCC 2d 37, 21 RR 2d 1220 (1971), clarified 30 FCC 2d 705, 22 RR 2d 385 (1971), reconsideration denied 31 FCC 2d 148, 22 RR 2d 684 (1971).

<sup>6</sup> Absent an adequate description of the specific community of license (see paragraph 5, infra), we will assume that it reflects the population characteristics given for the counties.

function of such a study, regardless of when it is filed, is to indicate to the Commission the composition of the community, so that the Commission can intelligently evaluate the sufficiency of the applicant's ascertainment efforts. See "WPIX, Inc. (WPIX), supra." The necessity for such information is obvious in this proceeding. The very general description of the proposed 0.5 mv./m. service area does not appear to comply with Q. & A. 9 of the Primer and, thus, prevents a satisfactory conclusion with regard to St. Cross' "Suburban" showing. "William R. Gaston," 35 FCC 2d 624, 24 RR 2d 779 (1972). Moreover, the "recap" of ascertained needs presented by St. Cross appears to be more closely attuned to the demographic study than to the interviews St. Cross has reported.<sup>7</sup> In sum, sufficient questions have been raised regarding St. Cross' showing to convince us that an issue is necessary to determine the efforts undertaken by St. Cross to ascertain the needs of its specified community and whether it proposes programming designed to help meet those ascertained needs.

6. Accordingly, it is ordered, That the motion for waiver of § 1.229 and motion to enlarge issues, filed June 19, 1972, by Progressive Broadcasting Co., is granted; and that the issues in this proceeding are enlarged to include the following:

To determine the efforts made by St. Cross Broadcasting, Inc. to ascertain the community needs and interests of the area to be served and the means by which it proposes to meet those needs and interests; and

7. It is further ordered, That the burden of proceeding with the introduction of evidence and proof under the issue added herein shall be on St. Cross Broadcasting, Inc.

Adopted: March 6, 1973.

Released: March 8, 1973.

FEDERAL COMMUNICATIONS  
COMMISSION,  
[SEAL] BEN F. WAPLE,  
Secretary.

[FR Doc.73-4885 Filed 3-13-73; 8:45 am]

[FCC 73-230]

# "CLIPPING" OF RADIO AND TELEVISION NETWORK PROGRAMS

## Interpretation Regarding Licensees' Obligations

MARCH 2, 1973.

Affiliation contracts between broadcast stations and networks typically provide that the station will be compensated for carrying specific network programs, commercials, and other material, including,

<sup>7</sup> While the needs of military personnel are noted in the "recap" and appropriate programming proposed, nowhere in any survey are contained interviews with members of that group or even mention of the military by other interviewees. We also have found no mention in the interviews of the exodus of young adults due to lack of employment opportunities, of the endangered species that exist in the area, or of the tourist influx during the summer months.

but not limited to, network identifications, credit announcements, or promotional material. In order to collect payment, the station periodically submits a statement to the network certifying that the specified network material has been broadcast. A certification form usually has space to indicate deletions or cancellations of network material. If deletions or cancellations are indicated by the station, the amount of payment received from the network may be reduced. "Network clipping" means that the licensee has not fulfilled its contractual obligation to the network, by certifying that specified network material was broadcast in full when there were, in fact, cancellations or deletions. Because of the number of complaints that have been filed with the Commission on network clipping, often confirmed upon investigation, this public notice is being issued to clarify further the Commission's policy, in this area, as well as pertinent rules and Commission cases dealing with network clipping.

Licensees are cautioned that as a general proposition the Commission considers falsely certifying that network material has been carried to be a use of a licensed facility for fraudulent purposes, which raises serious questions as to a licensee's qualifications to hold a broadcast authorization. The Commission's concern exists regardless of whether the clipped material consists of advertising, program content, or other material provided by the network, and regardless of whether network clipping exists because of the licensee's knowing participation, its indifference, or its failure to adequately supervise or control its employees or agents.

One party has indicated that it believes that the Commission's concern as to network clipping expressed above is a change from the policy set out in Radio Station WSOC, Inc., 21 FCC 887, 943, 12 RR 953, 1007 (1956). In the WSOC decision, the Commission did not award a demerit in a comparative hearing where an applicant had deleted network material (not program content), because the deletions were made with the full knowledge of the network. Network clipping, as defined above, refers only to situations where the network is not aware of the clipping because of false certifications submitted by the affiliated station. Thus, there is no inconsistency between the WSOC case and the Commission's statement here.

Where the clipped material contains advertising, licensees are subject to forfeitures under the fraudulent billing rule, § 73.1205. See, for example, "Radiozark Broadcasting of Louisiana," 32 FCC 2d 603 (1971). Licensees should note that the material appearing at the end of certain television contest or quiz programs disclosing the receipt of payment for the use of merchandise on the program is a commercial announcement, unless the announcement comes under the terms of the proviso clause of section 317(a) of the Communications Act, "National Broadcasting Co.," 27 FCC 2d 75, 20 RR 2d 901 (1970), affirmed on

reconsideration; American Broadcasting Co., 30 FCC 2d 827, 22 RR 2d 220 (1971). Clipping of such commercial material, while certifying to the network that it was broadcast, has resulted in the assessment of a forfeiture, "Channel 13 of Las Vegas, Inc.," 37 FCC 2d 518, 25 RR 2d 286 (1972). Clipped material at the end of programs may also contain the sponsor identification required by section 317 of the Communications Act and by §§ 73.119, 73.289 and 73.654 of the Commission's rules, providing another basis for the imposition of forfeitures or other sanctions.

In some situations, primarily involving television stations, the network may determine that no payments to the station are warranted because of the station's limited audience. The network may, however, agree to pay all or part of the costs of providing its programming to the station by wire or microwave transmission. The assumption of these costs constitutes consideration. Licensees in these circumstances should carefully read their affiliation contracts to assure that no certifications are issued to the network that provide false information as to the station's compliance with the terms of the contract.

Nothing in this notice should be interpreted to place any limitation on the licensee's discretion to delete any material that it believes to be indecent, profane, obscene, in bad taste, or otherwise contrary to the public interest. The notice is intended to emphasize that such deletions or cancellations should be accurately disclosed in the certifications to the network. This notice is not intended to apply to clipping of a few seconds duration that occasionally results from switching or other technical problems. Finally, this notice is directed toward the obligations of the licensee. The licensee is not responsible for material deleted by the network; for example, the editing of films by a network to conform to time requirements, or returning to a sports event after a network commercial when play was resumed during the commercial.

The above refers to situations in which fraudulent certifications are given to networks. In some circumstances, licensees may delete portions of network program content in order to insert local commercial announcements, but notify the network of the deletions. If information coming to the attention of the Commission indicates that this is a frequent practice, the Commission will consider, on the facts presented, whether the licensee has subordinated the public's interest in viewing or hearing programs in their entirety to the licensee's private interest in maximizing the sale of commercial time.

Action by the Commission March 2, 1973.<sup>1</sup>

<sup>1</sup> Commissioners Burch (Chairman), Robert E. Lee, Johnson, H. Rex Lee, Reid, Wiley and Hooks.

# FEDERAL MARITIME COMMISSION AUSTRALIA/U.S. AND ATLANTIC GULF CONFERENCE

## Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before April 3, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

## Notice of agreement filed by:

Stanley O. Sher, Esq., Bebechick, Sher & Kushnick, 919 18th Street NW., Washington, DC 20006.

Agreement No. 9450-7 has been entered into by the member lines of the Australia/U.S. Atlantic and Gulf Conference, to modify the presently approved agreement of that conference by incorporating therein a more extensive self-policing system, to be implemented through a neutral body under terms and conditions set forth therein.

Dated: March 8, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,  
Secretary.

## Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before April 3, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

## Notice of agreement filed by:

Leonard Putnam, City Attorney, City of Long Beach, Suite 600 City Hall, Long Beach, Calif. 90802.

Agreement No. T-2652, between the City of Long Beach (City) and Humble Oil & Refining Co. (Humble), provides for the 38-year lease to Humble of approximately 13,732 acres at Berth 202, Long Beach, Calif.; 3,693 acres of inland area; an exclusive license to construct and maintain pipelines on Piers A, B, C, D, F, G, and J for bunkering purposes; and a nonexclusive option for a license to construct and maintain pipelines on a tanker wharf to be constructed at a later date. This proposed wharf is leased to Humble as part of the premises leased under this agreement. The premises are to be for the receipt, handling, loading, unloading, transporting, and storage of Humble's petroleum products in connection with its oil-bunkering services at Long Beach. The agreement specifically provides in paragraph 4(e) that Humble's activities are to be restricted to either that of (1) a proprietary operation in connection with common carriers by water and other vessels whereby only Humble's products will be handled, or (2) in connection with vessels that are not common carriers by water, whereby Humble may handle products of others

## NOTICES

who wish to use the facility. In any event, the agreement provides that Humble will not use the pipelines covered by this agreement as common carriers pipelines, nor hold them out to the public for the transportation of liquids other than those owned by Humble. The agreement prohibits Humble from operating a public warehouse or storage business utilizing the premises or the pipelines. The agreement also prohibits Humble from furnishing warehouses, storage, or other terminal facilities in connection with common carriers by water, except for bunkers, vessels' supplies, and water. The agreement provides that both Humble and City are to construct certain improvements to the premises. As compensation, the City is to receive rental as set forth in detail in the agreement. The City is to also receive tariff charges on Humble's operations. When the wharfage and dockage charges paid to the City meet Humble's guaranteed minimum annual rental for Parcels III and IIIA, Humble will pay the City 75 percent of the applicable dockage and wharfage charges accruing in the next 2½ million tons, and 50 percent of the applicable dockage and wharfage charges on all commodities exceeding 10 million tons annually.

Dated: March 8, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,  
Secretary.

## **Notice of agreement filed by:**

David V. Ainsworth, Counsel, Matson Navigation Co., 100 Mission Street, San Francisco, CA 94105.

Agreement No. T-2753, between Matson Navigation Co. (Matson) and Koppel Bulk Terminal (Koppel), is an agreement whereby Koppel will perform loading and unloading services with respect to containerized cargo on behalf of Matson. The facility at which these services are to be performed is the Container Freight Station (CFS), located at 305 Henry Ford Avenue, Long Beach, CA. For the performance of such services Matson shall pay to Koppel all costs for the operation, based upon the actual cost, including supervision and overhead, plus 5 percent. The parties understand that there will be no rental charged at the outset for CFS facilities. Rental will be negotiated and mutually agreed upon at a later date. Koppel will have complete control and supervision of activity at the CFS and Matson will have no right or duty to control the detail of the work of any employee of Koppel. This agreement will continue in effect from year to year unless terminated by either party upon 30 days' written notice to the other party.

Dated: March 8, 1973.

## **Notice of agreement filed by:**

Francis A. Scanlan, Esq., Kelly, Deasey & Scanlan, 926 Four Penn Center Plaza, Philadelphia, PA 19103.

Agreement No. T-2561-1, between South Jersey Port Corp. (Port) and Nacirema Operating Co., Inc. (Nacirema), is a modification of Agreement No. T-2561. The purpose of the modification is to delete certain areas from the original agreement. In addition, the modified operating agreement shall apply to Pier 2, and Buildings C and D, and any other buildings as mutually agreed upon by the parties. Port will collect all dockage and wharfage under its terminal tariff and will also receive wharfage from vessels berthed at Pier 1 or 1A, where cargo is placed in buildings not covered under the lease for those facilities. Wharfage in the same amount as set forth in Port's tariff shall be remitted by Nacirema to Port. Nacirema shall collect for such wharfage under its tariff. Port shall receive a portion of revenue from line tending and from storage.

Dated: March 9, 1973.

By order of the Federal Maritime Commission.

[Independent Ocean Freight Forwarder  
License No. 845]

## MERCAL AIR CARGO, INC.

## Order of Revocation

By letter dated August 16, 1972, Mercal Air Cargo, Inc., 26 Broadway, New York, NY 10004, was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 845 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before September 15, 1972.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Mercal Air Cargo, Inc. has failed to furnish a surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) § 7.04(g) (dated 5-1-72):

It is ordered, That Independent Ocean Freight Forwarder License No. 845 of Mercal Air Cargo, Inc., be returned to the Commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License No. 845 of Mercal Air Cargo, Inc., be and is hereby revoked effective September 15, 1972.

It is further ordered, That a copy of this order be published in the FEDERAL REGISTER and served upon Mercal Air Cargo, Inc.

AARON W. REESE,  
Managing Director.

## FEDERAL POWER COMMISSION

[Docket No. R173-227]

## AUSTRAL OIL CO., INC.

Notice of Petition for Special Relief  
MARCH 7, 1973.

Take notice that on February 21, 1973, Austral Oil Co., Inc. (petitioner), 2700

Humble Building, Houston, Tex. 77002, filed in Docket No. R173-227 pursuant to section 4 of the Natural Gas Act and § 1.7(b) of the Commission's rules of practice and procedure, a petition for special relief with respect to the provisions of Opinion No. 598 issued July 16, 1971, in the Southern Louisiana Area Rate Proceeding, Docket No. AR69-1, and Opinion No. 595 issued May 6, 1971, in the Texas Gulf Coast Area Rate Proceeding, Docket No. AR64-2.

Petitioner requests the Commission to issue an order permitting it to discharge its \$1,009,752 Southern Louisiana refund obligation through credits against the \$5,820,000 which it has expended in connection with Project Rulison, and allowing it to collect the contractually authorized prices for its jurisdictional sales of gas from the Southern Louisiana and Texas Gulf Coast Areas to the extent such prices exceed applicable area prices. Petitioner agrees that all amounts it is permitted to collect in excess of the applicable area prices after recovery of \$4,810,248 (representing the cost to it of Project Rulison less the refund credit of \$1,009,752 discussed above) will be expended in maintaining its leases in the Rulison field and in the Pinedale area of Sublette County, Wyo., with any excess being used for exploration for new gas reserves in Southern Louisiana and the Texas Gulf Coast areas which would be offered first to interstate pipelines.

Any person desiring to be heard or to make any protest with reference to said petition should on or before March 22, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP73-70]

CAROLINA PIPELINE CO. AND TRANS-  
CONTINENTAL GAS PIPE LINE CORP.  
Notice of Postponement of Hearing

MARCH 2, 1973.

On March 1, 1973, Commission Staff Counsel filed a motion to dismiss in the above-designated matter. Staff Counsel concurrently filed a motion to postpone the hearing scheduled for March 7, 1973, until April 4, 1973, pending Commission action on the motion to dismiss.

Upon consideration, notice is hereby given that the hearing in the above-

## NOTICES

designated matter is postponed to April 4, 1973.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4825 Filed 3-13-73; 8:45 am]

[Docket No. CP73-184]

MICHIGAN WISCONSIN PIPE LINE CO.  
Notice of Petition To Amend

MARCH 7, 1973.

Take notice that on February 22, 1973, Michigan Wisconsin Pipe Line Co. (petitioner), 1 Woodward Avenue, Detroit, MI 48226, filed in Docket No. CP73-184 a petition to amend the order of the Commission issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act on June 1, 1972, by authorizing petitioner to increase the amount of gas it stores for Wisconsin Southern Gas Co. (Wisconsin Southern) and to increase the daily redelivery rate, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the order of June 1, 1972, in the subject docket, Petitioner was authorized inter alia, to accept from Wisconsin Southern each year daily volumes of up to 1,000 Mc.f. of gas and an annual volume of up to 200,000 Mc.f. for storage and redelivery to Wisconsin Southern at a daily rate of up to 2,000 Mc.f. during the period November 1, 1972, through March 1, 1973, and each year thereafter. Petitioner proposes to render additional storage service to Wisconsin Southern by accepting each year daily volumes of up to 2,000 Mc.f. of gas and an annual volume of up to 400,000 Mc.f. for storage and redelivery to Wisconsin Southern at a daily rate of up to 4,000 Mc.f., commencing November 1, 1973, pursuant to a February 9, 1973, agreement between the parties to amend the January 12, 1972, storage agreement.

Petitioner states that no new facilities will be needed to provide the proposed additional storage and redelivery service and that such additional service will permit Wisconsin Southern to convert off-peak gas supplies to firm winter high-end use.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before March 27, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a

petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4828 Filed 3-13-73; 8:45 am]

[Docket No. CP63-32]

PANHANDLE EASTERN PIPE LINE CO.  
Notice of Petition To Amend

MARCH 5, 1973.

Take notice that on February 26, 1973, Panhandle Eastern Pipe Line Co. (petitioner), Post Office Box 1642, Houston, TX 77001, filed in Docket No. CP63-32 a petition to amend the Commission's order issued pursuant to section 7(c) of the Natural Gas Act on November 8, 1962 (28 FPC 797), in said docket by authorizing the construction and operation of certain facilities and the exchange of natural gas with Terre Haute Gas Co. (Terre Haute) in order to implement a withdrawal test on petitioner's Calcutta-Carbon Storage project, Parke and Clay Counties, Ind., all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

The order of November 8, 1962, authorized petitioner to construct and operate certain facilities for the testing and development of the Calcutta-Carbon field. Petitioner and Terre Haute have entered into an exchange agreement, dated December 15, 1972, providing for the delivery by petitioner from the Calcutta-Carbon project such volumes of gas as can be delivered without compression, up to a maximum of 2,000 Mc.f. per day. Such gas, the petition indicates, will be delivered to Texas Gas Transmission Co. facilities for the account of Terre Haute. Further, the agreement provides that Terre Haute has the obligation to redeliver at least one-half of the cumulative volume delivered to it by Panhandle, and Terre Haute will either redeliver the balance by December 15, 1973, or purchase that part thereof not redelivered to Panhandle at a price of 45 cents per Mc.f.

Petitioner estimates that the subject proposal will require the installation in Clay County of certain pipeline, well-head, measurement, and leased gas conditioning facilities at a cost of \$111,600. Said cost will be financed, petitioner states, from funds on hand.

The petition indicates that, to date, no gas has ever been withdrawn by Petitioner from the Calcutta-Carbon storage reservoir and that the withdrawal test is required in order to permit the complete evaluation of said field for storage purposes.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before March 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of

## NOTICES

the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,  
Secretary.

[Docket No. G-5720 etc.]

# INTERSTATE SALES OF NATURAL GAS Notice of Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates<sup>1</sup>

MARCH 6, 1973.

Take notice that each of the applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before April 2, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its

<sup>1</sup> This notice does not provide for consolidation for hearing of the several matters covered herein.

own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further

notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. C173-582]  
KILLAM & HURD, LTD.

## Notice of Application

MARCH 12, 1973.

Take notice that on March 5, 1973, Killam & Hurd, Ltd. (Applicant), Post Office Box 499, Laredo, TX 78040, filed in Docket No. C173-582 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Trunkline Gas Co. from the North Telferner Field, Victoria County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell 2,000 Mcf of gas per day for 1 year at 35 cents per Mcf at 14.65 p.s.i.a. within the contemplation of 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 22, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

## NOTICES

[Docket No. E-7888 etc.]  
LONG ISLAND LIGHTING CO. ET AL.

## Notice of Applications

MARCH 12, 1973.

Take notice that each of the applicants listed herein has filed an application pursuant to section 205 of the Federal Power Act and Part 35 of the regulations issued thereunder.

Any person desiring to be heard or to make any protest with reference to said applications should on or before March 20, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The applications are on file with the Commission and available for public inspection.

Docket No.	Filing date	Applicant
E-7888.....	11-6-72	Long Island Lighting Co.

Applicant files October 25, 1972, capability sales agreement between Long Island Lighting Co. and Central Hudson Gas and Electric Corp. Under the agreement LILCO will furnish 29,000 kilowatts of electric generating capability from turbines installed on its system and the associated operating reserve and energy. Service under the agreement begins on November 1, 1972, and terminates on November 30, 1972.

Docket No.	Filing date	Applicant
E-7889.....	12-1-72	Long Island Lighting Co.

Applicant files October 25, 1972, capability sales agreement between Long Island Lighting Co., and Central Hudson Gas and Electric Corp., to take effect on December 1, 1972, and terminate on December 31, 1972. Under the agreement, LILCO will furnish 81,500 kilowatts of electric generating capability from four gas turbines installed on its system and the associated operating reserve and energy.

Docket No.	Filing date	Applicant
E-8046.....	2-26-73	Consumers Power Co.

[Docket No. RP71-107]

## NORTHERN NATURAL GAS CO. Notice of Proposed Changes in Tariff

MARCH 12, 1973.

Take notice that on March 2, 1973, Northern Natural Gas Co. (Northern), tendered for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, Second Revised Sheet No. 59a and First Revised Sheet No. 59b. An effective date of March 1, 1973, is requested.

Second Revised Sheet No. 59a contains language added to paragraph 9.4 of the general terms and conditions of Northern's FPC Gas Tariff to make clear that sales of gas in a billing group for the requirements of large volume consumers are subject to curtailment, excluding for such large volume consumer only that volume of Contract Demand which is certificated for firm service by the Commission and which is set forth in an effective service agreement and is shown on the Directory of Communities Served of Northern's Tariff. Northern states that the additional language will eliminate the possibility of a distributor firming up large volume interruptible requirements without the knowledge of Northern and the Commission for the purpose of excluding such requirements from curtailment.

First Revised Sheet No. 59b contained a revised paragraph 9.5 of the general terms and conditions of Northern's FPC Gas Tariff which is required to conform to the clarification of the Commission's October 2, 1972 order herein as set forth in the Commission's order denying rehearing issued November 27, 1972.

Northern requests that the Commission waive to the extent necessary the notice requirements of § 154.22 of the regulations. Copies of the filing have been served upon all gas utility cus-

tomers and upon interested State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 21, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,  
Secretary.

### FEDERAL RESERVE SYSTEM AMERICAN BANCORPORATION

#### Order Approving Acquisition of Bank

American Bancorporation, Columbus, Ohio, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of The Continental Bank, Continental, Ohio (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls five banks with deposits of \$27.4 million, representing one-tenth of 1 percent of aggregate deposits of commercial banks in Ohio. (All banking data are as of June 30, 1972, and reflect holding company formations and acquisitions approved through October 31, 1972.) Upon acquisition of Bank with deposits of \$6.7 million applicant would continue to rank as the smallest bank holding company in the State.

Bank serves the northern section of Putnam County and the village of Oakwood in Paulding County. Three other banks serve the market area and hold total deposits of \$8.6, \$7.2, and \$4.2 million, respectively, each serving its own agricultural community. The closest offices of Bank and any of applicant's present subsidiary banks are 35 miles apart, and no meaningful present competition exists between these or any of applicant's offices and Bank. Furthermore, it does not appear that significant future competition would develop between them in view of their wide separation and the restrictions placed on branching by Ohio laws. Competitive

considerations are consistent with approval of the application.

The financial and managerial resources of applicant, its subsidiary banks, and Bank are considered to be generally satisfactory, and their prospects appear favorable. Banking factors are consistent with approval of the application. The primary banking needs of the area appear to be satisfactorily served at the present time. However, applicant proposes to improve Bank's present services by its assistance in providing larger loans for customers, improvement of present parking facilities, and the installation of a drive-up teller window. Considerations relating to the convenience and needs of the communities to be served are consistent with and lend some support to approval of the application. It is the Board's judgment that consummation of the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated: (a) Before the 30th calendar day following the effective date of this order, or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

By order of the Board of Governors,<sup>1</sup> effective March 6, 1973.

[SEAL] TYNAN SMITH,  
Secretary of the Board.  
[FR Doc. 73-4830 Filed 3-13-73; 8:45 am]

### AMERICAN BANCSHARES, INC.

#### Acquisition of Bank

American Bancshares, Inc., North Miami, Fla., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the Second National Bank of Homestead, Homestead, Fla., a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank to be received not later than March 29, 1973.

Board of Governors of the Federal Reserve System, March 6, 1973.

[SEAL] MICHAEL A. GREENSPAN,  
Assistant Secretary of the Board.  
[FR Doc. 73-4831 Filed 3-13-73; 8:45 am]

<sup>1</sup> Voting for this action: Governors Mitchell, Daane, Brimmer, Sheehan, and Bucher. Absent and not voting: Chairman Burns and Governor Robertson.

### CBT CORP.

#### Proposed Acquisition of General Discount Corporation

CBT Corp., Hartford, Conn., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 184(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of General Discount Corp., and thereby to indirectly acquire voting shares of its subsidiaries, G.D.C. Leasing Corp. and General Discount Corp. (Maine), all with head offices in Boston, Mass. Notice of the application was published on January 9, 1973, in the Boston Globe, Boston, Mass., and on March 5, 1973, in both the Manchester Union Leader, Manchester, N.H., and the Providence Journal, Providence, R.I.

Applicant states that the proposed subsidiary would engage in the activities of financing accounts receivable, inventories, machinery and equipment, and real estate for business customers, and the leasing of equipment to business customers. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Boston. Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than April 3, 1973.

The Board of Governors of the Federal Reserve System, March 7, 1973.

[SEAL] MICHAEL A. GREENSPAN,  
Assistant Secretary of the Board.

### ELLIS BANKING CORP.

#### Order Approving Acquisition of Bank

Ellis Banking Corp., Bradenton, Fla., a bank holding company within the meaning of the Bank Holding Company

Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 51 percent or more of the voting shares of First Park Bank, Pinellas Park, Fla. (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls 16 banks with aggregate deposits of \$447.3 million, representing 2.6 percent of the total commercial bank deposits in the State, and is the eighth largest banking organization in Florida. (Bank deposit data are as of June 30, 1972 and reflect holding formations and acquisitions approved through December 31, 1972.)

Bank (\$22.6 million in deposits) is the ninth smallest of 26 banks in the South Pinellas County banking market and controls 2.3 percent of total commercial bank deposits in the area. Applicant has one subsidiary bank (\$33.7 million in deposits) in the market accounting for 3.4 percent of market deposits; upon consummation, applicant will become the fifth largest banking organization in the market, holding 5.7 percent of its deposits. Eleven multibank holding companies (with 16 banks) are represented in the market with the first, second, and third largest controlling 18.3, 15.8, and 9.6 percent of total deposits, respectively. The remaining banks not affiliated with Bank holding companies (exclusive of Bank) hold 21.8 percent of the market's deposits. The record reveals that the service areas of Bank and applicant's subsidiary bank slightly overlap; however, in view of the presence of intervening banks and an interstate highway being constructed that is expected to act as a barrier between these service areas, consummation of the proposed transaction would not appear to eliminate any significant existing or potential competition. Further, it appears that approval of this transaction will not have an adverse effect on any competing bank nor significantly increase the concentration of banking resources in any relevant area.

The financial and managerial resources of applicant and its subsidiary banks are generally satisfactory, the financial condition of Bank is excellent and its management satisfactory. Future prospects for all appear favorable. While the banking needs of the area are presently being served by Bank and its competitors, considerations related to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated: (a) Before the 30th calendar day following the effective date of this order, or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,<sup>1</sup> effective March 6, 1973.

By order of the Board of Governors,<sup>1</sup> effective March 6, 1973.

[SEAL] TYNAN SMITH,  
Secretary of the Board.  
[FR Doc. 73-4837 Filed 3-13-73; 8:45 am]

### ELLIS BANKING CORP.

#### Order Approving Acquisition of Bank

Ellis Banking Corp., Bradenton, Fla., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of First Security Bank, Bradenton, Fla., a proposed new bank (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls 16 banks with aggregate deposits of \$447.3 million, representing 2.6 percent of the total commercial bank deposits in Florida, and is the eighth largest banking organization in the State. (Bank deposit data are as of June 30, 1972 and reflect holding company formations and acquisitions approved through December 31, 1972.) Applicant competes in seven major banking markets in Florida and its respective position in those major markets are as follows: St. Petersburg, 3.4 percent of deposits; Clearwater-Tarpon Springs, 10.7 percent; Manatee County, 27.2 percent; Sarasota, 34.2 percent; Tampa, 2 percent; New Port Richey, 80.9 percent; and east Pasco County, 20.9 percent.

Bank would be located in the Manatee County banking market in west central Florida where applicant, as indicated above, has 27.2 percent of total commercial bank deposits through control of the largest and the smallest banks in the market. These two banks are located 3.3 miles north and 4.9 miles southeast, respectively, from the proposed new bank site. Of the nine banks in the banking market, the second and third largest, controlling 24.1 and 18.9 percent, respectively, are members of the first and sixth largest bank holding companies in the State. All banks in the market have

<sup>1</sup> Voting for this action: Governors Mitchell, Daane, Brimmer, Sheehan, and Bucher. Absent and not voting: Chairman Burns and Governor Robertson.

demonstrated ability to secure shares of deposit growth and, accordingly, competition between them and applicant should be enhanced. Inasmuch as Bank is a proposed new bank, no existing competition would be eliminated between Bank and applicant's subsidiaries; future competition should be nominal due to Bank's proposed immediate service area (2-mile radius) coupled with the existence of three banks in the areas between applicant's present subsidiary banks and Bank. Further, it appears that consummation of the proposal would not have an adverse effect on any competing bank.

The financial and managerial resources and future prospects of Applicant and its subsidiary banks are generally satisfactory. Future prospects of Bank also appear favorable; its financial and managerial resources are dependent upon Applicant which, as noted above, are generally satisfactory.

The banking needs of the relevant area are presently being served by existing organizations. Approval of this application would provide a more convenient source of banking services to area residents and business establishments. Further, approval would insure adequate future banking services in light of the substantial growth experienced in Manatee County and the future projections of a continued rapid rate of expansion.<sup>2</sup> Therefore, considerations relating to the convenience and needs of the area to be served are consistent with approval herein. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

<sup>1</sup> It has been suggested by opponents to this acquisition that consummation herein would result in enlarging applicant's already dominant position in this Florida market. The facts of record reveal that Southeast Banking Corp., Miami, through its subsidiary, Manatee National Bank, Bradenton, controls 24.1 percent of the market deposits while First Financial Corp., Tampa, through its subsidiary, Intercity National Bank, Bradenton, controls 18.9 percent. Intercity National Bank and Bayshore State Bank, Bradenton, have interlocking officers and directors; Bayshore has an additional 4.1 percent of the market deposits. These figures when compared to applicant's 27.2 percent control of deposits indicate that applicant does not now have a dominant position in the market and formation of the proposed new bank would not immediately increase this percentage.

<sup>2</sup> From the facts of record, the Board finds that applicant is not attempting to preempt a bank site before a need exists. The Comptroller of the Currency denied an application by the Manatee National Bank of Bradenton on March 15, 1971, for a national bank to be located in the same service area as that of Bank. Since that time, however, the Florida State Commissioner of Banking granted initial approval in July and August 1972 of two applications for new bank charters in Manatee County (including that of applicant). The Commissioner's approval of the aforementioned applications is consistent with the Board's finding that the subject area is now experiencing rapid commercial and residential growth with a developing need for additional banking facilities.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated: (a) Before the 30th calendar day following the effective date of this order, or (b) later than 3 months after that date, and (c) First Security Bank, Bradenton, Fla., shall be opened for business not later than 6 months after the effective date of this order. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,<sup>2</sup> effective March 6, 1973.

[SEAL] TYNAN SMITH,  
Secretary of the Board.  
[FR Doc. 73-4836 Filed 3-13-73; 8:45 am]

#### ELLIS BANKING CORP.

##### Order Approving Acquisition of Bank

Ellis Banking Corp., Bradenton, Fla., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of First National Bank of Hudson, Hudson, Fla., a proposed new bank (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls 16 banks with aggregate deposits of \$447.3 million,<sup>1</sup> representing 2.6 percent of the total commercial bank deposits in Florida, and is the eighth largest banking organization in the State. Inasmuch as Bank is a proposed new bank, no existing competition would be eliminated nor would the concentration level of banking resources be immediately increased in any relevant area.

Bank would be competing in the New Port Richey banking market of an estimated 65,000 people located in the western portion of Pasco County on Florida's west coast. Applicant is the largest banking organization in the relevant market and controls, through two subsidiary banks (located 6½ and 7 miles south, respectively, from the proposed bank site), 80.9 percent of total deposits as of June 30, 1972. Several factors have caused applicant's dominance in the market area

to be reduced in recent years. The establishment of two new banks since 1970 reduced applicant's share of total deposits from 100 percent to 80.9 percent as of June 30, 1972. Even this percentage is somewhat overstated because, since that date, two additional banks have been opened. Population in the market area increased 266.4 percent from 1960 to 1970, and total deposits expanded 313.7 percent from 1967 to 1971. Much of this growth in population and total deposits was due to the immigration of retirees into Pasco County which has the highest percent of persons over 65 years old in Florida—31 percent. In view of the expected large population increases and accompanying growth in deposits, it appears that the market will continue to remain attractive for de novo entry as evidenced by the new banks which recently opened in the area. Accordingly, it appears that consummation of the proposal herein would not adversely alter the competitive situation nor the concentration of resources in the market, nor is there any evidence that applicant is attempting to preempt a site before there is a need for a bank.

The unincorporated community of Hudson with a currently estimated population of 2,800 has no commercial banking facility at the present time. Approval of this application would provide a more convenient source of banking services to its residents. Therefore, considerations relating to the convenience and needs of the area to be served lend support to approval of the application.

The financial and managerial resources of applicant and its subsidiary banks are generally satisfactory; Bank, as a proposed new bank, has no operating history but its projected earnings and growth under Applicant's control appear favorable.<sup>3</sup> Banking factors are consistent with approval of this application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application shall be approved.

On the basis of the record, the application is approved for the reasons summarized above.<sup>4</sup> The transaction shall not be consummated: (a) Before the 30th calendar day following the effective date of this order, or (b) later than 3 months after that date, and (c) First National Bank of Hudson, Hudson, Fla., shall be opened for business not later than 6 months after the effective date of this order. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

<sup>2</sup> Applicant has projected, and not unreasonably, that Bank will grow to \$3.8 million in total deposits during the first 3 years of operation.

<sup>3</sup> Dissenting Statement of Governors Robertson and Brimmer filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Atlanta.

<sup>4</sup> Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, Sheehan, and Bucher.

<sup>5</sup> Bank deposit data are as of June 30, 1972, and reflect holding company formations and acquisitions approved through Dec. 31, 1972.

By order of the Board of Governors,<sup>2</sup> effective March 6, 1973.

[SEAL] TYNAN SMITH,  
Secretary of the Board.  
[FR Doc. 73-4834 Filed 3-13-73; 8:45 am]

#### FIRST AT ORLANDO CORP.

##### Order Denying Acquisition of Bank

First at Orlando Corp., Orlando, Fla., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of Citrus First National Bank of Leesburg, Leesburg, Fla., a proposed new bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the second largest banking organization in Florida, controls 32 banks which hold aggregate deposits of \$1.1 billion, representing 6.6 percent of the total deposits in commercial banks in the State. (Unless otherwise indicated, banking data are as of June 30, 1972, and reflect holding company acquisitions and formations approved by the Board through December 31, 1972.) The First National Bank of Leesburg (First Bank), a subsidiary of applicant, holds approximately 24 percent of the total deposits held by commercial banks located in the north Lake County banking market; applicant ranks thereby as the second largest banking group and the largest bank holding company in the market. First Bank (\$34 million deposits) is the largest of nine banks in the market, and the largest of three banks within the immediate Leesburg area, with approximately 61 percent of deposits in that area. In addition, through other subsidiary banks, applicant controls 43 percent of deposits in the neighboring Orlando banking market (south of Lake County) and is the largest banking organization in that market; and applicant controls 35 percent of the neighboring Ocala banking market (north of Lake County) and is the largest banking organization in that market as well.

Bank is proposed to be located in the city of Leesburg in northern Lake County in central Florida. The three banks presently located in the city of Leesburg (which includes one subsidiary bank of applicant) appear to compete in

<sup>2</sup> Voting for this action: Chairman Burns and Governors Mitchell, Sheehan, and Bucher. Dissenting from this action: Governors Robertson and Brimmer. Absent and not voting: Governor Daane.

the North Lake County banking market, which is approximated by the Golden Triangle area (which includes the towns of Tavares, Eustis, Mount Dora, and Umatilla) and the area immediately surrounding and including the city of Leesburg. First Bank (applicant's subsidiary) is located in the downtown area of Leesburg 1.6 miles east of the proposed site of Bank. Citizens National Bank of Leesburg (\$21 million deposits), located 5 miles northeast from the proposed location of Bank, holds approximately 39 percent of deposits in the Leesburg area and is part of the largest banking organization in the market which holds approximately 35 percent of deposits in North Lake County.

Lake Eustis separates the Leesburg area from much of the Golden Triangle area, but two major roads, one passing Lake Eustis on the north and one on the south, connect the two areas, and all the major towns in the Golden Triangle area are within a radius of 22 miles of Leesburg. Residential and commercial development has occurred recently just west of the Golden Triangle area toward Leesburg, just east of Leesburg toward the Golden Triangle area, and in the intervening area between Leesburg and the Golden Triangle area. Further development is expected in this intervening area, spurred in part by the expected construction of a community college approximately midway along the major road joining Leesburg and the Golden Triangle area. In view of the foregoing, commuting patterns in Lake County, and the responsiveness of Leesburg banks to changes in the banking charges and services at the other banks in North Lake County, the Board regards the relevant banking market in the present case as North Lake County.

Since Applicant's proposal involves the establishment of a new bank which will be opened only in the event of approval of the application, no existing competition nor potential competition between Applicant's subsidiaries and Bank would be eliminated by the proposal, and there would be no immediate increase in banking concentration in any area. However, in addition, the Board is concerned and has focused its attention particularly on the competitive effects of Applicant's proposal on the Leesburg portion of the relevant market, wherein Applicant already controls over 60 percent of the deposits.

The Leesburg area, as a result of its location on Highway 27, one of the major highway approaches to the newly opened Disney World complex, its proximity to Disney World, approximately 42 miles to the southeast, and increases in the retirement population of the area, has experienced increased economic activity over the past 2 years. This growth has occurred primarily in the portion of Leesburg west of the downtown area, and Bank would be located close to the intersection of Highway 27 and Route 441, the major highway connecting Leesburg with the Golden Triangle area. A new bank, the third in the area, opened in August 1972, and is located on Route 27 less than

1 mile to the north of the proposed location of Bank. Deposits in Leesburg banks increased by approximately 30 percent during 1971, and total deposits of all banks in the north Lake County market increased by approximately 43 percent during the period from June 1970 to June 1972.

However, in spite of this activity, the population of Leesburg has remained somewhat stable, increasing about 5 percent (11,172 to 11,879) from 1960 to 1970, and it appears that the Leesburg and the north Lake County banking market already have an adequate number of banking offices in comparison to the rest of the State. Presently, there are an average 13,579 persons per banking office in the State of Florida. In Leesburg, the present ratio is 8,940 persons per banking office; should the proposed transaction be consummated, the ratio would drop to 6,930 persons per banking office, approximately half the State average. The ratio of population to banking office in the north Lake County banking market is approximately 6,317 to 1 and would become 5,685 to 1 if Bank were to open. Subsequent to the granting of a charter to Bank, two groups withdrew charter applications for locations in the Leesburg area apparently in the belief that the Leesburg area could not support an additional bank. The facts tend to support this belief. Lake County Bank, which opened in August 1972, has experienced heavy start-up operating losses, reducing its undivided profits account by half, and has encountered difficulties in attracting local deposits. In commenting on the instant application, Lake County Bank has asserted that the opening of Bank at a location of approximately 0.7 mile distant from its own office could seriously jeopardize its viability. In view of the past experiences, the Board finds that approval of this application is likely to have the effect of hindering significantly the ability of Lake County Bank to establish itself as a viable competitor in the market. The Board has previously denied applications where the establishment of a de novo bank by a bank holding company with an already strong competitive position would have such an effect by adversely affecting the competitive position of a smaller or recently opened bank.<sup>1</sup> While the Board will not act simply to protect an ineffective competitor from its own inability to successfully compete, the Board will not sanction the efforts of the area's dominant banking organization to solidify its position in the area at the direct expense of a newly emerging competitor.

Given the present state of banking concentration in the area, the Board is

<sup>1</sup> See statement accompanying order of Dec. 20, 1957, denying application of Wisconsin Bankshares Corp. to acquire shares of proposed Capital National Bank of Milwaukee (44 Federal Reserve Bulletin 15 (1958)); statement accompanying order of Mar. 23, 1967, denying application of First National Corp. to acquire shares of proposed First National Bank West (53 Federal Reserve Bulletin 582 (1967)).

of the view that the probable effect of the opening at this time of a new bank at the proposed location by Applicant, which appears to be dominant in the Leesburg area, as well as in neighboring banking markets, and possesses considerable market power in the north Lake County banking market,<sup>2</sup> would be to reduce further the likelihood of a deconcentration of banking resources in the Leesburg area and the north Lake County banking market. The U.S. Supreme Court, in another context, has noted that "if concentration is already great, the importance of . . . preserving the possibility of eventual deconcentration is correspondingly great."<sup>3</sup> The elimination of such a possibility, even as a result of de novo entry, may be substantially to lessen competition. The Board has acted against the establishment of a de novo bank by a holding company in an area in which the bank holding company is considered dominant.<sup>4</sup> This has been the case even where a real need for a new bank has been clearly and convincingly established.<sup>5</sup>

Inasmuch as entry into a commercial banking market is restricted, opportunities for deconcentration are limited. This is particularly true in a State . . . where branching is highly restricted. If every newly developing need for banking facilities which arises in a concentrated market were to be filled by the market's dominant organization, any meaningful deconcentration of the market's banking resources would be made impossible, and further concentration might be encouraged. Each application by such an organization to expand within its present trade area, even through acquisition of a new bank, must therefore be examined to determine its probable effect on existing concentration, whether it will foreclose an opportunity for new entry which could provide additional competition and possibly promote a decrease in concentration, and its effect in limiting the development of existing competitors located in or near the area to be served by the new institution.<sup>6</sup>

<sup>2</sup> With approximately 24 percent of market deposits, Applicant is the second largest banking group controlling the largest bank in the market. The largest banking group controls 35 percent of market deposits and the third largest group and bank in the market holds approximately 14 percent of market deposits. Therefore, of the seven banking organizations in the north Lake County banking market, the three largest control approximately 73 percent of market deposits, and the two largest control approximately 59 percent of market deposits.

<sup>3</sup> United States v. Philadelphia National Bank, 374 U.S. 321, 365 N. 42 (1963).

<sup>4</sup> See statement accompanying order of Jan. 4, 1966, denying Application of Central Wisconsin Bankshares, Inc. to acquire shares of proposed Central National Bank of Stettin (52 Federal Reserve Bulletin 29 (1966)).

<sup>5</sup> See statement accompanying order of Nov. 27, 1968, denying application of First Wisconsin Bankshares Corp. to acquire shares of proposed First Wisconsin National Bank of Greenfield (54 Federal Reserve Bulletin 1024 (1968)).

<sup>6</sup> Statement accompanying order of July 2, 1968, approving application of First Wisconsin Bankshares Corp. to acquire shares of proposed First Northwestern National Bank of Milwaukee (54 Federal Reserve Bulletin 645, 647-48 (1968)).

## NOTICES

In addition to the effect consummation of the proposed transaction is expected to have on at least one existing competitor in the Leesburg area and the perpetuation of a high degree of banking concentration, the proposal would eliminate the possibilities for increased competition and a deconcentration of banking resources by reducing the opportunity for new entry by a bank organization not already represented in the market—an alternative that the Board considers to be clearly preferable to the proposal herein. The receipt of a charter by the organizers of Bank was apparently one of the factors that resulted in the abandonment of charter application plans by two other banking groups. In view of Applicant's already existing market position in Leesburg, Applicant's entry via the proposal herein can be expected to have even a more formidable effect on entry plans of the two groups mentioned above or on others. This factor alone provides substantial weight for the denial of this application in the absence of any countervailing considerations.<sup>2</sup>

On the basis of the foregoing and other facts of record, the Board concludes that consummation of the proposed transaction would adversely affect the development of competition in the Leesburg area and the north Lake County banking market by jeopardizing the competitive ability of Lake County Bank and by foreclosing entry by other banking organizations and thereby perpetuating a high level of concentration of banking resources. In view of such conclusions, the Board is precluded from approving the application unless the anticompetitive effects are outweighed by other factors in the record.

The financial and managerial resources and future prospects of Applicant and its subsidiary banks appear generally satisfactory, as do financial and managerial resources and future prospects of Bank, which would be dependent upon assistance from Applicant. These factors are consistent with, but lend no weight toward, approval of the application.

The banking needs of the Leesburg and north Lake County areas are presently being adequately met by the already existing banking institutions. The recent opening of the Lake County Bank suggests that those needs will continue to be met in the reasonably foreseeable future. Bank would serve as a more convenient source of banking services for a number of residents of west Leesburg who are presently customers of First Bank in that Bank would be located approximately 1½ miles closer to them. However, there is no evidence that this distance causes those residents any great hardship; furthermore, the Board does not regard this slight (almost insignificant) increase in convenience as outweighing the adverse competitive effects inherent in the proposed transaction.

<sup>2</sup>See statement accompanying order of Oct. 19, 1970, denying application of Security Financial Services, Inc., to acquire shares of proposed Security West Side Bank (56 Federal Reserve Bulletin 834 (1970)).

On the basis of all relevant facts in the record, and in the light of the factors set forth in section 3(c) of the Act, it is the Board's judgment that the proposed acquisition would have adverse effects on competition, without any significant offsetting benefits under considerations relating to the banking factors or the convenience and needs of the communities to be served. Accordingly, the Board concludes that consummation of the proposal would not be in the public interest and that the application should be, and the application is hereby, denied.

By order of the Board of Governors,  
effective March 6, 1973.

[SEAL] TYNAN SMITH,  
Secretary of the Board.  
[FR Doc. 73-4833 Filed 3-13-73; 8:45 am]

#### FIRST NATIONAL FINANCIAL CORP. Acquisition of Bank

First National Financial Corp., Kalamazoo, Mich., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares of the successor by merger to the Commercial Bank of Menominee, Menominee, Mich. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than April 2, 1973.

Board of Governors of the Federal Reserve System, March 6, 1973.

[SEAL] MICHAEL A. GREENSPAN,  
Assistant Secretary of the Board.  
[FR Doc. 73-4832 Filed 3-13-73; 8:45 am]

#### NORTHWEST IOWA BANCORPORATION Order Approving Formation of Bank Holding Company

Northwest Iowa Bancorporation, Le Mars, Iowa, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through the acquisition of 80 percent or more of the voting shares of the Lakes National Bank, Arnolds Park, Iowa (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

<sup>1</sup>Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, Sheehan, and Bucher.

Since its organization in 1967, Applicant has been selling credit life insurance to customers of Bank's predecessor organization.<sup>1</sup> Bank was granted a national bank charter on September 29, 1971, and opened for business on January 6, 1972. Upon approval of this application, Applicant proposes to transfer its credit life insurance agency operations to Bank. Bank is located in a community of less than 5,000 people, and would conduct such insurance agency activities pursuant to its authority as a national bank (12 U.S.C. 92 and 12 CFR 7.7100).

Bank has deposits of \$1.9 million, representing less than 1 percent of total deposits in commercial banks in Iowa, and is the smallest of four banks located in the Arnolds Park area.<sup>2</sup> Since the sole shareholder of Applicant owns 96 percent of Bank's shares, the proposed transaction involves only a change from individual to corporate ownership. Accordingly, consummation of the proposed transaction would have no adverse effect on existing or potential competition.

Although Applicant would incur a significant amount of debt in relation to its net worth in acquiring Bank, Applicant has committed itself to increase its equity capital and has arranged to amortize its remaining debt over a period of 12 years. In addition to these facts, since Bank's income will be increased by the insurance agency operations being transferred to it by Applicant, it appears that Applicant will be able to service its debt without adversely affecting the condition of Bank. Accordingly, the financial and managerial resources and future prospects of Applicant and Bank are consistent with approval of this application. Considerations relating to the convenience and needs of the communities to be served are consistent with approval of the application. It is the Board's judgment that the proposed transaction is in the public interest and should be approved.

On the basis of the record, the application is approved for the reasons set forth in the Board's statement of this date. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,  
effective March 6, 1973.

[SEAL] TYNAN SMITH,  
Secretary of the Board.  
[FR Doc. 73-4835 Filed 3-13-73; 8:45 am]

<sup>1</sup>Prior to the time Bank was granted a national bank charter, it was operated as a branch of First National Bank, Sibley, Iowa.

<sup>2</sup>Banking data are as of June 30, 1972, adjusted to reflect holding company formations and acquisitions through Dec. 31, 1972.

<sup>3</sup>Voting for this action: Governors Mitchell, Daane, Brimmer, Sheehan, and Bucher. Absent and not voting: Chairman Burns and Governor Robertson.

#### SOUTHWEST FLORIDA BANKS, INC. Order Approving Formation of Bank Holding Company

Southwest Florida Banks, Inc., Fort Myers, Fla., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 80 percent or more of the voting shares of the following five banks, all in Florida: (1) First National Bank in Fort Myers, Fort Myers (Fort Myers Bank); (2) Beach First National Bank, Fort Myers Beach (Beach Bank); (3) East First National Bank, Fort Myers (East Bank); (4) National Bank of Sarasota, Sarasota (Sarasota Bank); and (5) National Bank Gulf Gate, Sarasota (Gulf Gate Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, a newly organized Florida corporation, proposes to acquire control of the above five banks; three located in Lee County, two located in Sarasota County, in Florida. Consummation of the proposal would give Applicant control of \$198 million in deposits which represents 12 percent of deposits in commercial banks in the State of Florida. It would become the 19th largest banking organization in the State.<sup>1</sup>

Management of Fort Myers Bank (\$116.6 million in deposits) was instrumental in the formation of Beach Bank (\$10.3 million in deposits) and East Bank (\$5.4 million in deposits). Since the formations the three banks, which control 36 percent of the Fort Myers market deposits, have been closely affiliated through common stock ownership of over 51 percent and interlocking directorships. Additionally, the banks offer many services to customers on a cooperative basis and share many internal services. Due to this affiliation, consummation of the proposal would eliminate no significant existing competition in the Fort Myers market. Similarly, Sarasota Bank (\$42.4 million in deposits) and Gulf Gate Bank (\$22.9 million in deposits) are affiliated by common management and common stock ownership of over 70 percent. Consummation of the proposal would have no adverse effects on existing competition in the Sarasota banking market where the subject banks hold 17 percent of market deposits.

With respect to potential competition, due to the nature and strength of the affiliations, there is little likelihood that, absent this proposal, competition would develop within either of the presently existing groups. Further, each of these groups is relatively small, and since the

<sup>1</sup>All banking data are as of June 30, 1972.

## NOTICES

banking markets involved are separated by over 70 miles, it does not appear likely that either group would enter the market served by the other.<sup>2</sup> The Board concludes that consummation of the proposal would have no significant adverse effects on potential competition.

The financial and managerial resources of Applicant and its proposed subsidiaries are satisfactory, taking into account Applicant's commitment to add capital to three of the banks, and future prospects are favorable. These considerations are consistent with approval. Although consummation of the transaction will have no immediate effect on the banking needs of the residents in Applicant's banking markets, considerations relating to the convenience and needs of the communities to be served are regarded as consistent with approval. It is the Board's judgment that the transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,  
effective March 6, 1973.

[SEAL] TYNAN SMITH,  
Secretary of the Board.

#### INTERIM COMPLIANCE PANEL (COAL MINE HEALTH AND SAFETY)

[ICP Docket No. 20348]

##### WESTMORELAND COAL CO.

Application for Renewal Permit; Notice of Opportunity for Public Hearing

Application for Renewal Permit for Noncompliance with the Interim Mandatory Dust Standard (2.0 mg/m<sup>3</sup>) has been received as follows:

ICP Docket No. 20348, Westmoreland Coal Co., McAlpin No. 3 UG Mine, USBM ID No. 46 01517 0, McAlpin, W. Va., Section ID No. 016 (2d panel right), Section ID No. 018 (4 right off 2d south headings).

In accordance with the provisions of section 202(b)(4) (30 U.S.C. 842(b)(4))

<sup>1</sup>This contrasts with the Board's findings with respect to the applications of First at Orlando Corp., to acquire the Sarasota group where First at Orlando was a likely entrant into the market with the size and ability to enter de novo or through the acquisition of a smaller bank. Further, after Board approval for First at Orlando to acquire the smaller bank in the group, the owners of the group were unwilling to sell only one of the banks. (1971 Federal Reserve Bulletin 1013.)

<sup>2</sup>Voting for this action: Governors Mitchell, Daane, Brimmer, Sheehan, and Bucher. Absent and not voting: Chairman Burns and Governor Robertson.

of the Federal Coal Mine Health and Safety Act of 1969 (83 Stat. 742, et seq., Public Law 91-173), notice is hereby given that requests for public hearing as to an application for renewal may be filed on or before March 29, 1973. Requests for public hearing must be filed in accordance with 30 CFR Part 505 (35 FR 11296, July 15, 1970), as amended, copies of which may be obtained from the Panel on request.

A copy of the application is available for inspection and requests for public hearing may be filed in the office of the Correspondence Control Officer, Interim Compliance Panel, Room 800, 1720 K Street NW., Washington, DC 20006.

GEORGE A. HORNBECK,  
Chairman,  
Interim Compliance Panel.

#### NATIONAL SCIENCE FOUNDATION ADVISORY COMMITTEE FOR RESEARCH

##### Notice of Meeting

MARCH 8, 1973.

Pursuant to the Federal Advisory Committee Act (P.L. 92-463) notice is hereby given that a meeting of the Advisory Committee for Research will be held at 9:00 a.m. on March 22 and 23, 1973 in Room 540, 1800 G Street NW., Washington, DC 20550. The purpose of this committee is to provide advice and counsel concerning research activities and potential in the U.S. and to consult on problems in the administration of research support.

The agenda for this meeting shall include:

##### MARCH 22 SESSION

###### A.M. PORTION

- 9:00—Welcome and opening remarks—Committee Chairman.
- 9:30—Research Advisory Committee in Perspective—Director, National Science Foundation.
  - Review of NSF Mission.
  - Review of NSF Programs.
  - Statement of Committee Purpose and Relation to NSF Mission.
- 10:00—Proposed Committee Operant—Committee Chairman.
- Relation of Committee Purpose to Research Advisory Requirements of:
  - a. Research Directorate — Assistant Director for Research;
  - b. National and International Programs—Assistant Director for National and International Programs;
  - c. Research Applications Directorate—Assistant Director for Research Applications.
- 11:25—The 1973 and 1974 NSF Budget Situation; Prospects for Federal Support of Basic Science—Near and Long Term—Director, National Science Foundation.
- 12:00—Break for lunch.

###### P.M. PORTION

- 1:15—Impact of Changing National Priorities on Federal Support of Science—Senior Staff Associate, Directorate of Research.
- 1:45—Distribution of special problem area statements and floor suggestions of other possible areas for later review by ad hoc task groups; arrangements for ad hoc task group activities—Committee Chairman.
- Instructions to ad hoc task groups—Deputy Assistant Director of Research.
- 3:00—Recess of full committee for reassembly into ad hoc task groups to discuss problem area topics (specific room numbers to be announced prior to recess).

##### MARCH 23 SESSION

###### A.M. PORTION

- 9:00—Continuation of ad hoc task group discussions (same room numbers as previously announced).

- 10:30—Assembly of full committee (Room 540)—Presentations of ad hoc task groups to full committee.
- 12:30—Break for lunch.

###### P.M. PORTION

- 1:30—Appointment of chairmen for ad hoc task groups and assignment of special problem areas for intensive review—Committee Chairman.
- 2:30—Floor discussion of other special problem areas for possible future examination by ad hoc groups—Deputy Assistant Director for Research.
- 3:30—Future meeting schedules—Committee Chairman.
- 3:45—Adjournment.

The meeting shall be open to the public and attendance will be limited to space available on a first-come basis. Persons who plan to attend should notify Mr. Leonard Gardner, Directorate for Research by telephone (202-632-4278) or by mail (Room 320, 1800 G Street NW., Washington, DC 20550) not later than close of business on March 19, 1973.

For further information concerning this committee, contact Mr. Leonard F. Gardner, Special Assistant, Directorate for Research, Room 320, 1800 G Street NW., Washington, DC 20550. Summary minutes of this meeting may be obtained by contacting the Management Analysis Office, Room K-720, 1800 G Street NW., Washington, DC 20550.

T. E. JENKINS,  
Assistant Director  
for Administration.

#### ADVISORY PANEL FOR HUMAN CELL BIOLOGY

##### Notice of Meeting

MARCH 8, 1973.

Pursuant to the Federal Advisory Committee Act (Public Law 92-463) notice is hereby given that a meeting of the Advisory Panel for Human Cell Biology will be held at 8:30 a.m., on March 24, and 25, 1973 in Room 338, 1800 G Street NW., Washington, DC 20550. The purpose of this panel is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects.

This meeting will not be open to the public in accordance with the determination by the Director of the National Science Foundation dated January 15, 1973, pursuant to the provisions of section 10(d) of the Federal Advisory Committee Act. For further information, contact Dr. Herman W. Lewis, Acting Program Director, Human Cell Biology Program, Room 325, 1800 G Street NW., Washington, DC 20550.

T. E. JENKINS,  
Assistant Director  
for Administration.

MARCH 5, 1973.

#### ADVISORY PANEL FOR ASTRONOMY

##### Notice of Meeting

MARCH 8, 1973.

Pursuant to the Federal Advisory Committee Act (Public Law 92-463) notice is hereby given that a meeting of the Advisory Panel for Astronomy will be held at 9 a.m., on March 26 and 27, 1973 in Room 338, 1800 G Street NW., Washington, DC 20550. The purpose of this panel is to provide advice and recommendations concerning support for research and research-related activities in Astronomy.

The agenda for this meeting shall include:

1. Discussion of the needs for support for theoretical astrophysics (computational support, special programs and institutions).
2. Discussion of observing sites (future of dark sky sites, protection, acquisition).
3. Discussion of cosmic ray research in astronomy.
4. Discussion of the need for support of astronomical institutions by grants for observatory operations, departmental block grants, coherent area grants, project grants, etc.
5. Discussion of long range plans for instruments and instrumentation.

This meeting will be open to the public on a space available basis and the public may make written suggestions following the meeting. Persons who desire to attend should notify Mrs. Marvis M. Rush, Astronomy Section, by telephone (202-632-4196) or by mail (Room 305, 1800 G Street NW., Washington, DC 20550), not later than close of business on March 23, 1973.

For further information respecting this panel, contact Dr. Robert Fleischer, Section Head, Astronomy Section, Room 305, 1800 G Street NW., Washington, DC 20550. Summary minutes relative to this meeting may be obtained by contacting the management Analysis Office, Room K-720, 1800 G Street NW., Washington, DC 20550.

T. E. JENKINS,  
Assistant Director  
for Administration.

MARCH 5, 1973.

[FR Doc. 73-4926 Filed 3-13-73; 8:45 am]

#### SECURITIES AND EXCHANGE COMMISSION

[812-3350]

##### AUDAX FUND INC. ET AL.

##### Notice of Application for Order Exempting Applicants

MARCH 7, 1973.

Notice is hereby given that Audax Fund Inc., and Wisconsin Fund, Inc. (Funds), both open-end diversified management investment companies registered under the Investment Company Act of 1940 (Act), and Wisconsin Investment Management Co., Inc., 225 East Michigan Street, Milwaukee, WI 53202 (Management), the principal underwriter for the Funds (hereinafter collectively called "Applicants") have filed an application pursuant to section 6(c) of the Act for

an order of the Commission exempting Applicants from section 22(d) of the Act and Rule 22d-1 thereunder. All interested persons are referred to the application, as amended, on file with the Commission for a statement of the representations made therein, which are summarized below.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter thereof shall sell any redeemable security issued by such company to any person except at a current offering price described in the prospectus. The prospectuses of the Funds state that a sales commission is included in the offering price of the shares of such Funds.

Applicants propose to offer to persons who have caused their shares of either of the Funds to be redeemed the privilege of being able to reinstate their accounts without any sales charges. In order to be eligible for such privilege, an investor must not previously have exercised the privilege. Reinstatement, or the purchase of shares of a Fund pursuant to the privilege, will be limited to not more than the amount of the redemption proceeds (or, if fractional shares are not purchased, to an amount necessary to purchase the nearest full share). A written order to purchase the shares must be received by the Fund or Management or be postmarked, within 15 days after the date the request for redemption was received. The reinstatement will be made at net asset value next determined after notice of the exercise of the privilege is received. Salesmen of shares of the Fund involved would receive no compensation of any kind in connection with the reinvestments.

It is contemplated that Management, at its expense, will include with the redemption check mailed to a redeeming shareholder a statement containing information concerning the repurchase privilege. Telephone calls to redeeming shareholders are also contemplated.

Applicants contend that the proposed privilege will enable investors to be reminded of features of their investment which they may have overlooked, or which they may have misunderstood at the time they redeemed, and that in order to minimize the possibility of shareholder speculation on a possible short-term decline in the net asset value of the Funds' shares, the reinvestment privilege is being offered on a one-time basis and must be exercised within a relatively short period of time.

Section 6(c) of the Act provides that the Commission may, upon application, conditionally or unconditionally exempt any person or transaction from any provisions of the Act if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than March 30, 1973 at 5:30 p.m., submit to the Commission in writing a request for a hearing

on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,  
Secretary.

[FR Doc. 73-4846 Filed 3-13-73; 8:45 am]

[File No. 500-1]

#### CLINTON OIL CO.

##### Order Suspending Trading

MARCH 7, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, \$0.03 1/2 par value, and all other securities of Clinton Oil Co., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors; It is ordered, Pursuant to section 15(c) (5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from March 8, 1973, through March 17, 1973.

By the Commission.

[SEAL] RONALD F. HUNT,  
Secretary.

[FR Doc. 73-4843 Filed 3-13-73; 8:45 am]

[812-3381]

#### E. F. HUTTON TAX-EXEMPT FUND (ALL EXISTING AND SUBSEQUENT NATIONAL AND STATE SERIES), ET AL.

##### Notice of Filing of Application

MARCH 7, 1973.

Notice is hereby given that E. F. Hutton Tax-Exempt Fund (All Existing and

Subsequent National and State Series), Michigan Fund, Tax-Exempt Municipal Investment Trust (First and Subsequent Series), and Pennsylvania Fund, Tax-Exempt Municipal Investment Trust (First and Subsequent Series) (the Applicants) c/o E. F. Hutton & Co., Inc., One Battery Park Plaza, New York, NY 10004, all unit investment trusts registered under the Investment Company Act of 1940 (the Act), have jointly filed an application pursuant to section 6(c) of the Act for an order exempting Applicants from the provisions of Rule 19b-1 under the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Each of the Applicants is or will be composed of unit investment trusts, all of which are organized or, in the case of subsequent series, will be organized under the laws of the State of New York. E. F. Hutton & Co., Inc., acts as sponsor of E. F. Hutton Tax-Exempt Fund and co-sponsor of Michigan Fund, Tax-Exempt Municipal Investment Trust (also co-sponsored by Manley, Bennett, McDonald & Co.), and Pennsylvania Fund, Tax-Exempt Municipal Investment Trust (also co-sponsored by Butcher and Sherrard). Each existing series of the Applicants is governed by the provisions of a trust indenture and agreement (Indenture) entered into by the sponsor or co-sponsors and U.S. Trust Co. of New York as Trustee (Trustee), and consists of a diversified portfolio of interest-bearing obligations (Bonds) issued by or on behalf of States, counties, municipalities, authorities or political subdivisions thereof, or territories or possessions of the United States, the interest from which, in the opinion of recognized bond counsel, is exempt, under existing law, from all applicable Federal and State income taxes. Pursuant to the terms of the Indenture for each series, the sponsor or co-sponsors deposit in excess of \$3 million principal amount of the Bonds with the Trustee who, in turn, delivers to the sponsor or co-sponsor registered certificates in excess of 3,000 units which represents the entire ownership of that particular series. Once the Bonds are deposited with the Trustee, they may not be pledged or in any way subjected to any debt by the Applicants. After such a deposit is made with the Trustee for a series, and following the effective date of a registration statement under the Securities Act of 1933 for the series, and clearance by the Blue-Sky authorities of the various States, the sponsor or co-sponsors offer the units of that series to the public at the public offering price set forth in the prospectus relating to such series, plus accrued interest.

Certain of the Bonds may from time-to-time be sold under circumstances set forth below or may be redeemed or may mature in accordance with their terms. The proceeds from such dispositions will be distributed to the unitholders and not reinvested. Units will remain outstanding until redeemed or until the termina-

tion of an Indenture, which may occur by 100 percent agreement of the unitholders of the series, or, in the event that the value of the Bonds falls below an amount specified for each series either upon direction of the sponsors to the Trustee or by the Trustee without such direction.

It is intended that distributions of principal and interest will be made to unitholders monthly, quarterly, and semiannually. Distributions of principal constituting capital gains to unitholders may arise in two instances: (1) If an issuing authority calls or redeems an issue held in the portfolio, the sums received by an Applicant will be distributed to unitholders on the next distribution date; and (2) if units are redeemed by the Trustee and Bonds from the portfolio are sold to provide the funds necessary for such redemption, each unitholder will receive his pro rata portion of the proceeds from the Bonds sold. In such instances, a unitholder will frequently receive in his distribution funds which constitute capital gains since, in many cases, the value of the Bonds redeemed or sold will have increased since the date of initial deposit.

Distributions of capital gains more frequently than annually are, however, prohibited by Rule 19b-1(a) which provides, in part, that no registered investment company which is a regulated investment company, as defined in section 851 of the Internal Revenue Code of 1954, shall distribute more than one capital gain distribution in any one taxable year of the company, and by paragraph (b) of the rule which contains a similar prohibition for a company not a regulated investment company, but permits a unit investment trust to distribute capital gain distributions received from a regulated investment company within a reasonable time after receipt.

In support of their requested exemption from Rule 19b-1, Applicants represent that the dangers which Rule 19b-1 is intended to guard against, to wit, the realization of capital gains on a frequent and regular basis, will not exist in the Applicant's situation since they and their sponsors have no control over the events which might trigger capital gains, i.e., the tendering of units for redemption and the prepayment of Bonds by the issuing authorities. In addition, Applicants represent that the amounts involved in a normal distribution of principal are relatively small in comparison to the normal interest distribution, and such distributions are clearly indicated in accompanying reports to unitholders as a return of principal.

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally exempt any person, security or transaction from any provisions of the Act or of any rule or regulation under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than April 2, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,  
Secretary.

#### NORTHEAST UTILITIES

##### Notice of Proposed Amendment of Declaration of Trust and Order Authorizing Solicitation of Proxies

MARCH 7, 1973.

Notice is hereby given that Northeast Utilities (Northeast), 174 Brush Hill Avenue, Springfield, MA 01089, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a), 7, and 12(e) of the Act and Rule 62 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Northeast proposes to amend Article 34 of its Declaration of Trust dealing with the indemnification of Northeast's trustees and officers, and persons who serve at the request of Northeast as directors, officers or trustees of another organization in which Northeast has an interest as a shareholder or creditor. The proposed amendment would clarify and broaden the provisions of Article 34 to include indemnification of such persons

against liabilities and expenses, including counsel fees reasonably incurred, resulting from litigation or pending litigation in which any trustee or officer, acting as such in good faith may be involved. Northeast states that the proposed amendment would serve to clarify the circumstances under which indemnification is available to trustees and officers; is consistent with contemporary corporate practice; and is in the best interests of Northeast in helping to attract and retain qualified leadership.

The proposed amendment of the Declaration of Trust will require the written consent of holders of at least 66 2/3 percent of Northeast's outstanding common shares of capital stock; and the company proposes to solicit proxies from its shareholders through the use of solicitation material submitted herein, to be voted at the stockholders annual meeting scheduled for April 24, 1973.

Expenses to be incurred in connection with the proposed transactions are estimated at \$2,750, including \$1,750 for counsel fees and \$1,000 for services performed at cost by Northeast's subsidiary service company, Northeast Utilities Service Co. The declaration states that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Northeast has requested that the effectiveness of its declaration with respect to the solicitation of consent from its shareholders be accelerated as provided in Rule 62.

Notice is further given that any interested person may, not later than April 5, 1973, request in writing that a hearing be held with respect to the proposed amendment to the Declaration of Trust, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

It appearing to the Commission that the declaration regarding the proposed

solicitation of proxies should be permitted to become effective forthwith pursuant to Rule 62:

It is ordered, That the declaration regarding the proposed solicitation of proxies be, and it hereby is, permitted to become effective forthwith pursuant to Rule 62 and subject to the terms and conditions prescribed in Rule 24 under the Act.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,  
Secretary.

[File No. 500-1]

#### MANAGEMENT DYNAMICS, INC.

##### Order Suspending Trading

MARCH 7, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, \$0.01 par value, and all other securities of Management Dynamics, Inc., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors.

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from March 8, 1973, through March 17, 1973.

By the Commission.

[SEAL] RONALD F. HUNT,  
Secretary.

#### TARIFF COMMISSION

[TEA-W-188]

##### TMA CO., WHEELING, ILL.

##### Workers' Petition for Determination; Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the former workers of the TMA Co., Wheeling, Ill., the U.S. Tariff Commission, on March 9, 1973, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with television receivers and radio-television-phonograph combinations (of the types provided for in Items 685.20 and 685.42 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the

petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed on or before March 26, 1973.

The petition filed in this case is available for inspection at the Office of the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, D.C., and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

Issued: March 9, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON,  
Secretary.

#### VETERANS ADMINISTRATION

##### VETERANS ADMINISTRATION WAGE COMMITTEE

##### Notice of Meetings

The Veterans Administration gives notice that meetings of the VA Wage Committee will be held at the Veterans Administration Central Office, 810 Vermont Avenue NW., Washington, DC, on:

Thursday, March 15, 1973.  
Thursday, March 29, 1973.  
Thursday, April 12, 1973.  
Thursday, April 26, 1973.  
Thursday, May 10, 1973.  
Thursday, May 24, 1973.

The meetings will convene in Room 1100 at 2 p.m., for the purpose of reviewing the adequacy of data obtained in wage surveys conducted under the lead of VA field stations and under the procedure requirements of the Federal Wage System.

The meetings will be closed to the public under the provisions of section 10 (d) of Public Law 92-463, based on the confidential nature of information under consideration.

Dated: March 9, 1973.

By direction of the Administrator.

[SEAL] RUFUS H. WILSON,  
Associate Deputy Administrator.

[FR Doc 73-4949 Filed 3-13-73; 8:45 am]

#### VETERANS ADMINISTRATION WAGE COMMITTEE

##### Continuation of Committee

Pursuant to the Federal Advisory Committee Act (Public Law 92-463), the Veterans Administration has determined that the continuation of the Veterans Administration Wage Committee is in the public interest in connection with the performance of duties imposed on the Veterans Administration by law.

Signed at Washington, D.C. this 9th day of March 1973.

[SEAL] DONALD E. JOHNSON,  
Administrator.

[FR Doc. 73-4950 Filed 3-13-73; 8:45 am]

**DEPARTMENT OF LABOR**  
Occupational Safety and Health  
Administration  
**STANDARDS ADVISORY COMMITTEE ON NOISE**  
**Notice of Meeting**

Notice is hereby given that the Standards Advisory Committee on Noise, established under section 7(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 656), will meet on Thursday, March 29, 1973, and Friday, March 30, 1973, starting at 8:30 a.m. each day, in Hearing Room B, Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, D.C.

The agenda provides for the presentation of a draft of a proposed noise standard by the OSHA Office of Standards, and for a review of the NIOSH criteria document on Occupational Exposure to Noise with a view toward specific recommendations.

The meeting shall be open to the public. Written data, views, or arguments concerning the subject to be considered may be filed with the Committee's Executive Secretary, together with 20 copies, by March 26, 1973. Any such submissions, timely received, will be provided to the members of the committee and will be included in the record of the meeting.

Persons wishing to orally address the committee at the meeting should submit a written request to be heard, together with 20 copies thereof, to the Executive Secretary no later than March 26, 1973. The request must contain a short summary of the intended presentation and an estimate of the amount of time that will be needed. At the meeting the chairman will announce whether oral presentations will be allowed, and, if so, under what conditions.

Communications to the Executive Secretary should be addressed as follows:

Mr. Wendell R. Blair, Executive Secretary,  
Standards Advisory Committee, Room 509,  
Railway Labor Building, 400 First Street  
NW., Washington, DC 20210.

Signed at Washington, D.C., this 13th day of March 1973.

CHAIN ROBBINS,  
Acting Assistant  
Secretary of Labor.

[Notice 9]

**MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES**

MARCH 9, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of

Property, 1969 (49 CFR 1042.4(c)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

**MOTOR CARRIERS OF PROPERTY**

No. MC-200 (Deviation No. 26), RISS INTERNATIONAL CORPORATION, Post Office Box 2809, Kansas City, MO 64142, filed February 28, 1973. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Dallas, Tex., over Texas Highway 114 to junction U.S. Highway 287, thence over U.S. Highway 287 to Lamar, Colo., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Dallas, Tex., over U.S. Highway 75 to Denison, Tex., (2) from Ottawa, Kans., over U.S. Highway 59 to junction unnumbered highway (formerly U.S. Highway 59), thence over unnumbered highway via Shaw, Kans., to junction U.S. Highway 59, thence over U.S. Highway 59 to Welch, Okla., thence over Oklahoma Highway 2 (formerly U.S. Highway 59) to Vinita, Okla., thence over U.S. Highway 69 to junction unnumbered highway (formerly U.S. Highway 69), thence over unnumbered highway to Wagoner, Okla., thence over Oklahoma Highway 51 to junction U.S. Highway 69, thence over U.S. Highway 69 to Atoka, Okla., thence over U.S. Highway 75 to Denison, Tex., (2) from Salina, Kans., over U.S. Highway 81 to Waurika, Okla., thence over U.S. Highway 70 to Durant, Okla., (3) from Dodge City, Kans., over U.S. Highway 154 to junction U.S. Highway 54, near Mullinville, Kans., thence over U.S. Highway 54 to Augusta, Kans., thence over U.S. Highway 77 to junction unnumbered highway (formerly U.S. Highway 77) near Edmond, Okla., thence over unnumbered highway to Edmond, Okla., thence over Oklahoma Highway 77 (formerly U.S. Highway 77) to Oklahoma City, Okla., thence over U.S. Highway 77 to Ardmore, Okla.

(4) From Oklahoma City, Okla., over Oklahoma Highway 3 to junction U.S. Highway 81, thence over U.S. Highway 81 to Kingfisher, Okla., thence over Oklahoma Highway 33 to junction U.S. Highway 270, thence over U.S. Highway 270 to junction U.S. Highway 183, thence over U.S. Highway 183 to Buffalo, Okla.,

thence over U.S. Highway 64 to junction U.S. Highway 83, thence over U.S. Highway 83 to Garden City, Kans., thence over U.S. Highway 50 to junction U.S. Highway 287, thence over U.S. Highway 287 to Denver, Colo., and (5) from Kansas City, Mo., over U.S. Highway 50 to junction Kansas Highway 150 (formerly U.S. Highway 50), thence over Kansas Highway 150 to Olathe, Kans., thence over Kansas Highway 7 (formerly U.S. Highway 50) to junction U.S. Highway 50, thence over U.S. Highway 50 to junction U.S. Highway 59, thence over U.S. Highway 59 to junction U.S. Highway 50 (formerly U.S. Highway 50-S), near Ottawa, Kans., thence over U.S. Highway 50 to junction unnumbered highway near Ellinor, Kans., thence over unnumbered highway to Ellinor, thence return over said unnumbered highway to junction U.S. Highway 50 (formerly U.S. Highway 50-S), thence over U.S. Highway 50 to junction unnumbered highway near Dillwyn, Kans., thence over unnumbered highway to Dillwyn, thence return over said unnumbered highway to junction U.S. Highway 50 (formerly U.S. Highway 50-S), thence over U.S. Highway 50 to junction U.S. Highway 56 (formerly U.S. Highway 50-S), thence over U.S. Highway 56 to Dodge City, Kans., thence over U.S. Highway 50 via Garden City, Kans., to Pueblo, Colo., thence over U.S. Highway 85 to junction Colorado Highway 105 (formerly U.S. Highway 85), thence over Colorado Highway 105 via Monument, Colo., to Palmer Lake, Colo., thence over Colorado Highway 393 (formerly U.S. Highway 85) via Larkspur, Colo., to junction U.S. Highway 85, thence over U.S. Highway 85 to Denver, Colo., and return over the same routes.

No. MC-13235 (Deviation No. 5) (Correction), CENTRALIA CARTAGE CO., 650 West Nolema Street, Centralia, IL 62801, filed January 5, 1973. Carrier's representative: Charles W. Singer, 2440 East Commercial Boulevard, Fort Lauderdale, FL 33308. The summary of this deviation notice published in the FEDERAL REGISTER February 28, 1973, should be corrected to show the correct deviation number assigned to the deviation notice to be Deviation No. 5, incorrectly shown in the summary of the notice publish a Deviation No. 1.

No. MC-63562 (Deviation No. 3), BN TRANSPORT, INC., 796 South Pearl Street, Galesburg, IL 61401, filed February 28, 1973. Carrier's representative: Larry J. Schwarz, same address as applicant. Carrier proposes to operate as a common carrier, vehicle, of general commodities, with certain exceptions over a deviation route as follows: From St. Louis, Mo., over city streets to junction Interstate Highway 270, thence over Interstate Highway 270 to junction Interstate Highway 55 and 70 and U.S. Highway 66, thence over Interstate Highway 55 (using U.S. Highway 66 where portions of Interstate Highway 55 are not completed) to Chicago, Ill., and return over the same route, for operating convenience only.

The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Chicago, Ill., over U.S. Highway 66 to junction combined U.S. Highways 36 and 54, thence over combined U.S. Highways 36 and 54 to Jacksonville, Ill., (2) from St. Louis, Mo., over U.S. Highway 67 to junction Illinois Highway 101, (3) from Davenport, Iowa, over U.S. Highway 67 to junction Illinois Highway 92, thence over Illinois Highway 92 to Taylor Ridge, Ill., thence over Illinois Highway 94 to junction Illinois Highway 135, thence over Illinois Highway 135 to junction Illinois Highway 164, thence over Illinois Highway 164 to Monmouth, Ill., thence over U.S. Highway 67 to junction Illinois Highway 67, thence over Illinois Highway 67 to junction Illinois Highway 101, thence over Illinois Highway 101 to Augusta, Ill.

(4) From Davenport, Iowa, over U.S. Highway 6 to Moline, Ill., thence over U.S. Highway 150 to Galesburg, Ill., thence over Illinois Highway 41 to junction U.S. Highway 136 (formerly Illinois Highway 10), thence over U.S. Highway 136 to junction Illinois Highway 61, thence over Illinois Highway 61 to Ursa, Ill., thence over Illinois Highway 96 to junction U.S. Highway 24, thence over U.S. Highway 24 to Quincy, Ill. (also from junction Illinois Highway 96 and U.S. Highway 24 over Illinois Highway 96 to Quincy), and (5) from Chicago, Ill., over U.S. Highway 34 to junction Illinois Highway 65, thence over Illinois Highway 65 to Aurora, Ill., thence over Illinois Highway 31 to junction U.S. Highway 34 (also from junction U.S. Highway 34 and Illinois Highway 65 over U.S. Highway 31), thence over U.S. Highway 34 to Glenwood, Iowa, thence over U.S. Highway 275 to junction Iowa Highway 375, thence over Iowa Highway 375 to Council Bluffs, Iowa, thence over U.S. Highway 6 to Omaha, Nebr., and return over the same routes.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc. 73-4929 Filed 3-13-73; 8:45 am]

[Notice 19]

**MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS**

MARCH 9, 1973.

The following publications are governed by the new Special Rule 1.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth:

Except as otherwise specifically noted, each applicant (on applications filed after Mar. 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

**NOTICES**

reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

**MOTOR CARRIERS OF PROPERTY**

No. MC 136507 (Sub-No. 2) (Republication), filed July 17, 1972, published in the FEDERAL REGISTER of August 10, 1972, and republished this issue. Applicant: SKYLINE TRANSPORT, INC., 6120 Eastbourne Avenue, Baltimore, MD 21224. Applicant's representative: H. Neil Garson, Court Square West Building, 1400 North Uhle Street, Arlington, VA 22201. A supplemental order of the Commission, Operating Rights Board, dated February 5, 1973, and served February 26, 1973, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of maple sugar, in bulk (1) from ports of entry on the international boundary line between the United States and Canada at or near Highgate Springs and Derby, Vt., to Baltimore, Md., Brundidge, Ala., Terre Haute, Ind., and Chicago, Ill., and (2) from Baltimore, Md., to Brundidge, Ala., Terre Haute, Ind., and Chicago, Ill.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 136509 (Republication), filed March 7, 1972, published in the FEDERAL REGISTER of April 6, 1972, and republished this issue. Applicant: JAMES R. COLELLO, INC., 174 Plain Street, Millis, MA 02054. Applicant's representative: William P. Sullivan, 1819 H Street NW., Washington, DC 20006. An order of the Commission, Review Board No. 1, dated February 22, 1973, and served March 2, 1973, finds that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of stone dust, in bulk, from North Stonington, Conn., to the plant site of Bird & Son, Inc., located at East Walpole, Mass., and the plant site of GAF Corp., located at Millis, Mass., under continuing contracts with Bird &

## NOTICES

Son, Inc., of East Walpole, Mass., and GAF Corp. of South Bound Brook, N.J., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

**FREIGHT FORWARDER APPLICATION**  
No. FF-233 (Sub-No. 1) (Republication), filed December 13, 1971, published in the FEDERAL REGISTER of January 20, 1972, and republished this issue. Applicant: JOE M. HAMBRICK, doing business as I & S FORWARDING COMPANY, 2265 Vistamont Drive, Decatur, GA 30033. An order of the Commission, Division 1, acting as an Appellate Division, dated February 20, 1973, and served March 2, 1973, finds that service by applicant, in interstate commerce, as a freight forwarder of iron and steel articles, from points in Belmont, Carroll, Columbiana, Cuyahoga, Geauga, Guernsey, Harrison, Jefferson, Lorain, Mahoning, Medina, Monroe, Morgan, Noble, Portage, Stark, Summit, Trumbull, Tuscarawas, and Washington Counties, Ohio; Allegheny, Armstrong, Beaver, Butler, Cambria, Clarion, Clearfield, Fayette, Greene, Indiana, Jefferson, Lawrence, Mercer, Somerset, Venango, Washington, and Westmoreland Counties, Pa.; Brooke, Doddridge, Hancock, Harrison, Marion, Marshall, Monongalia, Ohio, Pleasants, Preston, Ritchie, Taylor, Tyler, Wetzel, and Wood Counties, W. Va.; Lake and Porter Counties, Ind.; Cook, DuPage, Grundy, Jersey, Madison, Monroe, St. Clair, and Will Counties, Ill.; and those points in Illinois contiguous to the Illinois River which are not located in the previously named Illinois Counties, and points in St. Charles, St. Louis, and Jefferson Counties, Mo., to points in Alabama, Georgia, Florida, to those points in Abbeville, Aiken, Allendale, Anderson, Bamberg, Barnwell, Beaufort, Calhoun, Charleston, Colleton, Edgefield, Greenwood, Lexington, McCormick, Newberry, Oconee, Orangeburg, Pickens, Richland, Saluda, Spartanburg, and Union Counties, S.C., to those points in Mississippi in and east of the counties of George, Perry, Forrest, Covington, Simpson, Hinds, Yazoo, Holmes, Leflore, Grenada, Yalobusha, Lafayette, and Marshall, and to those points in Tennessee in and south of the counties of Lawrence, Maury, Williamson, Davidson, Wilson, Smith, Putman, Cumberland, Morgan, Anderson, Knox, and Blount, will be consistent with the public interest and the national transportation policy; that applicant is ready, able and willing properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or

other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

## FREIGHT FORWARDER APPLICATION

No. FF-233 (Sub-No. 1) (Republication), filed December 13, 1971, published in the FEDERAL REGISTER of January 20, 1972, and republished this issue. Applicant: JOE M. HAMBRICK, doing business as I & S FORWARDING COMPANY, 2265 Vistamont Drive, Decatur, GA 30033. An order of the Commission, Division 1, acting as an Appellate Division, dated February 20, 1973, and served March 2, 1973, finds that service by applicant, in interstate commerce, as a freight forwarder of iron and steel articles, from points in Belmont, Carroll, Columbiana, Cuyahoga, Geauga, Guernsey, Harrison, Jefferson, Lorain, Mahoning, Medina, Monroe, Morgan, Noble, Portage, Stark, Summit, Trumbull, Tuscarawas, and Washington Counties, Ohio; Allegheny, Armstrong, Beaver, Butler, Cambria, Clarion, Clearfield, Fayette, Greene, Indiana, Jefferson, Lawrence, Mercer, Somerset, Venango, Washington, and Westmoreland Counties, Pa.; Brooke, Doddridge, Hancock, Harrison, Marion, Marshall, Monongalia, Ohio, Pleasants, Preston, Ritchie, Taylor, Tyler, Wetzel, and Wood Counties, W. Va.; Lake and Porter Counties, Ind.; Cook, DuPage, Grundy, Jersey, Madison, Monroe, St. Clair, and Will Counties, Ill.; and those points in Illinois contiguous to the Illinois River which are not located in the previously named Illinois Counties, and points in St. Charles, St. Louis, and Jefferson Counties, Mo., to points in Alabama, Georgia, Florida, to those points in Abbeville, Aiken, Allendale, Anderson, Bamberg, Barnwell, Beaufort, Calhoun, Charleston, Colleton, Edgefield, Greenwood, Lexington, McCormick, Newberry, Oconee, Orangeburg, Pickens, Richland, Saluda, Spartanburg, and Union Counties, S.C., to those points in Mississippi in and east of the counties of George, Perry, Forrest, Covington, Simpson, Hinds, Yazoo, Holmes, Leflore, Grenada, Yalobusha, Lafayette, and Marshall, and to those points in Tennessee in and south of the counties of Lawrence, Maury, Williamson, Davidson, Wilson, Smith, Putman, Cumberland, Morgan, Anderson, Knox, and Blount, will be consistent with the public interest and the national transportation policy; that applicant is ready, able and willing properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which

period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

## MOTOR CARRIER PASSENGER-BROKERAGE LICENSE

No. MC 130174 (Republication), filed July 28, 1972, and published in the FEDERAL REGISTER of August 24, 1972, and republished this issue. Applicant: STEWART TOURS, INCORPORATED, a corporation, doing business as STEWART TOURS, 35 South Fairview Circle, Portsmouth, VA 23702. An order of the Commission, Operating Rights Board, dated January 26, 1973, and served February 21, 1973, finds that operation by applicant as a broker at Portsmouth, Norfolk, Virginia Beach, Newport News, Hampton, and Suffolk, Va., in arranging for transportation by motor vehicle, in round-trip charter and special operations, in interstate or foreign commerce, of passengers and their baggage, beginning and ending at points in Portsmouth, Norfolk, Chesapeake, Virginia Beach, Nansemond, Hampton, Suffolk, and Newport News, Va., and extending to points in the United States (except Hawaii but including Alaska), will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a license in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

## APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATION UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 35320 (Sub-No. 135), filed January 22, 1973. Applicant: TIME-DC, INC., Post Office Box 2550, 2598 74th Street, Lubbock, TX 79408. Applicant's representative: Walter N. Bleneman, Suite 1700, 1 Woodward Avenue. Authority sought to operate as a common carrier, by motor vehicle, over regular/irregular routes, transporting: Regular Routes: (1) Between Cincinnati, Ohio, and junction Ohio State Highway 73 and Interstate Highway 75 serving the intermediate points of Franklin and Middletown and the junction of Ohio State Highway 73 and Interstate Highway 75, from Cincinnati over Ohio State Highway 4 via Hamilton and Middletown,

Ohio, to junction Ohio State Highway 4 and Ohio State Highway 73 and Interstate Highway 75 and return over the same route; (2) Between Cincinnati, Ohio, and Toledo, Ohio, serving the intermediate points of Fairfield, Hamilton, Eaton, Greenville, Van Wert, Bryan, West Unity, and Delta, Ohio, and the off-route points of St. Marys, Defiance, Napoleon, Gettysburg, Montpelier, Wauseon, Waterville, Fernald, Harrison, Middletown, and Oxford, Ohio, from Cincinnati over U.S. Highway 127 via Hamilton and Van Wert, Ohio, to junction of U.S. Highway 127 and Interstate Highways 80/90, thence over Interstate Highways 80/90 to junction Interstate Highways 80/90 and U.S. Highway 24, thence over U.S. Highway 24 to Toledo, and return over the same route;

(3) Between Cincinnati, Ohio, and Van Wert, Ohio, serving the intermediate points of Miamisburg, West Carrollton, Dayton, Vandalia, Tipp City, Troy, Piqua, Sidney, Lima, and Delphos, Ohio, the off-route points of Kettering and Wapakoneta, and serving the junction of Ohio State Highway 73 and Interstate Highway 75, from Cincinnati, over U.S. Highway 25 and Interstate Highway 75 to junction of U.S. Highway 25 and Interstate Highway 75 and U.S. Highway 30N, near Beavercreek, Ohio, thence over U.S. Highway 30N junction of U.S. Highway 30N and U.S. Highway 30 near Delphos, Ohio, thence over U.S. Highway 30 to Van Wert, and return over the same route; (4) Between Cincinnati, Ohio, and Marion, Ohio, serving the intermediate points of Lebanon, Xenia, Springfield, Urbana, Bellefontaine, Kenton, Marion, and Piqua, and off-route points of Fairborn, Wright-Patterson AFB, South Lebanon, Loveland, and Morrow; from Cincinnati, over U.S. Highway 42 to Xenia, Ohio, thence over U.S. Highway 68 to Kenton, Ohio, thence over U.S. Highway 30S to Marion, and return over the same route; (5) Between Cincinnati, Ohio, and Cleveland, Ohio, serving the intermediate points of Columbus, Mansfield, Ashland, and Brunswick, the off-route points of Mount Vernon, Wooster, Massillon, Rittman, Willard, Shelby, Crestline, Gallon, Lockbourne AFB, Batavia, Blanchester, Maineville, Milford, and Withamsville, and serving the junctions of Interstate Highway 71 and U.S. Highway 68 junction of Interstate 71 and Interstate Loop 270 south of Columbus, and junction of Interstate Highway 71 and Interstate Highway 80S; from Cincinnati over Interstate Highway 71 to Cleveland, and return over the same route;

(6) Between junction of Interstate Highway 71 and Interstate Loop 270, south of Columbus, Ohio, and Toledo, Ohio serving the intermediate points of Grandview Heights, Upper Arlington, Delaware, Marion, Findlay, Bowling Green, Upper Sandusky, Marysville, and Grove City, and the off-route points of London, Bucyrus, Tiffin, Fostoria, Deshler, Galion, and Ottawa; from junction of Interstate Highway 71 and Interstate Loop 270, south of Columbus, over Inter-

## NOTICES

state Loop 270 to junction of Interstate Loop 270 and U.S. Highway 33, thence over U.S. Highway 33 to Marysville, Ohio, thence over U.S. Highway 36 to junction of U.S. Highway 23, thence over U.S. Highway 23 to junction U.S. Highway 23 and Ohio State Highway 15 south of Carey, Ohio, thence over Ohio Highway 15 to Findlay, Ohio, thence over Interstate Highway 75 to Toledo, and return over the same route; (7) Between junction Interstate Highway 71 and U.S. Highway 68 and Columbia, Ohio, via Newark, Ohio, serving the intermediate points of Wilmington, Washington Court House, Chillicothe, Circleville, Lancaster, and Newark, and the off-route points of Greenfield, Zanesville, Logan, Wellston, Jackson, and Hillsboro, from junction Interstate Highway 71 and U.S. Highway 68 over U.S. Highway 68 to Wilmington, Ohio, thence over U.S. Highway 22 to Washington Court House, Ohio, thence Highway 68 and Columbus, Ohio, via over U.S. Highway 23 to Circleville, Ohio, thence over U.S. Highway 22 to Lancaster, Ohio, thence over Ohio State Highway 37 to junction Ohio State Highway 37 and Ohio State Highway 16, thence over Ohio State Highway 16 to Newark, Ohio, thence over Ohio State Highway 16 to Columbus, and return over the same route;

(8) Between junction Interstate Highway 71 and Interstate Highway 80S via Interstate Highway 80S and Ohio State Highway 18 to Youngstown, Ohio, and return to Akron, Ohio, via Salem, Alliance, and Canton, Ohio, serving the intermediate points of Akron, Wadsworth, Youngstown, Salem, Alliance, Louisville, Canton, North Canton, and Barberton, and the off-route points of Kent, Niles, Warren, Girard, Sharon, East Liverpool, Dover, New Philadelphia, and Ravenna, from junction Interstate Highway 71 and Interstate Highway 80S over Interstate Highway 80S to junction Interstate Highway 80S and Ohio State Highway 18 to Youngstown, Ohio, thence from Youngstown over U.S. Highway 62 via Salem and Alliance, Ohio to Canton, Ohio, thence over Interstate Highway 77 to Akron; (9) Between junction Interstate Highway 70 and Interstate Highway 75, approximately 7 miles north of Dayton, Ohio, and Columbus, Ohio, serving as an alternate route for operating convenience only in connection with carrier's regular-route operations serving no intermediate points, and serving junction of Interstate Highway 70 and Interstate Highway 75 for purpose of joinder only, from junction Interstate Highway 70 and Interstate Highway 75, approximately 7 miles north of Dayton over Interstate Highway 70 and/or U.S. Highway 40 to Columbus, and return over the same route; (10) Between junction Interstate Highway 75 and U.S. Highway 30N, approximately 1 mile east of Beavercreek, Ohio, and Findlay, Ohio, serving as an alternate route for operating convenience only in connection with carrier's regular route operations, serving no intermediate points, and serving junction of Interstate Highway 75

and U.S. Highway 30N for purpose of joinder only, from junction Interstate Highway 75 and U.S. Highway 30N, approximately 1 mile east of Beavercreek over Interstate Highway 75 to Findlay, and return over the same route;

(11) Between Kenton, Ohio, and Findlay, Ohio, serving no intermediate points, and serving the termini as an alternate route for operating convenience only in connection with carrier's regular-route operation; from Kenton to Findlay over U.S. Highway 68, and return over the same route; (12) Between junction Interstate Highway 71 and U.S. Highway 30, located approximately 6 miles northeast of Mansfield, Ohio, and Canton, Ohio, as an alternate route for operating convenience only in connection with carrier's regular-route operation, serving no intermediate points, from junction Interstate Highway 71 and U.S. Highway 30, located approximately 6 miles northeast of Mansfield, Ohio, over U.S. Highway 30 to Canton, and return over the same route; (13) Between Cleveland, Ohio, and Akron, Ohio, serving as an alternate route for operating convenience only with carrier's regular-route operation, serving no intermediate points; from Cleveland over U.S. Highway 21 and/or Interstate Highway 77 to junction U.S. Highway 21 and Interstate Highway 77 with Ohio State Highway 18, thence over Ohio State Highway 18 to Akron, and return over the same route. Irregular route: Between points in Cincinnati, Ohio, commercial zone, on the one hand, and, on the other, points in Ohio. Note: Applicant states that the requested authority can be tacked with its existing authority since its present operations are conducted on a nationwide basis which includes service to Cincinnati, Toledo, and Cleveland, Ohio. The proposed operations in Ohio could connect at any of these three points, thus permitting through service from any of applicant's existing authorized points to Ohio. This instant application is a matter directly related to MC-F 11778 published in the FEDERAL REGISTER issue of February 7, 1973. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Washington, D.C.

No. MC 69224 (Sub-No. 40), filed February 15, 1973. Applicant: H & W MOTOR EXPRESS COMPANY, a corporation, 3000 Elm Street, Dubuque IA 52001. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: General commodities (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in Lake, Cook, Du Page, Kane, Kendall and Will Counties, Ill., and those in that portion of McHenry County, Ill., on and east of Illinois Highway 47. Note: The instant application is a matter directly related to

MC-F-11798 published in the FEDERAL REGISTER of February 28, 1973. Applicant states that tacking will be at numerous duplicating points in the radial authority of J & S Cartage Co., but principally at Chicago, Ill. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

#### APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1.240).

#### MOTOR CARRIERS OF PROPERTY

No. MC-F-11682. (Amendment) (U.S. TRUCK COMPANY, INC.—Purchase (Portion)—TRANSPORTATION SERVICE, INC.), published in the October 18, 1972, issue of the FEDERAL REGISTER. By amendment filed February 27, 1973, to include the authority sought in No. MC-F-10998 (TRANSPORTATION SERVICE, INC.—Purchase (Portion)—ATKINSON FREIGHT LINES, INC.), involving a certificate of registration authorizing the transportation of general commodities, between Bellefontaine, Ohio, on the one hand, and, on the other, all points in Ohio; and the directly related matter, in MC-43442 (Sub-No. 22), to convert the certificate of registration to a certificate of public convenience and necessity, to transport general commodities, serving all points in Ohio as off-route points in connection with regular-route service at Bellefontaine, Ohio.

NOTE: The captioned application is presently set for hearing on March 26, 1973, at Detroit, Mich., any party desiring to protest this application may do so at the hearing.

No. MC-F-11782. (Correction) (KREVEDA BROS., EXPRESS, INC.—Purchase (Portion)—LEE MOTOR LINES, INC.), published in the February 14, 1973, issue of the FEDERAL REGISTER on page 4448. Prior notice to be modified to show docket number as MC-F-11782.

No. MC-F-11810. Authority sought for purchase by K-LINES, INC., Post Office Box 1348, Lake Oswego, OR 97034, of a portion of the operating rights and property of RYALS TRUCK LINE, INC., Post Office Box 634, Albany, OR 97321, and for acquisition by JAMES BERREY, and MARY JEAN BERREY, both of 18690 Southwest Nixon Street, West Linn, OR 97068, of control of such rights and property through the purchase. Applicants' attorney: John G. McLaughlin, 620 Blue Cross Building, Portland, Ore. 97201. Operating rights sought to be transferred: Fertilizer, dry, as a common carrier over irregular routes, from Tacoma, Wash., to points in Oregon; dry urea and dry fertilizers, from Vancouver, Wash., to points in that part of Oregon west of

the summit of the Cascade Mountain Range; liquid fertilizer and fertilizer solutions, from Vancouver, Wash., to points in Oregon, with restriction; dry feed and dry feed ingredients, in bulk, in tank or hopper type vehicles, between points in Oregon and Washington; ore, in bulk, from Portland, Ore., and Vancouver, Wash., to Albany, Ore. Vendee is authorized to operate as a common carrier in Oregon, Washington, California, Utah, Nevada, Idaho, and Montana. Application has been filed for temporary authority under section 210a(b).

No. MC-F-11811. Authority sought for control and merger by WATKINS CAROLINA EXPRESS, INC., Post Office Box 10188, Federal Station, Greenville, SC 29603, of the operating rights and property of LLOYD MOTOR EXPRESS, LTD., Post Office Box 26622, Charlotte, NC 28213, and for acquisition by WATKINS MOTOR LINES, INC., 1958 Monroe Drive NE, Atlanta, GA 30324, and W. B. WATKINS IV, 2516 Jonila Drive, Lakeland, FL 33803, of control of such rights and property through the transaction. Applicants' attorneys: Paul M. Daniell and Alan E. Serby, Post Office Box 872, Atlanta, GA 30301. Operating rights sought to be controlled and merged: Under a certificate of registration, in Docket No. MC-120361 (Sub-No. 1), covering the transportation of general commodities as a common carrier, in interstate commerce, within the state of North Carolina. WATKINS CAROLINA EXPRESS, INC., is authorized to operate as a common carrier in South Carolina, North Carolina, Georgia, New York, New Jersey, Maryland, Pennsylvania, Alabama, Tennessee, Virginia, Delaware, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

NOTE: MC-30280 (Sub-No. 64), is a matter directly related.

No. MC-F-11812. Authority sought for purchase by QUEENSWAY, INC., 105 North Keyser Avenue, Old Forge, PA 18518, of the operating rights of MILTON A. RAPPOLD, doing business as RAPPOLD MOTOR TRANSPORT, 47 Grider Street, Buffalo, NY 14215, and for acquisition by WILLIAM S. GILCHRIST, and JOHN GILCHRIST, both of 509 Susquehanna Avenue, Old Forge, PA 18518, of control of such rights through the purchase. Applicants' attorney: Morton E. Kiel, 140 Cedar Street, New York, NY 10006. Operating rights sought to be transferred: General commodities, excepting among others, dangerous explosives, household goods and commodities in bulk, as a common carrier over regular routes, between Buffalo, N.Y., and Lockport, N.Y.; and under a certificate of registration in Docket No. MC-16998 (Sub-No. 2), covering the transportation of general commodities as a common carrier, in interstate commerce, within the State of New York. Vendee is authorized to operate as a common carrier in New York and Pennsylvania. Application has not been filed for temporary authority under section 210a(b).

NOTE: MC-135639 (Sub-No. 2), is a matter directly related.

No. MC-F-11814. Authority sought for control by HAHN TRANSPORTATION, INC., New Market, Md. 21774, of DAYTON TRANSPORT CORPORATION, Post Office Box 338, Dayton, VA 22821, and for acquisition by ROBERT S. WINDSOR, JR., E. REBECCA WINDSOR, both of New Market, Md. 21774, BARBARA JEAN WINDSOR, 1617 Northeast Vivian, Kansas City, MO 64118, and E. REBECCA WINDSOR, Custodian for ROSEMARY PATRICIA WINDSOR, New Market, Md. 21774, of control of DAYTON TRANSPORT CORPORATION, through the acquisition by HAHN TRANSPORTATION, INC. Applicants' attorney: Francis J. Ortmann, 1100 17th Street NW, Washington, DC 20036. Operating rights sought to be controlled: General commodities, excepting among others, classes A and B explosives, household goods and commodities in bulk, as a common carrier over regular routes, between Harrisonburg, Va., and Franklin, W. Va., serving all intermediate points, between Franklin, W. Va., and Harman, W. Va., serving all intermediate points, and off-route points within 5 miles of the route specified below; petroleum products as described in Appendix XIII to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209, in bulk, in tank vehicles, over irregular routes, from Hopewell, Richmond, and Petersburg, Va., and points in Chesterfield County, Va., to points in Pendleton County, W. Va.; angles, bars, bases, beams, bridge steel, channels, forms (structural), joists, piling, pipe (cast iron, plate, or sheet), pipe fittings, plates (structural), rivets, rods, sheets, slabs, wire rope, and accessories for beams and joists, from Roanoke, Va., to certain specified points in North Carolina, Tennessee, and West Virginia, from Troutville, Va., to certain specified points in North Carolina, Tennessee, and West Virginia, with restriction; gasoline, fuel oil, kerosene, and asphalt, in bulk, in tank vehicles, from Hopewell, Richmond, and Petersburg, Va., and points in Chesterfield County, Va., to certain specified points in West Virginia; crushed stone, sand, and cement, in dump trucks, from points in Rockingham County, Va., to points in Pendleton County, W. Va.; animal and poultry feeds (except in bulk), equipment and supplies necessary for the raising and marketing of poultry, and fertilizer, from Harrisonburg, Va., to points in Pendleton County, W. Va.; livestock, from points in Pendleton County, W. Va., to Harrisonburg, Va., with restriction; general commodities, excepting among others, classes A and B explosives, household goods, and commodities in bulk, between Harrisonburg, Va., on the one hand, and, on the other, points in Pendleton County, W. Va., with restriction; livestock, between points in Rockingham County, Va., on the one hand, and, on the other, points in Pendleton County, W. Va., and that part of Hardy County, W. Va., within 25 miles of Fort Seybert, W. Va.; brick and sand,

from Dayton, Va., to points in Pendleton County, W. Va., and those in that part of Hardy County, W. Va., within 25 miles of Fort Seybert, W. Va., with restriction. HAHN TRANSPORTATION, INC., is authorized to operate as a common carrier in Delaware, Virginia, Maryland, Pennsylvania, New Jersey, North Carolina, New York, West Virginia, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

#### MOTOR CARRIER PASSENGERS

No. MC-F-11813. Authority sought for purchase by BROOKS BUS LINE, INC., 421 Washington Street, Paducah, KY 42001, of the operating rights and property of WESTERN KENTUCKY STAGES, INCORPORATED, doing business as WESTERN KENTUCKY STAGES, INC., 955 West Pine Street, Lexington, KY 40508, and for acquisition by JAMES P. BROOKS, JR., Route No. 1, Paducah, KY 42001, J. POLK BROOKS, and SADEE BROOKS, both of Springwell Lane, Paducah, KY 42001, and CAROL B. McADOO, Etheridge Lane, Union City, Tenn. 38261, of control of such rights and property through the purchase. Applicants' attorney: William B. Elmer, 21635 East Nine Mile Road, St. Clair Shores, MI 48080. Operating rights sought to be transferred: Passengers and their baggage, and express and newspapers, in the same vehicle with passengers, as a common carrier over regular routes, between Paducah, Ky., and Paris, Tenn., between Clarksville, Tenn., and Junction Kentucky Highway 94 and Kentucky Highway 97 at Tri City, Ky., between Tri City, and Mayfield, Ky., between Gracey, and Princeton, Ky., between Paris, and Erin, Tenn., between Murray, and Mayfield, Ky., serving all intermediate points. Vendee is authorized to operate as a common carrier in Kentucky, Michigan, and Illinois. Application has not been filed for temporary authority under section 210a(b).

#### NOTICE

BURLINGTON NORTHERN, INC., 176 East Fifth Street, St. Paul, MN 55101, represented by Mr. Byron D. Olsen, Assistant General Attorney of the same address, hereby gives notice that on the 29th day of January 1973, it filed with the Interstate Commerce Commission at Washington, D.C., an application, assigned Finance Docket No. 27293, for authority to acquire certain properties of the Chicago & North Western Transportation Co. The properties to be acquired consist of 4.35 miles of trackage between Sioux City, Iowa, and Ferry, Nebr., include a bridge spanning the Missouri River. Operations over this trackage are presently conducted by both Burlington Northern, Inc., and the Chicago & North Western Transportation Co. and, if the acquisition is approved these operations will not be changed in any way. In the opinion of the Applicant, the authority sought by this application is not a major Federal action significantly affecting the quality of the

human environment within the meaning of the National Environmental Policy Act of 1969. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than April 13, 1973.

SOUTHERN RAILWAY COMPANY AND TENNESSEE RAILWAY COMPANY hereby give notice that on the 16th day of February 1973, they filed with the Interstate Commerce Commission at Washington, D.C., applications under section 5(2) of the Interstate Commerce Act, which was assigned Finance Docket No. 27312 and Finance Docket No. 27313. The names and addresses of Applicants and their attorneys are:

Southern Railway Co., Post Office Box 1808, Washington, DC 20013.  
Tennessee Railway Co., Post Office Box 1808, Washington, DC 20013.  
Mr. James L. Tapley and R. Allan Wimblish, Post Office Box 1808, Washington, DC 20013.

The nature of the proposed transaction is (1) for Tennessee Railway Co. to purchase and operate the lines of railroad other properties and assets of Tennessee Railroad Co. as a common carrier in interstate or foreign commerce and (2) for Southern Railway Co. to acquire control of Tennessee Railway Co. through stock ownership, all pursuant to a Plan and Agreement of Reorganization of Tennessee Railroad Co.

Applicant Tennessee Railway Co., a corporation organized for the purpose of engaging in transportation as a carrier by railroad, seeks to acquire and operate the property and lines of railroad of Tennessee Railroad Co., whose principal commodity is coal. The main line of the railroad, beginning at a point of connection with the main line of the Cincinnati Southern Railway (now Cincinnati, New Orleans and Texas Pacific Railway Co.) at Oneida, in the county of Scott and State of Tennessee, and extending thence southerly to the New River, and thence up the valley of the New River through Scott, Campbell and Anderson Counties, Tenn., to the head waters of said New River in Anderson County, and also any and all further extensions of, and all lines of railroad adjacent to, main line in any direction, as have been or may hereafter be authorized in and by the Charter of the Railroad Co. All such branch lines springing from the said above described main line, and all such lines of railroad adjacent to said main line, as have been or may be hereafter constructed or acquired by the Railroad Co.

In the opinion of the Applicants the requested Commission action will have no effect of the quality of the human environment. In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), Implementation-National Environmental Policy Act, 1969, 340 ICC 431 (1972), any protests may include a statement indicating the presence or absence of any

effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (b) (1)-(5), 340 ICC 431, 461.

The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than April 13, 1973.

BURLINGTON NORTHERN, INC., 176 East Fifth Street, St. Paul, MN 55101, filed by Mr. R. J. Schreiber, Assistant General Counsel, 547 West Jackson Boulevard, Chicago, IL 60606, as applicant's attorney, hereby gives notice that on the 22d day of February 1973, the Burlington Northern, Inc., filed an application assigned Finance Docket No. 27317 under section 5(2) of the Interstate Commerce Act, for authority to acquire trackage rights over the Peoria & Pekin Union Railway Co. in the area of Peoria and East Peoria, Ill., involving operations over approximately 3 miles of trackage. In the opinion of the applicant, the proposed transaction will have no effect on the quality of the human environment. The proceeding will be handled without public hearings, unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than April 13, 1973.

LOUISVILLE AND NASHVILLE RAILROAD COMPANY, 908 West Broadway, Louisville, KY 40201, represented by Mr. Fred R. Birkholz of the same address, hereby gives notice that on the 23d day of February 1973, an application assigned Finance Docket No. 27320, was filed for authority to acquire trackage rights over the Norfolk and Western Railway Co. between Norton and St. Paul, in Wise County, Va., a distance of approximately 22 miles. In the opinion of the Applicant, there will be no adverse environmental effects occasioned by the implementation of the use of the proposed trackage rights sought by this application. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than April 13, 1973.

NORFOLK AND WESTERN RAILWAY COMPANY, represented by Mr. John S. Shannon, Vice President, Law, Norfolk & Western Railway Co., Roanoke, Va., 24011 hereby gives notice that on the 27th day of February 1973, it filed with the Interstate Commerce Commission at Washington, D.C., an application under section 5(2) of the Interstate Commerce Act for authority to acquire trackage rights over approximately 31.9 miles of the tracks of the Penn Central Transportation Co., George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees, extending between Penn Central Transportation Co.'s milepost 120.4, Reddick, and its milepost

1523. Streater, in Kankakee, Livingston and La Salle Counties, Ill. This application has been assigned Finance Docket No. 27322. In the opinion of the Applicant, the proposed acquisition of track-age rights will have no effect on the quality of the human environment. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than April 13, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc 73-4931 Filed 3-13-73; 8:45 am]

[Notice 232]

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before April 3, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74216. By order of February 22, 1973, the Motor Carrier Board approved the transfer to Elm City Moving and Trucking Co., Inc., New Haven, Conn., of the operating rights in Certificate No. MC-29182 issued December 18, 1940, to Leo C. Laughlin, doing business as Elm City Moving & Trucking Co., New Haven, Conn., authorizing the transportation of various commodities from, to and between specified points and areas in Connecticut, Rhode Island, New Jersey, Massachusetts, and New York.

[SEAL] ROBERT L. OSWALD,  
Secretary.

#### MOTOR CARRIER INTRASTATE APPLICATIONS

MARCH 9, 1973.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of

the intrastate authority sought, pursuant to section 206(a) (6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by § 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

Minnesota Docket No. 515 filed February 9, 1973. Applicant: QUAST TRANSFER, INC., Winsted, Minn. 55395. Applicant's representative: William S. Rosen, 630 Osborn Building, St. Paul, Minn. 55102. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of general commodities over regular routes within the State of Minnesota as follows: (a) Between Cokato, Minn., and Minneapolis and St. Paul, Minn.; between Cokato, Winsted, and Lester Prairie, Minn.; and between Cokato, Winsted, and Lester Prairie, Minn., over the following routes: Route No. 1: From Cokato over U.S. Highway 12 to junction with Wright County Road 6; thence over Wright County Road 6 and State Highway 261 to Winsted; thence from Winsted over State Highway 261 to junction with U.S. Highway 7; thence over U.S. Highway 7 to Minneapolis and St. Paul, and return over the same route. Route No. 3: From Lester Prairie over State Highway 261 via Winsted to junction with Wright County Road 6; thence over Wright County Road 6 to junction with U.S. Highway 12; thence over U.S. Highway 12 to Cokato, and return over the same route. (b) No service at intermediate points, except Winsted and Lester Prairie; applicant shall serve all points in the Twin Cities Metropolitan Area to and from Winsted, Lester Prairie, and Cokato; and applicant shall tack any authority granted herein with its existing authority, which authorizes transportation of general commodities between Lester Prairie and Winsted and Minneapolis and St. Paul, Minn., and between Lester Prairie and Winsted, Minn.

HEARING: April 24, 25, and 26, 1973, at the Wright County Court House, Buffalo, Minn., at 9 a.m. Requests for procedural information should be addressed to the Minnesota Public Service Commission, 400 State Office Building, St. Paul, Minn. 55155, and should not be directed to the Interstate Commerce Commission.

California Docket No. 53871, filed March 2, 1973. Applicant: POZAS BROS.

TRUCKING CO., 2147 O'Toole Avenue, San Jose, CA 95131. Applicant's representative: Marvin Handler, 405 Montgomery Street, Suite 1400, San Francisco, CA 94104. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of general commodities subject to the exceptions hereinbelow set forth, between: (A) (1) All points in the San Francisco territory. (See (B) below for description of San Francisco territory.) (2) The San Francisco territory and the Los Angeles Basin territory and intermediate points located on U.S. Highway 101. (See (C) below for description of Los Angeles Basin territory.) (3) Sacramento and the Los Angeles Basin territory, serving intermediate points located on Interstate Highway 5. (4) Sacramento and the Los Angeles Basin territory, serving intermediate points located on State Highway 99. (5) The San Francisco territory and Manteca, serving intermediate points on Interstate Highway 580. (6) The San Francisco territory and Sacramento, serving intermediate points on Interstate Highway 80. (7) Watsonville and Chowchilla, serving intermediate points on State Highway 152. (8) The Los Angeles Basin territory and San Diego, serving intermediate points on Interstate Highway 5.

(9) All points within 20 miles of all points and places on the routes or in the territories described above. Through routes may be established between any and all points specified above. This does not include the right to render service between points within the Los Angeles Basin territory. Applicant shall not transport any shipments of: (1) Used household goods and personal effects not packed in accordance with the crated property requirements set forth in paragraph (d) of Item No. 10-C of Minimum Rate Tariff No. 4-A. (2) Automobiles, trucks and buses, viz., new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis. (3) Livestock, viz., bucks, bulls, calves, cattle, cows, dairy cattle, ewes, goats, hogs, horses, kids, lambs, oxen, pigs, sheep, sheep camp outfits, sows, steers, stags or swine. (4) Liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles. (5) Commodities when transported in bulk in dump trucks or in hopper-type trucks. (6) Commodities when transported in motor vehicles equipped for mechanical mixing in transit.

(7) Fresh or green fruits, fresh or green vegetables, or mushrooms, when the point of destination of the shipment is a cannery, accumulation station, cold storage plant, precooling plant, or winery, or the empty containers used or shipped out for use in connection with

such transportation. (8) Logs. (B) The San Francisco territory includes that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County boundary line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with the corporate boundary of the city of San Jose; southerly, easterly, and northerly along said corporate boundary to its intersection with State Highway No. 17; northerly along State Highway No. 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estates Drive, Harbor Drive and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland boundary line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway No. 40 (San Pablo Avenue); northerly along U.S. Highway No. 40 to and including the city of Richmond; southwesterly along the highway extending from the city of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco waterfront at the foot of Market Street; westerly along said waterfront and shore-

line to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning.

(C) The Los Angeles basin territory includes that area embraced by the following boundary: Beginning at the point the Ventura County-Los Angeles County boundary line intersects the Pacific Ocean; thence northeasterly along said county line to the point it intersects State Highway No. 118, approximately 2 miles west of Chatsworth; easterly along State Highway No. 118 to Sepulveda Boulevard; northerly along Sepulveda Boulevard to Chatsworth Drive; northeasterly along Chatsworth Drive to the corporate boundary of the city of San Fernando; westerly and northerly along said corporate boundary to McClay Avenue; northeasterly along McClay Avenue and its prolongation to the Angeles National Forest boundary; southeasterly and easterly along the Angeles National Forest and San Bernardino National Forest boundary to the county road known as Mill Creek Road; westerly along Mill Creek Road to the county road 3.8 miles north of Yucaipa; southerly along said county road to and including the unincorporated community of Yucaipa; westerly along Redlands Boulevard to U.S. Highway No. 99; northwesterly along U.S. Highway No. 99 to the corporate boundary of the city of Redlands; westerly and northerly along said corporate boundary to Brookside Avenue; westerly along Brookside Avenue to Barton Avenue; westerly along Barton Avenue and its prolongation to Palm Avenue; westerly along Palm Avenue to La Cadena Drive; southwesterly along La Cadena Drive to Iowa Avenue; southerly along Iowa Avenue to U.S. Highway No. 60; southwesterly along U.S. Highways Nos. 60 and 395 to the county road approximately 1 mile north

of Perris; easterly along said county road via Nuevo and Lakeview to the corporate boundary of the city of San Jacinto; easterly, southerly and westerly along said corporate boundary to San Jacinto Avenue; southerly along San Jacinto Avenue to State Highway No. 74; westerly along State Highway No. 74 to the corporate boundary of the city of Hemet; southerly, westerly and northerly along said corporate boundary to the right of way of the Atchison, Topeka and Santa Fe Railway Co.; southwesterly along said right of way to Washington Avenue; southerly along Washington Avenue, through and including the unincorporated community of Winchester to Benton Road; westerly along Benton Road to the county road intersecting U.S. Highway No. 395, 2.1 miles north of the unincorporated community of Temecula; southerly along said county road to U.S. Highway No. 395; southeasterly along U.S. Highway No. 395 to the Riverside County-San Diego County boundary line; westerly along said boundary line to the Orange County-San Diego County boundary line; southerly along said boundary line to the Pacific Ocean; northwesterly along the shoreline of the Pacific Ocean to point of beginning. Both intrastate and interstate authority sought.

HEARING: Date, time, and place not shown. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, San Francisco, Calif. 94102, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

**Title 21—Food and Drugs**  
**CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE**  
**SUBCHAPTER A—GENERAL**

**PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT**

**Food Label Information Panel**

In the FEDERAL REGISTER of January 19, 1973 (38 FR 2124), the Commissioner of Food and Drugs promulgated a new § 1.8d, establishing a food label information panel for all mandatory label information. Additional comments were requested within 30 days. Comments were received from consumers, industry representatives, trade associations, and other interested persons.

1. A number of comments objected to the inclusion of certain mandatory information under § 1.8d either on the information panel or the principal display panel, or objected to the requirement that the information panel appear immediately to the right of the principal display panel. The Commissioner, having considered and discussed these issues fully in the preamble to the regulation as published on January 19, 1973, is of the opinion that the requirement for placement of mandatory label information on one of these panels is an entirely reasonable application of the provisions of the statute. Accordingly, no change has been made in these provisions.

2. All trade associations and several industry representatives objected to the minimum type size of one-sixteenth inch for all packages. The Commissioner, having considered and discussed this issue in the preamble to the regulation as published on January 19, 1973, believes that in the absence of a specific showing or justification of the need for a smaller type size, a minimum type size of one-sixteenth inch is a very reasonable application of the requirements of the law.

The Commissioner again wishes to emphasize that he recognizes that type size is only one of the elements which determine conspicuousness. The regulation specifically provides that any interested person may petition for a smaller type size or an alternative means of disseminating mandatory label information to the consumer, based on a showing of impracticability or economic hardship.

3. Several firms requested that the effective date of this regulation be extended. It was pointed out that many labels would not be required to be changed by any of the other new labeling regulations being promulgated by the Commissioner, and that such labels should be permitted to remain unchanged until they are changed for other reasons. The cost of a label plate change ranges from \$200 to \$1,000 wholly apart from the additional expense in company time and disposition of unused old labels.

The Commissioner recognizes the current widespread public concern about increase in food prices. Also, there un-

doubtedly will be difficulties simply in achieving the labeling changes required under other regulations being promulgated, e.g., §§ 1.12 and 1.17 in the FEDERAL REGISTER of January 19, 1973 (38 FR 2139 and 2125). Accordingly, the Commissioner has concluded that this comment is reasonable, and the effective date of the regulation is changed to provide that § 1.8d will be effective in accordance with the uniform effective date unless the labeling is otherwise not changed during that interim period, in which case it need not comply with new § 1.8d until a label change is made. A final cutoff date of December 31, 1975, is also established.

4. Comments were submitted questioning the legality of the final order. This matter was fully discussed in the preamble to the regulation as published on January 19, 1973. See *Federal Power Commission v. Texaco*, 377 U.S. 33 (1964); *United States v. Storer Broadcasting Co.*, 351 U.S. 192 (1956); *Securities Exchange Commission v. Chenery*, 332 U.S. 194 (1946); *Abbott Laboratories v. Gardner*, 387 U.S. 136 (1967); *Ciba Geigy v. Richardson*, 446 F.2d 466 (2d Cir. 1971).

5. It has been pointed out that the definition of the "information panel" is imprecise in that it might be interpreted to extend completely around a cylindrical container and might include the entire back side of a large flat package. The Commissioner agrees that clarification is appropriate and, accordingly, language has been added to state that the information panel is immediately contiguous to the principal display panel and that all mandatory information must appear in one area of space without other intervening material. This will preclude interspersing nonmandatory information. On the other hand, this will not preclude use of nonmandatory information in other places on the information panel as long as it does not interfere and is not commingled with the mandatory information.

6. It was suggested that exemptions should be granted by letter rather than by FEDERAL REGISTER notice. The Commissioner concludes that it would be inappropriate to grant exemptions under § 1.8d(f) by letter, for two reasons. First, the public has a right to know what permanent exemptions are granted and the reasons therefor. Second, all manufacturers and distributors of foods similarly situated should be advised of any exemptions granted in order that they may understand the legal requirements applicable to them. Accordingly, no change is made in this provision.

7. Representatives of margarine manufacturers commented that because the statement of ingredients is required to appear on the principal display panel of margarine, their product would be required to bear all mandatory label information on the principal display panel. The Commissioner concludes that, where a food is required to bear the statement of ingredients on the principal display panel, if the manufacturer or distributor wishes to place other mandatory information on an information panel he

should be permitted to do so. The regulation has been changed to reflect this conclusion.

8. Comments pointed out that a food which, by reason of fortification, is also subject to Part 80 would be required to bear the nutrition information specified in Part 80 on the principal display panel and would not be permitted to include it on the information panel. The Commissioner intended that this form of labeling apply to such products. A food represented as a dietary supplement should bear, on the principal display panel, the same information that is required for other dietary supplements (except that the nutrients will be shown in the increments established in § 1.17). Except where there is insufficient space, the other mandatory label information should also appear on the principal display panel, just as it does for all dietary supplements. A food is not required to be formulated and represented as a dietary supplement, and if the manufacturer or distributor chooses to do so the same requirements should apply as for all dietary supplements.

9. In response to other concerns and questions raised in the comments, the Commissioner advises that:

a. If the manufacturer elects to place all the mandatory label information on the principal display panel, the panel immediately to the right of the principal display panel may be used to provide any other information that is not false or misleading.

b. When the panel to the right of the display panel is too small to accommodate the mandatory label information, the panel immediately to the right of this part of the label may be used.

c. Part of the mandatory label information may be placed on the principal display panel and part on the information panel if there is insufficient space for all the information on one panel, provided that the information required by any given section of the regulations shall appear on the same panel. However, in determining whether sufficient space exists, all nonmandatory information must be excluded from consideration.

Accordingly, having considered the additional comments received and other relevant information, the Commissioner concludes that new § 1.8d, as promulgated in the FEDERAL REGISTER of January 19, 1973 (38 FR 2124), should be repromulgated to reflect the technical modifications discussed above.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 403, 701(a), 52 Stat. 1040-1042 as amended, 1047-1048 as amended, 1055; 21 U.S.C. 321, 343, 371(a)), and under authority delegated to him (21 CFR 2.120), the Commissioner amends § 1.8d as promulgated on January 19, 1973 (38 FR 2124), to read as follows:

**§ 1.8d Food labeling; information panel.**

(a) The term "information panel" as it applies to packaged food means that part of the label immediately contiguous and to the right of the principal display

panel as observed by an individual facing the principal display panel with the following exceptions:

(1) If the part of the label immediately contiguous and to the right of the principal display panel is too small to accommodate the necessary information or is otherwise unusable label space, e.g., folded flaps or can ends, the panel immediately contiguous and to the right of this part of the label may be used.

(2) If the package has one or more alternate principal display panels, the information panel is immediately contiguous and to the right of any principal display panel.

(3) If the top of the container is the principal display panel and the package has no alternate principal display panel, the information panel is any panel adjacent to the principal display panel.

(b) All information required to appear on the label of any package of food pursuant to §§ 1.8a, 1.8c, 1.10, 1.17, 1.18, and Parts 80 and 125 of this chapter shall appear either on the principal display panel or on the information panel unless otherwise specified by regulations in this chapter.

(c) All information appearing on the principal display panel or the information panel pursuant to this section shall appear prominently and conspicuously, but in no case may the letters and/or numbers be less than 1/16th inch in height unless an exemption pursuant to paragraph (f) of this section is established. The requirements for conspicuousness and legibility shall include the specifications of §§ 1.8b(h) (1) and (2) and 1.9.

(d) All information required to appear on the principal display panel or on the information panel pursuant to this section shall appear on the same panel unless there is insufficient space. In determining the sufficiency of the available space, any vignettes, design, and other nonmandatory label information shall not be considered. If there is insufficient space for all of this information to appear on a single panel, it may be divided between these two panels except that the information required pursuant to any given section or part shall all appear on the same panel. A food whose label is required to bear the ingredient statement on the principal display panel may bear all other information specified in paragraph (b) of this section on the information panel.

(e) All information appearing on the information panel pursuant to this section shall appear in one place without other intervening material.

(f) If the label of any package of food is too small to accommodate all of the information required by §§ 1.8a, 1.8c, 1.10, 1.17, 1.18, and Parts 80 and 125, the Commissioner may establish by regulation an acceptable alternative method of disseminating such information to the public, e.g., a type size smaller than one-sixteenth inch in height, or labeling attached to or inserted in the package or available at the point of purchase. A petition requesting such a regulation, as an amendment to this paragraph, shall

be submitted to the hearing clerk in the form established in § 2.65 of this chapter.

**Effective date.** All labeling ordered after December 31, 1973, and all labeling used for products shipped in interstate commerce after December 31, 1974, shall comply with this regulation; except that if labeling is otherwise not changed in any respect subsequent March 14, 1973, all such labeling used for products shipped in interstate commerce after December 31, 1975, shall comply with this regulation.

(Secs. 201, 403, 701(a), 52 Stat. 1040-1042 as amended, 1047-1048 as amended, 1055; 21 U.S.C. 321, 343, 371(a))

Dated: March 7, 1973.

CHARLES C. EDWARDS,  
 Commissioner of Food and Drugs.  
 [FR Doc 73-4669 Filed 3-13-73; 8:45 am]

**PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT**

**Nutrition Labeling**

In the FEDERAL REGISTER of January 19, 1973 (38 FR 2125), the Commissioner of Food and Drugs promulgated a new section on nutrition labeling under Title 21, § 1.17 Food; nutrition labeling. A period of 30 days was provided for additional comments suggesting technical changes or corrections. More than 200 comments were received from industry, consumer, and professional groups, trade associations, and individuals. Each of the suggested modifications and request for clarifications has been reviewed, and the Commissioner's conclusions are as follows:

1. Requests to make nutrition labeling mandatory were again received from consumer groups. In the preamble to the regulation as published on January 19, 1973, the Commissioner stated his conclusion that current information is insufficient to adopt a mandatory nutrition labeling regulation at this time. No additional information has been brought to the attention of the agency to alter this decision.

2. Consumer comments again requested complete ingredient labeling and labeling of the percentage of ingredients. The Commissioner has issued a separate policy statement on labeling of all ingredients in standardized foods in the FEDERAL REGISTER of January 19, 1973 (38 FR 2137), and is publishing in this issue of the FEDERAL REGISTER a new Part 102 which establishes a procedure for including the percentage of characterizing ingredients as part of the common or usual name of a food.

3. Comments were submitted questioning the legality of § 1.17. This matter was fully discussed in the preamble to the regulation as published on January 19, 1973. See *Federal Power Commission v. Texaco*, 377 U.S. 33 (1964); *United States v. Storer Broadcasting Co.*, 351 U.S. 192 (1956); *Securities Exchange Commission v. Chenery*, 332 U.S. 194 (1946); *Abbott Laboratories v. Gard-*

*ner*, 387 U.S. 136 (1967); *Ciba Geigy v. Richardson*, 446 F.2d 466 (2d Cir. 1971).

4. Comments were received which stated that the Food and Drug Administration does not have authority to regulate advertising of food products. The Commissioner agrees with this statement. Section 1.17 in no way attempts to regulate claims made in advertising. If a nutrition claim is made in advertising, however, § 1.17 provides that the label of the product must comply with requirements of that section. Once nutrition claims are made for a food, the consumer who wants to use the product for its nutrient content is entitled to examine a label which is complete enough to provide information at the time of purchase and use upon which an intelligent determination may be made as to the total nutrient content of the food.

5. A number of comments requested further clarification of the circumstances under which nutrition labeling becomes mandatory, and in particular what constitutes a "nutrition claim."

The Commissioner has adopted no rigid rule in determining exactly what type of claim will require nutrition labeling. In general, any claim designed to state or give the impression that a food is a good source of nutrition generally, or of a particular nutrient, will require compliance with § 1.17. Thus, mention of any nutrient (i.e., vitamins, minerals, protein, calories, carbohydrates, fat, fatty acids, or cholesterol), or any claim that the food is nutritious, will fall within § 1.17. In close cases, the context of the claims and the impression intended or produced in the public will be controlling. Since a manufacturer or distributor can easily avoid nutrition claims if he chooses to do so, close cases will ordinarily be decided in favor of requiring compliance with § 1.17.

6. Questions have been raised as to whether a food may be labeled in compliance with § 1.17 rather than existing Part 125, pending the uniform effective date and implementation of the changes in Part 125 and § 80.1 published as tentative orders on January 19, 1973 (38 FR 2143, 2152). In publishing new § 1.17, the Commissioner concluded that it is in the public interest that transition to labeling under § 1.17 begin immediately. Accordingly, any food meeting the requirements of § 1.17 will be exempt from existing Part 125 to the extent that § 1.17 and the tentative order for new Part 125 so provide, effective as of January 19, 1973. Similarly, any food meeting the requirements of the tentative orders for new Part 125 and § 80.1 will be exempt from existing Part 125 to the extent that existing Part 125 is changed, effective as of the same date.

7. One comment requested a clear statement that nutrition labeling does not apply to foods designed for use by animals other than man. Section 1.17 applies only to food for human use, as is clearly shown by its provisions. The Commissioner concludes that it is unnecessary explicitly to state this fact in the regulation itself.

8. Questions have been raised whether an industry-wide trade advertisement for a type of food requires nutrition labeling for all members of the sponsoring group. The Commissioner has concluded that, while nutrition claims in labeling an advertising of individual manufacturers will require nutrition labeling for a product, manufacturers will not at this time be subject to nutrition labeling solely because of advertising programs of trade associations or educational organizations. Thus, a nutrition claim for a class of processed foods, or for a specific commodity, when made by a trade organization or educational group, will not in itself require any manufacturer or distributor of the food mentioned to use nutrition labeling if the manufacturer or distributor or his brand(s) is not identified. However, if such material is used by a manufacturer or distributor to promote a specific brand, the fact that the material was prepared and used by the trade or educational organization for general information programs will not exempt such brand from nutrition labeling.

9. Several comments asked that restoration of nutrient levels not be considered an addition of nutrients that would require full nutrition labeling, when such restoration provides only nutrient levels contained in the product prior to processing. The Commissioner has given this comment very careful consideration, and concludes that it is not feasible for a number of reasons. First, there are extremely few foods for which nutrient restoration occurs only up to levels found in the product prior to processing. Any exemption for these products would therefore be so limited as to be illusory, and would not be of any significant assistance to those companies concerned with the problems of meeting the new nutrition labeling requirements. Second, any product for which restoration of nutrients is made would undoubtedly refer to that fact in labeling or advertising, which would independently require use of nutrition labeling. Again, the result would be that any exemption would, for all practical purposes, be nonexistent. Third, any such exemption, if it did result in a significant number of foods with restored nutrients without nutrition labeling, would deprive consumers of important nutrition information about the foods they consume. In this respect, foods with restored nutrients are no different than fortified or enriched foods. Finally, the comments submitted with respect to this issue fail to substantiate any particular products for which this requested exemption would be appropriate. If in fact restoration is found to present a special problem for any particular food, the Commissioner will entertain a petition directed specifically to that problem at that time.

10. Numerous manufacturers asked that they be allowed to state only the caloric content on products which contain no vitamins or minerals and 50 calories or less. Others asked that the exact caloric content be stated when the total caloric content of a serving is less than

50 calories. These correspondents pointed out that at low calorie levels, e.g., 4 calories per serving, the manufacturer would be required to label the product either as zero or as 10 calories, both values being potentially misleading to the consumer. One of the strong consumer positions received following publication of the proposal on March 30, 1972, asked for a clear statement of the vitamin and mineral content of foods which make claims for low calories, and for those which are frequently consumed between meals and provide calories but offer little in terms of other nutrients. The Commissioner concludes that the provision requiring full nutrition labeling when caloric content was stated is reasonable and should be retained.

11. Requests were received from consumers and consumer groups to require full nutrition labeling when cholesterol content is stated. Their comments suggested that foods represented as useful in modified diets because of their cholesterol content should be identified as to their complete nutrition value, as required when fatty acid information is stated in labeling, because consumers need more complete nutrition information to determine how a food can fit into their diet.

Comments from manufacturers asked that the requirement for complete nutrition labeling whenever fatty acid information is present be deleted. They contended that the fatty acid information alone, or with caloric information, was all that was wanted or needed by consumers.

The Commissioner has reviewed this question, and concludes that the original exemption from full nutrition labeling when cholesterol content is provided should be removed. Many of the foods on which either or both fatty acid and cholesterol information will be stated make important contributions of several nutrients to the diet, and the consumer will be best served if full nutrition labeling is required. The requirement for full nutrition labeling when fatty acid information is given is retained.

12. Some manufacturers have placed statements on the labels of their products offering consumers nutrition information if they write to the company. These manufacturers expressed concern that they would no longer be able to carry out such information programs unless the products bear full nutrition labeling. Trade associations pointed out that, unless this approach were permitted, the consumer would receive less nutrition information.

The purpose of nutrition labeling is to provide consumers with information at the points of purchase and use to compare products, to evaluate nutritional claims which have been made for a product, and to prepare a nutritious diet. Providing information independent of the label would not meet these objectives at the point of purchase. However, some companies may not wish voluntarily to adopt nutrition labels, and others may be concerned about placing nutrition information on their labels

where nutrient values may be changing or too uncertain to permit label declaration in advance. Where companies have developed what they feel is adequate current information, but would prefer to carry out additional studies to support a more permanent label statement, it would seem appropriate to permit them to offer such information to consumers by a uniform label statement. This has been provided for in the regulation, by permitting a manufacturer to state "For nutrition information write to -----" without requiring full nutrition labeling. Any information provided in response to the label statement is labeling that is subject to the format and compliance requirements for nutrition labeling. Any product with an added nutrient or for which any other nutrition claim is made on the label or in labeling or advertising may not use this approach to avoid nutrition labeling.

The Commissioner recognizes that this limited exception could be subject to abuse. The agency will maintain surveillance over this matter to determine whether it should be retained. If such label statements become a substitute for full nutrition labeling, and are used by companies which have sufficient label space and nutrition data to utilize full nutritional labeling, the Commissioner will promptly revoke this exception.

To conform with this change, the provision in § 1.17(f) relating to labeling statements offering additional nutrition information upon request has been deleted. This deletion results in no change in substance. A food that is subject to § 1.17, as well as one that is not subject to § 1.17, may include an offer to supply additional nutrition information on request. A food not subject to § 1.17 would be limited to furnishing the nutrition information specified in § 1.17, but a food subject to § 1.17 could furnish any additional truthful nutrition information it might choose.

13. A request was made that food be permitted to contain 50 percent of the U.S. RDA, and that a dietary supplement contain more than 50 percent. The Commissioner has concluded, however, that any product with nutrients added so that it contains half the nutrient level established as the U.S. RDA is properly regarded as a dietary supplement rather than as a food (unless such fortification is specifically provided for in a standard of identity, nutrition guideline, or other applicable regulation). Accordingly, no change has been made in this provision in § 1.17(a).

14. One comment reflected concern that § 1.17 may prohibit the sale of all food which naturally contains 50 percent or more of the U.S. RDA for a given vitamin or mineral unless the food conforms to § 80.1 or another standard of identity. Such an interpretation is incorrect. Those products in which the naturally occurring level of a nutrient equals or exceeds 50 percent of the U.S. RDA, and those foods in which addition of a nutrient(s) is permitted or required by regulation, e.g., a standard of identity or nutritional quality guideline, or is

otherwise exempted by the Commissioner, are not prohibited and need not conform to the requirements of § 80.1. Only those foods in which a nutrient has been added so that it equals or exceeds the 50 percent of the U.S. RDA must conform to the requirements of § 80.1, as well as § 1.17. This matter was discussed fully in the preamble to this regulation as published on January 19, 1973, and in the discussion of the proposed findings for § 80.1 (38 FR 2152, 2157), also published on January 19, 1973.

15. Comments were received from many manufacturers asking that, in addition to the use of a serving as a basis for nutrition labeling and fatty acid and cholesterol labeling, the designation of a "portion" be permitted. The term "portion" was defined in several ways: The amount reasonably consumed in 1 day; a quantity expressed in common household terms but not necessarily related to a serving, e.g., 2 ounces of margarine, or 1 cup of flour; or the complete container when that quantity would usually be used as an ingredient in the preparation of a meal component, e.g., a can of tomato paste used in preparing a meat sauce.

The Commissioner recognizes that there are many foods for which servings cannot easily be stated. However, nutrition labeling statements based on unreasonably large quantities could confuse consumers and make comparisons between products difficult or impossible. In seeking reasonable statements of serving sizes the Commissioner concludes that, for most products, the requirements for serving size as stated in the final regulation published on January 19, 1973, shall be maintained. Manufacturers may express a "portion" for a food which is used only as an ingredient in other foods; and shall do so in an easily identifiable serving quantity in household terms, e.g., cupfuls or teaspoonfuls or ounces, or a complete container where this information is not misleading to consumers.

16. A comment was received stating that the use of the phrase "adult male engaged in light physical activity" indicated that § 1.17(b) was intended to apply only to this segment of the population. This is erroneous. The phrase is used only as a guide in attempting to define a serving.

17. Several comments suggested that the serving or portion size should be standardized so that labels will reflect a uniform approach from which consumers may readily make comparisons. The Commissioner agrees that serving and portion sizes should be uniform. Under the regulation it is incumbent upon industry and consumers to work together to devise uniform serving and portion sizes. If this does not materialize, the Commissioner will establish a procedure for adopting uniform serving and portion sizes that will be applicable to all foods.

At least one comment expressed concern that requiring declaration of nutrient content on the basis of a serving

or portion would understate the nutritional value where it may be consumed at each of three meals during the day. The Commissioner recognizes that repeated consumption of a food item with a moderate or low nutritional content may well result in a significant nutrient contribution to the daily diet. Accordingly, § 1.17(b) has been revised to provide that, where a food is commonly consumed more than once a day, the label shall state the nutrient content on a serving or portion basis and may, in addition, also state the nutrient content when consumed on a daily basis. For example, it may be appropriate for bread to be shown per two slices (a serving) and per six slices (per day), and for milk to be shown per glass (a serving) and per quart (per day). In order to justify any such statement, reliable data, such as statistically valid dietary surveys, must be available to show that the food is in fact customarily consumed more than once daily and the total daily amount usually consumed.

18. It has been suggested that nutrition labeling should be provided both with respect to the food in the package and with respect to the food as prepared for consumption after cooking or other home preparation. Section 1.17(b) has been modified to permit this information. Where this optional form of declaration is used, the specific method of preparation or cooking must be specified. Manufacturers are also encouraged to provide consumers with additional information on methods of cooking or preparation which will result in maximum retention of nutrients. The Commissioner has concluded that requiring nutrient declaration on the basis of the product as consumed is not feasible because, for many products, there are numerous variations of cooking or other methods of preparation, and enforcement would not appear to be feasible.

19. Consumer groups and individual consumers expressed great concern that some deviations from the standard format are permitted. They asked that the label have the basic information on the seven nutrients plus protein present every time that nutrition labeling is used. Consumer groups also preferred to have zero listed when less than 2 percent of the U.S. Recommended Dietary Allowance (U.S. RDA) of a nutrient is present.

The comments from manufacturers asked that a more flexible position be taken on the question of listing the percent of the U.S. RDA. It was suggested that if no vitamins or minerals are present in a food, a statement "contains no significant amounts of nutrients" or "contains no nutrients" be permitted. Some manufacturers also asked that, for foods containing only a single component contributing only calories, only the caloric content and the amount of this component be required, e.g., corn starch containing only carbohydrate and no vitamins or minerals.

The Commissioner has concluded that a standard format is desirable whenever reasonable, since this will assist

those developing consumer information and educational programs. This matter was fully discussed in the preamble to the January 19, 1973, regulation. The exception permitted in the regulation, when no more than three of the vitamins or minerals are present at levels of 2 percent or greater, was based in part on the results of consumer studies suggesting that a few positive values intermingled with zeros or asterisks could be misunderstood. A statement that the other nutrients are not present is required immediately following the listing of the nutrients by percent U.S. RDA.

The Commissioner concludes that a change in the basic format proposed in the January 19, 1973, regulation is not warranted. Accordingly, the format is retained. However, several technical changes suggested in order to make the basic format more readable, and reduce possible confusion, are reasonable and have been adopted. The optional statement "per serving" has been added to the heading "Nutrition Information" in order to make it clear that the basis of the information is on a serving. The term "Calories" can be used as an alternate term for "Caloric content." Similarly, the term "content" may be eliminated as a required part of the headings for the protein, carbohydrate, and fat statements. The placement of fatty acid information has also been clarified by stating that it must follow the statement on fat, rather than be adjacent to the statement.

Several manufacturers pointed out that the statement "Percentage of the U.S. RDA for fat, protein, vitamins, and minerals" could be shortened by deleting the portion "for protein, vitamins, and minerals," as it was obvious that these were what was stated. The Commissioner agrees that this latter phrase is not needed, and the regulation has been corrected.

In stating the exception to the complete format of the U.S. RDA percentage of seven nutrients, the fact that, with protein, there are eight items to be listed was overlooked. In order to correct this error, the section relating to the exception has been changed to read that if five or more of the eight nutrients required are present at less than 2 percent of the U.S. RDA the alternate labeling approach may be used.

20. The question of stating calories to the nearest calorie, rather than in 10 calorie increments, has been carefully considered, and the Commissioner agrees that at calorie levels less than 50 calories a more correct statement of calories should be permitted. The regulation has been slightly modified in § 1.17(c) (3) to permit the use of 2-calorie increments up to 20 calories and 5-calorie increments above 20 calories up to and including 50 calories. Ten-calorie increments will be used above 50 calories. At the lower caloric levels compliance will be more difficult, but careful monitoring of protein, fat, and carbohydrate content can provide a means of determining if real misrepresentations are being made by the low calorie statements.

Several objections were raised concerning the 2, 5, and 10 percent of the U.S. RDA intervals used to state the protein, vitamin, and mineral levels. Some persons felt that 5 or 10 percent intervals should be used, while a few felt that 1 percent intervals over the entire range should be permitted. The 2 percent intervals at the lower level of nutrients was incorporated on the basis of consumer, industry, and nutrition educator comments on the original proposal, and are reasonable. Using smaller intervals over the entire range will in the opinion of the Commissioner only result in consumer confusion.

21. Several manufacturers objected to the double listing for protein, both as grams of protein and as a percent of the U.S. RDA, under § 1.17(c)(4). They were particularly concerned about a product which contains no protein, and which would have to list zero twice, or zero and an asterisk, on the label.

The Commissioner concludes that there is a need to maintain the basic nutrition labeling format, and there appears to be no special hardship in the situation mentioned. In many of the instances where protein content is zero the manufacturer will be able to use the limited listing plus the statement that specific nutrients are not present, thus eliminating the second zero statement from the listing under the percentage of the U.S. RDA.

22. Several manufacturers and trade associations raised questions about the procedure to be used for establishing a value for the U.S. RDA of protein in a food. Some asked for a third standard of 30 grams of protein to be used with those animal protein foods with the highest biological quality. They pointed out that the use of 45 grams of protein as a standard for all proteins equal to or better than casein put the better quality proteins at a disadvantage.

A review of the proposed standard does not support such a change at this time. As the Commissioner stated in the preamble to the regulation as published on January 19, 1973, further extension of subdivisions of protein types does not appear justified. As experience with nutrition labeling is gained, and additional information is obtained concerning simpler procedures for evaluating protein quality, the Commissioner will evaluate the procedure for establishing the U.S. RDA value for labeling protein and make any appropriate modifications.

Several manufacturers also requested the Commissioner to establish a standard conversion factor for converting nitrogen content to protein as part of the analytical method for protein in food. The factor of 6.25 times the nitrogen content is commonly used to calculate protein, but scientists recognize that this factor gives larger protein values than are determined by more accurate and complex procedures for certain food proteins. The alternate conversion factors for specific proteins are available in the literature, and could be used when use of the common conversion value of

6.25 results in significant overstatement of the protein content.

In reviewing this matter, the Commissioner is of the opinion that for labeling purposes use of the 6.25 conversion factor is satisfactory. However, methods for determining protein content listed in the Official Methods of Analysis of the Association of Official Analytical Chemists, 11th Ed., 1970 (AOAC), give more correct factors for the conversion of nitrogen to protein, and when a conversion factor other than 6.25 is given in the AOAC methods that value shall be used.

23. Many manufacturers stated that they felt that the calculation of caloric content by the Atwater method as required by the regulation is more accurate than required. They suggested that the more commonly used values of 4, 4, and 9 calories per gram of protein, carbohydrate, and fat, respectively, be used as these are actual standard values derived from the Atwater values.

The reference to the Atwater method to determine caloric content was included in the final regulation in order to provide manufacturers with a standard guide for calculating calories. This procedure was developed to account for those factors which led to caloric contents less than expected due to reduced absorption or biological availability. The Commissioner is aware that for most foods, the caloric factors of 4, 4, and 9 calories per gram of protein, carbohydrate, and fat, respectively, will give a satisfactory statement for caloric content. However, there are situations where the calculation of caloric content using the 4, 4, and 9 calories per gram values will misrepresent the caloric content of the product. In such situations, where more accurate values are given in the reference cited in the regulation, USDA Handbook 74 (1955), it would appear reasonable for manufacturers to use the correct values. The agency will follow this procedure outlined above in determining caloric content in order to establish if a product is in compliance. Manufacturers can identify those situations where the use of the 4, 4, and 9 calorie per gram values will result in a label value more than 20 percent greater than the actual value and in those cases the values in the USDA Handbook 74 should be used in determining the caloric content of the food.

24. Comments were received objecting to any declaration of the U.S. RDA greater than 100 percent in a serving. Those taking this position were concerned that consumers would be misled by such claims, and also that claims of significance on the basis of 10 percent of the U.S. RDA, e.g., 120 percent compared to 110 percent, would confuse consumers.

In naturally occurring products such nutrient levels are rare. When they do occur, the Commissioner concludes that it is unreasonable to deny those marketing the product the right truthfully to label the nutritional content.

The Commissioner is aware that the addition of vitamins or minerals to a

food at levels greater than 50 percent of the U.S. RDA may in some cases be allowed. However, when such values are added to a food and not covered by a regulation permitting such levels of added nutrients, the product will be regulated as a dietary supplement under § 80.1 (38 FR 2152).

The Commissioner is of the opinion that the issue of proper food fortification cannot be appropriately dealt with under nutrition labeling. The Commissioner stated in the preamble to the regulation as published on January 19, 1973, that the agency is preparing a number of regulations regarding the addition of nutrients to foods. New Part 100, establishing nutrition guidelines, is published in this issue of the Federal Register. In addition to specific regulations and guidelines, the Commissioner will prepare a regulation incorporating overall agency policy on addition of nutrients to foods. Until this action is complete, the agency will review food fortification on an individual basis using the principles stated in existing and newly published regulations.

25. One manufacturer pointed out that the language stating that vitamins and minerals other than the basic five vitamins and two minerals could be listed, did not make it clear that these must be listed as a percent of the U.S. RDA. The language has been changed to make this clear. In addition, the mandatory listing of the other vitamins when they are added is also made clear by a slight modification in the regulation.

26. A few comments were received requesting that values other than those selected for the U.S. RDA be chosen for nutrition labeling in § 1.17(c)(7)(iv). As stated in the preamble to the regulation as published on January 19, 1973, this question was carefully considered, and the values selected were those considered appropriate for nutrition labeling as well as for use by the agency in establishing standards for special dietary foods and dietary supplements. While no change in the current U.S. RDA will be made at this time, the U.S. RDA values periodically will review the U.S. RDA values periodically to insure that they are in general agreement with the National Academy of Sciences' values for the Recommended Dietary Allowances.

27. One comment was received pointing out that the terms "thiamine" and "folic acid" have been replaced by the terms "thiamin" and "folacin" in the listing of accepted nomenclature by the International Union of Nutritional Sciences (Nutrition Abstracts and Reviews, 40, 395, 1920), the recognized international nutrition organization. The Food and Drug Administration uses the nomenclature of the United States Pharmacopoeia, and their accepted spelling and names for these two products are used in the regulation.

28. One comment was received asking that choline and inositol be included in the list of essential nutrients in order to permit their inclusion in products such as infant formulas, products intended for use as the total daily diet, medical diets, and similar products. Such products are

special dietary foods, and this question is therefore properly considered under Part 125. This comment will be included with those received on that document in response to the tentative order published on January 19, 1973 (38 FR 2143). Special dietary foods are specifically exempted from nutrition labeling under § 1.17(h) (1), (3), and (4). Any change in the list of essential nutrients under Part 125 will be accompanied by reconsideration of the list of nutrients appropriate for label declaration under § 1.17(c)(7)(iv).

29. One comment was received asking that, in addition to the percent of the U.S. RDA, manufacturers be required to list the actual amounts of each nutrient present, e.g., milligrams or International Units. The Commissioner had considered this type of labeling in the early stages of development of nutrition labeling. As consumer understanding of the quantities was very limited and labeling as a percent of daily allowances offers a procedure for indicating the nutrient contribution of a food without extensive nutrition training, the use of actual values has been rejected for consumer labeling. Actual values may, under § 1.17(f) of the revised regulation, be furnished to interested professionals.

30. Several manufacturers objected to 10 percent of the U.S. RDA being established as the level where claims for significance can be made. Some suggested that 5 percent of the U.S. RDA would be more appropriate, while one comment said that a system relating caloric content and contribution of vitamins, minerals, and protein would be more appropriate.

The Commissioner recognizes that any minimum value established for claiming a significant nutrient content will be arbitrary. Since all foods will be able to indicate their nutrient content under nutrition labeling and consumers will be able to make nutrient comparisons, the point at which a product can claim to be a "significant" source of a nutrient takes on less importance than when actual nutrient contents were not available for consumer comparison. In addition, the use of 5-percent increments for protein, vitamin, and mineral levels between 10 percent and 50 percent of the U.S. RDA, and 10-percent increments at levels over 50 percent, make it unreasonable to select a value of 5 percent of the U.S. RDA or less as significant. The level of 10 percent of the U.S. RDA was selected as significant since it represents a major difference throughout most of the range at which nutrient values commonly are present in foods.

The use of a caloric-nutrient ratio for establishing the nutritional significance of a product is a concept which was considered in the early development of nutrition labeling. While the concept is one which nutritionists are currently developing, it is not readily understood by consumers, and to use such information would, in the opinion of the Commissioner, result in problems of consumer understanding and use. The Commis-

sioner has therefore retained 10 percent of the U.S. RDA as the level for declaring significance as stated in the regulation published on January 19, 1973.

31. Information on other properties of food, e.g., fiber content, sugar content, or moisture content, is included on labels or in labeling by some manufacturers. Comments were received asking that such information be allowed to appear on labels. While such information is not nutrition information as described in this regulation, the Commissioner recognizes that some consumers want to know about these other properties of food. Such information can be included on the label or in labeling provided it is not false or misleading, and is not prohibited by other regulations. This information may not be placed on the label as part of or with nutrition labeling or other mandatory information, but it may immediately follow or otherwise be contiguous to the mandatory information on the information panel. The information on these other properties should be stated for the same serving size (portion) as used for nutrition labeling.

32. It has been suggested that the definition of a "lot," which is based solely upon the common container code or marking, may be inapplicable to methods of continuous production (e.g., bread and milk). In recognition of this possibility, § 1.17(e)(1) has been changed to state that, in such situations, a lot will be regarded as a day's production.

33. Concern was voiced by several manufacturers that official methods of analysis are not applicable to their products, and it would therefore be difficult to determine if they are in compliance. The Commissioner has stated in the regulation that the official procedures will be those of the Association of Official Analytical Chemists (AOAC) or other reliable and appropriate analytical procedures. Questions of methodology may be submitted to the agency, and the suitability and applicability of alternative procedures will be resolved in that way.

34. Virtually all comments expressed concern about meeting the compliance requirements contained in the regulations within the time limits established by the uniform effective date. The Commissioner is aware that difficulties may be encountered by some firms, whereas for other firms compliance will not present any significant problem. Accordingly, the Commissioner has concluded to approach this matter in the following way.

First, there are some companies and industries which will find it difficult or even impossible to meet the first requirement under the uniform effective date, that labels printed after December 31, 1973, must comply with the new requirements. For those who are now gathering the data necessary for compliance, this represents insufficient time to obtain that information before such orders must be placed. For example, some companies and industries are now conducting intensive analytical surveys which must be continued over a sufficiently representa-

tive period of time in order to make them statistically valid. The Commissioner wishes to encourage this type of program which will for the first time result in a detailed data base upon which truthful and accurate nutritional labeling can rest. Accordingly, the Commissioner will entertain all reasonable requests for extension of this first part of the uniform effective date, where the petitioner shows the type of analytical data being obtained and the time schedule involved, as justification for this extension. Extensions will be granted only upon a showing of good cause therefor, based upon an on-going program. Such extensions should be requested promptly. All correspondence relating to such extensions will be placed on file for public review at the office of the hearing clerk.

Second, the Commissioner again reiterates the point made in the preamble to the regulations as published in the Federal Register of January 19, 1973, that temporary exemptions will be considered, upon a showing of economic hardship, for any enriched standardized food which, by reason of the standard, must include added nutrients and thereby is required by § 1.17 to bear nutrition labeling. Many manufacturers of these foods unquestionably have the quality control and analytical capabilities at this time to meet this requirement without significant difficulty. Other manufacturers, however, and particularly small manufacturers, may not presently have these capabilities. The Commissioner does not wish those manufacturers who cannot immediately meet these requirements to be forced to eliminate the nutrients from the food, or to discontinue production of the food, or to suffer an economic and competitive hardship. Accordingly, the Commissioner will entertain petitions which demonstrate such a hardship, and will grant temporary exemptions upon a showing of good cause. Such exemptions will not be granted on an across-the-board or industrywide basis, but rather upon a detailed factual showing by an individual firm justifying a temporary exemption.

The Commissioner anticipates that these exemptions will be only temporary in nature, not permanent. Adequate time will be provided for these manufacturers to obtain the necessary quality control and analytical methodology, or to contract for it, without undue hardship. It must be recognized, however, that no permanent exemption could be justified. Indeed, it would be unfair to permit any extensive exemption for one group of manufacturers and to require their competitors to achieve full compliance with § 1.17 within the uniform effective date.

Third, comments were received from several groups, including consumer advocates, suggesting that the agency establish interim compliance requirements that would allow greater variation from the stated label values for nutrients in Class II foods (i.e., foods with naturally occurring (indigenous) ingredients) after the December 31, 1974, effective date. Such an approach would allow a

substantially greater tolerance during the first year, with a more rigid requirement each year for 3 years until the requirement contained in § 1.17(e) (4) (ii) is reached. It was also suggested that a moratorium period be established during which only gross violations would result in regulatory action.

The Commissioner is in agreement with the concepts underlying these comments but believes that the matter should be approached in a different way. Many manufacturers, and particularly those who began 2 or 3 years ago to prepare for these regulations, are now fully able to meet the compliance requirements established in § 1.17. The compliance requirements adopted by the Commissioner are relatively flexible, and do not impose very difficult standards. Indeed, it is the intent of the Commissioner that they be tightened as experience develops with nutrition labeling, rather than relaxed. In any event, they present entirely realistic standards at this time for any company with sound quality control and who wishes to engage in nutrition labeling.

On the other hand, the Commissioner is well aware that this is an entirely new program, relying upon quality control requirements, analytical capabilities, and testing programs of a nature that have not previously been used. Like any new program, it will take time for both industry and Government to work out problems that are encountered. The Commissioner cannot and does not expect full and complete adherence to the exact compliance requirements established in § 1.17 on an immediate basis. It is entirely likely that, acting in the best of faith, deviations will occur.

The Commissioner concludes that the most equitable approach to this matter is to retain the compliance requirements of the regulation as published on January 19, 1973, but to exercise substantial discretion in their enforcement during the first few years in which they are in use. In exercising this discretion, the Commissioner will take into account all pertinent information. It is impossible to articulate a rigid compliance rule precisely because of the factors discussed above, i.e., in some instances full compliance is entirely feasible and should be required, whereas in other instances it cannot realistically be expected on an immediate basis. The principal factor that will guide enforcement policy will be the action taken by the manufacturer or distributor to obtain the analytical data, the quality control procedures, and the testing programs necessary to achieve compliance with the regulation. The Commissioner does not anticipate taking regulatory action during this initial period where a good faith attempt has been made to achieve compliance, even though exact compliance has not been achieved.

The Commissioner has concluded that an industrywide relaxation of the compliance requirements contained in § 1.17 or a moratorium on regulatory action based on a sliding scale of compliance

during the next 3 years, is not in the public interest and is not justified by the facts. Those who have advocated this position are largely companies which chose not to prepare for this regulation by obtaining analytical data and establishing quality control procedures adequate to assure compliance with whatever regulation might issue. Several of their competitors, on the other hand, anticipated the new regulatory requirements that have now been promulgated and are fully prepared for nutrition labeling. The Commissioner concludes that, while enforcement flexibility will be retained, the failure of some manufacturers and distributors to prepare for these regulations cannot be accepted as justification for a total moratorium or a failure to require compliance where it should be achieved.

Food distributors who depend on many small- or medium-sized processors to provide a private label product have pointed out several problems which they feel are unique to this type of operation. Their suppliers are not uniformly capable of initiating programs to develop the information and controls required for nutrition labeling, and these distributors must print up their labels before they know what specific manufacturers may be among their suppliers during a given year. Distributors of private label products are therefore concerned that it may be impossible to place nutrition labeling on their products which they are sure will meet the compliance requirements as currently stated.

While the Commissioner agrees that these organizations have some problems which are unique to this form of marketing, it is not reasonable to require manufacturers of major brands to meet the compliance procedures while providing exceptions for certain of their competitors. In the discussion of comments on compliance and the use of representative values, the Commissioner has provided several alternatives to permit manufacturers to initiate nutrition labeling as soon as basic nutrient information is available without undue risk. A mechanism for obtaining sufficient time to achieve the compliance levels is provided to manufacturers, and is also available for distributors working with these manufacturers.

Fourth, some of the comments suggest that the second step of the uniform effective date, requiring that all food shipped in interstate commerce after December 31, 1974, be labeled in compliance with § 1.17, should be extended for up to 5 years, and particularly for Class II foods. This suggestion is closely tied to the problem of the compliance standard.

The Commissioner has concluded that no justification has been presented for extension of the effective date of the regulation beyond December 31, 1974. Petitions for extension of the first step of the effective date, requiring that all labels printed after December 31, 1973, shall conform to § 1.17, have already been discussed above.

Some comments noted that, for products containing Class II nutrients, it may take more than one growing season to obtain the data necessary for accurate nutrition labeling. The Commissioner is prepared to deal with these problems on an individual basis. If a manufacturer or a trade association begins immediately to establish a complete program to obtain the analytical data necessary for accurate nutrition labeling, the Commissioner will consider an extension of the December 31, 1973, label printing requirement. When those data become available a year from now, that manufacturer or trade association may then review them with the Food and Drug Administration and a determination may be reached as to whether they present sufficiently accurate and reliable information on which labels for the following year may be based. By repeating this process for the succeeding years, labels will bear the most accurate and reliable information available and consumers will have the assurance that the label represents the contents of the product as accurately and reliably as possible at the present time.

For the reasons explained at some length in the preamble to the regulation as published on January 19, 1973, the Commissioner has concluded that the industrywide or representative data presently available from such sources as USDA Handbook 8 is not sufficiently reliable or accurate to be a basis for nutrition labeling at this time. The Commissioner pointed out then, and reiterates now, that it is essential that representative data be checked by analysis of individual lots to give assurance that the label value adequately represents the product offered, at least until accurate and complete data are available on an industrywide, regional, and manufacturer basis. In time, the use of standard representative data, backed up by periodic analytical spot checks, will undoubtedly be possible in achieving compliance with § 1.17. The Commissioner encourages agricultural experiment stations, producer associations, food manufacturers, and others to expand efforts in the gathering of food nutrient composition data, in order to provide the information essential for the expansion of nutrition labeling.

35. One comment suggested that use of a standard compliance requirement of 20 percent for Class II nutrients is inequitable because it allows greater variability at a high level of the U.S. RDA and virtually no variability at a low level of the U.S. RDA. Moreover, variability at a low level of the U.S. RDA will have a far smaller effect on the overall nutrient content of the U.S. RDA. Moreover, variability at high level of the U.S. RDA.

The Commissioner recognizes the validity of this point. Nevertheless, even at levels of 10 percent of the U.S. RDA or less, the variability permitted using the 20-percent compliance standard is 2 percent or 1 percent of the U.S. RDA. In addition, the variability of the available analytical methods for determining nutrient content in Class II foods at levels

below 10 percent of the U.S. RDA in many instances exceeds this 20-percent variability permitted for compliance purposes under the regulation, and no regulatory action will be taken unless the nutrient level found in the product exceeds both the 20-percent compliance standard and whatever variability is recognized for the particular method being used. In all instances, therefore, the actual variability permitted will exceed the 20-percent standard specified under the regulation, and in many instances it will be double that standard or greater. Accordingly, the Commissioner has concluded that it is unnecessary to incorporate into the regulation any explicit provision to alleviate the narrower range of variability permitted at the low end of the U.S. RDA scale, because this is built into the regulation through the use of methodology that has its own degree of precision. The regulation has been revised to state that fact.

36. One organization requested that, for compliance purposes, minimum levels of calories, protein, carbohydrate, and fat be established below which values for these nutrients would not be subject to the compliance requirements of the regulation. The specific values suggested were 40 calories, 5 grams of protein, 10 grams of carbohydrate, and 5 grams of fat. Other comments pointed out that, for some foods, analytical problems would make it very difficult to evaluate compliance.

The Commissioner realizes that analytical problems do exist for some foods. However, for many foods the analytical procedures will permit determinations of even these low levels of protein, carbohydrate, and fat. For example, one can identify the fat content in a milk product with sufficient accuracy to distinguish between 3.25 grams and 3.5 grams of fat per 100 grams of milk product. Consumers should expect that products claiming only 1 gram of fat would have close to that amount, and not as much as 5 grams. A separate compliance position for these lower levels would actually provide no greater protection for manufacturers in terms of risk of mislabeling. Since the agency, as well as manufacturers, recognizes the analytical problems, compliance actions relating to these nutrient levels will reflect the accuracy of the available analytical methodology as well as the tolerance permitted in the regulation. Until experience with the regulation indicates that a more specific procedure is required for low levels of protein, carbohydrate, and fat content, this section of the regulation will be left unchanged. Since caloric content is actually directly related to the protein, carbohydrate, and fat content, the limits on these nutrients will provide a control on calories.

37. Many manufacturers have prepared pamphlets and charts for physicians, dietitians, and teachers providing more detailed nutrition composition information, including the actual amounts of the various nutrients. This labeling material often is not amenable to the

format established in § 1.17, and in any event usually provides this information in more precise amounts rather than in the increments established in § 1.17. Several comments requested that these materials be permitted for use without requiring nutrition labeling, or at least that they not be required to be prepared in the exact format established in § 1.17.

It is not the intention of the agency to restrict the information flow from food manufacturers to professionals in the fields of health, nutrition, foods, or education generally. Thus, the Commissioner concludes that this type of labeling material should be permitted, and indeed encouraged, as long as it also contains, or has attached to it, nutrition labeling in the form in which it is provided to consumers under § 1.17. An appropriate change has been made in § 1.17(f) to reflect this.

The Commissioner also concludes that such material should not be permitted to be used without also requiring nutrition labeling for the foods involved. The nutrient values set forth in such material will be required to meet the compliance levels contained in § 1.17, and therefore the manufacturer or distributor of the food must already have sufficient information to permit nutrition labeling in order to use these other materials. Such materials, even when distributed only to professionals, are routinely redistributed to the public on a widespread basis, and often are a primary source of nutrition information for interested consumers. Thus, although such detailed materials should be encouraged as a good source of nutrition information, and should not be restricted to the label form established in § 1.17, the Commissioner concludes that no sound basis exists for exempting them from the general rule that the use of any nutrition information will require full nutrition labeling for the foods involved.

38. Nutrition labeling for infant and baby foods was included in the regulation at the request of professional organizations and individuals specifically interested in infant and child nutrition. Several comments were received requesting that the U.S. RDA contained in § 1.17(h) (1) for an infant or child under 4 years of age be further refined to include a separate U.S. RDA for infants from birth to 12 months. The Commissioner recognizes that the U.S. RDA standard that presently exists for children up to 4 years of age is not wholly adequate and should be improved. The Commissioner invites all interested persons to consider appropriate new U.S. RDA's for this age level which can be incorporated in § 1.17, and Part 125 in the future.

In the interim, the Commissioner concludes that the U.S. RDA levels established in this regulation are reasonable and will result in no harm whatever with respect to infant nutrition. None of the comments suggest that infant and baby foods should be totally exempt from nutrition labeling until better U.S. RDA's can be established. Accordingly, the regulation is not changed in this respect.

The fact that the U.S. RDA's for infants and babies may be revised should in no way deter food manufacturers from including this information on their labels, based upon the present regulation. When new U.S. RDA's are adopted, which may well take several years, the Commissioner will include an adequate effective date in order to provide manufacturers with sufficient time to achieve compliance, in order to avoid economic hardship that may result from label changes.

39. Those persons concerned with infant feeding also pointed out that no protein standard was established for labeling infant and junior foods. The Commissioner agrees that the standards of 45 grams and 65 grams to be used for nutrition labeling of protein in foods, as contained in § 1.17(c) (7) (ii) (a), are not suitable for labeling strained infant and junior foods. A standard protein value of 20 grams for protein with a protein efficiency ratio (PER) equal to or greater than casein, and a value of 28 grams of protein for other proteins with a PER less than casein, was suggested in several comments. These values appear to be reasonable for labeling baby food products, and are consistent with protein values of the National Academy of Sciences Food and Nutrition Board for this age grouping. These suggestions have been incorporated into the regulation for use by manufacturers of baby foods until a revised set of U.S. RDA for this age can be developed.

40. One comment pointed out that, although iodized salt is exempt from nutrition labeling when sold as such, any product to which it is added is not exempt from nutrition labeling. This was an oversight in the regulations, and has been corrected by a change in § 1.17(h) (5).

41. Exemptions for food packed for institutional use, for food being shipped in bulk containers, and for food shipped to a manufacturer as an ingredient for use in another processed food, were requested by many manufacturers. The basic arguments against providing nutrition labeling on these products was that the information would not be seen by the consumer. In the case of institutions such as hospitals, nursing homes, and schools, those commenting also pointed out that a dietitian was often involved in the ordering of the food, and the purchase specifications were more informative than the nutrition labeling.

The labeling regulations promulgated under the Federal Food, Drug, and Cosmetic Act, including § 1.17, apply to all food shipped in interstate commerce, unless otherwise exempted. The Commissioner recognizes that many products are manufactured only for use in institutional feeding, and that under these circumstances the ultimate consumer would not have an opportunity to see the label. In certain instances, e.g., hospitals and school lunch programs, the persons responsible for planning menus and purchasing food may have special training and be aware of the nutritional qualities of the foods, or may even establish

nutrition specifications for certain food products being purchased. However, nutrition labeling can serve to assist these individuals in identifying the most nutritious products, and provide a means for evaluating nutrition claims. The Commissioner has therefore decided that products requiring nutrition labeling because of added nutrients or label claims being shipped solely for institutional food service use shall be exempt from the requirements of the nutrition labeling regulation, if the manufacturer provides the nutrition information required by § 1.17 directly to those institutions and such information is kept current with changes in formulation or processing procedures. Manufacturers may also distribute factual information on the composition and nutritional quality of foods to professionals in the health and education fields which need not be in the format required for nutrition labeling. In addition to nutrition labeling.

The situation involving products being shipped from one manufacturer to another for use as ingredients in a processed food is different from foods manufactured and shipped to food service units which will prepare them for immediate consumption. The Commissioner concludes that bulk shipments of products such as flour, sugar, sirups, oils, and shortenings, or other products which are shipped in bulk form for use in manufacturing other foods shall be exempt from nutrition labeling. It is assumed that the manufacturer purchasing these food products will have established specifications for the product and no purpose would be served to require nutrition labeling.

42. Comments were received about the prohibition in § 1.17(d)(1) against labeling claims that the dietary properties of a food are adequate or effective in the prevention or treatment of any disease or symptom. Some comments erroneously interpreted this as prohibiting virtually any discussion of the nutritional usefulness of any food.

The Commissioner fully recognizes that all nutrients assist in preventing nutrient deficiencies and thus, in that sense, prevent disease. The prohibition contained in this provision in no way prohibits a truthful representation that a given nutrient is essential to human nutrition and good health and well-being. At the same time, it must be recognized that claims related to specific disease conditions render the product a drug under section 201(g)(1)(B) of the Act.

This prohibition was adopted because of widespread promotional practices stating or implying that a nutrient or food should be consumed in order to prevent a specific disease. For example, it has been common practice to promote nutrients by stating that a deficiency in a particular nutrient leads to a specified disease, thus implying that a consumer who fails to purchase the product in question may suffer from that disease or that the product in question will prevent that disease. The Food and Drug Administration and the Federal Trade Commission have successfully brought

numerous cases to prevent such promotional practices over the years, but in spite of this success in the courts manufacturers and distributors of some products continue to use such claims.

The Commissioner concludes that reliance upon scare promotional claims, designed to panic the public into believing that nutrient fortification or supplementation is necessary to prevent the onset of severe deficiency diseases, is neither supported by the available scientific and medical facts nor fosters good nutritional practices. Promotion designed to educate the public about the need for basic nutrition planning for daily food needs, and to emphasize the importance of essential nutrients to good health, is both truthful and conducive to sound nutrition.

43. Comments were received objecting to § 1.17(d)(2), which prohibits the use of labeling claims suggesting that conventional foods in the diet, as usually prepared, are inadequate to meet nutritional needs. No data were furnished in the comments to show that a diet of conventional foods cannot satisfy all nutritional needs. To clarify this prohibition, however, the phrase "balanced diet" will be substituted for "diet," since it is obvious that an unbalanced or extremely poor diet could be deficient in nutrients. This prohibition was discussed fully in the preambles, findings of fact, and conclusions of law with respect to Part 125, published on January 19, 1973 (38 FR 2149).

44. Concern has been expressed that the labeling prohibitions contained in § 1.17(d)(3) and (4) would preclude factually supportable statements that, for example, a particular food has been handled by the producer or manufacturer in a special way in order to retain a higher nutrient content than competitive foods. This is not the intent of these prohibitions nor are they so worded.

These prohibitions are intended to prohibit unsupported generalizations about nutrient losses because of soil, transportation, and processing that have often been used in promotional literature in the past. They do not preclude a manufacturer or distributor who had adequate scientific data to show a higher nutrient retention in his product than in a competitor's product from making that claim. Nor do they prohibit a claim that a particular food has a higher nutrient content than is ordinarily true because of the soil in which it is grown, if that claim is backed up by adequate scientific data showing the differences between the soils involved and the resulting nutrient differences in the foods. Finally, a manufacturer may, without question, suggest cooking or handling methods for optimum nutrient retention. In order to clarify this, the phrase "the daily diet" is substituted for diets in § 1.17(d)(4). Any such claims will, of course, also require full nutrition labeling under § 1.17.

45. Several requests were received asking that manufacturers identify the natural and added vitamins in their products. The regulation permits, but does not require, such identification, and the

statement of ingredients will in many instances reveal this information. The Commissioner concludes that there is insufficient differences between these two types of nutrients to justify requiring a special label designation of this kind.

Section 1.17(d)(6) forbids any suggestion that a natural vitamin is superior to an added vitamin, but permits any truthful designation of any nutrient as natural in origin. This prohibition was included because of widespread claims that nutrients of natural origin are superior to synthetic nutrients. At the present time, there is no valid scientific evidence to support such a claim of superiority, nor is there evidence to support any suggestion that synthetic nutrients are superior to natural nutrients.

One comment objected to § 1.17(d)(6) on the basis that it suggested that natural vitamins in a food were inferior to added vitamins. After reviewing the wording of the regulation, the Commissioner concludes that it in no way suggests that added vitamins are superior to vitamins natural to a food. Any such claim would be subject to prompt regulatory action.

46. One comment questioned the basis for delaring rutin and other bioflavonoids as unnecessary nutrients, and challenged the prohibition against combining these ingredients with nutrients already found to be essential in human nutrition. The basis for the Commissioner's conclusions on this matter was set out in detail in the preambles, findings of fact, discussion, and conclusions of law with respect to Part 125 and § 80.1, as published in the FEDERAL REGISTER for January 19, 1973 (38 FR 2143 and 2152). No data or information were submitted to show that any of these ingredients is essential in human nutrition or otherwise beneficial to health. The courts have previously upheld the Food and Drug Administration's position that inclusion of such ingredients in the product falsely represents nutritional value (United States v. Vitasafe, 226 F. Supp. 266 (D. N.J., 1964); United States v. Nuclomin, No. 71 C 585 (2) (E.D. Mo., 1972)). Nevertheless, the Commissioner has concluded that it is reasonable to permit these ingredients to be marketed alone or in combination as foods, without claims for nutritional value. Any citizen who wishes to purchase and consume them will have an opportunity to do so.

47. The Commissioner has carefully reviewed and considered all comments, and to the extent that they are not encompassed within the above discussion or modifications made in the regulation they are rejected.

Accordingly, having considered the additional comments received and other relevant information, the Commissioner concludes that new § 1.17, as promulgated in the FEDERAL REGISTER of January 19, 1973 (38 FR 2125), should be repromulgated to reflect the technical modifications discussed above. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 403, 701(a), 62 Stat. 1040-1042 as amended, 1047, 1055; 21 U.S.C. 321, 343,

371(a)) and under authority delegated to him (21 CFR 2.120), the Commissioner hereby amends new § 1.17 to read as follows:

#### § 1.17 Food; nutrition labeling.

(a) Nutrition information relating to food may be included on the label and in the labeling of a product: *Provided*, That it conforms to the requirements of this section. Except as provided in paragraph (h) of this section, inclusion of any added vitamin, mineral, or protein in a product or of any nutrition claim or information, other than sodium content, on a label or in advertising for a food subjects the label to the requirements of this section, and in labeling for a food subjects the label and that labeling to the requirements of this section.

(1) Solicitation of requests for nutrition information by a statement "For nutrition information write to \_\_\_\_\_" on the label or in the labeling or advertising for a food, or providing such information in a direct written reply to a solicited or unsolicited request, does not subject the label or the labeling to the requirements of this section if no other nutrition claim is made on the label or in other labeling or advertising, if the reply to the request conforms to the requirements of this section and contains no additional nutrition information, and if no vitamin, mineral, or protein is added to the food.

(2) If any vitamin and/or mineral is added to a food so that a single serving provides 50 percent or more of the U.S. Recommended Daily Allowance (U.S. RDA) for adults and children 4 years or more of age, as specified in § 125.1 of this chapter, of any one of the added vitamins and/or minerals, unless such addition is permitted or required in other regulations, e.g., a standard of identity or nutritional quality guideline, or is otherwise exempted by the Commissioner the food shall conform to the standard or identity set forth in § 80.1, of this chapter, and shall also conform to the labeling established in § 80.1 of this chapter, except that the labeling established in paragraph (c) of this section including the order for listing vitamins and minerals established in paragraph (c)(7)(iv) of this section, shall be used in lieu of the labeling established in § 80.1 (i)(1) of this chapter.

(b) All nutrient quantities (including vitamins, minerals, calories, protein, carbohydrate, and fat) shall be declared in relation to the average or usual serving or, where the food is customarily not consumed directly, in relation to the average or usual portion. Another column of figures may be used to declare the nutrient quantities in relation to the average or usual amount consumed on a daily basis, in the same format required in paragraph (c) of this section for the serving (portion), where reliable data have established that the food is customarily consumed more than once during the day and the average or usual amount so consumed.

(1) The term "serving" means that reasonable quantity of food suited for or practicable of consumption as part of a meal by an adult male engaged in light physical activity, or by an infant or child under 4 years of age when the article purports or is represented to be for consumption by an infant or child under 4 years of age. The term "portion" means the amount of a food customarily used only as an ingredient in the preparation of a meal component (e.g., ½ cup flour, ½ tablespoon cooking oil or ¼ cup tomato paste). A label statement regarding a serving (portion) shall be in terms of a convenient unit of such food or a convenient unit of measure that can be easily identified as an average or usual serving (portion) and can be readily understood by purchasers of such food (e.g., a serving (portion) may be expressed in slices, cookies, or wafers; or in terms of ounces, fluid ounces, teaspoonfuls, tablespoonfuls, or cupfuls).

(2) A teaspoonful shall be considered to mean 5 milliliters (approximately ¼ fluid oz.) in volume; a tablespoon shall be considered to mean 15 milliliters (approximately ½ fluid oz.) in volume; and a cupful shall be considered to mean 240 milliliters (approximately 8 fluid oz.) in volume. The weight of the serving (portion) may also be expressed in grams.

(3) The declaration of nutrient quantities shall be on the basis of the food as packaged. Another column of figures may be used to declare the nutrient quantities on the basis of the food as consumed after cooking or other preparation, in the same format required in paragraph (c) of this section for the food alone: *Provided*, That the specific method of cooking or other preparation shall be disclosed in a prominent statement immediately following the information required by paragraph (c) of this section.

(c) The declaration of nutrition information on the label and in labeling shall contain the following information in the following order, using the headings specified, under the overall heading of "Nutrition Information Per Serving (Portion)": The terms "Per Serving (Portion)" are optional and may follow or be placed directly below the terms "Nutrition Information."

(1) "Serving (portion) size": A statement of the serving (portion) size.

(2) "Servings (portions) per container": The number of servings (portions) per container.

(3) "Caloric content" or "Calories": A statement of the caloric content per serving (portion), expressed to the nearest 2-calorie increment up to and including 20 calories, 5-calorie increment above 20 calories and up to and including 50 calories, and 10-calorie increment above 50 calories. Caloric content shall be determined by the Atwater method as described in A. L. Merrill and B. K. Watt, "Energy Value of Foods—Basis and Derivation," USDA Handbook 74 (1955).<sup>1</sup>

<sup>1</sup> Copies may be obtained from: Division of Nutrition (BF-124), Bureau of Foods, Food and Drug Administration, 200 C Street SW., Washington, DC 20204.

Caloric content may be calculated on the basis of 4, 4, and 9 calories per gram for protein, carbohydrate, and fat respectively unless the use of these values gives a caloric value more than 20 percent greater than the caloric value obtained when using the more accurate values determined by use of the Atwater method as found in USDA Handbook 74 (1955).

(4) "Protein content" or "Protein": A statement of the number of grams of protein in a serving (portion), expressed to the nearest gram. Protein content may be calculated on the basis of the factor of 6.25 times the nitrogen content of the food as determined by the appropriate method of analysis of the Association of Official Analytical Chemists, 11th edition, 1970, except when the official procedure for a specific food requires another factor.

(5) "Carbohydrate content" or "Carbohydrate": A statement of the number of grams of carbohydrate in a serving (portion) expressed to the nearest gram.

(6) "Fat content" or "Fat": A statement of the number of grams of fat in a serving (portion) expressed to the nearest gram. Fatty acid composition, cholesterol content, and sodium content may also be declared in compliance with §§ 1.18 and 125.9 of this chapter.

(i) When fatty acid composition is declared, the information on fatty acids required by § 1.18(c) shall be placed on the label immediately following the statement of fat content. The declaratory information statement required by § 1.18 (d) shall be placed either immediately following the statement on fat and fatty acids or shall be appropriately referenced by symbol and placed immediately following the completed nutrition information statement.

(ii) When cholesterol content is declared, the information on cholesterol required by § 1.18(b) shall immediately follow the statement on fat content (and fatty acids, if stated). The declaratory information statement required by § 1.18 (d) shall be placed either immediately following the statement on cholesterol or shall be appropriately referenced by symbol and placed immediately following the completed nutrition information statement.

(iii) When both fatty acid and cholesterol information are provided, the declaratory information statement may be combined as permitted by § 1.18(d).

(iv) When sodium is declared, the information on sodium required by § 125.9 of this chapter shall be placed on the label immediately following the statement on fat content (and fatty acid and/or cholesterol, if stated).

(7) "Percentage of U.S. Recommended Daily Allowances (U.S. RDA)": A statement of the amount per serving (portion) of the protein, vitamins, and minerals, as described in this subparagraph, expressed in percentage of the U.S. Recommended Daily Allowance (U.S. RDA).

(i) The percentages shall be expressed in 2-percent increments up to and in-

## RULES AND REGULATIONS

cluding the 10-percent level, 5-percent increments above 10 percent and up to and including the 50-percent level, and 10-percent increments above the 50-percent level. Nutrients present in amounts less than 2 percent of the U.S. RDA may be indicated by a zero, or by an asterisk referring to another asterisk placed at the bottom of the table and followed by the statement "contains less than 2 percent of the U.S. RDA of this (these) nutrient (nutrients)." However, when a product contains less than 2 percent of the U.S. RDA for each of five or more of the eight nutrients specified in subdivision (iii) of this subparagraph, the manufacturer or distributor may choose to declare no more than three of those nutrients and none of the remainder listed in subdivision (iv) of this subparagraph. The statement "contains less than 2 percent of the U.S. RDA of \_\_\_\_\_", listing whichever of the eight nutrients are present at less than 2 percent of the U.S. RDA and have not been declared, shall directly follow the declared nutrient in the same type size. Any nutrient declared shall always appear in the order established in subdivision (iv) of this subparagraph.

(ii) The declaration of protein, which shall come first, shall be a statement of the amount per serving (portion) of protein, expressed as a percentage of the U.S. RDA.

(a) The U.S. RDA of the protein in a food product is 45 grams if the protein efficiency ration (PER) of the total protein in the product is equal to or greater than that of casein, and 65 grams if the PER of the total protein in the product is less than that of casein. The percentage of the U.S. RDA shall be declared as described in subdivision (i) of this subparagraph.

(b) Total protein with a PER less than 20 percent of the PER of casein may not be stated on the label in terms of percentage U.S. RDA, and the statement of protein content in grams per serving (portion) under subparagraph (4) of this paragraph shall be modified by the statement "not a significant source of protein" immediately adjacent to the protein content statement regardless of the actual amount of protein present.

(iii) The declaration of vitamins and minerals as a percent of the U.S. RDA which shall follow the protein declaration, shall include vitamin A, vitamin C, thiamine, riboflavin, niacin, calcium, and iron, in that order, and shall include any of the other vitamins and minerals listed in subdivision (iv) of this subparagraph when they are added and may list any of the other vitamins and minerals listed in subdivision (iv) of this subparagraph when they are naturally occurring in the order listed therein.

(iv) The following U.S. Recommended Daily Allowances (U.S. RDA) and nomenclature are established for these vitamins and minerals, essential in human nutrition:

Vitamin A, 5,000 International Units.  
Vitamin C, 60 milligrams.  
Thiamine, 1.5 milligrams.<sup>1</sup>

Riboflavin, 1.7 milligrams.<sup>1</sup>  
Niacin, 20 milligrams.  
Calcium, 1.0 gram.  
Iron, 18 milligrams.  
Vitamin D, 400 International Units.  
Vitamin E, 30 International Units.  
Vitamin B<sub>1</sub>, 2.0 milligrams.  
Folic acid, 0.4 milligram.<sup>2</sup>  
Vitamin B<sub>12</sub>, 6 micrograms.  
Phosphorus, 1.0 gram.  
Iodine, 150 micrograms.  
Magnesium, 400 milligrams.  
Zinc, 15 milligrams.  
Copper, 2 milligrams.  
Biotin, 0.3 milligrams.  
Pantothenic acid, 10 milligrams.

These nutrients and levels have been derived by the Food and Drug Administration from the "Recommended Dietary Allowances," published by the Food and Nutrition Board, National Academy of Sciences-National Research Council, and are subject to amendment from time to time as more information on human nutrition becomes available.

(v) No claim may be made that a food is a significant source of a nutrient unless that nutrient is present in the food at a level equal to or in excess of 10 percent of the U.S. RDA in a serving (portion). No claim may be made that a food is nutritionally superior to another food unless it contains at least 10 percent more of the U.S. RDA of the claimed nutrient per serving (portion).

(d) Products with separately packaged ingredients or to which other ingredients are added by the user may be labeled as follows:

(1) If a product is comprised of two or more separately packaged ingredients enclosed in an outer container, nutrition labeling of the total product shall be located on the outer container to provide information for the consumer at the point of purchase. However, when two or more food products are simply combined together in such a manner that no outer container is used, or no outer label is available, each product shall have its own nutrition information, e.g., two boxes taped together or two cans combined in a clear plastic overwrap.

(2) If a food is commonly combined with another ingredient(s) before eating and directions for such combination are provided, another column of figures may be used to provide a list of the nutrient contents for the final combination in the same format required in paragraph (c) of this section for the food alone (e.g., a dry ready-to-eat cereal may be described with one set of percentage U.S. RDA values for the cereal as sold (per ounce), and another set for the cereal and milk as suggested in the label (per ounce of cereal and one-half cup of vitamin D fortified whole milk); and a cake mix may be labeled with one set of percentage U.S.

<sup>1</sup>The following synonyms may be added in parentheses immediately following the Biotin, 0.3 milligram.

Vitamin C..... Ascorbic acid  
Folic acid..... Folic acid  
Riboflavin..... Vitamin B<sub>2</sub>  
Thiamine..... Vitamin B<sub>1</sub>

RDA values for the dry mix (per serving), and another set for a serving of the final cake when prepared). The type and quantity of the other ingredient(s) to be added by the user to the product shall be specified.

(e) Compliance with this section shall be determined as follows:

(1) A collection of primary containers or units of the same size, type, and style produced under conditions as nearly uniform as possible, designated by a common container code or marking, or in the absence of any common container code or marking a day's production, constitutes a "lot."

(2) The sample for nutrient analysis shall consist of a composite of 12 sub-samples (consumer units), taken one from each of 12 different randomly chosen shipping cases, to be representative of a lot. Composites shall be analyzed by Association of Official Analytical Chemists (AOAC) methods where available or, if no AOAC method is available, by reliable and appropriate analytical procedures. Alternative methods of analysis may be submitted to the Food and Drug Administration to determine their acceptability.

(3) Two classes of nutrients are defined for purposes of compliance:

Class I. Added nutrients in fortified or fabricated foods.  
Class II. Naturally occurring (indigenous) nutrients.

If any ingredient which contains a naturally occurring (indigenous) nutrient is added to a food the total amount of such nutrient in the final food product is subject to Class II requirements unless the same nutrient is also added.

(4) A food with a label declaration of a vitamin, mineral, or protein shall be deemed to be misbranded under section 403(a) of the act unless it meets the following requirements:

(i) Class I vitamin, mineral, or protein. The nutrient content of the composite is at least equal to the value for that nutrient declared on the label.

(ii) Class II vitamin, mineral, or protein. The nutrient content of the composite is at least equal to 80 percent of the value for that nutrient declared on the label.

*Provided*, That no regulatory action will be based on a determination of a nutrient value which falls below this level by a factor less than the variability generally recognized for the analytical method used in that food at the level involved.

(5) A food with a label declaration of calories, carbohydrates, or fat shall be deemed to be misbranded under section 403(a) of the act unless the nutrient content of the composite is no greater than 20 percent in excess of the value for that nutrient declared on the label.

(6) Reasonable excesses of a vitamin, mineral, or protein over labeled amounts are acceptable within good manufacturing practices. Reasonable deficiencies of calories or fat under labeled amounts are acceptable within good manufacturing practices.

## RULES AND REGULATIONS

(f) Nutrition information provided by a manufacturer or distributor directly to professionals (e.g., physicians, dietitians, educators) may vary from the requirements of this section but shall also contain or have attached to it the nutrition information exactly as required by this section.

(g) The location of nutrition information on a label shall be in compliance with § 1.8d.

(h) The following foods are exempt from this section or are subject to special labeling requirements:

(1) Except where expressly covered by § 125.5 of this chapter, infant, baby, and junior-type foods marketed and promoted for children under 4 years of age shall include nutrition information on the label and in labeling in compliance with this section except that the term "serving" shall mean that reasonable quantity of food suited for or practicable of consumption by an infant or child under 4 years of age and that the U.S. RDA levels for infants and children under 4 years of age contained in § 125.1(b) of this chapter shall be used in lieu of the U.S. RDA levels contained in paragraph (c) (7) (iv) of this section. For the purposes of labeling these foods with a percent of the U.S. RDA for protein, a value of 20 grams of protein shall be the U.S. RDA value for protein with a protein efficiency ratio (PER) equal to or greater than casein, and 28 grams if the PER of the protein is less than the PER of casein but greater than 20 percent of casein.

(2) Dietary supplements, the nutrients of which consist solely of vitamins and/or minerals, shall be labeled in compliance with §§ 80.1 and 125.3 of this chapter, except that the labeling of a dietary supplement in food form, e.g., a breakfast cereal, shall conform to the labeling established in paragraph (c) of this section, including the order for listing vitamins and minerals established in paragraph (c) (7) (iv) of this section, in lieu of the labeling established in § 80.1 (1) (1) of this chapter.

(3) Any food represented for use as the sole item of the diet shall be labeled in compliance with Part 125 of this chapter.

(4) Foods represented for use solely under medical supervision in the dietary management of specific diseases and disorders shall be labeled in compliance with Part 125 of this chapter.

(5) Iodized salt shall be labeled in compliance with § 3.87 of this chapter and when used in a food does not subject that food to labeling under this section if it is declared in the ingredient statement by its name (iodized salt) and neither iodine nor iodized salt is otherwise referred to on the label or in labeling or advertising.

(6) A nutrient(s) included in food solely for technological purposes may be declared solely in the ingredient statement, without complying with this section, if the nutrient(s) is otherwise not referred to on the label or in labeling or in advertising.

(7) A standardized food containing an added nutrient(s), e.g., enriched flour, and included in another food as a component may be declared in the ingredient statement by its standardized name, without compliance with this section, if neither the nutrient(s) nor the component is otherwise referred to on the label or in labeling or in advertising.

(8) Food products shipped in bulk form for use solely in the manufacture of other foods and not for distribution to consumers in such bulk form or container.

(9) Food products containing an added vitamin, mineral, or protein, or for which a nutritional claim is made on the label or in labeling or in advertising, which are supplied for institutional food service use only: *Provided*, That the manufacturer or distributor provides the nutrition information required by this section directly to those institutions on a current basis.

(1) A food labeled under the provisions of this section shall be deemed to be misbranded under sections 201(n) and 403(a) of the act if its labeling represents, suggests, or implies:

(1) That the food because of the presence or absence of certain dietary properties, is adequate or effective in the prevention, cure, mitigation, or treatment of any disease or symptom.

(2) That a balanced diet of ordinary foods cannot supply adequate amounts of nutrients.

(3) That the lack of optimum nutritive quality of a food, by reason of the soil on which that food was grown, is or may be responsible for an inadequacy or deficiency in the quality of the daily diet.

(4) That the storage, transportation, processing, or cooking of a food is or may be responsible for an inadequacy or deficiency in the quality of the daily diet.

(5) That the food has dietary properties when such properties are of no significant value or need in human nutrition. Ingredients or products such as rutin, other bioflavonoids, para-aminobenzoic acid, inositol, and similar substances which have in the past been represented as having nutritional properties but which have not been shown to be essential in human nutrition may not be combined with vitamins and/or minerals, added to food label in accordance with this section, or otherwise used or represented in any way which states or implies nutritional benefit. Ingredients or products of this type may be marketed as individual products or mixtures thereof: *Provided*, That the possibility of nutritional, dietary, or therapeutic value is not stated or implied (e.g., their labeling does not state that their usefulness in human nutrition has not been established and does not otherwise disclaim nutritional, dietary, or therapeutic value).

(6) That a natural vitamin in a food is superior to an added or synthetic vitamin, or to differentiate in any way between vitamins naturally present from those added.

*Effective date*. All labeling ordered after December 31, 1973, unless extended by the Commissioner on petition for good cause shown, and all labeling used for

products shipped in interstate commerce after December 31, 1974, shall comply with this regulation. (Secs. 201, 403, 701(a), 52 Stat. 1040-1042 as amended, 1047, 1055; 21 U.S.C. 321, 343, 371(a).)

Dated: March 7, 1973.

CHARLES C. EDWARDS,  
Commissioner of Food and Drugs.

NOTE: Incorporation by reference provisions approved by the Director of the Federal Register, January 15, 1973.

[FR Doc. 73-4671 Filed 3-13-73; 8:45 am]

# PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT

## Labeling of Foods With Information on Cholesterol and Fat and Fatty Acid Composition

In the FEDERAL REGISTER of January 19, 1973 (38 FR 2132), the Commissioner of Food and Drugs published a regulation relating to labeling foods with information on cholesterol and fatty acid composition. The regulation reflected the comments received on proposals published on June 15, 1971 (36 FR 11521), concerning cholesterol and fatty acid labeling. Thirty days were provided for additional comments on technical corrections or modifications. The Commissioner received more than 20 additional comments on the published regulation.

The comments from manufacturers were directed toward the triggering of nutrition labeling when fatty acid labeling was provided, the restrictions on label statements other than those provided for in the regulation, and the analytical procedures to be used for determining compliance. Other comments received from manufacturers included a request to allow products with less than 2 grams of fat in a serving to be labeled with fatty acid information; a request to delete the words "fatty acid" from the required heading (i.e., "Polyunsaturated fatty acid") and to use the word "fat" instead; a request to delete the statement of the percent of calories from fat and definition of servings; and a request to delete the required statement which makes reference to physicians advising the use of diets.

Two comments were received stating that the proposed labeling for fat was derogatory that no lower limit for fat content was proposed, suggesting that fat was not a valuable ingredient. It was suggested that the Commissioner establish a standard for the percent of calories from fat so that a food could state what percent of this daily fat standard it contained in a manner similar to that permitted for protein.

Comments received from consumers or consumer representation gave strong support to the cholesterol and fatty acid labeling. Their comments include a request that complete nutrition labeling be required whenever cholesterol content was stated, that the ratio of polyunsaturated to saturated fatty acids be listed (P/S ratio), and that servings be defined.

After considering all comments and suggestions for change submitted, the Commissioner has concluded to make a number of technical modifications to the final regulation, as outlined in the following discussion.

#### I. CHOLESTEROL LABELING

1. The suggestion that cholesterol labeling also require nutrition labeling was based on the contention that products listing a lower cholesterol content than usually found for that product class should disclose total nutritional value. The Commissioner concludes that there is merit in this suggestion, in that it would provide consumers with the same total information for both fatty acids and cholesterol. In reviewing products for which cholesterol labeling would provide consumers with useful information, primarily foods from those classes which are major contributors to dietary cholesterol of fabricated substitutes, it appears that nutrition labeling would serve a useful purpose. The regulation has therefore been changed in this respect.

The combining of cholesterol and nutrition labeling results in several additional technical changes to make the provisions of nutrition labeling apply to this section. In this issue of the *FEDERAL REGISTER*, the Commissioner is also publishing technical modifications to the nutrition labeling regulations of § 1.17 (21 CFR 1.17) reflecting the additional comments received on that regulation. Several of the proposed changes in cholesterol and fatty acid labeling are discussed in the preamble to that document and are incorporated into that regulation. These include provisions for using portions as well as servings, a partial exemption for institutional food products, and a provision for providing information to health and education professionals.

2. The suggestion was made that cholesterol content be declared in 5-milligram increments. While it does not appear that permitting actual values for cholesterol content would cause any problem, a more uniform statement of cholesterol content, in 5-milligram increments, would afford consumers a more uniform method of comparison. The regulation has therefore been modified to require cholesterol content to be stated in the nearest 5-milligram increment.

3. One manufacturer requested that a series of names be established for low, reduced, or cholesterol-free products. The Commissioner does not at this time propose to attempt to establish any common names of this type on his own initiative. Manufacturers with products which might be labeled with a common or usual name incorporating such statements may submit an appropriate petition under new Part 102, which establishes a procedure for adopting a common or usual name for a food, and which is published elsewhere in this issue of the *FEDERAL REGISTER*. Such names may not be false or misleading, and will be required to provide sufficient information

to consumers that they can easily identify the product.

#### II. FAT AND FATTY ACID LABELING

1. The Food and Drug Administration (FDA) did not intend to suggest that the fat portion of the diet was unimportant. However, the Commissioner concludes that there is no good reason at this time for FDA to establish a U.S. Recommended Daily Allowance (U.S. RDA) for fat. There appears to be no deficiency of fat in the American diet. If there is a need for a standard for the quality of fat in the diet, it would be more appropriate to request that the Food and Nutrition Board of the National Academy of Science consider establishment of such a standard.

With respect to establishing a lower compliance limit for fat content, the Commissioner has concluded that no exact minimum figure is needed for determining compliance with the label declaration of fat. Manufacturers will be expected to follow good manufacturing practices in the production of products, and the label declaration of fat, carbohydrates, and calories will reflect such practices.

2. Several manufacturers and associations requested that the term "fatty acid" be dropped from the required declaration, on the basis that this term would confuse consumers. In addition, it was pointed out that the calculation of the fatty acid class was in fact made on the basis of the triglycerides, not the fatty acids, and therefore should not be referred to as "fatty acids." Comments were also received asking that the class "other fatty acids" be deleted.

With respect to the use of the term "fatty acids," it is probably true that consumers recognize "polyunsaturated" and "saturated" in relation to fat-modified diets, and the more technically correct term "fatty acids" could be confusing. The Commissioner agrees that the deletion of the term "fatty acids" will not result in any misunderstanding of the label by consumers, and has therefore changed the regulation.

In regard to deletion of the term "other fatty acids" there is only limited comment either supporting deletion or requesting retention of this statement. With the deletion of the term "fatty acid," the word "other" no longer can be easily understood, and might be misunderstood to mean that the "other" category has some special value. The original intent was to provide a means for identifying the total fat content, but it appears that this is less important than reducing the danger of consumer confusion. Thus, the category of "other fatty acids" has been deleted.

3. Two comments were received asking that the statement on the percent of calories from fat be deleted. A comment was received supporting retention of this provision. In the preamble to the published regulation, reference was made that percent of calories from fat was considered useful. No evidence was submitted

that this would create any hardship. Accordingly, no change is made in the regulation in this respect.

4. A major objection related to the restrictions on any other statements on cholesterol and fatty acids content on the label or in labeling. Manufacturers felt that such restrictions were unreasonable, and that they had a right to provide such information if it was true and not misleading. Their concern was that consumers would not be able easily to identify products that might be useful in low cholesterol or fat-modified diets.

The Commissioner concludes that unrestricted statements on the principal display panel highlighting the cholesterol or fatty acid content overemphasize these components and could mislead consumers into believing that the medical basis for a fat-modified diet has been firmly established. However, the Commissioner also recognizes the need to identify a product on the shelf of the food store, and consideration has therefore been given to how this best can be done. For purposes of identifying a product which has cholesterol or fatty acid information on the label, a statement has been included in the revised regulation which can appear on the principal display panel. This will be a standard statement, to avoid the possibility that every manufacturer would use a different statement, thus further confusing the consumers. The restriction on other statements is retained.

5. The Commissioner discussed in the preamble to the January 19, 1973, regulation, the need for limiting fatty acid labeling to foods which made a reasonable contribution to the total daily fat intake. The requirement that a product provide at least 2 grams of fat in a serving is reasonable. No valid reasons or data were provided to support changing this limit, and it has been retained in the regulation.

6. A request was received to permit, in fatty acid statements, the content of fatty acid to be rounded off to the nearest gram. It was the intent of the Commissioner that this be done, and this change has been incorporated into the regulation.

7. Another request was made to require the polyunsaturated/saturate content ratio (P/S ratio) to be placed on the label. This was fully discussed in the preamble to the regulation as published on January 19, 1973. The Commissioner had concluded that stating the content of polyunsaturated and saturated fatty acids is adequate. Thus no change is made in this aspect of the regulation.

8. The deletion of mandatory nutrition labeling when fatty acid information is provided was requested by manufacturers and trade associations. They were particularly concerned with the inclusion of full nutrition labeling on products such as vegetable oils and shortenings where the product contains only fat and the label would show positive values for only calories and fat, and

zero for all other nutritional components.

The Commissioner considered this problem prior to publishing the final regulations on January 19, 1973, and concluded that the consumer needs full nutrition labeling in order to evaluate products bearing fatty acid labeling. The provision for nutrition labeling is therefore retained unchanged.

9. Several manufacturers requested deletion of the required statement regarding physicians advising individuals to use modified diets, as they contended that this statement would be misunderstood by consumers. A comment strongly supporting the statement was received from a consumer organization which felt that individuals considering the special information provided by fatty acid and cholesterol labeling should be reminded that major diet changes should be carried out under medical direction. The Commissioner concludes that it is essential that consumers understand that a modified diet should be undertaken only with the advice and guidance of a physician and only as a total program. The required label statement has been retained in the final regulation.

10. Many manufacturers objected to the use of the Canadian Food and Drug Directorate Method FA-59 for determining the level of *cis,cis*-methylene-interrupted polyunsaturated fatty acid as part of the compliance program. The concerns expressed by those manufacturers were essentially the same as those stated in response to the proposal published June 15, 1971. In the preamble to the January 19, 1973, regulation, the Commissioner stated in the discussion of this question that FDA had modified the procedure so that it could be applied to products covered by this regulation. Copies of these modifications will be made available to interested parties upon request to the Bureau of Foods, Food and Drug Administration, 200 C Street SW., Washington, DC 20204. The principal reason for using the method adopted for *cis,cis*-methylene-interrupted polyunsaturated fatty acids is to eliminate interference from trans forms of the polyunsaturated fatty acids. Use of the Association of Official Analytical Chemists (AOAC) methods for polyunsaturated fatty acids determinations will also be acceptable where trans forms are not present. The Commissioner has also stated in the regulation that alternative methods of analysis may be submitted to FDA for determination of their acceptability, and he encourages manufacturers to use this route to handle specific problems of analysis on individual food products. The reference to methods for analysis in the regulation has therefore been retained.

Accordingly, having considered the additional comments received and other relevant information, the Commissioner concludes that new § 1.18 as promulgated in the *FEDERAL REGISTER* of January 19, 1973 (38 FR 2132), should be repromulgated to reflect the technical modifications discussed above.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 403, 701(a), 52 Stat. 1040-1042 as amended, 1047-1048 as amended, 1055; 21 U.S.C. 321, 343, 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), § 1.18 as promulgated on January 19, 1973 (38 FR 2132), is amended to read as follows:

#### § 1.18 Labeling of foods in relation to fat, fatty acid, and cholesterol content.

(a) Implicit or explicit claims for the value of food in preventing or treating heart or artery disease can be misleading to consumers. However, a significant segment of the medical community is recommending that individuals modify their total diet by eliminating certain foods or by replacing certain foods with others in order to effect changes in the levels of blood components. Although there have been no definitive studies which have demonstrated beyond doubt that extensive changes in the consumption of fat and cholesterol by the general public are desirable, it is nevertheless appropriate to provide for informative labeling which will help individuals to identify foods for inclusion in fat-modified diets recommended by physicians. It is also appropriate to prohibit label statements which misrepresent specific foods as being, of themselves, of value in the control of the levels of these blood components or in the control of heart or artery disease.

(b) A food label or labeling may include a statement of the cholesterol content of the food: *Provided*, That it meets the following conditions:

(1) The food is labeled in compliance with the provisions of § 1.17.

(2) The following information is included in the following order, in accordance with the provisions of § 1.17 (c) (6) (ii):

(i) The cholesterol content, stated to the nearest 5-milligram increment per serving.

(ii) The cholesterol content, stated to the nearest 5-milligram increment per 100 grams of the food.

(iii) The statement required by paragraph (d) of this section.

(c) A food label or labeling may include information on the fatty acid content of the food: *Provided*, That it meets the following conditions:

(1) The food contains 10 percent or more fat on a dry weight basis and not less than 2 grams of fat in an average serving. Any food containing less than 10 percent total fat on a dry weight basis and/or containing less than 2 grams of fat in a serving is not suitable for use by man as a means of regulating the intake of fatty acids.

(2) The food is labeled in compliance with § 1.17 and the following information is included in the following order in accordance with § 1.17(c) (6) (ii):

(i) The total fat content in terms of the percentage of the total calories in the food provided by fat with the heading "Percent of calories from fat."

(ii) The amount of fatty acids, calculated as the triglycerides, shall be stated in grams per serving to the nearest gram in the following two categories, stated with the following headings, in the following order, and displayed in equal prominence:

(a) *Cis, cis* - methylene - interrupted polyunsaturated fatty acids, stated as "Polyunsaturated";

(b) The sum of lauric, myristic, palmitic, and stearic acids, stated as "Saturated"; and

(iii) The statement required by paragraph (d) of this section.

(d) A food labeled in accordance with paragraph (b) or (c) of this section shall display the following statement on the label: "Information on fat (and/or cholesterol, where appropriate) content is provided for individuals who, on the advice of a physician, are modifying their total dietary intake of fat (and/or cholesterol, where appropriate)."

(e) Compliance with this section shall be determined as follows:

(1) A collection of primary containers or units of the same size, type, and style produced under conditions as nearly uniform as possible, designated by a common container code or marking or, in the absence of any common container code or marking, a day's production, constitutes a "lot."

(2) The sample for analysis shall consist of a composite of 12 subsamples (consumer units), taken one from each of 12 different randomly chosen shipping cases, to be representative of a lot.

(3) Composites shall be analyzed for fat and saturated fatty acids by the methods of the Association of Official Analytical Chemists (AOAC). The methods for fat, fatty acids, and cholesterol will be those of the Association of Official Analytical Chemists (AOAC), or other reliable and appropriate methods. Alternative methods of analysis may be submitted to the Food and Drug Administration to determine their acceptability. The determination of *cis,cis*-methylene-interrupted polyunsaturated fatty acids will be the Canadian Food and Drug Directorate Method FA-59<sup>1</sup> for *cis,cis*-methylene-interrupted fatty acid.

(4) A food with a label declaration of cholesterol content shall be deemed to be misbranded under section 403(a) of the act if the content of the composite is greater than 20 percent in excess of the value for the cholesterol content declared on the label.

(5) A food with a label declaration of fat content shall be deemed to be misbranded under section 403(a) of the act if the content of the composite is greater than 20 percent in excess of the value for the fat content declared on the label or less than required by good manufacturing practices.

(6) A food with a label declaration of fatty acid content shall be deemed to be

<sup>1</sup> Copies of the method may be obtained by writing to Division of Nutrition, BF-124, Bureau of Foods, Food and Drug Administration, 200 C Street SW., Washington, DC 20204.

## RULES AND REGULATIONS

misbranded under section 403(a) of the act if the content of the composite is greater than 20 percent in excess of the value, or less than 80 percent of the value, for the fatty acid content declared on the label.

(f) Label statements made in accordance with paragraphs (b), (c), or (d) of this section shall comply with the requirements of § 1.8d, but in no case may they be printed in larger than the minimum size type required by the provisions of § 1.8b for the declaration of net quantity of contents.

(g) No label or labeling may contain a claim indicating, suggesting, or implying that the product will prevent, mitigate, or cure heart or artery disease or any attendant condition. The principal display panel of the label may state "cholesterol (fat) information appears" the blank to be filled in with a phrase stating where the information is contained. The statement shall appear in one-sixteenth-inch type size or in the alternative in a type size no larger than one-half the minimum type size required for the declaration of net quantity of contents by the provisions of § 1.8b of this chapter.

(h) Any label or labeling containing a statement on cholesterol and fatty acid content not in conformity with this section shall be deemed to be misbranded under sections 201(n) and 403(a) of the act.

**Effective date.** All labeling ordered after December 31, 1973, and all labeling used for products shipped in interstate commerce after December 31, 1974, shall comply with this regulation.

(Secs. 201, 403, 701(a), 52 Stat. 1040-1042 as amended, 1047-1048 as amended, 1055; 21 U.S.C. 321, 343, 371(a))

Dated: March 7, 1973.

CHARLES C. EDWARDS,  
Commissioner of Food and Drugs.

**Note:** Incorporation by reference provisions approved by the Director of the Federal Register, January 15, 1973.

[FR Doc. 73-4672 Filed 3-13-73; 8:45 am]

## COMMON OR USUAL NAMES FOR NONSTANDARDIZED FOODS

In the **FEDERAL REGISTER** of June 22, 1972 (37 FR 12327), the Commissioner of Food and Drugs proposed a procedure for the establishment by regulation of common or usual names for foods. The Commissioner also proposed to establish a common or usual name for seafood cocktails, to include the percentage of the characterizing seafood ingredient(s).

Seventy-nine comments were received in response to the proposal. Forty-eight comments (including two consumer comments bearing, respectively, 132 and 50 signatures) endorsed the proposal. Of these, 21 suggested additional requirements. Twelve comments were in opposition to the proposal. Nineteen expressed neither endorsement nor opposition, but requested modification,

clarification, specific exemptions, or additional requirements.

The Commissioner has evaluated all the comments. The points raised and the Commissioner's responses are as follows:

1. Twenty-eight requests were made that the proposal be expanded to include additional labeling requirements such as the percentage of all ingredients for all foods; the percentage of primary ingredients for all foods; the percentage of fats, carbohydrates, and proteins; the vitamin and mineral content; and the specific source of ingredients.

The Commissioner concludes that percentage labeling of ingredients should be restricted to situations where this information has a material bearing on price or consumer acceptance of the food, or where such information may prevent deception. Labeling the percentage of all ingredients would be extremely costly and would provide no proven benefits to consumers. A mechanism for establishing a regulation requiring labeling of the percentage of all "primary" ingredients that have a material bearing on the price or consumer acceptance is provided for in this regulation.

Since receipt of the comments relating to this matter, the Commissioner has published regulations in the **FEDERAL REGISTER** of January 19, 1973 (38 FR 2125), relating to nutrition labeling. Labeling the specific source of ingredients is still under consideration and is not the subject of this regulation.

2. Several objections were made on the ground that authority for establishing the common or usual name does not exist outside of section 401 of the act. The objections were as follows:

a. There is no legal basis for the application of section 201(n) of the act to the establishment of common or usual names.

b. A product containing a substantial and adequate quantity of a characterizing ingredient does not need the amount disclosed, since this is not a "material fact" within the meaning of section 201(n).

c. The proposal establishes, with no authority, a new method of promulgating standards of identity.

d. The proposal is contrary to congressional intentions that the common or usual name shall be established only under section 401 with safeguards of section 701(e) of the act.

The Food and Drug Administration (FDA) has, in the past, determined the name of a specific product, and required the percentage labeling of specific ingredients under sections 201(n), 403, and 701(a) of the act (e.g., 21 CFR 1.10(d), 3.6, 3.34, and 3.70, of which the latter three are revoked by this order and transferred to new Part 102). After reviewing all comments, the Commissioner concludes that the statutory provisions contain ample authority for the establishment of common or usual names that may or may not include the percentage

of any characterizing ingredient(s), and that the regulation is well within the congressional intent.

The Commissioner does not agree that the disclosure of the amount of a characterizing ingredient is not a "material fact" within the meaning of section 201(n). Disclosure of this fact is often necessary for the consumer to choose between two competing products when the amount of the ingredient is important to the value of the food.

The Commissioner agrees that a name may be determined by regulation through the establishment of a standard of identity under section 401 of the act, and proposes to continue utilizing this alternative method whenever appropriate. Section 401 does not, however, preclude the establishment of a common or usual name under other sections of the act.

In response to several objections that there are no provisions in the proposal for formal hearings, the Commissioner notes that no hearing is required by the Federal Food, Drug, and Cosmetic Act or the Administrative Procedure Act for regulations promulgated pursuant to section 701(a) of the Federal Food, Drug, and Cosmetic Act. The Commissioner concludes that there is sufficient opportunity for public participation in the development of regulations establishing a common or usual name. Any interested person may submit a petition to establish a common or usual name. Any proposal published in the **FEDERAL REGISTER** will allow at least 60 days for comment. Interested persons may submit counterproposals, or may discuss any proposal with FDA officials, or may request an informal hearing, which may be granted if good cause is shown. The regulation establishing the common or usual name for Greenland turbot was published after such an informal hearing. All information that could be produced at a formal hearing can be submitted in comments, and the requirement of a formal hearing would serve only to delay new regulations. The Commissioner concludes that neither a formal hearing nor an informal hearing in every case would be in the public interest.

3. Several comments argued that there is no need for new regulations establishing the common or usual name of foods, because this can be done through a standard of identity. The Commissioner concludes that standards of identity are appropriate and useful, and will continue to be promulgated, where there is a need to prescribe the entire compositional requirements for a food. In addition to the name of the food. Often, however, there is a need simply to establish a uniform and informative name for a food without the compositional aspects of a food standard and, in these instances, a food standard is inappropriate.

4. Many industry representatives recommended that the proposal, if adopted, be amended to include clarification regarding the intended application of the regulation. The matters suggested for clarification may be stated as follows:

a. Will the common or usual name of all nonstandardized foods be established where no such name now exists?

b. How will names for "like" products and "similar" products be selected without defining such products?

c. What would prevent a firm from developing a food similar to a standardized food but giving it a different name by adding the percent of characterizing ingredients to the label?

Common or usual names will not be established under Subpart B of Part 102 for all nonstandardized foods. Such names will be established by such regulation only when it is necessary fully to inform the consumer, or where different names are used for the same product by different manufacturers.

Common or usual names for "like" or "similar" products, where none now exists, may be proposed under the provisions of this regulation and will reflect the reasonable expectations of consumers. The name itself will accurately identify or describe the basic nature or characterizing properties of the food in a way that will distinguish it from other foods.

A food that purports to be a standardized food does not cease purporting to be a standardized food merely because its label bears the percent of characterizing ingredients. The label of a food which neither purports to be nor is represented as being a standardized food must bear on the label its common or usual name, which may not be false or misleading. Nor may a manufacturer avoid a standard merely by adding an ingredient not permitted in the standard unless that ingredient substantially changes the nature or characteristics of the food. Thus, addition of another nutrient to an enriched standardized food would not be permissible ("Federal Security Administrator v. Quaker Oats Co.," 318 U.S. 218 (1942)). Use of a new method or process, with or without an added artificial sweetener, to produce a substantial reduction in calories would, on the other hand, result in the new product not purporting to be the standardized food if a distinctive descriptive name is used and the food is not an "imitation" under proposed new § 1.8(e) (38 FR 2138).

The Commissioner recognizes that there will inevitably be close questions in specific instances. The FDA urges consumer and industry representatives to work together on resolving these matters. Where there exists a lack of uniformity in the names used for a class of food, or where the name used is not sufficiently informative, or where the FDA is requested to provide an opinion, the FDA will propose a regulation to settle the matter.

5. Several comments and requests for clarification were received relative to the term "characterizing ingredient." These comments and requests for clarification may be stated as follows:

a. What is a "characterizing ingredient"? Isn't each ingredient added to a food "characterizing" to some degree?

b. What degree of accuracy is required when determining the percentage of the characterizing ingredient?

c. At what stage of the manufacturing process is the determination of the percentage of the characterizing ingredient made?

d. How is the common or usual name of the characterizing ingredient determined?

The regulation makes clear that a "characterizing ingredient" which is required to be labeled by percentage is one whose proportion in the food has a material bearing on price or consumer acceptance or which a consumer might otherwise believe to be present in an amount greater than is actually the case. Thus, although a flavor may be "characterizing" in many instances, it is not the type of characterizing ingredient which would require either percent declaration or a declaration of absence (although it would be required to be declared in accordance with the provisions of § 1.12 (38 FR 2139)). Similarly, the amount of flour in bread would not be regarded as sufficiently important to require percentage labeling.

The declaration of the percentage of a characterizing ingredient must accurately express the amount of the ingredient contained in the food. Reasonable excesses over labeled amounts are acceptable within the limits of good manufacturing practice. The percentage of a characterizing ingredient present in a food shall be determined on the basis of its quantity in the finished product (i.e., weight/weight in the case of solids, or volume/volume in the case of liquids) unless otherwise provided in an individual regulation.

The common or usual name of a characterizing ingredient will be the accepted name of the ingredient in common use at the time a proposal is made to establish labeling requirements for the ingredient. The name of the ingredient will ordinarily be included in a regulation under Subpart B of Part 102.

6. Some comments contended that the minimum type size requirement is unnecessary and unreasonable, particularly with respect to small labels. Both lesser and minimum type sizes were suggested. The act requires prominence of mandatory information, and the Commissioner concludes that the regulations should define the type size required for the necessary prominence. The final regulation therefore retains the type size requirement, but provides that any interested person may petition the Commissioner to establish, where justified, a smaller type size for the required information.

7. Comments and requests for modification were received about the manner in which the percentage declaration was proposed to be set forth. These may be stated as follows:

a. The proposal should be modified to allow the word "percent" to be expressed by the symbol "%".

b. The word "containing" should not be mandatory, since it will be impossible

to place this word on labels of small packages and it is not essential to the declaration.

The Commissioner agrees with both of these comments and the regulation has been changed accordingly.

8. Some comments contended that the proposal could interfere with this country's acceptance of the Codex Alimentarius standards. The Commissioner concludes that promulgation of regulations establishing the common or usual name of a food will not prevent consideration of standards recommended by the Codex Alimentarius Commission. Whether a particular Codex standard is to be accepted by this country will be decided on a case-by-case basis, regardless of whether a common or usual name has been established by regulation for the food. If, subsequent to the promulgation of a regulation establishing a common or usual name, a Codex Standard is adopted by establishing or amending a U.S. food standard, such action would have the effect of superseding or revising, as necessary, the original regulation. The Commissioner therefore concludes that the proposal will not interfere or conflict with acceptance by this country of Codex Standards.

9. Eight respondents contended that other factors such as count, size, and quality may be factors of equal or greater importance in determining value than the percentage of the characterizing ingredient. The Commissioner agrees that characteristics other than percentage may influence both price and consumer acceptance. The establishment of informative common or usual names will make new information available to the consumer without subtracting from, or otherwise affecting, any other information or means by which the consumer judges acceptability. Nothing in this regulation precludes the use of such information in labeling or excuses labeling from the requirement that it not be false or misleading in any particular.

10. Questions have also been raised about the applicability of new Part 102 to situations involving the presence or absence of a characterizing ingredient or component. The Commissioner had intended that this be covered by use of a label declaration of the percentage of ingredient, including zero percent, under the proposal. In order to clarify this intent and to provide greater flexibility in the permitted label declaration, the final regulation contains specific provisions relating to declaration of the presence or absence of a characterizing ingredient as well as provisions for requiring a statement, where applicable, that a characterizing ingredient must be added to prepare a final product.

11. Comments also were directed specifically to the proposed common or usual name for seafood cocktails. Two industry representatives asserted that there was no need for a seafood cocktail regulation. Another comment expressed concern that the percentage declaration may mislead the consumer into purchasing

an "inferior" product which contains a large quantity of a relatively unacceptable or low quality ingredient.

The Commissioner concludes that there is a need for the regulation since, as noted in the seventh paragraph of the preamble to the proposal, there have been complaints concerning both the amount of seafood present in such cocktails and the use of labeling which suggests a greater proportion of seafood than is actually present. The percentage declaration will not mislead the consumer into purchasing an inferior product. The label will clearly show the percentage of each seafood ingredient. The consumer will also be able to continue to judge the product by quality, size, or other criteria of acceptability, in addition to this new information that will be made available.

12. In response to the proposal, requests for exemptions, including exemptions from type size requirements were received for nonstandardized foods "resembling margarine or butter", foods for special dietary uses, pet food, and certain juice drinks. The Commissioner advises that any requests for an exemption for a specific product should be made at the time, if such occurs, that a proposal for establishing the common or usual name of that particular food or class of foods is being considered. After a common or usual name has been established by regulation, a petition may also be filed pursuant to the provisions of § 102.2 (21 CFR 102.2) to amend the regulation or to establish alternative labeling requirements (e.g., a smaller type size).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 403, 701(a), 52 Stat. 1041 as amended, 1047-48 as amended, 1055; 21 U.S.C. 321(n), 343, 371(a)), and under authority delegated to the Commissioner (21 CFR 2.120), Chapter 1 of Title 21 of the Code of Federal Regulations is amended as follows:

**PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT**

1. In Part 1 by adding a new sentence to the end of paragraph (d) in § 1.10, as follows:

§ 1.10 Food; labeling; designation of ingredients.

(d) . . . A label may be required to bear the percentage(s) of a characterizing ingredient(s) or information concerning the presence or absence of an ingredient(s) or the need to add an ingredient(s) as part of the common or usual name of the food pursuant to Subpart B of Part 102 of this chapter.

**PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION**

§§ 3.6, 3.34, and 3.70 [Revoked]

2. In Part 3 by revoking §§ 3.6, 3.34, and 3.70.

**PART 102—COMMON OR USUAL NAMES FOR NONSTANDARDIZED FOODS**

3. By adding a new part consisting at this time of the following subparts and sections:

**Subpart A—General**  
Sec.  
102.1 General principles.  
102.2 Petitions.  
102.3-4 [Reserved]

**Subpart B—Common or Usual Names**  
102.5 Seafood cocktail.  
102.6 Greenland turbot.  
102.7 Crabmeat.  
102.8 Bonito.

**AUTHORITY:** Secs. 201(n), 403, 701(a), 52 Stat. 1041 as amended, 1047-48 as amended, 1055; 21 U.S.C. 321(n), 343, 371(a).

**Subpart A—General**

**§ 102.1 General principles.**

(a) The common or usual name of a food, which may be a coined term, shall accurately identify or describe, in as simple and direct terms as possible, the basic nature of the food or its characterizing properties or ingredients. The name shall be uniform among all identical or similar products and may not be confusingly similar to the name of any other food that is not reasonably encompassed within the same name. Each class or subclass of food shall be given its own common or usual name that states, in clear terms, what it is in a way that distinguishes it from different foods.

(b) The common or usual name of a food shall include the percentage(s) of any characterizing ingredient(s) or component(s) when the proportion of such ingredient(s) or component(s) in the food has a material bearing on price or consumer acceptance or when the labeling or the appearance of the food may otherwise create an erroneous impression that such ingredient(s) or component(s) is present in an amount greater than is actually the case. The following requirements shall apply unless modified by a specific regulation in Subpart B of this part.

(1) The percentage of a characterizing ingredient or component shall be declared on the basis of its quantity in the finished product (i.e., weight/weight in the case of solids, or volume/volume in the case of liquids).

(2) The percentage of a characterizing ingredient or component shall be declared by the words "containing (or contains) ---- percent (or %) ----" or "---- percent (or %) ----" with the first blank filled in with the percentage expressed as a whole number not greater than the actual percentage of the ingredient or component named and the second blank filled in with the common or usual name of the ingredient or component. The word "containing" (or "contains"), when used, shall appear on a line immediately below the part of the common or usual name of the food required by paragraph (a) of this section.

For each characterizing ingredient or component, the words "---- percent

(or %) ----" shall appear following or directly below the word "containing" (or contains), or directly below the part of the common or usual name of the food required by paragraph (a) of this section when the word "containing" (or contains) is not used, in easily legible bold-face print or type in distinct contrast to other printed or graphic matter, and in a height not less than the larger of the following alternatives:

(i) Not less than one-sixteenth inch in height on packages having a principal display panel with an area of 5 square inches or less and not less than one-eighth inch in height if the area of the principal display panel is greater than 5 square inches; or

(ii) Not less than one-half the height of the largest type appearing in the part of the common or usual name of the food required by paragraph (a) of this section.

(c) The common or usual name of a food shall include a statement of the presence or absence of any characterizing ingredient(s) or component(s) and/or the need for the user to add any characterizing ingredient(s) or component(s) when the presence or absence of such ingredient(s) or component(s) in the food has a material bearing on price or consumer acceptance or when the labeling or the appearance of the food may otherwise create an erroneous impression that such ingredient(s) or component(s) is present when it is not, and consumers may otherwise be misled about the presence or absence of the ingredient(s) or component(s) in the food. The following requirements shall apply unless modified by a specific regulation in Subpart B of this part.

(1) The presence or absence of a characterizing ingredient or component shall be declared by the words "containing (or contains) ----" or "containing (or contains) no ----" or "no ----" or "does not contain ----" with the blank being filled in with the common or usual name of the ingredient or component.

(2) The need for the user of a food to add any characterizing ingredient(s) or component(s) shall be declared by an appropriate informative statement.

(3) The statement(s) required under subparagraphs (1) and/or (2) of this paragraph shall appear following or directly below the part of the common or usual name of the food required by paragraphs (a) and (b) of this section, in easily legible bold face print or type in distinct contrast to other printed or graphic matter, and in a height not less than the larger of the alternatives established under paragraphs (b)(2)(i) and (ii) of this section.

(d) A common or usual name of a food may be established by common usage or by establishment of a regulation in Subpart B of this part, in Part 100, in a standard of identity, or in other regulations in this chapter.

**§ 102.2 Petitions.**

(a) The Commissioner of Food and Drugs, either on his own initiative or on

behalf of any interested person who has submitted a petition, may publish a proposal to establish or amend, under Subpart B of this part, a regulation prescribing a common or usual name for a food. Any such petition shall include an adequate factual basis to support the petition, shall be in the form set forth in § 2.65 of this chapter, and will be published for comment if it contains reasonable grounds for the proposed regulation.

(b) If the principal display panel of a food for which a common or usual name regulation is established is too small to accommodate all mandatory requirements, the Commissioner may establish by regulation an acceptable alternative (e.g., a smaller type size). A petition requesting such a regulation, which would amend the applicable regulation, shall be submitted to the Office of the Hearing Clerk in the form set forth in § 2.65 of this chapter.

**Subpart B—Common or Usual Names**

**§ 102.5 Seafood cocktails.**

The common or usual name of a seafood cocktail in package form fabricated with one or more seafood ingredients shall be:

(a) When the cocktail contains only one seafood ingredient, the name of the seafood ingredient followed by the word "cocktail" (e.g., shrimp cocktail, crabmeat cocktail) and a statement of the percentage by weight of that seafood ingredient in the product in the manner set forth in § 102.1(b).

(b) When the cocktail contains more than one seafood ingredient, the term "seafood cocktail" and a statement of the percentage by weight of each seafood ingredient in the product in the manner set forth in § 102.1(b).

**§ 102.6 Greenland turbot (*Reinhardtius hippoglossoides*).**

"Greenland turbot" is the common or usual name of the food fish *Reinhardtius hippoglossoides*, a species of *Pleuronectidae* right-eye flounders. The term "halibut" may be associated only with Atlantic halibut (*Hippoglossus hippoglossus*) or Pacific halibut (*Hippoglossus stenolepis*).

**§ 102.7 Crabmeat.**

The common or usual name of crabmeat derived from each of the following designated species of crabs shall be as follows:

Scientific name of crab	Common or usual name of crabmeat
<i>Paralithodes camtschaticus</i> and <i>Paralithodes platypus</i> .	King crabmeat.
<i>Paralithodes brevipesus</i> ....	King crabmeat or Hanasaki crabmeat.
<i>Erimacrus isenbeckii</i> ....	Korean variety crabmeat or Kegani crabmeat.
<i>Chionoecetes opilio</i> , <i>Chionoecetes tanneri</i> , <i>Chionoecetes bairdii</i> , and <i>Chionoecetes angulatus</i> .	Snow crabmeat.

**§ 102.8 Bonito.**

"Bonito" or "bonito fish" is the common or usual name of the food fish *Sarda chilensis* and *Sarda velox*.

**Effective date.** The amendment to § 1.10, the revocation of §§ 3.6, 3.34, and 3.70, new §§ 102.6, 102.7 and 102.8 and Subpart A of new Part 102 shall become effective on March 14, 1973. All labeling ordered for products subject to § 102.5 after December 31, 1973, and all labeling used for such products shipped in interstate commerce after December 31, 1974, shall comply with § 102.5.

(Secs. 201(n), 403, 701(a), 52 Stat. 1041 as amended, 1047-48 as amended, 1055; 21 U.S.C. 321(n), 343, 371 (a))

Dated: March 5, 1973.

CHARLES C. EDWARDS,  
Commissioner of Food and Drugs.  
[FR Doc 73-4670 Filed 3-13-73; 8:45 am]

**CERTAIN STANDARDIZED FOODS**

**Nutrition Labeling**

In the FEDERAL REGISTER of January 19, 1973 (38 FR 2152), the Commissioner of Food and Drugs proposed to amend the labeling provisions for nutrients in existing standards of identity for foods by replacing each reference to section 403(j) of the act with a reference to the new 21 CFR 1.17 nutrition labeling regulations, also published in the January 19, 1973 FEDERAL REGISTER (38 FR 2125). Thirty days were provided for comment.

Comments received on this proposal noted that it was issued under section 701(e) of the act and therefore that any person who objects is entitled to an opportunity for a hearing. The Commissioner agrees with this comment, and the final regulation provides for the filing of objections and the opportunity for any person adversely affected to submit sufficient factual information to justify a hearing.

It has also been pointed out that food labeling requirements promulgated in 21 CFR Part 1 apply to all foods generally, including all standardized foods, and as a result need not be referenced in each food standard issued under section 401 of the act. The Commissioner agrees with this observation, and has concluded simply to delete the reference to section 403(j) of the act where it now appears in individual standards of identity, rather than to substitute a reference to § 1.17 (21 CFR 1.17) as was originally proposed. The terms of new § 1.17 apply to all standardized foods, and it is therefore unnecessary to refer specifically to these requirements in any or all enriched food standards.

The identity standards for evaporated milk (21 CFR 18.520) and concentrated milk (21 CFR 18.525) are subject to proposed revisions appearing in the September 9, 1972 FEDERAL REGISTER (37 FR 18392). The September 9, 1972 publication, also proposed the promulgation of identity standards for milk, low fat milk, and skim milk. The period for filing comments on these proposed revisions of 21

CFR Part 18 has been extended to July 1, 1973, as announced in the February 13, 1973 FEDERAL REGISTER (38 FR 4347). At such time as an order is published for 21 CFR Part 18, the Commissioner will revise §§ 18.2, 18.520, and 18.525 to delete the reference to section 403(j) of the act.

Published elsewhere in this issue of the FEDERAL REGISTER is a notice staying the effective date of the order published in the March 11, 1972 FEDERAL REGISTER (37 FR 5224) establishing a new identity standard for orange juice drink (37 FR 5224) and deleting existing 21 CFR 27.120. The effective dates of the identity standards for canned pineapple-grapefruit juice drink (21 CFR 27.125) and canned fruit nectars (21 CFR 27.126) were stayed in the July 27, 1968 FEDERAL REGISTER (33 FR 10713). Those for cranberry juice cocktail (21 CFR 27.120) and artificially sweetened cranberry juice cocktail (21 CFR 27.128) were stayed in the July 13, 1968 FEDERAL REGISTER (33 FR 10088). Whenever the issues surrounding these stayed standards are resolved, the Commissioner will revise the standards to delete the reference to section 403(j) of the act.

The use of sodium labeling in low sodium cheddar cheese (21 CFR 19.503) and low sodium colby cheese (21 CFR 19.513) establishes these foods as represented for special dietary use. The sodium content shall be declared according to 21 CFR 125.9, which does not require full nutrition labeling under § 1.17.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 403, 701(a), 52 Stat. 1040-1042 as amended, 1047, 1055; 21 U.S.C. 321, 343, 371(a)), and under authority delegated to the Commissioner (21 CFR 2.120), Parts 18, 19, 27, and 45 are amended as follows:

**PART 18—MILK AND CREAM**

**§ 18.545 [Amended]**

1. Section 18.545 is amended by deleting paragraph (d).

**PART 19—CHEESES, PROCESSED CHEESES, CHEESE FOODS, CHEESE SPREADS, AND RELATED FOODS**

2. Section 19.503 is amended in paragraph (f) to read as follows:

§ 19.503 Low sodium cheddar cheese; identity; label statement of optional ingredients.

(f) Low sodium cheddar cheese is subject to § 125.9 of this chapter.

3. Section 19.513 is amended in paragraph (f) to read as follows:

§ 19.513 Low sodium colby cheese; identity; label statement of optional ingredients.

(f) Low sodium colby cheese is subject to § 125.9 of this chapter.

**PART 27—CANNED FRUITS AND FRUIT JUICES****§ 27.54 [Amended]**

4. Section 27.54 is amended by deleting the last sentence of paragraph (c) (2).

**§ 27.60 [Amended]**

5. Section 27.60 is amended by deleting the last sentence of subdivision (iv) of paragraph (c) (2).

6. Section 27.80 is amended by revising paragraph (d) (7) to read as follows:

§ 27.80 Canned applesauce; identity; label statement of optional ingredients.

(d) \* \* \*

(7) Applesauce containing ascorbic acid (vitamin C) as provided for in paragraph (b) (8) (ii) of this section shall bear the label statement prescribed by subparagraph (6) of this paragraph and in addition thereto the statement "vitamin C added" or "with added vitamin C".

**PART 45—OLEOMARGARINE, MARGARINE****§ 45.1 [Amended]**

7. Section 45.1 is amended by deleting the last sentence of subdivision (v) of paragraph (b) (2).

Any person who will be adversely affected by the foregoing order may at any time on or before April 13, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. Such objections must be supported by grounds factually and legally sufficient to justify the relief sought and must include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in six copies. Received objections may be seen in the above office during working hours, Monday through Friday.

**Effective date.** All labeling ordered after December 31, 1973, and all labeling used for products shipped in interstate commerce after December 31, 1974, shall comply with these regulations.

Dated: March 7, 1973.

CHARLES C. EDWARDS,  
Commissioner of Food and Drugs.  
[FR Doc. 73-4673 Filed 3-13-73; 8:45 am]

**PART 27—CANNED FRUITS AND FRUIT JUICES****PART 102—COMMON OR USUAL NAMES FOR NONSTANDARDIZED FOODS****Diluted Orange Juice Beverages; Notice Staying Identity Standards, and Order Establishing a Common or Usual Name**

In the matter of establishing definitions and standards of identity for diluted orange juice beverages (§§ 27.158-27.168) and certain related products (§§ 27.150-27.157):

In response to the order in the above-identified matter, published in the FEDERAL REGISTER of March 11, 1972 (37 FR 5224), 41 responses were received. These responses ranged from total support by several consumers to rejection of most provisions of all the standards by some industry members. A tabulation of these responses is as follows:

Beverage manufacturers.....	20
Industry associations.....	7
Ingredients manufacturers.....	2
Consumers.....	4
Consumer associations.....	1
State agencies or officials.....	5
Members of Congress.....	2

Ten beverage manufacturers, four industry associations, one ingredient manufacturer, one consumer association and one State agency stated that they would be adversely affected if the order becomes effective and requested a hearing to resolve the controversial aspects of the order. The remaining 24 respondents either asserted their displeasure with certain provisions of the order and recommended changes but did not request a hearing, or expressed approval of the standards as a whole.

The State of Florida Department of Citrus and the Florida Citrus Commission included in their joint response to the order a nationwide consumer survey which they had conducted to determine the extent of confusion over existing and potential labeling of diluted orange juice beverages. On the basis of the results of the original consumer survey and a followup survey submitted at a later date as supplemental support for their objection, the State agencies recommended amendments to certain labeling provisions set out in the order. This recommendation as well as all other information submitted by those responding to the order has been taken into consideration by the Commissioner in his conclusions that follow herein.

Controversy has surrounded proposals to establish identity standards for diluted orange juice beverages ever since they were first published in the FEDERAL REGISTER of August 13, 1964 (29 FR 11621). Those responding to the proposals and the order published in the FEDERAL REGISTER of May 7, 1968 (33 FR 6862), ruling on the 1964 proposals, opposed every provision of the proposed standards. Consequently, the Commissioner stayed the effective date of that order pending

resolution of the issues raised by the objections at a hearing.

Most of the controversy surrounding the stayed standards resulted from differences between representatives of packers from the two major orange-producing areas of the United States and by others siding with one or the other. The most controversial issues involved the names, minimum orange juice requirements, and added color and other ingredients used. In an attempt to avoid a lengthy and costly hearing, the Commissioner granted a request by industry to postpone the scheduling of the hearing to allow representatives of the two major associations (Florida Canners Association and the National Juice Products Association) time in which to resolve their differences at informal meetings. Industry negotiators met in a number of sessions over a 2-year period, but failed to reach full agreement. Consequently, the associations submitted separate petitions proposing to amend the stayed standards for diluted orange juice beverages and to establish standards of identity for certain related products. These proposals, along with one by the Commissioner, were published in the FEDERAL REGISTER of September 9, 1971 (36 FR 18098). The Commissioner published a final order in the FEDERAL REGISTER of March 11, 1972 (37 FR 5224), ruling on the September 9, 1971, proposals, and petitioner associations and others have now filed objections to most of the provisions set out in the Commissioner's order. As a consequence, the development of standards for these beverages has progressed very little since 1964.

Consumers are still confronted with an array of names in the labeling of diluted orange juice beverages which do not inform them that these beverages may contain from more than zero percent to less than 100 percent orange juice. As a result they have no way to make a value comparison of the beverages at the time of purchase. Under these circumstances, it is the judgment of the Commissioner that a further delay in putting into effect the most useful and least controversial provision of the standards of identity for diluted orange juice beverages (i.e., the declaration of the amount of juice present in the beverage as part of the common or usual name of the product) would not be in the public interest.

Upon review of the objections and other comments submitted, it is apparent that, with the exception of the requirement for declaration of the amount of juice present in the beverage, most of the important features of the definitions and standards of identity remain in substantial controversy. Moreover, it would be confusing to stay the provisions of these definitions and standards of identity to which valid objections have been made, and to allow other provisions to become effective, because this would

involve distinguishing between sentences, and in some instances even parts of sentences. Accordingly, the Commissioner has concluded that the definitions and standards of identity should be completely stayed pending a full public hearing on the matter, and that a separate regulation should be issued as a final order pursuant to new Part 102, which is published elsewhere in this issue of the FEDERAL REGISTER, establishing the percent of orange juice as part of the common or usual name for all diluted orange juice beverages. This will achieve the major goal of the Food and Drug Administration, in making certain that consumers are better informed about the nature of the product they are purchasing.

The concept of requiring declaration of the percent of orange juice in diluted orange juice products, as part of the common or usual name of the product, has already been the subject of a proposal and a final order, and consumers and industry have therefore commented upon it twice. The comments submitted on this aspect of the definitions and standards of identity, and the Commissioner's conclusions, are as follows:

1. It was commented that the "%" sign should be permitted in lieu of the word "percent." The Commissioner agrees and new § 102.9 so provides.

2. Three comments stated that the word "containing" should not be required. The Commissioner agrees, and the regulation so provides.

3. Two comments objected to including the percent of orange juice as part of the name, and one objected to the use of particular placement and type size requirements. The Commissioner rejects these comments. It is obvious that orange juice is the characterizing ingredient in diluted orange juice beverages, that the amount of orange juice has a material bearing on both price and consumer acceptance, and that the orange appearance and taste of the product would create an erroneous impression of greater orange juice content than is actually the case unless the amount of orange juice is prominently labeled. The same placement and type size requirements that will apply to all common or usual names under Part 102 will also apply in this instance. The Commissioner has concluded that insufficient information presently exists to determine whether a smaller type size is supportable. A request for use of a smaller type size, if justified, may be submitted pursuant to § 102.2.

4. A number of objections were submitted to the use of 2-percent increments for products containing more than zero to less than 10 percent orange juice and to the use of 5-percent increments for products containing more than 10 percent orange juice. Having reviewed the objections it is now the opinion of the Commissioner that label declaration of increments of less than 5 percent in orange juice content is not significant and should not be so represented. Manufacturers, using reasonable controls and within the variables found in good man-

**SUBCHAPTER B—FOOD AND FOOD PRODUCTS**  
**PART 100—NUTRITIONAL QUALITY GUIDELINES FOR FOODS****General Principles and Frozen Dinner Guideline**

In the FEDERAL REGISTER of December 23, 1971 (36 FR 24822), the Commissioner of Food and Drugs proposed a procedure and general principles for the establishment by regulation of nutritional quality guidelines for foods. The Commissioner also proposed, at the same time, the first such guideline, for pre-cooked frozen convenience "heat and serve" dinners. One hundred and thirty-five letters were received from consumers, eight from Federal- or State-related organizations, 12 from consumer groups and dietetic associations, nine from consumers with professional food or dietary training, and 24 from manufacturers and related industries. Comments received from consumers and manufacturers, with few exceptions, indicated strong support for the proposal. The Commissioner's conclusions, after having considered all comments, may be summarized as follows:

**THE GENERAL PRINCIPLES**

1. While the majority of the consumer-oriented responses did not speak to the labeling alternatives presented in the proposed general principles for indicating compliance or noncompliance with a guideline, most of those who did comment favored a label statement showing "noncompliance." Generally, respondents expressed the desire to be informed of what is not satisfactory rather than having to search for the "compliance" label. Several suggested that both labels be used. Among the manufacturers all either favored the "compliance" label or opposed the "noncompliance" label. Several of these comments raised questions concerning the legality of a requirement for a "noncompliance" label.

The question whether to use "affirmative" or "negative" labeling or a combination of both, is a close one in this instance. A statement of noncompliance could be regarded as unfair in view of the fact that the product might be nutritionally equivalent or superior to a product for which no guideline exists. Consumers generally would not know all of those classes of foods for which guidelines will exist. On the other hand, a general statement of compliance could give one class of foods an unfair competitive advantage and be misleading to consumers where nutritional guidelines have not been established for competing foods.

Although the Commissioner clearly has legal authority to require a statement of noncompliance, it is concluded that, at least at this time, such a statement should not be required. The generally favorable industry comments on the first proposed guideline indicate that there will be wide industry acceptance. The possibility of unwarranted or misleading use of an affirmative compliance statement is minimized in the final regulation by limiting the type size and by narrow-

manufacturing practices, will be able accurately to label their products in 5-percent increments with the percentage of orange juice expressed as a multiple of five not greater than the actual percentage of orange juice present (except that products containing less than 5 percent but more than zero percent orange juice shall bear a percentage declaration "less than 5%"). The Commissioner concludes that the percentage labeling requirements set out in § 102.9 below are reasonable and not misleading to consumers.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 401, 403, 701, 52 Stat. 1040-1042, 1046, 1047-1048, 1055-1056, 21 U.S.C. 321, 341, 343, 371) and under authority delegated to him (21 CFR 2.120), the Commissioner of Food and Drugs hereby orders that:

1. The order establishing definitions and standards of identity for diluted orange juice beverages (21 CFR 27.158-27.168) and certain related products (21 CFR 21.150-21.157), published in the FEDERAL REGISTER of March 11, 1972 (37 FR 5224), is stayed in its entirety. As provided for in 21 CFR 2.69 a notice of hearing will be published in the FEDERAL REGISTER at a future date.

2. The following new section is added to Part 102 of this chapter:

**§ 102.9 Diluted orange juice beverages.**

(a) The common or usual name of a noncarbonated beverage containing less than 100 percent and more than 0 percent orange juice shall be as follows:

(1) A descriptive name for the product meeting the requirements of § 102.1(a) (e.g., diluted orange juice beverage or another descriptive phrase) and

(2) A statement of the percent of orange juice contained in the product in the manner set forth in § 102.1(b) (2). The percent of orange juice shall be declared in 5-percent increments, expressed as a multiple of five not greater than the actual percentage of orange juice in the product, except that the percent of orange juice in products containing more than 0 percent but less than 5-percent orange juice shall be declared in the statement as "less than 5" percent.

(b) The percent of orange juice in the product shall be determined on the basis of the orange juice having an equivalent single strength of 11.8 percent orange juice soluble solids.

**Effective date.** The stay of the definitions and standards of identity for diluted orange juice beverages shall be effective immediately. All labeling ordered for products subject to § 102.9 after December 31, 1973, and all labeling used for such products shipped in interstate commerce after December 31, 1974, shall comply with § 102.9.

(Secs. 201, 401, 403, 701, 52 Stat. 1040-1042, 1046, 1047-1048, 1055-1056; 21 U.S.C. 321, 341, 343, 371)

Dated: March 5, 1973.

CHARLES C. EDWARDS,  
Commissioner of Food and Drugs.

[FR Doc. 73-4674 Filed 3-13-73; 8:45 am]

ing the scope of the specific statement to be used. Should the Commissioner find that there is little compliance with a guideline, or that use of a permitted label statement is causing unfair competitive advantage or consumer confusion, he will propose additional new requirements to correct the situation.

2. Almost universally among the consumers and consumer groups responding, nutrition labeling was either assumed or specifically requested. Manufacturers also assumed that some nutrition declaration would be required to fulfill the requirements of the appropriate provisions of 21 CFR Part 125. The final regulation provides that, in accordance with § 1.17 (21 CFR 1.17), products covered by a nutritional quality guideline shall be subject to nutrition labeling if the authorized guideline statement is used or if any nutrient is added, unless such product is offered as a food for special dietary use in which case it shall also be subject to 21 CFR Part 125.

#### THE FROZEN DINNER GUIDELINE

3. Several comments objected to the use of an RDA based upon the caloric value. One of these letters concerning the caloric basis of nutrient requirements suggested that protein would be the proper basis for nutrient requirements rather than calories. However, since many, if not all, nutrient requirements are ultimately related to metabolic need it is reasonable to base such requirements upon caloric intake except in special dietary situations where caloric intake is deliberately set at a level considerably below the body's needs. Establishment of minimum nutrient levels per 100 calories should effectively discourage the addition of calorie-contributing components which do not make significant nutrient contributions.

4. Objections to the name "dinner" as used in the first guideline were received from manufacturers, consumer groups and professional consumers, who asserted that these so-called "dinners" are not complete meals as implied by the common meaning of the word "dinner." A number of respondents commented on the possibility that a statement that a product meets the Federal guideline could be interpreted as meaning that it is "complete and adequate" and many of the objections to the name "dinner" were based upon this concern.

Elsewhere in this issue of the FEDERAL REGISTER the Commissioner is promulgating a new Part 102 which establishes principles governing common or usual names for nonstandardized foods. The purpose of Part 102 is to establish accurate and informative descriptive names for food, including where appropriate the presence or absence of important characterizing ingredients or components. Pursuant to the provisions of Part 102, the Commissioner is also proposing elsewhere in this issue of the FEDERAL REGISTER a common or usual

name for "frozen 'heat and serve' dinners" which includes a statement of what the food includes and, where appropriate, a statement that other foods such as soup, bread or rolls, beverage, or dessert should be added in order to obtain a complete meal. Thus, the name of the food will itself include a direct statement which draws to the consumer's attention the fact, where it is true, that the product is not a complete meal and that other food items are needed.

The guideline also requires the declaration of the caloric value of the product as part of nutrition labeling. This will serve to give the consumer a quantitative estimate of the calories supplied by the product, to help determine whether it constitutes a meal.

5. A number of comments indicated a further need to clarify certain aspects of the caloric requirements specified in the proposed guideline. Some objected to the proposed minimum caloric value, which had not been recommended specifically by the National Academy of Sciences-National Research Council (NAS-NRC). Although the NAS-NRC did not recommend a minimum caloric value, the proposal included such a value (340 calories) to provide assurance that the food would contain at least a minimal amount of calories. Upon further consideration, however, it has been concluded that this minimum caloric value should be deleted. By requiring a minimum content for protein and certain vitamins and minerals, the regulation in effect sets a minimum caloric value. Establishment of a rigid minimum caloric value would seriously jeopardize the use of some good sources of protein, such as fish, which because of their relatively low fat content are desirable components of some dinners. Inclusion of a minimum caloric value would only force manufacturers of some dinners to add calorie-contributing components which do not make a significant nutrient contribution to meet the minimum, and thus would be counter-productive.

6. The nutrient levels needed to fulfill the guideline requirements are based only upon the contributions of the main protein sources, the vegetable components, and their associated breadings, sauces and/or gravies. The contribution of additional components (e.g., appetizer, bread or rolls, dessert, soup, etc.), if they are present, are to be included in the declaration of available calories and nutrients for the purposes of nutrition labeling but not for purposes of meeting the guideline's minimum nutrient requirements. The caloric content shall be determined by the Atwater system as prescribed by § 1.17 (21 CFR 1.17).

7. Most comments concerning the frozen dinner guideline were from manufacturers requesting that other principal protein sources be included, such as eggs and soy products. The guideline has been revised to include eggs. The addition of other protein products except as vegetable components is deferred until

promulgation of a separate guideline, now under consideration, establishing the nutritional qualities necessary for the use of soy protein products. Upon promulgation of that guideline, the guideline for frozen dinners will be amended to provide for the use of these ingredients. This will cause no dislocation in the interim since these ingredients are not presently being used.

8. Many consumer comments requested that the weight of the edible portion of the principal protein sources be included on the label. Such a requirement is not directly related to nutrient quality, and the Commissioner concludes that nutrition labeling will supply all the appropriate information on protein content. The requirements of 4.6 grams of protein per 100 calories and that 70 percent of the total protein be obtained from the specified principal sources (meat, poultry, fish, cheese, or eggs) will oblige the manufacturer to use a reasonable portion of these principal protein sources. In addition, meat and poultry products must meet the requirements of the Department of Agriculture. The remaining 30 percent of the protein will be from the vegetable components and from such adjuncts as sauces, breadings, etc. This does not preclude the use of other food servings with protein contributions, such as bread or dessert.

9. Several comments concerning ingredient listing were directed to a concern for the presence of various substances to which consumers are allergic. Label declarations of ingredients will continue to be required for these products.

10. Comments received indicate that many ethnic, national, and specialty food dishes may be traditionally low in protein, so that they may not meet the nutritional quality guideline. However, the Commissioner is of the opinion that it is not in the public interest to compromise the minimum protein content of a food class intended as the principal component of a meal for the sole purpose of including a greater number of specialty products under the guideline. Moreover, manufacturers have the alternative of changing their recipes to meet such guidelines if they wish to do so.

11. Both directly and by implication, consumer group comments requested a higher meat (protein) content, either by increasing the guideline minimum or by requiring the declaration of the amount of meat, anticipating that industry would respond with a meat (protein) increase. The frozen dinner as presently defined will supply approximately one-third of the adult daily requirement for protein. Therefore, it does not seem reasonable to require a greater quantity of protein. However, the additional requirement that 70 percent of the total protein be derived from specific protein sources has been included to give greater assurance of adequate protein of good biological quality. It is believed that this 70 percent value is reasonable since data

indicate that most products that meet the proposed guideline also fulfill the 70 percent requirement. Therefore, it is expected that these dinners will supply sufficient high quality protein so that the total protein of the entire meal (including beverages, salads, breads, desserts, etc., which may be added) will have a satisfactory biological value.

The NAS-NRC recommendation for the RDA for protein is based upon an assumption that the average protein utilization efficiency is 70 percent of the ideal protein. Meat and cheese proteins have biological values in the order of 80 percent or more of the ideal protein. Combinations of these proteins with cereal and vegetable proteins of lower biological value will therefore still produce an adequate total protein quality.

12. Several comments suggested a greater flexibility in vegetable selection or the substitution of fruit for a vegetable. Fruits are rarely equivalent to vegetables in nutritional value so this suggestion has not been accepted, but the guideline has been revised to allow a wider variation in vegetable selection and use.

13. One consumer group requested that calcium and vitamin C be included in the minimum nutrients required. This request has been rejected. The NAS-NRC Committee report indicated, and the Commissioner agrees, that the meals and vegetables usually used for this class of foods are not good sources of either nutrient (with the exception of vitamin C in potatoes).

The report and the regulation speak to the desirability of adding calcium to bring the calcium:phosphorus ratio closer to 1:1 when it can be done without detriment to the organoleptic food qualities. If a calcium level were specified (in the virtual absence of acceptable calcium compounds for addition to food products) it would make certain vegetable selections or milk products almost mandatory, and it is clearly not desirable to include additional requirements that will further limit the component selection. With this difficulty in the addition of calcium, manufacturers are encouraged to limit the technological addition of phosphates to an absolute minimum. The regulation states that manufacturers should attempt to adjust the total calcium content in relation to the phosphorus content of the product by food selection or other processing techniques.

The addition of vitamin C to foods which do not normally contain significant amounts of the vitamin is not a rational supplementation and could be counterproductive from the standpoint of nutrition education.

14. Requests were received from two manufacturers for the addition of vitamin E to the list of nutrients for which minimum levels are established. The rationale for this omission is the same as for the omission of vitamin C. Although some foods do contain the vitamin in significant amounts, it is not generally present throughout the range of vegetables and meat products with

sufficient uniformity to make it practical to include it. Vitamin E would have to be almost universally added, which as noted above is not a rational approach to either good nutrition or nutrition education.

15. Comments, with some data, requested the establishment of at least tentative levels in the list of minimum nutrient levels for pantothenic acid, vitamin B<sub>6</sub>, and vitamin B<sub>12</sub>. These three nutrients have been added to the table with tentative values as a guide to manufacturers. Until final values can be established, frozen dinners will not be required to meet these levels in order to be eligible for use of the guideline statement; however, any designations of these vitamins under nutrition labeling must be factual.

Although a number of nutrients have been excluded from the list of required nutrients, manufacturers are encouraged to formulate their recipes and make component selections so that, whenever possible, the products will naturally contain as much of all essential nutrients as is consistent with good food preparation. Although these other nutrients are not included in the guideline, § 1.17 (21 CFR 1.17) prescribes the requirements for their inclusion in nutrition labeling.

16. Industry comments were directed primarily toward the difficulty of meeting all of the minimum nutrient levels when using the vegetable selection that they have found to have the widest consumer acceptability compatible with processing technology. The purpose of the limitation of the number of nutrient additions was to make it virtually obligatory for the manufacturer to use quality produce and process it in a manner which would retain maximum nutrient content. The two-nutrient maximum for supplementation was also intended to minimize the possibility that manufacturers might use nutrient additions to offset poor quality produce or to avoid good quality control procedures. One manufacturer suggested that no additions be allowed but that a product be acceptable if four of five nutrients meet the guideline minimums.

The Commissioner recognizes that wide variations in nutrient content may occur as a result of many environmental factors as well as problems of processing. Therefore, the restriction on the number of discrete nutrients added (Class I nutrients within the meaning of 21 CFR 1.17) has been deleted, but the level to which such nutrients may be added has been lowered so that the total amount present may not be greater than 150 percent of the prescribed minimum. It must be emphasized that the removal of the restriction on the number of nutrients that may be added is solely for the purpose of offsetting the technological and acceptability limitations inherent in component selection and is not a sanction to make general additions of nutrients for the purpose of assuring compliance with the guideline without appropriate component selection and/or good manufacturing practices. Nutrient addition will require full compliance with the labeling provisions in § 1.17 (21 CFR 1.17).

17. A request was made to remove the iodine requirement because of the development of off-flavors when iodine compounds are used in processed foods. The Commissioner recognizes that this can be a technological problem in some foods. However, by selecting food items which are sources of iodine or by salting with iodized salt, when this is feasible, frozen dinners can be significant sources of iodine. Iodine has been deleted from the table of required nutrients but the regulation recognizes the desirability, in the interest of consumers, of having frozen dinners provide a significant quantity of iodine to the daily diet.

18. A request was made to use only a free niacin value for the minimum requirements rather than the total equivalent niacin. This change is acceptable since the recommendation was based upon niacin data and does not include a "niacin equivalent" from the protein. Therefore, the reference to "niacin equivalent" has been deleted.

19. Several letters requested that the guideline require on the label an open date showing the date of manufacture. Although open dating is certainly desirable for many products, it would not necessarily contribute toward an improved nutritional value for these frozen products since the nutrients are stable if the products have been properly stored.

20. Questions were raised by both consumers and manufacturers with respect to limitations on the use of sauces, gravies, etc. It is the opinion of the Commissioner that the use of the minimum nutrients levels per 100 calories will effectively preclude the use of excessive amounts of these components.

21. The question of the application of the guideline to children's dinners has been considered. The language of the guideline as set forth below gives sufficient latitude to the selection of the components so that these dinners can be included. There is no justification for this subclass of frozen convenience dinners to be of lower nutritional quality.

22. A number of requests were made to establish a section concerned with methodology for the analytical determinations needed. The methodology used shall be that prescribed by § 1.17(e) (21 CFR 1.17) of this chapter.

23. Numerous questions have arisen about potential overfortification of foods, particularly as a result of nutrition labeling (21 CFR 1.17), which could induce food manufacturers to add nutrients to their products for promotional purposes. One purpose of a nutritional guideline is to establish an appropriate level or range of nutrients which should be present in the food, in accordance with sound nutritional principles. Not every food is an appropriate carrier for every nutrient, and indeed unwarranted fortification of numerous foods could create a serious public health problem and would unquestionably mislead consumers into believing that such fortification is necessary or appropriate.

A provision has therefore been added to the regulation which specifically states that fortification with any discrete

nutrient for which no minimum nutrient level or nutrient range or other allowance is provided for in the guideline, will result in the product being deemed to be misbranded under sections 201(n) and 403(a) of the act unless a prominent and conspicuous statement on the principal display panel of the label and in all labeling discloses that the nutrient fortification has been determined to be unnecessary and inappropriate for this food by the U.S. Government. Without such a disclosure, consumers would erroneously conclude that such fortification increased the dietary value of the product. In any event, when nutrients for which minimums are prescribed by the nutritional quality guideline are added, and such addition results in a nutrient level between 50 percent and 150 percent of the Recommended Daily Allowance (RDA), the food must comply with § 80.1 (21 CFR 80.1 published January 19, 1973, at 38 FR 2152) and a nutrient level over 150 percent of the RDA results in the product being a drug.

The Commissioner believes that this enforcement mechanism will only seldom, if ever, be used. It is in the interests of food manufacturers as well as the public generally to make the concept of nutritional guidelines work. The Commissioner has concluded that a

flexible guideline, which can be changed relatively rapidly, is preferable to handling this matter by a more rigid standard of identity. Accordingly, the Commissioner has tentatively concluded that nutritional guidelines should replace the attempt to standardize all fortified foods under § 80.2 (21 CFR 80.2, stayed) (see paragraph 10 under "History," FEDERAL REGISTER of January 19, 1973 (38 FR 2153)). Whether this is possible will depend upon the food industry use of an approach to nutritional guidelines.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 403, 701(a), 52 Stat. 1040-1042, as amended, 1047-1048, as amended, 1055; 21 U.S.C. 321, 343, 371(a)), and under authority delegated to him (21 CFR 2.120), the Commissioner of Food and Drugs amends Chapter I of Title 21 of the Code of Federal Regulations by adding a new Part 100, to consist at this time of the following subparts and sections:

#### Subpart A—General

- Sec.  
100.1 General principles.  
100.2 Petitions.

#### Subpart B—Nutritional Quality Guidelines

- 100.5 Frozen "heat and serve" dinner.

**AUTHORITY:** Federal Food, Drug, and Cosmetic Act (secs. 201, 403, 701(a), 52 Stat. 1040-1042, as amended, 1047-1048, as amended, 1055; 21 U.S.C. 321, 343, 371(a)); and authority delegated to Commissioner (21 CFR 2.120).

#### Subpart A—General

- § 100.1 General principles.

(a) A nutritional quality guideline prescribes the minimum level or range of nutrient composition (nutritional quality) appropriate for a given class of food.

(b) Labeling for a product which complies with all of the requirements of the nutritional quality guideline established for its class of food may state "This product provides nutrients in amounts appropriate for this class of food as determined by the U.S. Government," except that the words "this product" are optional. This statement, if used, shall be printed on the principal display panel, and may also be printed on the information panel, in letters not larger than twice the size of the minimum type required for the declaration of net quantity of contents by § 1.8b of this chapter. Labeling of noncomplying products may not include any such statement or otherwise represent, suggest, or imply the product as being, in whole or in part, in compliance with a guideline.

(c) A product bearing the statement provided for in paragraph (b) of this section, in addition to meeting the requirements of the applicable nutritional quality guideline, shall comply with the following requirements:

(1) The label of the product shall bear the common or usual name of the food in accordance with the provisions of the guideline and §§ 1.8 and 102.1 of this chapter.

(2) The label of the product shall bear nutrition labeling in accordance with §§ 1.8d and 1.17 of this chapter and all other labeling required by applicable sections of Part 1 of this chapter.

(d) No claim or statement may be made on the label or in labeling representing, suggesting, or implying any nutritional or other differences between a product to which nutrient addition has or has not been made in order to meet the guideline, except that a nutrient addition shall be declared in the ingredient statement.

(e) Compliance with a nutrient level specified in a nutritional quality guideline shall be determined by the procedures and requirements established in § 1.17(e) of this chapter.

(f) A product within a class of food for which a nutritional quality guideline has been established and to which has been added a discrete nutrient either for which no minimum nutrient level or nutrient range or other allowance has been established as appropriate in the nutritional quality guideline, or at a level that exceeds any maximum established as appropriate in the guideline, shall be ineligible to bear the guideline statement provided for in paragraph (b), and such a product shall also be deemed to be misbranded under the act unless the label and all labeling bears the following prominent and conspicuous statement: "The addition of — to (or "The addition of — at the level contained in) this product has been determined by the U.S. Government to be unnecessary and inappropriate and does not increase the dietary value of the food," the blank to be filled in with the common or usual name of the nutrient(s) involved.

#### § 100.2 Petitions.

The Commissioner of Food and Drugs, on his own initiative, on the advice of

the National Academy of Sciences and/or other experts, or on behalf of any interested person who has submitted a petition, may publish a proposal to establish or amend, a regulation prescribing a nutritional quality guideline for a class of foods. Any such petition shall include an adequate factual basis to support the petition in the form set forth in § 2.65 of this chapter and will be published for comment if it contains reasonable grounds for the proposed guideline.

#### Subpart B—Nutritional Quality Guidelines

##### § 100.5 Frozen "heat and serve" dinner.

(a) A product, for which a common or usual name is established in § 102.11 of this chapter, in order to be eligible to bear the guideline statement set forth at § 100.1(b), shall contain at least the following three components:

(1) One or more sources of protein derived from meat, poultry, fish, cheese, or eggs.

(2) One or more vegetables or vegetable mixtures other than potatoes, rice, or cereal-based product.

(3) Potatoes, rice, or cereal-based product (other than bread or rolls) or another vegetable or vegetable mixture.

(b) The three or more components named in paragraph (a) of this section, including their sauces, gravies, breadings, etc.:

(1) Shall contribute not less than the minimum levels of nutrients prescribed in paragraph (d) of this section.

(2) Shall be selected so that one or more of the listed protein sources of paragraph (a)(1) of this section, excluding their sauces, gravies, breadings, etc., shall provide not less than 70 percent of the total protein supplied by the components named in paragraph (a) of this section.

(c) If it is necessary to add any nutrient(s) in order to meet the minimum nutrient levels prescribed in paragraph (d) of this section, the addition of each such nutrient may not result in a total nutrient level exceeding 150 percent of the minimum level prescribed. Nutrients used for such addition shall be biologically available in the final product.

(d) Minimum levels of nutrients for a frozen "heat and serve" dinner are as follows:

Nutrient	Minimum levels for frozen "heat and serve" dinner—	
	for each 100 Calories (kcal) of the total components specified in paragraph (a)	for the total components specified in paragraph (a)
Protein, grams	4.00	16.0
Vitamin A, IU	160.00	630.0
Thiamine, mg	0.06	0.2
Riboflavin, mg	0.06	0.2
Niacin, mg	0.99	3.4
Pantothenic acid, mg	0.32	1.1
Vitamin B <sub>6</sub> , mg	0.16	0.6
Vitamin B <sub>12</sub> , mcg	0.33	1.1
Iron, mg	0.62	2.2

(1) A frozen "heat and serve" dinner prepared from conventional food in-

gredients listed in paragraph (a) of this section will also contain folic acid, magnesium, iodine, calcium, and zinc. Minimum levels for these nutrients cannot be established at the present time but may be specified as additional data are obtained.

(2) The minimum levels for pantothenic acid, vitamin B-6, and vitamin B-12 are tentative. Final levels will be established when sufficient data are available. Until final levels are established, a product containing less than the tentative levels will not be deemed to be misbranded when labeled in accordance with § 100.1(b).

(3) When technologically practicable iodized salt shall be used or iodine shall be present at a level equivalent to that

which would be present if iodized salt were used in the manufacture of the product.

(4) When technologically practicable, product components and ingredients shall be selected to obtain the desirable calcium to phosphorous ratio of 1:1. Technological addition of phosphates shall be minimized and shall not exceed the amount necessary for the intended effect.

(e) If the product includes servings of food which are not prescribed by paragraph (a) of this section (e.g., soup, bread or rolls, beverage, or dessert), their contribution shall not be considered in determining compliance with the nutrient levels established in paragraph (d) of this section but shall be included in any nutrition labeling.

(f) For the purposes of labeling, an "average serving" shall be one entire frozen "heat and serve" dinner.

**Effective date.** Subpart A shall become effective on March 14, 1973. All labeling ordered for products subject to § 100.5 after December 31, 1973, and all labeling used for such products shipped in interstate commerce after December 31, 1974, shall comply with § 100.5 (21 CFR 100.5).

(Secs. 201, 403, 701(a), 52 Stat. 1040-1042, as amended, 1047-1048, as amended, 1055; 21 U.S.C. 321, 343, 371(a))

Dated: March 5, 1973.

CHARLES C. EDWARDS,  
Commissioner of Food and Drugs.

**DEPARTMENT OF HEALTH,  
EDUCATION, AND WELFARE**

Food and Drug Administration

[ 21 CFR Part 102 ]

**NONCARBONATED BEVERAGES CONTAIN-  
ING NO FRUIT OR VEGETABLE JUICE**

**Proposed Label Statement of No Juice  
Content**

In the FEDERAL REGISTER of March 11, 1972 (37 FR 5224), the Commissioner of Food and Drugs noted the need to regulate the labeling of beverage products that contain no orange juice but that have the appearance of containing orange juice. The Commissioner stated that he was preparing a document which would require manufacturers of such beverages to declare on the principal display panel that the product contains no orange juice.

The Commissioner concludes that the lack of fruit or vegetable juice in other noncarbonated beverages is also a material fact which requires disclosure when the labeling or the taste and appearance of the beverage represents, suggests, or implies that such an ingredient may be present. This is true both for beverages whose color and flavor give the impression of fruit or vegetable juice content and where the label bears the name or a variation of the name or any pictorial representation of any fruit or vegetable. Consumer confusion and deception resulting from the labeling of such beverages can be remedied by the adoption of an informative common or usual name. Accordingly, the Commissioner has concluded that it is appropriate to propose the establishment of a common or usual name for these products pursuant to the new Part 102 published elsewhere in this issue of the FEDERAL REGISTER.

The establishment of a common or usual name for this class of foods is in addition to the other labeling requirements established under 21 CFR Part 1. In particular, the requirements with respect to the label declaration of flavor, proposed in the FEDERAL REGISTER of January 19, 1973 (38 FR 2139) would also be applicable.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 403, 701(a), 52 Stat. 1041, as amended, 1047-1048, as amended, 1055; 21 U.S.C. 321(n), 343, 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that a new section be added to Part 102, as follows:

**§ 102.10 Non-carbonated beverage products containing no fruit or vegetable juice.**

(a) The common or usual name of noncarbonated beverage products (including a concentrated, dehydrated, powdered, or other counterpart) containing no fruit or vegetable juice shall include the following:

(1) A descriptive name for the product meeting the requirements of § 102.1 (a) and;

**PROPOSED RULE MAKING**

(2) When the labeling or the color and flavor of the beverage represents, suggests, or implies that any fruit or vegetable juice may be present (e.g., the product label bears the name or a variation of the name or any pictorial representation of any fruit or vegetable, or the product contains color and flavor which give the beverage the appearance and taste of containing a fruit or vegetable juice) the statement "Containing (or contains) no \_\_\_\_\_ juice", or "no \_\_\_\_\_ juice", or "does not contain \_\_\_\_\_ juice", the blank to be filled in with the name of the fruit(s) or vegetable(s) represented, suggested, or implied, in the manner set forth in § 102.1 (c). If a nonspecific fruit or vegetable juice content is represented, suggested, or implied, the blank shall be filled in with the word "fruit" or "vegetable" as applicable.

Interested persons may, on or before May 14, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: March 5, 1973.

CHARLES C. EDWARDS,  
Commissioner of Food and Drugs.  
[FR Doc. 73-4676 Filed 3-13-73; 8:45 am]

**[ 21 CFR Part 102 ]**

**FROZEN "HEAT AND SERVE" DINNERS**

**Proposal Regarding Common or Usual  
Name**

Elsewhere in this issue of the FEDERAL REGISTER, the Commissioner of Food and Drugs is establishing a nutritional quality guideline for frozen "heat and serve" dinners. The comments received from both consumer and industry representatives on the proposed regulation published in the FEDERAL REGISTER of December 23, 1971 (36 FR 24822) clearly demonstrated the need to establish a uniform and informative common or usual name for the product. Indeed, the only substantial concern raised in the comments related to the inappropriateness of the term "dinner" when applied without qualification or explanation to a wide variety of products, some providing only part of a meal and others providing a full meal. In order to distinguish between the various types of frozen dinners available, it is proposed that the name of the food include the major components of the product, and a statement that other components must be added to complete a meal where that is the situation.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 403, 701(a), 52 Stat. 1041, as amended, 1047-1048, as amended, 1055; 21 U.S.C. 321(n), 343, 371(a)), and under authority delegated to the Com-

missioner of Food and Drugs (21 CFR 2.120), it is proposed that a new section be added to Part 102, as follows:

**§ 102.11 Frozen "heat and serve" dinner.**

(a) A frozen "heat and serve" dinner: (1) Shall contain at least three separate and different dishes (recipes), each of which shall consist of one or more of the following: meat, poultry, fish, cheese, eggs, vegetables, potatoes, rice, or other cereal based products (other than bread or rolls).

(2) May also contain other servings of food (e.g., soup, bread or rolls, beverage, or dessert).

(b) The common or usual name of the food consists of all of the following:

(1) The phrase "frozen 'heat and serve' dinner", except that "heat and serve" is optional.

(2) The phrase "containing (or contains) \_\_\_\_\_", the blank to be filled in with an accurate description of each of the three or more dish components listed in paragraph (a) of this section in their order of descending predominance by weight (e.g., meat, mashed potatoes, and peas), followed by any of the other servings specified in paragraph (a) (2) of this section contained in the package (e.g., onion soup, enriched white bread, and artificially flavored vanilla pudding) in their order of descending predominance by weight. This part of the name shall be placed immediately following the part specified in paragraph (b) (1) of this section in the manner set forth in § 102.1(c) (3).

(3) If the package contains less than two of the other servings set forth in paragraph (a) (2) of this section, the phrase "other foods such as \_\_\_\_\_" should be consumed with this product to obtain a complete meal," the blank to be filled in with each of the servings set forth in paragraph (a) (2) of this section (i.e., soup, bread or rolls, beverage, or dessert) not contained in the package. This part of the name shall be placed immediately following the parts specified in paragraph (b) (1) and (2) of this section and in letters half the size used for the part of the name specified in paragraph (b) (2) of this section but in no event less than the size specified in § 102.1(b) (2) (i).

Interested persons may, on or before May 14, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: March 5, 1973.

CHARLES C. EDWARDS,  
Commissioner of Food and Drugs.  
[FR Doc. 73-4677 Filed 3-13-73; 8:45 am]

**[ 21 CFR Part 102 ]  
FOODS PACKAGED FOR USE IN PREP-  
ARATION OF "DISHES" OR "DINNERS"**

**Common or Usual Name**

Many new convenience foods have appeared on the market that are designed to be used in preparing "main dishes", "dinners", or other such food servings. In many cases, meat or other valuable characterizing ingredients or components necessary for preparation of the dish or dinner are not included in the package and must be purchased separately. The labeling of such food products readily lends itself to representations that may mislead the consumer into thinking that all of the significant characterizing ingredients or components necessary for the preparation of the dish or dinner are contained in the package.

The Food and Drug Administration has initiated legal actions charging misbranding of certain foods packaged in this manner. Such misbranding has usually resulted where the product was intended for use in the preparation of a meat main dish and the meat was the omitted characterizing ingredient. Labels of these packages emphasized the name of the important missing characterizing ingredient, or a vignette on the label depicted the missing ingredient, and the package failed to bear a common or usual name sufficiently informative to make the consumer aware of the identity of the product and the fact that the package did not contain the important missing characterizing ingredient.

A food is misbranded when the label emphasizes any valuable missing characterizing ingredient or component in a misleading manner. For example, the package may bear a brand name or statement that includes the name or implies the presence of an important missing characterizing ingredient (e.g., "Chicken Dinner", "Chili Con Carne", "Pepper Steak"). These words are often given undue emphasis by being printed in larger type size or with greater prominence than the food ingredients or components that are in fact furnished in the package. Taken together, this manner of presenting the label information implies that the package contains the important missing ingredient or component, such as chicken or meat, and that all the ingredients or components for the preparation of the final food serving are included in the package.

**PROPOSED RULE MAKING**

The Commissioner of Food and Drugs is promulgating elsewhere in this issue of the FEDERAL REGISTER a final regulation establishing a new Part 102 under which the common or usual name of foods may be established by regulation. Section 102.1(a) requires that the common or usual name of a food "shall accurately identify or describe, in as simple and direct terms as possible, the basic nature of the food or its characterizing properties or ingredients." The Commissioner may, pursuant to this new part, designate a common or usual name for a food to prevent consumer confusion and deception.

The Commissioner has concluded that the confusion and deception resulting from the present labeling of foods packaged for use in the preparation of dishes or dinners can readily be remedied by adoption of an informative common or usual name for these products. Such a name must clearly state the essential components (which may be a combination of ingredients) contained in the package and the important characterizing ingredients or components which must be provided by the consumer in making the final product. Accordingly, the Commissioner has concluded that it is appropriate to propose the establishment of a common or usual name for these products pursuant to new Part 102.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 403, 701(a), 52 Stat. 1041, as amended 1047-1048, as amended, 1055; 21 U.S.C. 321(n), 343, 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that a new section be added to Part 102, as follows:

**§ 102.12 Foods packaged for use in the preparation of "dishes" or "dinners".**

(a) The common or usual name of a packaged food which is represented on the principal display panel by word or vignette to be used in the preparation of a "dish", "dinner", or other food serving, and to which some other important characterizing ingredient(s) or component(s) not present in the package must be added, consists of all of the following:

(1) The common or usual name of each important ingredient or component in the package, in descending order of predominance by weight.

(2) An appropriate informative statement identifying the food to be pre-

pared by use of the package contents (e.g., "for preparation of chicken casserole").

(3) An appropriate informative statement that additional ingredient(s) or component(s) must be added and which names the additional ingredient(s) or component(s) (e.g., "you must add \_\_\_\_\_ to complete the recipe," the blank to be filled in with the name(s) of the ingredient(s) or component(s) that must be added).

(b) The labeling required by paragraph (a) of this section shall appear on the principal display panel, and

(1) No word in the statement required by paragraph (a) (2) of this section shall appear on the principal display panel more conspicuously or in larger type than the smallest and least conspicuous type employed on the panel for any word, phrase or statement within the scope of paragraph (a) (1).

(2) Any word in the statement required by paragraph (a) (3) of this section shall appear in the manner set forth in § 102.1(c) (3).

(c) Any vignette which shows any food or characterizing ingredient(s) or component(s) not included in the package shall be accompanied either by the statement required by paragraph (a) (3) of this section or by a separate statement specifying the food or characterizing ingredient(s) or component(s) shown in the vignette but not included in the package.

(d) If the statement specified in paragraph (a) (2) of this section is used on any label panel in addition to the principal display panel, the complete common or usual name shall appear on such panel in the manner specified in paragraph (b) of this section.

Interested persons may, on or before May 14, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: March 5, 1973.

## List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

## Presidential Documents

Title 3—The President

PROCLAMATION 4196

### National Defense Transportation Day and National Transporta- tion Week, 1973

*By the President of the United States of America*

#### A Proclamation

Transportation has always been a central factor in the growth of our country. Our ability to meet economic needs, overcome geographic barriers, and respond rapidly to emergencies—foreign or domestic—rests largely on a modern and efficient transportation system.

From our earliest days, the Federal government has worked in partnership with the private sector to achieve better transportation systems. That partnership continues today—but the challenges it faces are changing. The need today is for initiatives which can help us to reconcile our transportation needs with our energy resources, to encourage mobility without impairing safety and security, to upgrade our transportation capabilities without damaging the environment.

Because of the great importance of transportation to our daily lives and in tribute to the men and women who move goods and people throughout America, the Congress by a joint resolution approved May 16, 1957, requested the President to proclaim annually the third Friday in May of each year as National Defense Transportation Day and by a joint resolution approved May 14, 1962, requested the President to proclaim annually the week of May in which that Friday falls as National Transportation Week.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate Friday, May 18, 1973, as National Defense Transportation Day, and the week beginning May 13, 1973, as National Transportation Week.

I ask the people of our Nation to join with the Department of Transportation and with appropriate State and local agencies in reaffirming our commitment to a progressive and balanced transportation system for America.

IN WITNESS WHEREOF, I have hereunto set my hand this 13th day of March, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-seventh.

PROCLAMATION 4197

## National Farm Safety Week

*By the President of the United States of America*

## A Proclamation

The unfailing supply of food and fiber provided by the Nation's largest industry, agriculture, has been a foundation of American prosperity since our country's beginnings. Abundance on the farm, in turn, has been stimulated by constant technological progress. But the blessings of technology have sometimes been mixed, as each advance has also brought a new potential for injury.

Each year, many thousands of farm and ranch residents are killed or seriously injured in work, home, recreation and highway mishaps. For the most part, these accidents could be prevented if basic safety precautions were observed.

The dollar cost of rural accidents is high, but there is no higher price than the human suffering. This waste of precious human and economic resources must be reduced and can be reduced. The same energies and talents which have made agriculture so highly productive should also be turned to the task of making it safer.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week beginning July 25, 1973, as National Farm Safety Week. I urge all persons engaged in farming and ranching to consider ways in which they can promote safer practices in work, home, and recreational activities, and can exercise greater caution when traveling on public roads. Further, I call upon community leaders, private organizations, and the communications media to assist in providing safety information so that we can be as effective in promoting safety on the farm as we have been in promoting abundance on the farm.

IN WITNESS WHEREOF, I have hereunto set my hand this thirteenth day of March, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-seventh.

## Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

### Title 7—Agriculture

#### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 292]

#### PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

##### Limitation of Handling

This section fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period March 16-March 22, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

##### § 907.592 Navel Orange Regulation 292.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section limiting the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(1) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges remained active this week,

with prices slightly higher than a week ago. Prices f.o.b. averaged \$3.67 a carton on a reported sales volume of 1,030 cartons last week, compared with an averaged f.o.b. price for \$3.62 per carton and sales of 998 cartons a week earlier. Track and rolling supplies at 255 cars were down 163 cars from last week.

(1) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time this section must become effective in order to effectuate the declared policy of the act is insufficient, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on March 13, 1973.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period March 16, 1973, through March 22, 1973, are hereby fixed as follows:

- (i) District 1: 875,000 cartons;
- (ii) District 2: 325,000 cartons;
- (iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3,"

and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: March 14, 1973.

CHARLES R. BRADER,  
Acting Deputy Director, Fruit  
and Vegetable Division, Agri-  
cultural Marketing Service.

[FR Doc. 73-5170 Filed 3-14-73; 11:18 am]

[Valencia Orange Reg. 421]

#### PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

##### Limitation of Handling

This section fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period March 16-March 22, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

##### § 908.721 Valencia Orange Regulation 421.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section limiting the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(1) The committee has submitted its recommendation with respect to the

quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order.

(ii) Having considered the recommendation and information submitted by the committee, and other information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on March 13, 1973.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period March 16, 1973, through March 22, 1973, are hereby fixed as follows:

- (i) District 1: Unlimited;
- (ii) District 2: Unlimited;

(iii) District 3: 225,000 cartons.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as

## RULES AND REGULATIONS

when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: March 14, 1973.

CHARLES R. BRADER,  
Acting Deputy Director, Fruit  
and Vegetable Division, Agri-  
cultural Marketing Service.

### Title 12—Banks and Banking

#### CHAPTER II—FEDERAL RESERVE SYSTEM SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

##### PART 201—ADVANCES AND DISCOUNTS BY FEDERAL RESERVE BANKS

###### Changes in Rates

Pursuant to section 14(d) of the Federal Reserve Act (12 U.S.C. 357), and for the purpose of adjusting discount rates with a view to accommodating commerce and business in accordance with other related rates and the general credit situation of the country, Part 201 is amended as set forth below:

1. Section 201.51 is amended to read as follows:

§ 201.51 Advances and discounts for member banks under sections 13 and 13a.

The rates for all advances and discounts under sections 13 and 13a of the Federal Reserve Act (except advances under the last paragraph of such section 13 to individuals, partnerships, or corporations other than member banks) are:

Federal Reserve Bank of—	Rate	Effective
Boston	5½%	Feb. 28, 1973
New York	5½%	Feb. 28, 1973
Philadelphia	5½%	Do.
Cleveland	5½%	Feb. 27, 1973
Richmond	5½%	Do.
Atlanta	5½%	Do.
Chicago	5½%	Do.
St. Louis	5½%	Feb. 26, 1973
Minneapolis	5½%	Feb. 27, 1973
Kansas City	5½%	Feb. 26, 1973
Dallas	5½%	Feb. 27, 1973
San Francisco	5½%	Mar. 2, 1973

2. Section 201.52 is amended to read as follows:

§ 201.52 Advances to member banks under section 10(b).

The rates for advances to member banks under section 10(b) of the Federal Reserve Act are:

Federal Reserve Bank of—	Rate	Effective
Boston	6	Feb. 28, 1973
New York	6	Feb. 28, 1973
Philadelphia	6	Do.
Cleveland	6	Feb. 27, 1973
Richmond	6	Do.
Atlanta	6	Do.
Chicago	6	Do.
St. Louis	6	Feb. 26, 1973
Minneapolis	6	Feb. 27, 1973
Kansas City	6	Feb. 26, 1973
Dallas	6	Feb. 27, 1973
San Francisco	6	Mar. 2, 1973

3. Section 201.53 is amended to read as follows:

§ 201.53 Advances to persons other than member banks.

The rates for advances under the last paragraph of section 13 of the Federal Reserve Act to individuals, partnerships, or corporations other than member banks secured by direct obligations of, or obligations fully guaranteed as to principal and interest by, the United States or any agency thereof are:

Federal Reserve Bank of—	Rate	Effective
Boston	7½%	Feb. 28, 1973
New York	7½%	Feb. 26, 1973
Philadelphia	7½%	Do.
Cleveland	7½%	Feb. 27, 1973
Richmond	7½%	Do.
Atlanta	7½%	Do.
Chicago	7½%	Do.
St. Louis	7½%	Feb. 26, 1973
Minneapolis	7½%	Feb. 27, 1973
Kansas City	7½%	Feb. 26, 1973
Dallas	7½%	Feb. 27, 1973
San Francisco	7½%	Mar. 2, 1973

A rate of 5½ percent was approved (effective on the indicated dates) on advances to nonmember banks, to be applicable to special circumstances resulting from implementation of changes in Regulation J (see 37 FR 12714).

(12 U.S.C. 248(i). Interprets or applies 12 U.S.C. 357)

By order of the Board of Governors,  
March 6, 1973.

[SEAL]

TYNAN SMITH,  
Secretary of the Board.

[FR Doc. 73-4838 Filed 3-14-73; 8:45 am]

##### PART 265—RULES REGARDING DELEGATION OF AUTHORITY

###### State Bank Applications for Waiver of 6-Month Notice Requirement

The purpose of this amendment is to grant to the Federal Reserve banks discretionary authority to deny applications by State banks for waiver of the requirement for 6 months' notice of intention to withdraw from Federal Reserve membership. Under the provisions of the 10th paragraph of section 9 of the Federal Reserve Act (12 U.S.C. 328), the Board in its discretion may waive such notice in individual cases. In the past, such waiver applications have been, for the most part, routinely approved by the Federal Reserve banks acting under delegated authority. It is contemplated that the Reserve banks will henceforth review each application in the light of its particular circumstances, and that such applications will be approved only in exceptional circumstances.

1. To accomplish this delegation, § 265.2(f) (3) is amended to read as follows:

§ 265.2 Specific functions delegated to Board employees and Federal Reserve banks.

(f) Each Federal Reserve bank is authorized, as to member banks or other indicated organizations headquartered in its district, or under paragraph (f) (25) of this section as to its officers:

(3) Under the provisions of the 10th paragraph of section 9 of the Federal Reserve Act (12 U.S.C. 328), to approve or deny applications by State banks for waiver of the required 6 months' notice of intention to withdraw from Federal Reserve membership.

2. The provisions of section 553 of title 5, United States Code, relating to notice and public participation and to deferred effective dates, were not followed in connection with the adoption of this amendment, because the rule contained therein is procedural in nature and accordingly does not constitute a substantive rule subject to the requirements of such section.

*Effective date.* This amendment is effective with respect to applications received by the Reserve banks on and after March 12, 1973.

By order of the Board of Governors,  
March 8, 1973.

[SEAL]

TYNAN SMITH,  
Secretary of the Board.

[FR Doc. 73-4957 Filed 3-14-73; 8:45 am]

### Title 14—Aeronautics and Space

#### CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 72-SW-64; Amdt. 39-1606]

##### PART 39—AIRWORTHINESS DIRECTIVES Certain Aero Commander Models

A proposal to amend Part 39 of the Federal Aviation regulations to include an airworthiness directive requiring replacement of fuel tank filler cap assemblies on Aero Commander Models 500, 500A, 500B, 500U, 520, 560, 560A, 560E, 560F, 680, 680E, 680F, 680F(P), 680FL, 680FL(P), and 720 series airplanes was published in 37 FR 22390.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation regulations is amended by adding the following new airworthiness directive:

**AERO COMMANDER:** Applies to all Models 500, 500A, 500B, 500U, 520, 560, 560A, 560E, 560F, 680, 680E, 680F, 680F(P), 680FL, 680FL(P), and 720 series airplanes certificated in all categories.

**Compliance:** Required within the next 200 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent siphoning of fuel from the fuel tanks and thereby contribute to fuel exhaustion with resultant stoppage of both engines, accomplish the following:

## RULES AND REGULATIONS

a. On Models 520 and 560, Serial Nos. 1 through 230, replace the standard fuel cap assemblies with nonsiphoning fuel cap assemblies, Aero Commander Kit No. 87A-1.

b. On the following models, replace the standard fuel cap assemblies with nonsiphoning fuel cap assemblies, Aero Commander Kit No. 87A-2 (optional fuel caps already installed by use of Aero Commander Kit No. 87 are acceptable):

(1) Models 500, 500A, 500B, 500U, 560A, 560E, 560F, 680, 680E, 680F, 680F(P), 680FL(P), and 720, Serial Nos. 231 through 1854.

(2) Model 680FL, Serial Nos. 1261 through 1738.

c. The compliance time for this AD may be adjusted up to a maximum of 50 hours to coincide with the aircraft's annual or 100 hour scheduled inspection.

Aero Commander Custom Kit No. 87A contains the hardware and instructions necessary to accomplish this modification. Equivalent replacement parts approved by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Southwest Region, Federal Aviation Administration, Fort Worth, Tex., may be used.

This amendment becomes effective March 19, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Fort Worth, Tex., on March 2, 1973.

HENRY L. NEWMAN,  
Director, Southwest Region.

[FR Doc. 73-4990 Filed 3-14-73; 8:45 am]

[Airspace Docket No. 72-NW-25]

##### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

###### Designation of VOR Federal Airway

On December 8, 1972, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (37 FR 26125) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation regulations that would designate a new VOR Federal airway between Burley, Idaho, and Yellowstone, Mont., via Idaho Falls, Idaho.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. No objections to the proposed action were received. However, further review of the proposal by the FAA has indicated the advisability of terminating the proposed airway at the St. Anthony, Idaho, intersection on V-298 rather than extending the airway all the way to Yellowstone as proposed in the notice. This action is being taken because the Yellowstone radio beacon is owned by the State of Montana and is operated only from May through September each year. A portion of the proposed airway would have been based upon use of the Yellowstone radio beacon. The airway as designated herein does not require use of the Yellowstone radio beacon.

In consideration of the foregoing, Part 71 of the Federal Aviation regulations is

amended, effective 0901 G.m.t., May 24, 1973, as hereinafter set forth.

In § 71.123 (38 FR 307) the following is added:

V-365 from Burley, Idaho, via INT Burley 042° and Idaho Falls, Idaho, 248° radials; Idaho Falls; to INT Idaho Falls 030° and Dubois, Idaho, 099° radials.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on March 9, 1973.

CHARLES H. NEWPOL,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc. 73-4992 Filed 3-14-73; 8:45 am]

[Airspace Docket No. 72-NE-25]

##### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

###### Alteration of Control Zone and Transition Area

On page 4709 of the FEDERAL REGISTER dated February 21, 1973 (38 FR 4709), the Federal Aviation Administration issued an amendment effective 0901 G.m.t., April 26, 1973, which altered the Presque Isle, Maine, control zone and transition area.

It has been determined that it is now possible to implement the new standard instrument approach procedure by March 29, 1973, instead of the later date which was set forth in the initial amendment.

Since thirty (30) days will elapse from the time of publication of the rule as initially adopted to the new effective date, this change is made in compliance with section 4 of the Administrative Procedure Act.

In view of the foregoing, the effective date for the proposed regulations is amended to read 0901 G.m.t., March 29, 1973, in lieu of 0901 G.m.t., April 26, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Burlington, Mass., on March 6, 1973.

W. E. CROSBY,  
Deputy Director,  
New England Region.

[FR Doc. 73-4991 Filed 3-14-73; 8:45 am]

[Airspace Docket No. 73-GL-10]

##### PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

###### Change of Jet Route Numbered Identifier

The purpose of this amendment to Part 75 of the Federal Aviation regulations is to change the numbered identifier of J99, which is designated from Atlanta, Ga., to Northbrook, Ill., to J73. This change will eliminate confusion sometimes caused by a similar sounding jet route in the Chicago area.

Since this amendment is minor in nature with no substantive change in regulations and one in which the public is not particularly interested, notice and public procedure thereon are unnecessary. However, since sufficient time must be allowed to make appropriate changes on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., May 24, 1973, as hereinafter set forth.

Section 75.100 (38 FR 681) is amended as follows:

In the heading Jet Route No. 99, delete "Jet Route No. 99 (Atlanta, Ga., to Northbrook, Ill.)" and substitute therefor "Jet Route No. 73 (Atlanta, Ga., to Northbrook, Ill.)."

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on March 7, 1973.

CHARLES H. NEWPOL,  
Acting Chief, Airspace and Air  
Traffic Rules Division.

[FR Doc. 73-4993 Filed 3-14-73; 8:45 am]

[Airspace Docket No. 73-SO-7]

#### PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES Change of Waypoint Name

The purpose of this amendment to Part 75 of the Federal Aviation Regulations is to change the name of Waypoint, Callahan, Fla., on J838R, to Barford, Fla. The locally familiar name of Callahan will be assigned to identify an instrument landing system which will be commissioned soon to serve the Jacksonville, Fla., International Airport.

Since this amendment is minor in nature with no substantive change in regulations, notice and public procedure thereon are unnecessary. However, since sufficient time must be allowed to make appropriate changes on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., May 24, 1973, as hereinafter set forth.

Section 75.400 (38 FR 700) is amended as follows:

In J838R delete waypoint "Callahan, FL, 30°45'09" N., 82°05'08" W. Savannah, GA." and substitute therefor "Barford, Fla., 30°45'09" N., 82°05'08" W. Savannah, GA."

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on March 7, 1973.

CHARLES H. NEWPOL,  
Acting Chief, Airspace and Air  
Traffic Rules Division.

[FR Doc. 73-4994 Filed 3-14-73; 8:45 am]

## RULES AND REGULATIONS

[Docket No. 12630; Amdt. 855]

### PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAP's) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAP's for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making docket of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAP's are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591. Copies of SIAP's adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAP's may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, DC 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of \$150 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for \$30 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAP's, effective April 26, 1973.

Albert Lea, Minn.—Albert Lea Municipal Airport, VOR Runway 16, Amdt. 2.  
Bennettsville, S.C.—Bennettsville Airport, VOR DME-A, Original.  
Bloomington, Ill.—Bloomington-Normal Airport, VOR Runway 21, Amdt. 10.  
Brookings, S. Dak.—Brookings Municipal Airport, VOR Runway 12, Amdt. 2.  
Brookings, S. Dak.—Brookings Municipal Airport, VOR Runway 30, Amdt. 1.  
College Station, Tex.—Easterwood Field, VOR Runway 10, Amdt. 10.  
College Station, Tex.—Easterwood Field, VOR Runway 28, Amdt. 2.  
Great Falls, Mont.—Great Falls International Airport, VOR Runway 3, Amdt. 11.

Great Falls, Mont.—Great Falls International Airport, VOR/DME Runway 21, Amdt. 3.  
Kailua-Kona, Hawaii—Ke-ahole Airport, VORTAC Runway 17, Amdt. 1.  
Kailua-Kona, Hawaii—Ke-ahole Airport, VORTAC Runway 35, Amdt. 1.  
Lanai City, Hawaii—Lanai Airport, VOR-A, Amdt. 1.  
Miami, Fla.—Miami International Airport, VOR Runway 12, Amdt. 18.  
Miami, Fla.—Miami International Airport, VOR Runway 30, Amdt. 1.  
Minneapolis, Minn.—Flying Cloud Airport, VOR Runway 9L, Amdt. 6.  
Minneapolis, Minn.—Flying Cloud Airport, VOR Runway 36, Amdt. 2.  
Shelby, N.C.—Shelby Municipal Airport, VOR DME Runway 4, Amdt. 3.  
Victoria, Tex.—Victoria County-Foster Airport, VOR Runway 12L, Amdt. 5.  
Walla Walla, Wash.—Walla Walla City-County Airport, VOR-A, Amdt. 2, Canceled.  
Yakima, Wash.—Yakima Air Terminal Airport, VOR-A, Amdt. 2.  
Yakima, Wash.—Yakima Air Terminal Airport, VOR DME Runway 27, Amdt. 2.

• • • effective April 19, 1973.

Glen Falls, N.Y.—Warren County Airport, VOR DME Runway 1, Amdt. 2.

• • • effective April 12, 1973.

Davenport, Iowa—Davenport Municipal Airport, VOR Runway 2, Amdt. 1.

2. Section 97.25 is amended by originating, amending, or canceling the following SDF-LOC-LDA SIAP's, effective April 26, 1973.

College Station, Tex.—Easterwood Field, LOC(BC) Runway 16, Amdt. 1.  
Kailua-Kona, Hawaii—Ke-ahole Airport, LOC(BC) Runway 35, Original.  
Los Angeles, Calif.—Los Angeles International Airport, LOC Runway 6R, Original, Canceled.

Yakima, Wash.—Yakima Air Terminal, ILS Runway 27, Amdt. 19.

• • • effective April 12, 1973.

Lafayette, Ind.—Purdue University Airport, ILS Runway 10, Original.

• • • effective March 29, 1973.

Crescent City, Calif.—Jack McNamara Field, ILS DME Runway 11, Original.

Watertown, S. Dak.—Watertown Municipal Airport, ILS DME Runway 35, Original.

5. Section 97.31 is amended by originating, amending, or canceling the following Radar SIAP's, effective April 26, 1973.

Great Falls, Mont.—Great Falls International Airport, Radar-1, Amdt. 4.  
Miami, Fla.—Miami International Airport, Radar-1, Amdt. 13.

## RULES AND REGULATIONS

6. Section 97.33 is amended by originating, amending, or canceling the following RNAV SIAP's, effective April 26, 1973.

Columbus, Ind.—Bakalar Municipal Airport, RNAV Runway 22, Original.  
Elgin, Ill.—Elgin Airport, RNAV Runway 18, Original.  
Elgin, Ill.—Elgin Airport, RNAV Runway 36, Original.  
Miami, Fla.—Miami International Airport, RNAV Runway 9L, Amdt. 2.  
North Little Rock, Ark.—North Little Rock Municipal Airport, RNAV-A, Original.

(Secs. 307, 313, 601, 1110, Federal Aviation Act of 1958; 49 U.S.C. 1438, 1354, 1421, 1610; sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c), 5 U.S.C. 552(a)(1))

Issued in Washington, D.C., on March 8, 1973.

C. R. MELUGIN, Jr.,  
Acting Director,  
Flight Standards Service.

NOTE: Incorporation by reference provisions in §§ 97.10 and 97.20 (35 FR 5610), approved by the Director of the Federal Register on May 12, 1969.

[FR Doc. 73-4989 Filed 3-14-73; 8:45 am]

### Title 16—Commercial Practices CHAPTER 1—FEDERAL TRADE COMMISSION

[Docket No. 88610]

#### PART 13—PROHIBITED TRADE PRACTICES

Credit Card Services Corporation and  
John P. Ferry  
Correction

In FR Doc. 73-3519, appearing at page 5157 for the issue of Monday, February 26, 1973, the docket number should read as set out above.

#### PART 425—USE OF NEGATIVE OPTION PLANS BY SELLERS IN COMMERCE Regulations Pertaining to the Use of Negative Option Plans

Correction

In FR Doc. 73-3278, appearing at page 4896 for the issue of Thursday, Feb. 22, 1973, the following changes should be made:

1. In the 13th and 14th lines of the note in § 425.1(b)(5) the word which now reads "announce" should read "announcement".

2. The third line of the third column on page 4897 now reading "original subscription arrangement sub-" should read "business in 1925 as a mail-order sub-".

3. In the fifth line of the first column on page 4898, there should be a footnote reference "8" at the end of the line.

### Title 19—Customs Duties CHAPTER 1—BUREAU OF CUSTOMS [T.D. 73-73]

#### PART 123—CUSTOMS RELATIONS WITH CANADA AND MEXICO

Foreign Locomotives and Equipment in International Traffic

Part 123 of the Customs Regulations incorporates former § 5.12, Customs Reg-

ulations of 1943, in present §§ 123.12 and 123.13. Section 5.12 set forth the restrictions on the domestic use of foreign railroad cars and the procedures applicable to foreign repairs to "domestic" cars. Footnote 11 to § 5.12 defined "domestic" and "foreign" railroad equipment. However, when § 5.12 and its related footnote 11 were revised and incorporated into Part 123, the definition of "domestic" equipment was, by oversight, retained in § 123.13 with the words "For the purpose of this section," but the definition was not extended to § 123.12. Questions have therefore been raised regarding the appropriate treatment, on entry, of foreign locomotives and equipment in international traffic. These amendments to §§ 123.12 and 123.13, Customs Regulations, merely clarify that the status of those articles, for entry purposes, has not changed.

The amendment to § 123.12 adds a paragraph (d) setting forth the definition of domestic locomotives and railroad equipment, and adds the clarifying sentence: "Other locomotives and railroad equipment shall be considered 'foreign'." In § 123.13 the statement of the definition is deleted, and it is then incorporated by reference.

Accordingly, §§ 123.12 and 123.13 of the Customs Regulations are amended as follows:

§ 123.12 Entry of foreign locomotives and equipment in international traffic.

(d) Domestic and foreign locomotives and other railroad equipment defined. For the purpose of this section and section 123.13, locomotives or other railroad equipment manufactured in, or regularly imported into, the United States, shall be considered "domestic" if not subsequently formally entered and cleared through foreign customs into another country, nor used in foreign local traffic otherwise than as an incident of the return of the equipment to the United States. Other locomotives and railroad equipment shall be considered "foreign".

(Sec. 14, 67 Stat. 516; 19 U.S.C. 1322)

§ 123.13 Foreign repairs to domestic locomotives and other domestic railroad equipment.

A report of the first arrival in the United States of a domestic locomotive or other railroad equipment after repairs have been made in a foreign country other than those required to restore it to the condition in which it last left the United States ("running repairs"), shall be made promptly, in writing, to the Customs officer at the port of re-entry. The report shall state the time and place of arrival, and the nature and value of the repairs. Each such locomotive or other piece of railroad equipment when withdrawn from interna-

## RULES AND REGULATIONS

tional traffic shall be subject to duty upon the value of the repairs (other than "running repairs"), made abroad at the rate at which the repaired article would be dutiable if imported. For the appropriate determination as to whether the locomotive or other railroad equipment should be considered "domestic" or "foreign", see § 123.12(d).

(Sec. 14, 67 Stat. 516, 77A Stat. 14; 19 U.S.C. 1202, (Gen. Hdnte. 11), 1322; R.S. 251, sec.

624, 46 Stat. 759, 77A Stat. 14; 19 U.S.C. 66, 1202, (Gen. Hdnte. 11), 1624)

These amendments merely confirm a preexisting exemption for certain foreign locomotives, railroad equipment, and repairs to those articles. Therefore, notice and public procedure thereon is unnecessary under 5 U.S.C. 553(b), and good cause exists for dispensing with a delayed effective date, under the provisions of 5 U.S.C. 553(d).

**Effective date.** This amendment shall be effective March 15, 1973.

[SEAL] EDWIN F. RAINS,  
Acting Commissioner of Customs.

Approved: March 6, 1973.

EDWARD L. MORGAN,  
Assistant Secretary  
of the Treasury.

## Title 24—Housing and Urban Development

## CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

## SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

## PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

## Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies (1) the effective date of the authorization of the sale of flood insurance in the area under the emergency or under the regular flood insurance program; (2) the effective date on which the community became ineligible for the sale of flood insurance because of its failure to submit land use and control measures as required pursuant to § 1909.24(a); or (3) the effective date of a community's formal reinstatement in the program pursuant to § 1909.24(b). The entry reads as follows:

## § 1914.4 Status of participating communities.

State	County	Location	Map No.	State map repository	Local map repository	Effective date of authorization of sale of flood insurance for area
Arkansas	Pope	Russellville, City of				July 17, 1970. Emergency. Dec. 31, 1970. Regular. Apr. 15, 1973. Suspension. June 17, 1970. Emergency. June 18, 1971. Regular. Sept. 15, 1972. Suspension. Nov. 3, 1972. Reinstated. Apr. 15, 1973. Suspension. Sept. 11, 1970. Emergency. June 11, 1971. Regular. Apr. 15, 1973. Suspension. Sept. 18, 1970. Emergency. July 9, 1971. Regular. Apr. 15, 1973. Suspension. Oct. 9, 1970. Emergency. June 18, 1971. Regular. Apr. 15, 1973. Suspension. Apr. 15, 1973. Suspension. Apr. 7, 1970. Emergency. Nov. 13, 1970. Regular. Apr. 15, 1973. Suspension. ## Title 30—Mineral Resources

## CHAPTER I—BUREAU OF MINES, DEPARTMENT OF THE INTERIOR

## PART 11—RESPIRATORY PROTECTIVE DEVICES, TESTS FOR PERMISSIBILITY; FEES

## MISCELLANEOUS AMENDMENTS

On March 25, 1972, the Department of Health, Education, and Welfare and the Department of the Interior jointly adopted regulations which provided for the testing of all respirators by the Bureau of Mines and the issuance of joint approvals of all respirators whether such an approval was authorized by the Bureau of Mines alone, the Bureau and the Institute jointly, or by the Institute alone (30 CFR Part 11, 37 FR 6244).

Notice of proposed rule making, public rule making procedures and postponement of effective date have been omitted in the issuance of the following amendments to Part 11 which relate solely to agency management. Specifically, the amendments reflect a Memorandum of Understanding dated May 30, 1972, between the U.S. Bureau of Mines, Department of the Interior and the National Institute for Occupational Safety and Health, Department of Health, Education, and Welfare whereby the site for testing of respiratory protective devices (other than the testing of electrical devices for intrinsic safety) was transferred from the Bureau's laboratory in Pittsburgh to the Institute's laboratory at Morgantown, W. Va.

Under various statutory provisions the Bureau has sole authority to approve respirators used in metal and non-metallic mines, the Bureau and the Institute are authorized jointly to approve respirators for use in coal mines, and the Institute has authority for all other respirator approvals. Since it is almost impossible to predict when a respirator will be used exclusively in a specific occupation, all respirator approvals will continue to be issued jointly by the

Bureau and the Institute based on tests conducted by the Institute at its laboratory in Morgantown.

A copy of the May 30 Memorandum of Understanding is available for inspection at the Bureau of Mines, Room 4512, 18th and C Streets NW., Washington, D.C. 20240, and the National Institute for Occupational Safety and Health, Room 10A-19, 5600 Fishers Lane, Rockville, MD 20852.

In view of the foregoing, Part 11 is amended as set forth below, and the amendments are effective on March 15, 1973.

Dated: February 15, 1973.

HOLLIS M. DOLE,  
Assistant Secretary of the Interior.

Dated: February 6, 1973.

FRANK CARLUCCI,  
Acting Secretary of Health,  
Education, and Welfare.

1. The authority for the issuance of Part 11 is amended to read as follows:

AUTHORITY: Secs. 202(h), 204, and 508, 83 Stat. 763, 764 and 803; 30 U.S.C. 842(h), 844 and 957; secs. 2, 3, and 5, 36 Stat. 370, as amended 37 Stat. 681; 30 U.S.C. 3, 5, and 7; sec. 8(g), 84 Stat. 1600; 29 U.S.C. 657(g).

§ 11.2 [Amended]

2. In paragraphs (a) and (b) of § 11.2, the phrase "hazardous mine atmospheres" is changed to read "hazardous atmospheres".

§ 11.3 [Amended]

3. In § 11.3, the paragraph designated as (hh) is redesignated as (ll) and a new paragraph (hh) is inserted to read as follows:

(hh) "Testing and Certification Laboratory" means the Testing and Certification Laboratory, National Institute for Occupational Safety and Health, 944 Chestnut Ridge Road, Morgantown, W V 26505.

4. Section 11.4 is revised to read as follows:

## § 11.4 Incorporation by reference.

In accordance with 5 U.S.C. 552(a)(1), the technical publications to which reference is made in this Part 11, and which have been prepared by organizations other than the Bureau or the Institute, are hereby incorporated by reference and made a part hereof. The incorporated technical publications are available for examination at Approval and Testing, Health and Safety Technical Support Center, Bureau of Mines, 4800 Forbes Avenue, Pittsburgh, PA 15213, and at the Testing and Certification Laboratory. In addition, copies of the American National Standards Institute Standard Z88.2-1969, "Practices for Respiratory Protection," are available for examination in every Coal Mine Health and Safety District and Subdistrict Office.

§§ 11.1, 11.12, 11.20-11.22, 11.35, 11.50, 11.53, 11.61, 11.63, 11.64, 11.66, 11.85-14, 11.98, 11.102-3, 11.135, 11.162-3, 11.183-3 [Amended]

5. In the sections and paragraphs specified below, the word "Bureau" is deleted wherever it appears and the word "Institute" is substituted therefor.

Sec.	Sec.
11.1 (b) and (d)	11.63 (a) and (d)
11.12 (a), (d), and (e)	11.64 (b) and (c)
11.20	11.66 (b)
11.21	11.85-14(c)
11.22 (c), (d), and (e)	11.98(c)
11.35 (d) and (e)	11.102-3(b)
11.50	11.135(f)
11.53(b)	11.162-3(b)
11.61(a)	11.183-3(b)

6. Section 11.10 is revised to read as follows:

§ 11.10 Application procedures.

(a) Inspection, examination, and testing leading to the approval of the types of respirators classified in Subpart F of this part shall be undertaken by the Institute only pursuant to written applica-

tions which meet the minimum requirements set forth in this Subpart B.

(b) Applications shall be submitted to the Testing and Certification Laboratory, and shall be accompanied by a check, bank draft, or money order in the amount specified in Subpart C of this part payable to the order of the National Institute for Occupational Safety and Health.

(c) Except as provided in § 11.64 and in paragraph (e) of this section, the examination, inspection, and testing of all respirators shall be conducted by the Testing and Certification Laboratory.

(d) Applicants, manufacturers, or their representatives may visit or communicate with the Testing and Certification Laboratory in order to discuss the requirements for approval of any respirator or the proposed designs thereof. No charge shall be made for such consultation and no written report shall be issued to applicants, manufacturers, or their representatives by the Institute as a result of such consultation.

(e) Inspection, examination, and testing of electrical components of respirators that are required to be permissible shall be tested in accordance with Part 18 of this chapter, and such components shall be submitted to Approval and Testing, Bureau of Mines, 4800 Forbes Avenue, Pittsburgh, PA 15213.

#### §§ 11.12, 11.36 [Amended]

7. In §§ 11.12(b) and 11.36, the words "Approval and Testing, Bureau of Mines, 4800 Forbes Avenue, Pittsburgh, PA 15213" are deleted wherever they appear and the words "Testing and Certification Laboratory" are substituted therefor.

8. In § 11.12 the section heading is changed to read "Delivery of respirators and components by applicant; requirements."

#### § 11.22 [Amended]

9. In § 11.22 the first sentence of paragraph (b) is revised to read as follows:

The Bureau and the Institute reserve the right to conduct any examination, inspection or test they deem necessary to determine the quality and effectiveness of any listed or unlisted respirator assembly or respirator component or subassembly, and to assess the cost of such examinations, inspections, or tests against the applicant prior to the issuance of any approval for such assembly, component, or subassembly.

#### § 11.30 [Amended]

10. In the second sentence of § 11.30 (c), the word "Bureau" is deleted and the word "Institute" is substituted therefor.

#### § 11.31 [Amended]

11. In § 11.31(e) the words "or the Institute" are inserted immediately following the word "Bureau".

#### § 11.33 [Amended]

12. In § 11.33 the following changes are made:

In paragraph (b) the word "Bureau" in the sixth line is deleted and the word "Institute" is substituted therefor, and a sentence is added at the end of the

paragraph to read: "The approval number assigned by the Institute shall be designated by the prefix TC and a serial number."

In paragraph (c) the phrase "and the Institute" is added immediately following the word "Bureau".

#### § 11.34 [Amended]

13. Section 11.34 is amended by deleting the phrase "violation of section 109 (e) of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 819(e))".

#### § 11.64 [Amended]

14. The heading is § 11.64 is changed to read "Pretesting by applicant; approval of test methods" and paragraph (d) is amended to read as follows:

(d) No approval will be issued until the Institute has validated the applicant's test results.

#### § 11.85-14 [Amended]

15. In paragraph (b) of § 11.85-14 the word "Bureau" is deleted.

#### § 11.90 [Amended]

16. Paragraph (c) of § 11.90 is amended to read as follows:

Gas masks for respiratory protection against gases and vapors other than those specified in paragraph (b) of this section, may be approved upon submittal of an application in writing for approval to the Testing and Certification Laboratory listing the gas or vapor and suggested maximum use concentration for the specific type of gas mask. The Institute and the Bureau will consider the application and accept or reject it on the basis of effect on the wearer's health and safety and any field experience in use of gas masks for such exposures. If the application is accepted, the Institute will test such masks in accordance with the requirements of this subpart.

#### § 11.150 [Amended]

17. In the first sentence of the Note to section 11.150, the word "Bureau" is deleted and the word "Institute" is substituted therefor.

#### § 11.150 [Amended]

17. In the first sentence of the Note to section 11.150, the word "Bureau" is deleted and the word "Institute" is substituted therefor.

(Secs. 202(h), 204, 508, 83 Stat. 763, 764, 803; 30 U.S.C. 842(h), 844, 957; secs. 2, 3, 5, 36 Stat. 370, as amended 37 Stat. 681; 30 U.S.C. 3, 5, 7; sec. 8(g), 84 Stat. 1600; 29 U.S.C. 657(g))

### Title 32—National Defense CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE

#### SUBCHAPTER D—SECURITY PART 159—INFORMATION SECURITY PROGRAM REGULATION

##### Mandatory Classification Review

The following amendments to Part 159 have been approved, effective on the dates shown: Section 159.303 *Material covered*, clarifies the scope and description of DoD classified information and material to which the mandatory classification review applies; § 159.303-2 *Submission of requests for review*, identifies with greater particularity the DoD ele-

ment or office to which, or the DoD official to whom, requests for mandatory classification review should be submitted; § 159.306-3 *Declassification of encrypted messages*, establishes DoD policy on declassification of encrypted messages encrypted from February 1, 1946 through May 31, 1960, and states established DoD policy on declassification of messages encrypted prior to February 1, 1946 and subsequent to May 31, 1960.

The amended sections of Part 159 read as follows:

#### § 159.303 Material covered.

(a) All classified information and material originated on or after June 1, 1972 which is exempted under § 159.302-1 above from the General Declassification Schedule, and all classified information and material which is "excluded" from the General Declassification Schedule under § 159.301-1(b), shall, upon request, be subject to mandatory classification review by the originating DoD component at any time after the expiration of 10 years from date of origin.

(b) Effective date is February 16, 1973.

#### § 159.303-2 Submission of requests for review.

(a) Requests described in § 159.303 shall be submitted in accordance with the following:

(1) Requests originating within DoD shall in all cases be submitted directly to the DoD element which originated the material involved for action as indicated in § 159.204. Such cases are not referred to the Departmental Classification Review Committees (§ 159.1301-1, § 159-1302-1).

(2) Requests originating in other agencies of the Executive Branch should be submitted directly to the DoD element which originated the material. If the originating element is not known or cannot be located, the request may be submitted as indicated in paragraph (a) (3) of this section.

(3) For most expeditious action, requests from outside the executive branch should be submitted directly to the DoD element which originated the material. If the originating element is not known or cannot be located, the requester may submit the request to any of the following:

(i) The facilities established in the Office, Secretary of Defense, the military departments and the Defense Agencies under DoD Directive 5400.7 (Part 286), to receive requests for records under the Freedom of Information Act. These facilities are identified in appropriate sections of Title 32 of the Code of Federal Regulations for each DoD component.

(ii) The head of the DoD component which is most concerned with the subject matter of the material requested.

(iii) Chief, Records Management Branch, Office, Deputy Assistant Secretary of Defense (Administration), (Comptroller), Department of Defense, Washington, D.C. 20301.

(b) Effective date is February 16, 1973.

#### § 159.306-3 Declassification of encrypted messages.

(a) Declassification of encrypted messages will be accomplished in accordance with the following policy:

(1) *Messages encrypted prior to February 1, 1946.* Declassification of messages in this category has been and will continue to be based solely on the informational content of the messages.

(2) *Messages encrypted during the period February 1 through May 31, 1960.* The requirement that messages in this category (so-called category "B" messages) be paraphrased and the date-time group physically removed prior to declassification is canceled. Effective immediately, declassification of such messages will be based solely on the informational content of the messages.

(3) *Messages encrypted subsequent to May 31, 1960.* Communications Centers have received instructions via KAG-1 and Department and Agency implementing documents to perform necessary cryptographic editing on these messages prior to release from the Communications Center. Declassification of messages in this category by holders outside Communications Centers is based solely on the informational content of the messages. Further cryptographic editing is not required.

(b) Effective date is February 2, 1973.

MAURICE W. ROCHE,  
Director, Correspondence and  
Directives Branch, OASD  
(Comptroller).

### CHAPTER VII—DEPARTMENT OF THE AIR FORCE

#### SUBCHAPTER A—ADMINISTRATION PART 806a—RELEASING INFORMATION FROM AND PROVIDING ACCESS TO MILITARY PERSONNEL RECORDS

##### Consolidated Base Personnel Office Level

This revision authorizes release of routine information at the Consolidated Base Personnel Office level. Procedures are established for release/withholding of information by Consolidated Base Personnel Offices servicing tenant members, and reply to burdensome requests. Lists additional references to other publications pertaining to release of information affecting Air Force personnel. Restrictions on release of lists or compilations of personnel data and personal data without member's written consent. Air Force directives referenced throughout this part have been corrected to reflect the correct nomenclatures.

Part 806a, Subchapter A of Chapter VII of Title 32 of the Code of Federal Regulations is amended as follows:

1. Section 806a.0 is revised to read as follows:

#### § 806a.0 Purpose.

(a) This part outlines procedures for releasing information from, and providing access to, the military personnel records of present and former members of

the Air Force, in accordance with title 5, United States Code, section 552. It applies to all custodians of military personnel records as well as to custodians of personnel data contained or developed within the personnel data systems.

(b) Part 806 of this chapter states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the material referenced herein.

2. Section 806a.1 is amended by revising paragraph (b) to read as follows:

#### § 806a.1 Policy.

(a) \* \* \*

(b) This basic policy is subject to the exception that normally records containing information from military personnel records or personnel data systems are not required to be made routinely available to the public. Such information may be released when the disclosure would not result in a clearly unwarranted invasion of the personal privacy of the individual who is the subject of the record or release has been authorized in writing by the member.

3. Section 806a.2 is revised to read as follows:

#### § 806a.2 Authority.

(a) *Authorization to disclose information.* The following disclosure authorities are responsible for the disclosure of information from or access to military personnel records:

(1) Chiefs of Offices at directorate or higher level within Headquarters, USAF, including but not below chiefs of offices designated as custodians of records or documentary material thereat.

(2) Commanders and their representatives at major command or comparable level, including but no lower than installation, wing or comparable commanders and the Consolidated Base Personnel Office (CBPO) chiefs. Release of information and documentary material at CBPO level must be of a routine nature and in accordance with this part.

EXAMPLES: Officer effectiveness reports (OER), airman performance reports (APR), training reports, locator data, photographs, unclassified publications, etc., not designated "For Official Use Only."

(3) Anyone having the authority to disclose information or provide access thereto, is called a disclosure authority.

(b) *Authority to withhold information.* (1) Only a disclosure authority at a major command or comparable level, or at directorate or higher level within Headquarters USAF is authorized to refuse to make available military personnel records or information therefrom to the public. This authority may not be delegated except to the principal deputy, vice commander, or chief of staff at the level indicated in this subparagraph.

(2) Commands of CBPO's servicing tenant members will withhold release of information according to this part; however, requests for information that

appear unique to a tenant member's command of assignment will be forwarded to that command for action.

4. Section 806a.3 is amended: By deleting subparagraph (1) of paragraph (a) and redesignating subparagraphs (2) and (3) of paragraph (a) as (1) and (2), respectively; and, by adding a new subparagraph (3) to paragraph (c) to read as follows:

#### § 806a.3 Responsibility.

(c) \* \* \*

(3) When the information exists in the form of several records at several locations, the requester should be referred to those sources if gathering the information would be burdensome.

5. Section 806a.4 is revised to read as follows:

#### § 806a.4 Release of information.

To insure a uniform policy on release of information from military personnel records, the custodian:

(a) Refers to § 806a.6 for guidance.

(b) Refers to Part 813 or Part 812 of this chapter for the prescribed schedule of fees to be charged for copying, certifying and searching records.

(c) Refers to one of the following publications for policies pertaining to release of specific items of information from military personnel records if the request involves information not identified in § 806a.6, or is a combination of listed and unlisted data.

(1) Information or copies of military personnel records to Members of Congress or congressional committees—AFR 11-7.

(2) Information to the General Accounting Office or concerning General Accounting audit of program information—AFR 11-8.

(3) Central base locator data—AFR 11-24.

(4) Unusual, controversial, or doubtful requests, refer to Part 806 or USAFMPC/DPMDR, Randolph Air Force Base, Tex. 78148.

(5) Marking, protecting, and handling "For Official Use Only" information—AFR 12-31.

(6) A member, former member, or authorized representative (AFM 35-14, formerly AFM's 35-9 and 35-12) who desires to:

NOTE: If an OSI investigative report or similar report of any other investigative agency has been misfiled within the military personnel record, withdraw and dispose of in accordance with AFR 124-4 and AFR 205-1.

(i) Review subject records in person, refer the individual to the appropriate records custodian/office for scheduling of an appointment.

(ii) Verify his military service through correspondence or request for copies of his records.

(7) Paternity complaint—Part 841 of this chapter.

(8) Information from military personnel records for litigation—Part 840 of this chapter.

## RULES AND REGULATIONS

(9) Unclassified record of a trial by Court-Martial—AFR 111-2.

(10) Office of Special Investigation (OSI) reports or similar reports of other governmental investigative agencies—AFR 124-4.

(11) Medical records—AFM 168-4. (Refer to appropriate director of medical services.)

(12) Commercial opinion, advertising campaign, or statistical survey sponsored or supported by the Air Force, refer to the authority specified by the Air Force. (If not sponsored or supported by the Air Force, refuse according to § 806a.3(d) and AFR 171-2.)

(13) Department of the Air Force information proposed for public release by the Air Force or its personnel, and writing for publication by Air Force personnel—AFR 190-12.

(14) Classified information—AFR 205-1.

(15) For release of information to any organization listed on the current DD Form 98, "Armed Forces Security Questionnaire," or to a country listed in § 806a.6, AFR 205-32, or if the inquiry is suspected of being requested for use in a smear campaign or for other ulterior motives, refer to HQ USAF/OSI, Forrestal Building, Washington, D.C. 20330.

(16) Personal solicitation, including commercial and insurance—AFR 211-16.

(17) Any foreign national (including a grave adoption committee) caring for the grave of a deceased Air Force member

interred in an overseas military cemetery, refer to USAFMPC/DPMDR, Randolph Air Force Base, Tex. 78148.

(18) Casualties, missing or captured personnel, refer to USAFMPC/DPMSC, Randolph Air Force Base, Tex. 78148.

(19) Warning. (i) Do not provide identity of selection board members, under any circumstances.

(ii) Releasing rosters or similar multi-listings of names to nongovernmental requesters with or without additional data is prohibited.

(20) Service member under 21 years of age in serious trouble. Release of information to immediate family member of all circumstances, incident(s) and proposed action to be taken on a service member under 21 years of age in serious trouble may be furnished without consent of the service member—rule 18, § 806a.6 and AFR 110-1.

#### § 806a.5 [Amended]

6. Section 806a.5 is amended by changing the reference to "paragraph (b) of § 806a.4" to read "paragraph (c) of § 806a.4".

7. Section 806a.6 is amended by revising column A of rule 14 to read as follows; and by changing, under rule 16, column A the reference "§ 806a.4(d)" to read "§ 806a.3(d)"; and by adding a new rule 18 to read as follows:

#### § 806a.6 Guidance Table—Release of Information.

	Yes	No	Yes	No	Yes	No
14. Any source, including credit agencies, requesting the current military address of an Air Force member or home address of a former member (§ 806a.4(b) and (c)).	..	..	..	..	..	..
15. The most immediate family member (spouse, father, mother, guardian, paternal parent/grand parent or next of kin) of a service member under 21 years of age in serious trouble.	..	..	..	..	..	..

8. A new § 806a.7 is added to read as follows:

#### § 806a.7 Preservation of personal privacy of Air Force members.

The following conditions take precedence over other provisions of this part.

(a) Unauthorized release to private organizations or individuals of personal information from personnel, medical, or similar files without the written consent of the individual concerned will be considered a clearly unwarranted invasion of his personal privacy within the meaning of section 552(b)(6) of title 5, United States Code. The written consent of the individuals concerned normally must be obtained prior to any such release of personal information to a nongovernment agency.

(b) Members of the Armed Forces and civilian employees may not release nor otherwise provide the following kinds of information to nongovernment organizations or individuals, whether commercial, nonprofit, or other, without previously obtaining the written consent

of the individuals concerned.

(1) Lists or compilations containing the names and addresses of Air Force servicemen, servicewomen, former servicemen or former servicewomen;

(2) Data from medical records, except as prescribed in AFM 168-4;

(3) Aptitude test scores;

(4) Identification of the individual member's occupational specialty for other than authorized publicity; and

(5) Similar information of a personal nature.

(c) Development of procedures to obtain authorized releases should be limited by the costs and resources involved in establishing and executing them, weighted against the anticipated benefits to the members or former members of the Armed Forces, or to the national interest. Benefits may include such actions as assistance to separating service members in accomplishing the transition to civilian life; other promotion of the welfare of Department of Defense military or civilian personnel; scholarly research

and other effects by nongovernmental agencies to further the national interest.

(5 U.S.C. 552 and 10 U.S.C. 8012)

By order of the Secretary of the Air Force.

JOHN W. FAHRNEY,  
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

[FR Doc.73-5016 Filed 3-14-73; 8:45 am]

#### Title 36—Parks, Forests, and Memorials

##### CHAPTER II—FOREST SERVICE, DEPARTMENT OF AGRICULTURE

#### PART 291—OCCUPANCY AND USE OF DEVELOPED SITES AND AREAS OF CONCENTRATED PUBLIC USE

##### Redesignation of Existing Regulations

##### Correction

In FR Doc. 73-3703 appearing at page 5851 of the issue of Monday, March 5, 1973, § 291.3 *Applicability and scope* was inadvertently omitted. This § 291.3 reads as follows:

#### § 291.3 Applicability and scope.

(a) The regulations in §§ 291.2 through 291.8 prescribe the proper use, management, government, and protection of, and maintenance of good order in, the sites and areas to which they apply on lands of the United States within the National Forest System.

(b) The regulations in §§ 291.2 through 291.8 apply to all persons entering, using, or visiting developed recreation sites or posted areas of concentrated public recreation use. A map delineating the boundaries of the areas of concentrated public recreation use shall be posted by the Forest Supervisor at each such area in such a manner as will reasonably bring them to the attention of the public.

#### Title 39—Postal Service

##### CHAPTER I—U.S. POSTAL SERVICE

#### PART 122—ADDRESSES

##### Postage to Overlap Mailing Labels on Parcels

Part 122 is amended to add a new paragraph providing that postage on parcels be affixed so as to overlap mailing labels. This new provision is intended to prevent thieves from diverting parcels by attaching new address labels.

These procedures took effect on January 3, 1973.

Accordingly, § 122.2 is amended by the addition of paragraph (d) to read as follows:

#### § 122.2 Arrangement of address.

(d) Parcels which bear address labels shall have the regular or postage meter stamps affixed by accepting postal employees so that the stamps overlap the upper right corner, as shown in the following illustration.

Postmasters should seek the cooperation of business mailers by asking them to affix postage in this manner. Parcels bearing address labels covering any portion of the postage or showing other significant evidence of overlabeling shall be withheld from dispatch or delivery and must be immediately reported to the nearest postal inspector or postal inspector in charge.

(39 U.S.C. 401, 404)

ROGER P. CRAIG,  
Deputy General Counsel.

MARCH 8, 1973.

[FR Doc.73-4895 Filed 3-14-73; 8:45 am]

#### Title 49—Transportation

##### SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

(OST Docket No. 32)

#### PART 85—CARGO SECURITY ADVISORY STANDARDS

By notice of proposed rule making (Docket 32; Notice 72-3) in the FEDERAL REGISTER of November 30, 1972 (37 FR 25401), the Department of Transportation proposed establishment of a program for the issuance of Cargo Security Advisory Standards. The Department would serve as a clearinghouse and coordinator of the knowledge that exists within the public, industry, and Government of the best methods available to combat cargo theft. In specific areas related to the security of cargo from theft, after consultation with the public, industry, and Government, the Department would issue advisory standards.

It is the view of the Department that the advisory standards will complement rather than dilute existing programs. Before promulgation, they will be coordinated sufficiently to preclude conflicting with procedures required by other regulatory agencies.

4. Consolidated Freightways, claiming to be the largest trucking company in the United States, commented that the advisory standards would not recognize the geographical variance in the problems of protecting cargo; that those carriers having inadequate physical and procedural security are in the minority; and that emphasis should be placed on apprehension rather than prevention.

First, the language of the advisory standards will indicate that considerable latitude is expected in their application based on all factors affecting the security of cargo in any location. Second, the majority of theft-related losses by carriers is being reported in the "shortage" category, indicating a significant lack of effective accountability procedures among carriers. Finally, while the Department recognizes the importance

## RULES AND REGULATIONS

A discussion of the substantive comments and the Department's responses thereto follows:

1. A number of commentators requested that the procedural regulations be amended to provide that parties so requesting be given copies of each advisory standard at the time that it is published in the FEDERAL REGISTER. The limited resources of the Department do not permit the expenditure of time and money which would be required were this request adopted. Congress created the FEDERAL REGISTER to obviate personally serving documents on all interested persons, and such persons should consult the FEDERAL REGISTER regularly.

2. A number of commentators requested that the procedural regulations be amended to state that they do not grant authority administratively to change the standards from advisory to mandatory. Language to this effect is unnecessary because—

a. The regulations (§ 85.1) already make clear that the standards are advisory only.

b. The Department of Transportation lacks authority to prescribe mandatory standards; the grant of such authority requires an Act of Congress and cannot be accomplished administratively.

3. The New York Terminal Conference, consisting of most companies operating marine terminals in the Port of Greater New York and vicinity, commented that there is a proliferation of regulatory agencies involved in cargo security programs. Consequently the industry has experienced difficulties understanding and coordinating the efforts of each. Addition of another agency will inevitably lead to overlapping and duplication of functions, thereby diluting the benefit of existing programs. Similar views were expressed by the Far East Conference, consisting of common carriers by water in foreign commerce from and to the United States.

It is the view of the Department that the advisory standards will complement rather than dilute existing programs. Before promulgation, they will be coordinated sufficiently to preclude conflicting with procedures required by other regulatory agencies.

4. Consolidated Freightways, claiming to be the largest trucking company in the United States, commented that the advisory standards would not recognize the geographical variance in the problems of protecting cargo; that those carriers having inadequate physical and procedural security are in the minority; and that emphasis should be placed on apprehension rather than prevention.

First, the language of the advisory standards will indicate that considerable latitude is expected in their application based on all factors affecting the security of cargo in any location. Second, the majority of theft-related losses by carriers is being reported in the "shortage" category, indicating a significant lack of effective accountability procedures among carriers. Finally, while the Department recognizes the importance

of apprehension of criminals, it also strongly believes that theft prevention should receive prominent attention.

5. The Association of American Railroads raised eight points. Those points and the Department's responses are as follows:

a. AAR takes issues with the charge, if such was intended, that the railroads are unconcerned about the problem of cargo security.

"Some carriers, shippers, and consignees have acted to protect the goods in their care; many others, however, are still careless or unconcerned." This statement from the NPRM, quoted by AAR in its comments, does not charge all railroads with unconcern; neither does it exclude all.

b. The figures in the table included in the notice of proposed rule making (NPRM) grossly overstate railroad industry losses.

Whether the figures in the table in the NPRM are completely accurate is irrelevant, since AAR agrees with the Department that, in AAR's language, "• • • cargo security for the railroads is a serious problem."

c. and d. Advisory standards are likely to be misleading to the uninformed; a substantial segment of the shipping and receiving public would regard the standards as mandatory, leading to disputes, controversy, and, perhaps, ill will. Practical, if not legal, relationships could be affected. Further, AAR strongly urges that advisory standards not be published in the Code of Federal Regulations because such a format gives them an aura of apparent compulsion that would tend to deceive.

At every opportunity the Department will emphasize the advisory nature of the standards. The language of each standard will make it clear to the reasonable reader that the standard is not mandatory and that considerable latitude in application is anticipated.

e. There is neither need nor justification for advisory standards; the cargo security problem would not be alleviated by their issuance.

The Department disagrees that the cargo security problem will not be alleviated by the issuance of Cargo Security Advisory Standards; rather, the Department believes that publication of sound, professional, informational material cannot but further the objective of increasing the security of cargo.

f. The subjects listed in the NPRM for consideration as advisory standards (procedures relating to packaging, storage, accountability, communications, and vehicle control) are all matters better left to the carriers and the users of their services to work out, taking into account individual circumstances, resources, priorities, cost effectiveness, projected results, and modal aspects. They are matters for managerial judgment and decision, not for governmental fiat.

Considering that any compliance with the advisory standards must be voluntary, managerial judgment and decision will be exercised in every application of

## RULES AND REGULATIONS

them. It is expected that an organization applying an advisory standard will consider such of those factors enunciated by AAR as are appropriate to its circumstances.

g. The NPRM complains of widespread disparities in the cargo security efforts of the transportation industry. This assumes the virtue of uniformity which AAR feels is not necessarily desirable and may actually be undesirable.

As used in the NPRM, the term "widespread disparities" was meant to apply to the degree of application of preventive measures by the industry, rather than to the methods of application. The Department does not support uniformity of methodology, but does believe that a given level of threat should be met by all concerned with a corresponding level of preventive security.

h. The procedural regulations should be amended to provide reasonable standards to guide exercise of the discretion to be conferred upon the Department's Director of Transportation Security, who will issue the advisory standards. The Director should establish, as a condition to its issuance, that an advisory standard is cost effective (positive cost/benefit ratio), considering the inherent differences among the various modes of transportation and the geographical areas within which their operations are conducted.

In its comments AAR has set forth most, if not all, of the various factors which may affect the practical application of advisory standards. For those very reasons, no statistical cost/benefit analysis can be broadly applied to a single preventive measure recommended by the Department. The Department will issue only those advisory standards which, in its best judgment, are prudent and reasonable.

Since this amendment relates to Departmental procedures, it may be made effective in less than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, Title 49, Code of Federal Regulations, is amended, effective March 12, 1973, by adding a new Part 85, as follows:

## Subpart A—General

- 85.1 Applicability.
- 85.3 Initiation of advisory standard setting.
- 85.5 Participation by interested persons.
- 85.7 Docket.

## Subpart B—Petitions for Advisory Standard Setting

- 85.11 Filing of petitions.
- 85.13 Processing of petitions.

## Subpart C—Procedures

- 85.21 General.
- 85.23 Contents of notices.
- 85.25 Petitions for extension of time to comment.
- 85.27 Consideration of comments received.
- 85.29 Additional advisory standard setting proceedings.
- 85.31 Hearings.
- 85.33 Adoption of final advisory standards.

**AUTHORITY:** Section 9(e) (1), 80 Stat. 944; 49 U.S.C. 1657(e) (1).

## Subpart A—General

## § 85.1 Applicability.

(a) This part prescribes the procedures for the development and promulgation of Cargo Security Advisory Standards. These advisory standards are suggested procedures and policies intended to assist all parts of the transportation industry in reducing the incidence of loss and theft of cargo entrusted to their care. The advisory standards are not mandatory, and nothing in them replaces or modifies any statutory requirement or any regulatory authority vested in any Federal, State, or local governmental body.

(b) As used herein—  
"Advisory standard" means a Cargo Security Advisory Standard issued under this part;

"Director" means the Director of Transportation Security, Office of the Secretary, U.S. Department of Transportation.

"Secretary" means the Secretary of Transportation.

## § 85.3 Initiation of advisory standard setting.

The Director, for the Secretary, may initiate advisory standard setting on his own motion. He may also, in his discretion, consider the recommendations of other agencies of the United States, of State and local government, of any part of the transportation industry, and of any other interested person.

## § 85.5 Participation by interested persons.

Any person may participate in advisory standard setting proceedings by submitting written information or views. The Director may also allow any person to participate in additional advisory standard setting proceedings, such as informal appearances or hearings, held with respect to any advisory standard.

## § 85.7 Docket.

(a) Records of the Office of the Secretary concerning advisory standard setting actions, including notices of proposed advisory standard setting, comments received in response to those notices, petitions for advisory standard setting, petitions for rehearing or reconsideration, denials of petitions for advisory standard setting, and final advisory standards are maintained in current docket form in the Office of the General Counsel of the Department of Transportation.

(b) Any person may examine any docketed material at that Office and may obtain a copy of any docketed material upon payment of the prescribed fee.

## Subpart B—Petitions for Advisory Standard Setting

## § 85.11 Filing of petitions.

(a) Any person may petition the Director to issue, amend, or repeal an advisory standard.

(b) Each petition filed under this section must—

(1) Be submitted in duplicate to the Docket Clerk, Office of the General Counsel, Department of Transportation, Washington, D.C. 20590;

(2) Set forth the text or substance of the advisory standard or amendment proposed, or specify the advisory standard that the petitioner seeks to have repealed, as the case may be;

(3) Explain the interest of the petitioner in the action requested; and

(4) Contain any information and arguments available to the petitioner to support the action sought.

## § 85.13 Processing of petitions.

(a) *General.* No proceeding is held directly on a petition before its disposition under this section.

(b) *Grants.* If the Director determines that the petition contains adequate justification, he initiates advisory standard setting action under Subpart C of this part.

(c) *Denials.* If the Director determines that the petition does not justify initiating advisory standard setting, he denies the petition.

(d) *Notification.* Whenever the Director determines that a petition should be granted or denied, he and the Office of the General Counsel prepare a notice of that grant or denial for issuance to the petitioner, and the Director issues it to the petitioner.

## Subpart C—Procedures

## § 85.21 General.

(a) A notice of proposed advisory standard setting is issued and interested persons are invited to participate in the advisory standard setting proceedings with respect to each advisory standard.

(b) In his discretion, the Director may invite interested persons to participate in the advisory standard setting proceedings described in § 85.29.

## § 85.23 Contents of notices.

(a) Each notice of proposed advisory standard setting is published in the FEDERAL REGISTER.

(b) Each notice includes—

(1) A statement of the time, place, and nature of the proposed advisory standard setting proceeding;

(2) A reference to the authority under which it is issued;

(3) A description of the subjects or issues involved or the substance or terms of the proposed advisory standard;

(4) A statement of the time within which written comments must be submitted and the required number of copies; and

(5) A statement of how and to what extent interested persons may participate in the proceedings.

## § 85.25 Petitions for extension of time to comment.

(a) Any person may petition the Director for an extension of time to submit comments in response to a notice of proposed advisory standard setting. The petition must be submitted in duplicate not later than 10 days before expiration

of the time stated in the notice. The filing of the petition does not automatically extend the time for petitioner's comments.

(b) The Director grants the petition only if the petitioner shows a substantive interest in the proposed advisory standard and good cause for the extension, and if the extension is in the public interest. If an extension is granted, it is granted as to all persons and is published in the FEDERAL REGISTER.

## § 85.27 Consideration of comments received.

All timely comments are considered before final action is taken on an advisory standard setting proposal. Late filed comments may be considered so far as possible without incurring additional expense or delay.

## § 85.29 Additional advisory standard setting proceedings.

The Director may initiate any further advisory standard setting proceedings that he finds necessary or desirable. The Director may also invite interested persons to present oral arguments, participate in conferences, appear at informal hearings, or participate in any other proceedings.

## § 85.31 Hearings.

(a) Sections 556 and 557 of title 5, United States Code, do not apply to hearings held under this part. As a fact-finding proceeding, each hearing is non-adversary and there are not any formal pleadings or adverse parties. The record in a proceeding may include matters other than those presented at the hearing. An advisory standard issued will be based exclusively on the record in the proceeding.

(b) The Director designates a representative to conduct any hearing held under this part. The General Counsel designates a member of his staff to serve as legal officer at the hearing.

## § 85.33 Adoption of final advisory standards.

Final advisory standards are prepared by the Director and the Office of the General Counsel. If the Director adopts an advisory standard, it is published in the FEDERAL REGISTER.

Issued in Washington, D.C. on March 7, 1973.

CLAUDE S. BRINEGAR,  
Secretary of Transportation.

## CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Dockets Nos. 71-23, 1-S; Notices 3, 10]

## PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

**New and Retreaded Pneumatic Tires; Minimum Size for Permanent Labeling**  
This notice amends Motor Vehicle Safety Standards Nos. 109 and 117 (49

## RULES AND REGULATIONS

6999

CFR 571.109) to reduce the minimum size of permanent safety labeling to 0.078 inch. Motor Vehicle Safety Standard No. 109, "New Pneumatic Tires," was amended November 4, 1972 (37 FR 23536), to specify both a location on the tire sidewall for safety labeling and a labeling size of not less than three thirty-seconds of an inch. Motor Vehicle Safety Standard No. 117, "Retreaded Pneumatic Tires," was amended March 23, 1972 (37 FR 5950), to specify permanent labeling of the same minimum size.

The Michelin Tire Co. has protested that the 3/32 inch minimum size is inconsistent with the existing practice of European tire manufacturers of labeling tires in letters having a size of 0.078 inches (2 mm.). It has pointed out that as a consequence of the amendment European tire manufacturers will have to increase the size of all existing labeling. The NHTSA has concluded that the difference between letters 0.078 inches in size and those of 0.093 inches is not significant, and does not justify the resultant expense to manufacturers of modifying tire molds. By this notice the NHTSA therefore reduces the minimum size to 0.078 inches for labeling required by § 4.3 of Standard No. 109.

Because the permanent labeling provisions of Standard No. 117 are intended to be ultimately met with new tire labeling, the size requirements for permanent labeling in that standard are also modified.

In light of the above, Motor Vehicle Safety Standard No. 109, 49 CFR 571.109, and Motor Vehicle Safety Standard No. 117, 49 CFR 571.117, are amended as follows:

1. Paragraph § 4.3 of Standard No. 109, 49 CFR 571.109, is amended to read:

§ 4.3 *Labeling requirements.* Except as provided in § 4.3.1 and § 4.3.2, each tire shall have permanently molded into or onto both sidewalls, in letters and numerals not less than 0.078 inches high, the information shown below in (a) through (g) . . . .

2. Paragraph § 6.3.2 of Standard No. 117, 49 CFR 571.117, is amended to read:

§ 6.3.2 Each retreaded pneumatic tire manufactured on or after February 1, 1974, shall be permanently labeled in at least one location on the completed retreaded tire, in letters and not less than 0.078 inches high, that are molded into or onto the tire sidewall, with the following information:

Effective dates: July 1, 1973, for the amendment to § 4.3 of 49 CFR 571.109; February 1, 1974, for the amendment to § 6.3.2 of 49 CFR 571.117. These amendments relieve an unnecessary restriction without a significant effect on motor vehicle safety. Consequently, it is found for good cause that notice and public procedure thereon are unnecessary, and that an effective date less than 180 days from the day of issuance is in the public interest.

(Secs. 103, 112, 113, 114, 119, 201, Public Law 89-563, 80 Stat. 718, 15 U.S.C. 1392, 1401, 1402, 1403, 1407, 1421; delegations of authority at 49 CFR 1.51)

Issued on March 8, 1973.

JAMES E. WILSON,  
Acting Administrator.

## CHAPTER X—INTERSTATE COMMERCE COMMISSION

## SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1126]

## PART 1033—CAR SERVICE

## Baltimore and Ohio Railroad Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the ninth day of March 1973.

It appearing, that a portion of the tracks of the Penn Central Transportation Co., George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees (PC) located in Columbus, Ohio, and used by the Baltimore and Ohio Railroad Co. (B&O) as a portion of its main-line trackage in Columbus is inoperative because of track conditions; that the B&O and the PC have agreed upon an alternate route via other PC tracks through Columbus to be used by the B&O; that operation by the B&O over the aforementioned PC tracks is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than 30 days' notice.

It is ordered, That:

## § 1033.1126 Service Order No. 1126.

(a) *The Baltimore and Ohio Railroad Co. authorized to operate over tracks of Penn Central Transportation Co., George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees.* The Baltimore and Ohio Railroad Co. (B&O) be, and it is hereby, authorized to operate over tracks of the Penn Central, George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees (PC), between GN tower and a point just east of Fourth Street, on the so-called "Little Miami and PB&W Route" of the PC, a distance of approximately 2.19 miles, all located in Columbus, Ohio.

(b) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(c) *Rates applicable.* Inasmuch as this operation by the B&O over trucks of the PC is deemed to be due to carrier's disability, the rates applicable to traffic moved by the B&O over these tracks of the PC shall be the rates which were applicable on the shipments at the time of shipment as originally routed.

(d) *Effective date.* This order shall become effective at 11:59 p.m., March 9, 1973.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., August 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies secs. 1(10-17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2).)

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc. 73-5043 Filed 3-14-73; 8:45 am]

#### Title 50—Wildlife and Fisheries

### CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

#### PART 33—SPORT FISHING

##### Certain Wildlife Refuges in California

The following special regulations are issued and are effective March 15, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

*General conditions.* Fishing shall be in accordance with applicable State regulations. Portions of refuges which are open to fishing are designated by signs and/or delineated on maps. The maps are available at the respective refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 3737, Portland, OR 97208.

Columbia National Wildlife Refuge—(Headquarters: Sacramento National Wildlife Refuge, Route 1, Box 311, Willows, CA 95988).

*Special Conditions:* (1) The taking of frogs is permitted except that the refuge is closed to sport fishing and the taking of frogs during the migratory waterfowl hunting season.

(2) The use of boats without motors is permitted for fishing and the taking of frogs.

Delevan National Wildlife Refuge—(Headquarters: Sacramento National Wildlife Refuge, Route 1, Box 311, Willows, CA 95988).

*Special Conditions:* (1) The taking of frogs is permitted except that the refuge is closed to sport fishing and the taking of frogs during the migratory waterfowl hunting season.

(2) The use of boats without motors is permitted for fishing and the taking of frogs.

Modoc National Wildlife Refuge—(Headquarters: Sheldon-Hart-Modoc National Antelope Refuges, Post Office Box 111, Lakeview, OR 97630).

*Special Conditions:* (1) Fishing will be permitted in designated areas only during the migratory waterfowl hunting season.

(2) The taking of frogs on refuge lands is prohibited except by special permit obtainable at refuge headquarters, Alturas, Calif.

Sacramento National Wildlife Refuge, Route 1, Box 311, Willows, CA 95988.

*Special Conditions:* (1) The taking of frogs is permitted except that the refuge is closed to sport fishing and the taking of frogs during the migratory waterfowl hunting season.

(2) The use of boats without motors is permitted for fishing and the taking of frogs.

San Luis National Wildlife, 535 J Street, Los Banos, CA 93635.

*Special Conditions:* (1) Fishing permitted from sunrise to 1 hour after sunset.

(2) The refuge is closed to sport fishing during the migratory waterfowl hunting season.

(3) Use of boats is prohibited.

Salton Sea National Wildlife Refuge, Post Office Box 247, Calipatria, CA 92233.

*Special Condition:* (1) Fishing is permitted in that portion of the refuge which is inundated by the Salton Sea.

The provisions of these special regulations supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

L. EDWARD PERRY,  
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

MARCH 8, 1973.

[FR Doc. 73-5019 Filed 3-14-73; 8:45 am]

#### PART 33—SPORT FISHING

##### Certain Wildlife Refuges in Idaho

The following special regulations are issued and are effective on March 15, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

*General conditions.* Fishing shall be in accordance with applicable State regulations except for special conditions listed.

All areas open to fishing are designated by signs and delineated on maps available at the respective refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 3737, Portland, OR 97208.

Deer Flat National Wildlife Refuge, Route 1, Box 1457, Nampa, ID 83651. Sport fishing is permitted on the entire refuge year-round except as stipulated under special conditions.

*Special conditions:* (1) Fishing is not permitted on the public hunting area during the migratory waterfowl hunting season.

(2) Boats with motors may be used during daylight hours only (interpreted here to be 1 hour before sunrise to 1 hour after sunset) from April 15 through September 30, 1973.

(3) Shoreline fishing is prohibited on the islands of the Snake River sector from February 1 to May 31.

Kootenai National Wildlife Refuge, Star Route No. 1, Box 88, Bonners Ferry, ID 83805.

Sport fishing is permitted on portions of Kootenai River, Deep Creek, and Myrtle Creek within the refuge.

Minidoka National Wildlife Refuge, Route 4, Rupert, Idaho 83350.

Sport fishing is permitted on the entire refuge year-round except as stipulated under special conditions.

*Special conditions:* (1) Shoreline fishing shall be permitted on the entire refuge year around.

(2) Boat fishing is permitted on the main reservoir from Minidoka Dam to the west end of Bird Island, April 1 through September 30, 1973, and from Smith Springs to the east end of the refuge October 1 through June 30, 1973, during daylight hours only.

(3) Boat crossing lanes at Smith and Gifford Springs' open year around.

The provisions of these special regulations supplement the regulations which govern fishing on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

L. EDWARD PERRY,  
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

MARCH 7, 1973.

[FR Doc. 73-4999 Filed 3-14-73; 8:45 am]

#### PART 33—SPORT FISHING

##### Certain Wildlife Refuges in Oregon and California

The following special regulations are issued and are effective on March 15, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

*General conditions.* Fishing shall be in accordance with applicable State regulations and special conditions listed. Portions of refuges which are open to fishing are designated by signs and/or delineated on maps. The maps are available at the respective refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 3737, Portland, OR 97208.

Ankeny National Wildlife Refuge—(Headquarters: William L. Finley National Wildlife Refuge, Route 2, Box 208, Corvallis, OR 97330).

*Special conditions:* (1) The use of boats is not permitted.

(2) During the open season, fishing shall be permitted each day from 1 hour before sunrise to 1 hour after sunset. Use of artificial lights will not be permitted.

Hart Mountain National Antelope Refuge—(Headquarters: Sheldon-Hart Mountain National Antelope Refuges, Post Office Box 111, Lakeview, OR 97630).

Klamath Forest National Wildlife Refuge—(Headquarters: Tule Lake National Wildlife Refuge, Route 1, Box 74, Tulelake, CA 96134).

*Special condition:* (1) Use of boats is not permitted.

Malheur National Wildlife Refuge, Post Office Box 113, Burns, OR 97720.

*Special conditions:* (1) Refuge waters, with the exception of Krumbo Reservoir, are closed to the use of boats for fishing purposes.

(2) The use of motors on boats is not permitted on Krumbo Reservoir.

Upper Klamath National Wildlife Refuge—(Headquarters: Klamath Basin National Wildlife Refuges, Route 1, Box 74, Tulelake, CA 96134).

*Special condition:* (1) Speedboats shall not exceed 10 miles per hour in any stream, creek, or canal, and that portion of Pelican Bay west of a line beginning at a point on the north shore of Pelican Bay one-fourth mile east of Crystal Creek and extending due south to opposite shore of the lake.

William L. Finley National Wildlife Refuge, Route 2, Box 208, Corvallis, OR 97330.

*Special conditions:* (1) Use of boats is not permitted.

(2) During the open season, fishing shall be permitted each day from 1 hour before sunrise to 1 hour after sunset. Use of artificial lights will not be permitted.

Cold Springs National Wildlife Refuge—(Headquarters: Umatilla National Wildlife Refuge, Post Office Box 239, Umatilla, OR 97882).

*Special conditions:* (1) The refuge is closed to sport fishing during the migratory waterfowl hunting season.

(2) Boats without motors may be used for purpose of fishing.

McKay Creek National Wildlife Refuge—(Headquarters: Umatilla National Wildlife Refuge, Post Office Box 239, Umatilla, OR 97882).

*Special condition:* (1) The refuge is closed to sport fishing during the migratory waterfowl hunting season.

The provisions of these special regulations supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

L. EDWARD PERRY,  
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

MARCH 8, 1973.

[FR Doc. 73-5001 Filed 3-14-73; 8:45 am]

#### PART 33—SPORT FISHING

##### Certain Wildlife Refuges in Washington

The following special regulation is issued and is effective on March 15, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

*General conditions.* Fishing shall be in accordance with applicable State regulations. Portions of the refuge which are open to fishing are designated by signs and/or delineated on maps. The maps are available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 3737, Portland, OR 97208.

McNary National Wildlife Refuge, Post Office Box 19, Burbank, WA 99323.

*Special conditions:* (1) The refuge is closed to sport fishing during the migratory waterfowl hunting season.

(2) The use of boats or floating devices of any description is prohibited.

Columbia National Wildlife Refuge, Post Office Drawer F, Othello, WA 99344.

*Special conditions:* (1) Mallard Lake, Migraine Lake, Seabrook Lake, Royal Lake, Crab Creek, Marsh Management Units I and III are open April 15 through August 15, 1973.

(2) The use of boats and the use of outboard motors are prohibited on lakes so posted.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

L. EDWARD PERRY,  
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

MARCH 7, 1973.

[FR Doc. 73-5000 Filed 3-14-73; 8:45 am]

#### PART 33—SPORT FISHING

##### Horicon National Wildlife Refuge, Wis.

The following special regulation is issued and is effective on March 15, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

#### WISCONSIN

##### HORICON NATIONAL WILDLIFE REFUGE

Sport fishing on the Horicon National Wildlife Refuge, Mayville, Wis., is permitted only on the areas designated by signs as open to fishing. These open areas are delineated on maps available at refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from May 15, 1973, through September 15, 1973, inclusive.

(2) The use of boats is not permitted.

(3) Fishing during daylight hours only.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through September 15, 1973.

ROBERT G. PERSONIUS,

Refuge Manager, Horicon National Wildlife Refuge, Mayville, Wis.

MARCH 6, 1973.

[FR Doc. 73-5013 Filed 3-14-73; 8:45 am]

#### Title 21—Food and Drugs

### CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

#### ENVIRONMENTAL IMPACT STATEMENTS

##### Procedures for Preparation

In the FEDERAL REGISTER of July 12, 1972 (37 FR 13636), the Commissioner of Food and Drugs published proposed procedures for consideration of environmental impact factors pursuant to the National Environmental Policy Act of 1969 (Public Law 91-190; 83 Stat. 852 et seq.; 42 U.S.C. 4321-4347).

During the 60-day comment period, 15 comments were received on the proposal; from the Environmental Protection Agency, one college of agriculture, three trade associations, and regulated industries. The principal points raised and the Commissioner's conclusions are as follows:

A. *Applicability.* Seven comments questioned whether routine actions of the Food and Drug Administration, such as approval of new drug applications, new animal drug applications, antibiotic drug monographs, food additive petitions and color additive petitions constitute major actions significantly affecting the quality of the human environment which would require issuance of environmental impact statements. Two comments doubted that destruction of condemned, enjoined, detained, or recalled articles would ever amount to a major agency action requiring an environmental impact statement. Five comments proposed establishing categories of animal drugs which would be excluded from environmental impact consideration. The Commissioner concludes that the National Environmental Policy Act applies to the categories of agency action in § 6.1(b) and that FDA shall therefore consider the need for preparing environmental impact statements for them. No environmental impact statement will be issued if the agency action is not major or it does not significantly affect the quality of the human environment.

B. *Environmental impact analysis reports.* Five comments stated that the FDA has no authority to require new drug applications, new animal drug applications, food additive petitions and color additive petitions to include environ-

mental impact analysis reports, or to refuse to accept or file such an application or petition for failure to include such a report, or to reject such an application or petition for failure to include an adequate environmental impact analysis report. Seven comments objected that the filing of environmental impact analysis reports would cause lengthy delays in the processing of such applications and petitions. The Commissioner concludes that the National Environmental Policy Act, as interpreted by the courts, amends the Federal Food, Drug, and Cosmetic Act to the extent that it requires consideration of environmental issues in the review by the FDA of these applications and petitions, and that the FDA therefore has the authority to require submission of adequate environmental data as a criterion for accepting, filing, and approving them.

Five comments proposed that an applicant or a petitioner be required to file an environmental impact analysis report only when the FDA determines that a specific application or petition constitutes a major agency action significantly affecting the quality of the human environment. One comment suggested that submission of an environmental impact analysis report be required for destruction of condemned, enjoined, detained, or recalled articles only when the agency determines that destruction of an article constitutes a major FDA action significantly affecting the quality of the human environment. The Commissioner concludes that environmental impact analysis reports are necessary for all applications and petitions submitted to FDA and for all destructions of condemned, enjoined, detained, and recalled articles in order to provide sufficient environmental data and information to enable the agency to determine whether an environmental impact statement must be issued on the action involved. The amount and detail of the information provided in the environmental impact analysis report will be expected to vary depending upon the nature of the action involved.

Three comments proposed prompt notification to an applicant if its environmental impact analysis report is inadequate. Three comments also recommended that notice be afforded an applicant when the FDA deems the amendment to an existing regulation or the supplement to an existing approval is substantial enough to require submission of an environmental impact analysis report. Notice in both these instances will be given in accordance with existing regulations of the FDA providing that an applicant will be notified if its application is incomplete for filing.

**C. Trade secrets and confidential information.** Twelve comments expressed concern that submission of an environmental impact analysis report by an applicant or petitioner would necessitate disclosure of trade secrets and confidential information, particularly with respect to a description of the manufacturing process required in the report.

Seven comments proposed that applicants and petitioners have the opportunity to review environmental impact statements before they are made available to the public to prevent disclosure of trade secrets and confidential information by the statements. The Commissioner concludes that data and information which constitute trade secrets or confidential information under 21 CFR Part 4 should not be submitted in an environmental impact analysis report, although they are submitted as part of an application or petition itself. A new paragraph (h) is therefore added to § 6.1 to this effect. The FDA is not precluded from considering trade secrets or confidential information submitted by an applicant or petitioner in its environmental assessment of an application or petition. However, no trade secrets or confidential information submitted in the application or petition will be disclosed in an environmental impact statement circulated outside the Department.

**D. Time for consideration of environmental impact statements.** Nine comments proposed time limitations for the preparation and review of environmental impact statements for food additive petitions, new drug applications and new animal drug applications on the grounds that sections 409(c), 505(c), and 512(c) of the Federal Food, Drug, and Cosmetic Act require the agency to act on such applications and petitions within 180 days after filing. The Commissioner concludes that the National Environmental Policy Act, as interpreted by the courts, amends the Federal Food, Drug, and Cosmetic Act to the extent that it requires the FDA to give full consideration without restrictions of time to all environmental issues relevant to FDA approval of food additive petitions, new drugs and new animal drugs. Every effort will be made to stay within the statutory time periods and the regulations so provide.

**E. Alleged regulatory duplication.** Seven comments contended that the requirement to include a description of manufacturing processes in environmental impact analysis reports unnecessarily duplicates regulatory activity since the Environmental Protection Agency and various State and local authorities already administer air and water quality standards controlling the emission of pollutants. Two comments made an identical contention with respect to the requirement of environmental impact analysis reports for destruction of condemned, enjoined, detained, or recalled articles. The Commissioner finds that existing Federal, State, and local regulation of air and water pollution does not eliminate the independent statutory obligation of the FDA under NEPA to consider all relevant environmental factors in performing its regulatory activities. The Commissioner concludes that, to fulfill its responsibilities under the National Environmental Policy Act, the FDA must require the submission of environmental data and information on the discharge of pol-

lutants in the manufacture of any drug, food additive or color additive it reviews for marketing and in the destruction of all articles removed from the market as a result of legal action it initiates. Once a description of the pollutants expected to be discharged is included, a statement of other applicable Federal, State, and local requirements, and information showing that they are satisfied, will ordinarily be sufficient for this aspect of the environmental impact analysis report.

**F. Destruction of perishable articles.** One comment expressed concern that perishable articles condemned, enjoined, detained, or recalled might create an environmental and health hazard while awaiting environmental impact consideration prior to destruction. Section 6.3 (c) of the regulation permits immediate destruction of such articles without environmental impact statement consideration in order to protect the public health.

**G. Direct solicitation of comments from Federal agencies.** The Environmental Protection Agency proposed that comments on draft environmental impact statements be directly solicited from those Federal agencies concerned with the substance of the statements by reason of jurisdiction by law or special expertise to insure maximum input to the agency's environmental statement review process pursuant to the NEPA guidelines of the Council on Environmental Quality. The Commissioner concurs with this proposal, and provision for direct solicitation is therefore included in § 6.3(a) (3).

**H. Investigational new drugs.** The Environmental Protection Agency questioned the exemption afforded investigational new drugs from environmental impact statement consideration in § 6.1 (d) (5) of the proposal. Since an investigational new drug is not permitted to be commercially marketed, the Commissioner concludes that allowing limited investigation in most instances is not a major action and does not significantly affect the quality of the human environment. In those instances where an environmental impact statement may be required, the applicant will be so notified and § 6.1(d) (5) is amended to so provide.

**I. Additional changes.** In addition to the amendments adopted on the basis of comments received, the Commissioner concludes that additional amendments be made to the regulation, as follows:

1. All provisions of the proposal governing hazardous substances are deleted since jurisdiction for such substances is being transferred from FDA to the Consumer Product Safety Commission.

2. Sections 6.1(e) and 6.1(g) are amended to delete the provision requiring that an applicant in its environmental impact analysis report analyze whether the proposed action is a major Federal action significantly affecting the quality of the human environment. The National Environmental Policy Act requires the FDA to make this determination, and in any event an applicant may comment on this issue in an environ-

mental impact analysis report if he wishes to do so.

3. Section 6.3(b) of the proposal is amended to reflect the Commissioner's conclusion that environmental consideration of condemned, enjoined, or recalled articles and disposition of laboratory waste materials should be undertaken on a case-by-case basis and that the disposal methods considered be consistent with Federal, State, and local regulations to safeguard the human environment and the public health.

4. The provision for public hearings on final environmental impact statements in § 6.3(a) (6) is deleted from the final order since they are not required by NEPA or by the Council on Environmental Quality.

Therefore, having considered the comments received and other relevant material, the Commissioner concludes that the proposal, with changes, should be adopted as set forth below. Accordingly, pursuant to the National Environmental Policy Act of 1969 (sec. 102(2) (C), 83 Stat. 853; 42 U.S.C. 4332), and pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 409, 505, 507, 512, 701, 706, 52 Stat. 1052 as amended, 1055-1056 as amended by 70 Stat. 919 and 72 Stat. 948, 59 Stat. 468 as amended, 72 Stat. 1785-1788 as amended, 74 Stat. 399-404 as amended, 82 Stat. 343-351; 21 U.S.C. 348, 355, 357, 360b, 371, 376), and under authority delegated to the Commissioner (21 CFR 2.120), title 21, Chapter I is amended:

1. By adding a new Part 6 as follows:

#### PART 6—ENVIRONMENTAL IMPACT CONSIDERATIONS

- Sec.  
6.1 Applicability.  
6.2 Content and format of environmental impact statements.  
6.3 Preparation and review procedures.  
6.4 Responsible agency officials.  
6.5 Submission of comments to other agencies.  
6.6 Public availability of environmental impact statements.

**AUTHORITY:** Sec. 701, 52 Stat. 1055-56 as amended by 70 Stat. 919 and 72 Stat. 948, 21 U.S.C. 371; sec. 10, 74 Stat. 378, 15 U.S.C. 1269; sec. 102(2) (C), 83 Stat. 853, 42 U.S.C. 4332; the Guidelines issued by the Council on Environmental Quality (36 FR 7724); Executive Order 11514 of March 4, 1970 (35 FR 4247).

##### § 6.1 Applicability.

(a) (1) An environmental impact statement shall be prepared, circulated, and filed pursuant to section 102(2) (C) of the National Environmental Policy Act of 1969 for every major agency action that significantly affects the quality of the human environment.

(2) Agency decisions shall include a careful consideration of all environmental effects of proposed actions.

(b) The need for preparing an environmental impact statement shall be considered for the following agency actions pursuant to environmental criteria established by the agency and the department:

#### RULES AND REGULATIONS

(1) Recommendations or reports made to Congress on proposals for legislation in instances where the agency has primary responsibility for the subject matter involved;

(2) Destruction of articles condemned after seizure or enjoined;

(3) Destruction of articles following detention or recall at agency request;

(4) Disposition of Food and Drug Administration laboratory waste materials;

(5) Issuance of licenses for biological products;

(6) Establishment by regulation of labeling or other requirements for marketing articles;

(7) Establishment by regulation of standards for articles (except food standards);

(8) Approval of new drug and abbreviated new drug applications and old drug monographs;

(9) Approval of new animal drug and abbreviated new animal drug applications and old animal drug monographs;

(10) Approval of antibiotic drug monographs;

(11) Approval of food additive petitions;

(12) Approval of color additive petitions; and

(13) Policy, regulations, and procedure making which significantly affect the quality of the human environment.

(c) An environmental impact statement will not be required for amendments to existing regulations and approvals of supplements to existing approvals unless the change is substantial.

(d) The agency has carefully considered the environmental effects of the following types of actions and has concluded that since they are not major agency actions significantly affecting the quality of the human environment, environmental impact statements are not required for them:

(1) Recommendations for court action concerning foods, drugs, devices, cosmetics, and electronic products;

(2) Factory inspections;

(3) Seafood inspections;

(4) Issuance or amendment of food standards; and

(5) Investigational new drug applications and investigational new animal drug applications, unless the agency notifies the applicant that one is required.

(e) Whenever a person submits any application or petition requesting action by the agency (except action specified in paragraph (d) of this section), he shall include an environmental impact analysis report on the requested action. Failure to include an adequate environmental impact analysis report in an application or petition shall be sufficient grounds to refuse to accept or file the application or petition.

(f) Whenever a manufacturer, distributor, or dealer proposes to destroy a food, drug, cosmetic, device, or electronic product which has been condemned, enjoined, detained, or banned by regulation, he shall submit to the agency an environmental impact analysis report analyzing

the environmental impact of the disposition of such articles.

(g) An environmental impact analysis report shall be submitted to the agency in the following format:

#### ENVIRONMENTAL IMPACT ANALYSIS REPORT

Date: \_\_\_\_\_

Name of applicant: \_\_\_\_\_

Address: \_\_\_\_\_

1. Describe the proposed action: \_\_\_\_\_

2. Discuss the probable impact of the action on the environment (including primary and secondary consequences): \_\_\_\_\_

3. Discuss the probable adverse environmental effects which cannot be avoided: \_\_\_\_\_

4. Evaluate alternatives to the proposed action: \_\_\_\_\_

5. Describe the relationship between local short-term uses of the environment with respect to the proposed action and the maintenance and enhancement of long-term productivity: \_\_\_\_\_

6. Describe any irreversible and irretrievable commitment of resources which would be involved in the proposed action should it be implemented: \_\_\_\_\_

7. Discuss the objections raised by other agencies, organizations, or individuals which are known to the applicant: \_\_\_\_\_

8. If proposed action should be taken prior to 90 days from the circulation of a draft environmental impact statement or 30 days from the filing of a final environmental impact statement, explain why: \_\_\_\_\_

9. Analyze whether the benefit to the public of the proposed action will outweigh the action's potential risks to the environment: \_\_\_\_\_

(Date) (Signature of responsible official)

(h) Data and information which constitute trade secrets or confidential information under Part 4 of this chapter shall not be submitted in an environmental impact analysis report.

(i) Upon receipt of an environmental impact analysis report, the responsible agency official shall make an independent assessment as to whether an environmental impact statement shall be prepared for the proposed action.

#### § 6.2 Content and format of environmental impact statements.

(a) When it is determined that an environmental impact statement is required, draft and final environmental impact statements shall cover the following points:

(1) There shall be a description of the proposed action including adequate information and technical data to permit a careful assessment of the environmental impact. Where relevant, exhibits should be provided.

(2) The probable impact that the proposed action will have on the environ-

ment shall be analyzed and shall include the impact on ecological systems such as wildlife, fish, and other marine life. Both primary and secondary significant consequences for the environment should be included in the analysis.

(3) There shall be a description of any probable adverse environmental effects which cannot be avoided (such as water or air pollution, undesirable land use patterns, damage to life systems, threats to health, or other consequences adverse to the environmental goals set forth in section 101(b) of the National Environmental Policy Act).

(4) Alternatives to the proposed action must be described, in accordance with section 102(2)(D) of the National Environmental Policy Act, which requires the responsible agency to "study, develop, and describe appropriate alternatives to recommended courses of action in any proposal which involves unresolved conflicts concerning alternative uses of available resources." A rigorous exploration and objective assessment of alternative actions that might avoid some or all of the adverse environmental effects is essential. Sufficient analysis of alternatives and their costs and impact on the environment should accompany the proposed action through the agency review process in order to avoid eliminating prematurely options which might have fewer adverse environmental effects.

(5) The relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity must be discussed. Thus, realizing that each generation is trustee of the environment for succeeding generations, the agency must assess the action for cumulative and long-term effects.

(6) There must be a statement concerning any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented. This requires the agency to identify the extent to which the action curtails the range of beneficial uses of the environment.

(7) Where appropriate, there must be a discussion of the problems and objections raised by other Federal, State, and local agencies and by private organizations and individuals, and a disposition of the issues raised by these problems and objections. This section may be added at the end of the review process in the final text of the environmental statement.

(b) When it is determined that an environmental impact statement is required, draft and final environmental impact statements shall be prepared in the following format:

("DRAFT" OR "FINAL") ENVIRONMENTAL IMPACT STATEMENT, FOOD AND DRUG ADMINISTRATION (RESPONSIBLE OPERATING DIVISION)

1. Indicate administrative action or legislative action.

2. Describe the action, indicating any States or counties particularly affected.

3. Analyze the environmental impact of the proposed action.

4. Describe any unavoidable adverse environmental effects of the action.

5. Describe and assess alternative courses of action considered.

6. Describe any irreversible and irretrievable commitments of resources involved in implementing the action.

7. Where appropriate, evaluate any objections to the action raised by interested persons.

8. (a) For draft statements, state the date and form of FEDERAL REGISTER publication by which comments have been requested from all interested persons and attach a copy of the notice.

(b) For final statements, list all persons from which written comments have been received and attach a copy of each.

9. Give the date that the draft or final statement was made available to the Council on Environmental Quality and to the public.

#### § 6.3 Preparation and review procedures.

(a) When it is determined that an environmental impact statement is required, the statement shall be prepared as follows:

(1) *Preparation of draft environmental impact statement.* A draft environmental impact statement shall be prepared by the responsible agency official as designated in § 6.4. When appropriate during the preparation of a draft environmental impact statement, the responsible agency official shall consult with Federal, State, and local officials and other interested persons.

(2) *Distribution of draft environmental impact statements.* After the responsible agency official has prepared a draft environmental impact statement, he shall forward 20 copies of the draft statement to the Office of the Secretary which shall thereupon forward 10 copies to the Council on Environmental Quality. At the same time the draft statement will be made available for public inspection by the Office of the Assistant Commissioner for Public Affairs and the Hearing Clerk.

(3) *Solicitation of comments.* (i) After the preparation and distribution of a draft environmental impact statement, comments will be solicited from all interested persons. Sixty days are allowed for reply, after which it is presumed that no comments will be made unless a specified extension of time is requested.

(ii) Where the subject of a draft environmental impact statement is also the subject of a notice of proposed rule making or a notice of filing published in the FEDERAL REGISTER, the FEDERAL REGISTER notice shall state that the environmental impact analysis report and the draft environmental impact statement are available upon request and shall solicit comments by all interested persons.

(iii) Where the subject of a draft environmental impact statement is not also the subject of a notice published in the FEDERAL REGISTER, a notice will be published in the FEDERAL REGISTER describing the proposed action, stating that the environmental impact analysis report and the draft environmental impact statement are available upon request, and soliciting comments by all interested persons. This notice may be

published by the agency or the department, or the agency or the department may request that the Council on Environmental Quality publish it.

(iv) Comments shall be solicited from Federal agencies having jurisdiction by law or special expertise with respect to the environmental impact of a proposed action by sending them a copy of a draft environmental impact statement.

(v) All comments on draft environmental impact statements shall be submitted in quintuplicate to the Hearing Clerk, Food and Drug Administration, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, where they shall be available for public inspection during working hours, Monday through Friday.

(vi) When the responsible agency official concludes that no environmental impact statement is necessary and the proposed action is the subject of a notice of filing published in the FEDERAL REGISTER, the FEDERAL REGISTER notice shall state that no environmental impact statement is necessary and, where applicable, that the environmental impact analysis report is available upon request.

(4) *Time for consideration prior to decision.* Draft environmental impact statements shall be prepared, forwarded to the Council on Environmental Quality, and made available to the public early enough in the consideration of the proposed action to permit meaningful review of the environmental issues involved. To the maximum extent practicable, no final action shall be taken on the proposal earlier than 90 days after a draft environmental impact statement has been prepared, forwarded to the Council, and made available to the public.

(5) *Final environmental impact statements.* The final text of an environmental impact statement shall be prepared by the responsible agency official after comments on the draft statement have been reviewed and shall include an evaluation of all comments. The final statement shall receive full consideration in the agency's decisionmaking process. The responsible agency official shall forward 20 copies of the final statement to the Office of the Secretary which shall thereupon forward 10 copies to the Council on Environmental Quality, and copies of the final statement shall be made available for public inspection by the Office of the Assistant Commissioner for Public Affairs and the Hearing Clerk. To the maximum extent practicable, no agency action shall take place earlier than 30 days after the final statement has been forwarded to the Council on Environmental Quality and made available to the public.

(6) Where the subject of an environmental impact statement is an agency action governed by specific time requirements under statute or regulation, every effort shall be made to comply with the provisions of this part within the time specified, and those time requirements shall be extended only as long as is absolutely necessary to permit the agency

to consider or issue an environmental impact statement of the action.

(b) When the proposed action involves destruction of condemned, enjoined, detained or recalled articles or disposition of Food and Drug Administration laboratory waste materials, the agency shall adhere to disposal guidelines consistent with Federal, State, and local regulations applicable on a case-by-case basis. This shall be reflected in environmental impact statements when they are issued on such actions.

(c) There are certain regulatory actions which, because of their immediate importance to the public health, make adherence to the requirements of paragraph (a) (1) through (5) of this section impracticable. Compliance with the requirements for environmental analysis under the National Environmental Policy Act is impossible in instances which require immediate regulatory action to safeguard the public health. The responsible agency official shall give written notice to the Council on Environmental Quality of those actions having potentially significant individual environmental impact as to which no environmental impact statement is filed because public health considerations require immediate action.

#### § 6.4 Responsible agency officials.

(a) When environmental impact statements are required, the following agency officials are responsible for preparing the statements as indicated:

(1) The office of the Commissioner is responsible for preparing a draft or final environmental impact statement on actions not delegated by the Commissioner.

(2) The director of each bureau is responsible for preparing a draft or final environmental impact statement on actions delegated to that bureau by the Commissioner under § 2.121 of this chapter.

(3) The Executive Director for Regional Operations is responsible for preparing a draft or final environmental impact statement on the destruction of articles condemned after seizure, enjoined, under import detention, or under detention or recalled at agency request.

(b) Every action memorandum proposing an agency action included under § 6.1(b) shall contain an evaluation of the environmental impact of the proposed action and shall be accompanied by a draft or final environmental impact statement if one is required.

#### § 6.5 Submission of comments to other agencies.

When the Food and Drug Administration is requested by the Office of the Secretary to comment on environmental impact statements prepared by other agencies, the Commissioner shall prepare such comments as he deems appropriate and shall submit them to the Office of the Secretary, which shall prepare an appropriate response for submission to the requesting agency and the Council on Environmental Quality.

#### § 6.6 Public availability of environmental impact statements.

(a) All draft and final environmental impact statements and all environmental impact analysis reports shall be available for public inspection through the office of the Assistant Commissioner for Public Affairs and the Hearing Clerk.

(b) Draft and final environmental impact statements will be available immediately after preparation. An environmental impact analysis report will be available at the time a draft environmental impact statement is circulated or, if no environmental impact statement is necessary, at the time of publication of the FEDERAL REGISTER notice announcing the availability of the report.

#### PART 8—COLOR ADDITIVES

2. In Part 8, by adding a new item J to the form in § 8.4(c), as follows:

#### § 8.4 Petitions proposing regulations for color additives.

(c) . . . . .  
J. The petitioner is required to submit an environmental impact analysis report analyzing the manufacturing process and the ultimate use or consumption of the color additive pursuant to § 6.1 of this chapter.

#### PART 121—FOOD ADDITIVES

3. In Part 121:  
a. By adding a new item H to the form in § 121.51(c), as follows:

#### § 121.51 Petitions proposing regulations for food additives.

(c) . . . . .  
H. The petitioner is required to submit an environmental impact analysis report analyzing the environmental impact of the manufacturing process and the ultimate use or consumption of the food additive pursuant to § 6.1 of this chapter.

b. By adding the following sentence to § 121.53:

#### § 121.53 Substantive amendments to petitions.

. . . . . Where the substantive amendment proposes a substantial change to the petition which may affect the quality of the human environment, the petitioner is required to submit an environmental impact analysis report pursuant to § 6.1 of this chapter.

#### PART 130—NEW DRUGS

4. In Part 130:  
a. By adding a new item 15 to the form in § 130.3(a) (2), as follows:

#### § 130.3 New drugs for investigational use in human beings; exemptions from section 505(a).

(a) . . . . .  
(2) . . . . .

15. When requested by the agency, an environmental impact analysis report pursuant to § 6.1 of this chapter.

b. Section 130.4 is amended by adding a new item 15 to the form in paragraph (c) (2), and by redesignating paragraph (f) (6) as paragraph (f) (7) and adding a new paragraph (f) (6) as follows:

#### § 130.4 Applications.

(c) . . . . .  
(2) . . . . .

15. The applicant is required to submit an environmental impact analysis report analyzing the environmental impact of the manufacturing process and the ultimate use or consumption of the drug pursuant to § 6.1 of this chapter.

#### (f) Abbreviated new drug applications.

(6) An environmental impact analysis report analyzing the environmental impact of the manufacturing process and ultimate use or consumption of the drug pursuant to § 6.1 of this chapter.

c. By adding a new subparagraph (8) to § 130.5(d), as follows:

#### § 130.5 Reasons for refusing to file applications.

(d) . . . . .  
(8) The applicant fails to submit an environmental impact analysis report analyzing the environmental impact of the manufacturing process and the ultimate use or consumption of the drug pursuant to § 6.1 of this chapter.

d. By adding the following sentence to the end of § 130.9(a) (1):

#### § 130.9 Supplemental applications.

(a) (1) . . . . . A supplemental application proposing substantial changes which may affect the quality of the human environment shall be accompanied by an environmental impact analysis report pursuant to § 6.1 of this chapter.

e. By adding a new subparagraph (7) to § 130.12(a), as follows:

#### § 130.12 Refusal to approve the application.

(a) . . . . .  
(7) The applicant fails to submit an environmental impact analysis report analyzing the environmental impact of the manufacturing process and the ultimate use or consumption of the drug pursuant to § 6.1 of this chapter.

#### PART 135—NEW ANIMAL DRUGS

5. In Part 135:  
a. By adding a new subparagraph (10) to § 135.3(b), as follows:

#### § 135.3 New animal drugs for investigational use; exemptions from section 512(a) of the Act.

(b) . . . . .

(10) When requested by the agency, the sponsor shall submit an environmental impact analysis report pursuant to § 6.1 of this chapter.

## RULES AND REGULATIONS

b. In § 135.4a(b), by redesignating subparagraph (13) *Assembling and binding the application* as subparagraph (15) and adding a new subparagraph (14) as follows (a new subparagraph (13) has recently been proposed):

§ 135.4a New animal drug applications.

(b) . . . .  
(14) *Environmental impact analysis report.* The applicant is required to submit an environmental impact analysis report analyzing the environmental impact of the manufacturing process and the ultimate use or consumption of the new animal drug pursuant to § 6.1 of this chapter.

c. By adding a new subparagraph (9) to § 135.12(a), as follows:

§ 135.12 Refusal to approve an application.

(a) . . . .  
(9) The applicant fails to submit an environmental impact analysis report analyzing the environmental impact of the manufacturing process and the ultimate use or consumption of the new animal drug pursuant to § 6.1 of this chapter.

d. By adding the following sentence to § 135.13a(a) (1):

§ 135.13a Supplemental new animal drug applications.

(a) (1) . . . . A supplemental application proposing substantial changes which may affect the quality of the human environment shall be accompanied by an environmental impact analysis report pursuant to § 6.1 of this chapter.

e. By adding a new paragraph (d) to § 135.13b, as follows:

§ 135.13b Supplemental applications for animal feeds bearing or containing new animal drugs.

(d) A supplemental application proposing substantial changes which may affect the quality of the human environment shall be accompanied by an environmental impact analysis report pursuant to § 6.1 of this chapter.

PART 146—ANTIBIOTIC DRUGS; PROCEDURAL AND INTERPRETATIVE REGULATIONS

6. In Part 146, by adding a new paragraph (i) to § 146.10, as follows:

§ 146.10 New antibiotic and antibiotic-containing products.

(i) An environmental impact analysis report analyzing the environmental impact of the manufacturing process and the ultimate use or consumption of the

antibiotic drug pursuant to § 6.1 of this chapter.

**Effective date.** This order shall become effective on March 15, 1973.

(Sec. 102(a)(2)(C), 83 Stat. 853; 42 U.S.C. 4332; secs. 409, 505, 507, 512, 701, 708, 82 Stat. 1059 as amended, 1055-1056 as amended by 70 Stat. 919 and 73 Stat. 948, 59 Stat. 468 as amended, 72 Stat. 1785-1788 as amended, 74 Stat. 399-404 as amended, 82 Stat. 343-351; 21 U.S.C. 348, 355, 360b, 371, 376)

Dated: March 12, 1973.

SHERWIN GARDNER,  
Deputy Commissioner of  
Food and Drugs.

[FR Doc.73-5008 Filed 3-14-73; 8:45 am]

PART 8—COLOR ADDITIVES

Subpart—Provisional Regulations

POSTPONEMENT OF CLOSING DATES OF PROVISIONAL LISTING

Pursuant to the provisions of title II of the Color Additive Amendments of 1960 (sec. 203(a)(2), Public Law 86-618, 74 Stat. 404; 21 U.S.C. 376, note) and under authority delegated to him (21 CFR 2.120), the Commissioner of Food and Drugs is authorized to postpone the closing date of a provisional listing of a color additive on his own initiative or upon application of an interested person. He is also authorized to promulgate and keep current a list or lists of the color additives and of the particular uses thereof, whenever in his judgment such action is consistent with the protection of the public health.

Requests have been received to postpone the closing dates of provisional listings of the color additives in § 8.501 of the color additive regulations. For those color additives listed in paragraphs (a) and (b) of § 8.501 where the uses in products such as foods, drugs, and lipsticks involve ingestion, reports on teratological potentials have been submitted to the Food and Drug Administration, in accordance with the provisions of the notice published in the FEDERAL REGISTER of September 11, 1971 (36 FR 18336).

A notice was published in the FEDERAL REGISTER of January 31, 1973 (38 FR 2996), to clarify the status of metallic salts and vegetable substances when used as color components in hair dye. The notice stated that it was the intention of the Food and Drug Administration to provisionally list, on an interim basis, metallic salts and vegetable substances for use as color components in hair dye. Any such substances will be removed from the provisional list, and thus disapproved for any further use, unless the requirements of that notice are satisfied.

In addition, requests have been received to restore the color additives, D&C Brown No. 1 and External D&C Violet No. 2, for use in coloring externally applied cosmetics, to the provisional list. These color additives previously had been provisionally listed for use in externally applied drugs and cosmetics. The closing dates of the provisional listing were terminated because the sponsor no longer had any commercial interest in these color additives. Subsequently, petitions were received from other interested persons, who had also been using the colors and conducting tests, to permanently list each of these color additives for use in externally applied cosmetics, and to restore them to the provisional list pending the processing of these petitions. In the light of their previous provisional listing and the continuing scientific investigations, the Commissioner concludes that these colors should be restored to the provisional list.

The Commissioner of Food and Drugs finds that postponement of the closing date of the currently provisionally listed color additives is consistent with the protection of the public health and with the objective of carrying to completion the scientific investigations, including multigeneration reproduction studies and stability testings, and regulatory review thereof, necessary for making a determination as to the listing of such color additives, or specified uses thereof, under section 706 of the act. These extensions are granted on condition, that, where applicable, progress reports on the respective multigeneration reproduction studies shall be received on or before July 1, 1973, by the Food and Drug Administration.

The Commissioner of Food and Drugs also finds that the provisional listing of metallic salts and vegetable substances for use as color components in hair dye, and the restoring to the provisional list of D&C Brown No. 1 and External D&C Violet No. 2 are consistent with the protection of the public health.

Therefore, pursuant to authority of the Federal Food, Drug, and Cosmetic Act (sec. 203(a)(2) and (d)(1), Public Law 86-618; 74 Stat. 404-405; 21 U.S.C. 376, note) and under authority delegated to the Commissioner (21 CFR 2.120), Part 8 of the color additive regulations is amended as follows:

1. The closing dates for the color additives listed in paragraphs (a), (b), (c), (e), (f), and (g) of § 8.501 of the color additive regulations are changed to read: "December 31, 1973, or until a new closing date is established".

2. Paragraph (b) is further amended by inserting therein the following item:

Closing date	Restrictions
... D&C Brown No. 1. ...	... Dec. 31, 1973, or until a new closing date is established. ... For coloring externally-applied cosmetics. ...

3. Paragraph (c) is further amended by inserting the following item:

Closing date	Restrictions
... External D&C Violet No. 2. ...	... Dec. 31, 1973, or until a new closing date is established. ... For coloring externally-applied cosmetics. ...

4. Paragraph (g) is further amended by inserting therein an alphabetical order the following items:

Closing date	Restrictions
... Metallic salts... ...	... Dec. 31, 1973, or until a new closing date is established. ... For use as color components in hair dye. ...
... Vegetable substances. ...	... Dec. 31, 1973, or until a new closing date is established. ... For use as color components in hair dye. ...

Notice and public procedure and delayed effective date are not prerequisites to the promulgation of this order, since section 203(a)(2) of Public Law 86-618 provides for this issuance.

**Effective date.** This order is effective as of January 1, 1973.

## RULES AND REGULATIONS

(Sec. 203(a)(2) and (d)(1), Public Law 86-618; 74 Stat. 404-405; 21 U.S.C. 376, note)

Dated: March 12, 1973.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

[FR Doc.73-5009 Filed 3-14-73; 8:45 am]

[DESI 11048]

PART 148—NEOMYCIN SULFATE  
Antiperspirants and Deodorants; Postponement of Effective Date of Final Order

An order was published in the FEDERAL REGISTER of December 5, 1972 (37 FR 25820), to become effective in 40 days, amending Part 148 of the antibiotic drug regulations to repeal provisions for certification of antiperspirants and deodorants for topical use containing aluminum chlorohydrate complex in combination with neomycin sulfate.

Having received objections and a request for a hearing, the Commissioner of Food and Drugs concludes that the effective date of the order should be postponed to allow time for completion of review of the objections and the material submitted. When this review is completed, the Commissioner will announce in the FEDERAL REGISTER whether or not requests for hearing with reasonable grounds have been received. Therefore, the effective date of the order of December 5, 1972 (37 FR 25820), is hereby postponed pending said review.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1050-51, as amended, 59 Stat. 463, as amended, 21 U.S.C. 352, 357) and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: March 12, 1973.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

[FR Doc.73-5134 Filed 3-14-73; 10:17 am]

## Proposed Rule Making

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

### DEPARTMENT OF THE TREASURY

Bureau of Customs

[ 19 CFR Part 1 ]

#### CUSTOMS FIELD ORGANIZATION

Designation of Port of Portland, Oreg., as Sole Port of Entry for the Columbia River

MARCH 6, 1973.

In order to provide better Customs service to carriers, importers, and the public, it is considered desirable to extend the port limits of Portland, Oreg.

Notice is therefore given that under the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), which was delegated to the Secretary of the Treasury by the President in Executive Order No. 10289, September 17, 1951 (3 CFR Ch. II), and pursuant to authorization provided by Treasury Department Order No. 190, Rev. 8 (37 FR 18572), it is proposed to establish the Port of Portland, Oreg., as the only Customs port of entry on the Columbia River, and redesignate it as the Port of Portland-Columbia River, with limits of the present port limits of Portland, Oreg., Astoria, Oreg., and Longview, Wash., as well as all points and places on either bank of the Columbia River between the Pacific and The Dalles, Oreg., to include all such points in the counties of Clatsop, Columbia, Multnomah, Hood River, Wasco, Washington, and Clackamas, Oreg.; and Pacific, Wahkiakum, Cowlitz, Clark, Skamania, and Klickitat, Wash.

Since the proposed amendment will result in the extension of the present Port of Portland limits to the areas now falling within the present port limits of the Ports of Longview, Wash., and Astoria, Oreg., it is proposed to revoke the Customs port of entry status of the latter two ports.

Prior to the adoption of the foregoing proposal, consideration will be given to any relevant data, views, or arguments which are submitted to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229, and received not later than April 16, 1973. Written material or suggestions submitted will be available for public inspection in accordance with § 103.3(b) of the Customs regulations (19 CFR 103.3(b)), at the Regulations Division, Bureau of Customs, Washington, D.C., during regular business hours.

[SEAL] EDWARD L. MORGAN,  
Assistant Secretary of the Treasury.

### DEPARTMENT OF THE INTERIOR

Land Management Bureau

[ 43 CFR Parts 2070, 6250, 6290 ]

#### USE OF OFF-ROAD VEHICLES ON PUBLIC LANDS

Proposed Procedures and Standards;  
Extension of Time for Comments

The time within which written comments on the proposed rule making to provide regulations to implement Executive Order 11644 (37 FR 2877), concerning use of off-road vehicles on public lands, which was published in the *FEDERAL REGISTER*, Vol. 38, No. 30, February 14, 1973, is hereby extended from March 16, 1973, to April 16, 1973.

At the request of interested parties, the time period for submission of comments on these proposed regulations has been extended to give the general public an extended opportunity for review. Accordingly, interested parties may submit written comments, suggestions, or objections with respect to the proposed regulations to the Director (210), Bureau of Land Management, Washington, D.C. 20240, until April 16, 1973.

CURT BERKLUND,  
Deputy Assistant,  
Secretary of the Interior.

[ 21 CFR Part 19 ]

#### PASTEURIZED PROCESS CHEESE SPREAD, COLD-PACK CHEESE AND CHEESE FOOD, AND COLD-PACK CHEESE FOOD WITH FRUITS, VEGETABLES OR MEATS

Use of Additional and/or Increased Levels  
of Mold-Inhibitors

Notice is given that the National Cheese Institute, Inc., 110 North Franklin Street, Chicago, IL 60606, filed a petition proposing that the standards of identity for certain cheese products be amended as follows:

(1) Pasteurized process cheese spread (21 CFR 19.775), to add to the presently permitted 0.2 percent by weight of sorbic acid, not more than 0.2 percent by weight of potassium sorbate, sodium sorbate, or any combination of two or more of these, or not more than 0.3 percent by weight of sodium propionate, calcium propionate, or a combination of sodium propionate and calcium propionate.

(2) Cold-pack cheese (21 CFR 19.785), to increase the presently permitted sor-

bic acid content from 0.2 percent to 0.3 percent by weight, and to permit potassium sorbate, sodium sorbate, or any combination of two or more of these, in an amount not to exceed 0.3 percent by weight calculated as sorbic acid, or not more than 0.3 percent by weight of sodium propionate, calcium propionate, or a combination of sodium propionate and calcium propionate.

(3) Cold-pack cheese food (21 CFR 19.787), to increase the presently permitted sorbic acid content from 0.2 percent to 0.3 percent by weight and to permit potassium sorbate, sodium sorbate, or any combination of two or more of these, in an amount not to exceed 0.3 percent by weight calculated as sorbic acid. Not more than 0.3 percent by weight of the propionates is presently provided for in this standard.

(4) Cold-pack cheese food with fruits, vegetables, or meats (21 CFR 19.788) would be amended by cross-reference to cold-pack cheese food (21 CFR 19.787).

Grounds set forth in the petition in support of the proposal are that: (1) When the standards for pasteurized process cheese (21 CFR 19.750) and pasteurized process cheese food (21 CFR 19.765) were amended in 1963 to provide for the use of the salts of sorbic acid, pasteurized process cheese spread was not included because consumer demand for plastic wrapped pasteurized process cheese spread had not been made manifest. Because of its poor solubility in water, sorbic acid must be either dusted on the cheese surfaces or applied to the plastic film in which the cheeses are wrapped. Sorbic acid causes opaqueness of the film wrap whereas the sodium and potassium salts of sorbic acid perform as mold-inhibitors without affecting the clearness of the plastic wrap.

(2) Packaging techniques would be improved and possible savings to the consumer would result through the use of the sodium and potassium salts of sorbic acid.

Sodium and potassium salts of sorbic acid are readily soluble in water and their aqueous solutions are easier to apply by dipping or spraying, resulting in a more even and complete surface deposit with no significant flavor changes.

(3) Studies have shown that the use of sorbic acid and its sodium and potassium salts at a level of 0.3 percent by weight, calculated as sorbic acid, when compared to the presently permitted 0.2 percent will more effectively prolong the usable life of cold-pack cheese food. The additional kinds or increases involved do not make poor products appear better but simply arrest the growth rates of normal contaminant populations.

(4) The proposed amendments will provide for greater uniformity in the use levels of permitted mold-inhibitors in comparable cheese products.

The petition proposes that the subject optional mold-inhibitors may be used subject to the same restrictions and requirements for label declaration already prescribed for sorbic acid.

Accordingly, it is proposed that paragraph (f) (8) in § 19.775, paragraph (c) (6) in § 19.785, and paragraph (e) (7) in § 19.787 be amended as set out above.

Interested persons may, on or before May 14, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: February 12, 1973.

VIRGIL O. WODICKA,  
Director, Bureau of Foods.

### DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[ 14 CFR Part 71 ]

[Airspace Docket No. 72-80-122]

#### CONTROL ZONE AND TRANSITION AREA

Notice of Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Christiansted, St. Croix, Virgin Island, control zone and transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 20636, Atlanta, GA 30320. All communications received on or before April 16, 1973, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As parts of this proposal relate to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

### PROPOSED RULE MAKING

7009

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting State, derived from ICAO, wherein air traffic services are provided and also whenever a contracting State accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting State accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, State aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting State, the United States agreed by Article 3(d) that its State aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

The airspace actions proposed in this amendment would:

1. Reflect the name change of the St. Croix RBN to Christiansted RBN in the description of the control zone
2. Extend the control zone 8.5 miles westward (from its present boundary) along the new ILS localizer west course.
3. Extend the 700-foot transition area 15 miles westward (from its present boundary) along the new ILS localizer west course.
4. Reflect the name change of the St. Croix RBN to Christiansted RBN in the description of the 700-foot and 1,200-foot transition areas.

The proposed alterations of the control zone and the 700-foot transition area are required to provide controlled airspace for the new ILS Runway 9 Instrument Approach Procedure to the Alexander Hamilton Airport. The name of the St. Croix RBN will soon be changed to Christiansted RBN, so the description of the control zone and of the 700 and 1,200-foot transition areas would be amended to include the new name.

(Sec. 307(a), 1110, Federal Aviation Act of 1958, 49 U.S.C. 1348(a), 1510; Executive Order 10854, 24 FR 9565; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655 (c)).

Issued in Washington, D.C., on March 8, 1973.

CHARLES H. NEWPOL,  
Acting Chief, Airspace and Air  
Traffic Rules Division.

[FR Doc. 73-4995 Filed 3-14-73; 8:45 am]

Office of the Secretary

[ 49 CFR Part 71 ]

[OST Docket No. 21; Notice No. 73-1]

#### EASTERN-CENTRAL STANDARD TIME ZONE BOUNDARY IN THE STATE OF MICHIGAN

Proposed Relocation

The Boards of County Commissioners of four contiguous counties in the Upper Peninsula of Michigan—Gogebic, Iron, Dickinson, and Menominee—have petitioned the Department of Transportation to amend § 71.5 of Title 49 of the Code of Federal Regulations to redefine the boundary line between the eastern and central time zones so as to include those counties in the central time zone.

At present, the entire State of Michigan is in the eastern time zone (49 CFR 71.5). The southern boundaries of the four counties and waters of Lake Michigan adjacent to the county of Menominee constitute the boundary between the eastern and central zones in that area.

The petitions cite two reasons for seeking the change—closer commercial relations with neighboring communities of Wisconsin, which is in the central zone, than with the rest of Michigan; and the recent decision of the State of Michigan to observe advanced (daylight, or "fast") time beginning in 1973. From 1969 to 1972, the State of Michigan exercised its option under section 3(a) of the Uniform Time Act of 1966 (15 U.S.C. 260a), and exempted itself from the observance of advanced time. Thus, eastern nonadvanced (standard, or "slow") time was observed throughout the year in Michigan. All or part of the four counties concerned are farther west than Chicago, Ill., which is in the central zone; the westernmost of the counties, Gogebic, is as far west as St. Louis, Mo., which is also in the central zone. Under eastern advanced time, during the summer, areas that far west have daylight as late as 10:30 p.m.; under central advanced time (which is the same time on the clock as eastern nonadvanced time), there is daylight only as late as 9:30 p.m.

Under the Time Act originally enacted in 1918, as amended by the Uniform Time Act of 1966 (15 U.S.C. 260 et seq.) the Secretary of Transportation is authorized to modify the limits of time zones having regard to "the convenience of commerce and the existing junction points and division points of carriers engaged in interstate or foreign commerce."

## PROPOSED RULE MAKING

In consideration of the foregoing, the Department proposes to amend paragraph (a) of § 71.5 of Title 49 of the Code of Federal Regulations to read as follows:

§ 71.5 Boundary line between eastern and central zones.

(a) *Minnesota-Michigan-Wisconsin.* From the junction of the western boundary of the State of Michigan with the boundary between the United States and Canada northerly and easterly along the west line of Gogebic County to the east line of Ontonagon County; thence south along the east line of Ontonagon County to the north line of Gogebic County; thence southerly and easterly along the north line of Gogebic County to the west line of Iron County; thence north along the west line of Iron County to the north line of Iron County; thence east along the north line of Iron County to the east line of Iron County; thence south along the east line of Iron County to the north line of Dickinson County; thence east along the north line of Dickinson County to the east line of Dickinson County; thence south along the east line of Dickinson County to the north line of Menominee County; thence east along the north line of Menominee County to the east line of Menominee County; thence southerly and easterly along the east line of Menominee County to Lake Michigan; thence east to the western boundary of the State of Michigan; thence southerly and easterly along the western boundary of the State of Michigan to a point in the middle of Lake Michigan opposite the main channel of Green Bay; thence southerly along the western boundary of the State of Michigan to its junction with the southern boundary thereof and the northern boundary of the State of Indiana.

Before taking final action to adopt, deny, or modify the proposed boundary requested by the petitioners, the Secretary of Transportation will consider the timely comments of all interested persons. Comments should identify the regulatory docket or notice number (see above) and be submitted to the Docket Clerk, Office of the General Counsel,

TGC, Department of Transportation, Washington, D.C. 20590. Comments received on or before April 6, 1973, will be considered before final action is taken on the petitions. All docketed comments will be available for public inspection and copying, both before and after the closing date for comments, in the Office of the Assistant General Counsel for Regulation, Room 10100, Department of Transportation Headquarters (Nassif) Building, 400 Seventh Street SW., Washington, DC, between 9 a.m. and 5:30 p.m. local time, Monday through Friday, except Federal holidays.

This proceeding does not concern adherence to or exemption from advanced time. The Uniform Time Act of 1966 requires observance of advanced time from 2 a.m. on the last Sunday in April to 2 a.m. on the last Sunday in October of each year, but permits any State to exempt itself from this requirement by law applicable to the entire State. A State that has parts in more than one time zone may exempt the entire area within one time zone without exempting the entire State. Thus, any part of the State of Michigan placed in the central time zone must, under existing law in the State of Michigan, observe central advanced time from 2 a.m. on the last Sunday in April to 2 a.m. on the last Sunday in October of each year. All such parts may, however, be exempted collectively from such observance by act of the Michigan legislature.

The Department intends that any change in the existing boundary which results from the adoption of this proposal shall take effect at 2 a.m., Sunday, April 29, 1973, the beginning of the advanced time period.

Comments are invited also as to whether more than just these four counties in the Upper Peninsula should be placed in the central zone. If comment supports it and their respective Boards of County Commissioners petition for such a change, additional counties contiguous to the four named may be placed in the central zone.

This proposal is issued under authority of the Act of March 19, 1918, as amended by the Uniform Time Act of 1966 (15 U.S.C. 260-67); section 6(e) (5) of the Department of Transportation Act (49 U.S.C. 1655(e) (5)); and § 1.59(a) of

the Regulations of the Office of the Secretary of Transportation (49 CFR 1.59(a)).

Issued in Washington, D.C., on March 9, 1973.

JOHN W. BARNUM,  
General Counsel.

## SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 275]

[Release Nos. IA-363, IC-7682, File No. S7-462]

### INVESTMENT ADVISER REGULATIONS

#### Recordkeeping Requirements and Exemption From Definition of "Investment Adviser"; Extension of Time; Correction

In Release Nos. IA-363, IC-7682, filed as FR Doc. 73-4064 and which appeared in the FEDERAL REGISTER for March 5, 1973, at page 5912, the references to the sections of Title 17 of the Code of Federal Regulations proposed to be affected were incorrectly stated. In the first paragraph of the release, the parenthetical reference following the words "Rule 202-2" and "Rule 204-2(a)" should be corrected to read "(17 CFR 275.202-2)" and "(17 CFR 275.204-2(a))" respectively. Also, the last paragraph thereof should be corrected to read as follows:

*Commission action.* The Commission pursuant to authority in sections 202 and 211 of the Investment Advisers Act of 1940, hereby redesignates proposed new § 275.202-1 of 17 CFR Chapter II, which appeared in Investment Advisers Act Release No. 353 dated December 18, 1972, and in the FEDERAL REGISTER issue of January 17, 1973, at volume 38, page 1651, as proposed new § 275.202-2 of 17 CFR Chapter II, and also extends the time for comments on proposed new redesignated § 275.202-2 and the proposed amendment to § 275.204-2(a) from February 16, 1973, until March 16, 1973.

For the Commission.

[SEAL] RONALD F. HUNT,  
Secretary.

## DEPARTMENT OF THE TREASURY

## Bureau of Customs

[T.D. 73-72]

## LAMBRUSCO WINE

## Change in Tariff Classification

A notice was published in the FEDERAL REGISTER for December 27, 1972, 37 FR 28524, that the Bureau of Customs was reviewing the existing practice of classifying certain Lambrusco wine as still wine in item 167.30, Tariff Schedules of the United States (TSUS).

After reviewing the matter in the light of the evidence submitted, the Bureau is of the opinion that Lambrusco wine, other than that labeled as sparkling, is classifiable according to the carbon dioxide content. Accordingly, where samples of a shipment exceed the carbon dioxide limitation for still wine of 0.277 grams carbon dioxide per 100 milliliters, the entire shipment will be classified as sparkling wine in item 167.10, TSUS, with the appropriate internal revenue tax for sparkling wine added. In accord with General Headnote 7, TSUS, which concerns the classification of commingled articles.

As this ruling will result in the assessment of duties at a higher rate than that previously assessed on such wines, the higher rate will be applied only to such merchandise as may be entered, or withdrawn from warehouse, for consumption on or after the 91st day following publication of this ruling in the weekly Customs Bulletin.

Dated: March 7, 1973.

[SEAL] VERNON D. ACREE,  
Commissioner of Customs.

Approved:

EDWARD L. MORGAN,  
Assistant Secretary of the Treasury

## Notice of Filing of Plat of Survey

MARCH 9, 1973.

1. Plat of survey of the lands described below will be officially filed in the Arizona State Office, Phoenix, Ariz., effective at 10 a.m., on April 23, 1973.

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 33 N., R. 15 W.,

Sec. 1:

Secs. 3 to 36, inclusive.

The area described aggregates 22,376.89 acres of land.

2. The area surveyed is located about 40 miles south of Mesquite, Nev. The land

is rolling, with the soil a gravelly loam. There is no timber and vegetation consists of creosote bush, cacti, yucca, sagebrush, and sparse grass.

3. All rights of the State of Arizona to section 36 have been conveyed to the United States.

4. All of sections 4 to 9, inclusive, 16 to 21, inclusive, and 28 to 33, inclusive, are withdrawn from all forms of appropriation under the public land laws, including the mining laws, except for mineral leasing.

5. Sections 1 to 3, inclusive, 10 to 15, inclusive, 22 to 27, inclusive, 34 and 36 are classified for multiple use management and will be opened only to such forms of disposition as are allowed under the provision of the multiple use classification on the effective date of the filing of this plat.

6. Inquiries concerning the lands should be addressed to the Arizona State Office, Bureau of Land Management, 3022 Federal Building, Phoenix, Ariz. 85025.

#### National Park Service INDEPENDENCE NATIONAL HISTORICAL PARK ADVISORY COMMISSION

##### Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Independence National Historical Park Advisory Commission will be held at 10 a.m., on March 28, 1973, at 313 Walnut Street, Philadelphia, PA.

The Commission was established by Public Law 80-795 to render advice on such matters relating to the park as may from time to time be referred to them for consideration.

The members of the Commission are as follows:

Mr. Arthur C. Kaufmann (Chairman), Philadelphia, Pa.

#### NOTICES

Hon. Michael J. Bradley, Philadelphia, Pa.  
Mr. John P. Bracken, Philadelphia, Pa.  
Hon. James A. Byrne, Philadelphia, Pa.  
Mr. William L. Day, Philadelphia, Pa.  
Hon. Edwin O. Lewis, Philadelphia, Pa.  
Hon. Fulindo B. Masino, Philadelphia, Pa.  
Mr. Frank C. P. McGinn, Philadelphia, Pa.  
Mr. John B. O'Hara, Philadelphia, Pa.  
Mr. Howard D. Rosengarten, Villanova, Pa.  
Mr. Charles R. Tyson, Philadelphia, Pa.

The purpose of this meeting is to discuss the following matters:

1. Status of architects' study on placement of the Liberty Bell;
2. Progress report on plans and programs;
3. Status of area "F";
4. Proposal to transfer State mail to the Federal Government;
5. Review of Public Law 92-463 (Federal Advisory Committee Act);
6. Fixing of future meeting dates.

The meeting will be open to the public, and any member of the public may file with the Commission a written statement concerning the matters to be discussed.

Persons wanting further information concerning this meeting, or who wish to file written statements, may contact Mr. Hobart G. Cawood, Superintendent, Independence National Historical Park, at 215-597-7120. Minutes of the meeting will be available for public inspection 2 weeks after the meeting, at the office of Independence National Historical Park, 313 Walnut Street, Philadelphia, PA.

Dated: March 5, 1973.

##### SANTA DOMINGO, SAN JUAN, TESUQUE, AND ZUNI INDIAN LANDS IN NEW MEXICO Notice of Feed Grain Donations

Pursuant to the authority set forth in section 407 of the Agricultural Act of

1949, as amended (7 U.S.C. 1427), and Executive Order 11336, I have determined that:

1. The chronic economic distress of the needy members of the Santa Domingo, San Juan, Tesuque, and Zuni Indian lands in New Mexico has been materially increased and become acute because of serious drought for the past two growing seasons depleting supplies of livestock feed, thus, creating a critical need for supplemental feed. These lands are reservation or other lands designated for Indian use and are utilized by members of the Indian tribes for grazing purposes.

2. The use of feed grain or products thereof made available by the Commodity Credit Corporation for livestock feed for such needy members of the tribes will not displace or interfere with normal marketing of agricultural commodities.

Based on the above determinations, I hereby declare the reservations and grazing lands of these tribes to be acute distress areas and authorize the donation of feed grain owned by the Commodity Credit Corporation to livestockmen who are determined by the Bureau of Indian Affairs, Department of the Interior, to be needy members of the tribes utilizing such lands. These donations by the Commodity Credit Corporation may commence upon signature of this notice and shall be made available through the duration of the existing emergency or to such other time as may be stated in a notice issued by the Department of Agriculture.

Signed at Washington, D.C., on March 8, 1973.

J. PHIL CAMPBELL,  
Acting Secretary.

#### Office of Import Programs COLLEGE OF WILLIAM & MARY ET AL. Notice of Consolidated Decision on Appli- cations for Duty-Free Entry of Scientific Articles

The following is a consolidated decision on applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Decision: Applications denied. Applicants have failed to establish that instruments or apparatus of equivalent scientific value to the foreign articles, for such purposes as the foreign articles are intended to be used, are not being manufactured in the United States.

Reasons: Section 701.8 of the regulations provides in pertinent part:

The applicant shall on or before the 20th day following the date of such notice, inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article for the same intended purposes to which the denied application relates. The applicant shall then resubmit the new application on or before the 90th day following the date of the notice of denial without prejudice to resubmission, unless an extension of time is granted by the Deputy Assistant Secretary in writing prior to the expiration of the 90 day period. . . . If the applicant fails, within the applicable time periods specified above, to either (a) inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article to which the denial without prejudice to resubmission relates, or (b) resubmit the new application, the prior denial without prejudice to resubmission shall have the effect of a final decision by the Deputy Assistant Secretary on the application within the context of § 701.11.

The meaning of the subsection is that should an applicant either fail to notify the Deputy Assistant Secretary of its intent to resubmit another application for the same article to which the denial without prejudice relates within the 20-day period, or fails to resubmit a new application within the 90-day period, the prior denial without prejudice to resubmission will have the effect of a final denial of the application.

None of the applicants to which this consolidated decision relates has satisfied the requirements set forth above, therefore, the prior denials without prejudice have the effect of a final decision denying their respective applications.

Section 701.8 further provides:

. . . the Deputy Assistant Secretary shall transmit a summary of the prior denial without prejudice to resubmission to the

#### NOTICES

FEDERAL REGISTER for publication, to the Commissioner of Customs, and to the applicant.

Each of the prior denials without prejudice to resubmission to which this consolidated decision relates was based on the failure of the respective applicants to submit the required documentation, including a completely executed application form, in sufficient detail to allow the issue of "scientific equivalency" to be determined by the Deputy Assistant Secretary.

Docket No. 71-00535-01-77030. Applicant: College of William & Mary, Department of Chemistry, Williamsburg, Va. 23185. Article: NMR Spectrometer, R-20B. Date of denial without prejudice to resubmission: November 2, 1972.

## **U.S. Travel Service** **TRAVEL ADVISORY BOARD** **Notice of Meeting**

The Travel Advisory Board of the U.S. Department of Commerce will meet March 27 at 9:30 a.m. in Room 4830 of the Main Commerce Building, 14th Street and Constitution Avenue NW., Washington, DC 20230.

Members advise the Secretary of Commerce and the Assistant Secretary of Commerce for Tourism on policies and programs designed to accomplish the purposes of the International Travel Act of 1961, as amended.

Agenda items are as follows:

- (1) Opening remarks by Acting Assistant Secretary of Commerce for Tourism, C. Langhorne Washburn.
- (2) Remarks by Secretary of Commerce, Frederick B. Dent.
- (3) Role of Travel Advisory Board.
- (4) USTS Marketing Plan.
- (5) Task Force Reports.
- (6) New USTS Initiatives.
- (7) Adjournment.

Established in July 1968, the Travel Advisory Board consists of senior representatives of 15 U.S. travel industry segments, who are appointed by the Secretary of Commerce to serve a 2-year term.

Represented industry segments include international airlines, domestic airlines, supplemental airlines, domestic surface transportation, communications, travel agencies, rental car agencies, travel societies, accommodations, steamship lines, tour operators, sightseeing firms, States, cities, aircraft manufacturers.

A limited number of seats—approximately 12—will be available to observers from the press and the public.

Robert Jackson, Director of Information Services of the U.S. Travel Service, Room 1525, U.S. Department of Commerce, Washington, D.C. 20230 (Area code 202-967-4987) will respond to pub-

## **NOTICES**

lic requests for information about the meeting.

Minutes will be available 30 days from the date of the meeting. Pursuant to regulations of the Department of Commerce (15 CFR 4.6), requests to review the minutes should be made by completing Form CD-244. Copies of this form are available from the Central Reference and Records Inspection Facility, Department of Commerce, Washington, D.C. 20230.

## **DEPARTMENT OF HEALTH,** **EDUCATION, AND WELFARE** **Food and Drug Administration** **METHADONE** **Notice of Interim Approval**

In the FEDERAL REGISTER of December 15, 1972 (37 FR 26790) the Commissioner of Food and Drugs amended 21 CFR Part 130 by promulgating new regulations for methadone.

These new regulations require that, beginning March 15, 1973, methadone will be available for use as an analgesic and for the treatment of narcotic addiction only through a closed distribution system to approved pharmacies and approved methadone treatment programs. The Commissioner is concerned that all qualified methadone treatment programs continue to operate without interruption and that methadone be available in as many approved hospital pharmacies as is justified for its analgesic use. The Food and Drug Administration has made every effort through such means as mailings, workshops, and various national organizations to inform all sponsors of methadone treatment programs of the requirements of the new regulations and to encourage them to submit applications for approval of such programs as soon as possible.

By March 9, 1973, approximately 300 applications for approval of methadone treatment programs had been received by the Food and Drug Administration and such applications are being received in increasing numbers. Each of these applications requires a review and a determination of its adequacy by the Food and Drug Administration and this action cannot be completed in all cases by the March 15, 1973, deadline. Also, it is recognized that there may be some instances where sponsors of ongoing methadone treatment programs, for some legitimate reason, will have failed to submit an application by March 15, 1973.

To avoid disruption of ongoing methadone treatment programs the Commissioner concludes that an interim approval should be granted for any ongoing methadone treatment program for which an application for approval has been submitted to the Food and Drug

Administration. This interim approval will expire on May 15, 1973, except for any application for which final approval is granted or denied prior to that time in which case the interim approval shall expire on the date of the granting or denying of final approval. The sponsor of an ongoing methadone treatment program which is covered by the interim approval may continue to order and receive shipments of methadone. However, the interim approval does not apply to any exception or exemption requested under the new methadone regulations nor will it preclude the Food and Drug Administration's taking regulatory action against a methadone treatment program for failing to comply with any provision of the Federal Food, Drug, and Cosmetic Act and the regulations promulgated thereunder.

In the case of hospitals that have submitted applications for use of methadone for analgesia in severe pain, for detoxification, and for temporary maintenance treatment, the same conditions for interim approval as set forth above apply.

The Food and Drug Administration may authorize a single emergency shipment of methadone to an ongoing methadone treatment program which has not yet submitted an application for approval, on a case-by-case basis where a bona fide emergency is shown to exist. Requests for such authorization should be submitted to the Food and Drug Administration, Bureau of Drugs, Methadone Monitoring Staff (BD-125) (telephone 301-443-3504), 5600 Fishers Lane, Rockville, MD 20852.

This notice is issued pursuant to sections 505 and 701(a) of the Federal Food, Drug, and Cosmetic Act as amended (21 U.S.C. 355, 371(a)), section 303(a) of the Public Health Service Act as amended (42 U.S.C. 242a(a)), and section 4 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (42 U.S.C. 257(a)), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: March 13, 1973.

WILLIAM F. RANDOLPH,  
*Deputy Associate Commissioner*  
*for Compliance.*

#### ATOMIC ENERGY COMMISSION

[Docket No. 50-335]

#### FLORIDA POWER & LIGHT CO. Establishment of Atomic Safety and Licensing Board

On January 9, 1973, the Commission published in the FEDERAL REGISTER, 38 FR 1139, a notice of hearing pursuant to 10 CFR Part 50, Appendix D, section B, The St. Lucie Nuclear Power Plant, Unit 1, of the Florida Power & Light Co., is subject to the above provisions of 10 CFR Part 50. The notice indicated that the Safety and Licensing Board for this proceeding would be designated at a later date and that notice of its membership would be published in the FEDERAL REGISTER.

Pursuant to the Atomic Energy Act of 1954, as amended, the regulations of Title 10, Code of Federal Regulations, Part 2, Rules of Practice, and the notice of hearing referred to above, notice is hereby given that the Safety and Licensing Board in this proceeding will consist of Dr. Hugh C. Paxton, Dr. Paul W. Purdom, and Robert M. Lazo, Esq., Chairman, Dr. Walter H. Jordan has been designated as a technically qualified alternate and Max D. Paglin, Esq., has been designated as an alternate qualified in the conduct of administrative proceedings.

The positions and mailing addresses of the Board members are as follows:

1. Robert M. Lazo, Esq., Chairman, an attorney member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.
2. Dr. Hugh C. Paxton, Los Alamos Scientific Laboratory, Post Office Box 1663, Los Alamos, NM 87544.
3. Dr. Paul W. Purdom, Director, Center for Urban Research and Environmental Studies, Drexel University, 32d and Chestnut Streets, Philadelphia, PA 19104.
4. Max D. Paglin, Esq., Alternate Chairman, an attorney member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.
5. Dr. Walter H. Jordan, Senior Research Adviser, Oak Ridge National Laboratory, Post Office Box X, Oak Ridge, TN 37830.

The above-designated Board is authorized to rule on any petitions to intervene received in this proceeding. As provided in the notice of hearing, the date and place of a prehearing conference and of a hearing will be scheduled by the Board and will be published in the FEDERAL REGISTER.

date and place of a prehearing conference and of a hearing will be scheduled by the Board and will be published in the FEDERAL REGISTER.

Dated at Washington, D.C., this 9th day of March 1973.

NATHANIEL H. GOODRICH,  
Chairman, Atomic Safety and  
Licensing Board Panel.

#### NOTICES

[Docket No. 50-344]

#### PORTLAND GENERAL ELECTRIC CO. ET AL. Establishment of Atomic Safety and Licensing Board

On December 29, 1972, the Commission published in the FEDERAL REGISTER, 37 FR 28770, a notice of hearing pursuant to 10 CFR Part 50, Appendix D, section B, The Trojan Nuclear Plant of the Portland General Electric Co., the city of Eugene, Oreg., and the Pacific Power & Light Co. is subject to the above provisions of 10 CFR Part 50. The notice indicated that the Safety and Licensing Board for this proceeding would be designated at a later date and that notice of its membership would be published in the FEDERAL REGISTER.

Pursuant to the Atomic Energy Act of 1954, as amended, the regulations of Title 10, Code of Federal Regulations, Part 2, rules of practice, and the notice of hearing referred to above, notice is hereby given that the Safety and Licensing Board in this proceeding will consist of Dr. A. Dixon Callihan, Dr. John R. Lyman, and Jerome Garfunkel, Esq., chairman, Mr. Ernest E. Hill has been designated as a technically qualified alternate and Thomas W. Reilly, Esq., has been designated as an alternate qualified in the conduct of administrative proceedings.

The positions and mailing addresses of the Board members are as follows:

1. Jerome Garfunkel, Esq., Chairman, an attorney member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.
2. Dr. A. Dixon Callihan, Union Carbide Corp., Post Office Box Y, Oak Ridge, TN 37830.
3. Dr. John R. Lyman, Department of Environmental Sciences and Engineering, University of North Carolina, Chapel Hill, N.C. 27514.
4. Thomas W. Reilly, Esq., Alternate Chairman, an attorney member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.
5. Mr. Ernest E. Hill, Alternate, Lawrence Livermore Laboratory, University of California, Post Office Box 808-L-123, Livermore, CA.

The above-designated Board is authorized to rule on any petitions to intervene received in this proceeding. As provided in the notice of hearing, the date and place of a prehearing conference and of a hearing will be scheduled by the Board and will be published in the FEDERAL REGISTER.

Dated at Washington, D.C., this 9th day of March 1973.

NATHANIEL H. GOODRICH,  
Chairman, Atomic Safety and  
Licensing Board Panel.  
[FR Doc. 73-4953 Filed 3-14-73; 8:45 am]

[Docket No. 50-346]

#### TOLEDO EDISON CO. AND CLEVELAND ELECTRIC ILLUMINATING CO. Establishment of Atomic Safety and Licensing Board

On January 5, 1973, the Commission published in the FEDERAL REGISTER, 38 FR

#### NOTICES

904, a notice of hearing pursuant to 10 CFR Part 50, Appendix D, section B, The Davis-Besse Nuclear Power Station of the Toledo Edison Co. and the Cleveland Electric Illuminating Co. is subject to the above provisions of 10 CFR Part 50. The notice indicated that the Safety and Licensing Board for this proceeding would be designated at a later date and that notice of its membership would be published in the FEDERAL REGISTER.

Pursuant to the Atomic Energy Act of 1954, as amended, the regulations of Title 10, Code of Federal Regulations, Part 2, rules of practice, and the notice of hearing referred to above, notice is hereby given that the Safety and Licensing Board in this proceeding will consist of Dr. Cadet H. Hand, Jr., Mr. Frederick J. Shon, and John F. Ferkakides, Esq., Chairman, Dr. Harry Foreman has been designated as a technically qualified alternate and Joseph F. Tubridy, Esq., has been designated as an alternate qualified in the conduct of administrative proceedings.

The positions and mailing addresses of the Board members are as follows:

1. John B. Ferkakides, Esq., Chairman, an attorney member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.
2. Dr. Cadet H. Hand, Jr., Director, Bodega Marine Laboratories, University of California, Post Office Box 247, Bodega Bay, CA 94923.
3. Mr. Frederick J. Shon, a technical member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.
4. Joseph F. Tubridy, Esq., Alternate Chairman, an attorney, formerly with the U.S. Department of Justice, 4100 Cathedral Avenue NW, Washington, DC 20016.
5. Dr. Harry Foreman, Alternate, Director, Center for Population Studies, University of Minnesota, Minneapolis, Minn. 55455.

The above-designated Board is authorized to rule on any petitions to intervene received in this proceeding. As provided in the notice of hearing, the date and place of a prehearing conference and of a hearing will be scheduled by the Board and will be published in the FEDERAL REGISTER.

Dated at Washington, D.C., this 9th day of March 1973.

NATHANIEL H. GOODRICH,  
Chairman, Atomic Safety and  
Licensing Board Panel.

[Docket Nos. 50-338 and 50-339]

#### VIRGINIA ELECTRIC AND POWER CO. Establishment of Atomic Safety and Licensing Board

On December 22, 1972, the Commission published in the FEDERAL REGISTER, 37 FR 28313, a notice of hearing pursuant to 10 CFR Part 50, Appendix D, section B, The North Anna Power Station Units 1 and 2 of the Virginia Electric and Power Co. are subject to the above provisions of 10 CFR Part 50. The notice indicated that the Safety and Licensing

Board for this proceeding would be designated at a later date and that notice of its membership would be published in the FEDERAL REGISTER.

Pursuant to the Atomic Energy Act of 1954, as amended, the regulations of Title 10, Code of Federal Regulations, Part 2, rules of practice, and the notice of hearing referred to above, notice is hereby given that the Safety and Licensing Board in this proceeding will consist of Mr. R. B. Briggs, Dr. Emil T. Chanlett, and Sidney G. Kingsley, Esq., Chairman, Dr. Kenneth A. McCollum has been designated as a technically qualified alternate and Daniel H. Head, Esq., has been designated as an alternate qualified in the conduct of administrative proceedings.

The positions and mailing addresses of the Board members are as follows:

1. Sidney G. Kingsley, Esq., Chairman, an attorney member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.
2. Mr. R. B. Briggs, Associate Director, Molten-Salt Reactor Program, Oak Ridge National Laboratory, Post Office Box Y, Oak Ridge, TN 37830.
3. Dr. Emil T. Chanlett, Department of Environmental Sciences, University of North Carolina, Chapel Hill, N.C. 27514.
4. Daniel H. Head, Esq., Alternate Chairman, an attorney member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.
5. Dr. Kenneth A. McCollum, Alternate, Assistant Dean, College of Engineering, Oklahoma State University, Stillwater, Okla. 74074.

The above designated Board is authorized to rule on any petitions to intervene received in this proceeding. As provided in the notice of hearing, the date and place of a prehearing conference and of a hearing will be scheduled by the Board and will be published in the FEDERAL REGISTER.

Dated at Washington, D.C., this 9th day of March 1973.

#### REGULATORY GUIDES

##### Notice of Issuance and Availability

The Atomic Energy Commission has issued five new guides, Regulatory Guide 8.1, "Radiation Symbol," Regulatory Guide 8.2, "Administrative Practices in Radiation Monitoring," Regulatory Guide 8.3, "Film Badge Performance Criteria," Regulatory Guide 8.4, "Direct-Reading and Indirect-Reading Pocket Dosimeters," and Regulatory Guide 8.5, "Immediate Evacuation Signal," in its Regulatory Guide series. This series has been developed to describe and to make available to the public methods acceptable to the AEC Regulatory staff for implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance

to applicants concerning certain information needed by the staff in its review of applications for permits and licenses.

The new guides are the first to be issued in Division 8, "Occupational Health Guides," of the Regulatory Guide series. Regulatory Guides 8.1, 8.2, 8.3, 8.4, and 8.5 indicate acceptability, subject to conditions, of the use of American National Standards Institute standards N2.1-1969, N13.2-1969, N13.7-1972, N13.5-1972, and N2.3-1967, respectively, in implementing certain parts of the Commission's regulations.

Comments and suggestions for improvements in the guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff. Copies of issued guides may be obtained by request to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director of Regulatory Standards.

Other Division 8 Regulatory Guides currently being developed include the following:

- Fissile Material Symbol.
- Bioassay for Uranium.
- As Low As Practicable Occupational Exposure to Ionizing Radiation from Nuclear Reactors.
- Respiratory Protection.
- Test Procedures for Geiger-Mueller Counters.
- Occupational Radiation Exposure Records Systems.
- Dosimetry for Criticality Accidents.
- Criticality Accidents Alarm System.

(5 U.S.C. 552(a))  
Dated at Bethesda, Md., this 6th day of March 1973.

For the Atomic Energy Commission.

LESTER ROGERS,  
Director of Regulatory Standards.

**FEDERAL HOME LOAN BANK BOARD**  
**FEDERAL SAVINGS AND LOAN ADVISORY COUNCIL**

## Notice of Meeting

Pursuant to section 10(a) of Public Law 92-463, entitled the Federal Advisory Committee Act, notice is hereby given of the meeting of the Federal Savings and Loan Advisory Council on Monday, Tuesday, and Wednesday, March 19, 20, 21, 1973. The meeting will commence at 9 a.m. on March 19, at 9 a.m. on March 20, and at 9 a.m. on March 21 at the Madison Hotel, 15th and M Streets NW., Washington, D.C., in the Arlington Room.

MONDAY, MARCH 19, 1973

- 9-11 a.m.----- General discussion.
- 2-15 p.m.----- Further delegation of authority to Federal Home Loan Banks on branching applications.
- 2:45 p.m.----- Sale of consolidated capital notes by Federal Home Loan Banks.
- 3:15 p.m.----- Service corporations—proposed regulations.
- 3:45 p.m.----- Federal Advisory Committee Act.
- 4:15 p.m.----- Rural Development Act.

TUESDAY, MARCH 20, 1973

- Change regulations regarding loans on certain commercial buildings.
- Prepayment provisions, FR 545.6-12 on commercial loans.
- Investments in other savings and loan associations counting as liquidity.
- Loans to one borrower.
- Increase the 80 percent limitation on loans insured by PMI, on other than single family.
- Review of liquidity regulations.
- Board hearings on major or controversial regulations.
- Foundation for Cooperative Housing.
- Line of credit for builder financing.
- Joint venture in nationwide lending.
- Maximum term on farm loans using other than monthly installments.

Establishment of service corporation offices over state lines for mortgage banking purposes.

WEDNESDAY, MARCH 21, 1973

9-11 a.m.----- General discussion.  
The meeting will be open to the public on March 19 from 9-5, on March 20 from 9-5, and on March 21 from 9-5.

[SEAL] CARL O. KAMP, Jr.,  
Acting Chairman,  
Federal Home Loan Bank Board.

MARCH 12, 1973.

**FEDERAL POWER COMMISSION**

[Docket No. ID-260, etc.]

**AUTHORITY TO HOLD CERTAIN POSITIONS**

## Notice of Applications

MARCH 9, 1973.

Take notice that the following applications were filed on the stated dates, pursuant to section 305(b) of the Federal Power Act, for authority to hold the position of officer or director of more than one public utility, or the position of officer or director of a public utility and officer or director of a firm authorized to market utility securities, or the position of officer or director of a public utility and officer or director of a company supplying electric equipment to such public utility.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 30, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petition to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it

in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

Secretary.

[FR Doc. 73-5037 Filed 3-14-73; 8:45 am]

**ATLANTIC RICHFIELD CO.**

[Docket No. CI73-574]

## Notice of Application

MARCH 9, 1973.

Take notice that on March 2, 1973, Atlantic Richfield Co. (Applicant), Post Office Box 2819, Dallas, TX 75221, filed in Docket No. CI73-574 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co., from the Willow

Springs Field, Gregg County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on February 15, 1973, within the contemplation of \$157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and that it proposes to continue said sale for 1 year from the end of the 60-day emergency period within the contemplation of \$2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell an average daily quantity of 1,000 Mcf of gas at 35 cents per Mcf at 14.65 p.s.i.a.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-5026 Filed 3-14-73; 8:45 am]

[Docket No. E-8013]

**BUCKEYE POWER, INC.****Notice of Proposed Changes in Rates and Charges**

MARCH 8, 1973.

Take notice that Buckeye Power, Inc. (Buckeye) on January 31, 1973, tendered

for filing Supplement No. 9 to Rate Schedules FPC Nos. 3 through 29, inclusive, and Supplement No. 8 to Rate Schedule FPC No. 30. Buckeye states that it is presently rendering service under these rate schedules to 28 member-owners. The proposed changes would increase the rates charged by Buckeye to each of its member-owners by approximately 1 mill per kilowatt hour, according to the company. Buckeye estimates that this increase will produce approximately \$2,548,923 in additional revenues from jurisdictional sales and service based on a volume of sales for the 12-month period ending June 30, 1972. The proposed rate change is described in the company's transmittal letter as follows:

• • • The primary reason for the increase is to produce equity capital to Buckeye in an orderly and systematic manner which will assure its ability to add generating capacity to meet its present and foreseeable future requirements. Unlike normal rate filings, the data supporting this filing is not based upon historical information nearly so much as it is upon Buckeye's need for additional capital in connection with expansion of its utility plant.

Buckeye proposes that the supplements be made effective April 1, 1973, and requests permission to be relieved of the requirements of § 35.13(b) of the Commission's regulations insofar as they may not have been met by the company's letter and enclosures because in Buckeye's opinion, the information therein constitutes all pertinent information reasonably available to Buckeye.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 20, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-5035 Filed 3-14-73; 8:45 am]

[Project No. 2110]

**CONSOLIDATED WATER POWER CO.**  
Notice of an Application for New License

MARCH 9, 1973.

Public notice is hereby given pursuant to section 4(e) of the Federal Power Act (16 U.S.C. 791a-825r) that an application for a new license was filed on February 10, 1969 (as supplemented February 27, 1970, March 17, and June 16, 1971, and May 8, 1972), by Consolidated Water Power Co. (Correspondence to: Mr. F. E. Hustung, Secretary, Consoli-

dated Water Power Co., Wisconsin Rapids, Wis. 54494) the current Licensee for Project No. 2110, known as the Stevens Point Project, located on the Wisconsin River in the city of Stevens Point, Portage County, Wis.

The original license for the project expired on June 30, 1970. The Applicant is now operating the project under annual license.

This run-of-the-river project, which affects the navigable waters of the United States, has an installed capacity of 3,840 kilowatts (5,120 hp.). It consists of: (1) A concrete gravity dam about 28 feet high and 1,390 feet long composed of a powerhouse section, a 450-foot long spillway section with 15 26-foot wide by 16.5-foot deep tainter gates, and dikes extending upstream from the ends of the dam consisting of a 2,600-foot-long earthen right embankment and a combination 1,022-foot-long concrete gravity wall and a 1,490-foot-long earthen embankment along the left shore; (2) a 2,000-foot-long concrete overflow about 3/4 mile upstream of the dam at Rocky Run; (3) a 3,915-acre reservoir with a normal water surface elevation of 1,088.07 feet; (4) a powerhouse, integral with the dam, containing six generating units each rated at 640 kilowatts; and (5) appurtenant facilities.

Applicant estimates a net investment of \$1,042,012.55 as of June 30, 1970, which is less than its estimate of the fair market value of \$3,600,000.

Applicant estimates that the annual taxes paid for the project are \$103,000. The 3,915-acre project reservoir extends 13 miles upstream from the dam and has a maximum width of 2 miles. Most of the project land owned by the Applicant is low and swampy and has little recreational value except for hunting and fishing.

Three parks are operated at the reservoir by the city of Stevens Point on land donated by the Company. Facilities at the parks provide for picnicking, fishing, hiking, and tennis. Playing fields and a band shell are also available. Also, Portage County is seeking to purchase 60 acres of project land along the reservoir for park purposes. Other facilities on the reservoir include two boat launching ramps.

Project energy is sold to Consolidated Papers, Inc. (Applicant's parent company) for use in the manufacture of paper and paper products principally at its Stevens Point mill, and also at its plants in Wisconsin Rapids, Biron, and Whiting. Electricity is also wholesaled to the city of Wisconsin Rapids and retailed in and near the village of Biron.

Any person desiring to be heard or to make protest with reference to said application should on or before May 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appro-

appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-5036 Filed 3-14-73; 8:45 am]

[Docket No. E-8045]

# LAKE SUPERIOR DISTRICT POWER CO. Notice of Proposed Changes in Rates and Charges

MARCH 9, 1973.

Take notice that on February 26, 1973, Lake Superior District Power Co. (Company) tendered for filing a contract with North Central Power Co. Inc. (North Central) dated February 5, 1973, which modifies the contract between the same parties dated July 27, 1964, as supplemented. The filing reduces the rates provided in that contract. The Company proposes an effective date of September 1, 1971, necessitating a refund of \$5,994.45 to North Central for the first year ended September 1, 1972, and additional refunds subsequent to that date.

The Company states that the changes embodied in the new contract were required as a result of North Central acquiring the Arpin Dam and hydroelectric plant. This plant has a capacity of 1,200 kilowatts at 80 percent power factor, which made the old contract dated July 27, 1964, obsolete because the demand charge in that contract was based on a total estimated 700 kilowatts of North Central hydroelectric capacity.

The Company also states that it was agreed between the parties that the new contract should not be based on North Central's system demand less some calculated credit for North Central's hydroelectric capacity. The old contract was based on estimated hydro capacity and had proved cumbersome to administer. It required the Company to synchronize demand charts to arrive at North Central's system load. Consequently, it was agreed that the new rate should be based on the meter located at the 69,000-volt bus of North Central's substation at the point of delivery. All charges would be based on metered values at this point.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 20, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to in-

## NOTICES

tervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Project 2709]

# MONONGAHELA POWER CO. ET AL. Order Providing for Hearing and Ruling on Motions

MARCH 9, 1973.

On June 3, 1970, Monongahela Power Co., the Potomac Edison Co., and the West Penn Power Co. filed their application for a license for 50 years authorizing the construction, operation and maintenance of the Davis Power Project, to be located in the vicinity of the towns of Thomas and Davis in Tucker and Grant Counties, W. Va., on the Blackwater River, and is described as:

(1) Two rockfill dams on Cabin Mountain having a total length of about 7,800 feet and a maximum height of about 90 feet forming an upper reservoir with a gross storage capacity of 30,000 acre-feet and a surface area of about 600 acres at full pond elevation 4,042 feet (m.s.l.); (2) an intake channel; (3) a 1,325-foot-long tunnel with diameter varying from 29.5 to 27 feet; (4) a 1,350-foot-long steel penstock 27 feet in diameter; (5) two 1,670-foot-long steel penstocks 19 feet in diameter; (6) four 520-foot-long steel penstocks 13.5 feet in diameter; (7) a surface powerhouse containing four 250,000-kilowatt pump-turbine generating units; (8) two 550,000 kilovolt-ampere transformers; (9) a tailrace channel about 500 feet long; (10) a lower reservoir having a gross storage capacity of 182,500 acre-feet and a surface area of about 7,000 acres at full pond elevation 3,182 feet (m.s.l.) formed by a rockfill dam constructed across Blackwater River about 75 feet high and 710 feet long, having an ungated spillway, and low level outlet works; (11) two independent overhead single-circuit 500-kilovolt transmission lines constructed in a single corridor from the project 500-kilovolt switchyard and extending in a northeasterly direction for about 1.2 miles to a point just beyond the crest of Cabin Mountain then extending in a northerly direction for about 10.8 miles where a connection would be made with Applicant's existing 500-kilovolt line from Monongahela Power Co.'s Pruntytown substation to VEPCO's Mount Storm generating plant; (12) a 500-kilovolt switchyard adjacent to the powerhouse; and (13) all other facilities appurtenant to operation of the project.

Notice of the application was issued July 24, 1970, setting September 16, 1970, as the last date for petitions to intervene. Notice of Applicant's revised application for license for unconstructed project was issued June 30, 1972, setting September 5, 1972, as the last date for petitions to intervene. Numerous protests have been received and all petitions to intervene have been granted. Intervention has been granted to: (1) Canaan Valley Association, (2) Linda Cooper Elkinton and David Passmore Elkinton (Elkinton), (3) Appalachian Research and Defense Fund, Inc. (Defense Fund), (4) Environmental Defense Fund, Inc., (5) West Virginia Highlands Conservancy (Highlands), (6) the Attorney General of West

Virginia on behalf of the State of West Virginia, (7) Tucker County Chamber of Commerce, and (8) West Virginia Division, Izaak Walton League of America.

A series of pleadings has been filed by Defense Fund, Elkinton, Highlands and Applicants regarding the filing, amendment and circulation of Applicant's Initial Environment Impact Statement. The first of these pleadings was filed August 18, 1971, and the last was filed February 23, 1972. The period since August 18, 1971, has also been a period during which the Commission has been engaged in litigation regarding the procedures by which it is to fulfill its responsibilities under the National Environmental Policy Act. On October 10, 1972, the U.S. Supreme Court denied certiorari to review the decision in the Court of Appeals for the Second Circuit in "Greene County Planning Board v. FPC," 455 F.2d 412 (1972) "F.P.C. v. Greene County Planning Board," S. Ct. No. 71-1591 — U.S. — (1972). On December 18, 1972, the Commission issued its Order 415-C in Docket No. R-398 regarding its procedures under the National Environmental Policy Act. The pleadings of the parties have thereby been rendered moot. That Order establishes procedures by which each Applicant, in certain specified instances, must submit a detailed environmental report with its application. Commission staff will conduct an independent analysis of the filings and require Applicant to make any corrections.

Staff will then prepare and circulate for comment a draft environmental impact statement. Comments will be made within 45 days of the date of notice of availability appears in the FEDERAL REGISTER. After expiration of the time for comment, and after consideration of the comments received, staff will revise as necessary and finalize its environmental impact statement which, together with the comments received will accompany the application through the agency review and decisionmaking process. At the hearing provided by this order, the staff's environmental impact statement will be offered in evidence.

In accordance with Order 415-C, all parties to the proceeding taking a position on environmental matters shall offer evidence for the record in support of their environmental position and the Applicant and all intervenors shall specify any differences with the Staff's position and shall include, among other relevant factors, a discussion of their position in the context of the factors enumerated in the regulations.

The procedures to be followed in this proceeding will be in accordance with our Order No. 415-C in docket No. R-398 relating to the implementation of the National Environmental Policy Act as follows:

1. All testimony, exhibits and pleadings shall comport with Rules 1.12, 1.26, 1.15, 1.16, and 1.17 of our rules of practice and procedure and shall be accompanied by a certificate stating the names and addresses of all parties served.

2. Applicants shall file on or before April 16, 1973, an original and 10 copies of such updated testimony as may be necessary with copies served on all parties. At this filing Applicants will have filed all their testimony including qualifications of the witnesses and exhibits to be presented in Applicants' direct case.

3. On June 15, 1973, staff shall file a draft environmental impact statement.

4. At the same time that the Commission Staff's draft environmental impact statement is filed with the Secretary, public notice of the availability of the Commission Staff's statement shall also be given, and the draft statement shall be made available for comment to the parties to this proceeding. The Council on Environmental Quality, the general public and other appropriate Federal, State and local agencies. All comments shall be filed with the Secretary by July 30, 1973.

5. On October 5, 1973, the Commission Staff and intervenors, respectively, shall file, with the Secretary, an original and 10 copies of all direct testimony and exhibits, including qualifications of witnesses with copies served on all parties.

6. On October 5, 1973, the Commission Staff shall also file an original and 10 copies of the Commission Staff's final environmental impact statement. Copies of the final environmental impact statement shall be served on all participants.

7. In order that the parties may have a sufficient period of time in which to prepare cross-examination on the Staff's final environmental impact statement, the hearing in this proceeding shall commence on November 6, 1973, 30 days after the Commission Staff files its final environmental impact statement with the Secretary.

8. The final environmental impact statement shall be offered into evidence at the hearing, and cross-examination thereon shall be permitted.

9. Time for preparation of rebuttal testimony and the form of its presentation shall be fixed by the Administrative Law Judge.

10. The Administrative Law Judge shall also provide for hearing for the benefit of local residents as budget limitations permit.

On January 24, 1972, Applicants filed their direct testimony and exhibits and a motion requesting that the Commission set for hearing their application for license at the earliest practicable date. The schedule set forth in this order is designed to reach hearing on the contested issues as soon as practicable in view of our responsibilities under the National Environmental Policy Act and current hearing calendar.

On February 12, 1973, Applicants filed a motion for prehearing conference for the purpose of adopting a schedule for implementation of Order 415-C. We are of the view that the order herein has fully and completely provided for the implementation of Order 415-C. Should it appear that a prehearing conference is desirable for purposes other than scheduling, the Administrative Law

Judge may hold a conference at his discretion.

The Commission finds: It is appropriate and in the public interest to hold a public hearing as hereinafter provided on the application of Monongahela Power Co., The Potomac Edison Co. and West Penn Power Co. for a license to construct, and maintain, a hydroelectric project, which application has been docketed as Project No. 2709.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Federal Power Act, particularly sections 4(e), 10(a), and 308 thereof, and the Commission's rules of practice and procedure, a public hearing shall be held in a hearing room of the Federal Power Commission, 441 G Street NW., Washington DC, 20426, respecting the matters involved and issues presented in this proceeding. The time for the submission of additional testimony and exhibits by the participants and the time for convening additional hearing sessions in Washington, D.C. and such other places by the Administrative Law Judge in conjunction with the dates set forth below.

(B) The following procedure is prescribed for this proceeding:

1. On April 16, 1973, the Applicant shall file with the Secretary of the Commission an original and 10 copies of all updated testimony, including qualifications of the witnesses, and exhibits to be presented in Applicants' direct case. Copies of such testimony and exhibits shall be served on all parties.

2. On June 15, 1973, the Commission Staff shall file an original and 10 copies of the Commission Staff's draft environmental impact statement. Copies of this statement shall be served on all participants.

3. At the same time that the Commission Staff's draft environmental impact statement is filed with the Secretary, public notice of the availability of the Commission Staff's statement shall be given, and the draft statement shall be made available for comment to the parties to this proceeding, the Council on Environmental Quality, the general public and other appropriate Federal, State and local agencies. All comments shall be filed with the Secretary by July 30, 1973.

4. On October 5, 1973, Commission Staff and intervenors, respectively, shall file with the Secretary, an original and 10 copies of all direct testimony and exhibits, including qualification of witnesses, with copies served on all parties.

5. On October 5, 1973, the Commission Staff shall file an original and 10 copies of the Commission Staff's final environmental impact statement. Copies of the final environmental impact statement shall be served on all participants.

6. In order that the parties may have a sufficient period of time in which to prepare cross-examination on the Staff's final environmental impact statement, the hearing in this proceeding shall com-

mence at 10 a.m. in a hearing room at the Commission's office in Washington, D.C., on November 6, 1973, 30 days after the Commission Staff files its final environmental impact statement with the Secretary.

7. The Presiding Administrative Law Judge shall prescribe procedures for the hearing, consistent with the decision in *Greene County Planning Board v. FPC*, supra, and with this order. At such hearing, the Staff's environmental impact statement, as revised and finalized following the receipt of comments, shall be offered in evidence, and cross-examination thereon shall be permitted.

(C) All motions to strike prepared testimony, including the final environmental impact statement and exhibits, and replies to such motions shall be filed with the Administrative Law Judge within periods of time to be set by the Administrative Law Judge.

(D) All of the testimony, except exhibits and the final environmental impact statement, shall be in question and answer form.

(E) No exhibits, except those of which official notice may properly be taken, shall contain narrative material other than brief explanatory notes.

(F) Any party submitting more than one exhibit shall enclose a cover sheet listing the title of each exhibit in the sequence in which it is to be marked for identification.

(G) The Administrative Law Judge will specify the order of cross-examination and time to be permitted for preparation of rebuttal evidence.

(H) Subsequent to the filing of the final environmental impact statement but prior to the evidentiary hearing, the Administrative Law Judge shall hold a public hearing session in the vicinity of the project for the purpose of receiving statements of position from interested members of the public. Public notice of the public hearing session shall be given in the vicinity of the project prior to such hearing session.

(I) If upon motion filed 20 days in advance of the due date for submission of prepared direct testimony by intervenors and Staff and a showing of fact upon which the Administrative Law Judge finds it would be an economic hardship to prepare written testimony, the Administrative Law Judge may permit a party to present sworn direct oral testimony.

(J) If upon motion filed 20 days in advance of the opening date of the hearing and a showing that presentation of a witness in Washington, D.C., will constitute a hardship, the Administrative Law Judge may permit cross-examination of such witness during the hearing session in the vicinity of the project, as provided for in paragraph (H) of this order.

(K) If it becomes apparent that a saving of time or money may be achieved in clarifying relevant issues to be tried, the Administrative Law Judge shall hold a prehearing conference at which, among other matters, the admission into evi-

## NOTICES

dence of relevant but uncontroverted facts within the necessity of presenting a sponsoring witness therefor shall be considered.

(L) In order to provide for an expeditious hearing procedure, to avoid repetitious and cumulative cross-examination and the necessity for recalling witnesses, all cross-examination on any particular area or subject matter receiving evidentiary treatment by the parties and treatment in the final environmental impact statement shall be conducted at one time. Witnesses deemed necessary to complete such cross-examination shall be subject to recall as needed.

(M) The Commission's rules of practice and procedure shall apply in this proceeding except to the extent they are modified or supplemented herein.

(N) The issues raised by the outstanding motions of the parties are, for the reasons discussed above, moot, and therefore the motions are denied.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[Docket No. E-9058]

**OKLAHOMA GAS AND ELECTRIC CO.**  
Notice of Filing of Agreement

MARCH 9, 1973.

Take notice that on March 1, 1973, Oklahoma Gas and Electric Co. (OGE), tendered for filing copies of an Agreement for Purchase and Sale of Electric Power and Energy, dated October 26, 1972, between OGE and Middle South Services, Inc., as agent for Arkansas Power and Light Co. (FPC No. 21A), and Letter Agreement dated January 31, 1973, between the two companies.

OGE states that these agreements provide for OGE to sell 100,000 kilowatts of Contract Capacity and accompanying energy to Arkansas Power and Light Co. for a 13-month period beginning May 1, 1973, and ending May 31, 1974, and 50,000 kilowatts of Contract Capacity for the month of April 1973.

OGE also purports to enclose two copies of the Estimated Revenue for the 12-month period ending April 30, 1974.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 19, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this

application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.73-5040 Filed 3-14-73; 8:45 am]

[Docket No. CI73-573]

**PENNZOIL PRODUCING CO.**  
Notice of Application

MARCH 12, 1973.

Take notice that on February 27, 1973, Pennzoil Producing Co. (Applicant), 900 Southwest Tower, Houston, Tex. 77002, filed in Docket No. CI73-573 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to United Gas Pipe Line Co. (United) from the Walker Creek Field, Columbia County, Ark., and delivery of said gas to Beacon Gasoline Co. for processing and delivery to United in Webster Parish, La., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant is presently selling gas from the subject properties pursuant to a temporary certificate issued March 23, 1972, in docket No. CI72-491 at 35 cents per Mcf at 15.025 p.s.i.a. Applicant proposes to continue said sale for 1 year from the expiration of the temporary authorization, March 26, 1973, at 45 cents per Mcf at 15.025 p.s.i.a. within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). The estimated monthly sales volume is 75,000 Mcf of gas.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission

on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.73-5028 Filed 3-14-73; 8:45 am]

[Docket No. CI73-567]

**PHILLIPS PETROLEUM CO.**  
Notice of Application

MARCH 12, 1973.

Take notice that on February 26, 1973, Phillips Petroleum Co. (Applicant), Bartlesville, Okla. 74004, filed in Docket No. CI73-567 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transwestern Pipeline Co. from Lipscomb County, Tex., all as more fully set forth in the application and open to public inspection.

Applicant states that it is selling natural gas within the contemplation of § 157.29 of the regulations under the Natural Gas Act and that it intends to continue said sale for 10 months from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's rules of practice of procedure. Applicant proposes to sell up to 5,000 Mcf of gas per day at 40 cents per Mcf at 14.65 p.s.i.a.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject

to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.73-5027 Filed 3-14-73; 8:45 am]

**PUBLIC SERVICE COMMISSION FOR  
STATE OF NEW YORK**

**Order Rejecting Notice of Intervention**  
MARCH 8, 1973.

The Public Service Commission for the State of New York (PSCNY) filed on January 10, 1973, a notice of intervention in all proceedings which may henceforth be initiated by the filing of a rate increase by a producer making jurisdictional sales for which the producer seeks a price above the area rate applicable to gas of the particular vintage involved on grounds that the original contract has terminated by its terms and a new contract has been entered into with the purchaser. In addition to its request that it be made a party, PSCNY requests a hearing in all such cases.

PSCNY claims that its "blanket notice" is necessary to protect its rights in all proceedings initiated by rate increases which are filed under the policy enunciated in Opinion No. 639, issued December 12, 1972, in Docket No. R-371 (Appalachian and Illinois Basin Areas) with respect to vintaging, pending Commission action on its application for rehearing of that opinion and any action for judicial review. PSCNY states that the only notice given by the Commission of producer rate filings is that contained in the weekly "FPC News"; that such notice does not give sufficient details to enable it to ascertain the filings which involve vintaging; and that subscribers do not receive the FPC News until about half of the statutory 30-day notice period has expired.

Section 1.8(d) of the Commission's rules of practice and procedure permits the filing of a notice of intervention after the filing of a notice of change in rate. That section, however, does not permit the filing of a notice of intervention prior to the filing of a rate change. Nor is there any apparent justification here for permitting PSCNY to file a notice of intervention with respect to filings not yet made and proceedings not

## NOTICES

yet initiated. We shall therefore reject PSCNY's notice.

We agree, however, that rate filings involving the vintaging matter discussed by PSCNY in its notice should be noticed so as to give PSCNY, as well as others, an opportunity to intervene with respect to such filings until such time as this matter is resolved on judicial review. Accordingly, we shall notice all future filings involving "vintaging" in the FEDERAL REGISTER. Moreover, consistent with our rules, PSCNY is free to file a notice of intervention at any time subsequent to the filing of a rate increase as long as its notice of intervention is filed within the time prescribed in our notice.

The Commission orders:  
For the reasons set forth above, the blanket notice of intervention filed by PSCNY on January 10, 1973, is rejected.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc.73-5034 Filed 3-14-73; 8:45 am]

[Docket No. E-8052]

**SOUTH CAROLINA ELECTRIC & GAS CO.**  
Notice of Proposed Changes in Rates and Charges

MARCH 9, 1973.

Take notice that on February 28, 1973, South Carolina Electric & Gas Co. (SCE&G) tendered for filing proposed changes in its FPC Electric Tariff Original Volume No. 1. The proposed changes increase the rates for wholesale electric service rendered by SCE&G to municipal, public power and rural cooperative systems, and provide general terms and conditions for wholesale electric power service to those customers. The filing also contains a new form of Service Agreement and attachment thereto. An index of purchasers is included in the filing.

Copies of this filing have been mailed to SCE&G's customers which are affected by the rate increase and to the South Carolina Public Service Commission.

SCE&G states that the purpose of the filing is to establish a uniformity of terms and conditions and to provide a tariff form of filing in lieu of the present individual contract-type filings. SCE&G's present contracts with its wholesale customers do not have uniform expiration dates. One contract expired on December 31, 1972. Three contracts contemplate rate increases during the term of the contract; SCE&G proposes an effective date of May 1, 1973, for these three: Orangeburg, Winnsboro, and South Carolina Public Service Authority, and for those contracts that have expired prior to that date. SCE&G proposes that for the remaining customers the new rates become effective upon expiration of the existing contracts, at which time new contracts which conform to the tariff will be executed.

SCE&G states that under the present rates, based on the test year 1971, it is earning a rate of return from service

to the municipal customers of only 3.6 percent; and 3.7 percent from the rural cooperative customers. SCE&G is proposing a rate of return of 8.71 percent.

SCE&G avers that no facilities will be installed or modified in order to supply the service to be furnished except as such facilities will be installed or modified in order to supply the service to be furnished except as such facilities may be required for additional service at future times.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 30, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Project 400]

**WESTERN COLORADO POWER CO.**  
Notice of Application for New Major License

MARCH 9, 1973.

Public notice is hereby given that application was filed on January 29, 1969, and supplemented on February 3, 1970, and September 18, 1970, under section 15 of the Federal Power Act (16 U.S.C. 791a-825r) by the Western Colorado Power Co. (Correspondence to: the Western Colorado Power Co., c/o Mr. Lee C. Sherline, Leighton and Sherline, Suite 406, 1701 K Street NW., Washington, DC 20006) for a new major license for constructed Project No. 400, known as the Tacoma-Ames project, located on the Animas River and Lake Fork and Howard's Fork of the San Miguel River in La Plata, San Juan, and San Miguel Counties, Colo. The original license expired on June 30, 1970. The project has since been under annual license. The Tacoma development comprises a concrete diversion dam 15 feet high on Cascade Creek; a conduit about 20,000 feet long extending from Cascade Creek diversion dam to Little Cascade Creek; a diversion dam (Aspaas) on Little Cascade Creek; a short canal from Little Cascade Creek to Cascade Reservoir (Electra Lake); the Terminal Dam located on Elbert Creek comprising a rock-filled log and timber dam 55 feet high and 725 feet long creating Cascade Reservoir with an area of 831 acres and a storage capacity of 22,550 acre-feet; two diversion dams just downstream from Terminal Dam diverting water into a flume 8,800 feet long to a forebay; a forebay with an area of 5.3 acres and a

## NOTICES

storage capacity of 100 acre-feet created by an earth and rock-fill dam 20 feet high and 100 feet long; two penstocks each about 2,900 feet long; a powerhouse located on the Animas River containing three generating units aggregating 8,000 kilowatts operating under a static head of 983 feet; a 46-kilovolt transmission line extending about 20 miles to Durango, Colo.; a 46-kilovolt transmission line about 26 miles long extending to Silverton, Colo.; and all other facilities and interests appurtenant to the operation of the project.

The Ames development consists of a diversion dam on Howard's Fork; a conduit 4,584 feet long and a penstock 2,187 feet long extending to the powerhouse; a stone masonry dam 192 feet long and 10 feet high located on Lake Fork creating Lake Hope with an area of 44 acres and a storage capacity of 2,310 acre-feet; an outlet tunnel 971 feet long; an earth and rock-fill dam 37 feet high and 870 feet long located on Lake Fork downstream from Lake Hope, creating Trout Lake with an area of 142 acres and a storage capacity of 3,180 acre-feet; a conduit 12,653 feet long with a capacity of 50 cubic feet per second extending from the dam; a penstock 2,684 feet long; a powerhouse located on the South Fork San Miguel River containing one generating unit, with a rated capacity of 3,600 kilowatts, directly connected to two water wheels, one operated by water from Lake Fork under a static head of 928 feet and the other from Howard's Fork under a static head of 648 feet; a 46-kilovolt transmission line extending 9 miles to Burro Bridge and three short 12.5-kilovolt lines; and all other facilities and interests appurtenant to the operation of the project.

Applicant estimates its net investment as \$2,529,035 which is less than its estimate of fair value. In the event of takeover of the project Applicant estimates its severance damages would be \$5 million. Applicant estimates its annual local property taxes in excess of \$35,000.

The Tacoma-Ames project's recreational features consist of four public campgrounds with picnic areas, trails and privately developed cottages and boating facilities on Electra Lake, the latter being open to the public on a permit basis. Applicant in cooperation with the Forest Service is developing plans to provide access to the proposed Rainbow Lake and Tacoma Forebay campgrounds, to upgrade sanitary facilities at existing Trout Lake campgrounds and to improve access roads.

The power generated by the project is used for public utility purposes in Applicant's service area in southwestern Colorado.

Any person desiring to be heard or to make protest with reference to said application should on or before May 7, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate ac-

tion to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP73-84]

## EL PASO NATURAL GAS CO.

## Notice of Proposed Rate Treatment for Expenditures Associated with Development Coal Gasifier Plant

MARCH 8, 1973.

Take notice that on February 16, 1973, El Paso Natural Gas Co. (El Paso) tendered for filing proposed accounting and rate treatment for research and development expenditures associated with a development coal gasifier plant. El Paso states that the proposed project is to be located on El Paso's coal lease situated in the Burnham Chapter area of the Navajo Indian Reservation in San Juan County, N. Mex., at the site of El Paso's proposed Burnham Coal Gasification Complex.<sup>1</sup> El Paso avers that the project will undertake the installation and operation of a major facility designed to develop and test, for purposes of feasibility and reliability, certain proposed improvements in the Lurgi coal gasification process.

El Paso also states that the project, including related coal mining activities, will require a capital investment of approximately \$14,054,000. The estimated cost of operation of the project for the first year is \$4,485,000. El Paso requests prior Commission approval for the proposed accounting treatment for the expenditures made in connection with the project and for the inclusion of such expenditures in El Paso's utility cost of service in future rate proceedings.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 23, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file

<sup>1</sup> On Nov. 15, 1972, El Paso filed in Docket No. CP73-131 an application for a certificate of public convenience and necessity pursuant to 7(c) of the Natural Gas Act seeking authorization for the construction and operation of certain facilities on its Southern Division System and the transportation and sale of synthetic pipeline gas mixed with natural gas. The Burnham Coal Gasification Complex is designed to produce up to 250,000 Mcf per day of synthetic pipeline gas per day through coal gasification.

with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. CP73-222]

## NATURAL GAS PIPELINE COMPANY OF AMERICA

## Notice of Application

MARCH 8, 1973.

Take notice that on February 26, 1973, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, IL 60603, filed in Docket No. CP73-222 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that since 1971 the deliverability of its gas supply has been inadequate to support operation of its pipeline at authorized levels of capacity. In order to offset the predicated 1973-74 winter season gas supply delivery deficiencies of its system, Applicant proposes to:

1. Increase the seasonal withdrawal capacity of its Sayre field storage reservoir in Beckham County, Okla., to 42 million Mcf;
2. Increase the peak day and seasonal capacity of its storage fields in Iowa (Cairo and Columbia City) and Illinois (London and Herscher Northwest) by 80,000 Mcf and 8 million Mcf respectively;
3. Increase the capacity of its main transmission system between its Iowa storage fields and the terminus of its main transmission system at Joliet, Ill., to effectuate transportation of the increased daily withdrawal quantities therefrom; and
4. Increase the inventory limitations of its storage fields to the following levels:

Storage field	Mcf
Sayre .....	84,000,000
Cairo Mount Simon .....	20,000,000
Herscher Northwest .....	15,000,000
London .....	50,000,000
Columbia City Mount Simon .....	12,000,000

In order to effectuate this proposal, Applicant seeks authorization to construct and operate the following facilities:

A. Approximately 2.03 miles of 16-inch and 10-inch gathering pipelines, six injection withdrawal wells, and other miscellaneous facilities in the Sayre field storage reservoir;

B. Approximately 6.2 miles of 30-inch and 20-inch loop pipeline and approximately 1.85 miles of 8-inch and 6-inch gathering pipelines, complete eight Mount Simon observation wells as injection-withdrawal wells, additional cushion gas, and other miscellaneous facilities at its Columbus City Mount Simon Storage Field in Louisa County, Iowa;

C. The modification of one existing compressor unit at Station No. 204, drill 14 injection-withdrawal wells as Mount Simon injection-withdrawal wells, approximately 2.36 miles of 16-inch, 8-inch and 6-inch gathering pipelines, additional cushion gas and other miscellaneous facilities at its Cairo Mount Simon Storage Field in Louisa County, Iowa;

D. Two injection-withdrawal wells, approximately 0.55 mile of 8-inch gathering pipeline, additional cushion gas, other miscellaneous facilities at its Herscher Northwest Storage Field in Kan-kakee County, Ill.;

E. Approximately 0.44 mile of 8-inch gathering pipeline, complete two observation wells and one oil recovery well as injection-withdrawal wells, additional cushion gas and other miscellaneous facilities at its London storage field in Fayette County, Ill.; and

F. Approximately 16.20 miles of 36-inch pipeline partially looping its existing pipeline between its Iowa Storage Fields and the terminus of its main transmission system at Joliet, Ill.

Applicant estimates the cost of the proposed facilities inclusive of additional cushion gas at \$12,018,000. Applicant states that it has no special plan to finance this cost separately, but will finance this cost with its other costs through interim and permanent programs.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 2, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be

## NOTICES

unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP72-127]

## NORTHERN NATURAL GAS CO.

## Notice of Further Extension of Time and Postponement of Hearing

MARCH 6, 1973.

On March 5, 1973, the Commission Staff Counsel filed a motion for a further extension of the procedural dates as set by the order issued June 30, 1972, and amended by notices issued October 17, 1972, and December 4, 1972, in the above-designated matter pending the disposition of the proposed stipulation and agreement filed in this proceeding and Docket No. RP71-107 (Phase I). The motion states that no party objects to the motion.

Upon consideration, notice is hereby given that the procedural dates are further amended as follows:

Staff service date—May 4, 1973.  
Intervenor service date—May 21, 1973.  
Northern Natural's rebuttal service date—June 7, 1973.  
Prehearing conference and hearing date—June 26, 1973 (10 a.m., e.d.t.).

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4986 Filed 3-14-73; 8:45 am]

[Docket No. E-7737, E-7739]

## ORANGE &amp; ROCKLAND UTILITIES, INC., AND ROCKLAND ELECTRIC CO.

## Notice of Extension of Time

MARCH 6, 1973.

On February 23, 1973, the Commission Staff Counsel filed a motion requesting an extension of the procedural dates as established by the order issued November 3, 1972, in the above matter.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows: Service of evidence by staff—April 3, 1973. Service of evidence by intervenor—April 17, 1973.

Prehearing conference—April 24, 1973. Rebuttal evidence by Orange & Rockland Utilities, Inc., and Rockland Electric Co.—May 1, 1973.

Cross examination on consolidated issues—May 8, 1973.

Hearing on remaining issues in Docket No. E-7739—May 15, 1973.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-4987 Filed 3-14-73; 8:45 am]

[Dockets Nos. CP73-117, etc.]

## UNITED GAS PIPELINE

## Order on Answers to, and Applications for Rehearing and Clarification of, Orders To Show Cause

MARCH 8, 1973.

United Gas Pipe Line Co., Mississippi River Transmission Corp., Natural Gas Pipeline Company of America, Southern Natural Gas Co., Texas Eastern Trans-

mission Corp., Texas Gas Transmission Corp., Dockets Nos. CP73-117, CP73-168, CP73-169, CP73-170, CP73-171, CP73-179, CP73-180, CP73-189.

On January 17, 1973, the Commission issued an order to show cause why United Gas Pipe Line Co. (United) should not abandon industrial requirements for boiler-fuel use at more than 1,500 Mcf per day where alternate fuel capabilities can meet such requirements, i.e., Priorities 4 and 5 of United's curtailment plan in Opinion No. 647. The five pipeline purchasers from United were named as parties to those proceedings, i.e., Mississippi River Transmission Corp. (MRT), Natural Gas Pipeline Company of America (Natural), Southern Natural Gas Co. (Southern), Texas Eastern Transmission Corp. (Texas Eastern), and Texas Gas Transmission Corp. (Texas Gas). On February 12, 1973, we issued a clarifying order which, inter alia, severed the proceedings into Phase I, which included the show-cause proceeding and those portions of the individual abandonment applications involving gas usage in Priorities 4 and 5, and Phase II, which included the individual abandonment applications. Hearings were prescribed for each of the phases of the proceedings. The several motions and applications discussed infra followed those orders.

## ANSWERS TO SHOW CAUSE ORDER

United, as respondent to the show cause order, and the five pipeline purchasers named as parties, MRT, Natural, Southern, Texas Eastern, and Texas Gas, each filed answers to our orders. The State of Louisiana et al.<sup>1</sup> (Louisiana) filed an answer to the show cause order, which was in the nature of a brief advocating its position in separate additional petitions filed herein. Inasmuch as Louisiana is neither a respondent nor a named party to the show cause proceeding, such an answer is not permitted.<sup>2</sup> Louisiana has petitioned to intervene in these proceedings and it may raise its factual and legal arguments during the proper course of the hearings below. The legal issues raised by Louisiana will be discussed in our disposition of its petition for rehearing.

United contests neither our jurisdiction nor authority to institute the show cause proceeding. Indeed, "United cannot show cause why service should not be abandoned on a firm basis for a substantial volume of gas within Priority 5 as established by Opinion No. 647."<sup>3</sup> Each of the five pipeline customers, on the other hand, contend that (1) the Commission has no authority to initiate an abandonment proceeding, and (2) assuming the existence of such power, it cannot shift the burden of proof to the pipeline.

<sup>1</sup> Natural's answer was contained in its petition for rehearing.

<sup>2</sup> Louisiana Municipal Association, Louisiana Public Service Commission, St. James Parish Utilities, Town of Franklinton, and Norco Gas & Fuel Co.

<sup>3</sup> Section 1.9(c) of the Commission's Rules of Practice and Procedure.

<sup>4</sup> Answer at 4.

Our January 17, 1973, order sets forth both our authority (p. 2) and our reasons (pp. 2, 4-5) for instituting this show cause proceeding. While section 5(a), by its own terms, envisions a proceeding initiated by the Commission, it does not follow that section 7(b) forecloses initiation of an abandonment proceeding by the Commission to protect the public interest. By its express terms, section 7(b) states that no natural gas company shall abandon service without our approval and the appropriate findings by the Commission. There is nothing in section 7(b) to indicate that a filing by a pipeline must precede an abandonment determination by the Commission. Section 16 of the Natural Gas Act<sup>1</sup> complements and supplements our authority to institute such a proceeding. That provision gives us broad authority to carry out the provisions and purposes of the Natural Gas Act,<sup>2</sup> including our responsibility to assure adequate and reliable gas service to consumers at the lowest reasonable cost. Such authority is not to be narrowly construed<sup>3</sup> and the Commission does possess the authority through sections 7(b) and 16 to discharge its public interest responsibilities.<sup>4</sup>

Confronted with a nationwide gas shortage affecting the Nation's economic and social well-being the Commission has both the authority and responsibility to formulate a rational allocation of limited gas supplies,<sup>5</sup> particularly in the supply situation of United. Moreover, because of United's circumstances, we are concerned that a permanent cessation of deliveries of natural gas for inferior uses, where alternate fuel capabilities can meet such requirements, may be required so as not to impair United's ability to serve its human needs customers.<sup>6</sup>

<sup>1</sup> 15 U.S.C. 717d(a).  
<sup>2</sup> 15 U.S.C. 717f(b).

<sup>3</sup> 15 U.S.C. 717f(b).

<sup>4</sup> E.g., section 1(a) of the Natural Gas Act, 15 U.S.C. 717a; *Mesa Petroleum Co. v. F.P.C.*, 441 F.2d 182, 187 (5th Cir. 1971).

<sup>5</sup> *F.P.C. v. Louisiana Power & Light Co.*, 406 U.S. 621 (1972); *Permian Basin Area Rate Case*, 390 U.S. 747, 776 (1968); *Phillips Petroleum Co. v. F.P.C.*, No. 71-1659, 10th Cir., February 20, 1973; *Mobile Oil Corp. v. F.P.C.*, No. 71-1260, D.C. Cir., Oct. 6, 1972; *Superior Oil Co. v. F.P.C.*, 322 F.2d 601, 610-14 (9th Cir. 1963), cert. denied 377 U.S. 922 (1964). This proceeding is unlike the purposes for which Order No. 427 was promulgated, *New England Power Co. v. F.P.C.*, No. 71-1439, D.C. Cir., August 15, 1972, petition for certiorari pending, No. 72-1162. The language in *Texasco, Inc. v. F.P.C.*, No. 71-1590, D.C. Cir., Dec. 12, 1972, slip op. at 10, is not applicable to responsibilities sought to be discharged in this proceeding. See "Public Service Commission of New York v. F.P.C.", 467 F.2d 361 (D.C. Cir. 1972).

<sup>6</sup> *F.P.C. v. Louisiana Power & Light Co.*, supra. Cf. *Permian Basin Area Rate Case*, supra, 390 U.S. at 784; *City of Chicago v. F.P.C.*, 385 F.2d 629, 637 (D.C. Cir. 1967), cert. denied 390 U.S. 945 (1968).

<sup>7</sup> Compare *Alabama Gas Corp. v. F.P.C.*, No. 72-1475, 5th Cir., February 7, 1973, slip op. at 13-14.

## NOTICES

There is nothing in section 7(b) which requires the Commission to assume the burden of proof in this show cause proceeding. There must be evidence and a record to support any ultimate final order of the Commission in this case that United's gas supply is so depleted so as to warrant discontinuance of service,<sup>7</sup> or that the present or future public convenience or necessity permit such abandonment. However, because of the distinctions between sections 5(a) and 7(b), United, as respondent, is required initially to present evidence as to why such abandonment should not be ordered. This show cause order permits a hearing and formulation of a record wherein all affected parties are permitted to offer evidence to aid the Commission in making its final determination.

MRT and Texas Gas contend that the scope of the show cause proceeding should include United's city-gate customers. Priorities 4 and 5 of Opinion No. 647 speak to "industrial requirements for boiler fuel use" and include pipeline customers, direct sale customers, and United's city-gate customers, whether or not such use is "firm" or "interruptible." In other words, Phase I includes all gas sales of United which are directed to boiler fuel use above 1500 Mcf per day, where alternate fuel capabilities can meet such requirements.

Texas Eastern seeks clarification of our January 17 order wherein we stated "that whether or not a contract is in force or has expired, is immaterial to a section 7(b) determination." We did not, as Texas Eastern recognized, intend to preclude the existence or nonexistence of a contract as one factor in arriving at a section 7(b) determination. The weight to be afforded such a factor may be part of the hearing. Our intent in the January 17, 1973, order was to indicate that the mere fact a contract expires, accompanied by inferior gas usage and declining gas supplies, is not dispositive of a section 7(b) proceeding.<sup>8</sup>

Southern contends that we erred in indicating that if abandonments are ultimately authorized, United's contractual obligations thereunder are discharged.<sup>9</sup> We reject that contention. Any such final order in this case will recognize the holdings in *International Paper Co. v. F.P.C.*, No. 71-3531, 5th Cir., February 7, 1973, and other applicable judicial and Commission precedent.

## APPLICATIONS FOR REHEARING

Louisiana, Natural,<sup>10</sup> Northern Illinois Gas Co. (Northern), Southern Natural and Texas Eastern filed applications for rehearing of our orders of January 17 and February 12. There has been no final order of the Commission in these

<sup>8</sup> See our clarifying order of February 12, 1973, concerning the scope of the Phase II proceedings and discussion infra herein.

<sup>9</sup> Our clarification in this paragraph is applicable to both Phase I and Phase II.

<sup>10</sup> See page 4 of Jan. 17 order.

<sup>11</sup> Application consolidated with Natural's answer, supra.

proceedings which is subject to rehearing<sup>11</sup> so we will treat such applications as motions for reconsideration. Several of the contentions raised were discussed in our disposition of the answers to the show cause order, supra, e.g. effect of abandonment on a pipeline's contractual duties, Commission's authority to institute such a proceeding, burden of proof, and need not be reiterated here.

Texas Eastern posits a situation that United may be required to abandon certain gas volumes, while Texas Eastern (and other pipeline customers) would have no concurrent reduction in its delivery obligations. While we indicated in our January 17 order,<sup>12</sup> that we did not contemplate partial abandonments by United's pipeline customers at this juncture, we do not preclude broadening the scope of Phase I at a later date. Section 7(b) of the Natural Gas Act is available to the pipeline customers so as to effectuate a proportionate abandonment, as may be required by any final order in Phase I.

Northern seeks a clear definition of the term "boiler fuel". Such definition will be forthcoming in an order on rehearing in Opinion No. 647 or in Docket No. R-467. In the interim, a workable definition may be "gas used as a fuel to generate steam or electricity, including turbine and engine fuel for power generation or mechanical drive."

Louisiana cites 38 specifications of error (referred to hereafter as L.1. et seq.), the majority of which represent collateral attacks upon other Commission decisions, e.g. Order No. 467, Opinions Nos. 643 and 647, or resolution of which would prejudice the outcome of these proceedings. (L.27-31, 36-38). Louisiana petitions to vacate our show cause order, or in the alternative, institute a nationwide abandonment proceeding for all industrial uses of natural gas.

First, Louisiana contends we should have issued an environmental impact statement pursuant to section 102(2)(C) of the National Environmental Policy Act prior to our show cause order. We summarily reject this contention.<sup>13</sup> Conversely, and in contradistinction, Louisiana contends we cannot consider end-use in a certificate proceeding (L.7). Again, such an allegation is contrary to law.<sup>14</sup>

Louisiana avers we erred in not affording them the opportunity to present evidence (L.2-6). Louisiana has petitioned to intervene in the proceedings and has the opportunity to present its evidence on April 16, 1973, and participate fully in the hearing below. As a corollary,

<sup>12</sup> Section 19(a) of the Natural Gas Act; section 130(e) of the Commission's rules of practice and procedure. Cf. Cases cited in *Alabama Gas Corp. v. F.P.C.*, supra, slip op. at 11.

<sup>13</sup> Page 4.

<sup>14</sup> Compare *El Paso Natural Gas Co.*, Docket No. RP72-6, issued Aug. 22, 1972, and scope of Order No. 415-C, issued Dec. 18, 1972. See *Alabama Gas Corp. v. F.P.C.*, supra, slip op. at 16-17.

<sup>15</sup> Cf. *F.P.C. v. Transcontinental Gas Corp.*, 345 U.S. 1 (1962); Commission Opinion Nos. 640, 636, 627, 621, 615, and 614.

Louisiana contends there is no evidence to support the proposition that boiler fuel use is inferior (L.8-11, 32-35). While we disagree with such a proposition,<sup>15</sup> Louisiana can present evidence to support its allegation.

Louisiana makes the spurious contention that the Commission lacks the power to order a hearing or to set hearing dates and objects to the scope of the hearing ordered (L.14-17, 19-20, 24-26). We need not refer to the numerous authorities which are contrary to Louisiana's position, nor to the powers delegated to the Commission, by Congress, under the Natural Gas and Administrative Procedure Acts.

Finally, Louisiana contends we should have named the five pipeline customers of United as co-respondents and directed them to abandon deliveries for boiler fuel use (L.21-22). We chose not to, but did not foreclose such an option.<sup>16</sup>

## PETITION TO CLARIFY AND ANSWER

United filed a petition to clarify Phase II, as established in our February 12 order, to (1) present evidence to show that continuation of service at less than the price proposed would have an adverse effect on the depletion of available gas supplies, and (2) to include all gas usage of the individual abandonment applications in Phase II, rather than only non-priorities 4 and 5 gas usage. Air Products et al. filed an answer opposing United's petition for clarification as did Allied Paper, Inc. and Monsanto Co. Inasmuch as Phase I will examine all Priorities 4 and 5 gas usage on United's system, we remain of the view that Ordering paragraphs (A) and (B) of our February 12 order should not be changed and that the clear distinction between the phased proceedings should continue.

Our February 12 order<sup>17</sup> was clear as to the scope of the Phase II proceeding. We do not intend, nor are we empowered, to prescribe a just and reasonable rate for a direct sale. We do intend, as Air Products, et al. properly interprets, that in Phase II, evidence will be presented as to whether or not the rate is so low so as to adversely affect the ability of United to render adequate systemwide service, including replacement of systemwide supplies.<sup>18</sup> United, on the other hand, desires to show the "true market value price of gas" so as to determine a rate which enables the replacement of gas sold to industrial customers and which does not deplete gas supplies required for domestic use. Inasmuch as a pipeline normally acquires new reserves for the benefit of its system, we cannot perceive that "true market value" price evidence for individual customers would be relevant. However, evidence may be introduced to indicate whether or not the rate at which United is currently making sales to those customers in

<sup>15</sup> E.g., Order No. 467, Opinion Nos. 643 and 647.

<sup>16</sup> See response to similar point raised by Texas Eastern, supra.

<sup>17</sup> Page 3.

<sup>18</sup> Cf. Opinion No. 606, 46 F.P.C. at 803-05.

## NOTICES

Phase II impairs, or if continued will impair, United's ability to provide reliable and adequate service to jurisdictional customers. The rates at which United sells to direct customers are not within our jurisdiction. It follows that these nonjurisdictional rates are not to be examined on a traditional cost-of-service and fair-rate-of-return basis. In Phase II we seek to determine if industrial sales should or should not be continued, and in making this determination, we intend to explore on an evidentiary record, the means by which the Commission can assist in the allocation of this wasting resource to its highest and best usage. More specifically, we encourage the parties to present evidence bearing upon the economic and social considerations underlying usage of a limited resource, including but not limited to, whether or not those customers which utilize gas for industrial purposes should bear a greater economic burden, than they have historically borne, to obtain such a resource.

## MOTIONS TO POSTPONE EVIDENCE

Natural and Texas Eastern<sup>19</sup> request postponement of the filing of evidence in Phase I, now scheduled for March 19, 1973, and to coordinate the receipt of evidence with the remanded proceedings in RP71-29, Opinion No. 647. United, on the other hand, has indicated it will adhere to the evidentiary schedule we provided for in our January 17 order<sup>20</sup> and that such data need not await the completion of the curtailment proceedings.<sup>21</sup> The presiding Administrative Law Judge is directed to act on these motions for postponement in Phase I, recognizing (1) the Commission's desire to proceed expeditiously in this proceeding, (2) United's willingness to adhere to the prior schedule, and (3) not requiring unnecessary duplication in compiling data in Phase I and the remanded curtailment proceeding. Even if the presiding judge determines such a postponement should be granted, the maximum postponement should be until April 20,<sup>22</sup> and appropriate adjustments may be made to the dates for intervenors and staff, rebuttal, and cross-examination.

## The Commission orders that:

(A) The several answers to the January 17, 1973, order to show cause have been considered and the proceedings should continue in both Phase I and Phase II, as previously ordered.

(B) The several applications for rehearing of the January 17, 1973, order are denied as motions for reconsideration.

(C) The petition to clarify Phase II, filed on February 16, 1973, by United, is denied, with appropriate instructions and guidance to the presiding Administrative Law Judge, as contained herein.

<sup>19</sup> Northern, Southern, and Natural support Texas Eastern's motion.

<sup>20</sup> See United's answer to show cause order at 4-6.

<sup>21</sup> Texas Eastern proposed an alternative of 45 days following the hearing on Mar. 5, 1973.

(D) The several motions to postpone filing evidence in Phase I are referred to the presiding Administrative Law Judge, with appropriate instructions and guidance as contained herein.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[Docket No. RP73-88]

NORTHERN NATURAL GAS CO.  
Notice of Proposed Changes in Rates and Charges

MARCH 13, 1973.

Take notice that the Northern Natural Gas Co. (Northern) on March 1, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 2 the following tariff sheets: First revised sheet Nos. 369, 375, and 420. Second revised sheet Nos. 129a, 209, 212, 222, 226, 250, 313, 317, 325, 328, 337, 341, 353, and 356. Third revised sheet Nos. 115, 122, 188, and 190. Fourth revised sheet Nos. 256 and 260.

Northern is here proposing to increase certain present jurisdictional field rates by one and nineteen-hundredths of one cent (1.19 cents) per Mcf which Northern states represents the estimated increase in its average cost of purchased gas, per Mcf of gas sales volumes, for the year 1973. Pursuant to 18 CFR 154.51 Northern requests the Commission to waive the notice requirements of 18 CFR 154.22 to permit these tariff sheets to become effective on February 27, 1973.

Northern states that copies of this letter and tariff sheets are being mailed to the affected jurisdictional field customers covered by these tariff sheets as well as interested State Commissions shown on the attached list.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 22, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of the successor by merger to Nanuet National Bank, Nanuet, N.Y. (Bank).<sup>1</sup> The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the seventh largest banking organization in New York, controls 12 banks with aggregate deposits of \$4.2 billion representing 4.3 percent of the total domestic deposits of commercial banks in the State.<sup>2</sup> (Banking data are as of June 30, 1972, and reflect holding company formations and acquisitions approved by the Board through January 31, 1973.) Consummation of the proposed acquisition of Bank, with deposits of \$64.5 million, would increase Applicant's share of commercial bank deposits within the State an insignificant amount, would not change its ranking among the banking organizations in the State, and would not result in a significant increase in the concentration of banking resources in any area.

Bank is the fourth largest of eight banks located in the Rockland County banking market (Third Banking District) in southeastern New York just north of the New York City metropolitan area and controls 13.2 percent of the commercial bank deposits in the area. The three largest banks in the market control about two-thirds of deposits therein, and three of the four smaller banks are bank holding company subsidiaries. Although Applicant has two subsidiary banks located in the Third Banking District (in Westchester and Dutchess Counties), each of these banks competes principally in a market other than Rockland County, and consummation of the proposed acquisition, would

<sup>1</sup> Applicant submitted to the Board on June 1, 1971, an earlier application to acquire Bank which was withdrawn (without prejudice) at the request of Applicant on Apr. 3, 1972, in order to revise and incorporate new material therein. The New York State Banking Board denied on Sept. 1, 1971, a similar application for permission to acquire Bank. Applicant's request for a reconsideration of that action resulted in approval by the Banking Board of the application on Sept. 1, 1972.

<sup>2</sup> Applicant's lead bank, Irving Trust Co., New York City, has deposits of \$3.1 billion and operates 16 branches all within Manhattan; the other 11 subsidiary banks of Applicant are small-to-medium size retail banks operating variously in seven of the State's remaining eight banking districts.

not eliminate any significant existing competition nor deprive customers of the relevant market of an alternative source of banking services.

Applicant could enter the Rockland County market on a de novo basis; however, foreclosure of this potential competition is not considered serious. Economic conditions in the market are favorable to de novo entry.<sup>3</sup> Applicant, with its substantial resources and statewide orientation, is financially and legally able (through its subsidiary banks in Westchester and Dutchess Counties) to branch de novo into Rockland County. In addition, each multibank holding company headquartered in New York State (except Security New York Corp., Rochester) has at least one subsidiary bank in the Third Banking District and, accordingly, is legally permitted to branch into Rockland County. Furthermore, as statewide branching becomes effective in 1976, New York City banks will be permitted to branch de novo into the county. In view of the large number of potential entrants and banking alternatives, the elimination of some potential competition is not considered significant. On the basis of the facts of record, the Board concludes that considerations relating to competition are consistent with approval of the application.

The financial and managerial resources of Applicant and its subsidiaries appear to be satisfactory and future prospects are favorable. The managerial resources and future prospects of Bank are good. While the Board regards the present capital position of Bank as low, Applicant has committed itself to providing Bank with \$1,500,000 in equity capital in order to correct this situation.

Affiliation with Applicant will permit Bank to meet the growing banking needs within the Rockland County banking market and enhance its ability to compete with the larger institutions in the area. Consummation of this proposal would enable Bank to broaden and improve the range of services it presently offers, including increased lending limits, expanded consumer lending, and data processing services, and newly provided trust and municipal financing services. Considerations relating to the convenience and needs of the community to be served are consistent with approval. It is the Board's judgment that the proposed transaction is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before April 7, 1973, or (b) later than June 8, 1973, unless

<sup>3</sup> The county's population in 1970 was 230,000, 68 percent higher than 10 years earlier, while the population of the State as a whole grew only 8 percent. By 1990, it is predicted that the population of the county will increase to 408,000, or 77 percent over the 1970 level. Further, Rockland County is characterized by a relatively high income level (effective buying income per household totaled \$15,866 in 1971, compared to \$13,309 per household for the State).

such period is extended for good cause by the Board, or by the Federal Reserve Bank of New York pursuant to delegated authority.

By order of the Board of Governors,<sup>4</sup> effective March 8, 1973.

[SEAL] TYNAN SMITH,  
Secretary of the Board.

#### FIRST OF MUSKOGEE CORP.

**Formation of Bank Holding Company**  
First of Muskogee Corp., Muskogee, Okla., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to The First National Bank & Trust Co. of Muskogee, Muskogee, Okla. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank, to be received not later than March 31, 1973.

Board of Governors of the Federal Reserve System, March 8, 1973.

[SEAL] MICHAEL A. GREENSPAN,  
Assistant Secretary of the Board.

#### MANUFACTURERS HANOVER CORP.

##### Acquisition of Bank

Manufacturers Hanover Corp., Dover, Del., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to The First National Bank of Olean, Olean, N.Y. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of New York. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than April 4, 1973.

Board of Governors of the Federal Reserve System, March 8, 1973.

<sup>4</sup> Voting for this action: Vice Chairman Robertson and Governors Mitchell, Brimmer, and Sheehan. Absent and not voting: Chairman Burns and Governors Daane and Bucher.

#### RIBSO, INC. "Grandfather" Privileges Under Bank Holding Company Act

Section 4 of the Bank Holding Company Act, became subject to the Bank's grandfather privileges ("grandfather" privileges) with respect to nonbanking activities of a company that, by virtue of the 1970 Amendments to the Bank Holding Company Act, became subject to the Bank Holding Company Act. Pursuant to section 4(a)(2) of the Act, a company covered in 1970 may continue to engage, either directly or through a subsidiary, in nonbanking activities that such company was lawfully engaged in on June 30, 1968 (or on a date subsequent to June 30, 1968, in the case of activities carried on as a result of the acquisition by such company or subsidiary, pursuant to a binding written contract entered into on or before June 30, 1968, of another company engaged in such activities at the time of the acquisition), and has been continuously engaged in since June 30, 1968 (or such subsequent date).

Section 4(a)(2) of the Act provides, inter alia, that the Board of Governors of the Federal Reserve System may terminate such grandfather privileges if, having due regard to the purposes of the Act, the Board determines that such action is necessary to prevent undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. With respect to a company that controls a bank with assets in excess of \$60 million on or after December 31, 1970, the Board is required to make such a determination within a 2-year period.

Notice of the Board's proposed review of any grandfather privileges of Ribso, Inc., Rock Island, Ill. (Ribso), and an opportunity for interested persons to submit comments and views or request a hearing, has been given (37 FR 21382). The time for filing comments, views, and requests has expired.

The proposed review of grandfather privileges of Ribso was based on the premise that Ribso became a bank holding company on December 31, 1970, as a result of the 1970 Amendments to the Act, with respect to Rock Island Bank & Trust Co., Rock Island, Ill. (Bank) (assets of \$64 million, as of December 31, 1970). Ribso has indicated that it should be regarded as a company covered in 1970 since, on June 30, 1968, Registrant owned 20.82 percent of the voting shares of Bank and controlled or exerted a controlling influence over the management or policies of Bank.

On December 31, 1970, Ribso owned slightly over 23 percent of the outstanding voting shares of Bank and acquired (without prior Board approval) an additional 2.276 percent of the voting shares

<sup>1</sup> Sec. 2(b) of the Act defines company covered in 1970 as a company which becomes a bank holding company as a result of the enactment of the Bank Holding Company Act Amendments of 1970, and which would have been a bank holding company on June 30, 1968, if those amendments had been enacted on that date.

of Bank during the first 6 months of 1971. Ribso received Board approval on August 1, 1972, for the retention of the additional 2.276 percent of the voting shares of Bank (1972 "Federal Reserve Bulletin" 802).

In its order of August 1, 1972, approving Ribso's application for permission to retain ownership of 2.276 percent of the voting shares of Bank, the Board accepted as a fact, for purposes of the decision in that matter, Ribso's claim of control of Bank even though the ownership of shares was less than 25 percent of the outstanding voting shares of Bank. However, for purposes of grandfather benefits under section 4(a)(2) of the Act, a company is not entitled to such privileges because of a claim (on its part) of control of more than 25 percent of the shares of a bank prior to the cutoff date or a claim of being able to exercise a controlling influence over the management or policies of a bank within the meaning of section 2(a)(2)(C) of the Act.<sup>2</sup> A determination under section 2(a)(2)(C) of the Act is made by the Board (not by a company) and only after notice and opportunity for hearing; and such determination is made prospectively and does not relate back to a time prior to the date of the Board's determination. On this basis, the Board concludes that Ribso cannot be regarded as having been a one-bank holding company on June 30, 1968, that Ribso is not a company covered in 1970 within the meaning of the Act and is not entitled to grandfather benefits, and that the question of termination of grandfather privileges, under the proviso in section 4(a)(2) of the Act, is moot.

Board of Governors of the Federal Reserve System, March 8, 1973.

[SEAL] TYNAN SMITH,  
Secretary of the Board.

#### SENECA BANCSHARES, INC.

##### Formation of One-Bank Holding Company

Seneca Bancshares, Inc., St. Joseph, Mo., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80.22 percent of the voting shares of the Citizens' State Bank, Seneca, Kans. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit his views in writing to the Reserve bank to be received not later than April 2, 1973.

<sup>2</sup> Sec. 2(a)(2)(C) of the Act provides that a company has control over a bank (and thus is a bank holding company) if the Board determines, after notice and opportunity for hearing, that the company directly or indirectly exercises a controlling influence over the management or policies of the bank or (bank holding) company.

Board of Governors of the Federal Reserve System, March 9, 1973.

**LEHMAN BROS. INC.**

Notice of Filing of Application for  
Exemption

MARCH 9, 1973.

Notice is hereby given that Lehman Bros. Inc. (Applicant), 1 William Street, New York, NY 10004, on behalf of itself, the other representatives (comprised of duPont Glore Forgan Inc., Walston & Co., Inc., Crowell, Weeden & Co., Mitchum, Jones & Templeton, Inc., Rauscher Pierce Securities Corp., Stern, Frank, Meyer & Fox, Inc., and Sutro & Co., Inc.), and all other persons who will be underwriters (Underwriters) of a proposed offering of shares of Current Income Shares, Inc. (Corporation), a closed-end management investment company registered under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 6(c) of the Act for an order of the Commission exempting Applicant, the other representatives and the Underwriters from section 30(f) of the Act in respect of their transactions incidental to the distribution of the Corporation's shares. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Shares of the Corporation are to be purchased by the Underwriters pursuant to an underwriting agreement to be entered into between the Corporation and the Underwriters represented by Applicant and the other representatives. It is intended that upon the effective date of the Corporation's Registration Statement under the Securities Act of 1933, the Corporation's shares will be sold to the public.

It is possible that one or more of the Underwriters, including the Applicant and any of the other representatives, may acquire, in accordance with the provisions of the underwriting agreement, more than 10 percent of the Corporation's common stock which will be outstanding at the time of the closing of the initial public offering of the shares. Since section 30(f) of the Act subjects every person who is directly or indirectly a beneficial owner of more than 10 percent of any class of outstanding securities of the Corporation to the same duties and liabilities as those imposed by section 16 of the Securities Exchange Act of 1934 (Exchange Act) on certain owners in respect of their transactions in certain securities, such Underwriter or Underwriters may, accordingly, become subject to the filing requirements of section 16 (a) of the Exchange Act and, upon resale of the shares purchased by them to

their customers, become subject to the obligations imposed by section 16(b) of the Exchange Act.

Rule 16b-2 under the Exchange Act exempts certain persons from the operation of section 16(b) thereof. Applicants state that the purpose of the purchase by the Underwriters is for resale in connection with the initial distribution of shares of the Corporation. Such purchases will, therefore, be transactions effected in connection with the distribution of a substantial block of securities within the purpose and spirit of Rule 16b-2. Nevertheless, it is possible that one or more of the Underwriters will not be entitled to rely upon Rule 16b-2 to exempt them from section 16(b) of the Exchange Act.

It is anticipated that the requirements of paragraphs (a) (1) and (2) of Rule 16b-2 will be satisfied by all of the Underwriters, but paragraph (a) (3) of such rule may be construed in such a manner as to cause one or more of the Underwriters to fail to comply therewith. For example, a group of the Underwriters, each of whom is obligated through the underwriting agreement to purchase more than 10 percent of the aggregate number of shares of the Corporation's common stock to be outstanding after the closing, may together purchase more than 50 percent of the aggregate number of shares being offered. In this event, such arrangements might be characterized as not meeting the requirement of Rule 16b-2(a) (3) that persons not within the purview of section 16(b) of the Exchange Act participate in the distribution to an extent at least equal to the aggregate participation of all persons exempted from the provisions of section 16(b) of the Exchange Act by Rule 16b-2.

Moreover, this requirement of Rule 16b-2(a) (3) may not be met because it is possible that one or more Underwriters, even though they are obligated by the underwriting agreement to purchase less than 10 percent of the aggregate number of shares of the Corporation's common stock to be outstanding upon completion of the initial public offering of the shares, may, as a consequence of defaults by other Underwriters who do not purchase their respective underwriting commitments, become obligated to purchase at the closing of the public offering more than 10 percent of the aggregate number of shares of the Corporation's common stock to be outstanding after the closing.

In addition to purchases of shares from the Corporation and sales of shares to customers, there may be the usual transactions of purchase or sale incident to a distribution such as stabilizing purchases, purchases to cover over-allotments or other short positions created in connection with such distribution and sales of shares purchased in stabilization.

The application states that there is no inside information concerning the Corporation, since the Corporation, prior

**NOTICES**

**MASSACHUSETTS CAPITAL  
DEVELOPMENT FUND, INC., ET AL.**  
Notice of Application for an Order  
Exempting Applicants

MARCH 8, 1973.

Notice is hereby given that Massachusetts Capital Development Fund, Inc., Massachusetts Financial Development Fund, Inc., Massachusetts Income Development Fund, Inc., Massachusetts Investors Growth Stock Fund, Inc., and Massachusetts Investors Trust, Inc. (collectively referred to as the "Massachusetts Group"), 200 Berkeley Street, Boston, MA 02116, Vance Sanders Common Stock Fund, Inc., Boston Fund, Inc., and Vance, Sanders Special Fund, Inc. (collectively referred to as the "Boston Group"), (hereinafter referred to collectively as the "Funds"), 111 Devonshire Street, Boston, MA 02109, all of which are diversified, open-end management investment companies registered under the Investment Company Act of 1940 (the Act), and Vance, Sanders & Co., Inc. (VS), 111 Devonshire Street, Boston, MA 02109, principal underwriter pursuant to a special distributing agreement with each Fund, have filed an application pursuant to section 6(c) of the Act for an order of the Commission exempting applicants and certain transactions from the provisions of section 22(d) of the Act and Rule 22d-1 thereunder. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein which are summarized below.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter thereof shall sell any redeemable security issued by such company to any person except at a current public offering price described in the prospectus. The prospectus of each of the Funds states that a sales commission is included in the offering price of the shares of the Funds. The Massachusetts Group are advised by Massachusetts Financial Services, Inc., the funds in the Boston Group are advised either by VS or a subsidiary of VS, and CST is internally managed. Each of the Funds proposes to sell its shares at their net asset value per share, i.e., without any sales charges, to persons who have caused their shares of that Fund to be redeemed or repurchased within the previous 15 days. In addition, each fund in the Massachusetts Group proposes to sell its shares at net asset value plus a \$5 service charge to persons who have caused shares of any other Fund in the group to be redeemed or repurchased within the previous 15 days, provided that at least 80 percent of the shares redeemed or repurchased must have been held for at

least 6 months, and each Fund in the Boston Group proposes to sell its shares at net asset value plus a \$5 service charge to persons who have caused shares of any other Fund in the group to be redeemed or repurchased within the previous 15 days.

By the Commission, by the Division of  
Investment Management Regulation,  
pursuant to delegated authority.

[SEAL] RONALD F. HUNT,  
Secretary.

[FR Doc. 73-4978 Filed 3-14-73; 8:45 am]

least 6 months, and each Fund in the Boston Group proposes to sell its shares at net asset value plus a \$5 service charge to persons who have caused shares of any other Fund in the group to be redeemed or repurchased within the previous 15 days.

In every case the amount of a sale, which is made pursuant to a reinvestment privilege, will not exceed the amount of the redemption or repurchase proceeds, and a shareholder of any of the Funds will be permitted to exercise the aforementioned reinvestment privileges only once with respect to each Fund of which he is a shareholder.

The sale will be made at the net asset value per share next determined after receipt of the order. A written order to purchase the shares must be received by the Funds or VS or be postmarked within 15 days after the date the request for redemption or repurchase was received.

The application states, among other things, that to advise investors of the privileges, each of the Funds may, at its expense, probably through the facilities of the appropriate transfer agent and probably by a statement inserted with the redemption check, or in appropriate instances by telephonic communication, advise the investor of the right to reinvest in a Fund within the Massachusetts Group or within the Boston Group (which may or may not be the Fund whose shares were redeemed) or in CST at net asset value plus any applicable service charge. This would be in addition to the disclosure of the privilege in the prospectus of each of the Funds.

The application also asserts that the proposed privilege will enable investors to be reminded of features of their investment which they may have overlooked or of which they may have been unaware at the time they redeemed; that the privilege does not operate to the prejudice of the Funds or their shareholders; and that the one-time feature will prevent any speculation or trading against the Funds.

Section 6(c) of the Act provides that the Commission, upon application, may conditionally or unconditionally exempt any person or transaction from any provisions of the Act if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than April 2, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any

such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the addresses stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing thereon shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,  
Secretary.

[FR Doc.73-4979 Filed 3-14-73; 8:45 am]

**NORTHEAST UTILITIES ET AL.**

**Notice of Proposed Issuance and Sale of Long-Term Notes, Exception From Competitive Bidding, and Related Transactions**

MARCH 9, 1973.

Notice is hereby given that Northeast Utilities (Northeast), 174 Brush Hill Avenue, West Springfield, MA 01089, a registered holding company, and five of its subsidiary companies have filed a

seventh post-effective amendment to the joint application-declaration in this proceeding pursuant to the provisions of the Public Utility Holding Company Act of 1935 (the Act), designating sections 6, 7, 9, 10, 12(b), and 12(f) of the Act, and Rules 45 and 50(a)(5) promulgated thereunder as applicable to the proposed transactions. The subsidiary companies are the Connecticut Light & Power Co. (CL&P), Selden Street, Berlin, Conn. 06037, the Hartford Electric Light Co. (HELCO), 176 Cumberland Avenue, Wethersfield, CT 06109, Western Massachusetts Electric Co. (WMECO), 174 Brush Hill Avenue, West Springfield, MA 01089, all public utility companies; the Rocky River Realty Co. (Rocky River), a nonutility company; and Northeast Utilities Service Co. (NUSCO), Selden Street, Berlin, Conn., the service company serving the Northeast Utilities System. All interested persons are referred to the application-declaration as heretofore amended and as further amended by said seventh post-effective amendment, for a complete statement of the proposed transactions, which is summarized below.

Rocky River, which performs various real estate functions for associate companies at cost, is the owner of a tract of land of 125.6 acres located in Berlin and Newington, Conn., together with structures thereon consisting of two office buildings, a central warehouse, a service building and a commons building (collectively referred to as the "Berlin Complex"). One of the office buildings is occupied by CL&P as its principal executive office; the other office building and the balance of the Berlin Complex are occupied and used by NUSCO. All of these properties are covered by net leases from Rocky River to the said two associate companies.

In a series of prior orders of the Commission in this proceeding, Rocky River was authorized to issue and sell from time to time certain interim securities for the purpose of financing the costs of its acquisition and construction of the Berlin Complex pending the permanent financing thereof (see Holding Company Act Releases Nos. 16105, 16293, 16567, and 16759 dated, respectively, 7/2/68, 2/26/69, 12/23/69, and 6/22/70). Pursuant to these authorizations, Rocky River issued and sold \$13,500,000 face amount of 3-year notes to banks (Bank Notes) maturing June 30, 1973; and \$4,900,000 face amount of 5-year subordinated notes to Northeast (5-year Notes). Of these interim securities, \$12,150,000 and \$4,900,000, respectively, were outstanding as of December 31, 1972. On that date Rocky River's capitalization also included 3.15 percent and 3.75 percent first mortgage bonds (Old Bonds) due 1981 and 1983, respectively, in an aggregate principal amount of \$1,905,000, held by financial institutions; and \$1,785,000 face amount of 40-year subordinated notes plus \$56,000 (including retained earnings) of equity capital, all held by Northeast.

Said prior orders of the Commission had also granted Rocky River an excep-

tion from the competitive bidding requirements of Rule 50 under the Act, permitting it to enter into negotiations with institutional investors for the issuance and sale of first mortgage bonds as permanent financing of the Berlin Complex. These negotiations were unsuccessful (HCAR No. 16567).

In the current post-effective amendment, applicants-declarants now propose that Rocky River will issue and sell, at par \$15 million principal amount of long-term notes (30-year Notes). Rocky River will use the proceeds to repay the Bank Notes at maturity (estimated to total \$12,015,000), to pay the expenses of said issuance and sale, and with the remainder, to prepay a portion (approximately \$2,900,000) of the 5-year Notes held by Northeast. It is further proposed that the balance of the 5-year Notes then held by Northeast (approximately \$2 million) be converted into an equal amount of new 30-year subordinated notes (Subordinated Notes). The Old Bonds will be left outstanding until maturity.

Applicants-declarants seek an exception from the competitive bidding requirements of Rule 50 under the Act, pursuant to subparagraph (a)(5) of the rule, in respect of the 30-year Notes, and request permission to enter into negotiations for the sale thereof to institutional investors. The 30-year Notes will mature in the year 2003, will be severally and unconditionally guaranteed by CL&P, HELCO, and WMECO in the proportions of 62 percent, 23 percent, and 15 percent, respectively, and will be subject to a mandatory semiannual sinking fund, commencing approximately 6 months after the date of issuance, designed to retire 100 percent of the issue by maturity. On each sinking fund date Rocky River will have the right to prepay, without premium, an additional principal amount of the 30-year Notes not exceeding the amount then required under the mandatory provision. In addition, Rocky River will have the option of prepaying the 30-year Notes at any time or from time to time, in whole or in part, at stated premiums: *Provided*, That no such prepayment may be made prior to 1978 from or in anticipation of, debt for moneys borrowed by Rocky River or on its behalf by any associate company, at an interest cost less than that of the 30-year Notes.

The new Subordinated Notes to be issued to Northeast will bear interest at an annual rate of one quarter of 1 percent above the prime rate for short-term loans in effect from time to time at The Connecticut Bank and Trust Company. It is further proposed that Rocky River may prepay and thereafter reissue the Subordinated Notes, provided that as a result thereof Rocky River's total debt to third parties shall not exceed four times the sum of: (a) Capital stock and retained earnings, and (b) all subordinated notes held by Northeast.

It is stated that the proposed guarantees of the 30-year Notes by CL&P and HELCO are subject to the approval of the Public Utilities Commission of Con-

necticut and that the guarantee by WMECO is subject to approval by the Massachusetts Department of Public Utilities. A statement of the fees and expenses incurred and to be incurred in connection with the proposed transactions will be supplied herein by amendment.

Notice is further given that any interested person may, not later than April 3, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration as amended which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the joint application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,  
Secretary.

[File No. 500-1]

**STAR-GLO INDUSTRIES INC.**  
Order Suspending Trading

MARCH 9, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, \$0.10 par value, and all other securities of Star-Glo Industries Inc., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

*It is ordered*, Pursuant to section 15(c) (5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this

order to be effective for the period from March 10, 1973, through March 19, 1973.

By the Commission.

[SEAL] RONALD F. HUNT,  
Secretary.

[FR Doc.73-4981 Filed 3-14-73; 8:45 am]

**SMALL BUSINESS ADMINISTRATION**  
**CALIFORNIA GROWTH CAPITAL, INC.**

[License No. 09/12-0023]

**Notice of Application for Transfer of Control of Licensed Small Business Investment Company**

Notice is hereby given that application has been filed with the Small Business Administration (SBA) pursuant to § 107.701 of the regulations governing small business investment companies (13 CFR 107.701 (1972)) for transfer of control of California Growth Capital, Inc. (Growth), 1615 Cordova Street, Los Angeles, CA 90007, a Federal licensee under the Small Business Investment Act of 1958, as amended (the Act) (15 U.S.C., 661 et seq.).

Growth, which was licensed on May 11, 1961, will have paid-in capital and paid-in surplus from private sources of approximately \$1,021,400. The transfer of control is being made pursuant to purchase and sale agreements between Growth, De Anza Land and Leisure Corp., 1615 Cordova Street, Los Angeles, CA, First National Bank of Commerce, 210 Baronne Street, New Orleans, LA 70112, All American Assurance Co., Post Office Box 66127, Baton Rouge, LA 70806, and H. D. Hughes.

The proposed transfer of control is subject to and contingent upon the approval of SBA.

After the proposed transfer of control, the officers, directors, and principal stockholders will be as follows:

Allen R. Houk, 3751 Rue Delphine, New Orleans, LA, Director, Chairman of the Board.  
Walter B. Stuart III, 5672 Rosemary Place, New Orleans, LA, Director, Vice Chairman of the Board.  
Thomas S. Davidson, 1333 State Street, New Orleans, LA, Director.  
Thomas E. Smith, Jr., 1470 Arabella Street, New Orleans, LA, Director, President and Chief Executive Officer.  
Charest D. Thibaut, Jr., 2775 McCarroll Drive, Baton Rouge, LA, Director.  
James A. Churchill, 461 Pine Street, New Orleans, LA, Director, Secretary.  
William H. Oldknow, 1161 Virginia Road, San Marino, CA, Director.  
Richard C. Seaver, 434 South Rossmore Avenue, Los Angeles, CA, Director.  
John Ferraro, 570 North Rossmore Avenue, Los Angeles, CA, Director.  
Warren P. Deckert, 46 Dove Street, New Orleans, LA, Director.  
Jon E. M. Jacoby, 23 River Valley Road, Little Rock, AR, Director.  
Richard J. Shopf, Oaklawn Drive, Tchefuncta Club Estates, Covington, LA 70433, Director.  
Billy E. Mitchum, 2511 Danbury Drive, New Orleans, LA, Treasurer.  
First National Bank of Commerce, 210 Baronne Street, New Orleans, LA, Stockholder.

All American Assurance Co., Post Office Box 66127, Stockholder.  
Jaser Development Co., 1615 Cordova Street, Los Angeles, CA, Stockholder.

First National Bank of Commerce will own 49 percent of the licensee's stock. All American Assurance Co. will own 16.6 percent and Jaser Development Co. will own 14.9 percent. The balance of licensee's stock will be owned by approximately 445 shareholders.

The name of Growth will be changed to "First Southern Capital Corporation." It is contemplated that the principal operating office will be transferred to 1208 Commerce Building, New Orleans, La. 70112. Growth will maintain an office, for purpose of General Corporation Law of California, at 1615 Cordova Street, Los Angeles, CA. The new license number would be 06/12-0023.

Matters involved in SBA's consideration of the application include the general business reputation and character of the new owners, and the probability of successful operations of the company in accordance with the Act and regulations.

Notice is further given that any interested person may, not later than 15 days from the date of publication of this notice, submit to SBA, in writing, relevant comments on the proposed transfer of control. Any such communications should be addressed to: Associate Administrator for Finance and Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416.

A copy of this notice shall be published by the transferee in a newspaper of general circulation in Los Angeles, Calif., and New Orleans, La.

Dated: March 6, 1973.

DAVID A. WOLLARD,  
Associate Administrator,  
for Finance and Investment.

[Delegation of Authority No. 30; Region IX, Amdt. 2]

**CHIEF AND ASSISTANT CHIEF, REGIONAL FINANCING DIVISION ET AL.**

**Delegation of Authority To Conduct Program Activities in Region IX**

Delegation of Authority No. 30—Region IX (37 FR 17624) as amended (37 FR 20288) is hereby further amended by revising Part I, section A, 3a, and 3b; section B, 1a, 3a, b, and c; Part II, section A, 1, 2, and 4; section B, 1, 2a, 2b; Part VII, section A, 1a(2); Part VIII, section A, 2, and 3. This amendment more clearly defines certain authorities; eliminates reference to class B disasters; delegates eligibility determination authority to PMA Chief; and includes authority to contract for local credit bureau services and loss verification services.

**PART I—FINANCING PROGRAM**  
**SECTION A. Loan approval authority.**

3. *Displaced business and other economic injury loans.* a. To decline displaced business loans, coal mine health and safety loans, consumer protection loans (meat, egg, poultry), occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters in any amount and to approve such loans up to the following amounts (SBA share):

Chief and Assistant Chief, Regional Financing Division.....	\$350,000
b. To approve or decline displaced business loans, coal mine health and safety loans, consumer protection loans (meat, egg, poultry), occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters up to the following amounts (SBA share):	
Regional Supervisory Loan Officer.....	\$50,000
District Directors.....	350,000
Chief, District Financing Division, or, if assigned, Chief, District Financial Services Division.....	350,000
District Supervisory Loan Officer, Los Angeles District Office.....	50,000

**Sec. B. Other financing authority.** 1. a. To enter into business, economic opportunity, disaster, displaced business, consumer protection (meat, eggs, poultry), occupational safety and health, coal mine health and safety, and strategic arms limitation economic injury loan participation agreements with banks:

- (1) Chief and Assistant Chief, Regional Financing Division.
- (2) Regional Supervisory Loan Officer.
- (3) District Directors.
- (4) Chief, District Financing Division, or, if assigned, Chief, District Financial Services Division.
- (5) District Supervisory Loan Officer, if assigned.

3. To cancel, reinstate, modify, and amend authorizations:

- a. For business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), occupational safety and health, coal mine health and safety, and strategic arms limitation economic injury loans:
  - (1) District Directors.
  - b. For fully undisbursed or partially disbursed business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), occupational safety and health, strategic arms limitation economic injury, and coal mine health and safety loans:
    - (1) Chief and Assistant Chief, Regional Financing Division.
    - (2) Regional Supervisory Loan Officer.

(3) Chief, District Financing Division, or, if assigned, Chief, District Financial Services Division.

(4) District Supervisory Loan Officer, if assigned.

c. For business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, strategic arms limitation economic injury, and occupational safety and health loans personally approved under delegated authority:

Does not apply.

**PART II—DISASTER PROGRAM**

**SECTION A. Disaster loan authority.** 1. To decline direct disaster and immediate participation disaster loans in any amount and to approve such loans up to the total SBA funds of (1) \$50,000 per household for repairs or replacement of the home and/or not to exceed an additional \$10,000 allowable for household goods and personal items, but in no event may the money loaned for physical loss or damage exceed \$55,000 for a single disaster on home loans, except for funds to refinance prior liens or mortgages, which may be approved in addition to the foregoing limits for amounts up to \$50,000; and (2) \$500,000 on disaster business loans (excluding displaced business loans, coal mine health and safety, occupational safety and health, strategic arms limitation economic injury, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) except to the extent of refinancing of a previous SBA disaster loan:

- (1) Chief and Assistant Chief, Regional Financing Division.
- (2) District Director.
- (3) Chief, District Financing Division, or, if assigned, Chief, District Financial Services Division.
- (4) Disaster Branch Managers, as assigned.
- (5) Supervisory Loan Officer, if assigned, Los Angeles Earthquake Disaster Office.

2. To decline direct disaster and immediate participation disaster loans (excluding displaced business loans, coal mine health and safety, occupational safety and health, strategic arms limitation economic injury, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) in any amount and to approve such loans up to the total SBA funds of \$50,000:

- (1) Supervisory Loan Officer, Regional Financing Division.

4. To appoint as a processing representative any bank in the disaster area:

- (1) Chief and Assistant Chief, Regional Financing Division.
- (2) District Directors.

**Sec. B. Administrative authority—1. Establishment of disaster field offices.** (a) To establish field offices upon receipt of advice of the designation of a disaster area and to close disaster field offices

when no longer advisable to maintain such offices; and (b) to obligate the Small Business Administration to reimburse the General Services Administration for the rental of temporary office space:

- (1) Chief and Assistant Chief, Regional Financing Division.
- (2) Chief, Regional Administrative Division.
- (3) District Director.
- (4) Chief, District Administrative Division.

2. *Purchase and contract authority.* a. To contract for local credit bureau services and loss verification services pursuant to Chapter 4 of title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that chapter:

- (1) Chief, Regional Administrative Division.
- (2) District Director.
- (3) Chief, District Administrative Division.
- (4) Disaster Branch Manager, if assigned.

b. To purchase office supplies and equipment, including office machines and rent regular office equipment and furnishings; contract for repair and maintenance of equipment and furnishings; contract for printing (Government sources only); contract for services required in setting up and dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to Chapter 4 of title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that chapter:

- (1) Chief, Regional Administrative Division.
- (2) District Director.
- (3) Chief, District Administrative Division.

**PART VII—ELIGIBILITY AND SIZE DETERMINATIONS**

**SECTION A. Eligibility determinations.** 1. a. In accordance with Small Business Administration standards and policies, to determine eligibility of applicants for assistance under any program of the Agency:

- (2) Except: The SBIC and community economic development programs:
  - (1) Chief and Assistant Chief, Regional Financing Division.
  - (2) Chief, Regional PMA Division.
  - (3) Chief, District Financing Division, or, if assigned, Chief, District Financial Services Division.
  - (4) Chief, PMA Division, Los Angeles District Office.

**PART VIII—ADMINISTRATIVE**

**SECTION A. Authority to purchase, rent, or contract for equipment, services, and supplies.**

2. *To purchase office supplies and equipment, including office machines and*

rent regular office equipment and furnishings; contract for repair and maintenance of equipment and furnishings; contract for printing (Government sources only); contract for services required in setting up and dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to Chapter 4 of title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that chapter:

- (1) Chief, Regional Administrative Division.
- (2) Regional Office Services Specialist or Administrative Services Assistant.
- (3) District Director.
- (4) Chief, District Administrative Division.

3. To rent motor vehicles and garage space for the storage of such vehicles when not furnished by this Administration:

- (1) Chief, Regional Administrative Division.
- (2) Regional Office Services Specialist or Administrative Services Assistant.
- (3) District Director.
- (4) Chief, District Administrative Division.

**SEC. B. [Deleted]**

Effective dates: September 28, 1972—Part I, section A, Paragraph 3; September 28, 1972—Part I, section B, Paragraphs 1 and 3; September 28, 1972—Part II, section A, Paragraphs 1, 2 and 4; July 1, 1972—Part II, section B, Paragraphs 1 and 2; July 1, 1972—Part VII, section A, Paragraph 1; July 1, 1972—Part VIII, section A, Paragraphs 2 and 3.

**INTERSTATE COMMERCE COMMISSION**

[Notice 198]

**ASSIGNMENT OF HEARINGS**

**MARCH 12, 1973.**

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 99284 Sub 6, Sullivan's Motor Delivery, Inc., now being assigned hearing April 30, 1973 (2 weeks), at Madison, Wis., in a hearing room to be later designated.

[Notice 20]

**MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS**

**MARCH 9, 1973.**

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247<sup>1</sup> of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and on or before May 15, 1973, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication.

MC-C-7759, Central Motor Express, Inc., et al. v. Renner's Express, Inc., now being assigned April 23, 1973, at Louisville, Ky., in a hearing room to be later designated.

Remis, Bernard Sacharoff, John Roncoroni, Louis Geik, Henry Bono, Nicholas Accardi, New Deal Delivery Service, Inc., Eastern Transportation Co., Inc., and Airfreight Transportation Corp. of New Jersey—Investigation of control, MC-FC-71876, Basil Trucking Corp., transferee and Eastern Transportation Co., Inc., transferor, now assigned March 21, 1973, will be held in Court Room 3, U.S. Customs Court, One Federal Plaza, New York, NY.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc. 73-5045 Filed 3-14-73; 8:45 am]

except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

#### MOTOR CARRIERS OF PROPERTY

No. MC 263 (Sub-No. 205), filed January 17, 1973. Applicant: GARRETT FREIGHTLINES, INC., 2055 Garrett Way, Pocatello, ID 83201. Applicant's representative: Wayne S. Green (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), between Denver, Colo., and Great Falls, Mont., from Denver, Colo., over U.S. Highway 87 (Interstate Highway 25) to junction Interstate Highway 90 near Buffalo, Wyo., thence over U.S. Highway 87 (Interstate Highway 90) to Billings, Mont., thence over Montana Highway 3 to junction U.S. Highway 12, thence over U.S. Highway 12 to U.S. Highway 191 at Harlowton, Mont., thence over U.S. Highway 191 to junction U.S. Highway 87 near Moore, Mont., thence over U.S. Highway 87 to Great Falls, Mont., and return over the same route, serving the intermediate points of Billings, Mont., and the plantsite of Big Horn Carpet Mills at Crow Agency, Mont. Note: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Billings, Mont.

No. MC 531 (Sub-No. 284), filed January 10, 1973. Applicant: YOUNGER BROTHERS, INC., 4904 Griggs Road, Post Office Box 14948, Houston, TX 77021. Applicant's representative: Wray E. Hughes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid plastics and synthetic resins*, in bulk, in tank vehicles, from Covington, Ky., to all points in the United States (except Alaska and Hawaii and Kentucky). Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 2202 (Sub-No. 437), filed February 9, 1973. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Boulevard, Post Office Box 471, Akron, OH 44309. Applicant's representative: William O. Turney, 2001 Massachusetts Avenue NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A

and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving points in New Castle County, Del., Hunterdon County, N.J., Fairfax and Prince William Counties, Va., Baltimore, Harford, Cecil, Anne Arundel, Howard, Montgomery, Prince Georges and Carroll Counties, Md., York, Adams, Lancaster, Lebanon, Franklin, Cumberland, Perry, Berks, Schuylkill, Columbia, Northumberland, Union, Snyder, Montour, and Luzerne Counties, Pa., and Smithsburg and Thurmont, Md., as off-route points in connection with applicant's presently authorized regular-route operations. Note: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 5227 (Sub-No. 5), filed February 9, 1973. Applicant: ECONOMY MOVERS, INC., Post Office Box 201, Mead, NE 68041. Applicant's representative: Gailyn L. Larsen, Post Office Box 80806, 521 South 14th Street, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal buildings, and metal grain bins, and components and accessories and parts thereof*, from Galesburg, Ill., and Kansas City, Mo., to points in Nebraska. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Lincoln or Omaha, Nebr.

No. MC 6078 (Sub-No. 72), filed February 1, 1973. Applicant: D. F. BAST, INC., Post Office Box 2288, Allentown, PA 18001. Applicant's representative: Bert Collins, 140 Cedar Street, New York, NY 10006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Building slabs*, from points in Lehigh County, Pa., to points in the United States in and east of Minnesota, Iowa, Missouri, Arkansas, Louisiana, and Texas; and (2) *materials, supplies, and equipment* (except in bulk) from the aforementioned destination States to the aforementioned origin. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 8948 (Sub-No. 102), filed January 19, 1973. Applicant: WESTERN GILLETTE, INC., 2550 East 20th Street, Los Angeles, CA 90058. Applicant's representative: Christopher Ashworth, 1545 Wilshire Boulevard, Suite 606, Los Angeles, CA 90017. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving Verona, Mo., located approximately 29 miles southwest of Springfield, Mo., as an off-route point in connection with applicant's presently au-

thorized regular-route operations between Oklahoma City, Okla., and Chicago, Ill., over U.S. Highway 66 in No. MC-8948. Note: If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif., or St. Louis, Mo.

No. MC 9914 (Sub-No. 7), filed January 22, 1973. Applicant: WARREN TRUCKING CO., INC., U.S. Highway 220 South, Box 2038, Martinsville, VA 24112. Applicant's representative: Francis W. McNerny, 1000 16th Street NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *New furniture and furniture parts*, from points in Smyth County, Va., to points in Delaware, Maryland, New Jersey, North Carolina, Pennsylvania, West Virginia, the District of Columbia, that part of Ohio on and east of a line beginning at Portsmouth, Ohio, and extending along U.S. Highway 23 to Marion, Ohio, thence along Ohio Highway 4 to Sandusky, Ohio, those in the New York, N.Y., commercial zone as defined by the Commission in 1 MCC 655, and those in Nassau County, N.Y.; and (2) *materials, equipment, and supplies* used in the manufacture, packaging, and distribution of new furniture and furniture parts, from points in the destination territory named in (1) above, to points in Smyth County, Va. Note: Applicant presently holds authority to transport new furniture and related materials, from Martinsville, Va., to points in Delaware, Maryland, New Jersey, North Carolina, Pennsylvania, West Virginia, the District of Columbia, eastern Ohio, and New York City-Long Island, N.Y., and return materials on return, therefore duplicating authority may be involved. Applicant further states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Roanoke, Va.

No. MC 9997 (Sub-No. 3), filed January 29, 1973. Applicant: KEOMAH TRUCK LINES, INC., 546 Ninth Avenue East, Oskaloosa, IA 52577. Applicant's representative: Larry D. Knox, Ninth Floor, Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feeds, animal and poultry feed concentrates, between Oskaloosa, Iowa, and Danville, Ill.* Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa, or Omaha, Nebr.

No. MC 11862 (Sub-No. 4), filed February 2, 1973. Applicant: FLOYD HILL, doing business as DELTA TRANSFER LINES, 1100 West 14th Street, Jasper, AL 35501. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW., Washington, DC 20006. Authority sought to operate as a *common carrier*, by motor

vehicle, over irregular routes, transporting: *Used household goods*, between points in Bibb, Blount, Calhoun, Cherokee, Clay, Cleburne, De Kalb, Etowah, Fayette, Jefferson, Lamar, Marion, Pickens, Randolph, St. Clair, Shelby, Talladega, Tuscaloosa, Walker, and Winston Counties, Ala. Note: Applicant states that the requested authority can be tacked with its existing authority at Jasper, Ala. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala.

No. MC 16634 (Sub-No. 17), filed January 17, 1973. Applicant: STRANG TRANSPORTATION, INC., Center Street, Elmer, N.J. 08318. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prepared animal and poultry feeds*, in bulk, in compartmentized equipment of not less than three compartments, from the plantsite of Ralston Purina Co., Hampden Township (Camp Hill), Pa., to points in New Jersey, restricted to traffic originating at and destined to be above origin and named destination. Note: If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 17051 (Sub-No. 11), filed January 31, 1973. Applicant: BARNET'S EXPRESS, INC., 758 Lidgetwood Avenue, Elizabeth, NJ 07202. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. No. MC 104896 (Sub-No. 44), filed February 5, 1973. Applicant: WOMELDORF, INC., Post Office Box 495, Jefferson Avenue Extension, Washington, PA 15301. Applicant's representative: James W. Patterson, 2107 The Fidelity Building, Philadelphia, Pa. 19109. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastics, plastic products and articles; articles constructed primarily of plastic, and materials, supplies and equipment* used or useful in the production, distribution, and sale of plastic, plastic products, and articles constructed primarily of plastic (except in bulk) between the facilities of Double R Enterprises in Lawrence County, Pa., on the one hand, and, on the other, points in New Jersey, New York, Pennsylvania, Ohio, Maryland, West Virginia, and Michigan. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh or Philadelphia, Pa., or Washington, D.C.

No. MC 105045 (Sub-No. 39), filed January 26, 1973. Applicant: R. L. JEFFRIES TRUCKING CO., INC., Post Office Box 3277, Evansville, IN 47701. Applicant's representative: Paul F. Sullivan, 711 Washington Building, 15th and New York Avenue NW., Washington, DC 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Aluminum and aluminum products* from Adrian, Mich., to points in the United States in and east of Wisconsin, Iowa, Kansas, Oklahoma, Texas, Colorado, and Nebraska, and (2) *equipment, materials and supplies* used in the manufacture and processing of aluminum and aluminum product (except commodities in bulk), from points in the destination territory described in (1) above, to Adrian, Mich. Note: Applicant states that the requested authority can be tacked with its existing authority but indicates that it

has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Applicant further states no duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 107496 (Sub-No. 879), filed January 31, 1973. Applicant: RUAN TRANSPORT CORPORATION, Third and Keosauqua Way, Des Moines, Iowa 50309. Applicant's representative: H. L. Fabritz, Post Office Box 855, Des Moines, IA 50304. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, in bulk, from Winona, Minn., to points in Wisconsin, Minnesota, Iowa, North Dakota, and South Dakota; (2) *cement*, from Iola, Kans., to points in Missouri, Oklahoma, Nebraska, Kansas, and Arkansas; (3) *corn syrup and blends thereof*, from Minneapolis, Minn., to points in North Dakota and Wisconsin; (4) *copper chloride and aqua ammonia* from Cedar Rapids, Iowa, to Chicago, Ill., Garland, Tex., and Elyria, Ohio; (5) *sand and sand with additives*, in bulk, from points in Ogle County, Ill., to points in Iowa, Illinois, Kentucky, Indiana, Michigan, Minnesota, Missouri, Ohio, West Virginia, and Wisconsin; and (6) *molten sulfur* from Superior, Wis., to points in Minnesota. Note: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority but has no present intention to tack therefore it does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill. or Des Moines, Iowa.

No. MC 107678 (Sub-No. 44), filed November 22, 1972. Applicant: HILL & HILL TRUCK LINE, INC., 14942 Talcott, Houston, TX 77015. Applicant's representative: Jay W. Elston, 800 Bank of the Southwest Building, Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Forest products, lumber, lumber products, plywood, plywood products, hardboard, hardboard products, particle board, particle board products, composition board, composition board products, fiberboard, fiberboard products, poles and posts*, from points in Montana, Idaho, Oregon, and Washington, to points in Wyoming, Nebraska, Colorado, Kansas, Missouri, New Mexico, Texas, Oklahoma, Arkansas, and Louisiana. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Houston, Tex.

## NOTICES

No. MC 107678 (Sub-No. 46), filed January 3, 1973. Applicant: HILL & HILL TRUCK LINE, INC., 14942 Talcott, Houston, TX 77015. Applicant's representative: Jay W. Elston, 800 Bank of the Southwest Building, Houston, Tex. 77002. Note: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Jefferson City or St. Louis, Mo.

No. MC 109564 (Sub-No. 14), filed January 22, 1973. Applicant: LYONS TRANSPORTATION LINES, INC., 138

East 26th Street, Erie, PA 16512. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, OH 43215. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between Portville and Albany, N.Y., serving all intermediate points, as follows: From Portville over New York Highway 17 to junction New York Highway 7 at Binghamton, thence over U.S. Highway 20 to Albany, and return over the same route; (2) between Syracuse and Binghamton, N.Y., serving all intermediate points, as follows: From Syracuse over U.S. Highway 11 to Binghamton, and return over the same route; and (3) between Syracuse and Albany, N.Y., serving all intermediate points, as follows: (a) From Syracuse over Interstate Highway 81 to junction U.S. Highway 20 near La Fayette, thence over U.S. Highway 20 to Albany, and return over the same route; and (b) from Syracuse over New York Highway 5 to Albany, and return over the same route, restricted in (1), (2), (3) (a) and (3) (b) above to the transportation of traffic moving from, to or through points in Erie, Crawford, Mercer, and Venango Counties, Pa. Note: Applicant presently holds authority to provide all of the service sought herein over irregular routes and by this application seeks to convert a portion of its present irregular-route service to regular-route service. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 111401 (Sub-No. 378), filed February 5, 1973. Applicant: GROENDYKE TRANSPORT, INC., 2510 Rock Island Boulevard, Post Office Box 632, Enid, OK 73701. Applicant's representative: Alvin J. Meiklejohn, Jr., Suite 1600, Lincoln Center, 1660 Lincoln Street, Denver, CO 80203. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid animal feed ingredients and supplements* in bulk, from points in Colorado, Missouri, Nebraska, New Mexico, Oklahoma, and Texas to Leoti, Kans. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Houston or Dallas, Tex.

No. MC 111812 (Sub-No. 484), filed January 28, 1973. Applicant: MIDWEST COAST TRANSPORT, INC., 900 West Delaware, Post Office Box 1233, Sioux Falls, SD 57101. Applicant's representative: David L. Lewis (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Confectionery, chocolate, and chocolate products*, from points in Derry Township, Pa.

to points in Nebraska, Iowa, Minnesota, North Dakota, and South Dakota, restricted to the transportation of traffic originating at Derry Township, Pa. Note: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority in MC-111812 (Sub-No. 200), at Sioux Falls, S. Dak., to serve Salt Lake City, Utah, and points in California and Arizona; however, these tacking possibilities were granted to applicant in No. MC-111812 (Sub-No. 472), dated February 26, 1973. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 111826 (Sub-No. 3), filed January 26, 1973. Applicant: BRAM MOTOR EXPRESS, INCORPORATED, Post Office Box 95, Toronto, OH 43964. Applicant's representative: James R. Stiver, 50 West Broad Street, Columbus, OH 43215. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Refractories*, from the plantsite of Universal Refractory Co., at or near Wampum and Greenville, Pa., to points in Illinois, Indiana, Kentucky, Maryland, Michigan, New York, Ohio, Pennsylvania, and West Virginia. Note: Applicant states that the requested authority cannot be tacked or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Pittsburgh, Pa.

No. MC 112304 (Sub-No. 63), filed January 29, 1973. Applicant: ACE DORAN HAULING & RIGGING CO., a corporation, 1601 Blue Rock Street, Cincinnati, OH 45223. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, OH 43215. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Heating, cooling, and ventilating systems, and parts and accessories therefor*, between the plantsite of American Standard, Inc., at Detroit, Mich., on the one hand, and on the other, points in the United States (except Alaska and Hawaii). Note: Applicant states that the requested authority can be tacked with its existing authority under MC 112304 Sub-Nos. 1, 6, and 36, but indicates that it has no intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Detroit, Mich.

No. MC 112854 (Sub-No. 33), filed January 29, 1973. Applicant: HOLLEBRAND TRUCKING, INC., Post Office Box 164, Ontario Center, NY 14520. Applicant's representative: S. Michael Richards, 44 North Avenue, Webster, NY 14580. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Coal*, from points in Clinton, Lycoming, and Sullivan Counties, Pa., to points in New

## NOTICES

York, and (2) *manufactured dairy products*, from La Fargeville and Arkport, N.Y., to Richmond and Norfolk, Va., Charlotte and Raleigh, N.C., Charleston and Columbia, S.C., Quincy, Jacksonville, Miami, and Tampa, Fla., and Atlanta, Statesboro, Thomasville, and Valdosta, Ga. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Syracuse, N.Y.

No. MC 113267 (Sub-No. 297), filed January 29, 1973. Applicant: CENTRAL & SOUTHERN TRUCK LINES, INC., 3385 Airways Boulevard, Suite 115, Memphis, TN 38116. Applicant's representative: Lawrence A. Fischer, 312 West Morris, Caseyville, IL 62232. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from the plantsite and facilities utilized by Banquet Foods Corp., at or near Wellston, Ohio, to points in Alabama, Arkansas, Florida, Georgia, Illinois, Iowa, Kentucky, Louisiana, Mississippi, Missouri, Minnesota, North Carolina, South Carolina, Tennessee, Texas, and Wisconsin. Note: Applicant states that tacking the requested authority with its existing authority is possible at points in Missouri, however, not feasible as it only involves some States requested in this application. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn., or Washington, D.C.

No. MC 113362 (Sub-No. 253), filed January 29, 1973. Applicant: ELLSWORTH FREIGHT LINES, INC., 310 East Broadway, Eagle Grove, IA 50533. Applicant's representative: Milton D. Adams, 1105½ Eighth Avenue NE, Austin, MN 55912. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs, including frozen packaged meat* (except commodities in bulk), from the plantsite storage facilities of Kold Storage, Inc., at Fort Dodge, Iowa, to points in Missouri, restricted to the transportation of traffic originating at the named plantsite storage facilities. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., or Omaha, Nebr.

No. MC 113434 (Sub-No. 54), filed January 31, 1973. Applicant: GRA-BELL TRUCK LINE, INC., 679 Lincoln Avenue, Holland, MI 49423. Applicant's representative: Wilhemina Boersma, 1600 First Federal Building, Detroit, Mich. 48266. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Vinegar*, in bulk, in tank trucks, from Benton Harbor, Mich., to Bowling Green and Fremont, Ohio, Muscatine, Iowa, and Pittsburgh, Pa. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa., or Washington, D.C.

No. MC 113666 (Sub-No. 72), filed February 7, 1973. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Road, Freeport, PA 16229. Applicant's representative: Chester A. Zybult, 1522 K Street NW, Washington, DC 20005. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Mail beverages*, in containers, from Baltimore, Md.; Latrobe, Pa.; Detroit and Frankenmuth, Mich.; Cleveland and Columbus, Ohio; Newark, N.J.; Milwaukee, Wis., and Rochester, N.Y., to Akron, Cleveland, Lorain, and Ravenna, Ohio, and Butler and Tarentum, Pa. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Pittsburgh, Pa.

No. MC 113832 (Sub-No. 68), filed January 31, 1973. Applicant: SCHWERMAN TRUCKING CO., a Corporation, 611 South 28 Street, Milwaukee, WI 53246. Applicant's representative: James R. Ziperski (same address as applicant). Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Aluminum, brass, bronze, copper, steel, nickel and nickel alloy materials and products; foundry alloys; refrigeration equipment and supplies; welding equipment and supplies; fasteners, and fittings; and supplies and materials*, used in the operation and maintenance of the office and warehouse activities of Williams & Co., Inc., restricted against the transportation of commodities in bulk, between the facilities of Williams & Co., Inc., in Pittsburgh, Pa., on the one hand, and on the other, the facilities of Williams & Co., Inc., located at or near Columbus and Cleveland, Ohio, and Buffalo, N.Y., under contract with Williams & Co., Inc. Note: Applicant holds common carrier authority under MC 234078 and subs thereto, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa.

No. MC 113908 (Sub-No. 255), filed February 2, 1973. Applicant: ERICKSON TRANSPORT CORP., 2105 East Dale Street, Springfield, MO 65804. Applicant's representative: B. B. Whitehead (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid soap*, from Denver, Colo., to Metairie-New Orleans, La. Note: Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City or St. Louis, Mo., or Chicago, Ill.

No. MC 114045 (Sub-No. 377), filed January 26, 1973. Applicant: TRANSCOLD EXPRESS, INC., Post Office Box 5842, Dallas, TX 75222. Applicant's representative: J. B. Stuart (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Drugs, pharmaceuticals and chem-*

ical products, in vehicles equipped with mechanical refrigeration, from Washington Crossing, N.J., to points in California and Texas. **NOTE:** Common control may be involved. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Philadelphia, Pa.

No. MC 114829 (Sub-No. 8), filed February 2, 1973. Applicant: GENERAL CARTAGE COMPANY, INC., Post Office Box 417, Sterling, IL 61081. Applicant's representative: Daniel C. Sullivan, 327 South La Salle Street, Chicago, IL 60604. If a hearing is deemed necessary, applicant requests it be held at Sacramento or San Francisco, Calif.

No. MC 117565 (Sub-No. 80), filed January 22, 1973. Applicant: MOTOR SERVICE COMPANY INC., Route 3, Post Office Box 448, Coshocton, OH 43812. Applicant's representative: John R. Hafner (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trucks and truck bodies*, from Henderson, Ky., to points in

the United States (excluding Alaska and Hawaii). **NOTE:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky.; Evansville, Ind., or Indianapolis, Ind.

No. MC 117565 (Sub-No. 81), filed January 22, 1973. Applicant: MOTOR SERVICE COMPANY INC., Route 3, Post Office Box 448, Coshocton, OH 43812. Applicant's representative: John R. Hafner (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Moveable offices, booths, shelters and canopies, and accessories* for moveable offices, booths, shelters, and canopies, from Mount Clemens, Mich., to points in the United States (except Alaska and Hawaii). **NOTE:** Applicant has pending a motor contract carrier application in No. MC-135701 (Sub-No. 1), therefore dual operations may be involved. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., or Toledo, Ohio.

No. MC 117565 (Sub-No. 82), filed January 22, 1973. Applicant: MOTOR SERVICE COMPANY INC., Route 3, Post Office Box 448, Coshocton, OH 43812. Applicant's representative: John R. Hafner (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Plywood, plywood paneling, wood products and accessories* used in the installation and maintenance thereof, from the plantsite and warehouse facilities of Plywood Panels Inc., at or near New Orleans and the Port of New Orleans, La., to points in Louisiana, Mississippi, Tennessee, Alabama, Georgia, and Florida. **NOTE:** Applicant has pending a motor contract carrier application in No. MC-135701 (Sub-No. 1), therefore dual operations may be involved. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 117765 (Sub-No. 154), filed January 23, 1973. Applicant: HAHN TRUCK LINES, INC., 5315 Northwest Fifth, Oklahoma City, OK 73107. Applicant's representative: R. E. Hagan (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Charcoal and charcoal products*, from Cotter, Ark., to points in Alabama, Colorado, Illinois, Iowa, Kansas, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, Oklahoma, Tennessee, Texas, and Kentucky. **NOTE:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla.

No. MC 117815 (Sub-No. 199), filed January 29, 1973. Applicant: PULLEY

FREIGHT LINES, INC., 405 Southeast 20th Street, Des Moines, IA 50317. Applicant's representative: Larry D. Knox, Ninth Floor, Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail and food business houses, and in connection therewith, *equipment, materials, and supplies* used in the conduct of such business (except in bulk), between Plainfield, Ill., on the one hand, and, on the other, Benton Harbor, Kalamazoo, Portage, and St. Joseph, Mich., restricted to traffic originating or terminating at Plainfield, Ill. **NOTE:** Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Chicago, Ill.

No. MC 118377 (Sub-No. 2), filed February 2, 1973. Applicant: RICHARD R. JOHNCOX, Route 104, Williamson, N.Y. 14589. Applicant's representative: Morton E. Kiel, 140 Cedar Street, New York, NY 10006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such frozen merchandise* as is dealt in by grocery and food business houses, between the facilities of Empire Freezers of Syracuse, Inc., located at or near Geddes, N.Y., on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, District of Columbia, Virginia, Ohio, and West Virginia. **NOTE:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Syracuse, N.Y.

No. MC 119604 (Sub-No. 5), filed January 17, 1973. Applicant: SEARS TRUCK LINE, INC., Post Office Box 6016, Jasper, TX 75951. Applicant's representative: Mike Cotten, Post Office Box 1148, Austin, TX 78767. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, between the plantsite of Snider Industries, Inc., at or near Marshall, Tex., on the one hand, and, on the other, points in Louisiana, under a continuing contract or contracts with Snider Industries, Inc. **NOTE:** If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., Shreveport, La., or Houston, Tex.

No. MC 119669 (Sub-No. 32), filed January 22, 1973. Applicant: TEMPCO TRANSPORTATION, INC., 546 South 31A, Columbus, IN 47201. Applicant's representative: Craig B. Sherman, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Food, food products, drugs and plastic and rubber articles*, from Sturgis, Mich., to points in Texas, Arizona, New Mexico, Oklahoma, California, Colorado, Nevada, Utah, Washington, and Oregon. **NOTE:** Applicant states that the requested authority

cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 119777 (Sub-No. 246), filed December 4, 1972. Applicant: LIGON SPECIALIZED HAULER, INC., Post Office Box L, Madisonville, KY 42431. Applicant's representative: Louis J. Amato (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Particle board*, from the plantsite of Temple Industries, Inc., at or near Thomson, Ga., to points in the United States in and east of North Dakota, South Dakota, Nebraska, Colorado, and New Mexico. Note: Applicant also holds contract carrier authority under MC 126970 and subs, therefore dual operations and common control may be involved. Applicant states that it presently holds authority which could be tacked with the requested authority, but tacking is not feasible and it has no present intention to tack, and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Houston, Tex., or Atlanta, Ga.

No. MC 119789 (Sub-No. 147), filed February 2, 1973. Applicant: CARAVAN REFRIGERATED CARGO, INC., 1612 East Irving Boulevard (Post Office Box 6188), Dallas, TX 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, in packages and containers, from Perrysburg, Ohio, to points in Alabama, Arkansas, California, Colorado, Kansas, Georgia, Louisiana, Mississippi, Missouri, Nevada, Oklahoma, and Texas. Note: Applicant states that the requested authority can be tacked at Cade or Lozes, La., with the authority it presently holds in MC-119789 (Sub-No. 13) to serve points in Arizona, Idaho, New Mexico, Oregon, Utah, and Washington; however, no tacking is presently intended. If a hearing is deemed necessary, applicant requests it be held at Toledo, Ohio, or Dallas, Tex.

No. MC 119789 (Sub-No. 148), filed February 8, 1973. Applicant: CARAVAN REFRIGERATED CARGO, INC., Post Office Box 6188, 1612 East Irving Boulevard, Dallas, TX 75222. Applicant's representative: James K. Newbold, Jr., Post Office Box 6188, Dallas, TX 75222. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Furniture and furniture parts*, from Los Angeles, Calif., to points in the United States (except Alaska and Hawaii). Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary,

applicant requests it be held at Los Angeles, Calif., or Dallas Tex.

No. MC 119988 (Sub-No. 55), filed February 5, 1973. Applicant: GREAT WESTERN TRUCKING CO., INC., Highway 103 East, Post Office Box 1384, Lufkin, TX 75901. Applicant's representative: Hugh T. Matthews, 630 Fidelity Union Tower, Dallas, Tex. 75201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products and plastic articles*, from the plantsite and warehouse facilities of Great Plains Bag Corp., at or near Jacksonville, Ark., to points in Arizona, Colorado, Kansas, Louisiana, Oklahoma, New Mexico, and Texas. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Little Rock, Ark.

No. MC 119988 (Sub-No. 56), filed February 5, 1973. Applicant: GREAT WESTERN TRUCKING CO., INC., Highway 103 East, Post Office Box 1384, Lufkin, TX 75901. Applicant's representative: Hugh T. Matthews, 630 Fidelity Union Tower, Dallas, Tex. 75201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Synthetic rubber and related products, and materials, equipment, and supplies* used in the manufacture thereof, between Kountze, Tex., on the one hand, and, on the other, points in Alabama, Arkansas (except Little Rock), Colorado, Connecticut, Georgia, (except Atlanta), Florida, Illinois (except Chicago), Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Mississippi, Missouri (except St. Louis), New Hampshire, New Jersey, New York, North Carolina, Ohio (except Toledo), Oklahoma, Pennsylvania, South Carolina, Tennessee (except Memphis), Virginia, West Virginia, Wisconsin, and Vermont. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 120530 (Sub-No. 3), filed January 17, 1973. Applicant: POLAR TRANSPORT, INC., Post Office Box 1696, 929 Wilco Boulevard, Wilson, NC 27893. Applicant's representative: W. J. Blair, Jr., 929 Wilco Boulevard, Wilson, NC 27893. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Solid refrigerated products*, from Charlotte, N.C., to points in Virginia. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Charlotte or Raleigh, N.C.

No. MC 123255 (Sub-No. 32), filed January 29, 1973. Applicant: B & L MOTOR FREIGHT, INC., 140 Everett Avenue, Newark, OH 43055. Applicant's representative: N. E. Milford (same address as applicant). Authority sought to oper-

ate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Paper and paper products*, (1) from Monroe, Mich., to Donora, Pa., Milwaukee, Wis., and Eaton, Ind., and (2) from Eaton, Ind., to Donora, Pa. Note: Applicant also holds contract carrier authority under MC 81968 and subs, therefore dual operations and common control may be involved. Applicant states that the requested authority can be tacked with its existing authority in MC 123255 and subs, but does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 123255 (Sub-No. 33), filed January 29, 1973. Applicant: B & L MOTOR FREIGHT, INC., 140 Everett Avenue, Newark, OH 43055. Applicant's representative: N. E. Milford (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Ceramic foam, plastics and plastic products* (except in bulk) from the plantsites and warehouses of Dow Chemical U.S.A. located in Hamilton Township, Lawrence County, Ohio, to points in Colorado, Indiana, Michigan, Kentucky, West Virginia, Rhode Island, Connecticut, Massachusetts, Maine, New Hampshire, Vermont, that part of Pennsylvania on and west of U.S. Highway 219, and the Chicago, Ill., commercial zone, (2) *plastics and plastic products* (except in bulk) from the plantsites and warehouses of Dow Chemical U.S.A. located at Gales Ferry, Conn., to points in the United States on and east of U.S. Highway 85, (3) *plastic foam products* (except in bulk), from the plantsite and warehouses of Dow Chemical U.S.A. located at Royersford, Pa., to points in the United States on and east of U.S. Highway 85 (except points in Michigan, Illinois, Indiana, Ohio, Kentucky, Tennessee, Georgia, South Carolina, Maryland, and West Virginia), (4) *plastic foam building panels, laminated or other than laminated*, from the plantsite and warehouses of Dow Chemical U.S.A. located at Cape Girardeau, Mo., to points in the United States on and east of U.S. Highway 85, and (5) *plastic foam products* (except in bulk), from the plantsites and warehouses of Dow Chemical U.S.A. located at Carteret, N.J., Midland, Mich., Pevely, Mo., and in Columbia County, Ark., to points in the United States on and east of U.S. Highway 85. Note: Applicant also holds contract carrier authority under MC 81968 and subs, therefore dual operations and common control may be involved. Applicant states that the requested authority can be tacked with its existing authority in MC 123255 and subs, but does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted

grant of authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 123407 (Sub-No. 117), filed February 2, 1973. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Robert W. Sawyer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing, siding, decking, roof drainage products, galvanized metalware, stove-pipe and mobile home skirting*, from Dover, Ohio, to points in Wisconsin and Minnesota. Note: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 124025 (Sub-No. 3), filed February 2, 1973. Applicant: GLASS TRUCKING COMPANY, INC., 200 Chestnut, Newkirk, OK 74647. Applicant's representative: Marlon F. Jones, 1600 Lincoln Center Building, 1660 Lincoln Street, Denver, CO 80203. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Baler wire, fencing, nails, fencepost, and reinforcing bar*, restricted against commodities which because of size or weight require the use of special equipment or special handling, from the plantsite of CF&I Steel Corp., Pueblo, Colo., to points in Oklahoma and Kansas, under contract with CF&I Steel Corp. Note: If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 124174 (Sub-No. 95), filed February 1, 1973. Applicant: MOMSEN TRUCKING CO., a corporation, 2405 Hiway Boulevard, Spencer, IA 51301. Applicant's representative: Marshall D. Becker, 530 Univac Building, 7100 West Center Road, Omaha, NE 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ventilators, ventilator parts, ventilator equipment, ventilator systems and accessories* used in the installation thereof, and *materials, supplies and equipment* used in the manufacture and distribution of the aforementioned commodities, between Junction City, Ky., Keyser, W. Va., Tabor City, N.C., and Philadelphia, Pa., on the one hand, and, on the other, points in the United States on and east of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the international

boundary line between the United States and Canada. Note: Common control may be involved. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 124211 (Sub-No. 224), filed January 29, 1973. Applicant: HILT TRUCK LINE, INC., Post Office Box 988, Downtown Station, Omaha, NE 68101. Applicant's representative: Thomas L. Hilt (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Communication and entertainment products, equipment, materials and supplies, and parts and accessories*, between points in Johnston and Onslow Counties, N.C.; and Genesee and Seneca Counties, N.Y., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 125129 (Sub-No. 2), filed January 26, 1973. Applicant: R. B. GREENE TRANSPORTATION, INC., Maple Street, Danielson, Conn. 06239. Applicant's representative: Thomas W. Murrett, 342 North Main Street, West Hartford, CT 06117. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers*, from Dayville (Killingly), Conn., to points in Massachusetts on and east of Interstate Highway 91, under a continuing contract with Glass Containers Corp., at Knox, Pa. Note: If a hearing is deemed necessary, applicant requests it be held at Hartford, Conn., or Providence, R.I.

No. MC 126539 (Sub-No. 12), filed January 31, 1973. Applicant: KATUIN BROS. INC., 102 Terminal Street, Dubuque, IA 52001. Applicant's representative: Carl E. Munson, 469 Fischer Building, Dubuque, Iowa 42001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer, and liquid fertilizer ingredients*, from Dubuque, Iowa, to points in Illinois, Minnesota, and Wisconsin. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa, or Chicago, Ill.

No. MC 127418 (Sub-No. 7), filed January 12, 1973. Applicant: TROP-ARCTIC REFRIGERATED SERVICE, INC., Post Office Box 1272, Gainesville, GA 30501. Applicant's representative: Archie B. Culbreth, Suite 246, 1252 West Peachtree Street NW, Atlanta, GA 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Carpets, carpeting, rugs, tufted textile products and yarn*, from points in Catoosa, Chattooga, Floyd, Gilmer, Gordon, Murray, Pickens,

Walker, and Whitfield Counties, Ga., to points in Arizona, California, Colorado, Idaho, Kansas, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming, and (2) *jute and burlap*, from Los Angeles, Oakland, San Diego, and San Francisco, Calif., Portland, Oreg., and Seattle, Wash., to points in the Georgia counties named in (1) above. Note: If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 127660 (Sub-No. 4), filed January 29, 1973. Applicant: KENNETH L. EBY, 10208 Southeast French Road, Vancouver, WA 98664. Applicant's representative: Jerry Woods, 620 Blue Cross Building, Portland, Oreg. 97201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Boats*, between points in Oregon and Washington on the one hand, and on the other, points in California. Note: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg., or Seattle, Wash.

No. MC 128085 (Sub-No. 4), filed February 7, 1973. Applicant: JOHN NOVAK, an individual, Route No. 1, Box 11, Laona, WI 54541. Applicant's representative: Nancy J. Johnson, 4506 Regent Street, Suite 100, Madison, WI 53705. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from points in Forest, Florence, Langlade, Oneida, Vilas, Oconto, and Menominee Counties, Wis., to points in Illinois, Michigan, Iowa, Indiana, Ohio, Minnesota, Mississippi, and Kentucky, and return shipments of *materials, equipment, and supplies*, under continuing contracts with Pine River Lumber Co., Ltd., at Long Lake, Wis., and Connor Forest Industry at Wausau, Wis. Note: If a hearing is deemed necessary, applicant requests it be held at Milwaukee or Madison, Wis., or Escanaba, Mich.

No. MC 128459 (Sub-No. 2), filed February 1, 1973. Applicant: ALBERT L. SMITH, 124 Kearsarge Street, Pittsburgh, PA 15211. Applicant's representative: Arthur J. Diskin, 806 Frick Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Business machines, copying and duplicating equipment and paper and supplies* used in the operation thereof, between the warehouse facility of A. B. Dick Co. in Columbus, Ohio, and points in Allegheny, Beaver, Butler, Fayette, Westmoreland, Washington, and Green Counties, Pa., under a continuing contract with A. B. Dick Co. Note: If a

hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Pittsburgh, Pa.

No. MC 128878 (Sub-No. 27), filed January 29, 1973. Applicant: SERVICE TRUCK LINE, INC., Post Office Box 3904, Shreveport, LA 71103. Applicant's representative: Ewell Muse, Jr., 415 Perry-Brooks Building, Austin, Tex. 78701. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Wood residuals between Rilla, La., on the one hand, and, on the other, points in Alabama and Mississippi. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Shreveport or Baton Rouge, La., Jackson, Miss., or Houston, Tex.

No. MC 129660 (Sub-No. 4), filed January 21, 1973. Applicant: MALLETTE BROTHERS TRUCK LINE, INC., Route 2, Box 243, Gautier, Miss. 39553. Applicant's representative: Fred W. Johnson, Jr., 717 Deposit Guaranty Bank Building, Post Office Box 22628, Jackson, MS 39205. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Lumber, from points in Harrison County, Miss., to points in Mississippi, Alabama, Florida, Georgia, Tennessee, Arkansas, Louisiana, and Texas. Note: Applicant states that the requested authority can be tacked at Alabama and Tennessee, among others, with the authority it presently holds in No. MC 129660 (Sub-No. 2) to serve points or territories which applicant does not identify. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Jackson, Miss.

No. MC 133221 (Sub-No. 17), filed January 11, 1973. Applicant: OVERLAND CO., INC., Route 1, Box 406A, Lawrenceville, GA 30245. Applicant's representative: D. D. Brunson, 419 Northwest Sixth Street, Oklahoma City, OK 73102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Carpet, carpet padding and yarn from Bristow, Okla., to points in the United States (excluding Alaska and Hawaii). Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Oklahoma City, Okla.; Atlanta, Ga., or Washington, D.C.

No. MC 133570 (Sub-No. 2), filed February 15, 1973. Applicant: MELVIN A. ATKINS, JR., doing business as ATKINS TRUCKING, Box 27, Hamilton, IN 46742. Applicant's representative: Donald W. Smith, 900 Circle Tower, Indianapolis, Ind. 46204. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Signs, from the plant site of N.P.I.

## NOTICES

Division of Essex International, Inc., located at or near Lima, Ohio, to points in the United States (except Hawaii and Alaska) under contract with N.P.I. Division of Essex International, Inc. Note: If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Chicago, Ill.

No. MC 133630 (Sub-No. 5), filed January 22, 1973. Applicant: LEO KING TRUCKING SERVICE, Ashkum, Ill. 60911. Applicant's representative: Charles R. Young, 4 West Seminary Street, Danville, IL 61832. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Dry fertilizer, in bag or bulk, from Ashkum, Ill. to points in Wisconsin. Note: Applicant states that the requested authority can be tacked with its existing authority at MC 133630 (Sub-No. 1) which authorizes transportation of dry fertilizer, from Ashkum, Ill., to points in that part of Indiana on and north of Indiana Highway 28. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Springfield, Ill., or Chicago, Ill.

No. MC 133750 (Sub-No. 2), filed February 2, 1973. Applicant: WULFFS, INC., Salem, S. Dak. 57058. Applicant's representative: Patrick E. Quinn, 605 South 14th Street, Post Office Box 82028, Lincoln, NE 68501. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Prefabricated concrete products, (1) from Central City, Nebr., to points in Colorado, Kansas, Oklahoma, Iowa, Missouri, and South Dakota; (2) from Spencer, Iowa to points in Nebraska, Minnesota, and South Dakota; and (3) from Salem, S. Dak., to points in Wisconsin and the shipments in (1), (2), and (3) above restricted to traffic originating at the plant sites and storage facilities of F & W Concrete Products Co. and performed under a continuing contract, or contracts, with F & W Concrete Products Co. at Salem, S. Dak. Note: Applicant presently holds a motor common carrier certificate in No. MC-118589, and dual operations were authorized by the Commission in No. MC-FC-73024. If a hearing is deemed necessary, applicant requests it be held at Sioux City, Iowa, or Lincoln, Nebr.

No. MC 133775 (Sub-No. 12), filed January 15, 1973. Applicant: REEFER TRANSIT LINE, INC., 55 East Washington Street, Chicago, IL 60602. Applicant's representative: Charles W. Singer, 327 South La Salle Street, Suite 1000, Chicago, IL 60604. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Foodstuffs, meats, meat products, meat by-products and articles distributed by meat packinghouses (except hides and commodities in bulk), from the plantsites and facilities utilized by Tony Downs Food, Inc., at Butterfield, St.

James and Medella, Minn., to points in Iowa, Nebraska, Kansas, Missouri, Ohio, Pennsylvania, New York, New Jersey, Maryland, Delaware, West Virginia, and the District of Columbia. Note: Common control may be involved. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 134365 (Sub-No. 3), filed January 29, 1973. Applicant: RUSSELL BARTLETT, doing business as RUSSELL BARTLETT TRUCKING, Post Office Box 342, LaCrosse, WA 99143. Applicant's representative: Daniel W. Baker, 405 Montgomery Street, San Francisco, CA 94104. Daniell, Post Office Box 872, Atlanta, GA 30301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid plastics and liquid chemicals*, in containers, in vehicles, equipped with mechanical refrigeration, from the plant site of Cook Paint & Varnish Co., located at or near North Kansas City, Mo., to points in Florida. Note: Applicant states that the requested authority cannot be tacked with its existing authority. Common control and dual operations may be involved.

No. MC 136664 (Sub-No. 1), filed January 29, 1973. Applicant: NORTH AMERICA MOVERS OF N.C. INC., 16 Piney Park Road, Asheville, NC 28806. Applicant's representative: Howard E. Frazier (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Telephone equipment, material and supplies, including tools used in the construction and maintenance of telephone systems and communications*, between Asheville, N.C., and points in Buncombe, Haywood, Henderson, Madison, Transylvania, Jackson, Cherokee, Clay, Macon, Graham, and Swain Counties, N.C., under contract with Western Electric Co., Inc.

No. MC 136800 (Sub-No. 1), filed February 5, 1973. Applicant: JERRY O. CAPES, WINFORD EUGENE BATES, DR. JOHNNY L. CAPES, AND LARRY A. WAGNER, a partnership, doing business as ABC MOVING & STORAGE CO., 9163 Hazelbrand Road, Post Office Box 914, Covington, GA 30209. Applicant's representative: Jerry O. Capes (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Telephone equipment, materials, and supplies used in the installation, maintenance and repair of such equipment*, between Covington, Ga., and points in Rockdale, Newton, Walton, Morgan, and Putnam Counties, Ga.,

under contract with Western Electric Co., Inc., Atlanta, Ga.

## MOTOR CARRIERS OF PASSENGERS

No. MC 8500 (Sub-No. 12), filed January 31, 1973. Applicant: TENNESSEE TRAILWAYS, INC., 417 West Fifth Street, Charlotte, NC 28201. Applicant's representative: James E. Wilson, 1032 Pennsylvania Avenue and 13th Street NW., Washington, DC 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in special operations in round-trip sightseeing or pleasure tours, beginning and ending at points in Bartow, Catoosa, Gordon, Murray, Walker, and Whitfield Counties, Ga., and extending to points in the United States (including Alaska but excluding Hawaii). Note: Common control may be involved.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Rev. S.O. 994; ICC Order 70; Amdt. 4]

## WELLSVILLE, ADDISON &amp; GALETON RAILROAD CORP.

## Rerouting or Diversion of Traffic

Upon further consideration of ICC Order No. 70 (Wellsville, Addison & Galetton Railroad Corp.) and good cause appearing therefor:

It is ordered, That: ICC Order No. 70 be, and it is hereby, amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date*. This order shall expire at 11:59 p.m., May 15, 1973, unless otherwise modified, changed, or suspended.

It is further ordered, That this amendment shall become effective at 11:59 p.m., March 15, 1973, and that this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., March 8, 1973.

INTERSTATE COMMERCE  
COMMISSION,  
R. D. FRAHLER,  
Agent.

## RULES AND REGULATIONS

Title 31—Money and Finance: Treasury  
CHAPTER II—FISCAL SERVICE,  
DEPARTMENT OF THE TREASURY  
SUBCHAPTER B—BUREAU OF THE PUBLIC  
DEBT

PART 306—GENERAL REGULATIONS  
GOVERNING U.S. SECURITIES

The regulations in 31 CFR Part 306 have been revised and amended for the purpose of facilitating the functioning of transactions in marketable U.S. securities.

Notice and public procedures are unnecessary and are dispensed with as the revision is largely declaratory of the revisions and amendments heretofore published in the FEDERAL REGISTER and fiscal policy of the United States is involved. The changes were effected under authority of R.S. 3706; 40 Stat. 288, 502, 844, 1309; 42 Stat. 321; 46 Stat. 20; 48 Stat. 343; 49 Stat. 20; 50 Stat. 481; 52 Stat. 447; 53 Stat. 1359; 56 Stat. 189; 73 Stat. 622; and 85 Stat. 5, 74 (31 U.S.C. 738a, 739, 752, 752a, 753, 754, 754a, and 754b); 5 U.S.C. 301.

Dated: March 9, 1973.

[SEAL] JOHN K. CARLOCK,  
Fiscal Assistant Secretary.

Department of the Treasury Circular No. 300, Third Revision, dated December 23, 1964 (31 CFR Part 306), as amended, is hereby further amended and issued as the Fourth Revision.

Subpart A—General Information	
306.0	Applicability of regulations.
306.1	Official agencies.
306.2	Definitions of words and terms used in these regulations.
306.3	Transportation charges and risks in the shipment of securities.
Subpart B—Registration	
306.10	General.
306.11	Forms of registration for transferable securities.
306.12	Errors in registration.
306.13	Nontransferable securities.
Subpart C—Transfers, Exchanges and Reissues	
306.15	Transfers and exchanges of securities—closed periods.
306.16	Exchanges of registered securities.
306.17	Exchanges of registered securities for coupon securities.
306.18	Exchanges of coupon securities for registered securities.
306.19	Denominational exchanges of coupon securities.
306.20	Reissue of registered transferable securities.
306.21	Reissue of nontransferable securities.
306.22	Exchange of Treasury Bonds, Investment Series B-1975-80.
Subpart D—Redemption or Payment	
306.25	Presentation and surrender.
306.26	Redemption of registered securities at maturity, upon prior call, or for prerefunding or advance refunding.
306.27	Redemption of bearer securities at maturity, upon prior call, or for advance refunding or prerefunding.
306.28	Optional redemption of Treasury bonds at par (before maturity or call redemption date) and application of the proceeds in payment of Federal estate taxes.

Subpart E—Interest	
306.35	Computation of interest.
306.36	Termination of interest.
306.37	Interest on registered securities.
306.38	Interest on bearer securities.
Subpart F—Assignments of Registered Securities—General	
306.40	Execution of assignments or special endorsements.
306.41	Form of assignment.
306.42	Alterations and erasures.
306.43	Voidance of assignments.
306.44	Discrepancies in names.
306.45	Officers authorized to certify assignments.
306.46	Duties and responsibilities of certifying officers.
306.47	Evidence of certifying officer's authority.
306.48	Interested persons not to act as certifying officer or witness.
306.49	Nontransferable securities.
Subpart G—Assignments by or in Behalf of Individuals	
306.55	Signatures, minor errors and change of name.
306.56	Assignment of securities registered in the names of or assigned to two or more persons.
306.57	Minors and incompetents.
306.58	Nontransferable securities.
Subpart H—Assignments in Behalf of Estates of Deceased Owners	
306.65	Special provisions applicable to small amounts of securities, interest checks, or redemption checks.
306.66	Estates—administration.
306.67	Estates not administered.
306.68	Nontransferable securities.
Subpart I—Assignments by or in Behalf of Trustees and Similar Fiduciaries	
306.75	Individual fiduciaries.
306.76	Fiduciaries acting as a unit.
306.77	Corepresentatives and fiduciaries.
306.78	Nontransferable securities.
Subpart J—Assignments in Behalf of Private or Public Organizations	
306.85	Private corporations and unincorporated associations (including nominee corporations).
306.86	Change of name and succession of private organizations.
306.87	Partnerships (including nominee partnerships).
306.88	Political entities and public corporations.
306.89	Public officers.
306.90	Nontransferable securities.
Subpart K—Attorneys in Fact	
306.95	Attorneys in fact.
306.96	Nontransferable securities.
Subpart L—Transfer Through Judicial Proceedings	
306.100	Transferable securities.
306.101	Evidence required.
306.102	Nontransferable securities.
Subpart M—Requests for Suspension of Transactions	
306.105	Requests for suspension of transactions in registered securities.
306.106	Requests for suspension of transactions in bearer securities.
Subpart N—Relief for Loss, Theft, Destruction, Mutilation, or Defacement of Securities	
306.110	Statutory authority and requirements.
306.111	Procedure for applying for relief.
306.112	Type of relief granted.
306.113	Cases not requiring bonds of indemnity.

Subpart O—Book-Entry Procedure	
306.115	Definition of terms.
306.116	Authority of Reserve Banks.
306.117	Scope and effect of book-entry procedure.
306.118	Transfer or pledge.
306.119	Withdrawal of Treasury securities.
306.120	Delivery of Treasury securities.
306.121	Registered bonds and notes.
306.122	Servicing book-entry Treasury securities; payment of interest, payment at maturity or upon call.
Subpart P—Miscellaneous Provisions	
306.125	Additional requirements.
306.126	Waiver of regulations.
306.127	Preservation of existing rights.
306.128	Supplements, amendments or revisions.
Appendix to Subpart E—Interest. Computation of Interest on Treasury Bonds, Notes, and Certificates of Indebtedness. Computation of Discount on Treasury Bills—Interest Tables.	
Appendix to Subpart O—Book-Entry Procedure.	
AUTHORITY: R.S. 3706; 40 Stat. 288, 502, 844, 1309; 42 Stat. 321; 46 Stat. 20; 48 Stat. 343; 49 Stat. 20; 50 Stat. 481; 52 Stat. 477; 53 Stat. 1359; 56 Stat. 189; 73 Stat. 622; and 85 Stat. 5, 74 (31 U.S.C. 738a, 739, 752, 752a, 753, 754, 754a, and 754b); 5 U.S.C. 301.	
Subpart A—General Information	
§ 306.0 Applicability of regulations.	
These regulations apply to all U.S. transferable and nontransferable securities, other than U.S. Savings Bonds and U.S. Savings Notes, to the extent specified in these regulations, the offering circulars or special regulations governing such securities.	
§ 306.1 Official agencies.	
(a) Subscriptions—tenders—bids. Securities subject to these regulations are issued from time to time pursuant to public offerings by the Secretary of the Treasury, through the Federal Reserve banks, fiscal agents of the United States, and the Treasurer of the United States. Only the Federal Reserve banks and branches and the Department of the Treasury are authorized to act as official agencies, and subscriptions or tenders for Treasury securities, and bids, to the extent provided in the regulations governing the sale of Treasury securities through competitive bidding, may be made direct to them. However, tenders for Treasury bills are not received at the Department.	
(b) Transactions after issue. The Bureau of the Public Debt of the Department of the Treasury is charged with matters relating to transactions in securities. Correspondence concerning transactions in securities and requests for appropriate forms may be addressed to (1) the Federal Reserve bank or branch of the district in which the correspondent is located, or (2) the Bureau of the Public Debt, Division of Securities Operations, Washington, D.C. 20226, or (3) the Office of the Treasurer of the	
These regulations may also be applied to securities issued by certain agencies of the United States and certain Government and Government-sponsored corporations.	

## RULES AND REGULATIONS

United States, Securities Division, Washington, D.C. 20222, except where specific instructions are otherwise given in these regulations. The addresses of the Federal Reserve banks and branches are:

Federal Reserve Bank of Boston, Boston, Mass. 02106.
Federal Reserve Bank of New York, New York, N.Y. 10045.
Buffalo Branch, Buffalo, N.Y. 14240.
Federal Reserve Bank of Philadelphia, Philadelphia, Pa. 19101.
Federal Reserve Bank of Cleveland, Cleveland, Ohio 44101.
Cincinnati Branch, Cincinnati, Ohio 45201.
Pittsburgh Branch, Pittsburgh, Pa. 15230.
Federal Reserve Bank of Richmond, Richmond, Va. 23261.
Baltimore Branch, Baltimore, Md. 21203.
Charlotte Branch, Charlotte, N.C. 28201.
Federal Reserve Bank of Atlanta, Atlanta, Ga. 30303.
Birmingham Branch, Birmingham, Ala. 35202.
Jacksonville Branch, Jacksonville, Fla. 32203.

Portland Branch, Portland, Ore. 97208.
Salt Lake City Branch, Salt Lake City, Utah 84110.
Seattle Branch, Seattle, Wash. 98124.
§ 306.2 Definitions of words and terms as used in these regulations.
(a) "Advance refunding offer" is an offer to a holder of a security, usually a year or more in advance of its call or maturity date, to exchange it for another security.
(b) A "bearer" security is payable on its face at maturity or call for redemption before maturity in accordance with its terms to "bearer." The ownership is not recorded. Title to such a security may pass by delivery without endorsement and without notice. A "coupon" security is a bearer security with interest coupons attached.
(c) "Bureau" refers to the Bureau of the Public Debt, Division of Securities Operations, Washington, D.C. 20226.

(d) "Call date" or "date of call" is the date fixed in the official notice of call published in the FEDERAL REGISTER as the date on which the obligor will make payment of the security before maturity in accordance with its terms.

(e) "Court" means one which has jurisdiction over the parties and the subject matter.

(f) "Department" refers to the Department of the Treasury.

(g) "Face maturity date" is the payment date specified in the text of a security.

(h) "Incompetent" refers to a person under any legal disability except minority.

(i) "Joint owner" and "joint ownership" refer to any permitted form of ownership by two or more persons.

(j) "Nontransferable securities" are those issued only in registered form which according to their terms are payable only to the registered owners or recognized successors in title to the extent and in the manner provided in the offering circulars or special applicable regulations.

(k) "Payment" and "redemption," unless otherwise indicated by the context, are used interchangeably for payment at maturity or payment before maturity pursuant to a call for redemption in accordance with the terms of the securities.

(l) "Prerefunding offer" is an offer to a holder of a security, usually within the year preceding its call or maturity date, to exchange it for another security.

(m) "Redemption-exchange" is any authorized redemption of securities for the purpose of applying the proceeds in payment for other securities offered in exchange.

(n) A "registered" security refers to a security the ownership of which is registered on the books of the Department. It is payable at maturity or call for redemption before maturity in accordance with its terms to the person in whose name it is inscribed, or his assignee.

(o) "Securities assigned in blank" or "securities so assigned as to become in effect payable to bearer" refers to registered securities which are assigned by the owner or his authorized representative without designating the assignee. Registered securities assigned simply to "The Secretary of the Treasury" or in the case of Treasury Bonds, Investment Series B-1975-80, to "The Secretary of the Treasury for exchange for the current Series EA or EO Treasury notes" are considered to be so assigned as to become in effect payable to bearer.

(p) "Taxpayer identifying number" means the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service, i.e., an individual's social security account number or an employer identification number. A social security account number is composed of nine digits separated by two hyphens, for example, 123-45-6789; an employer identification number is composed of

nine digits separated by one hyphen, for example, 12-3456789. The hyphens are an essential part of the numbers and must be included.

(q) "Transferable securities," which may be in either registered or bearer form, refers to securities which may be sold on the market and transfer of title accomplished by assignment and delivery if in registered form, or by delivery only if in bearer form.

(r) "Treasurer's Office" refers to the Office of the Treasurer of the United States, Securities Division, Washington, D.C. 20222.

(s) "Treasury securities," "Treasury bonds," "Treasury notes," "Treasury certificates of indebtedness," and "Treasury bills," or simply "securities," "bonds," "notes," "certificates," and "bills," unless otherwise indicated by the context, refer only to transferable securities.

§ 306.3 Transportation charges and risks in the shipment of securities.

The following rules will govern transportation to, from, and between the Department and the Federal Reserve banks and branches of securities issued on or presented for authorized transactions:

(a) The securities may be presented or received by the owners or their agents in person.

(b) Securities issued on original issue, unless delivered in person, will be delivered by registered mail or by other means at the risk and expense of the United States.

(c) The United States will assume the risk and expense of any transportation of securities which may be necessary between the Federal Reserve banks and branches and the Treasury.

(d) Securities submitted for any transaction after original issue, if not presented in person, must be forwarded at the owner's risk and expense.

(e) Bearer securities issued on transactions other than original issue will be delivered by registered mail, covered by insurance, at the owner's risk and expense, unless called for in person by the owner or his agent. Registered securities issued on such transactions will be delivered by registered mail at the risk of, but without expense to, the registered owner. Should delivery by other means be desired, advance arrangements should be made with the official agency to which the original securities were presented.

Subpart B—Registration

§ 306.10 General.

The registration used must express the actual ownership of a security and may not include any restriction on the authority of the owner to dispose of it in any manner, except as otherwise specifically provided in these regulations. The Treasury Department reserves the right to treat the registration as conclusive of ownership. Requests for registration should be clear, accurate, and complete, conform with one of the forms set forth in this subpart, and include appropriate taxpayer identifying num-

## RULES AND REGULATIONS

bers.<sup>1</sup> The registration of all bonds owned by the same person, organization, or fiduciary should be uniform with respect to the name of the owner and, in the case of a fiduciary, the description of the fiduciary capacity. Individual owners should be designated by the names by which they are ordinarily known or under which they do business, preferably including at least one full given name. The name of an individual may be preceded by any applicable title, as, for example, "Mrs.," "Miss," "Ms.," "Dr.," or "Rev.," or followed by a designation such as "M.D.," "D.D.," "Sr.," or "Jr." Any other similar suffix should be included when ordinarily used or when necessary to distinguish the owner from a member of his family. A married woman's own given name, not that of her husband, must be used, for example, "Mrs. Mary A. Jones," not "Mrs. Frank B. Jones." The address should include, where appropriate, the number and street, route, or any other local feature and the Zip Code.

### § 306.11 Forms of registration for transferable securities.

The forms of registration described below are authorized for transferable securities:

(a) *Natural persons in their own right.* In the names of natural persons who are not under any legal disability, in their own right, substantially as follows:

(1) *One person.* In the name of one individual. Examples:

John A. Doe (123-45-6789).  
Mrs. Mary C. Doe (123-45-6789).  
Miss Elizabeth Jane Doe (123-45-6789).

An individual who is sole proprietor of a business conducted under a trade name may include a reference to the trade name. Examples:

John A. Doe, doing business as Doe's Home Appliance Store (123-45-6789).  
or

John A. Doe (123-45-6789), doing business as Doe's Home Appliance Store.

(2) *Two or more persons—general.* Securities will not be registered in the name of one person payable on death to another, or in any form which purports to authorize transfer by less than all the persons named in the registration (or all the survivors).<sup>2</sup> Securities will not be

<sup>1</sup> Taxpayer identifying numbers are not required for foreign governments, nonresident aliens not engaged in trade or business within the United States, international organizations and foreign corporations not engaged in trade or business and not having an office or place of business or a financial or paying agent within the United States, and other persons or organizations as may be exempted from furnishing such numbers under regulations of the Internal Revenue Service.

<sup>2</sup> Warning: Difference Between Transferable Treasury Securities Registered in the Names of Two or More Persons and United States Savings Bonds in Coownership Form. The effect of registering Treasury securities to which these regulations apply in the names of two or more persons differs decidedly from registration of savings bonds in coownership form. Savings bonds are virtually redeemable on demand at the option of either coowner on his signature alone. Transferable Treasury securities are redeemable only at maturity or upon prior call by the Secretary of the Treasury.

registered in the forms "John A. Doe and Mrs. Mary C. Doe, or either of them" or "William C. Doe or Henry J. Doe, or either of them" and securities so assigned will be treated as though the words "or either of them" do not appear in the assignments. The taxpayer identifying number of any of the joint owners may be shown on securities registered in joint ownership form.

(i) *With right of survivorship.* In the names of two or more individuals with right of survivorship. Examples:

John A. Doe (123-45-6789) or Mrs. Mary C. Doe or the survivor.  
John A. Doe (123-45-6789) or Mrs. Mary C. Doe or Miss Mary Ann Doe or the survivors or survivor.  
John A. Doe (123-45-6789) or Mrs. Mary C. Doe.  
John A. Doe (123-45-6789) and Mrs. Mary C. Doe.  
John A. Doe (123-45-6789) and Mrs. Mary C. Doe as joint tenants with right of survivorship and not as tenants in common.

Limited to husband and wife:

John A. Doe (123-45-6789) and Mrs. Mary C. Doe, as tenants by the entireties.

(ii) *Without right of survivorship.* In the names of two or more individuals in such manner as to preclude the right of survivorship. Examples:

John A. Doe (123-45-6789) and William B. Doe as tenants in common.  
John A. Jones as natural guardian of Henry B. Jones, a minor, and Robert C. Jones (123-45-6789), without right of survivorship.

Limited to husband and wife:

Charles H. Brown (123-45-6789) and Ann R. Brown, as partners in community.

(b) *Minors and incompetents—(1) Natural guardians of minors.* A security may be registered in the name of a natural guardian of a minor for whose estate no legal guardian or similar representative has legally qualified. Example:

John R. Jones as natural guardian of Henry M. Jones, a minor (123-45-6789).

Either parent with whom the minor resides, or if he does not reside with either parent, the person who furnishes his chief support, will be recognized as his natural guardian and will be considered a fiduciary. Registration in the name of a minor in his own right as owner or as joint owner is not authorized. Securities so registered, upon qualification of the natural guardian, will be treated as though registered in the name of the natural guardian in that capacity.

(2) *Custodian under statute authorizing gifts to minors.* A security may be purchased as a gift to a minor under a State in which either the donor or the minor resides. The security should be registered as provided in the statute, with an identifying reference to the statute if the registration does not clearly identify it. Examples:

William C. Jones, as custodian for John A. Smith, a minor (123-45-6789), under the California Uniform Gifts to Minors Act.

Robert C. Smith, as custodian for Henry L. Brown, a minor (123-45-6789), under the laws of Georgia; Ch. 48-3, Code of Ga. Anno.

(3) *Incompetents not under guardianship.* Registration in the form "John A. Brown, an incompetent (123-45-6789), under voluntary guardianship," is permitted only on reissue after a voluntary guardian has qualified for the purpose of collecting interest. (See §§ 306.37(c)(2) and 306.57(c)(2).) Otherwise, registration in the name of an incompetent not under legal guardianship is not authorized.

(c) *Executors, administrators, guardians, and similar representatives or fiduciaries.* A security may be registered in the names of legally qualified executors, administrators, guardians, conservators, or similar representatives or fiduciaries of a single estate. The names and capacities of all the representatives or fiduciaries, as shown in their letters of appointment, must be included in the registration and must be followed by an adequate identifying reference to the estate. Examples:

John Smith, executor of will (or administrator of estate) of Henry J. Jones, deceased (12-3456789).  
William C. Jones, guardian (or conservator, etc.) of estate of James D. Brown, a minor (or an incompetent) (123-45-6789).

(d) *Life tenant under will.* A security may be registered in the name of a life tenant followed by an adequate identifying reference to the will. Example:

Anne B. Smith, life tenant under the will of Adam A. Smith, deceased (12-3456789).

The life tenant will be considered a fiduciary.

(e) *Private trust estates.* A security may be registered in the name and title of the trustee or trustees of a single duly constituted private trust, followed by an adequate identifying reference to the authority governing the trust. Examples:

John Jones and Blank Trust Co., Albany, N.Y., trustees under will of Sarah Jones, deceased (12-3456789).  
John Doe and Richard Roe, trustees under agreement with Henry Jones dated February 9, 1970 (12-3456789).

The names of all trustees, in the form used in the trust instrument, must be included in the registration, except as follows:

(1) If there are several trustees designated as a board or authorized to act as a unit, their names should be omitted and the words "Board of Trustees" substituted for the word "trustees." Example:

Board of Trustees of Blank Co. Retirement Fund, under collective bargaining agreement dated June 30, 1970 (12-3456789).

(2) If the trustees do not constitute a board or otherwise act as a unit, and are either too numerous to be designated in the inscription by names and title, or serve for limited terms, some or all of the names may be omitted. Examples:

John Smith, Henry Jones, et al., trustees under will of Henry J. Smith, deceased (12-3456789).

Trustees under will of Henry J. Smith, deceased (12-3456789).  
Trustees of Retirement Fund of Industrial Manufacturing Co., under directors' resolution of June 30, 1950 (12-3456789).

(f) *Private organizations (corporations, unincorporated associations and partnerships).* A security may be registered in the name of any private corporation, unincorporated association, or partnership, including a nominee, which for purposes of these regulations is treated as the owner. The full legal name of the organization, as set forth in its charter, articles of incorporation, constitution, partnership agreement, or other authority from which its powers are derived, must be included in the registration and may be followed, if desired, by a reference to a particular account or fund, other than a trust fund, in accordance with the rules and examples given below:

(1) *A corporation.* The name of a business, fraternal, religious, or other private corporation must be followed by descriptive words indicating the corporate status unless the term "corporation" or the abbreviation "Inc." is part of the name or the name is that of a corporation or association organized under Federal law, such as a national bank or Federal savings and loan association. Examples:

Smith Manufacturing Co., a corporation (12-3456789).  
The Standard Manufacturing Corp. (12-3456789).  
Jones & Brown, Inc.—Depreciation Acct. (12-3456789).  
First National Bank of Albemarle (12-3456789).  
Abco & Co., Inc., a nominee corporation (12-3456789).

(2) *An unincorporated association.* The name of a lodge, club, labor union, veterans' organization, religious society, or similar self-governing organization which is not incorporated (whether or not it is chartered by or affiliated with a parent organization which is incorporated) must be followed by the words "an unincorporated association." Examples:

American Legion Post No. —, Department of the D.C., an unincorporated association (12-3456789).  
Local Union No. 100, Brotherhood of Locomotive Engineers, an unincorporated association (12-3456789).

Securities should not be registered in the name of an unincorporated association if the legal title to its property in general, or the legal title to the funds with which the securities are to be purchased, is held by trustees. In such a case the securities should be registered in the title of the trustees in accordance with paragraph (e) of this section. The term "unincorporated association" should not be used to describe a trust fund, a partnership or a business conducted under a trade name.

(3) *A partnership.* The name of a partnership must be followed by the words "a partnership." Examples:

Smith & Brown, a partnership (12-3456789).  
Acme Novelty Co., a limited partnership (12-3456789).

## RULES AND REGULATIONS

Abco & Co., a nominee partnership (12-3456789).

(g) *States, public bodies, and corporations and public officers.* A security may be registered in the name of a State or county, city, town, village, school district, or other political entity, public body or corporation established by law (including a board, commission, administration, authority or agency) which is the owner or official custodian of public funds, other than trust funds, or in the full legal title of the public officer having custody. Examples:

State of Maine.  
Town of Rye, N.Y.  
Maryland State Highway Administration.  
Treasurer, City of Springfield, Ill.  
Treasurer of Rhode Island—State Forestry Fund.

(h) *States, public officers, corporations or bodies as trustees.* A security may be registered in the title of a public officer or in the name of a State or county or a public corporation or public body acting as trustee under express authority of law. An appropriate reference to the statute creating the trust may be included in the registration. Examples:

Insurance Commission of Pennsylvania, trustee for benefit of policyholders of Blank Insurance Co. (12-3456789), under Sec. —, Pa. Stats.  
Rhode Island Investment Commission, trustee of General Sinking Fund under Ch. 35, Gen. Laws of R.I.  
State of Colorado in trust for Colorado Surplus Property Agency.

### § 306.12 Errors in registration.

If an erroneously inscribed security is received, it should not be altered in any respect, but the Bureau, a Federal Reserve bank or branch, or the Treasurer's Office should be furnished full particulars concerning the error and asked to furnish instructions.

### § 306.13 Nontransferable securities.

Upon authorized reissue, Treasury Bonds, Investment Series B—1975-80, may be registered in the forms set forth in § 306.11.

### Subpart C—Transfers, Exchanges and Reissues

#### § 306.15 Transfers and exchanges of securities—closed periods.

(a) *General.* The transfer of registered securities should be made by assignment in accordance with Subpart F of this part. Transferable registered securities are eligible for denominational exchange and exchange for bearer securities. Bearer securities are eligible for denominational exchange, and when so provided in the offering circular, are eligible for exchange for registered securities. Specific instructions for issuance and delivery of the new securities, signed by the owner or his authorized representative, must accompany the securities presented. (Form PD 3905 or PD 1827, as appropriate, may be used.) Denominational exchanges, exchanges of Treasury Bonds, Investment Series B—1975-80, for the current series of EA or EO 1½ percent 5-year Treasury notes, and optional redemption of bonds at par

as provided in § 306.28 may be made at any time. Securities presented for transfer or for exchange for bearer securities of the same issue must be received by the Bureau not less than 1 full month before the date on which the securities mature or become redeemable pursuant to a call for redemption before maturity. Any security so presented which is received too late to comply with this provision will be accepted for payment only.

(b) *Closing of transfer books.* The transfer books are closed for 1 full month preceding interest payment dates and call or maturity dates. If the date set for closing of the transfer books falls on Saturday, Sunday, or a legal holiday, the books will be closed as of the close of business on the last business day preceding that date. The books are reopened on the first business day following the date on which interest falls due. Registered securities which have not matured or been called, submitted for transfer, reissue, or exchange for coupon securities, and coupon securities which have not matured or been called, submitted for exchange for registered securities, which are received during the period the books for that loan are closed, will be processed on or after the date such books are reopened. If registered securities are received for transfer or exchange for bearer securities, or coupon securities are received for exchange for registered securities, during the time the books are closed for payment of final interest at maturity or call, unless otherwise provided in the offering circular or notice of call, the following action will be taken:

(1) Payment of final interest will be made to the registered owner of record on the date the books were closed.

(2) Payment of principal will be made to (i) the assignee under a proper assignment of the securities, or (ii) if the securities have been assigned for exchange for bearer securities, to the registered owner of record on the date the books were closed.

### § 306.16 Exchanges of registered securities.

No assignments will be required for (a) authorized denominational exchanges of registered securities for like securities in the same names and forms of registration and (b) redemption-exchanges, or prerefundings, or advance refundings in the same names and forms as appear in the registration or assignments of the securities surrendered.

### § 306.17 Exchanges of registered securities for coupon securities.

Registered securities submitted for exchange for coupon securities should be assigned to "The Secretary of the Treasury for exchange for coupon securities to be delivered to (inserting the name and address of the person to whom delivery of the coupon securities is to be made)." Assignments to "The Secretary of the Treasury for exchange for coupon securities," or assignments in blank will also be accepted. The coupon securities issued upon exchange will have all unmatured coupons attached.

## RULES AND REGULATIONS

## § 306.18 Exchanges of coupon securities for registered securities.

Coupon securities presented for exchange for registered securities should have all matured interest coupons detached. All unmatured coupons should be attached, except that if presented when the transfer books are closed (in which case the exchange will be effected on or after the date on which the books are reopened), the next maturing coupons should be detached and held for collection in ordinary course when due. If any coupons which should be attached are missing, the securities must be accompanied by a remittance in an amount equal to the face amount of the missing coupons. The new registered securities will bear interest from the interest payment date next preceding the date on which the exchange is made.

## § 306.19 Denominational exchanges of coupon securities.

All matured interest coupons and all unmatured coupons likely to mature before an exchange can be completed should be detached from securities presented for denominational exchange. All unmatured coupons should be attached. If any are missing, the securities must be accompanied by a remittance in an amount equal to the face amount of the missing coupons. The new coupon securities will have all unmatured coupons attached.

## § 306.20 Reissue of registered transferable securities.

Assignments are not required for reissue of registered transferable securities in the name(s) of (a) the surviving joint owner(s) of securities registered in the names of or assigned to two or more persons, unless the registration or assignment includes words which preclude the right of survivorship, (b) a succeeding fiduciary or other lawful successor, (c) a remainderman, upon termination of a life estate, (d) an individual, corporation or unincorporated association whose name has been legally changed, (e) a corporation or unincorporated association which is the lawful successor to another corporation or unincorporated association, and (f) a successor in title to a public officer or body. Evidence of survivorship, succession, or change of name, as appropriate, must be furnished. The appropriate taxpayer identifying number also must be furnished if the registration of the securities submitted does not include such number for the person or organization to be named on the reissued securities.

## § 306.21 Reissue of nontransferable securities.

Treasury Bonds, Investment Series B-1975-80, may be reissued only in the names of (a) lawful successors in title, (b) the legal representatives or distributees of a deceased owner's estate, or the distributees of a trust estate, and (c) State supervisory authorities in pursuance of any pledge required of the owner under State law, or upon termination of the pledge in the names of the pledgors

or their successors. Bonds presented for reissue must be accompanied by evidence of entitlement.

## § 306.22 Exchange of Treasury Bonds, Investment Series B-1975-80.

Bonds of this series presented for exchange for 1½ percent 5-year Treasury notes must bear duly executed assignments to "The Secretary of the Treasury for exchange for the current series of EA or EO Treasury notes to be delivered to (inserting the name and address of the person to whom the notes are to be delivered)." The notes will bear the April 1 or October 1 date next preceding the date the bonds, duly assigned with supporting evidence, if necessary, are received by the Bureau or a Federal Reserve Bank or Branch. Interest accrued at the rate of 2¾ percent on the bonds surrendered from the next preceding interest payment date to the date of exchange will be credited, and interest at the rate of 1½ percent on the notes for the same period will be charged and the difference will be paid to the owner.

## Subpart D—Redemption or Payment

## § 306.25 Presentation and surrender.

(a) *General.* Securities, whether in registered or bearer form, are payable in regular course of business at maturity unless called for redemption before maturity in accordance with their terms, in which case they will be payable in regular course of business on the date of call. The Secretary of the Treasury may provide for the exchange of maturing or called securities, or in advance of call or maturity, may afford owners the opportunity of exchanging a security for another security pursuant to a prerefunding or an advance refunding offer. Registered securities should be presented and surrendered for redemption to the Bureau, a Federal Reserve bank or branch, or the Treasurer's Office, and bearer securities to a Federal Reserve bank or branch or the Treasurer's Office. No assignments will be required by or on behalf of the registered owner or assignee for redemption for his or its account, or for redemption-exchange, or exchange pursuant to a prerefunding or an advance refunding offer, if the new securities are to be registered in exactly the same names and forms as appear in the registrations or assignments of the securities surrendered. To the extent appropriate, these rules also apply to securities registered in the titles of public officers who are official custodians of public funds.

(b) *"Overdue" securities.* If a bearer security or a registered security assigned in blank, or to bearer, or so assigned as to become in effect payable to bearer, is presented and surrendered for redemption after it has become overdue, the Secretary of the Treasury will ordinarily require satisfactory proof of ownership. (Form PD 1073 may be used.) A security

\*See § 306.28 for presentation and surrender of bonds eligible for use in payment of Federal estate taxes.

shall be considered to be overdue after the lapse of the following periods of time from its face maturity:

- (1) One month for securities issued for a term of 1 year or less.
- (2) Three months for securities issued for a term of more than 1 year but not in excess of 7 years.
- (3) Six months for securities issued for a term of more than 7 years.

## § 306.26 Redemption of registered securities at maturity, upon prior call, or for prerefunding or advance refunding.

Registered securities presented and surrendered for redemption at maturity or pursuant to a call for redemption before maturity need not be assigned, unless the owner desires that payment be made to some other person, in which case assignments should be made to "The Secretary of the Treasury for redemption for the account of (inserting name and address of person to whom payment is to be made)." Specific instructions for the issuance and delivery of the redemption check, signed by the owner or his authorized representative, must accompany the securities, unless included in the assignment. (Form PD 3905 may be used.) Payment of the principal will be made either (a) by check drawn on the Treasurer of the United States to the order of the person entitled and mailed in accordance with the instructions received, or (b) upon appropriate request, by crediting the amount in a member bank's account with the Federal Reserve Bank of its District. Securities presented for prerefunding or advance refunding should be assigned as provided in the prerefunding or advance refunding offer.

## § 306.27 Redemption of bearer securities at maturity, upon prior call, or for advance refunding or prerefunding.

All interest coupons due and payable on or before the date of maturity or date fixed in the call for redemption before maturity should be detached from coupon securities presented for redemption and should be collected separately in regular course. All coupons bearing dates subsequent to the date fixed in a call for redemption, or offer of prerefunding or advance refunding, should be left attached to the securities. If any such coupons are missing, the full face amount thereof will be deducted from the payment to be made upon redemption or the prerefunding or advance refunding adjustment unless satisfactory evidence of their destruction is submitted. Any amounts so deducted will be held in the Department to provide for adjustments or refunds in the event it should be determined that the missing coupons were subsequently presented or their destruction is later satisfactorily established. In the absence of other instructions, payment of bearer securities will be made by check drawn to the order of the person presenting and surrendering the securities and mailed to him at his address, as given in the advice accompanying the securities. (Form PD 3905 may be used.) A Federal Reserve bank, upon appropriate request, may make payment to a member bank from which bearer securities are received by crediting the amount of the proceeds of redemption to the member bank's account.

ate request, may make payment to a member bank from which bearer securities are received by crediting the amount of the proceeds of redemption to the member bank's account.

## § 306.28 Optional redemption of Treasury bonds at par (before maturity or call redemption date) and application of the proceeds in payment of Federal estate taxes.

(a) *General.* Treasury bonds to be redeemed at par for the purpose of applying the entire amount of principal and accrued interest to payment of the Federal estate tax on a decedent's estate\* must be presented and surrendered to a Federal Reserve bank or branch or to the Bureau. They should be accompanied by Form PD 1782, fully completed and duly executed in accordance with the instructions on the form, and evidence as described therein. Redemption will be made at par plus accrued interest from the last preceding interest payment date to the date of redemption, except that if registered bonds are received by a Federal Reserve bank or branch or the Bureau within 1 month preceding an interest payment date for redemption before that date, a deduction will be made for interest from the date of redemption to the interest payment date, and a check for the full 6 months' interest will be paid in due course. The proceeds of redemption will be deposited to the credit of the Internal Revenue Service Center designated in Form PD 1782, and the representative of the estate will be notified of the deposit. A formal receipt may be obtained upon request addressed to the Center.

(b) *Conditions.* The bonds presented for redemption under this section must have (1) been owned by the decedent at the time of his death and (2) thereupon constituted part of his estate, as determined by the following rules in the case of joint ownership, partnership, and trust holdings:

(i) *Joint ownerships.* Bonds held by the decedent at the time of his death in joint ownership with another person or persons will be deemed to have met the above conditions either (a) to the extent to which the bonds actually became the property of the decedent's estate, or (b) in an amount not to exceed the amount of the Federal estate tax which the surviving joint owner or owners is required to pay on account of such bonds and other jointly held property.\*

\*Certain issues of Treasury bonds are redeemable at par and accrued interest upon the death of the owner, at the option of the representative of, or if none, the persons entitled to, his estate, for the purpose of having the entire proceeds applied in payment of the Federal estate tax on the decedent's estate, in accordance with the terms of the offering circulars cited on the face of the bonds. A current list of eligible issues may be obtained from any Federal Reserve bank or branch, the Bureau of the Public Debt, or the Treasurer's Office.

\*Substantially the same rule applies to community property except that upon the death of either spouse bonds which consti-

## RULES AND REGULATIONS

(ii) *Partnerships.* Bonds held at the time of the decedent's death by a partnership in which he had an interest will be deemed to have met the above conditions to the extent of his fractional share of the bonds so held proportionate to his interest in the assets of the partnership.

(iii) *Trusts.* Bonds held in trust at the time of the decedent's death will be deemed to have met the above conditions in an amount not to exceed the amount of the Federal estate tax (a) if the trust actually terminated in favor of the decedent's estate, or (b) if the trustee is required to pay the decedent's Federal estate tax under the terms of the trust instrument or otherwise, or (c) to the extent the debts of the decedent's estate, including costs of administration, State inheritance and Federal estate taxes, exceed the assets of his estate without regard to the trust estate.

(c) *Transactions after owner's death.* No transactions involving changes of ownership may be conducted after an owner's death without affecting the eligibility of the bonds for redemption at par for application of the proceeds to payment of the Federal estate tax. Transactions involving no changes of ownership which may be conducted without affecting eligibility are (1) exchange of bonds for those of lower denominations where the bonds exceed the amount of the tax and are not in the lowest authorized denominations, (2) exchange of registered bonds for coupon bonds, (3) exchange of coupon bonds for bonds registered in the names of the representatives of the estate, (4) transfer of bonds from the owner or his nominee to the names of the representatives of the owner's estate, and (5) purchases by or for the account of an owner prior to his death, held in book-entry form, and thereafter converted to definitive bonds. However, any such transactions must be explained on Form PD 1782 or in a supplemental statement.

## Subpart E—Interest

## § 306.35 Computation of interest.

The interest on Treasury securities accrues and is payable on a semiannual basis unless otherwise provided in the circular offering them for sale or exchange. If the period of accrual is an exact 6 months, the interest accrual is an exact one-half year's interest without regard to the number of days in the period. If the period of accrual is less than an exact 6 months, the accrued interest is computed by determining the daily rate of accrual on the basis of the exact number of days in the full interest period and multiplying the daily rate by the exact number of days in the fractional period for which interest has actually accrued. A full interest period does not include the day as of which the securities were issued or the day on which the last preceding interest became due.

tute part of the community estate are deemed to meet the required conditions to the extent of one-half of each loan and issue of bonds.

but does include the day on which the next succeeding interest payment is due. A fractional part of an interest period does not include the day as of which the securities were issued or the day on which the last preceding interest payment became due, but does include the day as of which the transaction terminating the accrual of interest is effected. The 29th of February in a leap year is included whenever it falls within either a full interest period or a fractional part thereof.

## § 306.36 Termination of interest.

Securities will cease to bear interest on the date of their maturity unless they have been called for redemption before maturity in accordance with their terms, or are presented and surrendered for redemption-exchange or exchange pursuant to an advance refunding or prerefunding offer, in which case they will cease to bear interest on the date of call, or the exchange date, as the case may be.

## § 306.37 Interest on registered securities.

(a) *Method of payment.* The interest on registered securities is payable by checks drawn on the Treasurer of the United States to the order of the registered owners, except as otherwise provided herein. Interest checks are prepared by the Department in advance of the interest payment date and are ordinarily mailed in time to reach the addressees on that date. Interest on a registered security which has not matured or been called and which is presented for any transaction during the period the books for that loan are closed will be paid by check drawn to the order of the registered owner of record. Upon receipt of notice of the death or incompetency of an individual named as registered owner, a change in the name or in the status of a partnership, corporation, or unincorporated association, the removal, resignation, succession, or death of a fiduciary or trustee, delivery of interest checks will be withheld pending receipt and approval of evidence showing who is entitled to receive the interest checks. If the inscriptions on securities do not clearly identify the owners, delivery of interest checks will be withheld pending reissue of the securities in the correct registration. The final installment of interest, unless otherwise provided in the offering circular or notice of call, will be paid by check drawn to the order of the registered owner of record and mailed in advance of the interest payment date in time to reach the addressee on or about that date. Interest on securities presented for prerefunding or advance refunding will be adjusted as provided in the prerefunding or advance refunding offer.

\*The appendix to this subpart contains a complete explanation of the method of computing interest on a semiannual basis on Treasury bonds, notes, and certificates of indebtedness, and an outline of the method of computing the discount rates on Treasury bills. Also included are tables of computation of interest on semiannual and annual basis.

(b) *Change of address.* To assure timely delivery of interest checks, owners should promptly notify the Bureau of any change of address. (Form PD 345 may be used.) The notification must be signed by the registered owner or a joint owner or an authorized representative, and should show the owner's taxpayer identifying number, the old and new addresses, the serial number and denomination of each security, the titles of the securities (for example: 4 1/4 percent Treasury Bonds of 1987-92, dated August 15, 1962), and the registration of each security. Notifications by attorneys in fact, trustees, or by the legal representatives of the estates of deceased, incompetent, or minor owners should be supported by proof of their authority, unless, in the case of trustees or legal representatives, they are named in the registration.

(c) *Collection of interest checks.*—(1) *General.* Interest checks may be collected in accordance with the regulations governing the endorsement and payment of Government warrants and checks, which are contained in the current revision of Department Circular No. 21 (Part 360 of this chapter).

(2) *By voluntary guardians of incompetents.* Interest checks drawn to the order of a person who has become incompetent and for whose estate no legal guardian or similar representative has been appointed should be returned to the Bureau with a full explanation of the circumstances. For collection of interest, the Department will recognize the relative responsibility for the incompetent's care and support or some other person as voluntary guardian for the incompetent. (Application may be made on Form PD 1461.)

(d) *Nonreceipt, loss, theft, or destruction of interest checks.* If an interest check is not received within a reasonable period after an interest payment date, the Bureau should be notified. Should a check be lost, stolen, or destroyed after receipt, the Office of the Treasurer of the United States, Check Claims Division, Washington, D.C. 20227, should be notified. Notification should include the name and address of the owner, his taxpayer identifying number, and the serial number, denomination, and title of the security upon which the interest was payable. If the check is subsequently received or recovered, the latter office should also be advised.

#### § 306.38 Interest on bearer securities.

Unless the offering circular and notice of call provide otherwise, interest on coupon securities is payable in regular course of business upon presentation and surrender of the interest coupons as they mature. Such coupons are payable at any Federal Reserve bank or branch, or the Treasurer's Office. Interest on Treasury bills, and any other bearer securities which may be sold and issued on a discount basis and which are payable at

\* Banking institutions will usually cash the coupons without charge as an accommodation to their customers.

par at maturity, is represented by the difference between the purchase price and the par value, and no coupons are attached.

#### Subpart F—Assignments of Registered Securities—General

##### § 306.40 Execution of assignments or special endorsements.

(a) *Execution of assignments.* The assignment of a registered security should be executed by the owner or his authorized representative in the presence of an officer authorized to certify assignments. All assignments must be made on the backs of the securities, unless otherwise authorized by the Bureau, a Federal Reserve bank or branch, or the Treasurer of the United States. An assignment by mark (X) must be witnessed not only by a certifying officer but also by at least one other person, who should add an endorsement substantially as follows: "Witness to signature by mark," followed by his signature and address.

(b) *Special endorsement in lieu of assignments.* A security may be presented without assignment for any authorized transaction by a financial institution which is (1) a member of the Federal Reserve System, (2) a member of the Federal Home Loan Bank System, or (3) insured by the Federal Deposit Insurance Corporation, provided full instructions are furnished as to the transaction desired and the security bears the endorsement, under the official seal of the institution, as follows:

Presented in accordance with instructions of the owner(s).  
Absence of assignment guaranteed.

(Name of financial institution)  
By \_\_\_\_\_  
(Signature and title of officer)  
(Date)

This form of endorsement of a security will be an unconditional guarantee to the Department of the Treasury that the institution is acting as attorney in fact for the registered owner, or his assignee, under proper authorization and that the officer is duly authorized to act.

##### § 306.41 Form of assignment.

Registered securities may be assigned in blank, to bearer, to a specified transferee, to the Secretary of the Treasury for exchange for coupon securities, or to the Secretary of the Treasury for redemption or for exchange for other securities offered at maturity, upon call or pursuant to an advance refunding or prerefunding offer. Assignments to "The Secretary of the Treasury," "The Secretary of the Treasury for transfer," or "The Secretary of the Treasury for exchange" will not be accepted unless supplemented by specific instructions by or in behalf of the owner.

##### § 306.42 Alterations and erasures.

If an alteration or erasure has been made in an assignment, the assignor should appear before an authorized cer-

tifying officer and execute a new assignment to the same assignee. If the new assignment is to other than the assignee whose name has been altered or erased, a disclaimer from the first-named assignee should be obtained. Otherwise, an affidavit of explanation by the person responsible for the alteration or erasure should be submitted for consideration.

##### § 306.43 Voidance of assignments.

An assignment of a security to or for the account of another person, not completed by delivery, may be voided by a disclaimer of interest from that person. This disclaimer should be executed in the presence of an officer authorized to certify assignments of securities. Unless otherwise authorized by the Bureau, a Federal Reserve bank or branch, or the Treasurer of the United States, the disclaimer must be written, typed, or stamped on the back of the security in substantially the following form:

The undersigned as assignee of this security hereby disclaims any interest herein.

(Signature)  
I certify that the above-named person as described, whose identity is well known or proved to me, personally appeared before me the \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_  
(Month and year)  
at \_\_\_\_\_ and  
(Place)  
signed the above disclaimer of interest.  
(SEAL) \_\_\_\_\_  
(Signature and official designation of certifying officer)

In the absence of a disclaimer, an affidavit or affidavits should be submitted for consideration explaining why a disclaimer cannot be obtained, reciting all other material facts and circumstances relating to the transaction, including whether or not the security was delivered to the person named as assignee and whether or not the affiants know of any basis for the assignee claiming any right, title, or interest in the security. After an assignment has been voided, in order to dispose of the security, an assignment by or on behalf of the owner will be required.

##### § 306.44 Discrepancies in names.

The Department will ordinarily require an explanation of discrepancies in the names which appear in inscriptions, assignments, supporting evidence or in the signatures to any assignments. (Form PD 385 may be used for this purpose.) However, where the variations in the name of the registered owner, as inscribed on securities of the same or different issues, are such that both may properly represent the same person, for example, "J. T. Smith" and "John T. Smith," no proof of identity will be required if the assignments are signed exactly as the securities are inscribed and are duly certified by the same certifying officer.

##### § 306.45 Officers authorized to certify assignments.

(a) *Officers authorized generally.* The following persons are authorized to act as certifying officers for the purpose of

certifying assignments of, or forms with respect to, securities:

(1) Officers and employees of banks and trust companies incorporated in the United States, its territories or possessions, or the Commonwealth of Puerto Rico, Federal Savings and Loan Associations, or other organizations which are members of the Federal Home Loan Bank System, who have been authorized to: (i) Generally bind their respective institutions by their acts, (ii) unqualifiedly guarantee signatures to assignments of securities, or (iii) expressly certify assignments of securities.

(2) Officers of Federal Reserve banks and branches.

(3) Officers of Federal Land Banks, Federal Intermediate Credit Banks and Banks for Cooperatives, the Central Bank for Cooperatives, and Federal Home Loan Banks.

(4) U.S. Attorneys, Collectors of Customs, and Regional Commissioners, District Directors, and Service Center Directors, Internal Revenue Service.

(5) Judges and Clerks of U.S. Courts.

(b) *Authorized officers in foreign countries.* The following are authorized to certify assignments in foreign countries:

(1) U.S. diplomatic or consular representatives.

(2) Managers, assistant managers and other officers of foreign branches of banks or trust companies incorporated in the United States, its territories or possessions, or the Commonwealth of Puerto Rico.

(3) Notaries public and other officers authorized to administer oaths. The official position and authority of any such officer must be certified by a U.S. diplomatic or consular representative under seal of his office.

(c) *Officers having limited authority.* The following are authorized to certify assignments to the extent set forth in connection with each class of officers:

(1) Postmasters, acting postmasters, assistant postmasters, inspectors in charge, chief and assistant chief accountants, and superintendents of stations of any post office, notaries public and justices of the peace in the United States, its territories and possessions, the Commonwealth of Puerto Rico and the Canal Zone, but only for assignment of securities for redemption for the account of the assignor, or for redemption exchange, or pursuant to an advance refunding or prerefunding offer for other securities to be registered in his name, or in his name with a joint owner. The signature of any post office official, other than a postmaster, must be in the following form: "John A. Doe, Postmaster, by Richard B. Roe, Superintendent of Station."

(2) Commissioned officers and warrant officers of the Armed Forces of the United States for assignment of securities of any class for any authorized transaction, but only with respect to assignments executed by: (i) Armed Forces personnel and civilian field employees, and (ii) members of the families of such personnel or civilian employees.

(d) *Special provisions for certifying assignments.* The Commissioner of the

Public Debt, the Chief of the Division of Securities Operations, any Federal Reserve bank or branch, or the Treasurer of the United States, is authorized to make special provisions for any case or class of cases.

##### § 306.46 Duties and responsibilities of certifying officer.

A certifying officer must require execution of an assignment, or a form with respect to securities, in his presence after he has established the identity of the assignor and before he certifies the signature. He must then complete the certification. An employee who is not an officer should insert "Authorized signature" in the space provided for the title. However, an assignment of a security need not be executed in the presence of the certifying officer if he unqualifiedly guarantees the signature thereto, in which case he must place his endorsement on the security, following the signature, in the form "Signature guaranteed, First National Bank of Jonesville, Jonesville, N.H., by A. B. Doe, President," and add the date. The certifying officer and, if he is an officer or employee of an organization, the organization will be held responsible for any loss the United States may suffer as the result of his fault or negligence.

##### § 306.47 Evidence of certifying officer's authority.

The authority of an individual to act as a certifying officer is established by affixing to a certification of an assignment, or a form with respect to securities, or an unqualified guarantee of a signature to an assignment, either: (a) The official seal of the organization, or (b) a legible imprint of the issuing agent's dating stamp, if the organization is an authorized issuing agent for U.S. Savings Bonds of Series E. Use of such stamp shall result in the same responsibility on the part of the organization as if its official seal were used. A certification which does not bear a seal or issuing agent's dating stamp will not be accepted. Any post office official must use the official stamp of his office. A commissioned or warrant officer of any of the Armed Forces of the United States should indicate his rank and state that the person executing the assignment is one of the class whose signature he is authorized to certify. A judge or clerk of court must use the seal of the court. Any other certifying officer must use his official seal or stamp, if any, but, if he has neither, his official position and a specimen of his signature must be certified by some other authorized officer under official seal or stamp or otherwise proved to the satisfaction of the Department.

##### § 306.48 Interested persons not to act as certifying officer or witness.

Neither the assignor, the assignee, nor any person having an interest in a security may act as a certifying officer, or as a witness to an assignment by mark. However, a bank officer may certify an assignment to the bank, or an assign-

ment executed by another officer in its behalf.

##### § 306.49 Nontransferable securities.

The provisions of this subpart, so far as applicable, govern transactions in Treasury Bonds, Investment Series B-1975-80.

##### Subpart G—Assignments by or in Behalf of Individuals

##### § 306.55 Signatures, minor errors and change of name.

The owner's signature to an assignment should be in the form in which the security is inscribed or assigned, unless such inscription or assignment is incorrect or the name has since been changed. In case of a change of name, the signature to the assignment should show both names and the manner in which the change was made, for example, "John Young, changed by order of court from Hans Jung." Evidence of the change will be required. However, no evidence is required to support an assignment if the change resulted from marriage and the signature, which must be duly certified by an authorized officer, is written to show that fact, for example, "Mrs. Mary J. Brown, changed by marriage from Miss Mary Jones."

##### § 306.56 Assignment of securities registered in the names of or assigned to two or more persons.

(a) *Transfer or exchange.* Securities registered in the names of or assigned to two or more persons may be transferred or exchanged for coupon bonds during the lives of all the joint owners only upon assignments by all or on their behalf by authorized representatives. Upon proof of the death of one, the Department will accept an assignment by or in behalf of the survivor or survivors, unless the form of registration or assignment includes words which preclude the right of survivorship.\* In the latter case, in addition to assignment by or in behalf of the survivor or survivors, an assignment in behalf of the decedent's estate will be required.

(b) *Advance refunding or prerefunding offers.* No assignments are required for exchange of securities registered in the names of or assigned to two or more persons if the securities to be received in the exchange are to be registered in the same names and form. If bearer securities or securities in a different form are to be issued, all persons named must assign, except that in case of death paragraph (a) of this section shall apply.

(c) *Redemption or redemption-exchange.* (1) *Alternative registration or assignment.* Securities registered in the names of or assigned to two or more persons in the alternative, for example, "John B. Smith or Mrs. Mary J. Smith" or "John B. Smith or Mrs. Mary J. Smith or the survivor," may be assigned by one of them at maturity or upon call, for redemption or redemption-exchange, for his own account or otherwise, whether

\* See § 306.11(a)(2) for forms of registration expressing or precluding survivorship.

or not the other joint owner or owners are deceased.

(2) *Joint registration or assignment.* Securities registered in the names of or assigned to two or more persons jointly, for example, "John B. Smith and Mrs. Mary J. Smith," or "John B. Smith and Mrs. Mary J. Smith as tenants in common," or "John B. Smith and Mary J. Smith as partners in community," may be assigned by one of them during the lives of all only for redemption at maturity or upon call, and then only for redemption for the account of all. No assignments are required for redemption-exchange for securities to be registered in the same names and forms as appear in the registration or assignment of the securities surrendered. Upon proof of the death of a joint owner, the survivor or survivors may assign securities so registered or assigned for redemption or redemption-exchange for any account, except that, if words which preclude the right of survivorship appear in the registration or assignment, assignment in behalf of the decedent's estate also will be required.

#### § 306.57 Minors and incompetents.

(a) *Assignments by natural guardian of securities registered in name of minor.* Securities registered in the name of a minor for whose estate no legal guardian or similar representative has qualified may be assigned by the natural guardian upon qualification. (Form PD 2481 may be used for this purpose.)

(b) *Assignments of securities registered in name of natural guardian of minor.* Securities registered in the name of a natural guardian of a minor may be assigned by the natural guardian for any authorized transaction except one for the apparent benefit of the natural guardian. If the natural guardian in whose name the securities are registered is deceased or is no longer qualified to act as natural guardian, the securities may be assigned by the person then acting as natural guardian. The assignment by the new natural guardian should be supported by proof of the death or disqualification of the former natural guardian and by evidence of his own status as natural guardian. (Form PD 2481 may be used for this purpose.) No assignment by a natural guardian will be accepted after receipt of notice of the minor's attainment of majority, removal of his disability of minority, disqualification of the natural guardian to act as such, qualification of a legal guardian or similar representative, or the death of the minor.

(c) *Assignments by voluntary guardians of incompetents.* Registered securities belonging to an incompetent for whose estate no legal guardian or similar representative is legally qualified may be assigned by the relative responsible for his care and support or some other person as voluntary guardian:

(1) For redemption or exchange for bearer securities, if the proceeds of the securities are needed to pay expenses al-

\*See § 306.11(a)(2) for forms of registration expressing or precluding survivorship.

ready incurred, or to be incurred during any 90-day period, for the care and support of the incompetent or his legal dependents.

(2) For redemption-exchange, if the securities are matured or have been called, or pursuant to an advance refunding or prerefunding offer, for reinvestment in other securities to be registered in the form "A, an incompetent (123-45-6789) under voluntary guardianship."

An application on Form PD 1461 by the person seeking authority to act as voluntary guardian will be required.

(d) *Assignments by legal guardians of minors or incompetents.* Securities registered in the name and title of the legal guardian or similar representative of the estate of a minor or incompetent may be assigned by the representative for any authorized transaction without proof of his qualification. Assignments by a representative of any other securities belonging to a minor or incompetent must be supported by properly certified evidence of qualification. The evidence must be dated not more than 1 year before the date of the assignments and must contain a statement showing the appointment is in full force unless (1) it shows the appointment was made not more than 1 year before the date of the assignment, or (2) the representative or a corepresentative is a corporation. An assignment by the representative will not be accepted after receipt of notice of termination of the guardianship, except for transfer to the former ward.

#### § 306.58 Nontransferable securities.

The provisions of this subpart, so far as applicable, govern transactions in Treasury Bonds, Investment Series B-1975-80.

#### Subpart H—Assignments in Behalf of Estates of Deceased Owners

#### § 306.65 Special provisions applicable to small amounts of securities, interest checks or redemption checks.

Entitlement to, or the authority to dispose of, a small amount of securities and checks issued in payment thereof or in payment of interest thereon, belonging to the estate of a decedent, may be established through the use of certain short forms, according to the aggregate amount of securities and checks involved (excluding checks representing interest on the securities), as indicated by the following table:

Amount	Circumstances	Form	To be executed by—
\$100	No administration.	PD 2216	Person who paid burial expenses.
500	Estate being administered.	PD 2488	Executor or administrator.
500	Estate settled.	PD 2458-1	Former executor or administrator, attorney or other qualified person.

#### § 306.66 Estates—administration.

(a) *Temporary or special administrators.* Temporary or special administrators may assign securities for any

authorized transaction within the scope of their authority. The assignments must be supported by:

(1) *Temporary administrators.* A certificate, under court seal, showing the appointment in full force within thirty days preceding the date of receipt of the securities.

(2) *Special administrators.* A certificate, under court seal, showing the appointment in full force within 6 months preceding the date of receipt of the securities.

Authority for assignments for transactions not within the scope of appointment must be established by a duly certified copy of a special order of court.

(b) *In course of administration.* A security belonging to the estate of a decedent which is being administered by a duly qualified executor or general administrator will be accepted for any authorized transaction upon assignment by such representative. (See § 306.77.) Unless the security is registered in the name of and shows the capacity of the representative, the assignment must be supported by a certificate or a copy of the letters of appointment, certified under court seal. The certificate or certification, if required, must be dated not more than 6 months before the date of the assignment and must contain a statement that the appointment is in full force, unless (1) it shows the appointment was made not more than 1 year before the date of the assignment, or (2) the representative or a corepresentative is a corporation, or (3) redemption is being made for application of the proceeds in payment of Federal estate taxes as provided by § 306.28.

(c) *After settlement through court proceedings.* Securities belonging to the estate of a decedent which has been settled in court will be accepted for any authorized transaction upon assignments by the person or persons entitled, as determined by the court. The assignments should be supported by a copy, certified under court seal, of the decree of distribution, the representative's final account as approved by the court, or other pertinent court records.

#### § 306.67 Estates not administered.

(a) *Special provisions under State laws.* If, under State law, a person has been recognized or appointed to receive or distribute the assets of a decedent's estate without regular administration, his assignment of securities belonging to the estate will be accepted provided he submits appropriate evidence of his authority.

(b) *Agreement of persons entitled.* When it appears that no legal representative of a decedent's estate has been or is to be appointed, securities belonging to the estate may be duly disposed of pursuant to an agreement and assignment by all persons entitled to share in the decedent's personal estate. (Form PD 1646 may be used.) However, all debts of the decedent and his estate must be paid or provided for and the interests of any minors or incompetents must be protected.

#### § 306.68 Nontransferable securities.

The provisions of this subpart, so far as applicable, govern transactions in Treasury Bonds, Investment Series B-1975-80.

#### Subpart I—Assignments by or in Behalf of Trustees and Similar Fiduciaries

#### § 306.75 Individual fiduciaries.

(a) *General.* Securities registered in, or assigned to, the names and titles of individual fiduciaries will be accepted for any authorized transaction upon assignment by the designated fiduciaries without proof of their qualification. If the fiduciaries in whose names the securities are registered, or to whom they have been assigned, have been succeeded by other fiduciaries, evidence of succession must be furnished. If the appointment of a successor is not required under the terms of the trust instrument or otherwise and is not contemplated, assignments by the surviving or remaining fiduciary or fiduciaries must be supported by appropriate proof. This requires (1) proof of the death, resignation, removal or disqualification of the former fiduciary and (2) evidence that the surviving or remaining fiduciary or fiduciaries are fully qualified to administer the fiduciary estate, which may be in the form of a certificate by them showing the appointment of a successor has not been applied for, is not contemplated and is not necessary under the terms of the trust instrument or otherwise. Assignments of securities registered in the titles, without the names of the fiduciaries, for example, "Trustees of the George E. White Memorial Scholarship Fund under deed of trust dated 11/10/40, executed by John W. White," must be supported by proof that the assignors are the qualified and acting trustees of the designated trust estate, unless they are empowered to act as a unit in which case the provisions of § 306.76 shall apply. (Form PD 2446 may be used to furnish proof of incumbency of fiduciaries.) Assignments by fiduciaries of securities not registered or assigned in such manner as to show that they belong to the estate for which the assignors are acting must also be supported by evidence that the estate is entitled to the securities.

(b) *Life tenants.* Upon termination of a life estate by reason of the death of the life tenant in whose name a security is registered, or to whom it has been assigned, the security will be accepted for any authorized transaction upon assignment by the remainderman, supported by evidence of entitlement.

(c) *Fiduciaries acting as a unit.* Securities registered in the name of or assigned to a board, committee or other body authorized to act as a unit for any public or private trust estate may be assigned for any authorized transaction by anyone authorized to act in behalf of such body. Except as otherwise provided in this section, the assignments must be supported by a copy of a resolution adopted by the body, properly certified under its seal, or, if none, sworn to by a

member of the body having access to its records. (Form PD 2495 may be used.) If the person assigning is designated in the resolution by title only, his incumbency must be duly certified by another member of the body. (Form PD 2446 may be used.) If the fiduciaries of any trust estate are empowered to act as a unit, although not designated as a board, committee or other body, securities registered in their names or assigned to them as such, or in their titles without their names, may be assigned by anyone authorized by the group to act in its behalf. Such assignments may be supported by a sworn copy of a resolution adopted by the group in accordance with the terms of the trust instrument, and proof of their authority to act as a unit may be required. As an alternative, assignments by all the fiduciaries, supported by proof of their incumbency, if not named on the securities, will be accepted.

#### § 306.77 Corepresentatives and fiduciaries.

If there are two or more executors, administrators, guardians or similar representatives, or trustees of an estate, all must unite in the assignment of any securities belonging to the estate. However, when a statute, a decree of court, or the instrument under which the representatives or fiduciaries are acting provides otherwise, assignments in accordance with their authority will be accepted. If the securities have matured or been called and are submitted for redemption for the account of all, or for redemption-exchange or pursuant to an advance refunding or prerefunding offer, and the securities offered in exchange are to be registered in the names of all, no assignment is required.

#### § 306.78 Nontransferable securities.

The provisions of this subpart, so far as applicable, govern assignments of Treasury Bonds, Investment Series B-1975-80.

#### Subpart J—Assignments in Behalf of Private or Public Organizations

#### § 306.85 Private corporations and unincorporated associations (including nominees).

Securities registered in the name of, or assigned to, an unincorporated association, or a private corporation in its own right or in a representative or fiduciary capacity, or as nominee, may be assigned in its behalf for any authorized transaction by any duly authorized officer or officers. Evidence, in the form of a resolution of the governing body, authorizing the assigning officer to assign, or to sell, or to otherwise dispose of the securities will ordinarily be required. Resolutions may relate to any or all registered securities owned by the organization or held by it in a representative or fiduciary capacity. (Form PD 1010, or any substantially similar form, may be used when the authority relates to specific securities; Form PD 1011, or any substantially similar form, may be used for securities generally.) If the officer derives his authority from a charter, constitution or bylaws, a copy, or a pertinent ex-

tract therefrom, properly certified, will be required in lieu of a resolution. If the resolution or other supporting document shows the title of an authorized officer, without his name, it must be supplemented by a certificate of incumbency. (Form PD 1014 may be used.)

#### § 306.86 Change of name and succession of private organizations.

If a private corporation or unincorporated association changes its name or is lawfully succeeded by another corporation or unincorporated association, its securities may be assigned in behalf of the organization in its new name or that of its successor by an authorized officer in accordance with § 306.85. The assignment must be supported by evidence of the change of name or succession.

#### § 306.87 Partnerships (including nominee partnerships).

An assignment of a security registered in the name of or assigned to a partnership must be executed by a general partner. Upon dissolution of a partnership, assignment by all living partners and by the persons entitled to assign in behalf of any deceased partner's estate will be required unless the laws of the jurisdiction authorize a general partner to bind the partnership by any act appropriate for winding up partnership affairs. In those cases where assignments by or in behalf of all partners are required this fact must be shown in the assignment; otherwise, an affidavit by a former general partner must be furnished identifying all the persons who had been partners immediately prior to dissolution. Upon voluntary dissolution, for any jurisdiction where a general partner may not act in winding up partnership affairs, an assignment by a liquidating partner, as such, must be supported by a duly executed agreement among the partners appointing the liquidating partner.

#### § 306.88 Political entities and public corporations.

Securities registered in the name of, or assigned to, a State, county, city, town, village, school district or other political entity, public body or corporation, may be assigned by a duly authorized officer, supported by evidence of his authority.

#### § 306.89 Public officers.

Securities registered in the name of, or assigned to, a public officer designated by title may be assigned by such officer, supported by evidence of incumbency. Assignments for the officer's own apparent individual benefit will not be recognized.

#### § 306.90 Nontransferable securities.

The provisions of this subpart apply to Treasury Bonds, Investment Series B-1975-80.

#### Subpart K—Attorneys in Fact

#### § 306.95 Attorneys in fact.

(a) *General.* Assignments by an attorney in fact will be recognized if supported by an adequate power of attorney. Every power must be executed in the

## RULES AND REGULATIONS

presence of an authorized certifying officer under the conditions set out in § 306.45 for certification of assignments. Powers need not be submitted to support redemption-exchanges or exchanges pursuant to advance refunding or pre-refunding offers where the securities to be issued are to be registered in the same names and forms as appear in the inscriptions or assignments of the securities surrendered. In all other cases, the original power, or a photocopy showing the grantor's autograph signature, properly certified, must be submitted, together with the security assigned on the owner's behalf by the attorney in fact. An assignment by a substitute attorney in fact must be supported by an authorizing power of attorney and power of substitution. An assignment by an attorney in fact or a substitute attorney in fact for the apparent benefit of either will not be accepted unless expressly authorized. (Form PD 1001 or 1003, as appropriate, may be used to appoint an attorney in fact. An attorney in fact may use Form PD 1006 or 1008 to appoint a substitute. However, any form sufficient in substance may be used.) If there are two or more joint attorneys in fact or substitutes, all must unite in an assignment, unless the power authorizes less than all to act. A power of attorney or of substitution not coupled with an interest will be recognized until the Bureau receives proof of revocation or proof of the grantor's death or incompetency.

(b) *For legal representatives and fiduciaries.* Assignments by an attorney in fact or substitute attorney in fact for a legal representative or fiduciary, in addition to the power of attorney and of substitution, must be supported by evidence, if any, as required by §§ 306.57 (d), 306.66(b), 306.75, and 306.76. Powers must specifically designate the securities to be assigned.

(c) *For corporations or unincorporated associations.* Assignments by an attorney in fact or a substitute attorney in fact in behalf of a corporation or unincorporated association, in addition to the power of attorney and power of substitution, must be supported by one of the following documents certified under seal of the organization, or, if it has no seal, sworn to by an officer who has access to the records:

(1) A copy of the resolution of the governing body authorizing an officer to appoint an attorney in fact, with power of substitution, if pertinent, to assign, or to sell, or to otherwise dispose of, the securities, or

(2) A copy of the charter, constitution, or bylaws, or a pertinent extract therefrom, showing the authority of an officer to appoint an attorney in fact, or

(3) A copy of the resolution of the governing body directly appointing an attorney in fact.

If the resolution or other supporting document shows only the title of the authorized officer, without his name, a certificate of incumbency must also be furnished. (Form PD 1014 may be used.) The power may not be broader than the resolution or other authority.

(d) *For public corporations.* A general power of attorney in behalf of a public corporation will be recognized only if it is authorized by statute.

## § 306.96 Nontransferable securities.

The provisions of this subpart shall apply to nontransferable securities, subject only to the limitations imposed by the terms of the particular issues.

## Subpart L—Transfer Through Judicial Proceedings

## § 306.100 Transferable securities.

The Department will recognize valid judicial proceedings affecting the ownership of or interest in transferable securities, upon presentation of the securities together with evidence of the proceedings. In the case of securities registered in the names of two or more persons, the extent of their respective interests in the securities must be determined by the court in proceedings to which they are parties or must otherwise be validly established.<sup>10</sup>

## § 306.101 Evidence required.

Copies of a final judgment, decree, or order of court and of any necessary supplementary proceedings must be submitted. Assignments by a trustee in bankruptcy or a receiver of an insolvent's estate must be supported by evidence of his qualification. Assignments by a receiver in equity or a similar court officer must be supported by a copy of an order authorizing him to assign, or to sell, or to otherwise dispose of, the securities. Where the documents are dated more than 6 months prior to presentation of the securities, there must also be submitted a certificate dated within 6 months of presentation of the securities, showing the judgment, decree, or order, or evidence of qualification, is in full force. Any such evidence must be certified under court seal.

## § 306.102 Nontransferable securities.

The provisions of this subpart shall apply to Treasury Bonds, Investment Series B-1975-80, except that prior to maturity any reference to assignments shall be deemed to refer to assignments of the bonds for exchange for the current series of 1½ percent 5-year EA or EO Treasury notes.

## Subpart M—Requests for Suspension of Transactions

## § 306.103 Requests for suspension of transactions in registered securities.

(a) *Timely notice.* If prior to the time a registered security bearing an apparently valid assignment has been functioned, a claim is received from the owner or his authorized representative showing that (1) the security was lost, stolen, or destroyed and that it was unassigned, or not so assigned as to have become in

<sup>10</sup> Title in a finder claiming ownership of a registered security will not be recognized. A finder claiming ownership of a bearer security or a registered security assigned in blank or so assigned as to become in effect payable to bearer must perfect his title in accordance with the provisions of State law. If there are no such provisions, the Department will not recognize his title to the security.

effect payable to bearer, or (2) the assignment was affected by fraud, the transaction for which the security was received will be suspended. The interested parties will be given a reasonable period of time in which to effect settlement of their interests by agreement, or to institute judicial proceedings.

(b) *Late notice.* If, after a registered security has been transferred, exchanged, or redeemed in reliance on an apparently valid assignment, an owner notifies the Bureau that the assignment was affected by fraud or that the security had been lost or stolen, the Department will undertake only to furnish available information.

(c) *Forged assignments.* A claim that an assignment of a registered security is a forgery will be investigated. If it is established that the assignment was in fact forged and that the owner did not authorize or ratify it, or receive any benefit therefrom, the Department will recognize his ownership and grant appropriate relief.

## § 306.106 Requests for suspension of transactions in bearer securities.

(a) *Securities not overdue.* Neither the Department nor any of its agents will accept notice of any claim or of pending judicial proceedings by any person for the purpose of suspending transactions in bearer securities, or registered securities so assigned as to become in effect payable to bearer which are not overdue as defined in § 306.25.<sup>11</sup> However, if the securities are received and retired, the department will undertake to notify persons who appear to be entitled to any available information concerning the source from which the securities were received.

(b) *Overdue securities.* Reports that bearer securities, or registered securities so assigned as to become in effect payable to bearer, were lost, stolen, or possibly destroyed after they became overdue as defined in § 306.25 will be accepted by the Bureau for the purpose of sus-

<sup>11</sup> It has been the longstanding policy of the Department to assume no responsibility for the protection of bearer securities not in the possession of persons claiming rights therein and to give no effect to any notice of such claims. This policy was formalized on April 27, 1967, when the Secretary of the Treasury issued the following statement:

"In consequence of the increasing trouble, wholly without practical benefit, arising from notices which are constantly received at the Department respecting the loss of coupon bonds, which are payable to bearer, and of Treasury notes issued and remaining in blank at the time of loss, it becomes necessary to give this public notice, that the Government cannot protect and will not undertake to protect the owners of such bonds and notes against the consequences of their own fault or misfortune.

"Hereafter all bonds, notes, and coupons, payable to bearer, and Treasury notes issued and remaining in blank, will be paid to the party presenting them in pursuance of the regulations of the Department, in the course of regular business; and no attention will be paid to caveats which may be filed for the purpose of preventing such payment."

pending redemption of the securities if the claimant establishes his interest. If the securities are presented, their redemption will be suspended and the presenter and the claimant will each be given an opportunity to establish ownership.

## Subpart N—Relief for Loss, Theft, Destruction, Mutilation, or Defacement of Securities

## § 306.110 Statutory authority and requirements.

Relief is authorized, under certain conditions, for the loss, theft, destruction, mutilation or defacement of U.S. securities, whether before, at, or after maturity. A bond of indemnity, in such form and with such surety, sureties or security as may be required to protect the interests of the United States, is required as a condition of relief on account of any bearer security or any registered security assigned in blank or so assigned as to become in effect payable to bearer, and is ordinarily required in the case of unassigned registered securities.

## § 306.111 Procedure for applying for relief.

Prompt report of the loss, theft, destruction, mutilation or defacement of a security should be made to the Bureau. The report should include:

(a) The name and present address of the owner and his address at the time the security was issued, and, if the report is made by some other person, the capacity in which he represents the owner.

(b) The identity of the security by title of loan, issue date, interest rate, serial number and denomination, and in the case of a registered security, the exact form of inscription and a full description of any assignment, endorsement or other writing.

(c) A full statement of the circumstances.

All available portions of a mutilated, defaced or partially destroyed security must also be submitted.

## § 306.112 Type of relief granted.

(a) *Prior to call or maturity.* After a claim on account of the loss, theft, destruction, mutilation, or defacement of a security which has not matured or been called has been satisfactorily established and the conditions for granting relief have been met, a security of like description will be issued to replace the original security.

(b) *At or after call or maturity.* Payment will be made on account of the loss, theft, destruction, mutilation, or defacement of a called or matured security after the claim has been satisfactorily established and the conditions for granting relief have been met.

(c) *Interest coupons.* Where relief has been authorized on account of a destroyed, mutilated or defaced coupon security which has not matured or been called, the replacement security will have attached all unmatured interest coupons if it is established to the satisfaction of the Secretary of the Treasury that the coupons were attached to the original

## RULES AND REGULATIONS

security at the time of its destruction, mutilation or defacement. In every other case only those unmatured interest coupons for which the Department has received payment will be attached. The price of the coupons will be their value as determined by the Department at the time relief is authorized using interest rate factors based on then current market yields on Treasury securities of comparable maturities.

## § 306.113 Cases not requiring bonds of indemnity.

A bond of indemnity will not be required as a condition of relief for the loss, theft, destruction, mutilation, or defacement of registered securities in any of the following classes of cases unless the Secretary of the Treasury deems it essential in the public interest:

(a) If the loss, theft, destruction, mutilation, or defacement, as the case may be, occurred while the security was in the custody or control of the United States, or a duly authorized agent thereof (not including the Postal Service when acting solely in its capacity as public carrier of the mails), or while in the course of shipment effected under regulations issued pursuant to the Government Losses in Shipment Act (Parts 260, 261, and 262 of this chapter).

(b) If substantially the entire security is presented and surrendered and the Secretary of the Treasury is satisfied as to the identity of the security and that any missing portions are not sufficient to form the basis of a valid claim against the United States.

(c) If the security is one which by the provisions of law or by the terms of its issue is nontransferable or is transferable only by operation of law.

(d) If the owner or holder is the United States, a Federal Reserve bank, a Federal Government corporation, a State, the District of Columbia, a territory or possession of the United States, a municipal subdivision, or, if applicable, a political subdivision of any of the foregoing, or a foreign government.

## Subpart O—Book-Entry Procedure

## § 306.115 Definition of terms.

In this subpart, unless the context otherwise requires or indicates:

(a) "Reserve Bank" means a Federal Reserve bank and its branches acting as Fiscal Agent of the United States and when indicated acting in its individual capacity.

(b) "Treasury security" means a Treasury bond, note, certificate of indebtedness, or bill issued under the Second Liberty Bond Act, as amended, in the form of a definitive Treasury security or a book-entry Treasury security.

(c) "Definitive Treasury security" means a Treasury bond, note, certificate of indebtedness, or bill issued under the Second Liberty Bond Act, as amended, in engraved or printed form.

(d) "Book-entry Treasury security" means a Treasury bond, note, certificate of indebtedness, or bill issued under the Second Liberty Bond Act, as amended, in the form an entry made as prescribed in

this subpart on the records of a Reserve Bank.

(e) "Pledge" includes a pledge of, or any other security interest in, Treasury securities as collateral for loans or advances or to secure deposits of public monies or the performance of an obligation.

(f) "Date of call" (see § 306.2) is "the date fixed in the official notice of call published in the FEDERAL REGISTER" on which the obligor will make payment of the security before maturity in accordance with its terms.

(g) "Member bank" means any national bank, State bank or bank or trust company which is member of a Reserve Bank.

## § 306.116 Authority of Reserve Banks.

Each Reserve Bank is hereby authorized, in accordance with the provisions of this subpart, to (a) issue book-entry Treasury securities by means of entries on its records which shall include the name of the depositor, the amount, the loan title (or series) and maturity date; (b) effect conversions between book-entry Treasury securities and definitive Treasury securities; (c) otherwise service and maintain book-entry Treasury securities; and (d) issue a confirmation of transaction in the form of a written advice (serially numbered or otherwise) which specifies the amount and description of any securities, that is, loan title (or series) and maturity date, sold or transferred and the date of the transaction.

## § 306.117 Scope and effect of book-entry procedure.

(a) A Reserve bank as fiscal agent of the United States may apply the book-entry procedure provided for in this subpart to any Treasury securities which have been or are hereafter deposited for any purpose in accounts with it in its individual capacity under terms and conditions which indicate that the Reserve bank will continue to maintain such deposit accounts in its individual capacity, notwithstanding application of the book-entry procedure to such securities. This paragraph is applicable, but not limited, to securities deposited:

(1) As collateral pledged to a Reserve bank (in its individual capacity) for advances by it;

(2) By a member bank for its sole account;

(3) By a member bank held for the account of its customers;

(4) In connection with deposits in a member bank of funds of States, municipalities, or other political subdivisions; or

(5) In connection with the performance of an obligation or duty under Federal, State, municipal, or local law, or judgments or decrees of courts.

The application of the book-entry procedure under this paragraph shall not derogate from or adversely affect the

<sup>12</sup> The appendix to this subpart contains rules of identification of book-entry securities for Federal income tax purposes.

relationships that would otherwise exist between a Reserve bank in its individual capacity and its depositors concerning any deposits under this paragraph. Whenever the book-entry procedure is applied to such Treasury securities, the Reserve bank is authorized to take all action necessary in respect of the book-entry procedure to enable such Reserve bank in its individual capacity to perform its obligations as depository with respect to such Treasury securities.

(b) A Reserve bank, as fiscal agent of the United States, shall apply the book-entry procedure to Treasury securities deposited as collateral pledged to the United States under current revisions of Department of the Treasury Circulars Nos. 92 and 176 (Parts 203 and 202 of this chapter), and may apply the book-entry procedure, with the approval of the Secretary of the Treasury, to any other Treasury securities deposited with a Reserve bank, as fiscal agent of the United States.

(c) Any person having an interest in Treasury securities which are deposited with a Reserve bank (in either its individual capacity or as fiscal agent) for any purpose shall be deemed to have consented to their conversion to book-entry Treasury securities pursuant to the provisions of this subpart, and in the manner and under the procedures prescribed by the Reserve bank.

(d) No deposits shall be accepted under this section on or after the date of maturity or call of the securities.

#### § 306.118 Transfer or pledge.

(a) A transfer or a pledge of book-entry Treasury securities to a Reserve bank (in its individual capacity or as fiscal agent of the United States), or to the United States, or to any transferee or pledgee eligible to maintain an appropriate book-entry account in its name with a Reserve bank under this subpart, is effected and perfected, notwithstanding any provision of law to the contrary, by a Reserve bank making an appropriate entry in its records of the securities transferred or pledged. The making of such an entry in the records of a Reserve bank shall (1) have the effect of a delivery in bearer form of definitive Treasury securities; (2) have the effect of a taking of delivery by the transferee or pledgee; (3) constitute the transferee or pledgee a holder; and (4) if a pledge, effect a perfected security interest therein in favor of the pledgee. A transfer or pledge of book-entry Treasury securities effected under this paragraph shall have priority over any transfer, pledge, or other interest, theretofore or thereafter effected or perfected under paragraph (b) of this section or in any other manner.

(b) A transfer or a pledge of transferable Treasury securities, or any interest therein, which is maintained by a Reserve bank (in its individual capacity or as fiscal agent of the United States) in a book-entry account under this subpart, including securities in book-entry form under § 306.117(a)(3), is effected,

and a pledge is perfected, by any means that would be effective under applicable law to effect a transfer or to effect and perfect a pledge of the Treasury securities, or any interest therein, if the securities were maintained by the Reserve bank in bearer definitive form. For purposes of transfer or pledge hereunder, book-entry Treasury securities maintained by a Reserve bank shall, notwithstanding any provision of law to the contrary, be deemed to be maintained in bearer definitive form. A Reserve bank maintaining book-entry Treasury securities either in its individual capacity or as fiscal agent of the United States is not a bailee for purposes of notification of pledges of those securities under this subsection, or a third person in possession for purposes of acknowledgment of transfers thereof under this subsection. Where transferable Treasury securities are recorded on the books of a depository (a bank, banking institution, financial firm, or similar party, which regularly accepts in the course of its business Treasury securities as a custodial service for customers, and maintains accounts in the names of such customers reflecting ownership of or interest in such securities) for account of the pledgor or transferor thereof and such securities are on deposit with a Reserve bank in a book-entry account hereunder, such depository shall, for purposes of perfecting a pledge of such securities or effecting delivery of such securities to a purchaser under applicable provisions of law, be the bailee to which notification of the pledge of the securities may be given or the third person in possession from which acknowledgment of the holding of the securities for the purchaser may be obtained. A Reserve bank will not accept notice or advice of a transfer or pledge effected or perfected under this subsection, and any such notice or advice shall have no effect. A Reserve bank may continue to deal with its depositor in accordance with the provisions of this subpart, notwithstanding any transfer or pledge effected or perfected under this subsection.

(c) No filing or recording with a public recording office or officer shall be necessary or effective with respect to any transfer or pledge of book-entry Treasury securities or any interest therein.

(d) A Reserve bank shall, upon receipt of appropriate instructions, convert book-entry Treasury securities into definitive Treasury securities and deliver them in accordance with such instructions; no such conversion shall affect existing interests in such Treasury securities.

(e) A transfer of book-entry Treasury securities within a Reserve bank shall be made in accordance with procedures established by the bank not inconsistent with this subpart. The transfer of book-entry Treasury securities by a Reserve bank may be made through a telegraphic transfer procedure.

(f) All requests for transfer or withdrawal must be made prior to the maturity or date of call of the securities.

#### § 306.119 Withdrawal of Treasury securities.

(a) A depositor of book-entry Treasury securities may withdraw them from a Reserve bank by requesting delivery of like definitive Treasury securities to itself or on its order to a transferee.

(b) Treasury securities which are actually to be delivered upon withdrawal may be issued either in registered or in bearer form, except that Treasury bills and EA and EO series of Treasury notes will be issued in bearer form only.

#### § 306.120 Delivery of Treasury securities.

A Reserve bank which has received Treasury securities and effected pledges, made entries regarding them, or transferred or delivered them according to the instructions of its depositor is not liable for conversion or for participation in breach of fiduciary duty even though the depositor had no right to dispose of or take other action in respect of the securities. A Reserve bank shall be fully discharged of its obligations under this subpart by the delivery of Treasury securities in definitive form to its depositor or upon the order of such depositor. Customers of a member bank or other depository (other than a Reserve bank) may obtain Treasury securities in definitive form only by causing the depositor of the Reserve bank to order the withdrawal thereof from the Reserve bank.

#### § 306.121 Registered bonds and notes.

No formal assignment shall be required for the conversion to book-entry Treasury securities of registered Treasury securities held by a Reserve bank (in either its individual capacity or as fiscal agent) on the effective date of this subpart for any purpose specified in § 306.117(a). Registered Treasury securities deposited thereafter with a Reserve bank for any purpose specified in § 306.117 shall be assigned for conversion to book-entry Treasury securities. The assignment, which shall be executed in accordance with the provisions of Subpart F of this part, so far as applicable, shall be to "Federal Reserve Bank of \_\_\_\_\_, as fiscal agent of the United States, for conversion to book-entry Treasury securities."

#### § 306.122 Servicing book-entry Treasury securities: payment of interest, payment at maturity or upon call.

Interest becoming due on book-entry Treasury securities shall be charged in the Treasurer's account on the interest-due date and remitted or credited in accordance with the depositor's instructions. Such securities shall be redeemed and charged in the Treasurer's account on the date of maturity or call, and the redemption proceeds, principal and interest, shall be disposed of in accordance with the depositor's instructions.

#### Subpart P—Miscellaneous Provisions

##### § 306.125 Additional requirements.

In any case or any class of cases arising under these regulations the Secretary of the Treasury may require such

additional evidence and a bond of indemnity, with or without surety, as may in his judgment be necessary for the protection of the interests of the United States.

#### § 306.126 Waiver of regulations.

The Secretary of the Treasury reserves the right, in his discretion, to waive or modify any provision or provisions of these regulations in any particular case or class of cases for the convenience of the United States or in order to relieve any person or persons of unnecessary hardship, if such action is not inconsistent with law, does not impair any existing rights, and he is satisfied that such action would not subject the United States to any substantial expense or liability.

#### § 306.127 Preservation of existing rights.

Nothing contained in these regulations shall limit or restrict existing rights which holders of securities heretofore issued may have acquired under the circulars offering such securities for sale or under the regulations in force at the time of acquisition.

#### § 306.128 Supplements, amendments or revisions.

The Secretary of the Treasury may at any time, or from time to time, prescribe additional supplemental, amendatory or revised regulations with respect to U.S. securities.

#### APPENDIX TO SUBPART E—INTEREST—COMPUTATION OF INTEREST ON TREASURY BONDS, TREASURY NOTES, AND TREASURY CERTIFICATES OF INDEBTEDNESS, AND COMPUTATION OF DISCOUNT ON TREASURY BILLS—INTEREST TABLES

##### COMPUTATION OF INTEREST ON ANNUAL BASIS

One Day's Interest is 1/365 or 1/366 of 1-Year's Interest

Computation of interest on Treasury bonds, notes, and certificates of indebtedness will be made on an annual basis in all cases where interest is payable in one amount for the full term of the security, unless such term is an exact half-year (6 months), and it is provided that interest shall be computed on a semi-annual basis.

If the term of the securities is exactly 1 year, the interest is computed for the full period at the specified rate regardless of the number of days in such period.

If the term of the securities is less than 1 full year, the annual interest period for purposes of computation is considered to be the full year from but not including the date of issue to and including the anniversary of such date.

If the term of the securities is less than 1 full year, the annual interest period for purposes of computation is considered to be the full year from but not including the date of issue to and including the anniversary of such date.

If the term of the securities is more than 1 full year, computation is made on the basis of one full annual interest period, ending with the maturity date, and a fractional part of the preceding full annual interest period.

The computation of interest for any fractional part of an annual interest period is made on the basis of 365 actual days in such period, or 366 days if February 29 falls within such annual period.

##### COMPUTATION OF INTEREST ON SEMIANNUAL BASIS

One Day's Interest is 1/181, 1/182, 1/183 or 1/184 or 1/2 Year's Interest

Computation of interest on Treasury bonds, notes, and certificates of indebtedness will be made on a semiannual basis in all cases where interest is payable for one or more full half-year (6 months) periods, or for one or more full half-year periods and a fractional part of a half-year period. A semiannual interest period is an exact half-year or 6 months, for computation purposes, and may comprise 181, 182, 183 or 184 actual days.

An exact half-year's interest at the specified rate is computed for each full period of exactly 6 months, irrespective of the actual number of days in the half-year.

If the initial interest covers a fractional part of a half-year, computation is made on the basis of the actual number of days in the half-year (exactly 6 months) ending on the day such initial interest becomes due. If the initial interest covers a period in excess of 6 months, computation is made on the basis of one full half-year period, ending with the interest due date, and a fractional part of the preceding full half-year period.

Interest for any fractional part of a full half-year period is computed on the basis of the exact number of days in the full period, including February 29 whenever it falls within such a period.

The number of days in any half-year period is shown in the following table:

Interest period	FOR THE HALF-YEAR		Beginning and ending days are last days of months listed under interest period (number of days)	
	Regular year	Leap year	Regular year	Leap year
January to July	181	182	181	182
February to August	181	182	181	182
March to September	184	184	183	183
April to October	183	183	184	184
May to November	183	183	183	183
June to December	184	184	184	184
July to January	184	184	181	182
August to February	181	182	181	182
September to March	182	183	181	182
October to April	181	182	182	183
November to May	182	183	181	182
December to June	182	183	181	182
1 year (any 2 consecutive half-years)	365	366	365	366

The following are dates for end-of-the-month interest computations.

When interest period ends on—	Interest-computation period will be from but will not include—
Jan. 31	July 31
Feb. 28 in 365-day year	Aug. 31
Feb. 29	Do.
Mar. 30, 31	Sept. 30
Apr. 30	Oct. 31
May 30, 31	Nov. 30
June 30	Dec. 31
July 31	Jan. 31
Aug. 29, 30 or 31	Feb. 28 in 365-day year
	Feb. 29 in leap year
Sept. 30	Mar. 31
Oct. 30, 31	Apr. 30
Nov. 30	May 31
Dec. 30, 31	June 30

USE OF INTEREST TABLES

In the appended tables decimals are set forth for use in computing interest for fractional parts of interest periods. The decimals cover interest on \$1,000 for 1 day in each possible semiannual (Table I), and annual (Table II) interest period, at all rates of interest, in steps of 1/4 percent, from 1/4 to 9 percent. The amount of interest accruing on any date (for a fractional part of an interest period) on \$1,000 face amount of any issue of Treasury bonds, Treasury notes, or Treasury certificates of indebtedness may be ascertained in the following way:

(1) The date of issue, the dates for the payment of interest, the basis (semiannual or annual) upon which interest is computed, and the rate of interest (percent per annum) may be determined from the text of the security, or from the official circular governing the issue.

(2) Determine the interest period of which the fraction is a part, and calculate the number of days in the full period to determine the proper column to be used in selecting the decimal for 1 day's interest.

(3) Calculate the actual number of days in the fractional period from but not including the date of issue or the day on which the last preceding interest payment was made, to and including the day on which the next succeeding interest payment is due or the day as of which the transaction which terminates the accrual of additional interest is effected.

(4) Multiply the appropriate decimal (1 day's interest on \$1,000) by the number of days in the fractional part of the interest period. The appropriate decimal will be found in the appended table for interest payable semiannually or annually, as the case may be, opposite the rate borne by the security, and in the column showing the full interest period of which the fractional period is a part. (For interest on any other amount, multiply the amount of interest on \$1,000 by the other amount expressed as a decimal of \$1,000.)

#### TREASURY BILLS

The methods of computing discount rates on U.S. Treasury bills are given below:

Computation will be made on an annual basis in all cases. The annual period for bank discount is a year of 360 days, and all computations of such discount will be made on that basis. The annual period for true discount is 1 full year from but not including the date of issue to and including the anniversary of such date. Computation of true discount for a fractional part of a year will be made on the basis of 365 days in the year, or 366 days if February 29 falls within the year.

#### BANK DISCOUNT

The bank discount rate on a Treasury bill may be ascertained by (1) subtracting the sale price of the bill from its face value to obtain the amount of discount; (2) dividing the amount of discount by the number of days the bill is to run to obtain the amount of discount per day; (3) multiplying the amount of discount per day by 360 (the number of days in a commercial year of 12 months

which is issued by any department or agency of the Government of the United States, or the Federal National Mortgage Association, the Federal Home Loan Bank, the Federal Land Bank, the Federal Intermediate Credit Bank, the Federal Reserve Bank, or the Tennessee Valley Authority.

The documents are:

- (1) The substance of Treasury Department Decision 7081, published in the Federal Register on December 31, 1970.<sup>1</sup>
- (2) Revenue Ruling 71-21, published in Internal Revenue Bulletin 1971-3, dated January 18, 1971; and
- (3) Revenue Ruling 71-15, published in Internal Revenue Bulletin 1971-3, dated January 18, 1971.

The first document modifies the tax identification rules regarding the determination of basis and holding period of securities held as investments. It applies to the sale or transfer of book-entry securities and permits the taxpayer to make the transfer through the book-entry system of the Reserve bank or to the person through whom the taxpayer makes the sale or transfer to identify the securities being sold or transferred by specifying the unique lot number which he has assigned to the lot containing them.

The taxpayer may make the specification either—(a) in the written instruction, or (b) in the case of a taxpayer having a book-entry account at a Reserve bank, in a list of lot numbers with respect to all book-entry securities on the books of the Reserve bank sold or transferred by him on that date. Provided, The list is mailed to or received by the Reserve bank on or before the latter's next business day.

These provisions apply only if the taxpayer assigns a unique lot number to each security to successive purchases of securities in the same loan title (series) and maturity date, except that securities of the same loan title (series) and maturity date which are purchased at the same price on the same date may be included within the same lot.

The written advice of transaction furnished to the taxpayer by the Reserve bank, or by his bank or any other person through whom the taxpayer makes the sale or transfer, which specifies the amount and the description of the securities sold or transferred and the date of the transaction is sufficient confirmation. The Reserve bank need not use or refer to the lot number.

The second document concerns an owner of securities who has assigned sequential numbers to his successive purchases. The owner retains full interest in the securities but transfers them to a bank which has a book-entry account with a Reserve bank, or

<sup>1</sup> Filed as part of the original document. See 26 CFR 1.1012-1(c)(7).

TABLE II—DECIMAL FOR 1 DAY'S INTEREST ON \$1,000 AT VARIOUS RATES OF INTEREST, PAYABLE ANNUALLY OR ON AN ANNUAL BASIS IN REGULAR YEARS OF 365 DAYS AND IN LEAP YEARS OF 366 DAYS

Rate per annum (percent)	Regular year, 365 days	Leap year, 366 days
1/4	\$0.03 424 654	\$0.03 415 301

11 1/2	1.57 534 084	1.57 567 678
11 3/4	1.60 958 738	1.60 993 322
12	1.64 383 392	1.64 419 016

#### APPENDIX TO SUBPART O—BOOK-ENTRY

##### RECORDS FOR FEDERAL INCOME TAX PURPOSES

There are attached three documents in connection with the book-entry procedure which simplify recordkeeping for Federal income tax purposes. They apply to transferable Treasury bonds, notes, certificates of indebtedness, or bills issued under the Second Liberty Bond Act, as amended, and to "any quoted term of the United States." The quoted term is defined to include a bond, note, certificate of indebtedness, bill, debenture, or similar obligation which is subject to the provisions of 31 CFR Part 306, or other comparable Federal regulations and

first two steps described under "Bank Discount": (3) multiplying the amount of discount per year by the actual number of days in the year from date of issue (365 ordinarily, but 366 if February 29 falls within the year from date of issue) to obtain the amount of discount per year; and (4) dividing the amount of discount per year by the sale price of the bill to obtain the true discount rate.

For example:  
91-day bill:  
Principal amount—maturity \$100.00  
Price at issue—amount received. 99.50  
Amount of discount—maturity \$100.00  
Price at issue—amount received. 99.50  
Amount of discount—maturity \$100.00  
Price at issue—amount received. 99.50  
Amount of discount—maturity \$100.00  
Price at issue—amount received. 99.50

The true discount rate on a Treasury bill of more than one-half year in length may be ascertained by (1) and (2) obtaining the amount of discount per day by following the

TABLE I—DECIMAL FOR 1 DAY'S INTEREST ON \$1,000 AT VARIOUS RATES OF INTEREST, PAYABLE SEMIANNUALLY OR ON A SEMIANNUAL BASIS IN REGULAR YEARS OF 365 DAYS AND IN LEAP YEARS OF 366 DAYS (TO DETERMINE APPLICABLE NUMBER OF DAYS, SEE "COMPUTATION OF INTEREST ON TREASURY BILLS")

Rate per annum (percent)	Half year of 181 days	Half year of 182 days	Half year of 183 days	Half year of 184 days

FEDERAL REGISTER, VOL. 38, NO. 50—THURSDAY, MARCH 15, 1973

to another party which transfers them to a bank which has a book-entry account with a Reserve bank.

When at a later date the bank instructs the Reserve bank to sell or transfer securities held in book entry for its customer, the bank need not refer to the sequential number which had been assigned on the owner's books.

The tax identification requirements are satisfied if the owner's written instruction to his bank or to the person through whom the taxpayer makes the sale or transfer sufficiently identifies the securities to be sold or transferred and refers to the lot number assigned to them in the owner's books. The bank's instruction to the Reserve bank will not refer to lot numbers; the Reserve bank will confirm the sale to the bank in the manner it deems appropriate. The member bank will confirm the sale or transfer to its customer by furnishing a written advice of transaction specifying the amount and description of the securities sold and the date of sale. The confirmation need not refer to lot number.

This document also permits substantially the same kind of identification and confirmation procedures when securities are purchased through the book-entry account for the bank's customers.

The third document provides that a dealer, who properly holds securities in inventory in accordance with § 1.471-5 of the Income Tax Regulations and proposes to transfer them to a book-entry system in a Reserve bank, will continue to maintain his books and records for Federal income tax purposes with respect to such securities in accordance with § 1.471-5 of the regulations and not § 1.1012-1 of the regulations.

#### SECTION 1012—BASIS OF PROPERTY—COST

26 CFR 1.1012-1. *Basis of property.* Rev. Rul. 71-21.<sup>1</sup> A taxpayer owns as investments Treasury securities and certain other securities described in the new § 1.1012-1(c)(7) (iii) (a) of the Income Tax Regulations. The taxpayer owner will assign a lot number to

<sup>1</sup> Also released as Technical Information Release 1063, dated Dec. 30, 1970.

the securities in his books. The numbers will be assigned in numerical sequence to successive purchases of the same loan title (series) and maturity date, except that securities of the same loan title (series) and maturity date which are purchased at the same price on the same date may be included in the same lot.

The owner proposes to retain full interest in the securities but he will transfer possession of them to a bank. That bank will not keep records of the securities by use of the above-described lot numbers. The bank will also take possession of like securities for other taxpayers.

The bank will transfer all of these securities to a book-entry system of a Federal Reserve bank. The securities will be entries in the book-entry account of the bank and, as such, the securities will no longer exist in definitive form. That account will not reflect the fact that the bank holds securities for several taxpayers.

When the owner wishes to sell certain securities, he will so instruct the bank in writing. The owner's instruction will sufficiently identify the securities to be sold, and will also refer to the lot number assigned in the books of the owner to the securities to be sold. The bank will then instruct, in writing, the Federal Reserve bank to transfer the securities. The latter instruction will not refer to the pertinent lot number. The Federal Reserve bank will confirm the sale to the bank in the manner it deems appropriate. The bank will confirm the sale to the owner by furnishing a written advice of transaction specifying the amount and description of the securities sold and the date of the sale. The confirmation will not refer to lot numbers.

When the owner desires to buy additional securities as investments of the kind described in the new § 1.1012-1(c)(7) (iii) (a) of the regulations, he will order the bank to purchase them. The bank will instruct the Federal Reserve bank to obtain the securities and to put them in the bank's book-entry account. The confirmation of the purchase from the Federal Reserve bank to the bank and from the bank to the owner will be of the nature used for the sale of securities. The owner will assign lot numbers in the

manner described above to these purchased securities.

Held, the above procedure is consistent with the tax record requirements of new § 1.1012-1(c)(7) of the regulations. This procedure exemplifies the tax record requirements when securities are transferred by parties to a bank who has an account in the book-entry system of a Federal Reserve bank. The tax record requirements in the case of a bank who puts its own investment securities in the book-entry system are set forth in new § 1.1012-1(c)(7) of the regulations.

#### SECTION 471—GENERAL RULE FOR INVENTORIES

26 CFR 1.471-5. *Inventories by dealers in Rev. Rul. 71-15<sup>1</sup> securities.* (Also section 1012; 1.1012-1.) A dealer, as defined in section 1.471-5 of the Income Tax Regulations, holds Treasury securities and other securities of the United States. "Other securities of the United States" means a transferable bond, note, certificate of indebtedness, bill, debenture, or similar obligation which is subject to the provisions of 31 CFR Part 306 or other comparable Federal regulations and which is issued by (1) any department or agency of the Government of the United States, or (2) the Federal National Mortgage Association, the Federal Home Loan Bank, the Federal Land Bank, the Federal Intermediate Credit Bank, the Banks for Cooperatives, or the Tennessee Valley Authority.

The dealer properly holds such securities in inventory in accordance with § 1.471-5 of the Income Tax Regulations. He proposes to transfer those securities to a book-entry system maintained by a Federal Reserve bank. The dealer will continue to maintain his books and records for Federal income tax purposes with respect to such securities in accordance with § 1.471-5 of the regulations.

Held, the dealer is not subject to the provisions of § 1.1012-1 of the regulations relating to identification of property with respect to such securities. Such a dealer must, however, comply with the provisions of § 1.471-5 of the regulations relating to inventory by dealers in securities.

**Title 21—Food and Drugs**  
**CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE**

**PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT**

**PART 167—IN VITRO DIAGNOSTIC PRODUCTS FOR HUMAN USE**

**Labeling Requirements and Procedures for Development of Standards for In Vitro Diagnostic Products for Human Use**

In the FEDERAL REGISTER on August 17, 1972 (37 FR 16613) a proposal was published to establish procedures to develop standards for in vitro diagnostic products. Interested persons were invited to submit comments on the proposal within 60 days. A total of 47 responses was received. These included comments from manufacturer associations, user associations, manufacturers of diagnostic systems, and comments from a consulting firm and an individual consumer. The Diagnostic Products Advisory Committee has met and has provided significant assistance to the agency in the development of this program. At their first meeting the committee considered broad scientific questions concerning the proposed approach and also commented on the question of priorities for the establishment of product class standards. These sources have provided useful information for the development of reasonable regulations governing the manufacture, labeling and performance of in vitro diagnostic products. The comments and conclusions of the Commissioner of Food and Drugs, based on his evaluation, are summarized as follows:

1. A number of comments state that the proposed order purports to be authorized by sections 201, 501, 502, 505, 508, 510, or 701 of the Federal Food, Drug, and Cosmetic Act, and none of these sections explicitly authorizes the promulgation of in vitro diagnostic product standards that constitute substantive rules. Comments were made that the act contains no provision conferring authority on the Food and Drug Administration to determine the new-drug-old-drug status of a product. It was also stated that the FDA does not have authority to make substantive determinations of adulteration or misbranding, and it was claimed that the fact that a product does not conform to an applicable standard does not cause the product to be misbranded or adulterated without regard to the adulteration or misbranding provisions in the act. The question of the authority of the FDA to promulgate regulations of this nature was previously raised and discussed in connection with establishing procedures for classification of over-the-counter drugs, published in the FEDERAL REGISTER of May 11, 1972 (37 FR 9464), and the conclusions reached there are equally applicable here. The standards to be established under these procedural regulations, if upheld by the courts, will prescribe the conditions which an in vitro diagnostic product must meet if it is not to be in viola-

tion of the misbranding and/or adulteration and/or new-drug provisions of the act.

2. In response to other comments, the definition of "product class" has been amended to permit the development of product class standards for products with common or related characteristics or those intended for common or related uses in addition to those for use for a particular determination or related group of determinations.

3. Several comments stated that the Federal Food, Drug, and Cosmetic Act does not provide authority for lot-by-lot certification. The Commissioner concludes that such certification is authorized only where it is necessary to assure compliance with the act, and the regulations have been revised to clarify this point. Such certification, where required, may be conducted by the FDA, by the Center for Disease Control, by independent laboratories, or by other organizations, as designated in the standard.

4. Some of the comments objected to the handling of in vitro diagnostic products as a class, without any attempt to classify them as drugs or devices. It is the position of the FDA that as a matter of law it has the authority administratively to determine whether products are drugs or devices; it has made clear its position that until new device legislation is enacted and where the authority inherent in section 505 of the Federal Food, Drug, and Cosmetic Act is necessary to protect the public health, products will be regarded and classified as drugs under the act. The FDA believes it is not in the public interest to spend time determining which in vitro diagnostic products are drugs and which are devices for the purposes of this regulation. Such a determination will be made only when necessary to bring violative products into compliance.

5. Some comments stated that the FDA has no authority to impose the requirements of the Federal Hazardous Substances Act (FHSA) on in vitro diagnostic products, whether or not they are intended or packaged for use in the household. The regulations do not impose the requirements of the FHSA. The requirement of appropriate warnings is based upon section 502 of the Federal Food, Drug, and Cosmetic Act. The warnings prescribed in 21 CFR Part 191 are appropriate in many cases for in vitro diagnostic products and therefore are incorporated by reference.

6. The section of the proposal dealing with labeling drew the largest number of comments. Several substantive objections to the wording of this section have been accommodated, and several items have been restated for clarification. Many firms commented that specific items were not applicable to certain products; the regulation has been changed to allow flexibility and to permit omissions where certain items of information are inapplicable. The requirement for a fixed format and order for presentation of labeling information has been retained in the interest of uniformity.

7. There was objection to the requirement of a declaration of the quantity or proportion of each reactive, catalytic or inactive ingredient in the labeling accompanying each product. These objections were based primarily on the position that such declaration would disclose valuable trade secrets and proprietary information. The FDA concludes, based in part on its evaluation of these comments and in part on the advice of the Diagnostic Products Advisory Committee, that there is no demonstrated need, as a general requirement, for a declaration of the quantity or proportion of each catalytic or inactive ingredient in the labeling accompanying these products. Such requirements may be determined to be necessary for a particular product or class of products as part of specific product class standards in the future. Therefore, this subparagraph has been amended to require the declaration of the established name (common or usual name), if any, and the quantity or proportion only of each reactive ingredient, unless a standard requires otherwise. Except where such provision is contained in a standard, a general statement indicating the presence of, and characterizing, any catalytic or nonreactive ingredients will be sufficient.

8. A significant number of respondents objected to § 167.2(a)(3) (21 CFR 167.2) stating that information including the quantity or proportion of reactive ingredients is not necessary for the user of these products and that the quantitative description of the reactive ingredients on the label would constitute disclosure of trade secrets. It is the position of the FDA, after consultation with its Advisory Committee, that knowledge of this information is important as a part of adequate directions for use of these products. Therefore, no change has been made in this provision.

9. A large number of comments stated that the requirement that the label bear a statement that the product is intended for in vitro diagnostic use only is unduly restrictive since many of these products are legitimately used for other purposes. This section has been revised to eliminate the word "only". There is nothing in this language that would preclude the use of the product for other legitimate purposes.

10. Several comments indicated concern with the requirement of a statement of the declaration of net quantity or contents in metric terms. This provision has been revised to state a preference, instead of a requirement, for this terminology.

11. Several respondents perceived and stated that the requirement for a lot or control number on the label of products did not reflect an appreciation of the distinct problems associated with multiple-unit products or instruments. This provision as reworded provides for this distinction.

12. The provision relating to exceptions to requirements for certain information on immediate container labels was the subject of many comments. After discussion with the Diagnostic Products Advisory Committee, § 167.2(a)(10)(i)

has been revised to allow the omission of the information on the intended use of the product, proportion of reactive ingredients, warnings, storage conditions, and net contents, required by § 167.2(a)(2), (3), (4), (5), and (7), from the immediate container label under certain specified conditions.

13. A large number of persons objected to the statement in § 167.2(b)(3) that if the product labeling refers to any other procedure, the appropriate literature citations shall be included, and the labeling shall explain the reason for and nature of any differences from the original and their effect on the results, on the basis that this represented comparative labeling. There is no requirement for comparison of one product with another in the regulation as proposed or as finalized. If a manufacturer does make such a comparison, however, it is incumbent upon him to justify it fully in his labeling. The requirement for an explanation of the reason for the change from an original procedure has been deleted, since little benefit would accrue to the intended user of these products from the possession of this information.

14. There were numerous comments received concerning the requirement under §§ 167.2(b)(7)(i) and 167.3(c)(12) (21 CFR 167.2 and 167.3) that any statement on "special preparation of the patient" involved an intrusion into the practice of medicine. The FDA does not believe that this provision represents an intrusion into the practice of medicine, but rather is required for adequate directions for use of the product. To further clarify the intent of these two subparagraphs they have been revised to indicate that such special preparation is needed as it bears on the validity of the test.

15. The same basic objection was raised with respect to the provisions in §§ 167.2(b)(10) and 167.3(c)(15) which requested a statement that additional tests may be required in certain instances. An example of the application of this provision would be to indicate the availability of a confirmatory procedure if the product in question is intended for use as a screening determination. This requirement has been retained since it appears necessary that the user be provided adequate information concerning limitations of the procedure.

16. Other comments requested exclusion of products intended for research and investigational use. The Advisory Committee also made recommendations concerning exceptions from the labeling requirements when diagnostic products are shipped for investigational purposes. The FDA recognizes that adequate information to fulfill the requirements of § 167.2(a) and (b) may not be available at the time of the earliest testing. It is agreed that a provision to cover the labeling of products prior to commercial marketing is appropriate, and § 167.2(c) has been added to cover this matter. Notification prior to the time of commercial marketing will be required in order to assist the agency in planning its activities and anticipating the needs

for the development of product class standards. The agency does not wish to place burdensome requirements upon researchers or other investigators. A simple form for providing such notification will be developed with the advice of the Advisory Committee and other interested persons and made available at a later date. An additional use for the information provided in this notification procedure is to inform field unit of the agency concerning the legitimacy of products shipped with less than full labeling and to minimize the possibility of the unnecessary initiation of compliance activities for products prior to marketing. When commercial marketing is begun, notification to this effect will be required as provided in the procedures for implementation of the Drug Listing Act.

17. Several comments were addressed to the problem of including general purpose laboratory reagents and other multiple-purpose materials in the requirement of 21 CFR Part 167. The Commissioner recognizes that there are hundreds of common laboratory reagents and equipment (e.g., hydrochloric acid and glass beakers), the use of which is generally known by persons trained in their use in laboratory procedures. The inclusion in their labeling of all of the information required by § 167.2(a) and (b) is not feasible or necessary for the proper use of these general purpose laboratory articles. Therefore, the Commissioner has added a new § 167.2(d) to the regulations to identify the information which must be included in the labeling for those products. New § 167.2(d) is applicable to general purpose laboratory reagents and equipment which may also be used as part of an in vitro diagnostic procedure.

18. Many comments expressed a need for a time period within which to develop and effect the necessary labeling changes in order to avoid imposing an undue hardship on the affected industry. Considering that these regulations require labeling revisions for all products and the development of data in many cases, a period of 12 months from the date of publication of this document will be allowed for compliance with the general labeling requirements of § 167.2(a) and (b) for all products. Since the problems of labeling for products subject to the requirements of § 167.2(c) are of a lesser magnitude, 6 months from the date of publication will be allowed for compliance.

19. A significant number of respondents objected to the requirement for the disclosure of the complete product formulation in the submission of data to establish a standard. This paralleled the objections to the disclosure of certain formula information in product labeling. The FDA requires information of this kind to establish standards. Quantitative formulae are recognized as valuable trade secrets and are protected from public disclosure by the FDA under the confidentiality statutes governing information obtained by the government.

20. Many respondents objected to the requirement of a specification of the degree of skill, education, and training needed by the "analyst". This section has been reworded. The intention of this requirement is to describe the minimum qualifications for the user of the product. This information is necessary for the agency to develop product class standards appropriate for the intended user.

21. The Diagnostic Products Advisory Committee noted that the provisions for the submission of information under § 167.3(c) might impose an unnecessary burden on an interested person who wished to provide comment more limited than that called for in § 167.3(c). The Commissioner agrees that a more informal submission should be acceptable and the regulation is revised accordingly.

22. In response to comments that the proposed usual period of 60 days for submission of information pertaining to a product standard requested under § 167.3(c) was inadequate, this requirement has been revised to allow a usual period of 90 days for these submissions. However, this will vary for individual product class standards. In view of the notice given in the August 17, 1972, proposal that the first request for information would be for those products used in the determination of glucose, the time for submission of this information will be 60 days.

23. Several comments objected to the provision that after a standard is promulgated or amended the FDA will make data available to the public within 30 days unless the submitter of the data can show that the data are confidential. The applicable statutes (18 U.S.C. 1906; 21 U.S.C. 331(j)) provide for the confidentiality of trade secrets obtained from a person. The FDA is bound by these statutes and will treat as confidential all information that has been demonstrated by the submitter as falling within the confidentiality provisions of one or more of those statutes. Information not exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552 (b)) may not be withheld from public disclosure. Section 167.4 (21 CFR 167.4) of the regulation has been revised to clarify the position of the FDA with respect to the confidentiality of submitted information.

24. Among the product groups considered by the Diagnostic Products Advisory Committee to be of the highest priority for developing product class standards were microbiological antigens, antibodies, and adjuncts; transport and growth media; products for the measurement of immunoglobulins; calibration, reference, and quality control materials; laboratory water; clinical chemistry products used in the determination of glucose, calcium, bilirubin, enzymes, sodium, potassium, chloride, urea, uric acid, cholesterol, and triglycerides; and products used in the determination of hemoglobins. Further deliberation will be required in order to refine and designate or delineate product classes and to place them in appropriate order according to priorities for develop-

ing and establishing product class standards.

25. These regulations do not preclude the imposition of additional requirements under the Act when the Commissioner concludes that such requirements are necessary to protect the public health.

26. Since the provisions of Part 167 apply to those products subject to the exemption from the labeling requirements of section 502(f) (1) of the Act in § 1.106(j), the Commissioner is revising § 1.106(j) to indicate that in vitro diagnostic products subject to that section which are in compliance with the provisions of Part 167 will be deemed to meet the labeling requirements of § 502(f) (1).

27. The provisions of these regulations, including both the requirements for labeling and development of standards, apply to all in vitro diagnostic products, including biologics. All questions concerning in vitro diagnostic products, except for biologics subject to an existing license under section 351 of the Public Health Service Act, should be addressed to the Diagnostic Products Staff, Bureau of Drugs, BD-207.

Existing licenses for biological products issued under section 351 of the Public Health Service Act will remain in effect until applicable standards are promulgated pursuant to Part 167. For in vitro diagnostic products which are biologics but which have not previously been licensed, compliance with the requirements of Part 167 shall be deemed to constitute compliance with section 351. Such unlicensed products need obtain a license under section 351 only if the Commissioner determines and so informs the manufacturer or distributor pursuant to § 167.6 that a license under section 351 is required in order to protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 501, 502, 505, 508, 510, 701, 52 Stat. 1040-1042, as amended, 1049-1051, as amended, 1053, as amended, 1055, as amended, 1056, as amended; 21 U.S.C. 321, 351, 352, 355, 358, 560, 571) and the Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262) and under authority delegated to the Commission (21 CFR 2.120), Chapter 1 is amended in Part 1 by revising § 1.106(j) and by adding a new Part 167, as follows:

1. In Part 1 by revising § 1.106(j) to read as follows:

§ 1.106 Drugs and devices; directions for use.

(j) *Exemption for in vitro diagnostic products.* A product intended for use in the diagnosis of disease and which is an in vitro diagnostic product as defined in § 167.1(a) of this chapter shall be deemed to be in compliance with the requirements of this section and section 502(f) (1) of the act if it meets the requirements of Part 167 of this chapter.

2. By adding a new Part 167, In Vitro Diagnostic Products For Human Use, to Subchapter C as follows:

## RULES AND REGULATIONS

### Subpart A—Procedural Regulations

Sec. 167.1	Definitions.
167.2	Labeling for in vitro diagnostic products.
167.3	Procedure for establishing, amending or repealing standards.
167.4	Confidentiality of submitted information.
167.5	Court appeal.
167.6	Regulatory action.
167.7	General requirements for manufacturers and producers of in vitro diagnostic products.

**AUTHORITY:** Secs. 201, 501, 502, 505, 508, 510, 701, 52 Stat. 1040-1042, as amended, 1049-1051, as amended, 1053, as amended, 1055, as amended, 1056, as amended; 21 U.S.C. 321, 351, 352, 355, 358, 560, 571.

#### § 167.1 Definitions.

(a) "In vitro diagnostic products" are those reagents, instruments and systems intended for use in the diagnosis of disease or in the determination of the state of health in order to cure, mitigate, treat, or prevent disease or its sequelae. Such products are intended for use in the collection, preparation and examination of specimens taken from the human body. These products are drugs or devices as defined in section 201(g) and 201(h), respectively, of the Federal Food, Drug, and Cosmetic Act (the act) or are a combination of drugs and devices, and may also be a biological product subject to section 351 of the Public Health Service Act.

(b) A "product class" is all those products intended for use for a particular determination or for a related group of determinations or products with common or related characteristics or those intended for common or related uses. A class may be further divided into subclasses when appropriate.

(c) A "product class standard" is a statement describing performance requirements necessary to assure accuracy and reliability of results, specific labeling requirements necessary for the proper use of a particular class, and procedures for testing the product to assure its satisfactory performance.

(d) "Act" means the Federal Food, Drug, and Cosmetic Act.

#### § 167.2 Labeling for in vitro diagnostic products.

(a) The label for an in vitro diagnostic product shall state the following information, except where such information is not applicable, or as otherwise specified in a standard for a particular product class. Section 201(k) of the act provides that "a requirement made by or under authority of this act that any word, statement, or other information appear on the label shall not be considered to be complied with unless such word, statement, or other information also appears on the outside container or wrapper, if any there be, of the retail package of such article, or is easily legible through the outside container or wrapper."

(1) The proprietary name and established name (common or usual name), if any.

(2) The intended use or uses of the product.

(3) For a reagent, a declaration of the established name (common or usual name), if any, and quantity, proportion or concentration of each reactive ingredient; and for a reagent derived from biological material, the source and a measure of its activity. The quantity, proportion, concentration or activity shall be stated in the system generally used and recognized by the intended user (e.g., metric, international units, etc.).

(4) A statement of warnings or precautions for users as established in the regulations contained in Part 191 of this chapter and any other warnings appropriate to the hazard presented by the product; and a statement "For In Vitro Diagnostic Use" and any other limiting statements appropriate to the intended use of the product.

(5) For a reagent, appropriate storage instructions adequate to protect the stability of the product. When applicable, these instructions shall include such information as conditions of temperature, light, humidity, and other pertinent factors. For products requiring manipulation, such as reconstitution and/or mixing before use, appropriate storage instructions shall be provided for the reconstituted or mixed product which is to be stored in the original container. The basis for such instructions shall be determined by reliable, meaningful, and specific test methods such as those described in § 133.13 of this chapter.

(6) For a reagent, a means by which the user may be assured that the product meets appropriate standards of identity, strength, quality and purity at the time of use. This shall be provided, both for the product as provided and for any resultant reconstituted or mixed product, by including on the label one or more of the following:

(i) An expiration date based upon the stated storage instructions.

(ii) A statement of an observable indication of an alteration of the product (e.g., turbidity, color change, precipitate) beyond its appropriate standards.

(iii) Instructions for a simple method by which the user can reasonably determine that the product meets its appropriate standards.

(7) For a reagent, a declaration of the net quantity of contents, expressed in terms of weight or volume, numerical count, or any combination of these or other terms which accurately reflect the contents of the package. The use of metric designations is encouraged, wherever appropriate. If more than a single determination may be performed using the product, any statement of the number of tests shall be consistent with instructions for use and amount of material provided.

(8) Name and place of business of manufacturer, packer, or distributor.

(9) A lot or control number, identified as such, from which it is possible to determine the complete manufacturing history of the product.

(i) If it is a multiple unit product, the lot or control number shall permit tracing the identity of the individual units.

(ii) For an instrument, the lot or control number shall permit tracing the identity of all functional subassemblies.

(iii) For multiple unit products which require the use of included units together as a system, all units should bear the same lot or control number, if appropriate, or other suitable uniform identification should be used.

(10) Except that for items in paragraph (a) (1) through (9) of this section: (i) In the case of immediate containers too small or otherwise unable to accommodate a label with sufficient space to bear all such information and which are packaged within an outer container from which they are removed for use, the information required by paragraph (a) (2), (3), (4), (5), (6) (i) (iii) and (7) of this section may appear in the outer container labeling only.

(ii) In any case in which the presence of this information on the immediate container will interfere with the test, the information may appear on the outside container or wrapper rather than on the immediate container label.

(b) Labeling accompanying each product (e.g., a package insert) shall state in one place the following information in the format and order specified below, except where such information is not applicable, or as specified in a standard for a particular product class. The labeling for a multiple-purpose instrument used for diagnostic purposes, and not committed to specific diagnostic procedures or systems, may bear only the information indicated in paragraph (b) (1), (2), (6), (14), and (15) of this section. The labeling for a reagent intended for use as a replacement in a diagnostic system may be limited to that information necessary to identify the reagent adequately and to describe its proper use in the system.

(1) The proprietary name and established name (common or usual name), if any.

(2) The intended use or uses of the product and the type of procedure (e.g., qualitative or quantitative).

(3) Summary and explanation of the test. Include a short history of the methodology, with pertinent references and a balanced statement of the special merits and limitations of this method or product. If the product labeling refers to any other procedure, appropriate literature citations shall be included and the labeling shall explain the nature of any differences from the original and their effect on the results.

(4) The chemical, physical, physiological, or biological principles of the procedure. Explain concisely, with chemical reactions and techniques involved, if applicable.

(5) Reagents. (i) A declaration of the established name (common or usual name), if any, and quantity, proportion or concentration of each reactive ingredient; and for biological material, the source and a measure of its activity. The quantity, proportion, concentration or activity shall be stated in the system generally used and recognized by the intended user (e.g., metric, international

## RULES AND REGULATIONS

units, etc.). A statement indicating the presence of and characterizing any catalytic or nonreactive ingredients (e.g., buffers, preservatives, stabilizers).

(ii) A statement of warnings or precautions for users as established in the regulations contained in Part 191 of this chapter and any other warnings appropriate to the hazard presented by the product; and a statement "For In Vitro Diagnostic Use" and any other limiting statements appropriate to the intended use of the product.

(iii) Adequate instructions for reconstitution, mixing, dilution, etc.

(iv) Appropriate storage instructions adequate to protect the stability of the product. When applicable, these instructions shall include such information as conditions of temperature, light, humidity, and other pertinent factors. For products requiring manipulation, such as reconstitution and/or mixing before use, appropriate storage instructions shall be provided for the reconstituted or mixed product. The basis for such instructions shall be determined by reliable, meaningful, and specific test methods such as those described in § 133.13 of this chapter.

(v) A statement of any purification or treatment required for use.

(vi) Physical, biological, or chemical indications of instability or deterioration.

(6) Instruments: (i) Use or function.

(ii) Installation procedures and special requirements.

(iii) Principles of operation.

(iv) Performance characteristics and specifications.

(v) Operating instructions.

(vi) Calibration procedures including materials and/or equipment to be used.

(vii) Operational precautions and limitations.

(viii) Hazards.

(ix) Service and maintenance information.

(7) Specimen collection and preparation for analysis, including a description of: (i) Special precautions regarding specimen collection including special preparation of the patient as it bears on the validity of the test.

(ii) Additives, preservatives, etc., necessary to maintain the integrity of the specimen.

(iii) Known interfering substances.

(iv) Recommended storage, handling or shipping instructions for the protection and maintenance of stability of the specimen.

(8) Procedure: A step-by-step outline of recommended procedures from reception of the specimen to obtaining results. List any points that may be useful in improving precision and accuracy. (i) A list of all materials provided (e.g., reagents, instruments and equipment) with instructions for their use.

(ii) A list of all materials required but not provided: Include such details as sizes, numbers, types, and quality.

(iii) A description of the amounts of reagents necessary, times required for specific steps, proper temperatures, wavelengths, etc.

(iv) A statement describing the stability of the final reaction material to be measured and the time within which it shall be measured to assure accurate results.

(v) Details of calibration: Identify reference material. Describe preparation of reference sample(s), use of blanks, preparation of the standard curve, etc. The description of the range of calibration should include the highest and the lowest values measurable by the procedure.

(vi) Details of kinds of quality control procedures and materials required. If there is need for both positive and negative controls, this should be stated. State what are considered satisfactory limits of performance.

(9) Results: Explain the procedure for calculating the value of the unknown. Give an explanation for each component of the formula used for the calculation of the unknown. Include a sample calculation, step-by-step, explaining the answer. The values shall be expressed to the appropriate number of significant figures. If the test provides other than quantitative results, provide an adequate description of expected results.

(10) Limitation of the procedure: Include a statement of limitations of the procedure. State known extrinsic factors or interfering substances affecting results. If further testing, either more specific or more sensitive, is indicated in all cases where certain results are obtained, the need for the additional test shall be stated.

(11) Expected values: State the range(s) of expected values as obtained with the product from studies of various populations. Indicate how the range(s) was established and identify the population(s) on which it was established.

(12) Specific performance characteristics: Include, as appropriate, information describing such things as accuracy, precision, specificity, and sensitivity. These shall be related to a generally accepted method using biological specimens from normal and abnormal populations. Include a statement summarizing the data upon which the specific performance characteristics are based.

(13) Bibliography: Include pertinent references keyed to the test.

(14) Name and place of business of manufacturer, packer, or distributor.

(15) Date of issuance of the last revision of the labeling identified as such.

(c) A shipment or other delivery of an in vitro diagnostic product shall be exempt from the requirements of paragraphs (a) and (b) of this section and from a standard promulgated pursuant to this part provided the following conditions are met:

(1) For a product in the laboratory research phase of development, and not represented as an effective in vitro diagnostic product, all labeling bears the statement, prominently placed: "For Research Use Only. Not for use in diagnostic procedures."

(2) For a product being shipped or delivered for product testing prior to full commercial marketing (e.g., for use on

specimens derived from humans to compare the usefulness of the product with other products or procedures which are in current use or recognized as useful, all labeling bears the statement, prominently placed: "For Investigational Use Only. The performance characteristics of this product have not been established."

(3) The person making a shipment or delivery under paragraph (c)(2) of this section shall submit to the FDA a notification that such shipments are being made.

(4) Within 30 days after the first commercial shipment of an in vitro diagnostic product, the person making such shipment shall submit the information required by the Drug Listing Act as provided in § 132.5 of this chapter.

(d) The labeling of general purpose laboratory reagents (e.g., hydrochloric acid) and equipment (e.g., test tubes and pipettes) whose uses are generally known by persons trained in their use need not bear the directions for use required by § 167.2 (a) and (b), if their labeling meets the requirements of this paragraph.

(1) The label of a reagent shall bear the following information:

(i) The proprietary name and established name (common or usual name), if any, of the reagent.

(ii) A declaration of the established name (common or usual name), if any, and quantity, proportion or concentration of the reagent ingredient (e.g., hydrochloric acid: Formula weight 36.46, assay 37.9 percent, specific gravity 1.192 at 60° F.); and for a reagent derived from biological material, the source and where applicable a measure of its activity. The quantity, proportion, concentration or activity shall be stated in the system generally used and recognized by the intended user (e.g., metric, international units, etc.).

(iii) A statement of the purity and quality of the reagent, including a quantitative declaration of any impurities present. The requirement for this information may be met by a statement of conformity with a generally recognized and generally available standard which contains the same information (e.g., those established by the American Chemical Society, U.S. Pharmacopeia, National Formulary, National Research Council).

(iv) A statement of warnings or precautions for users as established in the regulations contained in Part 191 of this chapter and any other warnings appropriate to the hazard presented by the product; and a statement "For Laboratory Use."

(v) Appropriate storage instructions adequate to protect the stability of the product. When applicable, these instructions shall include such information as conditions of temperature, light, humidity, and other pertinent factors. The basis for such information shall be determined by reliable, meaningful, and specific test methods such as those described in § 133.13 of this chapter.

(vi) A declaration of the net quantity of contents, expressed in terms of weight

or volume, numerical count, or any combination of these or other terms which accurately reflect the contents of the package. The use of metric designations is encouraged, wherever appropriate.

(vii) Name and place of business of manufacturer, packer, or distributor.

(viii) A lot or control number, identified as such, from which it is possible to determine the complete manufacturing history of the product.

(ix) In the case of immediate containers too small or otherwise unable to accommodate a label with sufficient space to bear all such information, and which are packaged within an outer container from which they are removed for use, the information required by paragraphs (b)(2), (b)(3), (b)(4), (b)(5), and (b)(7) of this section may appear in the outer container labeling only.

(2) The label of general purpose laboratory equipment (e.g., a beaker or a pipette) shall bear a statement adequately describing the product, its composition, and physical characteristics if necessary for its proper use.

§ 167.3 Procedure for establishing, amending or repealing standards.

(a) Basis for standards and available approaches to developing standards.

Whenever in the judgment of the Commissioner the establishment of a product class standard is necessary to reduce or eliminate unreasonable risk of illness or injury associated with exposure to or use of an in vitro diagnostic product and there are no other more practicable means to protect the public from such risk, he may propose such a standard. In proposing a product class standard he shall consider, and publish in the Federal Register findings on, the degree of risk or injury associated with the use of the product, the availability of information relating to the sciences upon which the products or their uses are based, the approximate number of products subject to the standard, the medical need for the products, and the probable effect of the standard upon the utility, cost, or availability of the product, and available means of achieving the objective of the standard with a minimal disruption of supply and of reasonable manufacturing and other commercial practices. Three procedures are available for developing product class standards and may be proposed on the initiative of the Commissioner or by petition of interested persons: (1) An existing standard may be utilized, (2) interested persons outside of the Food and Drug Administration may develop a proposed standard or (3) the Food and Drug Administration may develop the standard. If a petition is filed by an interested person, it shall be in the form prescribed in § 2.65 of this chapter with the number of copies specified therein.

(b) Advisory committee. An advisory committee of qualified experts shall be appointed to advise the Food and Drug Administration on the priorities for establishing product class standards, the scientific basis for in vitro diagnostic products, the selection of reference

methodologies and reference materials, the adequacy and reasonableness of proposed standards and other related matters as determined by the Commissioner.

(c) Request for information and comment. Whenever a new standard is to be developed, the Commissioner will publish a notice in the Federal Register requesting the submission of all information, data, and views relevant to a specific product class for review and evaluation. Any interested person may submit comments and views on any matter relevant to the development of the standard, including the factors required by paragraph (a) of this section, to be considered by the Commissioner. The format for such submission may be determined by the nature of the information to be submitted. Any product performance information submitted shall relate to the performance of that product as marketed or intended for marketing. For information submitted by a manufacturer of a product which will be affected by the standard, the specific product information requested and the format for submission shall be as described below unless changed in the Federal Register notice. The time allotted for submission will ordinarily be 90 days. Four copies of the information and data on any product within the designated class shall be submitted, indexed, and bound.

(1) Name of product class and date of Federal Register statement.

(2) Proprietary name of product.

(3) Name of person responsible for submission.

(4) Intended use or uses of the product.

(5) A statement categorizing the procedure (e.g., qualitative or quantitative).

(6) Copies of label and all other labeling under which product is currently marketed or, for a proposed product, the label and all other labeling under which marketing is intended.

(7) Description of the product, as appropriate: For example, if the product is or includes a reagent, state the proprietary name and established name (common or usual name), if any, and quantity, proportion, or concentration of each reactive, catalytic, or inactive ingredient. If the product is a biological material, list the source and a measure of its activity. Include a statement of any purification or treatment required for use. If the product is or includes an instrument or equipment, describe as appropriate its use or functions, installation procedures and any special requirements, principle of operating instructions, calibration procedures including materials and/or equipment to be used, operation precautions and limitations, hazards, and service and maintenance instructions.

(8) Stability information: A description of, and data derived from, studies of the stability of the product. For any product that requires manipulation (e.g., reconstitution or mixing), stability data shall be described for the reconstituted or mixed product. Describe the means by which the information was developed. The data shall be for the product in the

container in which it is marketed to assure, among other things, that the container is not reactive, additive, or absorptive to an extent that alters the product or its performance. Include any expiration period data which supports any expiration date which appears in the labeling of the product. Describe the storage conditions necessary for the product, such as temperature, light humidity.

(9) Hazards to user: A statement of the principal hazards associated with the product. Include the result of tests conducted to determine the applicability of hazard warnings or cautions, including those established in the regulations contained in Part 191 of this chapter.

(10) History of methodology: A brief history of the methodology, with pertinent references. All references to reports of adverse or unfavorable experience with the product or the procedure on which it is based shall be included. If the product procedure is the same as one which has been published, cite the reference. If the product is based on a modification of a published procedure, cite the reference, state the reason for and the nature of the modification and the effect such modification may have on the results of the procedure as compared to the original. Include data illustrating the comparison of the modified procedure to the original procedure.

(11) Principle of test: An explanation of the test procedure including the chemical, physical, physiological, or biological principle of the procedure with chemical reactions and techniques involved, if applicable.

(12) Specimen collection and preparation: A description of the specimen to be subjected to analysis: (i) Special precautions regarding specimen collections, including special preparation of the patient as it bears on the validity of the test.

(iii) Additives, preservatives, etc., necessary to maintain the integrity of the specimen.

(iii) Known interfering substances and their effect on the procedure and results.

(iv) Appropriate storage, handling or shipping instructions.

(13) Procedure: A detailed, step-by-step description of the test procedure from reception of the specimen to obtaining of results, including any points that may be useful in improving precision and accuracy. Give the exact details of calibration. Identify reference material. Describe preparation of reference sample, use of blanks, etc. Include a description of methods to be used in determining the standard curve.

(14) Results: Explain the procedure for calculating the value of the unknown. Give an explanation of each component of the formula used for the calculation of the unknown. Include a sample calculation, step-by-step, explaining the answer. Values should be expressed to the appropriate number of significant figures. Provide the basis for evaluation of non-quantitative test results.

(15) Limitation of the procedure: Include a statement of the limitations of the procedure and an explanation of extrinsic factors, if any, that may affect the results. Include statements regarding minimum training needed by the user, special precautions, interfering substances, likelihood of obtaining false positive or false negative results, etc. Positive data showing a lack of interference by commonly occurring substances shall be supplied. If a more specific or more sensitive laboratory test is indicated in certain instances, the indication for the additional test shall be stated and data submitted to support its value.

(16) Support of claims: Include all available data, published or unpublished, which supports or is critical of the product or its procedure. Include data for both normal and abnormal subjects and a description of the population or populations studies. State, for each claim: (i) Labeling claim.

(ii) Background documentation: Provide a bibliography and reprints of all pertinent references.

(iii) Procedure used for collecting evidence for claim.

(iv) Description of statistical protocol.

(v) Description of sampling procedure.

(vi) Summary of raw results in tabular form.

(vii) Analysis of results.

(viii) Statement of interpretation of results.

(17) Summary of scientific basis of procedure: A summary of the data and views setting forth the scientific rationale and purpose of the product, and the scientific basis for the conclusion that the product has or has not been proven accurate and reliable for its intended uses. If there is an absence of controlled studies in the material submitted, an explanation as to why such studies are not considered necessary shall be included.

(18) If the submission is by a manufacturer, a statement signed by the person responsible for such submission, that to the best of his knowledge it includes unfavorable information as well as any favorable information, known to him pertinent to an evaluation of the performance of the product. Thus, if any type of scientific data is submitted, a balanced submission of favorable and unfavorable data must be submitted. The same would be true of any other pertinent data or information submitted, such as consumer surveys or marketing results.

(d) Review and evaluation. Any existing standard or petition for a product class standard, together with any information and comments submitted pursuant to a published notice, will be reviewed and evaluated by the Food and Drug Administration in consultation with its advisory committee and the Center for Disease Control.

(e) Proposed product class standard. When the Commissioner has concluded that the criteria in paragraph (a) of this section are met and the information available has been reviewed and found to justify the establishment of a product class standard, he shall publish in the Federal Register a proposed product

class standard establishing conditions under which the products in the class are safe and effective and not adulterated or misbranded. The standard shall include a statement of the performance requirements necessary to assure accuracy and reliability of results, specific labeling requirements for the proper use of the products in the class, and procedures for testing the products to assure satisfactory performance at the time of marketing. The standard may include, where necessary to assure the accuracy and reliability of results, individual lot testing by or at the direction of the Food and Drug Administration, in addition to that normally required of the manufacturer; except that the Commissioner shall exempt any particular product from such a requirement upon a showing that the manufacturer has demonstrated such consistency in the production of that product, in compliance with the regulations, as is adequate to insure the accuracy and reliability of results, and the Commissioner shall revoke the requirement of individual lot testing under the standard when it is no longer necessary to the accuracy and reliability of the results of the product class covered by the standard. Any interested person may, within 60 days after publication of the proposed standard in the Federal Register, file written comments on the proposal, in quintuplicate, with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852. Comments may be accompanied by a memorandum or brief in support thereof. All comments may be reviewed at the Office of the Hearing Clerk during regular working hours, Monday through Friday.

(f) Referral to an independent advisory committee. The Commissioner may, in his discretion, refer a proposal under paragraph (e) of this section to an independent advisory committee of experts qualified in the subject matter at issue, for a report and recommendations with respect to any matter involved in such proposal which involves the exercise of scientific judgment. The Commissioner shall designate the chairman of each panel. The independent advisory committee may consult any person in connection with the matter referred to it. Any interested person may request, in writing, an opportunity to present oral views to the committee. Any interested person may present written data and views which shall be considered by the committee. The full report(s) of the committee and summary minutes of its meetings shall be made available upon request after submission of the report(s) to the Commissioner.

(g) Final product class standard. After reviewing all comments received in response to the proposal and considering all available relevant information, the Food and Drug Administration, in consultation with its advisory committee and the Center for Disease Control, and after consideration of any report of an independent advisory committee if the

matter involved has been so referred, will publish in the *FEDERAL REGISTER* a final order containing a product class standard. This order shall state the reasons for promulgating the product class standard and the date the standard will become effective.

(h) *Petition to amend or repeal standards.* The Commissioner may propose to amend or repeal any standard established pursuant to this procedure or any interested person may petition the Commissioner for such action. A petition shall set forth the action requested and a detailed statement in support of the action. After review of the petition, the Commissioner may deny the petition if he finds a lack of reasonable support or he may publish a proposed amendment of or proposed repeal of the established standard in the *FEDERAL REGISTER* if adequate support has been presented. The petition shall be in the form specified in § 2.65 of this chapter with the number of copies and other information as specified therein. A new drug application submitted for an in vitro diagnostic product which does not comply with an applicable effective product class standard will be considered as a petition to amend the standard. Petitions for repeal or amendment for which reasonable support has been furnished will be handled pursuant to the procedures established in paragraphs (e)-(g) of this section.

**§ 167.4 Confidentiality of submitted information.**

(a) Data and information submitted pursuant to the provisions of § 167.3 or § 167.2(c) and falling within the confidentiality provisions of 18 U.S.C. 1905 or 21 U.S.C. 331(j) shall be treated as confidential by the Food and Drug Administration and any consultant to whom it is referred. Confidentiality of information will be determined in accordance with the provisions of Part 4 of this chapter.

(b) Data and information submitted pursuant to § 167.3 in connection with the establishment, amendment or repeal of a product class standard will be made publicly available at the Office of the

Hearing Clerk of the Food and Drug Administration 30 days after publication of a proposed product class standard, except for the identity of inactive ingredients, any quality control or other manufacturing data or information, or other data and information to the extent that the person submitting it has demonstrated that it falls within the confidentiality provisions of 18 U.S.C. 1905 or 21 U.S.C. 331(j).

**§ 167.5 Court appeal.**

The product class standard promulgated in the final order represents final agency action from which appeal lies to the courts. The Food and Drug Administration will request consolidation of all appeals in a single court. Upon court appeal, the Commissioner, at his discretion, may stay the effective date for part or all of the standard pending appeal and final court adjudication, and may establish a new effective date after final court adjudication.

**§ 167.6 Regulatory action.**

Any in vitro diagnostic product is subject to regulatory action if it fails to conform to an applicable product class standard or the general labeling requirements of § 167.2. If the product is a device, it is adulterated in violation of section 501 and it is misbranded in violation of section 502 of the act. If the product is a drug, it is in violation of section 505 as well as sections 501 and 502 of the act. If the product is a biological, it is in violation of sections 501, 502, and 505 of the Federal Food, Drug, and Cosmetic Act and section 351 of the Public Health Service Act. Deviations from an established standard may be justified only by an amendment to the standard. Compliance with this part shall be deemed to constitute compliance with the labeling and new drug requirements of the act and with the labeling and licensing requirements of section 351 of the Public Health Service Act, unless the Commissioner otherwise informs the manufacturer or distributor of an in vitro diagnostic product of additional requirements imposed pursuant to either statute in order to protect the public health.

**§ 167.7 General requirements for manufacturers and producers of in vitro diagnostic products.**

(a) *Registration and product listing.* Any person who owns or operates any establishment engaged in the manufacture, preparation, compounding, or processing of an in vitro diagnostic product should register such establishment and list such product(s) in accordance with the procedures established under Part 132 of this chapter. Any such establishment not currently registered should register within 30 days of the effective date of this regulation. Any such establishment currently registered as a drug establishment shall at the next period for reregistration use the appropriate registration form indicating that it is a producer of in vitro diagnostic products. Registration forms may be obtained from the Department of Health, Education, and Welfare, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852, or at any Food and Drug Administration district office. Registration and listing do not constitute an admission or agreement or determination that a product is a "drug" within the meaning of section 201(g) of the act.

(b) *Compliance with good manufacturing practices.* In vitro diagnostic products shall be manufactured in accordance with current good manufacturing practices. The principles established in Part 133 of this chapter, "Drugs; Current Good Manufacturing Practice in Manufacturing Processing, Packing, or Holding", should be followed as a guideline.

*Effective date.* This order shall be effective on March 15, 1973, except that § 167.2 (a), (b), and (d) shall be effective on March 15, 1974, and § 167.2(c) shall be effective on September 17, 1973.

(Secs. 201, 501, 502, 505, 508, 510, 701; 52 Stat. 1040-1042, as amended, 1049-1051, as amended, 1053, as amended, 1055, as amended, 1056, as amended; 21 U.S.C. 321, 351, 352, 355, 358, 360, 371)

Dated: March 12, 1973.

CHARLES C. EDWARDS,  
Commissioner of Food and Drugs.

Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$2.50 per month or \$25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

## List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

### Title 3—The President

PROCLAMATION 4198

## National Action for Foster Children Week, 1973

*By the President of the United States of America*

### A Proclamation

In today's rapidly changing, highly mobile society, more children than ever find themselves temporarily, or even permanently, separated from their parents. Such children may carry lasting emotional scars unless they can be placed in a stable family environment where they can feel loved and secure.

In the past year alone, more than 300,000 American children were living in foster homes. It is gratifying that so many Americans are working to help foster children. They include not only professionals in the child welfare field but hundreds of volunteers—businessmen, church and community leaders, and members of civic groups—all dedicated to the principle that none of our children should be deprived or neglected.

In recognition of these efforts, I am asking the Nation to set aside a week during which we can assess the needs of foster children, encourage States and communities to plan activities which will help meet those needs, and renew our determination to assure foster children that we care about them and their well-being.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week of April 8 through April 14, 1973, as National Action for Foster Children Week, 1973.

I urge Governors and Mayors to join me in proclaiming this observance, and I earnestly call upon citizens everywhere to volunteer their talents, energies and compassion in behalf of foster children, so that they may enjoy the sound development that comes from a full and happy family life.

IN WITNESS WHEREOF, I have hereunto set my hand this 14th day of March, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-seventh.

## PROCLAMATION 4199

National Employ the Older  
Worker Week*By the President of the United States of America*

## A Proclamation

The employment of men and women who are 45 years of age and over is an important objective—not only for those directly involved, but for our entire country. For their energies, their talents, and their experience are a national resource of tremendous value which is not now being fully utilized.

There are many barriers hampering middle-aged and older Americans in continuing as productive and useful participants in the society and in the work force. This Administration is committed to overcoming these barriers.

In an expanding economy such as ours the single most effective response to the employment problems of older workers will come from the understanding and voluntary cooperation of employers in both the private and public sectors.

To encourage such cooperative efforts, the Congress, by House Joint Resolution 334, has requested the President to issue a proclamation designating the second full calendar week in March of 1973 as National Employ the Older Worker Week.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week beginning March 11, 1973, as National Employ the Older Worker Week. I am pleased to join with the Congress in urging all employers to consider the skills and qualifications of those men and women 45 years of age and older who are unemployed or underemployed and who are able and willing to work.

I am also asking the Secretary of Labor to see to it that those public officials at national, State, and local levels who provide job placement, counseling, training, and retraining services accelerate their efforts to help older workers to find suitable jobs and training opportunities. We must not only concentrate on these efforts during this week but sustain them at high level throughout the year.

IN WITNESS WHEREOF, I have hereunto set my hand this fifteenth day of March, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-seventh.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 9—Animals and Animal Products  
CHAPTER I—ANIMAL AND PLANT HEALTH  
INSPECTION SERVICE, DEPARTMENT  
OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 78—BRUCELLOSIS  
Subpart D—Designation of Modified Certified Brucellosis Areas, Public Stockyards, Specifically Approved Stockyards, and Slaughtering Establishments

MODIFIED CERTIFIED BRUCELLOSIS AREAS

These amendments delete the following areas from the list of areas designated as Modified Certified Brucellosis Areas because it has been determined that such areas no longer come within the definition of § 78.1 (1) : Clarke County in Iowa, and Lubbock and McMullen Counties in Texas.

The following counties were deleted from the list of Modified Certified Brucellosis Areas on February 10, 1973: Humboldt, Jackson, and Linn Counties in Iowa; Bourbon and Chase Counties in Kansas; Creek County in Oklahoma; and Denton, Freestone, Harrison, Kaufman, Navarro, and Wood Counties in Texas. Since said date, it has been determined that these counties again come within the definition of § 78.1 (1) ; and, therefore, they have been redesignated as Modified Certified Brucellosis Areas.

Therefore, pursuant to § 78.16 of the regulations in Part 78, as amended, Title 9, Code of Federal Regulations, containing restrictions on the interstate movement of animals because of brucellosis, under sections 4, 5, and 13 of the Act of May 29, 1884, as amended; sections 1 and 2 of the Act of February 2, 1903, as amended; and section 3 of the Act of March 3, 1905, as amended (21 U.S.C. 111-113, 114a-1, 120, 121, 125), § 78.13 of said regulations designating Modified Certified Brucellosis Areas is hereby amended to read as follows:

§ 78.13 Modified Certified Brucellosis Areas.

The following States, or specified portions thereof, are hereby designated as Modified Certified Brucellosis Areas:

- Alabama. The entire State;
- Alaska. The entire State;
- Arizona. The entire State;
- Arkansas. The entire State;
- California. The entire State;
- Colorado. The entire State;
- Connecticut. The entire State;

(Secs. 4, 5, 23 Stat. 32, as amended; sec. 1, 2, 32 Stat. 791-793, as amended; sec. 2, 65 Stat. 1265, as amended; sec. 2, 65 Stat. 693; 21 U.S.C. 111-113, 114a-1, 120, 121, 125; 37 FR 28464, 28477, 9 CFR 75.16(a))

**Effective date.** The foregoing amendments shall become effective March 16, 1973.

These amendments impose certain restrictions necessary to prevent the spread of brucellosis in cattle and relieve certain restrictions presently imposed. It should be made effective promptly in order to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to these amendments are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making these amendments effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 12th day of March 1973.

E. E. SAULMAN,  
Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.73-5082 Filed 3-15-73; 8:45 am]

#### Title 14—Aeronautics and Space CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 73-SW-3]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Designation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate the El Campo, Tex., transition area.

On January 24, 1973, a notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 2335) stating the Federal Aviation Administration proposed to designate a transition area at El Campo, Tex.

## RULES AND REGULATIONS

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.M.T., May 24, 1973, as hereinafter set forth.

In § 71.181 (38 FR 435), the following transition area is added:

##### EL CAMPO, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the El Campo Airpark (latitude 29°16'00" N., longitude 96°19'30" W.).

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Fort Worth, Tex., on March 6, 1973.

R. V. REYNOLDS,  
Acting Director, Southwest Region.

[FR Doc.73-5069 Filed 3-15-73; 8:45 am]

##### SUBCHAPTER A—INTRODUCTION

[Docket No. R-73-210]

##### PART 300—GENERAL

##### List of Attorneys-in-Fact

Paragraph (c) of § 300.11 is amended to add additional names to the list of attorneys-in-fact authorized to act on behalf of the Association and to remove one name from the current list.

Notice and public procedure on this amendment are unnecessary and impracticable because of the large volume of legal documents that must be executed on behalf of the Association in connection with its recent auctions of mortgages.

1. Paragraph (c) of § 300.11 is amended by deleting the name of Sam Pampaloni from the current list of attorneys-in-fact.

2. Paragraph (c) of § 300.11 is further amended by adding the following names in alphabetical sequence to the current list of attorneys-in-fact:

Name	Region
Robert E. Allen	Los Angeles.
Angelina C. Alleva	Philadelphia.
Irene S. Baggio	Do.
Donald N. Bailey	Chicago.
Thomas H. Barker	Los Angeles.
Inman L. Beavers	Atlanta.

**Effective date.** This amendment shall be effective on March 16, 1973.

WOODWARD KINGMAN,  
President, Government National Mortgage Association.

[FR Doc.73-5079 Filed 3-15-73; 8:45 am]

#### Title 29—Labor CHAPTER V—WAGE AND HOUR DIVISION, DEPARTMENT OF LABOR PART 516—RECORDS TO BE KEPT BY EMPLOYERS

##### Executive, Administrative, Professional and Outside Salesmen; Records To Be Kept

The Fair Labor Standards Act of 1938, as amended (29 U.S.C. 201 et seq.), in its section 13(a)(1) exempts from the minimum wage and overtime provisions persons employed in a bona fide executive, administrative or professional capacity (including employees employed in the capacity of academic administrative personnel or teachers in elementary or secondary schools), or in the capacity of outside salesmen. The Fair Labor Standards Act of 1938, as amended, was further amended by Public Law 92-318, Education Amendments of 1972, 86 Stat. 375, approved June 23, 1972 (effective July 1, 1972). Among other things, this legislation amended section 13(a)(1) by extending the application of the Act's equal pay provisions, prescribed in its section 6(d), to employees employed in a bona fide executive, administrative, or professional capacity, or in the capacity of outside salesmen, as defined in Part 541 of this chapter, even though such employees are otherwise exempt from the Act's minimum wage and overtime pay provisions.

Amendments are hereby made to 29 CFR Part 516 as set forth below in order to conform the recordkeeping requirements under the Act to the amended section 13(a)(1) and to require the making and preserving of the records which are appropriate for the enforcement of the equal pay provisions in the case of persons whose employment is within the purview of both sections 6(d) and 13(a)(1) of the Act.

Since these amendments implement amendments to the Act which are already in effect and are necessary in discharging the Department's responsibility for its enforcement, I find that notice

and public procedure on these amendments as provided in 5 U.S.C. 553 would be contrary to the public interest. These amendments shall, therefore, be effective on April 2, 1973, and shall be applicable, to the extent consistent with law from such date. Interested persons shall, notwithstanding, be afforded opportunity until April 16, 1973, to present any written data, views, or arguments concerning these amendments to the Employment Standards Administration, U.S. Department of Labor, Washington, D.C. 20210, for consideration in the same manner as if such amendments were being proposed for adoption. If upon review of the comments so received it is concluded that any of them warrant changes in these amendments as adopted, the provisions of these amendments will be further amended accordingly. Meanwhile, these amendments shall remain in full force and effect until amended.

Therefore, pursuant to the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004) and Secretary's Orders Nos. 13-71 and 15-71 (36 FR 8755, 8756), § 516.3 of Part 516 of Title 29, Code of Federal Regulations, is revised to read as follows:

§ 516.3 Bona fide executive, administrative, and professional employees (including academic administrative personnel and teachers in elementary or secondary schools), and outside sales employees as referred to in section 13(a)(1) of the Act—items required.

With respect to persons employed in a bona fide executive, administrative, or professional capacity (including employees employed in the capacity of academic administrative personnel or teachers in elementary or secondary schools), or in the capacity of outside salesmen, as defined in Part 541 of this chapter (pertaining to so-called "white collar" employee exemptions), employers shall maintain and preserve records containing all the information and data required by § 516.2(a) except subparagraphs (6) through (10) thereof, and, in addition thereto the basis on which wages are paid in sufficient detail to permit calculation for each pay period of the employee's total remuneration for employment including fringe benefits and perquisites. (This may be shown as "\$725 mo. . . . \$165 wk. . . . \$1,200 mo. plus 2 percent commission on gross sales . . . on fee basis per schedule No. 2" with appropriate addenda such as "plus hospitalization and insurance plan A," "benefit package B," "2 weeks' paid vacation," etc.)

## RULES AND REGULATIONS

Signed at Washington, D.C., this 9th day of March 1973.

BEN P. ROBERTSON,  
Acting Administrator.

[FR Doc.73-5087 Filed 3-15-73; 8:45 am]

#### Title 33—Navigation and Navigable Waters

##### CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION [CGD 73-8R]

##### PART 117—DRAWBRIDGE OPERATION REGULATIONS

##### Escatawpa and Pascagoula Rivers, Miss.

This amendment changes the regulations for the Mississippi State Highway 63 bridge across the Escatawpa River and the U.S. 90 Highway bridge across the Pascagoula River to permit additional periods in which the draws of these bridges need not be opened for the passage of vessels. This amendment was circulated as a public notice dated January 22, 1973, by the Commandant, Eighth Coast Guard District and was published in the FEDERAL REGISTER as a notice of proposed rule making (CGD 73-8P) on January 15, 1973 (38 FR 1510). Two comments were received. One supported the proposal and one opposed it on the grounds that a high level bridge should be built to provide for vessel passages at all times. The Coast Guard feels that these amended regulations will provide for the reasonable needs of navigation. If additional data justifies further amendments, such action will be taken at that time.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations, be amended by:

1. Revising § 117.485 to read as follows:

§ 117.485 Escatawpa River, Miss.; Mississippi State Highway 63 Bridge; mile 1.0.

The draw need not be opened for the passage of vessels, from 6 a.m. to 6:45 a.m., 7 a.m. to 7:30 a.m., 3:25 p.m. to 4 p.m., and 4:15 p.m. to 5 p.m., Monday through Friday, except on national holidays, when the draw shall open promptly on signal. At all other times the draw shall open promptly on signal.

2. Revising § 117.495 to read as follows:

§ 117.495 Pascagoula River at Pascagoula, Miss.; U.S. 90 Highway Bridge.

The draw need not be opened for the passage of vessels from 6:15 a.m. to 7:15 a.m., 7:25 a.m. to 8 a.m., 3:15 p.m. to 4:15 p.m., and 4:30 p.m. to 5:30 p.m., Monday through Friday, except on national holidays when the draw shall open promptly on signal. At all other times the draw shall open promptly on signal.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g) (2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g) (2); 49 CFR 146(c) (5), 33 CFR 1.05-1(c) (4))

**Effective date.** This revision shall become effective on April 23, 1973.

Dated: March 12, 1973.

W. M. BENKERT,  
Rear Admiral, U.S. Coast Guard,  
Chief, Office of Marine Environment and Systems.

#### Title 5—Administrative Personnel CHAPTER I—CIVIL SERVICE COMMISSION PART 550—PAY ADMINISTRATION (GENERAL)

Appendix A to Subpart I of Part 550 is amended by adding a new item (8), "Working on a drifting sea ice floe," under the duty "Exposure to Hazardous Weather or Terrain," to provide for paying a hazard differential for work performed out on sea ice.

The amendment, which is effective on the date shown in the schedule, reads as follows:

APPENDIX A  
SCHEDULE OF PAY DIFFERENTIALS AUTHORIZED FOR IRREGULAR OR INTERMITTENT HAZARDOUS DUTY UNDER SUBPART I  
Hazard Pay Differential, of Part 550 Pay Administration (General)

Irregular or intermittent duty	Rate of hazard pay differential	Effective date
Exposure to Hazardous Weather or Terrain:	...	...
(8) Working on a drifting sea ice floe. When the job requires that the work be performed out on sea ice, e.g., installing scientific instruments and making observations for research purposes.	25%	First pay period beginning after March 16, 1973.

(6 U.S.C. 5596, E.O. 11257; 5 CFR 1964-65 Comp., p. 357)

**Title 41—Public Contracts and Property Management**

**CHAPTER 114—DEPARTMENT OF THE INTERIOR**

**PART 114-50—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES**

**Miscellaneous Amendments**

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 and section 213 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Part 114-50, Title 41 of the Code of Federal Regulations (38 FR 3965, Feb. 9, 1973), is amended as set forth below.

Since these amendments simply correct minor discrepancies in the text, it is determined that the public rule making procedure is unnecessary and these amendments shall become effective on March 16, 1973.

**RICHARD R. HITE,**  
Deputy Assistant  
Secretary of the Interior.

MARCH 9, 1973.

**Subpart 114-50.1—General**

1. Section 114-50.100 is revised to read as follows:

**§ 114-50.100 Purpose.**

These regulations prescribe policies and procedures to insure the fair, equitable, and uniform treatment of persons displaced by Federal and federally assisted programs. They implement the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, hereinafter referred to as the Act, and Office of Management and Budget Circular No. A-103. All references in these regulations to sections or subsections are references to sections or subsections of the Act.

2. Section 114-50.105(a) is revised to read as follows:

**§ 114-50.105 Eligibility requirements.**

(a) The person must have moved (or moved his personal property) as a result of the receipt of a written notice to vacate which notice may have been given before or after initiation of negotiations for acquisition of the property; or

**Subpart 114-50.2—Definitions**

3. Section 114-50.201(e) (5) is revised to read as follows:

**§ 114-50.201 Definition of terms.**

(e) \*\*\*

(5) *Occupancy standards.* Occupancy standards for replacement housing shall comply with Bureau or Office approved occupancy requirements or comply with local codes.

**Subpart 114-50.3—Uniform Real Property Acquisition Policy**

4. Section 114-50.311(c) is revised to read as follows:

**RULES AND REGULATIONS**

**§ 113-50.311 Notice to occupants upon initiation of negotiations.**

(c) *Tenants of 90 days or more.* Within 15 days after the initiation of negotiations for the purchase or real property, each tenant of 90 days or more shall be personally contacted and furnished in writing:

**Subpart 114-50.4—Relocation Assistance Advisory Services**

5. Section 114-50.407-3 is revised to read as follows:

**§ 114-50.407-3 Relocation services—federally assisted programs.**

State agencies receiving Federal financial assistance on a project may enter into agreements or contracts for the provision of relocation services in accordance with this Subpart 114-50.4. When a State agency elects to contract for these services, the Bureau or Office providing the Federal financial assistance shall take such action as is necessary to insure that the contract will facilitate a uniform and effective relocation program for the displaced persons. Any such contract shall include the following provisions, as a minimum:

6. Section 114-50.407-3(b) is revised to read as follows:

**§ 114-50.407-3 Relocation services—federally assisted programs.**

(b) That records pertinent to the contract will be retained by the State agency for a period of at least 3 years and shall be available for examination by representatives of the Bureau or Office;

**Subpart 114-50.5—Assurance of Adequate Replacement Housing Prior to Displacement**

7. Section 114-50.501 is revised to read as follows:

**§ 114-50.501 Housing provided as last resort.**

In any case where the survey and analysis of available replacement housing required by § 114-50.500 discloses that adequate replacement housing is not available and cannot otherwise be made available, the head of the Bureau or Office may take action or approve action by a State agency to develop replacement housing as authorized by section 206(a) of the Act. Bureaus and Offices taking or approving such action for replacement housing will be guided by the criteria and procedures issued by the Secretary of Housing and Urban Development in 24 CFR Subtitle A, Part 43, Subpart A. A State agency taking such action should comply with the requirements and procedures of the Bureau or Office which provides the Federal financial assistance.

**Subpart 114-50.9—Replacement Housing Payments for Tenants and Certain Others**

8. Section 114-50.906(b) is revised to read as follows:

**§ 114-50.906 Disbursement of rental replacement housing differential payment.**

(b) Rental replacement housing payments of \$500 or less shall be made in one lump sum at the beginning of occupancy of the replacement dwelling. Bureaus and Offices need not thereafter determine whether the displacee continues to occupy decent, safe, and sanitary housing.

**RULES AND REGULATIONS**

**CHAPTER X—OFFICE OF ECONOMIC OPPORTUNITY**

**PART 1069—COMMUNITY ACTION PROGRAM GRANTEE PERSONNEL MANAGEMENT**

**Subpart—Travel Regulations for CAP Grantees and Delegate Agencies (OEO Instruction 6910-1)**

Notice is hereby given that the regulation set forth below is promulgated as an interim regulation by the Acting Director of the Office of Economic Opportunity. As a result of the prospective delegation of certain programs to other Federal departments, prospective funding changes, and changes in the management and administration of certain programs, the Office of Economic Opportunity has been required to institute emergency guidelines and instructions in advance of 30-day prior notice in the FEDERAL REGISTER. Accordingly, the regulation published below is effective on the date indicated therein. Moreover, in view of the nature of the problems which this regulation is designed to remedy, having been advised by counsel, I find that to publish them in the FEDERAL REGISTER 30 days prior to its effective date would be impracticable and contrary to the public interest.

The regulation below will remain in effect unless and until superseded by permanent regulations published in the FEDERAL REGISTER. Interested persons wishing to comment before permanent regulations are promulgated may submit written data, views, and comments by mailing them to the Acting Director, Policy Regulation, Office of Program Review, Office of Economic Opportunity, 1200 19th Street NW., Washington, DC 20506, in time to arrive on or before April 15, 1973.

After careful consideration is given to all relevant material submitted, and to such other information as may be available, the Acting Director of OEO may modify this interim regulation as he deems appropriate and publish it as a permanent regulation in the FEDERAL REGISTER.

Subpart 1069.3 of Chapter X of Title 45 of the Code of Federal Regulations is amended as follows:

1. Section 1069.3-5 is revised, as follows:

**§ 1069.3-5 Restrictions on charging out-of-the-community travel costs to grant funds.**

(a) Grantees may only use OEO grant funds to reimburse out-of-the-community travel costs incurred by the grantee and/or delegate agency employees, consultants, and members of governing or administering boards after receipt of prior written approval for such out-of-the-community travel from the Principal Assistant to the Director for Operational Activities or his designee.

(b) This restriction shall not apply to legal services attorneys who must travel

out of the community to attend a court session or conduct necessary interviews of witnesses or take depositions of necessary witnesses in connection with a pending or proposed legal proceeding arising within the community. Travel by legal services attorneys for activities other than the above must have the prior written approval of the Director of Legal Services or his designee.

2. Section 1069.3-6 is revised, as follows:

**§ 1069.3-6 Approval of travel outside the continental United States.**

(a) All travel outside the limits of the 48 continental United States must be approved in advance, in writing, by the Principal Assistant Director for Operational Activities or his designee.

(b) Similar approval is required for travel within the continental United States by CAP grantees in Alaska, Hawaii, and the U.S. Territories.

*Effective date.* The sections of this subpart are effective on March 16, 1973.

**HOWARD PHILLIPS,**  
Acting Director.

[General Order 75, 2d Rev., Amdt. 30]

**PART 308—WAR RISK INSURANCE**

**Interim Binders; Correction**

In FR Doc. 72-16461, appearing in the FEDERAL REGISTER issue of September 26, 1972 (37 FR 20117) Part 308 was amended to reflect the following changes:

Amend §§ 308.6 *Period of interim binders and renewal procedure*, 308.106 *Standard form of war risk hull insurance interim binder and optional disbursement insurance endorsement*, 308.206 *Standard form of war risk protection and indemnity insurance interim binder*, and 308.305 *Standard form of Second Seamen's war risk insurance interim binder*, by changing the expiration dates contained therein to read "midnight April 7, 1973, G.m.t."

The same is hereby further amended by changing the expiration dates contained therein to read "midnight October 7, 1973, G.m.t."

(Sec. 204, 49 Stat. 1987, as amended; 46 U.S.C. 1114)

Dated: March 12, 1973.

By order of the Assistant Secretary of Commerce for Maritime Affairs.

**JAMES S. DAWSON, Jr.,**  
Secretary.

Title 47—Telecommunication  
CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION  
[FCC 73-250]

PART 0—COMMISSION ORGANIZATION  
Delegation of Authority to Chief, Field Engineering Bureau

Order. In the matter of amendment of § 0.311 of the Commission's rules relating to authority delegated to Chief, Field Engineering Bureau.

1. Allen pilots and flight crewmembers continuously seek waivers of the citizenship requirements of section 303(1) of the Communications Act and the geographic restriction requirements of § 13.4(c) of the rules in order to obtain restricted radiotelephone operator permits. Pursuant to § 13.11(c) such applications must be signed by individual applicants.

2. Foreign airlines have recently begun to submit applications on behalf of their pilots for whom waiver of the Rules are sought and restricted permits requested. In each instance the appropriate form and fee is submitted for each individual named and an assurance made that the named permittee will sign the permit individually immediately upon receipt. The permit in any event is not valid until so signed.

3. The Chief and Deputy Chief, Field Engineering Bureau, are delegated the authority to grant the waiver requests of section 303(1) of the Act and § 13.4(c) of the rules, pursuant to § 0.311(a) (9) and (11) of the rules.

4. The Commission believes that an extension of this delegated authority to permit the granting of waiver of the individual applicant's signature requirement of § 13.11(c) by the Chief and Deputy Chief, Field Engineering Bureau, would support the handling of the existing delegation and assist in the orderly and expeditious handling of the Commission business.

5. This amendment relates to the internal Commission organization, and hence, the prior notice, procedure, and effective date provisions of the Administrative Procedure Act are not applicable. Authority for the promulgation of these amendments is contained in section 4(d) and 5 (b) and (d) of the Communications Act of 1934, as amended.

6. Accordingly, it is ordered, Effective March 21, 1973, that § 0.311(a) of the rules is amended by deleting subparagraph (10) (presently reserved) and substituting the following new § 0.311 (a) (10):

§ 0.311 Authority delegated to the Chief and to the Deputy Chief of the Field Engineering Bureau.

(a) . . .

(10) To act on requests for waiver of the individual signature requirement in § 13.11(c) of this chapter on applications for commercial operator permits and licenses.

. . . . .

RULES AND REGULATIONS

(Secs. 4, 5, 303, 46 Stat., as amended, 1066, 1068, 1062; 47 U.S.C. 154, 155, 303)

Adopted: March 7, 1973.

Released: March 12, 1973.

FEDERAL COMMUNICATIONS COMMISSION,  
[SEAL] BEN F. WAPLE,  
Secretary.

[FR Doc. 73-5096 Filed 3-15-73; 8:45 am]

[Docket No. 19512; FCC 73-262]

PART 73—RADIO BROADCAST SERVICES  
FM Broadcast Stations in Adrian, Mich. and West Lafayette, Ind.

Second report and order. In the matter of amendment of § 73.202, Table of assignments, FM broadcast stations (Adrian, Mich., and West Lafayette, Ind.), Docket No. 19512, RM-1820, RM-1822.

1. The Commission has before it for consideration the FM channel assignment proposal, RM-1822, West Lafayette, Ind., remaining for disposition in this proceeding, instituted by notice of proposed rule making, released on May 23, 1972 (FCC 72-430, 37 FR 10579). Previously, one proposal, RM-1791, Winchendon, Mass., was severed from this proceeding and consolidated into Docket No. 19540 by Order, released July 11, 1972 (FCC 72-604). The other proposal, RM-1820, Adrian, Mich., was disposed of by the First Report and Order, released herein on November 13, 1972 (FCC 72-997, 37 FCC 2d 1021).

2. West Lafayette proposal.<sup>1</sup> The petitioner, Thomas Jurek, proposes the assignment of FM Channel 280A to West Lafayette, Ind. (population, 19,157), for a first FM assignment for which he can apply. West Lafayette is located in west-central Illinois, adjoining the larger community of Lafayette, Ind. (population, 44,955), on the west, separated only by the Wabash River and connected by bridges. Both communities are in Tippecanoe County (population, 109,378), in the same standard metropolitan statistical area (coextensive with Tippecanoe County), and in the same urbanized area (population, 79,117). While without an FM assignment or outlet, West Lafayette has an AM broadcast outlet, an unlimited-time AM educational operation (WBAA), licensed to Purdue University. It is also served by the Lafayette AM and FM broadcast stations. These number two commercial AM stations, one of which is an unlimited-time operation (WASK) and the other (WAZY), a daytime-only operation; three commercial FM stations, two of which operate on class A channels (WAZY-FM and WKUS), and the other, on a class B channel (WASK-FM); and an educational FM station (WJJE), operating on an educational channel assignment

<sup>1</sup> Commissioner Reid absent.

<sup>2</sup> Population figures are from the 1970 U.S. Census reports unless otherwise specified.

(220A). Station WLFJ-TV at Lafayette also serves West Lafayette.

3. Comments supporting his West Lafayette Channel 280A proposal were filed by Jurek. Comments opposing the proposal were filed by Lafayette Broadcasting, Inc. (Lafayette Broadcasting), licensee of Stations WASK-(AM) and WASK-FM; by Tiprad Broadcasting Co., Inc. (Tiprad), licensee of FM Station WKUS; and by WCVL, Inc., licensee of Station WCVL, an unlimited-time AM broadcast station, at Crawfordsville, Ind. Reply comments were filed by Jurek and the two opposing Lafayette licensees.<sup>2</sup>

4. Crawfordsville, Ind., counterproposal. The WCVL comments also included a counterproposal, proposing the assignment of Channel 280A to Crawfordsville, Ind., instead of to West Lafayette. Crawfordsville (population, 13,842) is located about 27 miles south of West Lafayette in Montgomery County (population, 33,930). In addition to WCVL's AM station (WCVL), Crawfordsville has one FM outlet, Station WNDY, which operates on Channel 292A, the only FM channel assigned to Crawfordsville and in Montgomery County. This station is licensed to Wabash College Radio, Inc., described by the licensee in its license file as an "Indiana not-for-profit corporation organized for the purpose of owning and operating a radio station as a facility which will provide training for college students." The opposing Lafayette licensees also support adoption of this alternative Channel 280A assignment proposal.

5. Channel 280A can be assigned to West Lafayette in conformance with all minimum mileage separation requirements without any change in other channel assignments and without adverse preclusionary effect on new adjacent channel assignments. As noted in the rule making notice on the proposal, however, a West Lafayette Channel 280A assignment would foreclose assignment of Channel 280A to Crawfordsville or to any one of three other communities in this area of Indiana (Logansport, Frankford

<sup>3</sup> A letter opposing the use of Channel 280A at West Lafayette was also received from Charles L. Brown of West Lafayette. His opposition stems from probable interference from a West Lafayette Channel 280A station to reception in the West Lafayette area of Station WFIU, which operates on class B Channel 27B at Bloomington, Ind., located some 90 miles south of West Lafayette. Since the normal service contour of class B FM stations which the Commission's rules recognize in the assignment of channels extends no more than approximately 35 miles, this consideration would not be a basis for not making the proposed Channel 280A assignment at West Lafayette. (It is noted also that since Bloomington is located in the same general direction as Crawfordsville, and the signal from a Crawfordsville station would be much stronger than that of the Bloomington Station (WFIU), the alternatively proposed assignment of Channel 280A to Crawfordsville would also be likely to cause interference to reception of the Bloomington FM station in the West Lafayette area.)

or Delphi). Logansport (population, 19,255) has one AM broadcast station (WSAL) and two FM channels assigned (Channel 272A, occupied by Station (WSAL-FM, and Channel 237A, occupied by Station WVTL at nearby Monticello). Frankford (population, 14,956) has one AM broadcast station (WILQ) also and one FM channel (259) assigned, occupied by Station WILQ-FM. Delphi (population, 2,582) is without an FM assignment or aural broadcast outlet. Other available FM channel assignment possibilities in this area appear nonexistent, and an opportunity was afforded in this proceeding for comparative consideration of any Channel 280A assignment proposals submitted for these communities with that for West Lafayette. Only one for Crawfordsville was submitted, and since this record evidences present demand and interest in assignment and use of Channel 280A only at West Lafayette or Crawfordsville, and there appear no public interest reasons for preferring the other three communities where Channel 280A could be assigned, considering their size and existing assignments and stations, we think it justifiable to narrow our consideration to West Lafayette or Crawfordsville for the requested Channel 280A assignment.

6. In support of his West Lafayette Channel 280A proposal, Jurek stresses in his comments, as he did in his prior showing, that West Lafayette, although contiguous to the larger community of Lafayette, is not a suburb of Lafayette but an independent "sister" city. To indicate that West Lafayette is an independent city of sufficient significance to warrant a first local FM outlet of its own, he points out that it has a completely separate and independent city government, its own police and fire department, schools, public library and 25 churches. He also points out that Purdue University, with 37,000 enrolled students, of which about 25,000 study at the West Lafayette campus, is situated in West Lafayette, as are a number of growing industries, such as Centralab Electronics, CTS Corp., Lafayette Pharmacal, Lafayette Pipe Co., and Warren Industrial Aggregates Corp. In addition he offers statistics to show that the per capita income in West Lafayette is higher than in Lafayette and that the population growth trend is greater in West Lafayette than in Lafayette. He bases this on the fact that between 1960 and 1970 West Lafayette increased from 12,680 to 19,157 in population (a 51-percent increase) whereas Lafayette increased from 42,330 to 44,955 (a 6-percent increase) in population.

7. Jurek affirms that if Channel 280A is assigned to West Lafayette, he will apply for the channel and, if authorized, build and operate on it. He urges that because of the importance of West Lafayette as a University Center, it is a "natural" place for an FM station and that an FM station there stands a much better chance for success than in some small rural community. He states that, if authorized to operate on Channel 280A at West Lafayette, he will install stereophonic trans-

RULES AND REGULATIONS

mission equipment and provide an entertainment service compatible with the "hi fi" equipment commonly used in the academic community without neglecting the public affairs, instructional, news, and other listening tastes of the community as a whole.

8. WCVL, in opposition to the Jurek West Lafayette Channel 280A proposal and in support of its alternative Crawfordsville Channel 280A proposal, contends that while West Lafayette is technically an independent community, the fact remains that it and Lafayette are part of the same urbanized area and the same standard metropolitan statistical area; form a single radio market, and, for all practical purposes, are a single metropolitan area whose two principal parts are connected by three bridges. Since there are two AM stations at Lafayette, and another AM station at West Lafayette, as well as three commercial FM stations at Lafayette (also an FM educational station), it urges that the needs of Crawfordsville for the channel are more compelling than those of West Lafayette since it has only two local stations (Station WCVL, its AM operation, and FM station WNDY, licensed to Wabash College Radio, Inc., which operates commercially on Channel 292A), neither of which, it asserts, is able at the present time to meet all of the needs of the residents of the Crawfordsville area.

9. In support of this position, WCVL avers that Station WNDY is not a full-time FM station in any real sense and does not fully meet Crawfordsville's needs for local FM service since it normally is not in operation during the summer months. It notes that in 1972 Station WNDY suspended operation on April 30 and was not scheduled to resume operation until the opening of college in the fall.<sup>4</sup> WCVL also points out that its unlimited-time AM station at Crawfordsville, which operates with 250 watts power and is required to use a directional antenna at night, is severely restricted in coverage and cannot fully satisfy the needs of the area normally associated with Crawfordsville. The situation, it claims, is especially disturbing in the early morning when there is a public need for school information and up-to-the-minute information about severe weather conditions. Because of the restricted nighttime coverage of its AM station, it states that many of the station's daytime listeners are deprived of its nighttime sports and other program services. WCVL estimates that almost half of the more than 33,000 people in

<sup>4</sup> Our records show that Station WNDY requested permission to remain silent for that period, giving as reasons therefore, that, due to the fact that the station is operated by Wabash College students, there would be insufficient personnel available to maintain operation during that period; that the station's engineer would be leaving the area for the summer; and that the station could not afford to hire personnel over the summer. Permission to suspend operation of Station WNDY from Apr. 30, 1972, through summer vacation was granted on Apr. 12, 1972.

Crawfordsville's home county (Montgomery) are without adequate broadcast service, and it avers that, if Crawfordsville is assigned Channel 280A, it will promptly file an application for use of the channel to provide such service.

10. The Lafayette licensees, Lafayette Broadcasting and Tiprad, essentially oppose the West Lafayette Channel 280A proposal on grounds that Lafayette and West Lafayette are one market and should be so considered in making a fair, efficient, and a just assignment of FM frequencies pursuant to section 307(b) of the Communications Act; that both Lafayette and West Lafayette are more than adequately served by existing AM and FM commercial and educational stations in this market; that there is no need for another FM station in this market area to serve any unserved needs or interests of West Lafayette; and that the economic impact of an additional FM station in the market would adversely affect the existing FM stations serving the area. Tiprad claims that the petitioner's request is nothing more than an attempt to secure an additional channel for the Greater Lafayette Area without regard to its effect on the other local broadcast media, the needs or interests of West Lafayette, or the inability of West Lafayette to support a station. Lafayette Broadcasting urges that it is not efficient procedure to make an assignment to a small town in a metropolitan area, and then at the application stage to decide that the 307(b) mandate requires a showing on whether the small town has programing needs distinct and different from those of the larger city; whether the program needs of the small town are being met by the existing station, and whether there is financial support for the proposed station available in the small town. "Berwick Broadcasting Corporation," 20 F.C.C. 2d 393 (1969). It is submitted that before assigning an FM channel to West Lafayette, the Commission should consider whether better use might be made of the channel in another locality, especially in view of the scarcity of FM channels in this area of Indiana. In their reply comments, both of the Lafayette licensees support the WCVL counterproposal to assign Channel 280 to Crawfordsville instead of to West Lafayette since they feel that the Crawfordsville area is inadequately served at present by the local 250 watt AM station and the FM station (which normally operates only from September to April) at Crawfordsville and would benefit substantially from having a first "real" FM station.

11. To buttress their contention that Lafayette and West Lafayette are one market the Lafayette opponents of the proposed West Lafayette FM assignment state that, besides being adjacent communities in the same county and in the same urbanized and standard metropolitan statistical area, these cities are not considered separate cities by local residents and that the area of Lafayette and West Lafayette is known as Greater Lafayette; they also point out that these

cities are represented by a single Chamber of Commerce, known as the Greater Lafayette Chamber of Commerce; that there is one United Fund Service for both cities; that residents of each city shop and do business in both cities as distance is no factor, and that the banks, chainstores, and many other stores have branches and stores in both cities. Although Purdue University, the largest employer in the area, has its campus in West Lafayette, they inform that over half of the university's 6,000 employees live in Lafayette. Tiprad also observes that the proponent of the West Lafayette proposal in attempting to differentiate West Lafayette from Lafayette called attention to the number of growing industries in West Lafayette but that, of the five listed by Jurek, two are located in Lafayette (Lafayette Pipe Co. and Lafayette Pharmacal), and there is no listing in either city for a third (Warren Industrial Aggregate Corp.). Tiprad further notes that the proponent, in pointing to the growth of West Lafayette between 1960 and 1970, failed to mention that much of the growth was largely the result of annexation and that between 1968 and 1970 West Lafayette's population declined from 20,100 to 19,957.

12. In taking issue with Jurek's claim that West Lafayette needs a first local FM outlet, the Lafayette licensee opponents contend that he makes no showing that there is any dearth of service by existing stations to either West Lafayette or Lafayette or that his proposed West Lafayette FM assignment is needed to serve any unsatisfied local needs of the community. Tiprad notes that, based on plans revealed in a submitted excerpt in the Lafayette and West Lafayette Journal and Courier on May 23, 1972, and a submitted copy of an official county ordinance, it appears that Jurek intends to locate a studio and transmitter for its proposed West Lafayette FM operation southeast of Lafayette, thus placing the entire city of Lafayette between the station and West Lafayette and providing Lafayette with a better signal than West Lafayette, and to feature country and western music, old hit tunes, and news. It is submitted that such a program service could not possibly serve as a basis for adding an FM channel to an area which is already adequately served by existing media. To show that both communities are well served, examples of programs carried by the existing commercial and educational FM stations in the market are given. With its reply comments, Lafayette Broadcasting also submits letters from the mayors of Lafayette and West Lafayette and officials of the Greater Lafayette Chamber of Commerce which comment favorably on the local aural broadcast coverage given to news and special events in both cities.

13. As to the economic impact of an additional FM station in the Lafayette-West Lafayette market, Tiprad states that it is already a loss market for FM stations, pointing to the fact that FCC AM-FM Broadcast Financial Data for

1970 (Mimeo No. 78309, released January 6, 1972, Table 20) show that 1970 FM revenues were only \$54,160, based on reports from all three Lafayette commercial FM stations. Although no profit and loss figures are published for Lafayette-West Lafayette, it submits that it is inconceivable that three FM stations could split such revenues profitably. As for its own independent FM station (WXUS), Tiprad states that it has operated at significant losses since its inception but that it now sees some prospect of reversing this pattern. The advent of a fourth FM competitor for existing advertising revenues in this market would, it believes, significantly lessen or extinguish that possibility. Further, it claims that, in the face of reduced revenues which a new station is likely to bring, it is very likely that it would have to curtail the operating hours of Station WXUS, which now operates on a 24-hour-a-day basis, or give up the wire service (UPI) which it uses in order to reduce costs. Where loss markets, such as Lafayette-West Lafayette for FM stations, are concerned, Tiprad urges that it is no service to the community to further dilute the existing economic base by adding an additional station which can only have an adverse impact upon the existing media. It further claims that the economic base in the Lafayette-West Lafayette market primarily lies in Lafayette and not West Lafayette where there are only seven manufacturing establishments,\* six wholesale trade establishments,† and only 102 retail trade establishments as compared to nearly five times that number in Lafayette. Both Lafayette opponents also submit that there has been no showing by the West Lafayette proponent as to the ability of West Lafayette to support the proposed FM station.

14. In his reply comments, Jurek urges that it would be contrary to the mandate of section 307(b) to allocate frequencies in a fair, efficient, and equitable manner to prefer Crawfordsville over West Lafayette for the requested Channel 280A assignment since it is not only considerably smaller than West Lafayette but already has both an existing AM and FM station while West Lafayette has but one AM station. Moreover, he submits that the WCVL proposal for use of the channel has no potential to bring about greater diversification of the ownership of media of mass communication whereas his proposal for use of the channel has that potential.

15. We think it clear from this record that the assignment of Channel 280A to Crawfordsville for a second FM assignment is more in furtherance of the "307(b)" mandate and the public interest than would be the assignment of the channel to West Lafayette for a first such assignment. Taking into account only

\*Source given: 1967 Census of Manufacturers—Area Statistics, Indiana, 15-6, 15-7 (Pt. 1, Vol. III).

†Source given: 1967 Census of Business—Wholesale Trade, Indiana, Area Statistics, 16-11 (Vol. IV).

the size of each community and the number of local aural outlets each has, normally, we might conclude that West Lafayette warranted the proposed assignment over Crawfordsville. However, West Lafayette, albeit an independent community, is an integral part of the Lafayette-West Lafayette metropolitan area and, while it has only one local AM outlet actually located within its boundaries, it receives multiple local aural services also from the seven Lafayette stations (two AM, four FM, one of which is an educational station) which serve this metropolitan area. The West Lafayette proponent has made no showing which would demonstrate that West Lafayette has any local programming needs distinct from the rest of the Lafayette-West Lafayette metropolitan area or any which are not or cannot be satisfied by the eight existing aural commercial and educational stations in this market, and the showings of the Lafayette opponents tend to indicate that it is well served. We do not here assess the economic impact of another FM station in this market upon the existing local stations and overall program service to the public upon the showing made herein, or without an application with a specific proposal before us. Similarly, we make no finding concerning whether West Lafayette itself could provide the principal support for its own commercial FM outlet or could exist and thrive without looking to the larger community of Lafayette for support.

16. On the other hand, this record evidences that Crawfordsville and Montgomery County, due to the technical limitations restricting the coverage of the Crawfordsville AM outlet and the operating problems of the student-managed FM outlet there, is without even one local aural outlet which provides a county-wide, year-round broadcast service. Since Channel 280A is technically feasible for a Crawfordsville assignment, we think its assignment and use there to meet the need for a first year-round local aural service throughout all of Montgomery County represents a better use of the frequency and better serves the public interest than would its assignment and use at West Lafayette for an eighth aural outlet and service in the Lafayette-West Lafayette metropolitan area. We also are not deterred from making this assignment to Crawfordsville because of the claimed lack of potential of the WCVL proposal for implementing our important goals for greater diversification of broadcast ownership and programming sources. While this is a relevant consideration at the application stage, it cannot be realistically assessed in channel assignment proceedings such as this, for while WCVL, the licensee of the existing AM outlet at Crawfordsville, is the only one to indicate an interest in establishing a new FM outlet at Crawfordsville in this proceeding, it is by no means certain that it will be the only applicant or the successful applicant for Channel 280A once it is assigned. In any case, because of a number of overriding

public interest considerations, our rules at the present time do not preclude common ownership of AM and FM stations in the same market when otherwise found to be warranted in the public interest.

17. In view of the foregoing, and pursuant to the authority contained in sections 4(f), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended: *It is ordered, That effective April 23, 1973, the FM Table of assignments, § 73.202(b) of the rules, is amended, insofar as the community named is concerned, to read as follows:*

City	Channel No.
Crawfordsville, Ind.	280A, 292A

Canadian concurrence has been obtained for this channel assignment to Crawfordsville which is within 250 miles of the United States-Canadian border.

18. *It is further ordered, That the request (RM-1822) of Thomas Jurek to assign Channel 280A to West Lafayette, Ind., is denied.*

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1062, 1063; 47 U.S.C. 154, 303, 307)

19. *It is further ordered, That this proceeding is terminated.*

Adopted: March 7, 1973.

Released: March 13, 1973.

FEDERAL COMMUNICATIONS  
COMMISSION,  
[SEAL] BEN F. WAPLE,  
Secretary.

[FR Doc. 73-5095 Filed 3-15-73; 4:45 am]

**Title 49—Transportation**  
**CHAPTER I—DEPARTMENT OF**  
**TRANSPORTATION**  
**SUBCHAPTER B—OFFICE OF PIPELINE SAFETY**  
[Amdt. 195-6, Docket No. HM-6C]  
**PART 195—TRANSPORTATION OF**  
**LIQUIDS BY PIPELINE**  
**Telephonic Accident Reports**

The purpose of this amendment is to broaden the requirements of § 195.52 to provide for immediate notification of certain types of accidents not presently covered by that section.

On June 23, 1971, the Federal Railroad Administrator issued Notice 71-20 (36 FR 12175, June 28, 1971) proposing to amend the accident reporting requirements for operators of liquid pipelines. The public was given 60 days to comment and one commentator responded.

Subsequent to the issue of Notice 71-20, section 6(f) (3) (A) of the Department of Transportation Act (49 U.S.C. 1655(f) (3) (A)) was amended (Public Law 92-401, Aug. 22, 1972) to delete the authority of the Federal Railroad Administrator to carry out the liquid pipeline safety functions under 18 U.S.C. 831-835. On November 7, 1972, the Secretary delegated this authority to the Assistant Secretary for Safety and Con-

\*Commissioner Reid absent. See 37 FR 24353, Nov. 16, 1972.

sumer Affairs (37 FR 24674) and on the same day the Assistant Secretary redelegated it to the Director, Office of Pipeline Safety (37 FR 24901). The Office of Pipeline Safety (OPS) has reviewed this rule making action and has fully considered the comment received.

The commentator addressed several provisions of the proposed regulation. Overall, it was suggested that the proposed regulation was broader than § 195.50 and would require telephonic reporting of minor leaks for which no written report would be required. In this regard, it should be noted that § 195.50 prescribes the scope of Subpart B and therefore delimits the applicability of the other regulations therein. Consequently a leak or other failure would not have to be telephonically reported under new § 195.52 unless it also fell within the scope of the subpart as set forth in § 195.50. This has been clarified by referring to § 195.50 in § 195.52(a). In this connection, in order to be consistent with § 195.50, the amended § 195.52 employs the more comprehensive term "failure" rather than "leak."

The comment pointed out that the proposed paragraph (a) (2), which would have required telephonic reporting for taking a segment of pipeline out of service, was not appropriate for liquid pipelines. Such a requirement is necessary for gas pipelines, because of serious safety problems that can arise from taking a gas transmission pipeline out of service. In the case of liquid pipelines, however, they can be taken out of service at the discretion of the carrier without causing safety problems. The OPS agrees with this view and the proposed requirement has been deleted.

It was also suggested that the property damage and personal injury criteria are sufficient to assure immediate notification of all significant failures and that the requirement for reporting of fires and explosions could be deleted. However, the OPS believes that any failure resulting in an unintentional fire or explosion might be significant enough to warrant review by the Department even though there were no injuries and only limited property damage.

The commentator stated that the \$5,000 property damage amount in proposed paragraph (a) (4) was unrealistically low and should be set at \$20,000. Since damage to carrier-owned property is included and even minor repairs are very expensive, it was contended that the \$5,000 figure would impose an undue burden on the Department and the carriers. However, based on a review of accident reports, the OPS believes that the \$5,000 figure is a good indication of the potential significance of a failure, even if none of the other criteria are met. The requirement is, therefore, being retained as proposed.

The most significant disagreement was with the proposed requirement for immediate reporting of failures causing water pollution. The commentator objected strongly to this proposal on the basis that it duplicated existing requirements under 33 CFR 153.105 and could

easily be replaced by a simple communications arrangement within the Department between the cognizant office and the Coast Guard. It must be noted, however, that the reports required by 33 CFR 153.105 can be made either to Coast Guard officials or officials of other Government agencies. Furthermore, even if the report were made to the Coast Guard, the officials involved would normally be located in field offices, thus requiring more than one communication within the Department to convey the necessary information to the OPS. The possibility for delay or loss of essential facts makes this an unacceptable alternative. Direct reporting by the operator involved is necessary to assure prompt, reliable submission of information. However, to the extent the comment is based on the lack of an identifiable standard for pollution, the OPS agrees with the objection to the proposal. Therefore, for consistency and to provide the necessary standard, the requirement (now § 195.52(a) (4)) is amended to state the same criteria for pollution as are used in 33 CFR 153.105.

In consideration of the foregoing, Part 195 of Title 49 of the Code of Federal Regulations is amended as follows, effective April 19, 1973.

1. The index of sections for Part 195, Subpart B, is amended by revising the section heading of § 195.52 to read: "Telephonic notice of certain accidents."

2. Section 195.52 is amended to read as follows:

§ 195.52 Telephonic notice of certain accidents.

(a) At the earliest practicable moment following discovery of a release of the commodity transported resulting in an event described in § 195.50, each carrier shall give notice, in accordance with paragraph (b) of this section, of any failure that—

- (1) Caused a death or a personal injury requiring hospitalization;
- (2) Resulted in either a fire or explosion not intentionally set by the carrier;
- (3) Caused estimated damage to the property of the carrier or others, or both, of a total of \$5,000 or more;
- (4) Resulted in pollution of any stream, river, lake, reservoir, or other similar body of water that violated applicable water quality standards, caused a discoloration of the surface of the water or adjoining shoreline, or deposited a sludge or emulsion beneath the surface of the water or upon adjoining shorelines; or
- (5) In the judgment of the carrier, was significant even though it did not meet the criteria of any other subparagraph of this paragraph.

(b) Reports made under paragraph (a) of this section are made by telephone to area code 202, 426-0700 and must include the following information:

- (1) Name and address of the carrier.
- (2) Name and telephone number of the reporter.
- (3) The location of the failure.
- (4) The time of the failure.
- (5) The fatalities and personal injuries, if any.

(6) All other significant facts known by the carrier that are relevant to the cause of the failure or extent of the damages.

This amendment is made under the authority of sections 831-835 of title 18, United States Code, section 6(e) (4) of the Department of Transportation Act (49 U.S.C. 1655(e) (4)), § 1.58(d) of the regulations of the Office of the Secretary of Transportation (49 CFR 1.58(d)), and the redelegation of authority to the Director, Office of Pipeline Safety, set forth in Appendix A to Part 1 of the regulations of the Office of the Secretary of Transportation (49 CFR Part 1).

Issued in Washington, D.C., on March 13, 1973.

JOSEPH C. CALDWELL,  
Director,  
Office of Pipeline Safety.

[FR Doc. 73-5127 Filed 3-15-73; 8:45 am]

#### Title 7—Agriculture

Subtitle A—Office of the Secretary of Agriculture

#### PART 6—IMPORT QUOTAS AND FEES

Subpart—Section 22 Import Quotas

##### IMPORT RESTRICTIONS

The subpart, section 22 Import Quotas, is amended to change the price, determined by the Secretary of Agriculture in accordance with headnote 3(a) (v) of part 3 of the Appendix to the Tariff Schedules of the United States, which is used as a basis for establishing import restrictions under section 22 on certain cheese. The change from 62 to 69 cents per pound is required since one of the factors used in determining such price (the Commodity Credit Corporation purchase price for Cheddar Cheese under the milk price support program) will be increased as of March 15, 1973.

The subpart, section 22 Import Quotas, of Part 6, Subtitle A of Title 7, is amended as follows:

1. Section 6.16, under the heading "Price Determination for Certain Quotas", is amended to read as follows:

##### § 6.16 Price determination.

The price referred to in items 950.10B through 950.10E of part 3 of the Appendix to the Tariff Schedules, determined by the Secretary of Agriculture in accordance with headnote 3(a) (v) of said Part 3, is 69 cents per pound. This price shall continue in effect until changed by amendment of this section.

2. Group V of Appendix 1, under the heading "Licensing Regulations", is amended by changing the description appearing immediately below "Group V" to read as follows:

Cheese described below, if shipped otherwise than in pursuance to a purchase, or if having a purchase price under 69 cents per pound.

The foregoing amendment shall be effective March 15, 1973. In accordance with headnote 3(a) (v) of part 3 of the Appendix to the Tariff Schedules of the

United States, the change in price effected by this amendment will not make the import restrictions contained in items 950.10B through 950.10E of Part 3 of the Appendix to the Tariff Schedules of the United States applicable to cheese having a purchase price of 62 or more cents per pound if such cheese had been exported to the United States on a through bill of lading or had been placed in bonded warehouse on or before the date of publication in the Federal Register of this amendment. Since the action taken herewith involves foreign affairs functions of the United States, this amendment falls within the foreign affairs exception to the notice and effective date provisions of 5 U.S.C. 553.

(Sec. 3, 62 Stat. 1248, as amended, 7 U.S.C. 624; Part 3 of the Appendix to the Tariff Schedules of the United States, 19 U.S.C. 1202)

Issued at Washington, D.C., this 14th day of March 1973.

EARL L. BUTZ,  
Secretary of Agriculture.

[FR Doc. 73-5268 Filed 3-15-73; 11:29 am]

#### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 577]

#### PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

##### Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period March 18-24, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act, of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

##### § 910.877 Lemon Regulation 577.

(a) Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(1) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is steady this week, with desirable sizes commanding premium prices because they are in short supply. Average f.o.b. price was \$5.69 per carton the week ended March 10, 1973 compared to \$5.58 per carton the previous week. Track and rolling supplies at 126 cars were up 25 cars from last week.

(1) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the Federal Register (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation for regulation together with its supporting information has been submitted by the committee, however, the Secretary had modified the recommendation to provide for the shipment of a greater quantity of lemons, retaining the same effective date, and such information is being disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on March 13, 1973.

(b) Order. (1) The quantity of lemons grown in California and Arizona which may be handled during the period March 18, 1973, through March 24, 1973, is hereby fixed at 250,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Title III, Public Law 91-670, 84 Stat. 2041; 7 U.S.C. 2611-2627)

Effective date: This amendment to become effective March 16.

Dated: March 12, 1973.

CHARLES R. BRADER,  
Acting Deputy Director, Fruit  
and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 73-5081 Filed 3-15-73; 8:45 am]

#### CHAPTER XI—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MISCELLANEOUS COMMODITIES), DEPARTMENT OF AGRICULTURE

[Amdt. 1]

#### PART 1207—POTATO RESEARCH AND PROMOTION PLAN

##### Subpart—Rules and Regulations

This amendment adds a new section to the rules and regulations by establishing a revised date to begin the term of office for the National Potato Promotion Board so that newly appointed members may participate in the Board's annual meeting set for the first Monday in April. The Board was established pursuant to the Potato Research and Promotion Plan (7 CFR Part 1207). This plan is effective under the Potato Research and Promotion Act (title III of Public Law 91-670; 84 Stat. 2041).

Upon unanimous recommendation of the National Potato Promotion Board, the term of office for Board members is amended to begin on April 1 and to end of March 31, 3 years thereafter.

A new section, 1207.504, is hereby added to the rules and regulations to read as follows:

##### § 1207.504 Term of office.

(a) Pursuant to § 1207.321 of the plan, the term of office of Board members is amended to begin April 1 and end on March 31. Such term shall be for 3 years except for initial members serving unexpired terms.

(b) Board members shall serve during the term of office for which they are selected and have qualified and until their successors are selected and have qualified.

Findings. It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice or engage in public rule making procedure and that good cause exists for not postponing the effective date of this section until 30 days after its publication in the Federal Register (5 U.S.C. 553) in that

(1) this amendment was unanimously recommended by the Board, (2) this amendment does not impose any added restrictions on handlers or producers and

is favored by the Board members whose terms will be affected thereby and (3) prompt issuance is necessary so newly nominated Board members may begin their term prior to the Board's annual meeting the first Monday in April and thus participate in initial decisions for the ensuing marketing year.

(Title III, Public Law 91-670, 84 Stat. 2041; 7 U.S.C. 2611-2627)

Effective date: This amendment to become effective March 16.

Dated: March 12, 1973.

CHARLES R. BRADER,  
Acting Deputy Director, Fruit  
and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 73-5081 Filed 3-15-73; 8:45 am]

#### CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

##### SUBCHAPTER B—LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES [FHA Instruction 444.1]

#### PART 1822—RURAL HOUSING LOANS AND GRANTS

##### Loan Limitations

Section 1822.7(f) of Subpart A of Part 1822, Title 7, Code of Federal Regulations (35 FR 14901) is amended to permit loans up to the market value of the security to be made only on homes that are more than 1 year old or in the case of newly built homes, the construction inspections are made by the Farmers Home Administration, the Federal Housing Administration, or the Veterans Administration while the work is being done. Loans on homes that do not meet these requirements are limited to 90 percent of the market value of the security.

This amendment is being published without prior rulemaking, because to proceed with rulemaking would be impracticable since advance notice of the action being taken would enable home builders and developers to circumvent certain limitations which are included in the amendment for the protection of borrowers. The amendment will limit the amount of loan authorized on homes not inspected during construction unless the home is more than 1 year old. It will be applicable to all homes on which construction is started after March 14, 1973, and to any homes started before that date for which a rural housing loan application has not been filed, in good faith by an eligible applicant to buy the house, within 90 days after the date of this publication. This amendment will better protect the interest of the family buying the home and of the Government. As amended, the revised § 1822.7(f) will read as follows:

##### § 1822.7 Special requirements.

(f) Loan limitations. (1) Subject to the conditions of paragraphs (f) (3) and (4) of this section no loan will be made

that will exceed the amounts described in paragraph (f) (1) (i), (ii), or (iii) of this section.

(1) The market value of the security property less the unpaid principal balance plus past-due interest on any other liens against the security property unless the loan approval official determines that:

(A) The amount by which the market value is exceeded is all or part of a lien held by a public body, hospital, or welfare institution for advances made to or for the applicant family for hospital or medical bills or welfare payments, or State motor vehicle judgments, and

(B) The borrower is unable to settle or compromise such other lien sufficiently to avoid exceeding the market value, and

(C) The lien securing the excess amount will at all times be inferior to the FHA mortgage securing the initial loan and any subsequent loan or advances determined by the FHA to be reasonably necessary to carry out the purpose of the initial loan or to protect the Government's financial interest, and

(D) The existence of the excess lien will not adversely affect the security or servicing so as to preclude the making of a sound RH loan, and

(E) The borrower has the ability to meet any payments on the excess debt as they become due or are likely to become due.

(1) In a note-only case, the market value of the applicant's equity in assets that would be acceptable as security for the loan as determined by the loan approval official.

(2) A loan docket will not be developed when a loan plus any other liens against the security would be significantly in excess of the market value of the security as recommended by the appraiser. In an unusual case, however, the amount of a loan needed for success plus any other liens that will be against the security is slightly above the recommended market value of the security and the County Supervisor believes that the loan should be made. In such a case, the completed loan docket will be submitted to the State Office for a determination as to whether it is justifiable to establish the market value of the security above the appraiser's recommended value. If the State Director determines that the market value is in excess of the appraiser's recommended value, the State Director will record his determination of the market value of the security on Form FHA 440-3, "Record of Actions." This authority will not be redelegated below the State Office level.

(3) For an RH loan to buy or build a dwelling, a loan up to the market value of the security may be made only for:

(A) A newly built dwelling for which: (A) A conditional commitment was issued in accordance with Subpart H of this part, or

(B) The RH loan will be closed prior to the start of construction, or

(C) Construction is performed in accordance with § 1822.19, or

## RULES AND REGULATIONS

(D) The required construction inspections were made by the Federal Housing Administration or the Veterans Administration and there is evidence that the dwelling has been completed in accordance with the approved plans and specifications. Evidence may consist of copies of the Federal Housing Administration or Veterans Administration final inspection report, documentation by the County Supervisor that he has seen a copy of such inspection report, or a letter from the Federal Housing Administration or

Veterans Administration stating that the dwelling was built in accordance with approved plans and specifications.

(II) An existing dwelling which is more than a year old.

(III) Other dwellings on which construction was started prior to March 16, 1973, provided that a loan application is filed, in good faith by an eligible applicant to buy the dwelling, on or before June 14, 1973.

(4) The maximum amount of RH loan on any dwelling that does not meet the requirements of paragraph (f) (3) (I),

(II), or (III) of this section is 90 percent of the market value of the security.

(Sec. 510, 63 Stat. 437, 42 U.S.C. 1480; Orders of Act. Sec. of Agr., 36 FR 21528, 37 FR 22008)

**Effective date.** This amendment shall become effective on March 14, 1973.

Dated: March 8, 1973.

DARREL A. DUNN,  
Associate Administrator,  
Farmers Home Administration.

## DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

[ 26 CFR Parts 250, 275 ]

## PUERTO RICO AND THE VIRGIN ISLANDS

Liquors and Other Articles; Importation of Cigars, Cigarettes, and Cigarette Papers and Tubes

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Director, Bureau of Alcohol, Tobacco and Firearms, and the Commissioner of Customs, with the approval of the Secretary of the Treasury or his delegate. Prior to final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Director, Bureau of Alcohol, Tobacco and Firearms, Washington, D.C. 20226, on or before April 16, 1973. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Director, within the 30-day period. In such a case, a public hearing will be held and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

REX D. DAVIS,  
Director, Bureau of  
Alcohol, Tobacco and Firearms.  
[SEAL] EDWIN F. RAINS,  
Acting Commissioner of Customs.

Approved: March 8, 1973.

EDWARD L. MORGAN,  
Assistant Secretary of the  
Treasury.

In order to (1) permit deferral, until the last day of the next succeeding return period, of the filing of tax returns and payment of taxes in Puerto Rico on alcoholic and tobacco products shipped from Puerto Rico to the United States, (2) require that applications for modifi-

## Proposed Rule Making

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

cation of Forms 52A, 52B, and 338 be submitted in triplicate, and (3) make certain definitional changes, the regulations in 26 CFR Parts 250 and 275 are amended as follows:

PARAGRAPH A. Title 26 CFR Part 250 is amended as follows:

1. Paragraph (e) of § 250.112 is amended to provide an extended deferral period and to permit delay in filing returns when the last day for filing comes on a Saturday, Sunday, or legal holiday in Puerto Rico or in the District of Columbia. As amended, paragraph (e) reads as follows:

§ 250.112 Taxes to be collected by returns for semimonthly periods.

(e) **Filing.** The original and two copies of returns on Forms 2901, 2927, and 2929, with remittance covering the full amount of the tax, shall be filed with the Officer in Charge not later than the 3d business day next succeeding the last day of the return period: *Provided*, That a proprietor who is qualified for extended deferral, as provided in § 250.112a, shall file returns, with remittances, for each return period, not later than the last day of the next succeeding return period. Where the return and remittance are delivered by U.S. mail to the office of the Officer in Charge, the date of the official postmark of the U.S. post office stamped on the cover in which the return and remittance were mailed shall be deemed to be the date of delivery. If the last day for filing a return under this paragraph falls on a Saturday, Sunday, or legal holiday in the District of Columbia or in the Commonwealth of Puerto Rico, the filing of such return and remittance shall be considered timely if accomplished on the next succeeding day which is not a Saturday, Sunday, or such legal holiday.

2. A new § 250.112a, covering qualification for extended deferral, is added immediately following § 250.112 and reads as follows:

§ 250.112a Qualification for extended deferral.

(a) **Proprietors with bonds executed before (effective date).** Proprietors with bonds on Forms 2896, 2897, or 2898 executed before (effective date), who desire to file returns under this subpart with benefit of the extended deferral permitted by § 250.112(e), shall file with the Officer in Charge a consent of surety on Form 1533 to extend the terms of the bond. Each consent on Form 1533 shall

identify the particular bond to which it applies and shall contain a statement of purpose as follows:

To continue in effect said bond (including all extensions and limitations of terms and conditions previously consented to and approved), notwithstanding that the time for payment of the tax may be deferred by the extended deferral period permitted by regulations in 26 CFR 250.112(e).

If the bond on Form 2896, 2897, or 2898 is in a penal sum insufficient to cover an extended deferral period, according to the requirements of § 250.66, § 250.67, or § 250.68, as applicable, the proprietor must either file a new bond or file a strengthening bond to increase the total penal sum of the bonds then in force to a sufficient penal sum.

(b) **Proprietors with bonds executed after (effective date).** Proprietors operating under original or superseding bonds executed after (effective date) are automatically qualified for the extended deferral permitted by § 250.112(e) (unless found in default as provided in § 250.112(f)). Such bonds must be executed in a penal sum sufficient to cover an extended deferral period, according to the requirements of § 250.66, § 250.67, or § 250.68, as applicable.

(c) **Commencement of extended deferral.** Proprietors may file returns with benefit of extended deferral only after the applicable bonds and consents of surety required by this section have been filed with and approved by the Officer in Charge.

(68A Stat. 847, as amended, 907, as amended; 26 U.S.C. 7101, 7652(a))

3. Sections 250.165 and 250.274 are amended to specify the number of applications to be submitted. As amended, §§ 250.165 and 250.274 read as follows:

§ 250.165 Forms to be provided by users at own expense.

Forms 52A, 52B, and 338 shall be purchased by users from commercial printers and must be in the form prescribed: *Provided*, That upon written application, in triplicate, to the Director, Bureau of Alcohol, Tobacco and Firearms, approval may be granted to modify these forms for use in tabulating or other mechanical equipment.

(72 Stat. 1342, 1395; 26 U.S.C. 5114, 5555)

§ 250.274 Forms to be provided by users at own expense.

Forms 52A, 52B, and 338 shall be provided by users at their own expense and must be in the form prescribed: *Pro-*

vided. That upon written application, in triplicate, to the Director, Bureau of Alcohol, Tobacco and Firearms, approval may be granted to modify these forms for use in tabulating or other mechanical equipment.

(72 Stat. 1342, 1395; 26 U.S.C. 5114, 5555)

PAR. B. Title 26 CFR Part 275 is amended as follows:

1. Section 275.11 is amended by revising the definitions of "Assistant regional commissioner" and "Director"; by adding, in alphabetical order, definitions of "Regional director" and "Business day"; and by eliminating the definitions of "Commissioner" and "Regional commissioner." As amended and added these definitions read as follows:

§ 275.11 Meaning of terms.

*Assistant regional commissioner.* Wherever used in this part shall mean a regional director as defined in this section.

*Business day.* Any day, other than a Saturday, Sunday, or a legal holiday. (The term legal holiday includes all holidays in the District of Columbia and, in the case of bonded manufacturers in Puerto Rico, all legal holidays in the Commonwealth of Puerto Rico.)

*Director.* The Director, Bureau of Alcohol, Tobacco and Firearms, the Department of the Treasury, Washington, D.C.

*Regional director.* A regional director who is responsible to, and functions under the direction and supervision of, the Director.

2. Section 275.114 is amended to provide an extended deferral period and to permit delay in filing returns when the last day for filing comes on a Saturday, Sunday, or legal holiday in Puerto Rico or in the District of Columbia. As amended, § 275.114 reads as follows:

§ 275.114 Time of filing.

Every semimonthly tax return under this subpart shall be filed by the bonded manufacturer not later than the third business day succeeding the last calendar day of the return period: *Provided*, That if a bonded manufacturer is qualified for extended deferral, as provided in § 275.114a, he shall file returns, with remittances, for each return period, not later than the last day of the next succeeding return period. If the return and remittance are delivered by U.S. mail to the office of the Officer in Charge, the date of the official postmark of the U.S. post office stamped on the cover in which the return and remittance were mailed shall be deemed to be the date of delivery. If the last day for filing a return under this section falls on a Saturday, Sunday, or legal holiday in the District of Columbia or in the Commonwealth of Puerto Rico, the filing of such return and remittance shall be considered

timely if accomplished on the next succeeding day which is not a Saturday, Sunday, or such legal holiday. The Officer in Charge will transmit a receipted copy of the semimonthly tax return to the bonded manufacturer who filed the return and paid the tax, retain one copy, and forward one copy to the Regional Director, Bureau of Alcohol, Tobacco and Firearms, New York, N.Y.

3. A new § 275.114a, covering qualification for extended deferral, is added immediately following § 275.114 and reads as follows:

§ 275.114a Qualification for extended deferral.

(a) *Bonded manufacturers with bonds executed before (effective date).* Bonded manufacturers with bonds on Form 2986 executed before (effective date), who desire to file returns under this subpart with benefit of the extended deferral permitted by § 275.114, shall file with the Officer in Charge an extension of coverage of bond on Form 2105. Such extension of coverage shall identify the particular bond to which it applies and shall contain a statement of purpose as follows:

To continue in effect said bond (including all extensions or limitations of terms and conditions previously consented to and approved) notwithstanding that the time for payment of the tax may be deferred by the extended deferral period permitted by regulations in 26 CFR 275.114.

If the bond on Form 2986 is in a penal sum insufficient to cover an extended deferral period, according to the requirements of § 275.121, the bonded manufacturer must either file a new bond or file a strengthening bond to increase the total penal sum of the bonds then in force to a sufficient penal sum.

(b) *Bonded manufacturers with bonds executed after (effective date).* Bonded manufacturers operating under original or superseding bonds executed after (effective date) are automatically qualified for the extended deferral permitted by § 275.114 (unless found in default as provided in § 275.116). Such bonds must be executed in a penal sum sufficient to cover an extended deferral period, according to the requirements of § 275.121.

(c) *Commencement of extended deferral.* Bonded manufacturers may file returns with benefit of extended deferral only after the applicable bonds and extensions of coverage required by this section have been filed with and approved by the Officer in Charge.

(68A Stat. 847, as amended, 907, as amended; 26 U.S.C. 7101, 7652(a))

4. Section 275.124 is amended to refer to the requirements of § 275.114a regarding extensions of coverage of bonds. As amended, § 275.124 reads as follows:

§ 275.124 Extension of coverage of bond.

An extension of coverage of the bond of a bonded manufacturer shall be required (a) as provided in § 275.114a, and (b) in the case of any change in the location of the factory as set forth in the bond. Such extension of coverage of the
